Comptroller and Auditor General—Amyas Morse
Parliamentary and Health Service Ombudsman—Ann Abraham

Written Ministerial Statements

Monday 20 April 2009

TREASURY

EU Co-operation Agreements (Tobacco Manufacturers)

The Exchequer Secretary to the Treasury (Angela Eagle): Today the United Kingdom signed: (1) the anti-contraband and anti-counterfeit agreement and general release between the European Community, the member states and the Philip Morris group of companies; and (2) the co-operation agreement between the European Community, the member states and the Japan Tobacco International group of companies. The texts of the agreements are published on the website of the European Commission Anti-Fraud Office.

HOME DEPARTMENT

Consultation Documents

The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Vernon Coaker): On Friday 17 April I published a consultation paper entitled "Regulation of Investigatory Powers Act 2000: Consolidating Orders and Codes of Practice". Today I have published consultations on "Working Together to Protect Crowded Places" and "Safer Places: A Counter Terrorism Supplement".

I will make copies of each of these consultations available in the Vote Office and place copies in the Library of the House.

Language Analysis (Race Relations Act 1976)

The Minister for Borders and Immigration (Mr. Phil Woolas): I have made an authorisation under section 19D of the Race Relations Act 1976 as amended, to enable the Secretary of State to request that asylum applicants claiming to be nationals of Afghanistan submit to language analysis.

Language analysis carried out for some Afghan asylum applicants demonstrates that significant proportions of those tested have claimed to be of a nationality, or from a region or grouping, that is not their own in order to try to gain residence in this country. This authorisation will assist the Secretary of State to make decisions in individual Afghan cases, and to ascertain the extent of abuse within this nationality.

The Secretary of State may take a refusal to submit to testing into account when determining whether an applicant has assisted in establishing the facts of his case or her case.

The authorisation will remain in place for 12 months (until April 2010), at which point we will review whether it is still necessary and appropriate.

I am placing copies of the authorisation in the Libraries of both Houses.

JUSTICE

HMP Ashwell

The Minister of State, Ministry of Justice (Mr. David Hanson): A serious disturbance involving over 400 prisoners took place at HMP Ashwell, near Oakham in Rutland on Saturday 11 April. HMP Ashwell is a category C training prison. HMP Ashwell was originally an open prison fenced to upgrade it to category C in the 1980s. The older part of the prison held 425 prisoners in non-cellular; the rooms the prisoners were held in do not have bars or grille gates to secure them. The newer part of the prison held 194 prisoners in cellular accommodation. The disturbance was entirely within the insecure old prison site. The cellular accommodation was not damaged and is still in use.

The disturbance began at 01.00 am and ended at 10.45 pm on the same day. The Silver Command suite at the prison and the Gold Command suite at NOMS HQ in London, which can quickly call on national resources to handle serious incidents, was swiftly opened, and Ministers were informed.

The incident started with a young prisoner, aged 22 serving a three-year sentence, confronting staff when ordered to return to his room refusing and beginning to cause damage and being joined by others. This quickly escalated. Staff initially secured the office and then evacuated from the old part of the prison. No member of staff was injured or directly attacked. Once staff had withdrawn, the damage continued with fires lit and fittings and fabric smashed and damaged.

Riot trained prison officers were called out and the police very promptly secured the perimeter. Intervention did not take place because there was no available accommodation in which to secure the perpetrators. Instead escort vans were directed to the prison and a planned removal of 424 prisoners to 26 other prisons took place during the afternoon and evening of Saturday 11 April. This was a well executed operation with a final sweep of the prison by riot trained officers identifying and removing the three remaining prisoners who had not come forward to be evacuated.

The incident finished at around 10.30 pm when all prisoners were accounted for. No staff were injured or directly attacked and there were minor injuries to only three prisoners.

The damage done to three of the old wings appears to be substantial although the rest of the prison is either undamaged or sustained superficial damage.

The Gold Command suite at NOMS headquarters in London remained open until 2.30 am on 12 April to double check that all named individual prisoners transferred out were accounted for and to verify that the roll at Ashwell, as confirmed by the Governor at 10.30 pm, was correct.

The events at Ashwell are now the subject of a police investigation and a large proportion of the site remains a crime scene. There is a continuing prison service investigation, which will be scrutinised by a committee of the corporate management board of the Ministry of Justice and by Ministers, who will consider what further action needs to be taken. I will make the findings of the investigation and our conclusions on it available to the House in due course.

At the time of the disturbance Ashwell held 611 prisoners against its operational capacity of 619.

There was a full complement of night staff on duty. There have been no recent reductions in operational staffing levels or reductions to regime.

There has been speculation that the prison held prisoners other than category C. This was not the case. All the prisoners in Ashwell were assessed as category C prisoners.

This disturbance was brought to a conclusion by the skill and courage of a wide range of committed professionals. My right hon. Friend the Secretary of State has already publicly thanked not only the National Offender Management Service staff at Ashwell, at the establishments who provided "Tornado" (riot trained prison officers) support and those prisons who received prisoners at short notice, but also national resources, escort services and colleagues who staffed the Gold and Silver Command suites. Thanks have also gone to the local Police and Fire Services and to staff at Leicester Royal Infirmary. My noble Friend Lord Bach visited the site on Saturday evening and I visited HMP Ashwell on Sunday 12 April. We were both most impressed with the work already under way to deal with the impact of the incident.

The public should be re-assured that on the rare occasions when incidents such as this happen, there are such professional and dedicated staff from many agencies acting to protect them. The incident at HMP Ashwell was well managed and the public were not put at risk; no prisoners escaped and no staff were injured.

PRIME MINISTER

NATO Summit

The Prime Minister (Mr. Gordon Brown): I attended the Summit meeting of NATO Heads of State and Government in Strasbourg and Kehl from 3 to 4 April 2009, accompanied by my right hon. Friend the Foreign Secretary and my right hon. Friend the Defence Secretary.

The Summit marked the 60th anniversary of the Alliance. Leaders welcomed President Sarkozy's decision to bring France back into NATO's military structures and welcomed Croatia and Albania as new members of the Alliance. We unanimously appointed former Danish Prime Minister Anders Fogh Rasmussen as the next Secretary-General.

Sixty years on from the signature of the North Atlantic Treaty, the defining security issue of our time for NATO, and the biggest endeavour in which NATO is engaged, is Afghanistan. Leaders paid tribute to the courage, dedication and professionalism of our forces, serving on behalf of their country and the Alliance in difficult and dangerous conditions. We reaffirmed their commitment to establishing security in Afghanistan—vital to the stability of the region as well as to our national security of NATO members—and to working with the Afghan Government to build a stable, democratic Afghanistan for the future. With presidential elections due in the next few months, Allies committed to strengthen our efforts on security in this crucial period. I reaffirmed the UK's continued commitment to Afghanistan where we will remain the second largest troop contributor. I made clear that we are prepared to send additional troops to Afghanistan as part of the wider NATO effort to strengthen security over the elections as well as to ensure that our forces are properly protected from the growing threat from roadside bombs. Many other nations agreed to provide additional support: Germany, Spain, the Netherlands, Portugal, Italy, Greece, Poland, Turkey and Croatia all committed to increase their contributions, demonstrating that burden-sharing over the critical electoral period will be a reality.

Allies also committed to a series of new initiatives to continue the gradual shift of focus of our military effort towards training and mentoring the Afghan security forces, including a new NATO training mission in Afghanistan and deployment of additional trainers and mentors for the Afghan police. Leaders welcomed President Obama's decision to deploy an extra 4,000 troops to Afghanistan dedicated to training. The UK will also contribute to the Afghan National Army Trust Fund and make a further contribution to the UK-France helicopter initiative which is set to increase the numbers of NATO helicopters in Afghanistan over the next two years.

As the UK has made clear previously and as was emphasised in the bold new vision for Afghanistan and Pakistan set out by President Obama at the Summit, success cannot be delivered by military force alone. We must also strengthen our civilian efforts, working with the government of Afghanistan to improve governance at national, provincial, and district level, and to provide the support necessary for economic development. We look to President Karzai's Government to continue and enhance its work to tackle corruption and the drugs trade.

Leaders also discussed the future of the Alliance and set out a radical plan to transform NATO to reflect the security challenges of the 21st Century. The Declaration on Alliance Security agreed at the Summit will initiate work to revise NATO's strategic concept. This will be a crucial opportunity to drive forward the reform and modernisation of NATO and its capabilities, building on the progress achieved at the London Ministerial on reform hosted by the UK last year. I also set out a British proposal to establish a new Alliance Solidarity Force, which will be a multinational force approximately 1,500 strong, drawn from the existing NATO response forces, capable of being deployed more rapidly than current response forces on operations involving territorial defence and overseas crisis management.

The new Secretary-General will have a critical role in driving forward this agenda for change. The UK will work closely with him, and with all our Allies between now and the next Summit, which will be held in Portugal, to ensure that NATO continues to deliver security at home and operational success overseas.

Written Ministerial Statements

Tuesday 21 April 2009

COMMUNITIES AND LOCAL GOVERNMENT

Homeowners'Mortgage Support

The Minister for Housing (Margaret Beckett): Today I am announcing that new support to help homeowners remain in their home if they fall on difficult times will now be available. Homeowners Mortgage Support (HMS) will enable eligible borrowers to reduce their monthly mortgage interest payments to affordable levels for up to two years to help them get back on track with their finances if they suffer a temporary loss of income.

This new support builds on a range of measures the Government have already put in place to ensure that repossession is only ever a last a resort.

From today, the following major high street lenders will offer their customers HMS: Lloyds Bank Group (which includes Halifax and Bank of Scotland), Bradford and Bingley, Northern Rock, the Royal Bank of Scotland (which includes NatWest and Ulster Bank), Cumberland Building Society, and the National Australia Bank Group (which includes Clydesdale and Yorkshire Bank).

A number of other banks, building societies and specialist lenders have also confirmed today that they will offer their customers HMS as soon as possible. These are Bank of Ireland (which includes Bristol and West), GMAC, GE Money, Kensington Mortgages, Standard Life Bank, and the Post Office.

Lenders offering HMS will have the security of a Government guarantee if the borrower defaults.

At the same time, four other high street lenders, Barclays (including First Plus), HSBC, Nationwide and Santander (including Abbey and Alliance and Leicester) have all confirmed today they are offering comparable arrangements to their customers, while opting not to take up the Government guarantee. Customers of these institutions experiencing a reduction in income and willing to make regular monthly payments will receive a similar level of support and be encouraged to seek independent money advice.

As a result of today's announcement, lenders covering more than 80 per cent of the mortgage market will now be providing enhanced support to their customers. Borrowers will receive independent money advice as part of these changes to help them make the right decisions for their circumstances. The door will remain open for further lenders to join the scheme, and we will be working actively with the sector to enable this.

HMS does not provide consumers with a payment holiday. The mortgage interest payments that have been deferred will eventually have to be paid back.

Households will need to seek independent money advice before signing up to the scheme to make sure they understand the consequences of participating. We have been working closely with Shelter, Citizens Advice Bureau, Consumer Credit Counselling Service, National Debtline and PayPlan to ensure they are ready to provide advice on the scheme, including making £2.5 million available for advice agencies to support the delivery of the scheme.

Homeowners Mortgage Support is part of the Government's offer of real help for homeowners who are struggling to keep up with their mortgage payments. It is the latest element of the extra support put in place for homeowners which includes:

£25 million in additional funding for debt advice services;

A new pre-action protocol which sets out guidance from the judiciary on the steps that a lender is expected to take before taking action to repossess;

For those households whose cases reach court, free legal advice or an appropriate alternative, is available across the country;

Enhancements to the Support for Mortgage Interest (SMI) support available to out of work households; and,

A new Mortgage Rescue Scheme targeted at vulnerable households.

Homeowners are also protected through FSA regulation, including the expectation of fair treatment for customers.

A final impact assessment, setting out the estimated costs and benefits of Homeowners Mortgage Support, is also being published today. This is available to download from:

http://www.communities.gov.uk/housing/buyingselling/mortgagesupportscheme/

Further information, including eligibility criteria for households and full list of lenders working with us to offer this option to households is available at: http://www.communities.gov.uk/housing/buyingselling/mortgagesupportscheme/

A consumer guide to the scheme can be found at: www.direct.gov.uk/HMS.

DEFENCE

Nuclear Test Veterans' Health Research

The Parliamentary Under-Secretary of State for Defence (Mr. Kevan Jones): The Government have been actively engaging with the concerns expressed by our nuclear test veterans that they and their offspring have been adversely affected by their participation in the British nuclear tests of the 1950s and 1960s.

The wider published peer-reviewed epidemiological evidence to date has not demonstrated a general link between veterans' ill-health and participation in the tests. Similarly there is no peer-reviewed evidence suggesting that their children and grandchildren are at increased risk of genetic abnormalities.

The Government are, however, determined to address the ongoing concerns of nuclear test veterans. I had a constructive meeting with the British Nuclear Test Veterans Association (BNTVA) and interested MPs on Monday 20 April. I am pleased to report that the BNTVA have agreed to help identify a representative sample of veterans and their descendants with a view to conducting an assessment of their health needs. I therefore announce today an intention that the Ministry of Defence will work with veterans and experts to finalise the details of research to investigate the particular health needs of nuclear test veterans and their offspring with a view to identifying priorities and taking action to improve health. I also intend some follow-up to last year's New Zealand chromosome study. The aim will be for projects to be of practical relevance to veterans with results delivered to a reasonable time scale. The work will be tendered in the normal manner and should be under way before the end of this year. A working group including representatives from the BNTVA will be established to take these projects forward.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Draft Flood and Water Management Bill

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): A draft Flood and Water Management Bill for England and Wales and a consultation paper will be laid before Parliament today. Copies of the draft Bill and associated documents will be available in the Vote Office and have been placed in the Library of the House. The draft Bill and the consultation paper set out the Government's proposals to improve flood risk management and ensure water supplies are more secure, and the consultation period will close on 24 July. I am inviting the Environment, Food and Rural Affairs Select Committee to scrutinise this draft Bill in the coming weeks.

The aims of the draft Bill will be to:

reduce the likelihood and impact of flooding;

improve our ability to manage the risk of flooding, by clarifying who is responsible for what;

improve water quality;

give water companies better powers to conserve water during drought;

reduce red tape and other burdens on water and sewerage companies;

improve the overall efficiency and management of the water industry; and

reduce pollution and improve water quality.

The draft Bill will implement the key recommendations made in Sir Michael Pitt's independent review into the summer 2007 floods, as promised in the Government's response in December. It includes giving local authorities a clear leadership role in local flood risk management, encompassing all sources of flooding. It would also introduce a modern risk-based approach to reservoir safety to replace the current system where regulation depends on size rather than the risk posed to surrounding communities.

In addition to the provisions on flooding, the draft Bill includes measures to improve conservation of water in times of drought and the regulation of the water industry, and it will enable water companies to develop new ways of delivering very large infrastructure projects.

The draft Bill and associated consultation paper cover all the remaining legislation necessary to give full effect to the Government's policy statements "Making space for water" and "Future Water".

The documents will also be available on the DEFRA website at: http://www.defra.gov.uk/environ/fcd/floodsandwaterbill.htm

FOREIGN AND COMMONWEALTH OFFICE

Israel (UK Strategic Export Controls)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): I am taking this opportunity to update Parliament, following my answers on 19 January, *Official Report*, column 514, on whether UK-supplied equipment may have been used by the Israeli Defence Forces (IDF) during the recent conflict in Gaza.

All strategically controlled exports from the UK—both military and dual-use goods—require an export licence, issued by the Department for Business, Enterprise and Regulatory Reform on the basis of advice from the Foreign and Commonwealth Office and the Ministry of Defence and, in relevant cases, the Department for International Development. Applications are assessed against the consolidated EU and national arms export licensing criteria and any other relevant announced policy. There are eight criteria, which set out the basis on which applications will be assessed. The most important criteria in relation to exports to Israel are as follows:

> Criterion 2 (we will not issue an export licence where there is a clear risk that the export might be used for internal repression), criterion 3 (we will not issue licences for exports which would provoke or prolong armed conflicts or aggravate existing tensions or conflicts in the country of final destination), criterion 4 (preservation of regional peace, security and stability), and criterion 7 (the risk that the equipment will be diverted within the buyer country or re-exported under undesirable conditions).

Estimates suggest that Israel buys over 95 per cent. of its military requirements from the US. The EU accounts for a proportion of the remainder. The UK is estimated as accounting for less than 1 per cent. of total Israeli military exports. Of the goods licensed by the UK, a significant proportion will have been for dual use goods for non-military use, or for goods for incorporation in Israel before onward export to a third country. Of the military goods licensed from the UK, the majority have been for components rather than complete systems or sub-systems. Many of the licences we have identified covering military equipment were for components for incorporation into US-manufactured platforms which were then re-exported to Israel.

I will start by dealing with the equipment used by the IDF in relation to Operation Cast Lead which—contrary to suggestions made in the press and elsewhere—we do not believe contained components supplied under licence from the UK.

Unmanned Aerial Vehicles (UAVs): UAVs were used extensively for reconnaissance and targeting. The Heron and Hermes 450 variants were positively identified. Numerous export licence applications have been received to supply equipment to Israel's significant UAV industry. The great majority are subject to further incorporation in Israel for onward export and a small number approved for demonstration, research, testing and our own "Watchkeeper" UAV programme. We have no evidence to suggest that goods licensed by the UK were diverted within Israel for use by the IDF.

Tanks and Armoured Bulldozers: Merkava tanks were deployed in support of the ground offensive into Gaza. We have not identified any UK components on the Merkava tank. D9 Armoured Bulldozers were used to clear ground, clear routes for armoured vehicles and there are credible reports that they were used to demolish houses containing weapons caches or tunnels. None were supplied under licence from the UK, nor were any components for them.

Secondly, there is equipment which may have been involved in Operation Cast Lead and may have contained British-supplied components.

Satellites: Israel has a number of reconnaissance satellites that could have been used to provide information to the IDF, and for which the UK has supplied minor components. We assess that these might have been used to prepare the operation but would not have played a significant part in the operation itself.

Thirdly, there is IDF equipment that was used in Operation Cast Lead and which almost certainly contained British-supplied components.

Combat Aircraft: The F16 was widely used, including for the delivery of precision-guided ordnance. No licences have been granted by the Government for the export of F16 components sent direct to Israel since 2002. British made components for F16s have been exported to the United States where Israel was the ultimate end-user. These licences covered components for head-up displays, head-down displays and enhanced display units.

Helicopters: Apache attack helicopters were used in the operation as part of the initial air campaign, and later in support of ground troops. Licences have been approved for the export of components to the US for incorporation into equipment for use on Apache helicopters ultimately destined for Israel. These licences covered parts for the fire control and radar system, navigation equipment and engine assemblies.

Naval Vessels: Saar-Class Corvettes took part in the operation from the waters off Gaza. They are likely to have been used for a number of tasks, but there are credible reports that the Saar 4.5 was used in a naval fire support role (the Saar 5 does not carry a gun suitable for such a task). Applications have been approved for components direct to Israel for a 76mm gun for a Saar 4.5 class vessel. We have also licensed the supply of other types of equipment for the Israeli navy; most recent cases have been for ubiquitous cabling for the Saar-class vessels and components for radar equipment. Of the cases for radar equipment most have been for air defence purposes, but they have the technical capability to be used for fire-control against surface targets.

Armoured Personnel Carriers: Armoured Personnel Carriers (APCs) were used and these included conversions of UK-supplied Centurion tanks to carry troops, for mobile headquarters and as combat engineer vehicles. The Centurions were sold to Israel in the late 1950s.

It is inherent in the consolidated criteria that judgments are in part based on past practice, so evidence from Operation Cast Lead will be used in all future applications. I can confirm that we are looking at all extant licences to see whether any of these need to be re-considered in light of recent events in Gaza. All future applications will be assessed taking into account the recent conflict. I continue to believe that UK export controls and the consolidated criteria are amongst the strongest and most effective in the world and are the best basis for putting into practice our commitments on arms exports.

LEADER OF THE HOUSE

Members' Estimate

The Leader of the House of Commons (Ms Harriet Harman): To enable MPs to do their work representing their constituents effectively, there needs to be an allowance system. The public are entitled to be confident that that the allowance regime is fair and reasonable and effectively enforced.

The Prime Minister has asked Sir Christopher Kelly and the Committee on Standards in Public Life to look at all of the relevant issues involved in MPs' allowances as speedily as possible.

In the meantime the Government thinks it is right to bring forward reforms that can be enacted sooner. We will therefore be asking the House of Commons to support the following proposals, which will reduce the cost to the taxpayer:

A. Flat-rate Allowance. We propose that, for MPs representing constituencies outside London, the Personal Additional Accommodation Expenditure (commonly known as the 'second home' allowance) should be abolished and be replaced by a flat-rate daily allowance, based on actual attendance at Westminster on parliamentary and Government business or the business of the Opposition Front Benches. This will be limited to the Parliamentary Session or a maximum number of days.

There will now be no second home allowance or claims for food, furniture and fittings, fuel, mortgage interest, rent or council tax.

We will ask the Senior Salaries Review Body to set the appropriate level of allowance independently, comparable to those set by wider public and private institutions. The Committee on Standards in Public Life will want to consider these issues going forward, including the issue of taxation. Provision will be made for the long-term ill and maternity leave. The claims by each Member should be published annually.

B. London. For anyone representing constituencies within reasonable distance of Westminster, the Personal Additional Accommodation Expenditure will be replaced by the London supplement, which already applies to inner London MPs. The Committee on Standards in Public Life will of course want to look at the current Green Book rules on this and the SSRB should report on the level of the allowance.

C. Grace and Favour homes. Ministers who for security or other reasons live in so-called 'grace and favour' homes will continue to pay council tax and tax on the benefit of living in this accommodation but will not receive this new allowance. The Committee on Standards in Public Life should be asked to report on these arrangements.

D. MPs' Staff. In future all staff appointed by MPs without exception should become direct employees of the House of Commons, which would become centrally responsible for their employment terms and conditions, their contracts, and the payment of their salaries within the limit allowed—and will have the right to make an independent assessment of such contracts. The Committee on Standards in Public Life is examining the rules governing employment of spouses or other relatives.

E. Full receipts. There will be a requirement for receipts for claims for all remaining transactions (for office costs, travel, and communications), including those under £25. MPs' claims will be subject to independent audit by the National Audit Office.

F. Transparency of MPs' Second Incomes. The Prime Minister has already asked the Committee on Standards in Public Life to look into the issue of MPs and second jobs, in order to avoid conflicts of interest and to reflect the fact that MPs receive a parliamentary salary for a full-time job. Meanwhile, there should be greater transparency.

This Government have been the first to publish a list of Ministers' interests.

Where Members of Parliament have a second source of income from second jobs, irrespective of whether it is in their capacity as an MP, every payment shall be declared with a full description of who paid and what for. There shall also be a full declaration of the hours worked for the payment received.

G. Pensions. We have taken steps through the SSRB to reform MPs' pension arrangements. In the meantime, in order to contain the cost to the public purse, a proposal will be put before Parliament to increase the contribution required from MPs by around £60 per month for the current year and to extend the scheme's pension limit of two thirds of final salary to all scheme members for future service.

H. We will ask the Committee on Standards in Public Life to look at the circumstances applying in Northern Ireland before final application of the flat rate allowance for MPs representing Northern Ireland.

I hope that with the support of the whole House we could implement the majority of these proposals in time for 1 July. My right hon. Friend the Prime Minister has offered to meet with the leaders of the main Opposition parties to discuss them. The Committee on Standards in Public Life will report their views in due course, which of course we will consider seriously, but we should implement as many interim changes as possible without delay.

NORTHERN IRELAND

District Electoral Area Commissioner (Northern Ireland)

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): I am pleased to announce to the House that I have appointed Richard Mackenzie CB as District Electoral Areas Commissioner for Northern Ireland. His appointment will take effect from 1 July 2009 following the completion of his work as Local Government Boundaries Commissioner for Northern Ireland. As District Electoral Areas Commissioner, Mr Mackenzie's role will be to make recommendations on the grouping of local government wards in Northern Ireland into multi-member constituencies for the purposes of elections to local councils.

TRANSPORT

New Road Safety Strategy

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): The Department has today published a consultation paper on a new road safety strategy for Great Britain. The consultation document, "A Safer Way", proposes a new approach to road safety, ambitious new casualty reduction targets and a number of new measures to assist in achieving those targets. It also proposes a long-term vision to make Britain's roads the safest in the world.

The paper puts forward four national targets for achievement by 2020, as compared with the 2004-08 average. The headline target is to reduce road deaths by one-third. We propose further targets to reduce serious injuries on our roads, also by one-third, and to halve the combined total of death and serious injuries to children on our roads. Lastly, given our aims to increase levels of walking and cycling and to improve safety, we suggest a target to halve the rate of road death and serious injury to pedestrians and cyclists per kilometre travelled.

Our current strategy has improved road safety significantly, reducing the number of deaths and serious injuries by 36 per cent. over the last decade, but eight deaths a day is still intolerable and we want to make our roads safer still. By improving our roads, our vehicles and our behaviour on the roads, we aim to develop a road safety system in which mistakes on the road do not lead to death or serious injury. We propose to do this through smarter working with local partners, not through creating large numbers of new offences and regulation. We need to target action on those roads, people and behaviours most associated with death and serious injury on our roads.

To improve safety on rural roads, where 60 per cent. of all British road deaths happen, we propose annually to publish maps highlighting the main roads with the poorest safety records, encouraging local agencies to rapidly improve safety standards. We also propose to recommend to highway authorities that lower limits are adopted on single carriageways currently subject to 60 mph limit, where risks are relatively high and there is evidence that a lower limit would significantly reduce casualties. To improve safety for pedestrians and cyclists, we propose to give guidance to local highway authorities recommending that, over time, they introduce 20 mph limits into all streets which are primarily residential in nature.

Improved vehicle safety will continue to be crucial in reducing road casualties. We aim to support improvements through regulation, where appropriate, but also through consumer information and raising awareness, working in partnership with industry. We expect further improvements in vehicles' crash protection to be targeted around particular problems or collision types. We believe that advanced vehicle safety systems, helping drivers and riders to avoid crashes, have the potential to deliver increasing improvements in safety.

Our recent consultation on road safety compliance put forward measures to crack down on irresponsible behaviour and we will set out our conclusions in the final version of the new road safety strategy. Our proposals in the compliance consultation included tougher penalties for extreme speeding, and tackling drug and drink-driving.

We propose to support responsible road use by improving driver training and testing, through the highly successful THINK! campaign and through development of a seamless suite of educational materials from pre-school to pre-driver, the first phase of which will be published later this week. Significant new effort will also go into improving driving skills and standards.

Despite improvement in 2007, the number of collisions involving 18-24 year olds and newly qualified drivers remains unacceptably high. Tackling this issue remains a priority within our proposed new strategy, and we are also today announcing a programme of measures that will strengthen the way that people learn to drive and are tested, and create a culture of continued and lifelong learning.

The Driving Standards Agency's "Learning to Drive" consultation paper prompted almost 7,000 responses. The responses, many of which were from young people, confirm general support for our view that education and incentive through improved training and testing is the best way to improve the safety of newly qualified drivers. As well as recognising that the great majority of people want to be law abiding and safe, such an approach also acknowledges that people learn to drive for many reasons, including to access education and employment.

Newly qualified drivers have told us that the current regime does not properly prepare them for driving unsupervised. The programme of measures will ensure that they are better equipped to drive safely and responsibly in modern driving conditions. They will also introduce a more efficient and effective learning process, and give employers and insurers greater confidence in the driving abilities of newly qualified drivers and those who have invested in further training.

The changes will be delivered through a phased implementation programme, which supports progressive improvements while avoiding disruption to those currently learning to drive. The first phase aims to deliver, over the next two years, an improved learning process, improved theory and practical driving tests, and further options for learning and qualifications.

Full details are set out in "Learning to Drive: Report on Consultation", copies of which have been placed in the Library of the House. The consultation on the new road safety strategy closes on 14 July 2009. Copies of the consultation document have been placed in the Libraries of the House and are also available in the Vote Office and Printed Paper Office.

First Great Western Franchise (Correction)

The Secretary of State for Transport (Mr. Geoffrey Hoon): On 26 February 2008, *Official Report*, columns WS 73-74, my predecessor, the right hon. Member for Bolton West (Ruth Kelly), made a statement to the House about the performance of the First Great Western Franchise, in which she also announced a package of benefits designed to bring about real improvements for passengers. The package is worth £29 million and is fully funded by First Great Western.

One of the elements of the package of passenger benefits announced in the statement was that First Great Western would undertake "refurbishment of Thames Valley commuter trains to a higher standard than committed in the franchise agreement to commence this year (2008) and to be completed by 2011".

The stated completion date of 2011 was incorrect as it did not reflect the obligation in the agreement with First Great Western, which was to procure agreed expenditure on the refurbishment of the Thames Valley commuter trains by 31 March 2012, and I apologise for this.

I understand that First Great Western are confident that they will meet this obligation by the agreed date.

Written Ministerial Statements

Wednesday 22 April 2009

TREASURY

Debt and Reserves Management Report 2009-10

The Economic Secretary to the Treasury (Ian Pearson): The "Debt and Reserves Management Report 2009-10" is being published today. Copies have been placed in the Library of the House.

Amendment to 1993 Memorandum of Understanding

The Chancellor of the Exchequer (Mr. Alistair Darling): I am today making changes to the Memorandum of Understanding on Royal Taxation that was agreed in 1993 (as amended in 1996).

The first change is to amend, in line with the changes made to the self-assessment regime, the date by which Her Majesty the Queen and His Royal Highness the Prince of Wales are due to provide a statement of income to Her Majesty's Revenue and Customs. The date will be amended to 31 October following the end of the year of assessment, in line with the self-assessment deadline for people who do not file their returns electronically.

The second is to recognise that official expenditure incurred by their Royal Highnesses Prince William of Wales and Prince Henry of Wales in the course of official duties and met by His Royal Highness the Prince of Wales' income from the Duchy of Cornwall, or by Her Majesty the Queen from the Privy Purse, may be deducted in arriving at the amount of income which is charged to income tax. This is subject to the rules set out in the memorandum governing official expenditure. This change is in line with the principles of the memorandum.

In addition, there are several minor amendments to bring references in the memorandum up to date and in line with current legislation and current members of the Royal Family.

The changes take effect in relation to the tax year beginning 6 April 2009 and for subsequent years.

I am depositing copies of the amending Memorandum of Understanding in the Libraries of both Houses.

Finance Bill Measures

The Financial Secretary to the Treasury (Mr. Stephen Timms): As announced in the Budget, the Government are acting to restrict pension tax relief for people on high incomes. Currently, pensions tax relief benefits disproportionately those with the highest incomes. In 2008-09, people with income of over £150,000 represented 1.5 per cent. of pension savers, yet received a quarter of all tax relief on contributions. It has also become increasingly clear that those on highest incomes are benefiting disproportionately from the new tax regime introduced in 2006. With personal tax changes announced at this Budget, pensions tax relief would become even more generous for the highest earners. Pension tax relief needs to be recast to maintain fairness across the tax system. The Government are consulting with industry and pension savers on how best to achieve this.

To introduce the changes before April 2011 would risk administrative disruption for savers, pension schemes and HM Revenue and Customs. But the gap between announcement today and implementation in April 2011 creates real risks that those affected, or believing they would be affected, would attempt to forestall the new rules by making large contributions now to get the benefit of higher rate tax relief that would not be available after April 2011.

The Government assess that, unless they take action, around £2 billion of tax might be at risk over the two years before implementation. So the Government have introduced a set of anti-forestalling rules effective from today, available at: www.hmrc.gov.uk to have effect for the remainder of this tax year and next. These will be legislated in the Finance Bill 2009.

The vast majority of taxpayers will be unaffected by these rules, including all those whose income—this year and in the previous two years—is not over £150,000; and all those who, in the next two years, do not exceed their normal pattern of regular pension contributions or the normal way in which their pension benefits are accrued.

This legislation attempts to strike a balance: preventing individuals from making large increased contributions, or increases in their benefits, to pre-empt the reduced relief available from April 2011; ensuring that those who continue with their normal pattern of pension saving, whether in defined contribution or defined benefit pension schemes, receive higher rate tax relief until the new legislation takes effect from April 2011; and minimising the burdens on pension schemes.

The Government have decided that the fairest way of achieving this is to enable individuals who make regular patterns of contributions to continue to get tax relief at their marginal rate. Normal patterns of contributions are defined as agreements reached prior to 22 April to make contributions at least quarterly, or increases in pension benefits under scheme rules in place at 22 April—so including increased benefits due as a result of normal pay and progression. Where the annual value of total contributions or pension benefits accrued is less than £20,000, individuals will be able to increase the value of their pension savings or benefit accrual up to a new additional limit of £20,000. Contributions or benefits accrued outside normal patterns of contributions above this will attract a tax charge so that relief is restricted to the basic rate. This applies to total pension savings or benefits regardless of whether these are made by the individual, their employer or a third party. The £20,000 special annual allowance permits those individuals who do not have a readily identifiable pension saving pattern to continue to receive higher rate relief within the generous tax rules for pension saving. The Government recognise that those with less regular contribution patterns may be affected and would welcome views on whether there are ways of ensuring the contributions of this group are protected in the same way as those making more regular patterns, while continuing to meet the objectives outlined.

To protect against avoidance the legislation includes powers to enable HM Revenue and Customs to apply the tax charge to all the contributions made or benefits accrued in excess of £20,000 where avoidance schemes are found and, to prevent income restructuring, this applies to anyone who has income of £150,000 or more in the current or two preceding years.

The Government believe this measure strikes the right balance between the interests of taxpayers, savers and pension schemes.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Marine Areas (Objectives)

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Huw Irranca-Davies): On Monday 20 April, the Government, Welsh Assembly Government, Scottish Government and Northern Ireland Executive published their joint high level objectives for the UK marine area. This follows analysis of responses to consultations carried out last year.

The objectives take forward the UK vision of clean, safe, healthy, productive and biologically diverse oceans and seas. They set out the outcomes that the Government and the devolved Administrations are seeking to achieve for the UK marine area and a vision of what success will look like, in order to set the context and strategic direction of future marine policies and activities.

The objectives will steer Administrations and the wider public sector in developing their policies to achieve sustainable development in the marine area and the wider context and help inform and educate the public, business and voluntary sectors.

The objectives are the starting point for the development of the Marine Policy statement provided for in the Marine and Coastal Access Bill, which is currently progressing through the House of Lords. The Government will be working closely with the devolved Administrations to develop a UK wide Marine Policy statement.

FOREIGN AND COMMONWEALTH OFFICE

Sri Lanka

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): I would like to update the House on the latest developments in the conflict between the Sri Lankan Government and the Liberation Tigers of Tamil Eelam (LTTE), and the actions we have been taking since my last written ministerial statement of 2 April.

The UN estimates that tens of thousands of civilians remain caught in the conflict area in north-eastern Sri Lanka. This now measures less than 18 sq km. The protests and demonstrations by Tamil communities around the world have highlighted their concerns for the civilians in the conflict area. They have seen friends and relatives perish, and their loved ones are still at grave risk from the fighting.

The fate of the civilians in the conflict area is our most pressing concern. It is vital that they are able to move away from danger to safety; that they are able to move under UN oversight; and that the camps of internally displaced persons meet international standards. We have been pressing consistently for this to happen. We have also been calling for unhindered access by humanitarian agencies to those in the conflict area so that they can deliver sufficient assistance to those in need.

I welcomed the announcement of a pause in the fighting by President Rajapakse on 12 April, but I was concerned that the pause should be long enough to give civilians sufficient time to leave the conflict area. I spoke to Foreign Minister Bogollogama on 13 April to urge him to extend the pause beyond the stated 48 hours. In the event there was no extension. Fewer than 300 civilians were able to move to safety and there were credible reports that the LTTE prevented those who wanted to leave from doing so. I was deeply concerned that fighting resumed after the pause.

On 15 April I discussed the situation with the French Foreign Minister Kouchner. We subsequently issued a joint statement calling for a new and longer pause and for the LTTE to let civilians leave.

There are now reports that on 20 April the Sri Lankan Army breached the LTTE's groundwork defences. While I welcome the reports that significant numbers of civilians may have escaped from the conflict area, I am deeply concerned at reports that civilians were killed in the operation and that others remain at threat from the fighting. We condemn the killings of civilians in the strongest possible terms and urge all parties to take all necessary action to avoid further civilian casualties. Both the Government of Sri Lanka and the LTTE must abide by their obligations under international humanitarian law and ensure the protection of civilians at all times. We have also been very clear with the Sri Lankan Government that democratically elected governments are rightly held to higher account for their actions than terrorist organisations.

It was our concern for civilians that first led my right hon. Friend the Prime Minister to call for a ceasefire on 14 January. He has written to President Rajapakse, most recently on 8 April, to make clear our concerns. He also spoke to the President on 20 April when he called for a new, extended pause. I have repeated the call for a ceasefire in direct contacts with the Sri Lankan Government, including President Rajapakse and Foreign Minister Bogollogama, in public statements and in concert with other partners, including the US and France. We will continue to discuss this with partners, in the EU, Commonwealth and UN. I will speak with Indian Foreign Minister Mukherjee today.

If the reports of the latest exodus of civilians prove to be accurate, thousands will have managed to leave the conflict area since January. Many of them will have been displaced numerous times over the past 18 months, each time the front line has moved. It is vital that these internally displaced persons (IDPs) are treated in accordance with international humanitarian law. We have been urging the Sri Lankan Government to give international agencies, such as the International Committee of the Red Cross and the UN High Commissioner for Refugees, full visibility of the reception arrangements for civilians when they leave the conflict area. We are also pressing the Government to ensure that civilians are free to move in and out of the camps and that the camps are demilitarised in line with the guiding principles for IDPs in order that agencies can be fully involved in the running of the IDP camps, which should be temporary in nature. We will continue to urge the Sri Lankan Government to abide by its commitment to enable 80 per cent. of IDPs to return to their homes by the end of the year. Within the camps there needs to be better access to medical facilities and transparent registration processes. It is important everyone has full confidence that IDPs are treated fully in accordance with international norms.

As part of our response to the humanitarian crisis we have been working closely with the UN. We have welcomed the personal engagement by the Secretary-General and his statements expressing his concern for civilians affected by the fighting. I discussed the conflict with Ban Ki-moon last week and underlined the UK's support for the UN's involvement in responding to the humanitarian crisis. We have welcomed the separate visits to Sri Lanka by the Under-Secretary-General, John Holmes, the UN's representative for IDPs, Walter Kaelin, and, most recently, the Secretary-General's Chef de Cabinet, Vijay Nambiar, so that they could see for themselves the conditions on the ground. We have encouraged—in the face of some opposition from others—the briefings given by John Holmes to the Security Council. And we are pushing for further briefings to the Council. This involvement by the UN means that the Government of Sri Lanka can be in no doubt about the concerns felt by the international community over the humanitarian situation.

My right hon. Friend the Prime Minister's Special Envoy for Sri Lanka, my right hon. Friend the Member for Kilmarnock and Loudoun (Des Browne), was at the UN on Monday. He discussed the situation in Sri Lanka with senior UN officials, representatives of other members of the Security Council and non-governmental organisations with a presence on the ground in Sri Lanka. My right hon. Friend the Member for Kilmarnock and Loudoun made clear that we support the work the UN has been doing to try to arrange a UN-assisted civilian evacuation from the conflict area. He also stressed the need to improve conditions for IDPs once they leave the conflict area. In his discussions with other permanent representatives it was clear that some permanent members of the Security Council continue to oppose further action within the Council.

The Department for International Development continues to offer practical support to those agencies on the ground responding to the humanitarian crisis. It has so far allocated £5 million, the majority of which is being used to support the work of the agencies providing protection and assistance work for the IDPs. Some money is being kept in reserve so that we can continue to respond immediately to further needs as they arise. The Department will continue to follow the humanitarian situation and the needs of IDPs closely.

The overriding need is for an immediate end to the tragic humanitarian crisis. We want to see an urgent end to this conflict, now in its 26th year, which has cost well over 70,000 lives. We have always been very clear that there can be no military solution. Lasting peace in Sri Lanka can only come about through a fully inclusive political process that takes into account the legitimate aspirations of all Sri Lanka's communities—Sinhalese, Tamils and Muslims. The Sri Lankan Government must make a concerted drive to achieve a political solution. The Government will continue to press for urgent progress in all of these areas.

Foreign Compensation Commission

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): The Annual Report of the Foreign Compensation Commission for 2007-08 has been laid before Parliament. This is the 53rd such report.

Copies have been placed in the Vote Office. A copy will also be available on the Foreign Compensation Commission's website at: www.fcc.gov.uk.

The report provides an account of the Commission's activities during the financial year 2007-08 and includes a statement of account for that period. The Commission was not engaged in any active distribution programmes during the period in question and operates on a care and maintenance basis.

Written Ministerial Statements

Thursday 23 April 2009

DEFENCE

Harrier Aircraft Support

The Parliamentary Under-Secretary of State for Defence (Mr. Quentin Davies): I am pleased to announce that the Ministry of Defence has signed a £574 million, nine-year contract, with BAE Systems for the logistic support of the Harrier fleet until the aircraft's out-of-service date in 2018.

The Harrier Platform Availability Contract which covers repair, maintenance, provision of spares, fleet upgrades and technical support, builds upon the existing support arrangements that have already achieved significant financial savings along with improved aircraft availability to the front line.

This important work will largely be undertaken at the Harrier fleet's main operating base at RAF Cottesmore in Rutland and will secure the future of around 300 civilian jobs.

The Harrier GR 9 is currently deployed in Afghanistan and has provided first-class support to NATO forces. This innovative partnering arrangement with BAE Systems will enable the RAF to continue to provide excellent support on operations while allowing BAE Systems to utilise its unique expertise as the design authority for Harrier.

With its emphasis on efficiency and value for money this contract demonstrates the Ministry of Defence's commitment to partnering UK industry in innovative ways that support our front line forces.

Balkans (Call-out Order)

The Minister for the Armed Forces (Mr. Bob Ainsworth): A new call-out order has been made under section 56 of the Reserve Forces Act 1996 so that reservists may continue to be called-out into permanent service to support military operations in the Balkans. The order took effect from 2 April 2009 and ceases to have effect on 1 April 2010.

Currently there are some 20 reservists in theatre filling a variety of different posts, including staff officers, specialists and members of the training teams.

ENERGY AND CLIMATE CHANGE

Warm Front Scheme

The Parliamentary Under-Secretary of State for Energy and Climate Change (Joan Ruddock): Warm Front is one of our key tools for tackling fuel poverty among private sector households in England. The scheme was introduced in 2000 and has helped almost 2 million households vulnerable to fuel poverty with a range of heating, insulation and other energy efficiency measures.

The Government are committed to continuous improvement to the scheme. To that end, a review of the contract with the Warm Front scheme manager, eaga, has been carried out over the last few months. A number of changes have now been agreed to the service procurement and delivery arrangements which will lead to significant improvements to the quality of service provided to customers. These changes will open up the scheme to greater competition through liberalisation of both the equipment and installation supply chains, leading to improved value for money. In addition, eaga will over time be introducing a new computerised surveying process which will improve the quality of service to customers by providing a much clearer picture for householders of the installation work to be carried out. Eaga will be managing the scheme to 31 March 2011, the end of the current spending period.

The scheme will also be further improved by changes to the levels of grant available to householders. The maximum grants currently available are £2,700 or £4,000. I am pleased to say that with effect from today these grant maxima will be increased. There will be two: one of £3,500, and one of £6,000 for harder to treat properties off the gas grid.

These increases will apply to all Warm Front work completed following applications made from today. They will also apply to all applications already in the Warm Front system but where the work has not been started. This will ensure that those households currently in the system do not have to cancel their current application and reapply in order to have the benefit of the new grant maxima.

The increases to the grant maxima require the existing Warm Front regulations to be amended. The Government are currently working on bringing forward the statutory instrument and hope to have the new regulations in force next month.

In addition the scope of the scheme is being expanded to include the installation of low carbon technologies such as solar thermal heating and air source heat pumps, which will help householders generate their own low-cost, renewable energy. These technologies will initially be trialled in small-scale pilot programmes.

These changes will lead to significant improvements to the operation of the scheme. They will mean that fewer households will have to make a contribution and that we are able to help those in harder to treat properties.

FOREIGN AND COMMONWEALTH OFFICE

General Affairs and External Relations Council

The Minister for Europe (Caroline Flint): The General Affairs and External Relations Council (GAERC) will be held on 27 April in Luxembourg. My right hon. Friend the Foreign Secretary will represent the UK.

The agenda items are as follows:

General Affairs

Croatia-Enlargement

The Council is likely to take stock of the progress of accession negotiations with Croatia, in particular the delay due to Slovenia blocking the nine chapters ready for opening or closing. The Government believe that bilateral disputes should not delay progress of the accession negotiations. We urge both countries to find a mutually acceptable solution to their territorial dispute and support the efforts of Commissioner Rehn to facilitate this. The Council may also take note of concerns about unsatisfactory Croatian co-operation with the International Criminal Tribunal for the former Yugoslavia (ICTY) in failing to produce key documents requested by the prosecution for the trial of General Gotovina. The Government believe full co-operation with ICTY is essential for progress of Croatia's accession negotiations.

Employment and Energy Summits

The Council will discuss the Employment summit, to be held on 7 May. The summit will be in "extended troika" format, comprising of troika Heads of State and Government (Czech Republic, Sweden and Spain) and a range of social partners. The summit's aim will be to allow for an exchange of experiences on the extent to which national economic recovery measures have succeeded in supporting employment. The Government support this aim.

The Council will also discuss the Southern Corridor summit in Prague on 8 May. The Southern Corridor is one of the priority areas identified in the Commission's Strategic Energy Review in November last year, and the spring European Council recently agreed that concrete proposals on its development should be presented by the end of this year. This summit will help give strong political support to the development of the Southern Corridor as a means of diversifying sources and routes of energy supply to the EU. We expect there to be some discussion at the Council on participation at the event. The Government strongly welcome the summit and the concrete actions set out in the draft declaration.

External Relations

European Neighbourhood Policy

The Council will be briefed by Commissioner Ferrero-Waldner on European Neighbourhood Policy (ENP), following a Commission Communication on the implementation of ENP in 2008, and the accompanying set of ENP country progress reports, which are due to be published on 23 April.

Burma

We expect the Council to renew the EU's common position imposing restrictive measures against Burma, which the Government strongly support. We also expect conclusions underlining the EU's determination to see political reform and respect for human rights in the country. Discussion will review recent political developments, including the lack of progress by the regime in meeting the international community's demands, their failure to engage with the UN good offices process, and prospects for what look likely to be flawed elections in 2010.

EU-US Summit follow-up

The Council will discuss the follow-up work from the EU-US summit in Prague on 5 April. The main focus of the summit was on the global economy, but there were also substantial and constructive exchanges on climate change and energy security, the eastern partnership, the middle east peace process, Guantanamo and Afghanistan-Pakistan. On Afghanistan, follow-up work includes agreeing the security arrangements which will enable the supply of EU election monitors, as well to establish other ways in which Europeans can contribute to Afghanistan.

Middle East Peace Process (MEPP)

This will be the first GAERC since the formation of the Netanyahu Government. The Czech presidency is awaiting the outcome of the Israeli policy review and does not currently plan MEPP Council conclusions at this Council. We expect Ministers to express their support for a comprehensive and regional approach to the MEPP and to raise continuing concerns on Gaza as well as on Israeli settlement activity. US special envoy Senator Mitchell will have briefed the EU's Political and Security Committee on 22 April, which may influence discussion at this GAERC.

Iran

Discussions are likely to focus on the US Administration's decision to engage directly with Iran and play a full role in future E3 plus 3 negotiations. Member states will also look to the Council secretariat to update them on the Iranian response to the E3 plus 3's invitation to recommence talks as soon as possible.

We will encourage the EU to state its clear support for the new US approach. We will stress the opportunity that the E3 plus 3 offer presents to Iran and the necessity for the EU to give its full backing to the renewed diplomatic efforts and the dual track strategy. We will look to the Council to issue conclusions to that effect. We will encourage further discussions on Iran over the coming months in the EU as the diplomatic situation develops.

Moldova

Elections were held in Moldova on 5 April. Ministers will discuss the conduct of the elections and the demonstrations that followed. The UK condemns acts of violence, including the destruction caused to the Moldovan Parliament and the Presidential Palace. However, there have been reports of alleged ill treatment of detainees, and other human rights violations. Ministers are likely to emphasise the importance the EU attaches to human rights enshrined in its relations with Moldova.

Ukraine

Ministers are likely to focus on recent economic developments, and the news that the Ukrainian authorities and the International Monetary Fund have been able to agree to proceed to the disbursement of the second tranche of the stand-by agreement.

AOB

Eastern Partnership Summit

The Council will look ahead to the Eastern Partnership summit in Prague on 7 May. We expect the presidency to update member states on the objectives and arrangements for the summit.

Migration

There will be a short discussion of illegal migration in the Mediterranean region.

HEALTH

Adult Social Care Workforce Strategy

The Minister of State, Department of Health (Phil Hope): I am today publishing the Adult Social Care Work Force Strategy. The adult social care work force is made up of about 1.5 million hard-working, committed, and talented people working in many different roles making a real difference to people's lives—about 1.75 million older people and adults of working age currently use social care services.

England, like many other countries, faces substantial demographic change during the twenty-first century with an ageing population and already more people over 65 than under 16 for the first time in our history.

Our aim is to make sure that the sector has a high quality work force in place to deliver personalised services for years to come. The strategy will boost the status of social care so that the sector can attract and retain the best and brightest candidates. A series of initiatives will be announced in the strategy.

Budget 2009 announces Care First, a new scheme offering 50,000 traineeships in social care for young people. Up to £75 million will be made available to social care providers through subsidies for offering sustained employment and training to young people (aged 18-24) who have been out of work for 12 months, giving them the skills and experience they need for a career in the sector.

The strategy also outlines plans to increase the numbers of apprenticeships in the sector, and the development of a national management trainee programme, which will begin later this year.

We have also been working with the General Social Care Council to look at proportionate approaches to the future regulation of the wider social care work force. The strategy sets out the expectation that the General Social Care Council will introduce a register of home care workers from early 2010, initially on a voluntary basis.

The strategy has been placed in the Library of the House and copies are available to hon. Members from the Vote Office.

INTERNATIONAL DEVELOPMENT

North-South Corridor Conference

The Minister of State, Department for International Development (Mr. Gareth Thomas): I represented the UK at the North-South Corridor Conference held in Lusaka on 6 and 7 April, attended by Presidents of Kenya, South Africa, Uganda and Zambia, and other Ministers from the region. The presidents, on behalf of their respective regional economic communities, announced plans to implement critical reforms to improve cross-border trade, reduce transport delays and costs, and promote public and private investment. For their part, donors agreed to provide $1.2 billion of funding to meet the costs of this comprehensive programme to upgrade road, rail, port and energy infrastructure. I announced the UK Government's commitment of £100 million over five years towards this total.

The North-South Corridor programme will upgrade 4,000 km of road—the equivalent to the road distance between Barcelona and Athens—and rehabilitate 600 km of rail track. It will work with the Governments of Tanzania, DRC, Zambia, Malawi, Botswana, Zimbabwe, Mozambique and South Africa to remove red tape, allowing a greater and quicker flow of goods regionally and internationally. Power supply and transmission in the region will also improve with new investments accelerating the generation of 35GW of new power capacity through the Southern African Power Pool (SAPP) region by 2015.

The North-South Corridor programme is an innovative aid for trade initiative that could offer a model for increasing trade and deepening regional integration in Africa. It is consistent with the recent G20 agreements to ensure more open trading, continued investment flows to developing countries, and well-financed trade. Investing in both the physical infrastructure along the North-South Corridor and cutting bureaucratic red tape between these countries will improve trading and investment opportunities in the region and increase prospects for generating growth, creating jobs and reducing poverty. In an economic downturn, it is vital that economies are kept moving and the North-South Corridor will play a vital role in opening up trade in Africa through improved transport infrastructure, more efficient borders and reliable energy supplies.

JUSTICE

Freedom of Information Act 2000 (Quarterly Monitoring Statistics)

The Minister of State, Ministry of Justice (Mr. Michael Wills): Today I have deposited copies of the "Freedom of Information Act 2000—Statistics on Implementation in Central Government: Q4—October-December 2008" in the Libraries of both Houses. Copies are also available in the Vote Office and the Printed Paper Office.

This is the quarterly monitoring statistics report analysing the performance of central Government in the fourth full year of freedom of information.

Written Ministerial Statements

Friday 24 April 2009

FOREIGN AND COMMONWEALTH OFFICE

Private Military and Security Companies

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): The Foreign and Commonwealth Office is today launching a public consultation on our proposed policy to promote high standards of the private military and security company industry internationally. The aims of the policy are to promote high standards of conduct by PMSCs internationally, and to reduce the risk that the activities of PMSCs might give rise to human rights or humanitarian law concerns, assist internal repression, or provoke or prolong internal or regional tension.

We will be consulting on our preferred option, which consists of a three part package of:

a) Working with the UK industry to promote high standards through a code of conduct agreed with and monitored by the Government;

b) Using our status as a buyer to contract only those companies that demonstrate that they operate to high standards; and

c) An international approach to promote higher global standards, based on key elements of the UK approach.

We will work with the relevant UK trade association to devise a code of conduct to which all its members would adhere. The association would implement the code. We believe that security companies will find it in their commercial interests to adhere to the code, which will be agreed with and monitored by the Government. We will be asking that all companies bidding for Government contracts must undertake to follow regulatory, humanitarian and ethical standards consistent with the trade association's code of conduct, or can show adherence to other equivalent standards. PMSCs operate in a global environment and international co-operation is necessary to promote high standards. To this end, we will:

a) Build on the initiative by the Swiss Government and the International Committee of the Red Cross to create internationally agreed industry standards within two years; and

b) Build a convention of states and key buyers that will be able to insist that PMSCs wishing to bid for future contracts will be required to adhere to the internationally agreed standards. This will set a benchmark for private security procurement and practice, and help drive up standards globally.

HEALTH

Medicines and Healthcare Products Regulatory Agency

The Minister of State, Department of Health (Dawn Primarolo): I have received the Business Plan for the Medicines and Healthcare products Regulatory Agency (MHRA) which has been placed in the Library of the House.

The agency has an important role to protect public health in the UK by ensuring that all medicines and medical devices are acceptably safe. The Business Plan for 2009-10 sets out specific key and high level targets for the agency for the coming year.

HOME DEPARTMENT

Police Injury Benefits

The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Vernon Coaker): Today I am publishing a report which summarises the responses to the public consultation exercise on the review of police injury benefits. A full account of the individual responses is attached as an annex to the report.

My right hon. Friend the Member for Harrow East (Mr. McNulty), the then Minister of State for Security, Counter-terrorism, Crime and Policing, issued a consultation document in August 2008, "Review of Police Injury Benefits - Government Proposals". The aim of the review has been to ensure that the financial support currently given to police officers and their families for injury or death in the line of duty meets modern requirements, is properly targeted and is efficiently administered.

The consultation exercise invited comments on 51 proposals, and closed on 18 November 2008. In total, 41 responses were received, including 30 from police forces, police authorities and police staff associations. I am grateful to all those who took the time to send in their comments. Overall the responses demonstrate a high level of support for the majority of changes proposed. Some of the 51 proposals, such as the proposal to extend survivor pensions to the nominated unmarried partners of officers killed in the line of duty, received strong support from all respondents. A number of proposals received comments which, while supportive, require further work to be done on the detail to ensure that we achieve our intended objectives.

Although the public consultation has been completed, five proposals will be the subject of further consultation with the police staff associations and other representatives on the Police Negotiating Board, in order to ensure that their implementation would not undermine the reassurance that officers are entitled to expect when they are exposed to danger in the course of confrontational and other operational duties, and also in order to discuss practical ways in which to improve the safety of officers while on journeys to and from their place of work.

I intend any amendments to the present Injury Benefit regulations to be in place by the end of this year but this timetable is subject to the further consultation with the Police Negotiating Board and agreement on a complete package of changes that meets the aim of the review. The changes would apply to officers serving on or after the date they come into force, and would not apply retrospectively to those who have ceased to serve by that date.

I am placing a copy of the report, "Review of Police Injury Benefits - Summary and Analysis of Consultation Responses", in the Library of the House.

Gurkhas (Settlement)

The Minister for Borders and Immigration (Mr. Phil Woolas): In 2004, the right to settle in the United Kingdom was given to Gurkhas who had been discharged from the British Army on or after 1 July 1997. This was the date of the handover of Hong Kong from Britain to China and the point at which the Brigade of Gurkhas moved their headquarters from Hong Kong to the United Kingdom.

Guidance was issued to immigration case workers on how to consider applications from Gurkhas who had been discharged before 1 July 1997.

In September 2008 the High Court ruled that the policy of using 1 July 1997 as a cut-off date was fair but also found that the guidance used by case workers when making decisions on those discharged before 1997 needed to be much clearer in setting out the factors which were to be given weight in assessing which individuals should be offered settlement in the UK.

The Government fully accepted this judgment. The guidance has now been revised and is available on the UK Border Agency website. In considering changes to the guidance, we have taken on board not only the letter of what the judge said in this case but also the spirit of his judgment. The new guidance will ensure that those who have given outstanding service will be entitled to settle in the UK. In summary, under the terms of the guidance, Gurkhas and their families will be able to come to the UK to settle where they meet one of the following criteria:

> Three-years' continuous lawful residence in the UK during or after service;
>
> Close family settled in the UK with whom they enjoy family life within the meaning of Article 8 of the European Convention on Human Rights (ECHR);
>
> A Level 1-3 Award for gallantry, leadership or bravery for service in the Brigade;
>
> Twenty or more years service in the Brigade;
>
> A chronic-long term medical condition which is attributable to, or was aggravated by, service in the Brigade.

Additionally, discretion will normally be exercised and settlement in the UK granted if two or more of the following criteria are met:

> Claimants were previously awarded a UK Ministry of Defence disability pension but no longer have a chronic-long term medical condition attributable to, or aggravated by, service in the Brigade;
>
> Claimants received a Mention in Dispatches (Level 4 Award) for service in the Brigade;
>
> Claimants completed 10 years service in the Brigade or served less than 10 years but received a campaign medal for active service in the Brigade.

We estimate that this guidance will mean that over 4,000 ex-Gurkhas and around 6,000 spouses and children will qualify for settlement rights in the UK. We will be proud to welcome those individuals to the UK in recognition of the outstanding service that they gave. We will work with the Ministry of Defence to ensure that those who might be eligible in Nepal are fully aware of these changes and of the opportunity for settlement.

The Government both recognise and honour the huge contribution that the Brigade of Gurkhas has made, and continues to make, to the Armed Forces. This contribution is chiefly recognised through the arrangements made to support Gurkhas following their discharge. Prior to 2007 the Gurkhas completed their service at the age of 33 and from that time and the rest of their lives they received a pension which allows for a very good standard of living in Nepal. The pension is generous and has been significantly increased over the last decade.

I hope that former Gurkhas and their supporters will work with us to raise awareness of the new guidance and ensure that those eligible to settle in the UK under its terms are aware of that choice.

In line with our commitment to the High Court, we will now reconsider all outstanding appeals by 11 June 2009.

I intend to initiate a review of the impact of the guidance in 12 months' time.

WOMEN AND EQUALITY

Black, Asian and Minority Ethnic Councillors Taskforce

The Parliamentary Secretary, Government Equalities Office (Maria Eagle): In May 2008 the Government Equalities Office established a cross-party taskforce chaired by Baroness Uddin to take practical action to make local councils more representative.

Black, Asian and minority ethnic women account for less than 1 per cent. of England's 20,000 councillors. To be more representative of society as a whole, the number of Black, Asian and ethnic minority women councillors needs to be increased from around 149 of all councillors in England to nearer 1,000.

The taskforce has been leading a national outreach programme to raise awareness of the role of councillors, provide practical advice and encourage more women to engage in public life.

Today I am announcing a councillor mentoring-shadowing scheme as part of the taskforce's work programme. It will be delivered by Operation Black Vote and will allow 50 women to shadow councillors from participating local authorities around Britain and receive training. The scheme will commence in the autumn and will provide women with support in taking their next steps to becoming a local councillor.

Written Ministerial Statements

Monday 27 April 2009

CHILDREN, SCHOOLS AND FAMILIES

Personal Social Health and Economic (PSHE) Education

The Secretary of State for Children, Schools and Families (Ed Balls): In October 2008, following reviews of sex and relationships education and drugs and alcohol education, I announced that I proposed to give PSHE education statutory status, subject to formal consultation. To prepare for that consultation, I invited Sir Alasdair Macdonald, headteacher of Morpeth secondary school in London, to conduct an independent review of how statutory status might be achieved in practice and what other steps should be taken to improve the consistency and quality of PSHE education so that all children and young people benefit.

Following widespread consultation with stakeholders, Sir Alasdair has completed his report, which I am publishing today. Copies are being placed in both Houses. The report contains a number of important recommendations and I am grateful to Sir Alasdair for these and for the open way in which he has conducted his review.

This statement sets out the Government's response and the next steps.

Sir Alasdair has recommended that PSHE education should become part of the national curriculum at both primary and secondary levels. I am attracted to this approach for the reasons set out in the report. The recommendation will be subject to formal consultation alongside that of Sir Jim Rose's review of the primary curriculum.

Sir Alasdair has made a number of other recommendations which I accept in principle, subject to formal consultation. These are that at secondary level the existing non-statutory programmes of study should be carried forward and that at primary level the relevant parts of the proposed new programme of learning "Understanding Physical Development, Health and Wellbeing" should form the core PSHE entitlement; that governing bodies should retain the right to determine their school's approach to SRE, to ensure that this can be delivered in line with the context, values and ethos of the school but that this must be consistent with the core entitlement to PSHE education; that governing bodies should retain the duty to maintain an up-to-date SRE policy, which is made available to inspectors, parents and young people and that they should involve parents and young people (in the secondary phase) in developing that policy; that DCSF should seek the opinions of stakeholders and the wider public on whether to change the name of PSHE education within the secondary national curriculum; and that legislation should seek to exclude PSHE education from the requirement to have statutory levels of attainment but that the DCSF should work with the Qualifications and Curriculum Authority to find appropriate and innovative ways of assessing pupil progress in PSHE education.

Sir Alasdair also recommended that the existing right of parental withdrawal from sex and relationships education (SRE) should be maintained. The report also stresses that the notion of a common entitlement to all aspects of PSHE education for all children and young people is central to the recommendations of the review and to the future of statutory PSHE education. In the light of this, I accept the recommendation, but propose that we will keep the issue under review to ensure this entitlement is met.

Sir Alasdair's report makes a number of other recommendations about improving teaching and learning in PSHE education. I propose to make an early start on implementing them.

The full list of recommendations, and the Government's response, is attached.

Macdonald Review of Making PSHE Education Statutory: Key Recommendations and Government Response

Macdonald Recommendation	*Government Response*
1. PSHE education should become part of the statutory national curriculum, in both primary and secondary phases.	Accept in principle, subject to public consultation.
2. At secondary level, PSHE education should become a foundation subject in the national curriculum, with the existing non-statutory programmes of study forming the basis for public consultation on the core entitlement.	Accept in principle, subject to public consultation.
3. At primary level the proposed new programme of learning "Understanding Physical Development, Health and Wellbeing" should form the basis for public consultation on the core entitlement.	Accept in principle, subject to public consultation.
4. Governing bodies should retain the right to determine their school's approach to SRE, to ensure that this can be delivered in line with the context, values and ethos of the school. However, this must be consistent with the core entitlement to PSHE education.	Accept in principle, subject to public consultation.
5. Governing bodies should also retain the duty to maintain an up-to-date SRE policy, which is made available to inspectors, parents and young people. Moreover, governing bodies should involve parents and young people (in the secondary phase) in developing their SRE policy to ensure that this meets the needs of their pupils, and reflects parents' wishes and the culture of the communities they serve.	Accept in principle, subject to public consultation.
6. The DCSF should consult school governor and faith school representatives about any supplementary resources, guidance and support they need and work with them to ensure that this is in place before statutory PSHE education comes into force.	Accept.

Macdonald Review of Making PSHE Education Statutory: Key Recommendations and Government Response

Macdonald Recommendation	*Government Response*
7. The existing right of parental withdrawal from SRE should be maintained. Where parents do choose to withdraw, schools should make it clear to them that in doing so they are taking responsibility for ensuring that their child receives their entitlement to SRE through alternative means. This right of withdrawal does not extend to the existing statutory elements of the national curriculum requirements regarding sex education in science at key stages 1 to 4 and we recommend that this should continue to be the case. Furthermore, there should be no right of withdrawal from the whole or any other aspect of PSHE education.	Accept in principle, subject to public consultation.
8. The DCSF should review the status of all of its existing, separate guidance relating to the issues covered in PSHE education. The DCSF should then publish in due course an overarching document that sets out the common principles underpinning effective PSHE education and applies them to delivery of the core entitlement.	Accept.
9. Alongside or within the consultation surrounding the core national curriculum entitlement for PSHE education, the DCSF should seek the opinions of stakeholders and the wider public on whether to change the name of PSHE education within the secondary national curriculum.	Accept and will consult.
10. The DCSF should commission further research that will establish and report on the prevalent models of delivery for PSHE education and their effectiveness in improving outcomes for children and young people. However, other subjects in the national curriculum are not subject to prescription regarding delivery and we see no reason why PSHE should be any different.	Accept.
11. All Initial Teacher Training (ITT) courses should include some focus on PSHE education. We agree with the recommendation from the SRE and Drugs and Alcohol education review groups that the DCSF should work with the Training and Development Agency for Schools (TDA) to investigate a dedicated route for ITT that will, in time, create a cohort of specialist PSHE education teachers.	Accept.
12. The DCSF should also work with TDA to consider a PSHE enhancement option in ITT, as well as promoting PSHE education through the Masters in Teaching and Learning and Advanced Skills Teachers programme.	Accept.
13. The DCSF should continue to support a PSHE CPD programme. The DCSF should also work with TDA and local authorities to explore the other types of CPD on offer in PSHE education. This should aim to identify local provision of CPD in PSHE education that is collaborative, sustained and evaluated, in order to exemplify good practice in guidance.	Accept.
14. CPD should also be available for support staff and the wider children's workforce involved in PSHE education.	Accept.
15. The DCSF should work to raise the profile of PSHE education amongst school senior management teams.	Accept.
16. We recognise the important contributions that external organisations and visitors can make to the PSHE curriculum and recommend that schools are encouraged to identify opportunities where this wider input can be made appropriately. Furthermore, the DCSF should consider how best to disseminate examples of effective practice more widely across local authorities.	Accept.
17. Legislation should seek to exclude PSHE education from the requirement to have statutory levels of attainment.	Accept in principle, subject to public consultation.
18. The DCSF should work with the Qualifications and Curriculum Authority to find appropriate and innovative ways of assessing pupil progress in PSHE education.	Accept.
19. The DCSF should consider further ways of promoting pupil and parent engagement in the development and delivery of PSHE education, and how to disseminate good practice in this area.	Accept.
20. We are satisfied that the existing accountability framework and planned wellbeing indicators will provide sufficient monitoring and evaluation of the effectiveness of a school's PSHE education programme. Therefore, the Review recommends that no additional requirements should be placed on schools in terms of inspection.	Accept.

DEFENCE

Defence Intelligence Estate (PRIDE)

The Minister for the Armed Forces (Mr. Bob Ainsworth): This statement follows on from the one that I made on 13 December 2007, *Official Report*, column WS55. I am pleased to announce the approval of the plan to collocate intelligence facilities at RAF Wyton under the Programme to Rationalise and Integrate the Defence Intelligence Estate, known as PRIDE. PRIDE (Wyton) will deliver new, purpose built, accommodation for some key defence intelligence capabilities that will enhance our operational effectiveness and our ability to work in joint operations with our allies. PRIDE (Wyton) will relocate key intelligence units from RAF Brampton, Feltham, Denison Barracks in Hermitage and Ayrshire Barracks in Monchengladbach, Germany, to RAF Wyton in Cambridgeshire. This will form a hub for our intelligence collection capability and will enable the organisations to deliver more effective support to front-line operations. Additionally, the moves will allow the disposal and sale of RAF Brampton, in Cambridgeshire, further contributing to our wider aim to reduce the MOD estate and drive down support costs.

In parallel to this final approval being reached, I can announce the award of the contract for the major construction work to Skanska UK plc at a cost of approximately £150 million. This is further good news for the construction industry and will secure a significant number of jobs over the coming four years.

This project constitutes only one part of the PRIDE programme. The second element is the relocation of the Royal School of Military Survey and the Defence School of Languages from Hermitage and Beaconsfield respectively. A future location for these units is still being determined but their resultant moves should allow for the disposal of the Hermitage and Beaconsfield sites. I expect to announce the approval for this project in the autumn of 2010.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

EU Environment Ministers (Informal Meeting) 14-15 April 2009

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): My hon. Friend the Parliamentary Under-Secretary of State for Energy and Climate Change and I met with Environment Ministers from EU member states, candidate countries, and the European Commission, at an informal ministerial meeting in Prague, Czech Republic on 14 and 15 April. The theme of the informal Council was climate change adaptation and the international climate change negotiations.

On the first day of Council, the European Commission presented the EU's White Paper on Adaptation which had been published the week before Council. The presentation was followed by informal discussions on adaptation to climate change.

The UK expressed support for the EU Commission's proposed approach in the EU White Paper and spoke about the steps being taken in the UK. The UK believes that the EU must lead the way by embedding adaptation in its own policies and programmes. The UK welcomed the idea of establishing an impact and adaptation steering group (IASG) as a way of sharing best practice. Furthermore, it highlighted the need to communicate in a language that resonated with the public, demonstrating that adaptation was about living with climate change which cannot be avoided and that it was about practical steps such as redesigning buildings, resurfacing roads, flood defence and helping people in heat waves.

There was also a strong recognition of the importance of conserving water among member states, but there was not agreement to make it a special case or to have a sectoral approach.

There was also recognition that transboundary issues will need a higher level of governance. There was no general support for new legislation.

The second day of Council focused on the state of play of the international climate change negotiations.

Discussions were held on climate financing and the EU's negotiating strategy going forward to Copenhagen. The UK emphasised the need for further movement in the next set of June Councils on options for mechanisms to generate finance and on the institutional structure for delivering and governing finance,. The latter was an area the EU had not yet addressed so needed urgent attention. The UK's view on topics for further work was well received, though there was little consensus on timing.

There was also little clarity on how we could feasibly address some of the difficult issues raised in the recent spring Council processes—for example how any financial burden from any of these or other mechanisms should be shared within the EU and with other non-EU countries. Ministers agreed to consider these issues further and recommended a joint meeting of senior Environment and Finance Ministry officials before the June Councils to help coordinate its position for the next set of UNFCCC negotiations.

HEALTH

Health and Social Care (Age Discrimination)

The Minister of State, Department of Health (Phil Hope): The Government are today publishing the Equality Bill. The Bill outlaws unjustifiable age discrimination against people aged 18 and over by those providing services and exercising public functions. Secondary legislation under the Bill will allow conduct that does not contravene the ban to be specified and the ban can be brought into force at different times in different sectors.

To support delivery of the Equality Bill's age provisions in health and social care, my right hon. Friend the Secretary of State for Health has asked Sir Ian Carruthers, chief executive of the south-west strategic health authority, and Jan Ormondroyd, chief executive of Bristol city council, to lead a national review from the south west region. The review will provide the Secretary of State with advice and recommendations in the form of a published report in October 2009, which will set out what it will mean in practice to implement the ban in health and adult social care and what actions need to be taken. In the light of these recommendations and the Government's desire to implement the ban as soon as practicable, the review will set the date(s) from which the provisions relating to age in health and social care should commence.

A national joint implementation unit will also be hosted by the south-west region.

The review will work in a transparent and collaborative manner, drawing on the expertise of a wide range of stakeholders including third sector organisations.

The Secretary of State has also asked Sir Ian and John Dixon, immediate past president of the association of directors of adult social services, jointly to chair the Department of Health Advisory Group on Age Discrimination, which was announced in a written statement on 11 November 2008. The group will support the review.

The review will support the Government's broader aspiration to deliver high quality care for all, including by means of more personalised, age-appropriate services.

HOME DEPARTMENT

Communications Data Consultation

The Secretary of State for the Home Department (Jacqui Smith): I have today published a consultation, "Protecting the Public in a Changing Communications Environment", which addresses the issue of communications data. The consultation explains how existing access to communications data by the police, security and intelligence agencies and by others helps protect and safeguard the public; how the rapidly changing communications environment will make it harder for these agencies and other authorities to obtain access to these data when they need to do so; and the measures we need to take to maintain existing police and agency capabilities in the future. It rules out the option of creating a central database to collect and hold communications data. I am inviting views on the changes we propose and how we will continue to strike the balance between respect for individual privacy and protection of the public.

Communications data are information about a communication not the content of that communication. For a given telephone call, communications data can include the telephone numbers involved, and the time and place the call was made, but not what was said. For an e-mail it might include the e-mail address from which the message was sent, and to where it was sent, but not the content of the message.

Used in the right way, and subject to important safeguards to protect individuals' right to privacy, communications data can play a critical role in keeping all of us safe. It enables investigators to identify suspects and their associates; provides vital clues in solving life-threatening situations such as kidnaps, and evidence supporting alibis and prosecutions; supports lawful interception of communications; and assists the emergency services to help or locate vulnerable people. It is also critical to safeguarding our national security, and in particular to countering the terrorist threat.

Communications data are currently retained by the communications companies for their own business purposes and access by public authorities to any of that data is tightly regulated under the safeguards specified in the Regulation of Investigatory Powers Act 2000, and overseen by the Interception of Communications Commissioner.

The existing regulatory framework which governs access to communications data is based upon the principles of necessity, proportionality, oversight and accountability. Communications data are as vital a tool for investigating and prosecuting crime for our international partners as they are for the UK. Many other countries will face a loss of this capability due to the technological changes in the communications industry. Although other countries will face the same challenges as the UK, we will be among the first to be affected for several reasons:

> The UK telecommunications environment is one of the most dynamic in the world, due to deregulation;
>
> Many leading Western European countries still have dominant national fixed line companies, whereas the UK has a more "open" market which encourages the spread and use of communications;
>
> The UK's competitive communications market encourages companies to find new ways to cut costs and offer new services, many based in the complex world of the internet.

Some of these new services will be offered by the companies in the UK that operate the existing communications networks, but many others will be offered by overseas companies outside of UK jurisdiction. They have no need to retain data or provide agencies and the police here with access to it. Consequently, it will become increasingly more difficult to obtain the communications data needed to support public safety. We therefore need to take action to maintain this crucial capability, ensuring that the necessary strict safeguards are retained.

The consultation rules out creating a central database of communications data. However, doing nothing in the face of these changes is also not an option. Therefore I am inviting views on other ways in which current capabilities can be maintained in future. Communications companies will continue to be at the heart of the proposed system. They would continue to store data as they do today. But we will need to find ways of collecting and storing data relating to communications services provided from overseas providers.

Any reduction in communications data capabilities will seriously impair the effectiveness of our police and other services to protect the public. Criminals, terrorists and paedophiles are often among early adopters of new technology. We must ensure that our law enforcement agencies can continue to obtain communications data in the face of great technological change.

Copies of the consultation are available in the Vote Office and the Printed Paper Office.

JUSTICE

Family Courts

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I made an oral statement and laid in Parliament the Government's response to the recent consultation on improving the openness of family courts in December 2008, entitled "Family Justice in View". In that paper I announced that we would make a number of changes to current court rules to make family proceedings more open and transparent.

The Under-Secretary of State for Justice, my hon. Friend the Member for Lewisham, East (Bridget Prentice) laid before Parliament on 6 April the Family Proceedings (Amendment) (No.2) Rules 2009 and the Family Proceedings Courts (Miscellaneous Amendments) Rules 2009. These rules provide for the media to be present at family proceedings but give the courts limited discretion to exclude in set circumstances prescribed in the rules. The rules also make it easier for parties and their legal advisers involved in family proceedings to be able to disclose information for the purpose of advice and support, mediation and the investigation of a complaint. The rules will also make it easier for the person to whom the party has disclosed information to make onward disclosure of it for the same purpose, and with the party's consent, without seeking permission of the court. These new rules of court, which are the first phase of the wider package of measures I announced in December, will come into effect today.

The media attendance rules are supported by prac[illegible] directions issued by the president of the family divisio[illegible]

The second phase of the measures will be the information pilots, which will test the provision of written judgments in more cases than now, and put anonymised versions in the public domain. These pilots will start when the necessary procedures and security arrangements have been agreed and are in place.

A revised reporting restriction framework will be the third phase. Primary legislation is needed to give effect to a clearer and more consistent reporting restriction framework applicable across all tiers of family courts, which will support the wider objectives of the transparency programme whilst respecting the rights to privacy of parties to proceedings, and children. This is because key existing restrictions on reporting are contained piecemeal in primary legislation, and the balanced, flexible and simplified framework which is our aim cannot be achieved through rule changes. We will do this as and when parliamentary time allows.

In December I also announced that we would be reversing the effect of the landmark judgment made in Clayton v Clayton. Since making that statement I have taken the time to reflect and reconsider my position on this issue. I have now come to the conclusion that unless good evidence can be provided to show me that by not reversing Clayton v Clayton the effects to the child will be harmful (and so far no such evidence has been forthcoming), I will not disturb the effects of Clayton v Clayton. I will of course keep this decision under review should evidence emerge of a negative impact. I will also consider the implications of the judgment with interest groups as part of wider discussions on legislative requirements to introduce transparency in the courts.

WALES

Legislative Competence Order

The Secretary of State for Wales (Mr. Paul Murphy): I am pleased to inform the House that the proposed National Assembly for Wales (Legislative Competence)

(Environment) Order 2009 has been laid today, as Command Paper (Cm 7608). Copies of this can be found in the Vote Office and will be placed in the Library from 12 noon. I have written to the Welsh Affairs Committee and to the House of Lords Constitutional Committee to request they undertake pre-legislative scrutiny.

WOMEN AND EQUALITY

Equality Bill

The Parliamentary Secretary, Government Equalities Office (Maria Eagle): Some people experience discrimination because they have a combination of protected characteristics. For example, black women can face discrimination because of stereotyped attitudes or prejudice, which white women and black men in the same circumstances would not encounter. This type of discrimination is known as multiple discrimination. Currently discrimination claims can only be brought in respect of a single protected characteristic. This means that for some people who experience multiple discrimination it is difficult, complicated and sometimes impossible to get a legal remedy.

In the Government response to the consultation "Discrimination Law Review: A Framework for Fairness Proposals for a Single Equality Bill for Great Britain", published on 21 July 2008, we committed to exploring whether provisions for multiple discrimination could be included in the Equality Bill.

Following this consultation, we have developed a proposal, enabling claims combining two protected characteristics. We are now seeking views from industry, business and all interested organisations on the impact of our proposals through the publication of our discussion document, "Equality Bill: Assessing the impact of a multiple discrimination provision—A discussion document".

This document outlines our proposals in detail. It will form the basis for discussions seeking broad views, particularly from business and organisations, on the impact of a multiple discrimination provision. In particular, we are asking specific questions on the burdens the provisions may impose, particularly on employers, and the steps we can take to minimise those burdens.

The discussion will take place over the next six weeks. In the light of the discussions, we will decide whether protection from multiple discrimination should be introduced and if so how, taking into account progress on the Equality Bill which we have published today.

I am placing copies of this document in the Vote Office and the Libraries of both Houses. Copies will also be available on the Government Equalities Office website at: www.equalities.gov.uk

Written Ministerial Statements

Tuesday 28 April 2009

TREASURY

Finance Bill 2009

The Financial Secretary to the Treasury (Mr. Stephen Timms): The Finance Bill will be published on Thursday 30 April.

Explanatory notes on the Bill will be available in the Vote Office and the Printed Paper Office and in the Libraries of both Houses on that day. Copies of the explanatory notes will be available on the Treasury's website.

Informal ECOFIN: 3-4 April 2009

The Chancellor of the Exchequer (Mr. Alistair Darling): The informal meeting of the Economic and Financial Affairs Council was held in Prague on 3 and 4 April 2009.

The Informal first focused on the issues facing Europe from the current economic and financial situation, including the impact of the recession on global trade and labour markets and the need to restore growth. The Informal also discussed the G20 summit and the forthcoming spring meetings of the IMF and World Bank. Ministers also assessed the costs and benefits of the 2004 enlargement.

Ministers and governors also held the first discussion of the recommendations made by the high-level group of Jacques de Larosière regarding the reform of the financial supervisory framework in Europe.

The Financial Services Secretary to the Treasury represented the UK.

FOREIGN AND COMMONWEALTH OFFICE

United Nations Durban Review Conference

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): I would like to update the House on the UN Durban Review Conference, the follow-up to the 2001 UN World Conference Against Racism, Racial Discrimination, Xenophobia and Related Intolerance which took place in Geneva from 20 to 24 April. The Government are firmly committed to the elimination of all forms of racism and intolerance. We engaged in this conference because we share its goal of fighting racism.

The UK's engagement in the review process has always come with clear red lines that, if breached, would have led to our withdrawal. We made clear in particular that we would not accept a repeat of the appalling anti-Semitism seen at the first Durban conference in 2001. And the outcome text would need to meet a number of explicit conditions.

In the event, we negotiated a text that did meet those conditions. In particular, we resisted attempts for language calling for restrictions to the right of freedom of expression, including through the concept of "defamation of religions". We secured language on Holocaust remembrance (to which Iran objected but then, in a minority of one, agreed) and the fight against anti-Semitism, and successfully rebutted attempts to single out any country for criticism in the outcome document. We also ensured the text included references to multiple forms of discrimination—which we interpret to cover also the rights of lesbian, gay, bisexual and transgender people—and the importance of the right to freedom of expression in combating racism.

Given that the UK and its partners were successful in achieving our red lines in the outcome document, we decided that the UK should participate in the conference. But we shared the concerns of those who feared the misuse of this conference for intolerant ends and worked hard to avoid such a scenario. I wrote to the UN High Commissioner for Human Rights on 17 April making it clear that we would not accept intolerant behaviour in the conference.

On 20 April, on the first day of the conference, President Ahmadinejad of Iran delivered a statement to the conference, in which he made unacceptable comments describing Israel as a "racist Government" established on the "pretext of Jewish suffering". The Government deemed these comments offensive, inflammatory and utterly unacceptable. That such remarks were made at the UN's anti-racism conference was all the more shocking and outrageous. On instructions agreed between several like-minded countries, the UK delegation—along with a number of others—left the hall in protest and in solidarity with those targeted by the Iranian President. The delegation returned to the hall once the Iranian President had finished speaking.

The British ambassador to the United Nations in Geneva, Peter Gooderham, delivered a statement on 22 April condemning the Iranian President's speech, but also making it clear that we did not want to leave the stage only to those, like President Ahmadinejad, who would take global efforts against racism backwards. We remained in the UN conference because we wanted an outcome that advanced global efforts against racism. The UN Secretary-General, Ban Ki-moon, and High Commissioner for Human Rights, Navi Pillay, also condemned the President's interventions, as did many other speakers.

The UK delegation kept in close touch with UK-based non-governmental organisation stakeholders throughout the conference.

The fight against racism remains a global struggle. Victims of racism deserve better than political squabbling and intolerant polemics. I believe that the Government did the right thing by remaining in the conference, having our voices heard, and ensuring an acceptable outcome document.

JUSTICE

Advisory Panel on Judicial Diversity

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The challenge of forming a diverse judiciary is substantial. The work of the Judicial Appointments Commission's (JAC's) Judicial Diversity Forum and proactive trilateral work between the Ministry of Justice, the judiciary and the JAC has made this clear. While the JAC has encouraged more diverse applications to the judiciary and the efforts of the trilateral work have meant that we are now seeing increasing numbers of women and black and minority ethnic applicants for judicial office, progress has been slower than we would like.

Given the personal commitment of the Lord Chief Justice and the chairman of the JAC to this cause, we need a better understanding of the factors behind this relative lack of progress and a clear agenda for how we move forward.

I have therefore decided to establish an advisory panel on judicial diversity to be chaired by Baroness Julia Neuberger with the following terms of reference:

> To identify the barriers to progress on judicial diversity and to make recommendations to the Lord Chancellor on how to make speedier and sustained progress to a more diverse judiciary at every level and in all courts in England & Wales.
>
> In considering this question the panel will:
>
> Examine the nature of the problem.
>
> Consider research undertaken on the UK system as well as considering international comparators.
>
> Draw on the lessons learned from current initiatives, including the JAC Judicial Diversity Forum and the follow up work from the Lord Chief Justice's conference on "A Judiciary for the 21st century".
>
> Draw up a list of practical measures that could be taken, identifying those that could happen quickly and those that would require legislation.

The panel is asked to report to the Lord Chancellor no later than November 2009.

The other members of the panel are Lord Justice Goldring, Professor Dame Hazel Genn, Andrew Holroyd CBE, Winston Hunter QC, Dr Nicola Brewer.

This will be work that must bring together and make the best use of the combined expertise of the senior judiciary, the JAC, the legal professions and diversity and equality advisers to identify how we can make swifter progress to a judiciary more reflective of the communities it serves.

TRANSPORT

Delivering a Sustainable Transport System (Consultation)

The Secretary of State for Transport (Mr. Geoffrey Hoon): I have today published a summary of the responses received to the Government's consultation on "Delivering a Sustainable Transport System: Consultation on Planning for 2014 and Beyond". Copies have been placed in the Libraries of both Houses, and are available on the Department's website (www.dft.gsi.gov.uk).

There were over 500 responses to the consultation. The great majority supported economic growth and tackling climate change as the most important challenges, with over half identifying climate change as the single most important challenge to be addressed. There was also support for the approach to decision-making we proposed.

The Government have given careful consideration to the issues raised by stakeholders, and the document I have published today summarises how we intend to take them into account when developing packages of transport measures.

WOMEN AND EQUALITY

Special Fund for Sexual Violence Voluntary Sector

The Parliamentary Secretary, Government Equalities Office (Maria Eagle): On 19 March the Minister for Women and Equality announced a £1.6 million cross-Government special fund for Rape Crisis Centres (members of Rape Crisis England and Wales) and the Survivors' Trust sexual violence charities in England and Wales.

These charities provide invaluable support and specialist services, such as counselling and advocacy, to women and men who have been raped or experienced sexual violence.

The fund will open for applications for support from eligible organisations on 28 April, with a deadline of 5 June. It is anticipated that grants will be made to successful organisations in July this year. The purpose of the special fund is to ensure the continuation of voluntary sector services to victims of rape and sexual abuse. Details of how to apply and the eligibility criteria will be available on my Department's website (www.equalities.gov.uk). This special fund is a cross-Government initiative involving the Government Equalities Office, Department of Health, and Home Office.

Last year's special fund ensured that 20 Rape Crisis Centres (members of Rape Crisis England and Wales) did not have to close or reduce services to victims of rape and sexual abuse. Since the announcement of last year's fund, the Survivors' Trust has provided information that their members' services and groups were at risk of closure. That is why the terms of this new fund have been expanded to ensure that members of both Rape Crisis (England and Wales) and the Survivors' Trust can apply.

Nevertheless, the Government recognise the on-going problems experienced by the sexual violence sector, particularly in respect of accessing local funding. Officials across Government are working to consider what more we can do, based on the recommendations made by the Home Office's Stakeholder Advisory Group on Sexual Violence and Abuse Funding Sub-group. Government Equalities Office is working with the Improvement and Development Agency (IDeA) in local government to improve the way local commissioning of services from the violence against women third sector works. This will include piloting workshops in three regions in the summer. These workshops will bring together violence against women organisations with commissioners from bodies such as local government and PCTs.

Written Ministerial Statements

Wednesday 29 April 2009

CHILDREN, SCHOOLS AND FAMILIES

Lamb Inquiry

The Secretary of State for Children, Schools and Families (Ed Balls): I have welcomed today the report from Brian Lamb, Chair of the Special Educational Consortium, on information for parents of children with special educational needs and disabled children (SEND), and accepted his recommendations.

I asked Brian Lamb in December 2008 to consider improvements to information as part of his wider inquiry into parental confidence in the special educational needs system. I accept the report's central recommendation that good engagement and communication with parents of children with SEND is something which we should expect of all those working in children's services. We will require this as part of the £3 million "Achievement for All" pilots we are taking forward in ten areas.

I will set out details in July on how we will take forward recommendations on improving school and local authority compliance with requirements on producing information for parents.

We will also take forward the recommendation to use the major reforms we are planning to make schools and children's services responsive, personalised and accountable to all parents, work for parents of children with SEND.

I have asked Brian Lamb for further advice in July in two particular areas of concern that he has raised. First, on whether the Ofsted inspection provisions and the wider changes to the school improvement and accountability framework, give sufficient priority to SEN and disability or whether changes are necessary, including to legislation. Secondly, on whether statements of special educational needs are sufficiently clear; whether they are understood by parents; and how well they contribute to improving children's outcomes.

I have placed a copy of a letter from Brian Lamb, his report, and my response in the House Libraries. They are also available on the Department's website at: www.dcsf.gov.uk/lambinquiry

DEFENCE

Afghanistan Troops Levels (Election Support)

The Secretary of State for Defence (Mr. John Hutton): My right hon. Friend the Prime Minister said in his statement to the House on Afghanistan today that our force levels in that country will increase to 9,000 over the course of the Afghan elections. They will then reduce to an enduring presence of 8,300 in 2010. The following units will be committed over the summer:

854 Naval Air Squadron
Elements of 5th Regiment Royal Artillery
Elements of 16th Regiment Royal Artillery
Elements of 19th Regiment Royal Artillery
Elements of 32 Regiment Royal Artillery
Elements of 33 Engineer Regiment (Explosive Ordnance Disposal)
Elements of 38 Engineer Regiment
15 Field Support Squadron Royal Engineers
65 Field Support squadron Royal Engineers
Elements of 170 (Infrastructure Support) Engineer Group
Elements of 10th Signal Regiment
Elements of 4th Battalion, The Rifles
Elements of 11 Explosive Ordnance Disposal Regiment Royal Logistics Corps
Elements of 1 Military Intelligence Brigade
Elements of Joint Medical Command
Elements of 2 Medical Regiment
Elements of 4 Medical Regiment
Elements of the Queen's Own Yeomanry
Elements of 5(Army Co-operation) Squadron, Royal Air Force
Elements of No.3 Royal Air Force Police Wing
Elements of 15 Squadron Royal Air Force Police Wing

The House will recall I announced on 16 December 2008 that elements of 2nd Battalion, The Royal Regiment of Fusiliers would deploy from April until August 2009. They will now serve throughout the election period.

A small number of volunteer and regular members of the reserve forces will deploy to Afghanistan as part of this integrated force package. The majority will serve on operations for six or so months, although some may have shorter tours.

These units will provide important additional capabilities for UK forces in Afghanistan. The reinforcement of two infantry companies will enable us to provide extra security during the Afghan elections. We shall also enhance our capability to counter Improvised Explosive Devices (IEDs). These devices are a major threat to our troops, those of our allies and to the ordinary Afghan people. We are deploying personnel with a range of skills to detect, dispose and exploit IEDs and to prevent them being laid. Other personnel will improve our ability to defend our bases while we shall also reinforce our already significant reconnaissance capabilities. We shall increase the number of tactical unmanned aerial vehicles. We shall also deploy Sea King air surveillance and control helicopters and the new airborne stand-off radar. These complementary systems track use radar to track movements on the ground. They can help our forces to detect, follow and intercept insurgents before they can lay IEDs.

In addition, the UK will deploy the Headquarters of 6 (UK) Division to command the International Security Assistance Force's Regional Command (South) from November 2009 to November 2010. Merlin Support Helicopters from 78 Squadron, Royal Air Force are also being prepared for service in Afghanistan. On current plans, they will be available to deploy by late 2009.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Ministerial Correction

The Minister of State, Department for Environment, Food and Rural Affairs (Jane Kennedy): I regret that the written answer given to the hon. Member for North-West

Leicestershire (David Taylor), on 4 February, *Official Report*, column 1197W, was incorrect. The correct information is as follows:

> The environmental impact of demolition sites is covered by a number of Acts, most notably the Environmental Protection Act 1990, Part III Statutory Nuisance and the Noise and Statutory Nuisance Act 1993 and Bye Laws (these include requirements to prevent nuisance arising from noise, odour, dust, smoke, light and vibration). Local authorities monitor these impacts and breaches of these environmental regulations may also be dealt with by the Environment Agency. The Health and Safety Executive will have some responsibilities with regard to the presence and handling of asbestos and health, safety and training on such sites.
>
> A requirement for a site waste management plan (SWMP) was introduced during 2008 for all construction projects over £300,000. Enforcement powers lie with local authorities and the Environment Agency. The Environment Agency is likely only to be involved during existing investigations into illegal waste disposal incidents.

Veterinary Medicines Directorate

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): Following consultation on the future of the Veterinary Medicines Directorate (VMD) I have decided to retain the VMD as a DEFRA executive agency.

The VMD is one of the DEFRA regulators covered by the recommendation by Philip Hampton, in his review of regulatory inspections and enforcement, that they should be merged with one of seven thematic regulators. Having carried out a consultation on two options: either merger with another regulator or retention of VMD as an executive agency of DEFRA, I have concluded that there is no basis, or appetite amongst VMD's customers and stakeholders, for merger.

VMD's primary role is the regulation of veterinary medicinal products, in which it is one of the leading regulatory agencies in the EU, and it already complies with the Hampton principles in the way it operates. DEFRA will now consider the possibility of examining whether the flexibilities afforded by trading fund status would help the VMD increase its efficiency and improve its service delivery. Any consideration of trading fund status will be subject to a further consultation.

HEALTH

Autism Strategy (Adults)

The Minister of State, Department of Health (Phil Hope): I am today launching a consultation on the development of an autism strategy for adults.

We are committed to delivering real change for adults with autism through this strategy but, before deciding on the final content, we are inviting contributions via the consultation from people whose lives are affected by Autistic Spectrum Conditions including Aspergers (autism), whether personally or professionally.

The consultation strategy document has benefited from input from an external reference group comprising people with autism, family, carers and health and social care professionals involved in front line delivery of services. Together, we have identified five key themes—health, choice and control, social inclusion, employment, and raising awareness and training. These themes were chosen as representative of the main concerns that we hear from people with autism, and as such, are the areas that we believe can deliver the greatest change. However, there is general recognition that these themes do not cover all the issues and we are using the opportunity afforded by the consultation to invite people to inform the developing strategy by letting us know about their own direct experience and identify their priority areas for action.

We have made clear our determination to drive improvements in the national health service and local authority services so that people with autism experience real improvements to their everyday lives. We believe that this action is best taken without recourse to legislation, which risks restricting the flexibility of service commissioning and provision. Our priority is to ensure the strategy on adults with autism takes account of the views of people with autism and their families, alongside those of professionals and practitioners in the field.

In addition to the consultation and subsequent strategy we are spearheading activity in a number of areas that will enable us to understand and meet the needs of adults with autism; and drive service improvement. These include:

> addressing issues relating to the collection of data on adults with autism;
>
> research on the prevalence of autism among adults;
>
> research into the transition of young people with autism to adult services;
>
> evidence-based good practice guidance on choice and control from the Social Care Institute of Excellence;
>
> work with professional bodies to take action to address training issues, such as the work being taken forward by Skills for Care on new knowledge sets to support people with autism; and
>
> links with the implementation of the learning disability strategy, Valuing People Now, which will secure improved support for adults with autism who also have a learning disability.

We are also taking forward a range of initiatives aimed at children which are designed to benefit the way services are commissioned and delivered for everyone. These include:

> the Child Health Strategy with its focus on early engagement and early intervention;
>
> Aiming High for Disabled Children to transform services for disabled children, including those with autism;
>
> increased funding to the Autism Education Trust (AET) to improve commissioning of services for children with autism;
>
> improvements to training and support for professionals working in mainstream education; and
>
> new regulations and statutory guidance for Children and Young People's Plans.

This Government believe that people with autism have a right to live life as full and equal citizens. We are committed to developing a strategy that supports the delivery of real change for adults with autism. To support delivery of the commitments in the strategy we will issue statutory guidance, subject to consultation and assessment of benefits.

The consultation period will run from 29 April until 15 September; a total of 20 weeks. This extended consultation period will maximise people's opportunity to consider, discuss and respond and will help us gather a range of examples and evidence about existing good practice and local delivery approaches to inform the proposals to be contained in the final strategy and assess the likely benefits and costs.

INTERNATIONAL DEVELOPMENT

Sri Lanka

The Parliamentary Under-Secretary of State for International Development (Mr. Michael Foster): I would like to update the House on my recent visit to Sri Lanka to assess the humanitarian situation. I urged the Government of Sri Lanka to support a ceasefire to allow the civilians still held in the conflict area to leave, to improve the conditions for the internally displaced persons (IDPs) in the Government controlled areas by dramatically increasing access for humanitarian agencies; and to focus the Government's mind on the need for the early return and resettlement of the IDPs. There are two distinct humanitarian groups of concern.

The first is the fate of the civilians caught up in the conflict area in north-eastern Sri Lanka. There is still uncertainty about the exact number of civilians who remain in the conflict area with estimates ranging from 20,000 to 70,000 civilians. However, the UN estimates that up to 50,000 civilians remain caught in an area measuring less than five square miles. Since September 2008, the International Committee of the Red Cross (ICRC) has been the only humanitarian agency allowed to have a presence in the conflict area by the Government of Sri Lanka. Approximately three times a week the ICRC ships food and emergency items such as blankets and medical supplies into the conflict area, and evacuates the wounded and their carers out of the conflict area. The fate of these remaining civilians is our most pressing concern. It is vital that they are able to move away from danger to safety under UN oversight, and that, in the meantime, humanitarian agencies have access to the conflict area to deliver humanitarian assistance.

The second is the 180,000 or more IDPs who have escaped the conflict area to camps under Government of Sri Lanka control; including the 113,000 who have arrived in the last ten days. I spoke with some of the IDPs in the camps. Many were traumatised by their experiences in the conflict area and concerned at being separated from members of their families. It is essential that these camps meet international standards and that the Government of Sri Lanka allows unrestricted access by humanitarian agencies to undertake their life saving work.

During my trip I urged the Government of Sri Lanka to abide by its public commitment to return 80 per cent. of the IDP population to their homes by the end of the year. It is vital that the camps are temporary in nature and that the IDPs are allowed to return home as quickly and safely as possible. The Government of Sri Lanka asked for UK help to respond to the humanitarian crisis and to return the IDPs back to their homes.

The UK will continue to provide support to mitigate the humanitarian crisis. During my visit I announced a further £2.5 million of humanitarian funding for Sri Lanka, bringing the total to £7.5 million. I would like to assure the House that all UK funding is provided directly to neutral and impartial international humanitarian agencies to save lives and reduce suffering. For example, on the 27 April, the UK contributed £500,000 to the United Nations High Commissioner for Refugees to airlift 5,000 tents to provide temporary shelter for the IDPs; £3.1 million remains on hand to respond rapidly to needs on the ground.

The overriding imperative is for both sides to take all steps to safeguard civilian lives. The UK has repeatedly made clear that there can be no military solution and called again and again for a ceasefire. The Government of Sri Lanka's announcement, of an end of offensive operations using heavy weapons, made during my trip is a welcome first step. The LTTE must allow the civilians to leave the conflict area. Lasting peace in Sri Lanka can only come about through a fully inclusive political process that takes into account the legitimate aspirations of all Sri Lanka's communities—Sinhalese, Tamils and Muslims. The Sri Lankan Government must make a concerted drive to achieve a political solution. The UK Government will continue to press for urgent progress in all of these areas. To this end, the Foreign Secretary is in Sri Lanka today to meet President Rajapakse.

Afghanistan Country Plan

The Secretary of State for International Development (Mr. Douglas Alexander): Afghanistan and Pakistan are of critical strategic importance to the UK. Helping both countries to ensure their own security, stability, growth and development is vital both for the Afghan and Pakistani people and for our own national security.

In January 2006 we signed a 10-year development partnership agreement with the Government of Afghanistan. I am today announcing our new four-year country plan, at a moment when we so urgently need a renewed effort from across the international community. The plan explains how we will support the Afghan Government in achieving its goals under the Afghanistan National Development Strategy (ANDS), which was launched at the Paris Conference in June 2008.

DFID's support to Afghanistan is part of the wider UK Government strategy for the region set out by the Prime Minister. Our programme fits alongside the work of the Foreign and Commonwealth Office and the Ministry of Defence, forming a comprehensive effort to help strengthen state institutions, counter the threat of violent extremism, and pursue sustainable economic growth across the region. Over the same 2009 to 2013 period, we have pledged already to spend £665 million helping the Pakistani Government to achieve its vision of becoming a stable, economically and socially developed country.

Our Afghanistan country plan focuses on four areas where we are best placed to provide support under the ANDS: building an effective state; encouraging economic growth; providing alternatives to poppy growing; and promoting stability and development in Helmand. We will maintain our humanitarian support, primarily through UN agencies. We will strengthen our focus on gender, by building partnerships within the Government of Afghanistan and with other donors—particularly multilateral institutions—to increase their contribution to addressing gender inequality.

The commitment I am making today, of £510 million over the next four years, confirms us as the second largest bilateral donor in Afghanistan. We will continue to spend at least 50 per cent. of our assistance through Afghan Government systems: as well as ensuring value for money for the UK, this is the best way to improve Afghan capacity to govern, and to strengthen the connection between the citizen and the state. We are asking other donors to do the same in order to strengthen Afghan capacity through coordinated and transparent planning.

JUSTICE

"Engaging Communities in Criminal Justice"

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): My right hon. Friend the Home Secretary, my right hon. and noble Friend the Attorney-General and I are today announcing the publication of "Engaging Communities in Criminal Justice" (Cm 7583), a consultation document which has been laid before Parliament. We are also announcing the publication of the associated consultation-stage "Impact Assessment", which has been placed in the Libraries of both Houses. Copies of both documents are available from the Vote Office, and the Printed Paper Office. Both documents will be available from the CJS Online website at: http://consultations.cjsonline.gov.uk/ and on the web sites of the Ministry of Justice, the Home Office and the Attorney-General's Office.

Significant reform of the criminal justice system in England and Wales has already been delivered but there is more to be done. "Engaging Communities in Criminal Justice" sets out and invites views on the Government's proposals for further improvements to the design and delivery of local criminal justice services. It represents the next stage in the Government's programme for a criminal justice service that is effective, delivers justice for all, has the interests of victims and witnesses at its heart and which inspires the trust and confidence of the people it serves.

The proposals are part of a consultation and are centred on three areas: strengthening the connections between communities and their prosecution and court services; ensuring that justice outcomes are more responsive and more visible and improving communication between local people and their criminal justice services. The proposals are designed to better open up the whole justice system to communities so that services are more transparent, responsive and more accountable to local people. The Government believe that a number of measures likely to be of direct benefit to local communities could be established more quickly in a number of areas. We are therefore establishing 30 pioneer areas across England and Wales which will implement a package of measures during 2009.

The consultation-stage "Impact Assessment" sets out such evidence as is currently available in relation to the Government's proposals. It contains estimates of the actual or potential costs of the proposals and an assessment of the potential operational impact on criminal justice services and other local delivery partners, including those in the third sector. The final "Impact Assessment" will be revised and updated in light of information received during the consultation and any further available evidence from pathfinder and pilot projects. It will then be published alongside the summary of consultation responses and the Government's proposed next steps.

The Government will undertake a full equality impact assessment of the proposals in this consultation document. This will help to identify and enable the Government to reduce any unintended negative impact on individuals and particular segments of the community. The final equality impact assessment will be published.

The consultation period starts today and will close on Friday 31 July 2009. Responses to the consultation can be made using the on-line response facility at: http://consultations.cjsonline.gov.uk/?conid=1, via email to: Engagingcommunities@cjs.gsi.gov.uk or by post to the address indicated in the consultation document.

TRANSPORT

Travel Plans

The Parliamentary Under-Secretary of State for Transport (Paul Clark): My right hon. Friend the Minister of State for Housing and Planning and I are today publishing "Delivering Travel Plans through the Planning Process—Good Practice Guidelines". This document supersedes our previous guidelines "Using the planning process to secure travel plans: Best practice guidance for local authorities, developers and occupiers" which were published in July 2002

Travel plans have been used successfully for many years, whether secured through planning of developments or prepared on a voluntary basis. They are an important tool for promoting sustainable travel, such us walking, cycling, and public transport. They help to reduce single occupancy car use, carbon emissions and congestion.

The documents contain suggested good practice guidelines and are recommendations only. There are no additions or changes to Government policy or law; instead there are helpful suggestions and case studies in the new documents which will make travel planning more effective.

Copies of the new guidelines and a summary will be available on the Department for Transport, and Communities and Local Government's websites (www.dft.gov.uk and http://www.communities.gov.uk/corporate/), the Libraries of both Houses, the Vote Office and Printed Paper Office.

Statutory Senior Traffic Commissioner

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): The Government are today publishing their consultation on draft guidance from the Secretary of State to the statutory senior traffic commissioner as part of their implementation of the Local Transport Act 2008.

The guidance represents an important opportunity for the Secretary of State to express formal and public views on how the powers of the statutory senior traffic commissioner might be exercised—particularly to benefit the industries that the traffic commissioners regulate.

The consultation exercise seeks views on the content of the proposed guidance. The consultation runs until

21 July and the final guidance will be issued as soon as possible thereafter. The Government expect the senior traffic commissioner to respond formally to the guidance, seeking views via a separate public consultation exercise.

Copies of the consultation will be available on the Department for Transport's website at http://www.dft.gov.uk/consultations/open/trafficcommissioner, and are available in the Libraries of both Houses.

Written Ministerial Statements

Thursday 30 April 2009

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Regional Development Agency

The Minister for Employment Relations and Postal Affairs (Mr. Pat McFadden): I am pleased to announce that I have decided to appoint two new business position RDA board members to East of England Development Agency and East Midlands Development Agency.

RDA	*Board Member New Appointees*
East of England Development Agency	Dr Robert Swann
East Midlands Development Agency	Mr Michael Bryant

The appointments will start on 1 May 2009 and will be for a period of two years and three months ending on 13 December 2011.

I am also pleased to announce that I have decided to reappoint 15 existing RDA board members who between them serve on seven of our Regional Development Agencies; listed below.

RDA	*Board Member Re-appointees*	*Period of Re-appointment -From 14 December 2009*
Advantage West Midlands	Brendan Connor	3 years
East of England Development Agency	Peter McCarthy Ward	3 years
	William Pope	3 years
	Lord Edward Iveagh	3 years
East Midlands Development Agency	Tricia Pedlar	3 years
	Haydn Biddle	3 years
ONENorth-East	Ruth Thompson	3 years
	Paul Callghan	3 years
	Cllr Peter Jackson	3 years
South-East England Development Agency	Alexander Pratt	3 years
	Robert Goldfield	3 years
	Pamela Charlwood	3 years
The South-West of England Regional Development Agency	John Savage	3 years
Yorkshire Forward	Professor M Arthur	2 years
	Cllr John Weighell	3 years

I have agreed to extend the appointment of Joe Dwek at North-West Regional Development Agency, following agreement of the Commissioner for Public Appointments, for a further year expiring in December 2010.

The RDAs play a vital role in spreading economic prosperity and opportunity to everyone. All the re-appointees have bought a wealth of experience to their RDA adding a vast amount of value.

I have placed further details of these appointments, including biographies, in the Libraries of both Houses. I can confirm that the appointments were made in accordance with the code of practice of the Commissioner for Public Appointments.

TREASURY

Consolidated Fund

The Chancellor of the Exchequer (Mr. Alistair Darling): The sum of £1,555,162,313 was paid out of the Consolidated Fund on 30 March 2009 under section 228(5) of the Banking Act 2009. The Treasury is satisfied that the need for this expenditure was too urgent to permit arrangements to be made for the provision of money by Parliament.

CHILDREN, SCHOOLS AND FAMILIES

Primary Curriculum Review

The Secretary of State for Children, Schools and Families (Ed Balls): As part of the Children's Plan, we committed to a fundamental review of the primary curriculum, and I was delighted that Sir Jim Rose accepted my invitation to carry out this important work. The remit for the review was to consider how to:

> Ensure that the primary curriculum builds on prior learning in the Early Years Foundation Stage (EYFS) and supports transition to and children's readiness for secondary school.
>
> Increase flexibility and reduce prescription where possible to allow teachers more freedom to tailor the curriculum to their pupils' interests, different and developing abilities and local circumstances to ensure that no child is left behind and to narrow achievement gaps.

Continue the focus on the crucial skills of literacy and numeracy, while recognising the increasing learning opportunities opened up by advances in technology in the last decade and children's increasing ICT capabilities.

Give a greater emphasis to children's personal development and well-being.

Balance these priorities with children's entitlement to a broad and balanced primary curriculum which introduces them to the arts, sciences, humanities, physical education and sport and foreign languages as they progress through primary education.

In addition, I asked Sir Jim to consider how to improve outcomes for summer-born children, including considering when they should start school. During the review I asked Sir Jim to consider two of the EYFS early learning goals for writing as part of his wider review of improving transition from EYFS into primary Key Stage 1.

Sir Jim's interim report was published on 8 December and has been subject to widespread consultation with teachers, parents, learned societies, subject experts and other professionals. He has now completed his final report, which I am publishing today along with proposals for a revised primary national curriculum. Hard copies are being placed in the Libraries of both Houses. I am accepting all of his recommendations subject to public consultation.

Sir Jim has made a number of recommendations directly related to the design and content of the primary curriculum which will require legislation, which I have accepted subject to public consultation which I have asked the Qualifications and Curriculum Authority to carry out from today. They will also consult on the proposals to make personal, social, health and economic education statutory that I announced on Monday 27 April.

Sir Jim proposes a new core of essential skills for learning and life focused on literacy, numeracy, ICT and personal development and learning which is embedded across the whole curriculum. This will help ensure that all children leave school secure in the basics. Sir Jim's recommendations also include restructuring the primary curriculum into six broad areas of learning, within which essential subject content will be organised and become more distinct as children progress from Key Stage 1 to Key Stage 2.

The areas of learning are:

understanding English, communication and languages;

mathematical understanding;

understanding the arts;

historical, geographical and social understanding;

understanding physical development, health and wellbeing;

scientific and technological understanding.

The draft programmes of learning for these areas set out the knowledge, skills and understanding which children should learn linked to the overall aims of helping children become successful learners, confident individuals and responsible citizens. The curriculum content is set out in three clear phases to help teachers plan for progression. Sir Jim also recommends that a foreign language should become compulsory for the first time from age 7, building on the recommendation of the languages review carried out by the late Lord Dearing.

A number of other significant recommendations do not require legislation and I plan to take them forward subject to the forthcoming consultation. These will support and promote the successful implementation of the new curriculum from September 2011. These include promoting what Sir Jim has already seen as excellent practice in some of our best primary schools relating to teaching reading and encouraging children's spoken communication skills. He has also concluded that we should retain the two writing early learning goals as aspirational targets and that the Government should make available guidance and support to smooth children's transition from the EYFS to primary school, including supporting those children still working towards these goals.

Other recommendations relate to helping schools plan for implementing the new curriculum, such as the Government supporting teachers' professional development needs to deliver our increased expectations around ICT. Given the fundamental nature of the changes and the important contribution that I expect the new curriculum to make to children's attainment and well-being, I have agreed that primary schools should be permitted an additional training day in 2010 to give every school the time and opportunity to plan for the new curriculum from September 2011. A full set of Sir Jim's recommendations and my response is set out in the annex to this statement.

On the question of when summer-born children should start school, I have accepted Sir Jim's recommendation that children should ideally start school in the September immediately following their fourth birthday, possibly on a part-time basis for some children, but with parents having freedom to choose. He has taken account of the compelling evidence on the benefits to summer-born children from starting school at the same time as their peers and that the majority of local authority areas already operate a single point of primary school entry in September. Young disabled children and children with SEN in particular will benefit from starting school as soon as possible so that the right interventions are put in place to ensure that these children also make progress alongside their fellow pupils. I am mindful however, that compulsory school age does not start until the term after a child turns five and that some parents have a strong preference for their child's early years experience to take place outside a school setting. I therefore intend to make funding available across the maintained, private and voluntary sectors to enable all children to receive full time provision in education and childcare from the September after their fourth birthday. Alongside making that provision available, we will ensure that parents have clear information about the benefits of beginning reception in September and we will work to help schools and early years settings to smooth the transition for any children who move into reception after September.

I am enormously grateful to Sir Jim for the rigorous, inclusive and evidence-based way in which he has undertaken this major review. He has consulted widely with subject experts, learned societies, teachers and other professionals, and his review is informed by excellent practice in our best schools and internationally. Throughout the review he has kept in the forefront of his thinking the interests of children and their parents. I am confident that his work will make a huge difference to millions of young people, helping to ensure their primary years equip them with the knowledge, skills and understanding they need to thrive in their future education and later lives.

Rose Review of the Primary Curriculum: Key Recommendations and Government Response

Area of Remit	*Rose Recommendation*	*Government Response*
Curriculum review	*Recommendation 1*: A National Curriculum should be retained as a statutory entitlement for all children.	Accept.
	Recommendation 2: Consideration should be given to making the historically re-active response to curriculum review a pro-active strategy whereby the EYFS and the statutory curriculum for primary and secondary schools are reviewed at agreed intervals as a whole, rather than as separate phases reviewed out of sequence. This would impose a discipline on the process of review such that schools could be assured of a period of stability in which to achieve agreed curricular goals.	Accept.
	Recommendation 3: The aims for a revised primary curriculum derived from the 2006 Education Act, the Children's Plan and 'Every Child Matters' should be underpinned by a unified statement of values which is fit for all stages of statutory education. The aims and values established as part of the recent secondary curriculum review should be extended to the primary curriculum.	Accept in principle, subject to public consultation.
Managing curriculum Change	*Recommendation 4*: In preparing for a revised curriculum in 2011, examples of good timetabling and time management from highly successful schools should be made available.	Accept.
Curriculum design and content	*Recommendation 5*: The content of the primary curriculum should be organised as it is now under knowledge, skills and understanding but structured as six areas of learning to enable children to benefit fully from high quality subject teaching and equally challenging cross-curricular studies.	Accept in principle, subject to public consultation.
	Recommendation 6: (i) To help primary schools plan for, and sustain curricular continuity, and secure pupils' progress from Year R to Year 7, the QCA should work closely with the National Strategies to support schools to plan the new curriculum. (ii) Web-based guidance should be made available drawing upon the experience of that for the secondary curriculum. This should include refreshing the primary literacy and numeracy frameworks. (iii) In line with arrangements for implementing the new secondary curriculum, DCSF should provide primary schools with one extra training day in 2010 to enable the workforce in each school to understand the new primary curriculum and start planning how it will work in their school.	Accept.
	Recommendation 7: The DCSF should commission a plain-language guide to the curriculum for parents to help them understand how it will change to match children's developing abilities and how they can best support their children's learning at school.	Accept.
Literacy, numeracy and ICT	*Recommendation 8*: (i) Literacy, numeracy and ICT should form the new core of the primary curriculum. (ii) Schools should continue to prioritise literacy, numeracy, ICT and personal development as the foundational knowledge, skills and understanding of the primary curriculum; the content of which should be clearly defined, taught discretely, and used and applied extensively in each area of learning. (iii) The DCSF Expert Group on Assessment should give consideration to how the new core of literacy, numeracy and ICT should be assessed and these aspects of children's performance reported to parents.	Recommendation 8(i): Accept in principle, subject to public consultation. Recommendations 8(ii) and 8(iii): Accept.
	Recommendation 9: Primary schools should make sure that children's spoken communication is developed intensively within all subjects and for learning across the curriculum. In so doing, schools should capitalise on the powerful contributions of the performing and visual arts, especially role play and drama.	Accept.
	Recommendation 10: (i) Primary schools should continue to build on the commendable progress many have made in teaching decoding and encoding skills for reading and spelling through high quality, systematic, phonic work as advocated by the 2006 Reading Review as the prime approach for teaching beginner readers. (ii)Similar priorities and principles should apply to numeracy in keeping with the recommendations of the Williams Review.	Accept.
	Recommendation 11: (i)The two early learning goals for writing should be retained as valid, aspirational goals for the end of the reception class. (ii) DCSF should offer additional guidance for practitioners and teachers on supporting young children's emerging writing skills, including examples of how these two goals are being achieved by many children.	Accept.
	Recommendation 12: The DCSF, working with QCA and BECTA' should consider what additional support teachers will need to meet the raised expectations of children's ICT capabilities and use of technology to enrich learning across the curriculum and set in train adequate support.	Accept.
Personal development	*Recommendation 13*: (i) The QCA, in consultation with representative groups, should exemplify and promote the range of learning envisioned in the new framework for personal development with the firm intention of helping schools to plan for balanced coverage, and avoid piecemeal treatment of this central aspect of the curriculum. (ii) Personal Development should be given core status along with literacy, numeracy and ICT. The QCA should work with schools to explore and develop innovative ways of assessing pupil progress in this area.	Accept in principle, subject to public consultation.
Transition and progression	*Recommendation 14*: (i) The preferred pattern of entry to reception classes should be the September immediately following a child's fourth birthday. However, this should be subject to well-informed discussion with parents, taking into account their views of a child's maturity and readiness to enter reception class. Arrangements should be such as to make entry to reception class an exciting and enjoyable experience for all children, with opportunities for flexible arrangements such as a period of part-time attendance if judged appropriate. (ii) The DCSF should provide information to parents and local authorities about the optimum conditions, flexibilities and benefits to children of entering reception class in the September immediately after their fourth birthday.	Accept.
	Recommendation 15: The QCA should make sure that guidance on the revised primary curriculum includes clear advice on how best to support those children who need to continue to work toward the early learning goals and build on the learning that has taken place in the EYFS.	Accept.

Rose Review of the Primary Curriculum: Key Recommendations and Government Response

Area of Remit	*Rose Recommendation*	*Government Response*
	Recommendation 16: What constitutes high quality of play-based learning, especially across the EYFS and into Year 1, should be made explicit in guidance from the QCA. Because parents, too, need to understand the importance to children of learning through play, appropriate aspects this guidance should be routed through schools to parents.	Accept.
	Recommendation 17: Key Stage 1 teachers should be involved in the moderation of Early Years Foundation Stage Profile (EYFSP) assessments within schools, to increase their understanding of the EYFSP and their confidence in the judgements of reception teachers.	Accept.
	Recommendation 18: Major central initiatives, such as, Assessment for Learning and Assessing Pupils' Progress have huge potential for strengthening the transition of children from primary to secondary schools. The DCSF should develop these initiatives to keep pace with the fast growing appetite in primary schools to take them on board.	Accept.
	Recommendation 19: With their local authorities, primary and secondary schools, should agree a joint policy for bridging children's transition from Key Stage 2 to Key Stage 3. Five inter-dependent transition bridges are suggested for this purpose: administrative; social and personal; curriculum; pedagogy, and autonomy and managing learning. This should involve extended studies across Year 6 and Year 7, and draw upon the support of personal tutors.	Accept.
	Recommendation 20: When the National Strategies next review their materials they should look to further strengthen curricular continuity between Key Stage 2 and Key Stage 3.	Accept.
Languages	*Recommendation 21*: The knowledge, skills, understanding that children need to acquire in languages should be situated within the area of learning entitled "English, communication and languages". This will enable teachers and pupils to exploit the links between English and the chosen language(s) and realise the potential, for example, of role play and drama for young children learning a modern language.	Accept in principle, subject to public consultation.
	Recommendation 22: Schools should focus on teaching only one or two languages. This should not preclude providing pupils with experiences in other languages as opportunities arise in cross-curricular studies, as long as sustained learning is secured in one or two languages to ensure that children are able to achieve progression over four years in line with the expectations of the Key Stage 2 Framework for Languages.	Accept in principle, subject to public consultation.
	Recommendation 23: Primary schools should be free to choose the language(s) that they wish to teach, however, as far as possible the languages offered should be those which children will be taught in Key Stage 3.	Accept in principle, subject to public consultation.
	Recommendation 24: The commendable work that is taking place to support the delivery of language teaching through workforce development programmes should continue at current levels of funding.	Accept in principle, subject to comprehensive spending review settlement beyond April 2011.
	Recommendation 25: A survey by OFSTED of how well-primary schools are managing the introduction of languages as a compulsory subject should take place no later than 2014.	Accept.

DEFENCE

Call Out Order (Cyprus)

The Minister for the Armed Forces (Mr. Bob Ainsworth): A new call-out order has been made under section 56 of the Reserve Forces Act 1996 to enable members of the reserve forces to continue to be called out into permanent service and deployed to Cyprus as part of the UK's contribution to the United Nations Forces in Cyprus (UNFICYP). The call-out order has effect until 30 April 2010.

Last year some 240 members of the TA, primarily from 32 Signals Regiment, were called out and deployed for six months in Cyprus as part of the UK's contribution to UNFICYP.

Defence Vetting Agency Key Targets Financial Year (2009-10)

The Minister for the Armed Forces (Mr. Bob Ainsworth): Key targets have been set for the chief executive of the Defence Vetting Agency for financial year 2009-10. These are provided below.

Key target 1: External validation of quality

To achieve at least a 98 per cent. satisfaction rating with 200 cases independently selected and reviewed from a random sample of Security Check (SC) and Developed Vetting (DV) cases completed in the preceding 12-month period.

Key target 2: Delivering customer service

To maintain customer service excellence accreditation.

Key target 3: Completing routine cases

a. To complete 85 per cent. of Counter Terrorist Checks (CTC) within 30 calendar days.

b. To complete 85 per cent. of SCs within 30 calendar days.

c. To complete 85 per cent. of Defence DVs within 100 calendar days.

Key target 4: Completing priority cases

a. To complete 90 per cent. of CTCs within 10 calendar days.

b. To complete 90 per cent. of SCs within 10 calendar days.

c. To complete 85 per cent. of Defence DVs within 30 calendar days.

Key target three and four represent net performance that excludes delays outside of DVA control.

Key target 5: Completing aftercare cases

a. All aftercare incident reports to be taken into action within seven calendar days of receipt.

b. 80 per cent. of Scheduled Aftercare to be taken into action within 30 calendar days of the due date.

Key target 6: Improving efficiency

To reduce the unit cost of output by 2 per cent.

Puma Review

The Minister for the Armed Forces (Mr. Bob Ainsworth): I am today placing in the Library of the House and on the MOD website, a copy of two reports "The Puma Force—A Review of Contemporary Operating Issues" and the earlier report "A Strategic Review of the Puma

Helicopter Force". These reports were undertaken by the Ministry of Defence as a prudent step following a number of Puma helicopter incidents in 2007. The reports are a comprehensive and honest examination of a wide range of issues, including Puma Force culture, training, flying and operational requirements, structure, leadership and management.

"A Strategic Review of the Puma Helicopter Force" was written for internal consumption and consequently contains sensitive information that we have needed to redact. I realise that this can make the document difficult to read and that is why "The Puma Force—A Review of Contemporary Operating Issues" was written and is also being published. This is an unclassified report, specifically designed to provide a clear narrative and allow the reader to better understand the context in which a series of incidents occurred and the actions taken and planned as a result. As a consequence of the latter, the Puma Force's capability has been enhanced and the management of safety improved to minimise the risk of further accidents. Clearly, operational flying can never be risk free.

I would stress that there is no suggestion in the documents that the Puma is in any way unsafe to fly.

ENERGY AND CLIMATE CHANGE

Nuclear Decommissioning Authority

The Minister of State, Department of Energy and Climate Change (Mr. Mike O'Brien): I would like to inform the house that the Nuclear Decommissioning Authority (NDA) has successfully concluded its auction process for the disposal of land adjacent to three existing nuclear sites at Bradwell in Essex, Oldbury in South Gloucestershire and Wylfa in Anglesey.

The successful bidders are:

Bow Bidco Wylfa Ltd (A consortium consisting of EON UK Plc and RWE Npower Plc) for the 178 hectares (438 acres) of land at Wylfa;

Bow Bidco Oldbury Ltd (A consortium consisting of EON UK Plc and RWE Npower Plc) for the 48 hectares (119 acres) of land at Oldbury;

EDF Development Company Ltd for the 200 hectares (493 acres) of land at Bradwell

The sale of these three sites is worth up to £387 million which the NDA will use to offset the cost of decommissioning and to further its core mission. The successful outcome of the auction demonstrates that major energy companies are gearing up for significant investment in low carbon energy in the UK.

HEALTH

Mid Staffordshire NHS Foundation Trust

The Secretary of State for Health (Alan Johnson): On 17 March 2009 the Healthcare Commission, the independent health regulator, published its comprehensive report into the severe failings in emergency care provided by Mid Staffordshire NHS Foundation Trust between 2005 and mid 2008. It was a catalogue of appalling management and failures at every level for which I apologised on behalf of the Government and the NHS in my oral statement to the House the next day.

I announced at the same time a range of measures, including two swift reviews into the circumstances at Mid Staffordshire to be led by Professor Sir George Alberti, National Clinical Director for Emergency Care and Dr David Colin-Thomé, National Clinical Director for Primary Care.

Professor Alberti has looked at the hospital's procedures for emergency admissions and treatment and its progress against the recommendations in the Healthcare Commission's report. In addition, he looked at other related areas of work, including the quality of care issues highlighted in the report in relation to the medical admission wards 10, 11 and 12.

Dr Colin-Thomé looked into the circumstances surrounding the Mid Staffordshire NHS Foundation Trust prior to the Healthcare Commission's investigation to learn lessons about how the primary care trust and strategic health authority, within the commissioning and performance management systems that they operate, failed to expose what was happening in this hospital.

Those two reports were submitted to me on 29 April and we are today placing copies in the Library together with the Government's response.

The trust and the Government have accepted all of the recommendations of these reports.

The new Health and Social Care regulator, the Care Quality Commission will, together with Monitor and the PCT, take stock with the trust after three months. The CQC will do a follow-up review in six months. Monitor, the independent regulator for FTs, will hold monthly meetings with the trust to ensure it implements all of the recommendations.

The NHS chief executive David Nicholson will be writing to NHS organisations to bring these reports to their attention and asking them to ensure they implement all of the recommendations that are relevant to them. Monitor will be writing in similar terms to foundation trusts.

The Healthcare Commission report identified severe failings at Stafford Hospital. While much has been done to rectify these, the two reports indicate that work still needs to be done to ensure quality of care at the hospital reaches the highest standard. Swift and decisive action is being taken to ensure that is the case. Stafford hospital was exceptional, not typical, but all those working in the NHS can learn from this experience so that such events do not occur again elsewhere.

HOME DEPARTMENT

Animal Procedures Committee

The Parliamentary Under-Secretary of State for the Home Department (Mr. Shahid Malik): On behalf of the Home Secretary and the Minister for the Department of Health and Social Services and Public Safety for

Northern Ireland, I am very pleased to announce the appointment of Professor Hannah Buchanan-Smith, Mr. Michael Dennis, Dr. Ian Peers, Dr. David Smith and Mrs Sarah Wolfensohn as members of the Animal Procedures Committee from 2 February 2009, each for a four-year term.

Professor Hannah Buchanan-Smith of the University of Stirling has considerable expertise and knowledge of primate behaviour and welfare. Professor Buchanan-Smith has also worked widely as a consultant to industry and researched, with the pharmaceutical industry, primate behaviour in laboratory environments.

Mr. Michael Dennis, a microbiologist with the Health Protection Agency, has considerable experience in scientific procedures involving both rodents and primates, including using category 4 facilities (facilities that contain highly infectious human pathogens). Mr. Dennis has also authored on the subject of care management of laboratory animals.

Dr. Ian Peers is a statistician with Astra Zeneca with experience of biostatistics and experimental design. Dr. Peers has experience of working with a wide range of species (including fish and primates) and manages a global statistics resource.

Dr. David Smith, a senior director for Astra Zeneca and president of the Laboratory Animal Science Association (LASA), has a thorough knowledge of industry practices, and excellent engagement with welfare interests and working across the spectrum of stakeholders in this field.

Mrs Sarah Wolfensohn, a veterinary practitioner with the University of Oxford, has a thorough working knowledge of the Animal (Scientific Procedures) Act 1986, extensive experience of working with a wide range of species, in particular primates, but also including other regularly used laboratory animals and livestock and has been involved in the design of animal facilities in the UK and overseas.

I welcome the contribution that each new member will bring to this important Advisory Committee.

JUSTICE

Bradley Report

The Minister of State, Ministry of Justice (Mr. David Hanson): On 5 December 2007, my right hon. Friend the Secretary of State for Justice and Lord Chancellor announced that my right hon. and noble Friend Lord Bradley, reporting jointly to the Department of Health and the Ministry of Justice, would carry out a review into the diversion of offenders with mental health problems or learning disabilities away from prison into other more appropriate services.

The Government are very grateful to Lord Bradley for carrying out this review, and to the many organisations and people who formed part of the consultation and contributed. The Government welcome the report and its analysis, identifying where further work or reforms are needed and setting out the case for change.

The Government recognise the need for reforms in this area, and accept the direction set out in Lord Bradley's report. In particular the Government will establish a Health and Criminal Justice National Programme Board, bringing together the relevant Departments covering health, social care and criminal justice, for children and adults.

The board's first priority will be to consider Lord Bradley's recommendations in detail and to develop a national delivery plan by October 2009. The Government also accept Lord Bradley's recommendation for a National Advisory Group, to help ensure wider involvement from interested organisations. The Government would welcome comments on Lord Bradley's recommendations and the nature and constituency of the National Advisory Group by 31 May 2009

Copies of Lord Bradley's report have been placed in the Libraries of both Houses and it is available at: www.dh.gov.uk. The Government response has also been placed in the Library and is available at: www.justice.gov.uk. The Government will make a further report to Parliament in October 2009.

WORK AND PENSIONS

Discretionary Social Fund

The Parliamentary Under-Secretary of State for Work and Pensions (Kitty Ussher): In order to offer further support to families on low incomes during the recession, the Chancellor's Budget report on 22 April included the announcement that additional funding has been made available for social fund loans. In addition, to ensure that money is directed to those who are in the most need, the Secretary of State will be making changes to the discretionary social fund. The changes will take effect from 27 April 2009 for applications and awards made within the south-west region and from 8 June 2009 for the east midlands region. This is because of the introduction of a requirement for third and subsequent living expense crisis loan applications to be usually completed at a face to face interview at a Jobcentre Plus local office. In addition, a customer will usually be limited to three non-aligned living expenses crisis loans within a 12-month rolling period. This will be where the first and subsequent awards are made within the south-west region on or after 27 April 2009 (8 June 2009 for the east midlands region). Customers in these regions will be advised of the three non-aligned loan limit before taking out their first and second loans. Subsequent loans will still be available for customers who require assistance to meet living expenses:

A: as a consequence of a disaster.

B: in an emergency which—

1. is not a consequence of an act or omission for which applicant or his partner is responsible.

2. the applicant or his partner could not have taken reasonable steps to avoid (as in guidance), regardless of the number of loans already taken out in a given year.

As part of the third and subsequent application interview customers will be provided with a leaflet that gives customers local and national organisations that are available to provide money management advice. The leaflet has been placed in the Libraries of both Houses of Parliament.

Petition

OBSERVATIONS

TRANSPORT

Planning and Development (Heathrow)

The Petition of the Supporters of the Campaign to Save Cherry Lane Cemetery,

Declares that the proposal by the British Airports Authority to construct an access road to the proposed Third Runway and Sixth Terminal at Heathrow Airport through Cherry Lane Cemetery, which is the only functioning cemetery in this part of the London Borough of Hillingdon, is an act of outrageous, sacrilegious destruction, which is causing considerable distress to the families of loved ones buried at the cemetery and concern to the local community.

The Petitioners therefore request that the House of Commons calls upon the Government to reject this proposal and safeguard this site.

And the Petitioners remain, etc.—*[Presented by John McDonnell, Official Report,* 11 March 2009; Vol. 489, c. 403.]

[P000331]

The Petition of the Supporters of the Campaign to Save Cherry Lane Cemetery,

Declares that the proposal by the British Airports Authority to construct an access road to the proposed Third Runway and Sixth Terminal at Heathrow Airport through Cherry Lane Cemetery, which is the only functioning cemetery in this part of the London Borough of Hillingdon, is an act of outrageous, sacrilegious destruction, which is causing considerable distress to the families of loved ones buried at the cemetery and concern to the local community.

The Petitioners therefore request that the House of Commons calls upon the Government to reject this proposal and safeguard this site.

And the Petitioners remain, etc.—*[Presented by Mr. Nick Hurd, Official Report,* 11 March 2009; Vol. 489, c. 403.]

[P000333]

The Petition of the Supporters of the Campaign to Save Cherry Lane Cemetery,

Declares that the proposal by the British Airports Authority to construct an access road to the proposed Third Runway and Sixth Terminal at Heathrow Airport through Cherry Lane Cemetery, which is the only functioning cemetery in this part of the London Borough of Hillingdon, is an act of outrageous, sacrilegious destruction, which is causing considerable distress to the families of loved ones buried at the cemetery and concern to the local community.

The Petitioners therefore request that the House of Commons calls upon the Government to reject this proposal and safeguard this site.

And the Petitioners remain, etc.—*[Presented by Mr. John Randall, Official Report,* 11 March 2009; Vol. 489, c. 404.]

[P000334]

Observations from the Secretary of State for Transport, received 7 April 2009:

The Government acknowledges the concerns expressed over the protection of Cherry Lane Cemetery in Hillingdon, but believes they are unfounded. Plans published as part of the Adding Capacity at Heathrow Airport consultation in November 2007 illustrating access roads to an expanded airport were clearly marked as "indicative". They did not purport to show the proposed third runway precinct or road layout in any detail because, pending consultation, such plans were necessarily at an early stage.

With policy support for a third runway and sixth terminal having been announced in January, it is now for the airport operator, BAA, to develop final details and bring forward a formal planning application. I understand that BAA are very much aware of public concerns about Cherry Lane Cemetery and have, following engagement with Cherry Lane Against Development, confirmed that they will only develop schemes that avoid the cemetery.

OBSERVATIONS

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Royal Mail Services (Gloucestershire)

The Petition of the Mayor of Wotton-under-Edge Town Council on behalf of the Community of Wotton-under-Edge and hinterland,

Declares that the community of Wotton-under-Edge and its hinterland wish the Royal Mail Sorting Office in Wotton-under-Edge, Gloucestershire, to remain open;

Further declares that there has been overwhelming support from the community for the Sorting Office to remain in Wotton-under-Edge, an independent Market Town of 5,700 people with a hinterland of villages, who are struggling to keep shops and services going;

Notes that Cam Sorting Office is a 14-mile return trip from Wotton-under-Edge, and that the area is poorly served by public transport; further notes that the town has an ageing population who would struggle to collect undelivered mail; further notes that there is concern for the postmen and women who will have to make this extra journey with all its ramifications of financial and environmental cost.

Further declares that the community is worried by the detrimental effect the closure will have on the economic well-being of the town and particularly its business community; further declares that the town is already suffering through the recession and could well see further job losses as a consequence;

Notes that much of the data and other information supplied by Royal Mail is incorrect and has continued to be used despite the town's attempts to amend it; further notes that the Royal Mail has undertaken no meaningful consultation with the community, having only spoken to three people invited to the Sorting Office.

The Petitioners therefore request that the House of Commons urges the Government to act to ensure on behalf of the people of Wotton-under-Edge and surrounding villages that the Sorting Office remains open and the service is not moved to the village of Cam, Gloucestershire.

And the Petitioners remain, etc.—*[Presented by Mr. Geoffrey Clifton-Brown, Official Report,* 9 March 2009; Vol. 489, c. 128 .]

[P000325]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The restructuring and modernisation of Royal Mail's sorting office operations is a matter for Royal Mail's management. The Government does not intend to intervene in management decisions of this kind.

Given that volumes of mail are expected to fall by 5 to 7 per cent. each year due to people using digital communications to meet their needs, it is vitally important that Royal Mail structures its operations as efficiently as possible so that it can secure its future and continue to provide the universal postal service at affordable prices.

Royal Mail has given assurances that changes to mail services to the Wotton-under-Edge area will be completed with minimal disruption to customers and staff.

TRANSPORT

Planning and Development (Essex)

The Petition of Gwen Hall, residents of Hadleigh, and others,

Declares that the local council's plans to destroy part of the grassed tree lined verge between Tattersall Gardens and Hadleigh on the A13 to provide a bus lane is not reasonable, would not improve traffic flows significantly, would destroy the open and green entrance to Hadleigh village and would therefore, on balance, be a waste of public resources; further notes that councillors should consult residents properly on all such issues and listen to them more seriously.

The Petitioners therefore request that the House of Commons urges the Government to make it clear to Essex County Council and Castle Point Council that they should put this development on hold until they have properly consulted the public, and that they should listen to public opinion.

And the Petitioners remain, etc.—*[Presented by Bob Spink, Official Report,* 24 March 2009; Vol. 490, c. 276.]

[P000338]

Observations from the Secretary of State for Transport:

Essex County Council is the strategic highway authority for all local roads within the County of Essex, the provision of traffic management on these roads is for them to consider. The Government have responsibility for the strategic highway network which is managed through the Highways Agency.

With regard to consultation, Essex County Council consulted on the Basildon to Hadleigh A13 Improvements Scheme and this closed 27 March 2009. Castle Point Borough Council outlined the proposal in their Core Strategy Proposed Publication Consultation which closed 20 March 2009.

As part of its role however central government does provide a range of guidance to local authority's including Traffic Advisory Leaflets, Local Transport Notes and Good Practice Guides. These are regularly updated based on ongoing monitoring of the performance of engineering schemes that are put in place and can be viewed on the Departments website: www.dft.gov.uk.

Rail Services (Lockerbie)

The Petition of users of Lockerbie Station and others,

Declares the anger of users of Lockerbie Station at the 40 per cent cut in the number of rail services between Lockerbie and Glasgow or Edinburgh in the new time-table operational from December 2008; regrets the failure to provide the much promised early morning direct service to Edinburgh in that timetable; and notes the increased need to use connecting trains when travelling to or from the South.

The Petitioners therefore request that the House of Commons call upon the Secretary of State for Transport to, firstly, reconsider the recent cuts to the number of services serving Lockerbie and, secondly, to instigate the introduction of a 'balanced' timetable designed to meet the needs of Lockerbie station users, and specifically to allow commuters to travel from Lockerbie to and from Glasgow and Edinburgh at times suitable for the start and end of the normal working day and to allow return from Edinburgh and Glasgow late in the evening so that people in the South of Scotland can take advantage of evening entertainment in these cities.

And the Petitioners remain, etc.—*[Presented by David Mundell, Official Report*, 1 April 2009; Vol. 490, c. 1012.]

[P000343]

Observations from the Secretary of State for Transport:

The matter of rail services at Lockerbie in the December 2008 timetable was the subject of an Adjournment debate on 11 November 2008, *Official Report*, col. 744-750.

There has been extensive consultation about the new service patterns now operating on the West Coast Main Line. Those representing Scotland expressed strong support for the accelerated and more frequent links with London and Birmingham that are now in place.

The December 2008 timetable was designed to maximise the value of the £8.9 billion the Government have invested in the modernisation of the route, to better match resources with demand and to make best use of available assets. While some less popular journeys now take longer, the overwhelming majority of passengers benefit. And Lockerbie has not been left isolated, with trains calling on a broadly two hourly basis across the day and faster journeys to Manchester and London.

First Trans Pennine proposed to operate a Carlisle to Edinburgh commuter service. However they found that there was insufficient capacity on the approaches to Edinburgh and decided to provide an early morning Manchester to Edinburgh train instead. This train provides a new business service from Manchester and Preston and also calls at Lockerbie. The service is a development that makes better use of assets and one which I support.

The December 2008 timetable is now fully operational and performing well. The more frequent and faster services, with around 30 minutes shaved from a typical London to Glasgow journey, are performing well with encouraging demand growth. I therefore do not propose to make changes.

Petitions

Thursday 23 April 2009

OBSERVATIONS

FOREIGN AND COMMONWEALTH OFFICE

European Union

The Petition of the Democracy Movement Bakewell,

Declares that a new poll by ComRes, a member of the British Polling Council, commissioned by the Campaign for an Independent Britain, reveals that British people believe the European Union is out-of-touch, unfair, corrupt and extremely costly for UK taxpayers and that UK politicians are hopelessly out of touch; further notes that 83 per cent of those polled say British law should be paramount, 75 per cent think UK politicians do not do enough to stand up for British interests in Europe, and 71 per cent want a national referendum to decide whether the UK remains in the EU; further declares the petitioners' deep concern that the EU spent 2.4 billion euros of taxpayers' money in 2008 to promote itself and its overriding aim of ever closer union.

The Petitioners therefore request that the House of Commons urges the Government to declare that it will not take Britain into the Euro zone and that it accepts the need for a referendum on the fundamental issue of Britain's sovereignty.

And the Petitioners remain, etc.—*[Presented by Bob Spink, Official Report,* 11 March 2009; Vol. 489, c. 403 .]

[illegible]

Observations from the Secretary of State for Foreign and Commonwealth Affairs:

The Petition from the Democracy Movement Bakewell requests the House of Commons to urge the Government to declare that it will not take Britain into the Eurozone and to accept the need for a referendum on British sovereignty.

The Government's position on the Euro is unchanged. It is that in principle, we are in favour of UK membership of EMU, but in practice, the economic conditions must be right. A decision on membership of the single currency will be based on whether it is in the national interest to join and whether the case is clear and unambiguous. The Government have set out five economic tests that must be met before any decision to join the Euro can be made. When these five tests were last assessed, it was concluded that, "a clear and unambiguous case for UK membership of EMU has not at the present time been made". While the Government did not propose another Euro assessment to be initiated at the time of Budget 2008, the Treasury will again review the situation at Budget 2009.

On the petitioners' call for a referendum: the UK has a Parliament whose Members are elected to take decisions that affect the nation. There was no referendum on our entry into the then European Community in 1973: that decision was made by our democratically-elected Parliament. There was a referendum on UK membership of the European Economic Community in June 1975—thereafter, each amending Treaty—including the adoption of the Treaty on the European Union, which formed part of the Maastricht Treaty—has been ratified by the British Parliament. Should this Government decide that the time is right for the UK to join EMU, we have committed to put this decision to a referendum.

The petitioners also cite public concerns that the EU is out of touch and costly for UK taxpayers and that the Government do not do enough to stand up for British interests in Europe.

This Government share the petitioners' concern that the EU should deliver for British people. But it does not share the view that the EU is unaccountable and a drain on UK taxpayers. Our membership of the EU is very much in the interests of the UK and has brought real benefits in jobs, peace and security. The UK's participation in the EU Single Market alone each year brings economic benefits to the UK well exceeding our annual contributions to the EU budget. Over half of the UK's trade is within the EU, with an estimated 3.5 million British jobs linked to it. Our membership allows us to live, work and travel across Europe and to receive free medical care if we fall sick on holiday. Improved maternity pay, the right to paid holidays and a reduction in mobile phone charges when abroad are just some of the practical benefits the EU has helped deliver for UK citizens.

Of course the Government agree that there are areas of EU policy in need of reform. For instance reform of the Common Agricultural Policy (CAP) is a long-standing priority for the UK. We welcomed the steps taken in last year's CAP Health Check, but will continue to push for a fundamentally reformed CAP, to deal with the challenges and opportunities of the 21st century.

We have also taken a lead in pushing for improvements to the Commission's accounting practices and for EU funds to be managed to the highest standards. The UK was instrumental in setting up the European Anti-Fraud Office (OLAF) and strongly supported the establishment of the European Commission's internal audit service as an independent unit.

Finally, the petitioners express concern over the European Commission's expenditure on EU information policy. The Government fully support public and Parliamentary scrutiny of all EU expenditure. However we believe that the European Union has a legitimate obligation to communicate its policies and activities to the citizens it serves.

HEALTH

Health Services (Northamptonshire)

The Humble Petition of residents of Rushden, Northamptonshire and surrounding areas,

Sheweth that the plans to close the hospital outpatients facility at the Rushden Memorial Clinic and replace them with a facility outside of Rushden is unacceptable; further sheweth that the Rushden Memorial Clinic was paid for by the people of Rushden to serve the health needs of the people of Rushden; and believes that Kettering General Hospital NHS Foundation Trust should not be removing the only outpatient facility from the biggest town in East Northamptonshire to a small town with no adequate public transport.

Wherefore your Petitioners pray that your Honourable House urges the Secretary of State for Health to require Kettering General Hospital NHS Foundation Trust to review its decision and to build an enhanced outpatient facility in Rushden in line with the local NHS's own weighted criteria.

And your Petitioners, as in duty bound, will ever pray, etc.—*[Presented by Mr. Peter Bone, Official Report,* 11 March 2009; Vol. 489, c. 401 .]

[P000326]

Observations from the Secretary of State for Health:

The East Midlands Strategic Health Authority reports that the issue referred to has been the subject of a local six week public engagement exercise. At a public meeting on 23 January 2009, the chief executive of Kettering General Hospital NHS Foundation Trust gave an undertaking to consider alternative sites to the Trust's preferred site in Irthlingborough. I would expect Kettering General Hospital NHS Foundation Trust to consider the views of the petitioners when making its decision.

Written Answers to Questions

OLYMPICS

Legacy: Young People

6. **Andrew Selous:** To ask the Minister for the Olympics what plans she has for the legacy use of Olympics sporting venues by young people. [269381]

Tessa Jowell: The Olympics sporting venues in East London and elsewhere in the UK will be available for use after the games at all levels from local communities to elite athletes.

The legacy business plans being prepared for the sports venues—including the stadium, the aquatics centre and the velodrome and velopark—have the provision of affordable access for young people at their heart; for example we anticipate over half a million visits a year at the Aquatics Centre, of which over 100,000 will consist of use by schools, swimming lessons and clubs, and many more by young people visiting during community sessions.

The stadium will include, in addition to a 25,000-seat, IAAF-compliant athletics facility with the capacity to host domestic and international events, a range of other educational and sporting uses including a school with a sporting specialism for 300 to 400 14 to 19-year-olds and a National Skills Academy for sport and leisure providing skills training focused on the 19 to 24 years age group.

Construction Programme

7. **Harry Cohen:** To ask the Minister for the Olympics what recent progress has been made on the London 2012 Olympics construction programme; and if she will make a statement. [269382]

Tessa Jowell: Over 30 per cent. of the Olympic Delivery Authority's Programme is now complete. All the major venues are on schedule and the Olympic stadium and Aquatics Centre are ahead of schedule.

Construction of the International Broadcast Centre/Main Press Centre commenced last week and, in the past few weeks, work has begun on the foundations for the Velodrome and on the construction of the sweeping roof of the Aquatics Centre.

Olympic Delivery Authority Contracts

Ms Keeble: To ask the Minister for the Olympics how many organisations based outside London have been awarded contracts by the Olympic Delivery Authority. [269377]

Tessa Jowell: To date, the Olympic Delivery Authority has awarded contracts to 935 businesses. Of these 424 were to businesses registered outside of London, including three in my hon. Friend's own constituency.

London 2012 expects to directly procure £6 billion worth of contracts, generating 75,000 supply chain opportunities.

Early evidence shows businesses across the UK are already benefiting.

Housing

Siobhain McDonagh: To ask the Minister for the Olympics what steps she is taking to ensure that housing built for the London 2012 Olympics will be available to rent and to buy after the event concludes. [269379]

Tessa Jowell: I and my colleague, the Secretary of State for Communities and Local Government, are working together to ensure the Games will provide a housing legacy of up to 35 per cent. affordable homes, as provided for in planning approvals and associated section 106 agreements.

After the Games the Olympic Village will be converted into mixed tenure housing which will be available to rent or buy for a wide range of people, including existing local communities.

The allocation of affordable homes after the Games will be agreed between the relevant London boroughs and the Homes and Community Agency.

Employment: Olympic Park

Clive Efford: To ask the Minister for the Olympics how many local people are employed in the construction of the Olympic Park site; and how many of them were unemployed immediately prior to their employment on the site. [269380]

Tessa Jowell: The figures published by the Olympic Delivery Authority in January 2009 show that at the end of December 2008 there were 3,315 people working on the Olympic Park site. Of these 23 per cent. were residents of the five Olympic host boroughs. 17 per cent. of these declared themselves as unemployed prior to working on the site.

Olympic Games 2012: Tourism

Mr. Hollobone: To ask the Minister for the Olympics what estimate she has made of the number of additional visitors expected to visit the UK as a result of the London 2012 Olympics. [265726]

Tessa Jowell *[holding answer 23 March 2009]:* Using London Organising Committee of the Olympic Games' (LOCOG) London 2012 Ticket Allocation Model. The Oxford Economics Study 'The Value of the London 2012 Games and Paralympic Games to UK Tourism', published in September 2007 and commissioned by VisitBritain and Visit London, estimates that there will be approximately 900,000 attendees for events related to the 2012 games. However, this will contribute only a small part of the estimated £2.1 billion tourism gains for the UK as a whole that will result from the games in the period 2007 to 2017. The Oxford Economics study has also identified that there will be in excess of 32 million UK-wide extra nights stayed by visitors as a result of the games.

SCOTLAND

Departmental Buildings

Grant Shapps: To ask the Secretary of State for Scotland what properties his Department has sold in each of the last five years. [267554]

Ann McKechin: The Scotland Office has not sold any properties in the last five years.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Scotland how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since 2005; and at what cost. [268258]

Ann McKechin: The Scotland Office shares an information technology system (SCOTS) with the Scottish Executive, which is responsible for the development, administration and maintenance of the system, including the provision of hardware.

The Office has a pool of eight secure SCOTS laptops at its disposal that are available for Ministers, special advisers and staff to use. A couple have been allocated for the sole use of Ministers and special advisers, but they remain allocated to the Office as a whole. The laptops were provided as part of an ongoing technology refresh to the SCOTS IT system, the direct costs of the hardware came to £6,091.20.

Departmental Coordination

Mr. MacNeil: To ask the Secretary of State for Scotland what *(a)* accommodation, *(b)* financial systems, *(c)* personnel and *(d)* ICT and *(e)* other administrative support services his Department receives from (i) the Ministry of Justice and (ii) the Scottish Executive. [268108]

Ann McKechin: The Scotland Office does not directly employ staff. All staff in the Office are on secondment from other Government Departments, which administer the personnel records of their staff. The Scotland Office has its own separate set of books within Scottish Executive's financial system and have access to their ICT system. No accommodation or other administrative support services are received from either Department.

Departmental Empty Property

Mr. Philip Hammond: To ask the Secretary of State for Scotland what estimate he has made of the change in the annual cost to his Department of maintaining the empty public buildings owned by his Department as a result of the April 2008 changes to empty property rate relief. [267128]

Ann McKechin: The Scotland Office does not own any buildings.

Departmental Pay

Mr. MacNeil: To ask the Secretary of State for Scotland how much his Department *(a)* spent on salaries for (i) special advisers and (ii) communications and press officers in each year since 2003 and *(b)* plans to spend on salaries of (A) special advisers and (B) communications and press officers in 2010-11. [268106]

Ann McKechin: Since 2003, the Government have been committed to publishing an annual list detailing the number and costs of special advisers. Information for 2007-08 was published by my right hon. Friend the Prime Minister on 22 July 2008, *Official Report*, columns 99-102WS. The salary costs of communications and press officers in the Scotland Office is as follows:

	Communications and press officers (£)
2003-04	114,643
2004-05	105,266
2005-06	93,114
2006-07	70,283
2007-08	113,235

Plans for 2010-11 have yet to be finalised.

Departmental Public Expenditure

Mr. MacNeil: To ask the Secretary of State for Scotland how much his Department paid the *(a)* Ministry of Justice and *(b)* Scottish Executive for (i) accommodation, (ii) financial systems, (iii) personnel, (iv) ICT support and (v) other administrative services in the last 12 months. [268107]

Ann McKechin: The Scotland Office (SO) does not share any accommodation with either the Scottish Executive (SE) or the Ministry of Justice (MoJ). The SO maintains its own separate set of books within the SE accounting system, at no additional cost. The SO does not directly employ staff—they are all secondees from other Government Departments, which invoice the SO for pay costs but administer personnel records for secondees themselves. The SO paid the SE £115,073 for ICT support for the last 12 months. No other administrative services were received from either the SE or MoJ.

Departmental Training

Grant Shapps: To ask the Secretary of State for Scotland how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and which organisation provided such training. [268556]

Ann McKechin: The Scotland Office has incurred no expenditure on media training for Ministers in the last three years.

Opinion Leader Research

Mr. Baron: To ask the Secretary of State for Scotland how much his Department has paid Opinion Leader Research in each year since November 2007. [265977]

Ann McKechin: The Scotland Office has not used Opinion Leader Research since November 2007.

HOUSE OF COMMONS COMMISSION

Departmental Manpower

Tony Lloyd: To ask the hon. Member for North Devon, representing the House of Commons Commission how many contracts of employment relating to staff employed by right hon. and hon. Members the Department of Resources holds. [269527]

Nick Harvey: As at 31 March 2009 the Department of Resources held 2,344 contracts of employment.

Parliament: Visits

Geraldine Smith: To ask the hon. Member for North Devon, representing the House of Commons Commission how many participants in tours of Parliament booked through the central tours office which took place in the last 12 months came from each part of the UK. [267659]

Nick Harvey: Information is not available in exactly the form requested. The table gives a regional breakdown of the number of tours booked by Members through the Central Tours Office for the year April 2008 to March 2009 inclusive.

Regional breakdown of tours booked by Members, 1 April 2008 to 31 March 2009

Region	*Number of sponsoring Members*	*Number of tours booked*	*Percentage*
East Midlands	44	802	6
East of England	57	1,341	11
London	78	2,459	20
North East	29	328	3
North West	74	1,170	9
South East	83	2,058	17
South West	51	1,025	8
West Midlands	58	964	8
Yorkshire and The Humber	54	746	6
Northern Ireland	15	232	2
Scotland	57	739	6
Wales	40	456	4
Incomplete data	2	26	0
Total	—	12,346	100

Publications: Internet

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission at what times on each sitting day *(a)* the *Official Report*, *(b)* the Summary Agenda and Order of Business, *(c)* Future Business, *(d)* Votes and Proceedings, *(e)* Early Day Motions and *(f)* Questions for Oral or Written Answer (The Questions Book) are planned to be placed on the parliamentary (i) intranet and (ii) website; on what occasions in the last three months each has been late; for what reasons in each case; what steps the Commission is taking to ensure these items are available electronically in a timely manner; and if he will make a statement. [268438]

Nick Harvey: Target upload times are the same for intranet and internet versions of parliamentary publications. Target upload times are as follows:

Publication	*Target upload times*
Official Report:	
Daily Part	8 am
Public Bill Committees	12.30 pm
Chamber and Westminster Hall (Today in the Commons)	3 to 4 hours after delivery of speeches in the Chamber or Westminster Hall, reducing to 2 to 3 hours on the rising of the House
Summary Agenda/Order of Business	7.30 am
Future Business	7.30 am
Votes and Proceedings	8.30 am
Early Day Motions	Between 7.30 and 8 am
Question Books Parts 1 and 2	9.30 am

In the period January to March 2009, the following items have been uploaded late:

Publication	*Number of occasions of late uploading*
Official Report:	
Daily Part	3
Chamber and Westminster Hall (Today in the Commons)	2
Summary Agenda/Order of Business	1
Votes and Proceedings	6
Early Day Motions	3
Question Books Part 2	3

Full information on the reason in each case for late uploading is not recorded. Delays have occurred in part because of the need to amend links or to amend and reload files. Upload times are monitored to ensure timely publication on the intranet and internet and to ensure that publication difficulties are resolved.

In addition to the publications listed, regular updates are made to other parliamentary intranet and internet pages. These include the following:

Announcements of ministerial statements - hourly uploads from 9.30 am to 4.30 pm

Business statement—an hour after the end of the statement

Announcements of Select Committee evidence sessions—usually by 5 pm Thursday

Announcements of General Committees—by 5 pm Wednesday and updated where necessary by 5 pm Thursday

Updates to Today's business on www.parliament.uk are published at midnight. This section also links to the parliamentary calendar, which shows daily business in the Chamber, Westminster Hall and Select and General Committees. Latest news on:

www.parliament.uk

is updated daily and updates can be published hourly from 9.30 am to 4.30 pm and at midnight.

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education

Michael Gove: To ask the Secretary of State for Innovation, Universities and Skills how many full level 2 qualifications completed by adult learners have included *(a)* mathematics GCSE and *(b)* English GCSE in each of the last 10 years. [260811]

Mr. Simon: The table shows the number of full level 2 qualifications achieved by adult learners in further education which included GCSE mathematics or GCSE English. Information is provided for 2003/04 to 2007/08. Comparable figures prior to 2003/04 are not available.

Full level 2 achievements by adults (aged 19+) in further education provision, of which including GCSE mathematics or GCSE English, 2003/04 to 2007/08

		Of the total full level 2 achievers		
Academic year	*Full level 2 achievers total*	*Achieving GCSE English*	*Achieving GCSE mathematics*	*Of which, achieving both*
2003/04	72,800	160	130	30
2004/05	88,500	190	160	60
2005/06	109,100	200	210	60
2006/07	116,000	250	240	90
2007/08	116,700	270	240	80

Notes:

1. Age is based on age as at 31 August (academic age).

2. This information does not include learners achieving a full level 2 qualification in school sixth forms. It also does not include information on learners in higher education institutions, including those that deliver FE provision, unless a provider has submitted an FE individualised learner record return.

3. Learners achieving a full level 2 including both GCSE mathematics and GCSE English are included in both of the columns for these GCSEs and also the column for learners achieving both.

Source:

FE ILR

Over the last few years the Government have prioritised funding towards longer and fuller programmes such as full level 2 qualifications (equivalent of five A*-C GCSEs or vocational equivalent). This has increased the number of adults achieving the broad platform of skills for entering and progressing into employment.

Aimhigher Programme

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills (1) what percentage of students who attended Aimhigher courses, events or workshops subsequently enrolled in a university in *(a)* 2007-08, *(b)* 2006-07 and *(c)* 2005-06; [268784]

(2) how many 16 to 18-year-olds who attended Aimhigher courses subsequently enrolled in a university in *(a)* 2007-08, *(b)* 2006-07 and *(c)* 2005-06; [268786]

(3) how the effectiveness of the Aimhigher programme in encouraging school students into higher education is measured; [268787]

(4) what assessment he has made of the effectiveness of the Aimhigher programme. [268788]

Mr. Lammy: Aimhigher is making a significant contribution towards raising the aspirations of young people towards university, and their pre-entry attainment levels. Over 50 per cent. of young people from all social backgrounds now aspire to university.

It is not possible at a national level to identify young people entering university who previously participated in Aimhigher activities.

The Higher Education Funding Council for England has commissioned the National Foundation for Educational Research (NFER) to work with partnerships on the collection of consistent and coherent local data so that the impact of the programme can better be assessed. We expect the results from a separate study of early Excellence Challenge participants into higher education to be available later in the spring. This will give us the first information to date on the impact of Aimhigher on entry to university.

Evaluation of Aimhigher's predecessors showed, for example, that after just 18 months of the Excellence Challenge programme:

> pupils in schools with Excellence Challenge improved by 2.5 GCSE points compared to those in comparison schools;
>
> there was a significant improvement in the proportion of young people in Excellence Challenge schools attaining levels 4, 5 or 6 in the key stage 3 tests between 2001/02 and 2002/03: it is estimated that Excellence Challenge led to a 4.6 percentage point increase in Maths attainment at key stage 3; and
>
> aspirations to HE were 3.9 percentage points higher in Excellence Challenge schools than in non-Excellence Challenge schools.

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many sixth form students attended Aimhigher courses, events or workshops in *(a)* 2007-08, *(b)* 2006-07 and *(c)* 2005-06. [268785]

Mr. Lammy: This information is not available at a national level. The report 'Aimhigher summer schools: Analysis of provision and participation in summer schools 2004-2008' (Higher Education Funding Council for England (HEFCE), 2009) says that, during the five years from 2003-04 to 2007-08, the Aimhigher summer school programme funded over 1,350 summer schools which helped 41,000 young people. Nine out of 10 school participants in summer schools were from school years 10 and 11, with the remainder mainly drawn from school year 12.

The Department is currently working with HEFCE to develop a new web based database that will record Aimhigher participants and activities, and this will be trialled shortly.

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills (1) what the budget for the Aimhigher programme was in *(a)* 2007-08, *(b)* 2006-07 and *(c)* 2005-06; [268789]

(2) how much was spent on all programmes to encourage and widen participation in higher education in *(a)* 2007-08, *(b)* 2006-07 and *(c)* 2005-06; [268790]

(3) what the advertising budget was for Aimhigher programmes in *(a)* 2007-08, *(b)* 2006-07 and *(c)* 2005-06. [268792]

Mr. Lammy: The budget for Aimhigher in the years 2005-06 to 2007-08 was as follows:

	Aimhigher[1] budget (£ million)
2005-06	102
2006-07	87
2007-08	80

[1] Aimhigher is funded by the Department for Innovation, Universities and Skills, the Higher Education Funding Council for England (HEFCE), the Learning and Skills Council and the Department for Health. The budgets include funding for the Aimhigher Associates programme.

The amount spent on all programmes to encourage and widen participation in higher education in the years 2005-06 to 2007-08 was as follows:

	£ million to nearest whole number		
	2005-06	*2006-07*	*2007-08*
Aimhigher and predecessors[1, 2]	102	87	80
Student support[3]	1,411	1,634	1,962
Widening participation allocation[4]	284	345	356
University bursaries and outreach	—	116	192
Total	1,797	2,182	2,590

[1] The unified Aimhigher programme was introduced in 2004. Predecessor programmes were Excellence Challenge, funded by the then Department for Education and Skills, and Partnerships for Progression, funded by the Higher Education Funding Council for England (HEFCE) and the Learning and Skills Council (LSC). Aimhigher is funded jointly by DIUS, HEFCE, the LSC and the Department for Health.

[2] The figures include, annually, £47.9 million from the Department, and £29 million from HEFCE.

[3] All student support figures are for English domiciled students.

[4] These figures also include the allocations for improving the retention of non traditional students, and to widen access and improve provision for disabled students.

There is no specific budget for the advertising of Aimhigher programmes. The majority of the Aimhigher budget is allocated to Aimhigher partnerships of schools, colleges and universities. Partnerships draw up plans setting out their vision and strategic priorities, their strategic objectives for the year, including indicators of success and timescales, and their evaluation plans. Information on advertising is not collected nationally.

Basic Skills

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many people have made use of Skills Accounts since the launch of the pilots in September 2008. [268645]

Mr. Simon: I refer the hon. Member to the answer given on 26 March 2009, *Official Report*, column 696W. All those who have registered for a skills account can make use of it in a number of ways. These include finding out how much Government funding an individual may be entitled to support their learning, checking the availability of that learning in the local area, and getting advice and guidance on careers and jobs.

The Government are committed to rolling out skills accounts from autumn 2010. Ultimately, we want accounts to deliver a high level of personal empowerment, giving adults the power to choose the training they need and to commission that training direct from providers.

Building Colleges for the Future Programme

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills (1) how much has been spent on each project under the Building Colleges for the Future programme in each year since its inception; [268649]

(2) how much has been spent on the Building Colleges for the Future programme in each region in each year since the programme's inception; [268650]

(3) how many Building Colleges for the Future projects which have cleared the application in detail stage *(a)* have been completed and *(b)* are under way. [268651]

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills pursuant to his written ministerial statement of 4 March 2009, *Official Report*, column 55WS, on capital investment (further education colleges), (1) what estimate he has made of expenditure incurred by further education and sixth form colleges on capital building projects *(a)* in advance of the feasibility stage, *(b)* between the feasibility stage and an approval in principle and *(c)* between an approval in principle and an approval in detail since 1997; [268742]

(2) which colleges had received funding from the Learning and Skills Council in advance of an approval in principle for a capital building project at the latest date for which information is available. [268855]

Mr. Simon: Capital funding for further education colleges is administered by the Learning and Skills Council (LSC). As the information requested pertains to records held by the Council, I have asked Geoffrey Russell, the acting LSC chief executive, to write to the hon. Members with the information requested. A copy of his letters will be placed in the House Libraries.

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills what recent discussions his Department has had with *(a)* HM Treasury and *(b)* the Department for Children, Schools and Families on the Building Colleges for the Future programme. [268680]

Mr. Simon: The Department has and continues to have regular discussions with both HM Treasury and the Department for Children, Schools and Families (DCSF), on the Building Colleges for the Future programme.

DCSF already contributes to FE modernisation from the 16-19 capital fund to support growth of 16-19 places in college projects with the FE capital programme and plans to continue to do that.

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills which further education colleges with capital funding projects which have been submitted to the Building Schools for the Future programme will not receive funding in the current spending round. [268682]

Mr. Simon: Further education capital projects are funded through the Building Colleges for the Future programme, which is administered by the Learning and Skills Council on behalf of the Department.

The Building Schools for the Future programme, as administered by Partnerships for Schools on behalf of the Department for Children, Schools, and Families, does not include further education colleges and as such there are no capital projects to list which will not be funded in the current spending round.

Departmental Bank Services

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 16 March 2009, *Official Report*, column 900W, on departmental bank services, what the monetary value is of his Department's contract with Deutsche Bank. [268307]

Mr. Lammy: The Department for Innovation, Universities and Skills has not made any payments to date to Deutsche bank under their contract as Sales Arranger for the Student Loan Sales Programme.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since its creation; and at what cost. [268278]

Mr. Simon: Under the Department's ICT service provision contract, all staff are provided with laptop computers in place of desktop computers. Docking stations are provided on a hot desk basis in official buildings. The laptop is their only computer. The cost to the public purse is the standard charge for the ICT managed service provision.

The Department supports five Ministers, two special advisers, the Chief Scientific Officer and just over 1,000 civil servants. In 2008-09 the standard charge for ICT managed service provision was £1.7 million.

Departmental Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills how many staff in his Department *(a)* were disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last 12 months. [262236]

Mr. Simon: Information on sickness absence in the Department can be found the DIUS website:

http://www.dius.gov.uk/news_and_speeches/announcements/dius_staff

Departmental Energy

Greg Clark: To ask the Secretary of State for Innovation, Universities and Skills what steps have been taken by *(a)* his Department and *(b)* its agencies to improve the thermal efficiency of their buildings in the last 12 months. [266760]

Mr. Simon: The Department's building services are provided through the Department for Business, Enterprise and Regulatory Reform (BERR) and the Department for Children, Schools and Families (DCSF), which manage the buildings that DIUS occupies.

The Department and its agencies have taken a number of steps over the last 12 months to improve the thermal efficiency in their buildings. These include:

London, Kingsgate House

Over the last 12 months the building management system has been enhanced with new control systems, upgraded time schedules and automated metering. This provides half-hourly energy readings to suppliers which enable savings to be made through improved customer monitoring. There is also a scheduled quarterly boiler maintenance plan to optimise efficiencies.

Sheffield, Moorfoot

The current building is end of life. DCSF and DIUS are acquiring new accommodation in Sheffield for staff. Therefore, it has not been economically viable to make improvements to energy efficiency in this building. Energy efficiencies will naturally feature in the new building project that the Departments are currently pursuing to ensure maximum efficiency.

National Physical Laboratory Teddington (NPL)

The NPL have installed comprehensive metering to identify where energy is being consumed and are also exploring the possibility of using ground source energy.

National Weights and Measures Laboratory (NWML) Teddington

The NWML have installed a smart meter to measure electricity consumption. This highlights areas where consumption is high giving an indication of poor thermal efficiency. The air conditioning system has been examined to establish areas where it can be switched off for periods of the day or week. Reflective film has been applied to the outside of the windows to reduce heat being radiated into glass and conducted into the metal frames. The heat is then reflected back into the building.

Intellectual Property Office (IPO) Newport and Cwmfelinfach

The IPO have a building energy management system (BEMS) which provides control over the main heating, cooling and ventilation systems. This enables us to adjust the heating needed within specific areas of each building and identify where there may be poor thermal efficiency.

The air conditioning system has been examined to establish areas where it can be switched off for periods of the day or week. Thermal efficiency has been increased by the introduction of 'tin foil' between the radiators and exterior walls to reflect the heat inwards in places where there are specific problems. Electric doors have been installed to isolate the loading bay and downward blowers have been put in place at exterior doorways to contain heat within the building. The IPO are also investigating insulating ceilings where this is cost-effective.

Greg Clark: To ask the Secretary of State for Innovation, Universities and Skills what recent progress his Department has made towards the target of increasing its energy efficiency per square metre of its Estate by 15 per cent. by 2010, relative to 1999-2000 levels; and if he will make a statement. [266878]

Mr. Simon: The Department's building services are provided through the Department for Business, Enterprise and Regulatory Reform (BERR) and the Department for Children, Schools and Families (DCSF), who manage the buildings that DIUS occupies.

DIUS was established in June of 2007. No baseline data exist for 1999-2000. As 2008-09 will be the first full year of reporting we cannot yet record improvements against a baseline. Therefore the 15 per cent. efficiency savings target is not applicable to DIUS. However DIUS is making improvements:

London

Over the last 12 months the building management system has been enhanced with new control systems, upgraded time schedules and automated metering. This provides half-hourly energy readings to suppliers which enable savings to be made through improved customer monitoring. There is now also a scheduled quarterly boiler maintenance plan to optimise efficiencies.

Sheffield

DCSF and DIUS are in the process of acquiring new accommodation in Sheffield. The existing building will be vacated before any improvements in energy efficiency could be realized. Energy efficiency will be a feature of the new accommodation project that the Departments are currently pursuing.

Greg Clark: To ask the Secretary of State for Innovation, Universities and Skills how much *(a)* electricity, *(b)* gas and *(c)* other fuel has been used by (i) his Department and (ii) each of its agencies since his Department was established. [267332]

Mr. Simon: The Department for Innovation, Universities and Skills was created on 28 June 2007. The total amount of electricity, gas and other fuel used in the Department's and its agencies' buildings are given in the following table. The figures for the Department itself are estimates, obtained by apportioning the energy consumption in each building according to the number of DIUS staff as a proportion of the total.

kWh

Fuel type	*Intellectual Property Office (agency) June 2007 to March 2009*	*National Weights and Measures Laboratory (agency) June 2007 to February 2009*	*DIUS London building June 2007 to February 2009*	*DIUS Sheffield building June 2007 to February 2009*
Electricity	5,912,250	995,257	3,184,181	1,795,272
Gas	3,224,020	0	1,587,894	20,173
Other fuel type	0	0	0	1,048,622 (steam)

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills (1) how much has been spent on *(a)* the purchase of and *(b)* bills for (i) Blackberrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department since its establishment; [268246]

(2) how many *(a)* Blackberrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since its establishment. [268287]

Mr. Simon: Blackberry devices and mobile phones are provided to individuals while they are in post, and are recovered when the individual leaves.

The Department currently provides a total of 222 Blackberry devices, split as follows:

	Number
(i) Ministers	3
(ii) Special Advisers	2
(iii) Civil Servants	217

At the end of 2007/08, the Department was providing 182 Blackberry devices, split as follows:

	Number
(i) Ministers	4
(ii) Special Advisers	2
(iii) Civil Servants	176

The Department currently provides a total of 256 mobile phones, split as follows:

	Number
(i) Ministers	3
(ii) Special Advisers	2
(iii) Civil Servants	251

At the end of 2007/08, the Department was providing 56 mobile phones, split as follows:

	Number
(i) Ministers	4
(ii) Special Advisers	2
(iii) Civil Servants	50

The cost of these devices is as follows:

	£
Blackberrys	
Initial cost	136
Monthly cost	19.50
Mobile phones	
Monthly cost	2.50

An analysis of the cost of calls split across the categories requested could be achieved only at disproportionate cost. The overall cost of calls for 2008/09 is £256,469 which is the cost of all Blackberry, mobile phone and 3G data card provision, once the regular monthly costs have been subtracted.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much his Department has allocated for staff bonuses in 2008-09. [252256]

Mr. Simon: The Department's annual non-consolidated performance payment for 2008-09 totalled £535,006 and was met within existing pay controls.

Payments are used to drive high performance and those for the senior civil service are based on recommendations from the independent Senior Salaries Review Body.

Departmental Public Expenditure

Dr. Cable: To ask the Secretary of State for Innovation, Universities and Skills what his latest estimate is of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268122]

Mr. Simon: The latest capital expenditure figures for Departmental Expenditure Limit (DEL) for the Department for Innovation, Universities and Skills are as follows:

(a) £2.2 billion

(b) £2.5 billion

(c) £ 1.8 billion

(d) The Government have not set Departments' Capital DEL budgets for years beyond 2010-11. Capital DEL budgets for 2011-12 and beyond are a matter for the next spending review. The Government do, however, publish projections for PSNI (Public Sector Net Investment) over the forecast period at Budgets and pre-Budget reports.

Departmental Publicity

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how much is being spent on each form of advertising in the Train to Gain advertising campaign by *(a)* the Learning and Skills Council and *(b)* his Department. [254374]

Mr. Simon: National Marketing and Communications for Train to Gain is delivered by the national Learning and Skills Council (LSC) on behalf of the Department. The total Train to Gain spend on advertising for January to December 2008 was £7,716,021 including VAT. This is broken down as follows:

Gross media spend, booked through the Central Office for Information

	Gross media spend (£)
Digital	217,872
Poster	561,558
Radio	723,565
TV	4,528,935
Press	512,476
VAT	1,145,271
Total	7,689,677

Media paid for directly by LSC

	£
Digital	2,000
Press	20,398
VAT	3,946
Total	26,344

Departmental Recycling

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills how much and what proportion of its waste his Department recycled in 2007-08. [266662]

Mr. Simon: The Department's waste services in 2007-08 were provided by Department for Business, Enterprise and Regulatory Reform (BERR) and the Department for Childr[illegible] Schools and Families (DCSF) which manage the buildings that DIUS occupies. Neither of these organisations separates waste produced by DIUS from its waste, so information on the precise amount of waste produced by DIUS is not held.

Departmental Standards

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the cost to his Department of measuring compliance with its targets under its public service agreements in the last 12 months for which figures are available. [266710]

Mr. Simon: The Department for Innovation, Universities and Skills (DIUS) does not maintain information specifically identifying the separate costs of measuring compliance with its targets under its Public Service Agreements (PSAs). With the cost of generating this information being disproportionate, any costs of measuring compliance with the Department's targets under its PSAs, beyond those incurred in the normal course of managing its business and performance, are likely to be small.

Departmental Training

Mike Penning: To ask the Secretary of State for Innovation, Universities and Skills whether his Department has provided voice coaching to any of its employees in the last 12 months. [260650]

Mr. Simon: Voice coach training is not part of the core training and development offering available to staff in the Department. However, local managers are able to book external courses based on identified need and value for money. A search of local records would result in disproportionate cost.

Mr. Hands: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 3 February 2009, *Official Report*, column 1095W, on departmental training, which Ministers attended *(a)* foreign language lessons, *(b)* the Cabinet Committees course, *(c)* the European Union course and *(d)* the media training course; in what foreign languages Ministers received lessons; and how much each of these courses cost. [265660]

Mr. Simon: Of the four courses referred to in my earlier answer the Cabinet Committee courses and European Union courses incurred no cost to the Department for Innovation Universities and Skills. The other two courses referred to in my earlier answer were foreign language lessons and media training. These cost £1,343 and £1,276 respectively.

Identifying Ministers who undertake training would, or would be likely to, discourage participation in future training sessions, acting as a disincentive for Ministers to undertake formal professional development.

Foreign Students: USA

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what changes have been made to the rules in respect of financial support for British students travelling to the US since the Prime Minister's article in *The Wall Street Journal* on 16 April 2008. [268643]

Mr. Lammy: The Prime Minister said,

> "I can give a commitment that British students who need financial support to pay the travel costs of taking up a term of study in the U.S. will receive that support."

The provisions for eligible students travelling to the USA are as follows:

A grant for travel is available to eligible students in respect of reasonable expenditure which they are obliged to incur in a qualifying quarter of their course, for the purpose of taking up a term of study at an overseas institution including one in the USA. A qualifying quarter is one in which the student is required to attend the overseas institution for at least half the length of the period covered by that quarter.

The grant for travel meets the costs of:

travel within and outside the UK in order to attend the university or college including airfares

medical insurance for treatment provided outside the United Kingdom

visas required to attend the overseas institution

medical costs incurred to meet a mandatory condition of entry into a country (e.g. vaccination costs).

Except for the first £295 of travel costs incurred, eligible students from households with incomes of up to £39,796 may be entitled to have all their reasonable travel related expenditure met by the grant for travel. Income over £39,796 is taken into account and reduces the amount of travel related expenditure that the grant will cover. Income is taken into account at the rate of £1 for each £9.27 over £39,796, subject to a maximum income contribution of £6,210.

DIUS has responsibility for higher education in England only. The devolved Administrations have responsibility for it in Wales, Scotland and Northern Ireland.

Further Education: Finance

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills pursuant to his written ministerial statement of 4 March 2009, *Official Report*, column 55W, on capital investment (further education colleges), whether colleges which have not yet received approval will be required to redesign capital funding projects in order to receive funding. [268527]

Mr. Simon: The Learning and Skills Council (LSC) has already begun discussing options for prioritisation with the further education sector. Once the consultation is complete, the LSC will advise on options. Until that process is complete, it is not possible to say whether capital projects will be required to be redesigned. But the potential impact on college projects including the need for redesign will be considered fully when the LSC comes forward with proposals.

Higher Education: Disadvantaged

Jeremy Corbyn: To ask the Secretary of State for Innovation, Universities and Skills what recent assessment he has given to the merits of the provision of further and higher education institutions in all areas as a means of widening participation among non-traditional groups. [268615]

Mr. Simon: We are committed to improving choice and reducing barriers to ensure that there is fair access for all to the learning opportunities available. Further education operates across society, having a real impact on businesses, young people and adults, including those from disadvantaged and minority communities. In 2007-08, over 2.6 million people were participating in learning at a FE college.

This Government are fully committed to ensuring every young person has a fair chance of attending university. And we are making progress with the proportion of young entrants from lower socio-economic groups going to university increasing steadily, reaching almost 30 per cent. in 2007. A New University Challenge, with an investment of up to £200 million, will establish new campuses, particularly in areas with no history of provision, and provide places for 10,000 extra students.

In January 2009, the New Opportunities White Paper announced a wide-ranging package of investment and support from across Government for people to make the most of their potential throughout their lives giving them lifelong chances to succeed.

Innovation: Motor Vehicles

Mr. Dai Davies: To ask the Secretary of State for Innovation, Universities and Skills what projects to develop more environmentally efficient private motor vehicles have been sponsored by his Department's Technology Strategy Board; and what progress has been made on those projects. [243810]

Mr. Lammy: The technology strategy board's portfolio of collaborative R and D projects comprises DTI funded legacy projects that preceded its establishment as an executive body, and those funded under its low carbon vehicles innovation platform. The projects are typically of three year duration, and the following list includes the name of the lead consortium partner:

Legacy projects

Enhanced Diesel Engine Lubrication Systems for Reduced C02 Emissions—Ford Motor Company.

2/4SIGHT—Downsized 2 Stroke/4 Stroke switching engine for passenger cars—Ricardo.

Energy Efficient Electric Urban Transport—Zytek Electric Vehicles.

LIFECar-Morgan.

Development of the rheo-diecasting process for lightweight automotive components—Innoval.

Low carbon vehicle innovation platform

Axon 60: A structural carbon fibre car with plug-in hybrid option—Axon Automotive Ltd.

Li-ion Batteries for Plug-In Hybrid Electric Vehicles—FiFe Batteries Ltd.

Engine optimisation for reduced parasitic losses—Ford Motor Company Ltd.

Commercial vehicle fuel and carbon reduction by the use of 'aerospace aero' devices—Hatcher Components Limited.

Flywheel Hybrid System for Premium Vehicles—Jaguar Cars Limited.

Limo-Green—Jaguar Cars Ltd.

Lower Cost, Lightweight Vehicles by Increasing the Use of Post Consumer Aluminium Scrap—Jaguar Land Rover.

Range Extended Electric Vehicle REHEV—Land Rover.

High torque density electric drive for commercial vehicles (HiTED)—Magnomatics Ltd.

2/4CAR 2/4-Stroke Switching Carbon Reduction Vehicle—Ricardo UK Ltd.

Lightweight lead Acid Battery for Low Carbon Vehicles (LAB-LCV)—TWI Ltd.

Adventurous R and D projects such as these have an element of uncertainty and risk by their very nature. Exploitation strategies, which are commercially confidential, setting out how the project consortium plans to exploit the results are a key component of the business case submitted to the technology strategy board and can include the development of new products or processes, the publication of results or the stimulation of further work.

These strategies are re-visited during the course of the work and the technology strategy board have monitoring systems in place to encourage robust self-monitoring and to maximise exploitation during and beyond the project's life-time and to monitor the impact of projects at least five years after the end of the project.

While the projects funded under the innovation platform are at a formative stage, a majority of the legacy projects such as those led by Zytek and Ford have already resulted in excellent technical outputs, while the Morgan LIFECar have been presented at the Geneva Motor Show and been featured extensively in the UK press and media. The technology strategy board will now work to ensure that where appropriate, technical advances are incorporated into the relevant company development plans.

Learning and Skills Council for England: Finance

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what terms of reference Sir Andrew Foster has been given for his review of the Learning and Skills Council's capital budget. [268629]

Mr. Simon: We agreed with the Learning and Skills Council (LSC) on 27 January that Sir Andrew Foster would undertake a review of the LSC further education capital programme to assess:

> the main causes of the increased demand for capital funding;
>
> the internal LSC processes and scrutiny of the capital programme and how these could be improved; and
>
> any further steps that can be taken to ensure that for the future the expectation and demand for capital funds are kept in line with budget requirements, bearing in mind the development of the Skills Funding Agency and Young People's Learning Agency, and the proper role of DIUS and DCSF for capital matters.

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what recent discussions he has had with the Learning and Skills Council on the allocation of funding to training providers offering apprenticeships and Train to Gain places for *(a)* 2008-09 and *(b)* 2009-10. [268644]

Mr. Simon: Each autumn, in its annual grant letter to the Learning and Skills Council (LSC), the Department for Innovation, Universities and Skills (DIUS) sets out the funding envelope for further education for the coming financial year. The grant letters published in October 2007 and November 2008 set out the planned investment for 2008-09 and 2009-10 respectively.

The publication of the grant letter starts the allocations process, which is led by the LSC. The LSC enter into a dialogue with colleges and providers, to determine their allocation based on expected delivery of both adult learner responsive and employer responsive provision.

This dialogue continues throughout the year, and during this time, the LSC and DIUS have regular discussions regarding the progress of the allocations process. Final allocations are made in the spring before the academic year to which they refer.

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what factors have been taken into account in determining the remuneration for Learning and Skills Council staff responsible for processing applications for capital funding in the last three years. [268646]

Mr. Simon: This is a matter for the Learning and Skills Council (LSC). I have asked Geoffrey Russell, the acting LSC chief executive, to write to the hon. Member with the information requested. A copy of his letter will be placed in the House Libraries.

Nuclear Engineering: Higher Education

Greg Clark: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 10 February 2009, *Official Report*, column 1902W, on engineering: higher education, for how many *(a)* masters level and *(b)* doctoral nuclear engineering course places commencing in 2009 is funding available. [267002]

Mr. Lammy: Data at the level of detail requested by this question are not collected centrally. The following table sets out the overall numbers of chemical, process and energy engineering students at English higher education institutions over the last five years which would include nuclear engineering students. Data for 2009 are not yet available.

Academic year	*Masters*	*Doctorates*
2003/04	935	605
2004/05	865	645
2005/06	870	630
2006/07	920	665
2007/08	725	865

Notes:

1. Figures are based on a HESA standard registration population and have been rounded to the nearest five.

2 Covers enrolments of all domiciles to both full-time and part-time courses.

3 Excludes the Open university due to inconsistencies in their coding of subject over the time series.

Source:

Higher Education Statistics Agency (HESA).

Postgraduate Education

Mrs. Ellman: To ask the Secretary of State for Innovation, Universities and Skills what proportion of students from universities awarded a charter *(a)* before 1993 and *(b)* in 1993 or after offer at least one course leading to a post-graduate qualification. [255306]

Mr. Lammy *[holding answer 9 February 2009]:* The latest available figures from the Higher Education Statistics Agency (HESA) are shown in the table. Figures for the 2008/09 academic year will be available in January 2010.

Enrolments[1] by level of study and institution (type)—UK higher education institutions, academic year 2007/08

	Old[2]	*New*[3]
Enrolments	1,169,085	961,715
Of which:		
Postgraduate	289,290	179,800
Percentage postgraduate	24.7	18.7

[1] Covers enrolments of all domiciles to both full-time and part-time courses.
[2] Covers pre-1992 universities.
[3] Covers post-1992 universities.
Note:
Figures are based on a HESA standard registration population and have been rounded to the nearest five. Percentages are based on unrounded figures. Figures exclude Higher Education Colleges and the University of Buckingham, which is an independent institution.
Source:
Higher Education Statistics Agency (HESA).

Students: Fees and Charges

Dr. Kumar: To ask the Secretary of State for Innovation, Universities and Skills how many students have had their university tuition fees met from public funds in each of the last five years. [268433]

Mr. Lammy: All students who are eligible to pay the home rate of fee have their tuition fee subsidised by public funds in the form of HEFCE funding payable directly to the Higher Education Institution.

UK domiciled undergraduate students[1] enrolled in English higher education institutions[2]

Academic year	*Students*
2003-04	1,306,500
2004-05	1,319,700
2005-06	1,348,300
2006-07	1,354,900
2007-08	1,360,800

[1] Covers students on both full-time and part time courses.
[2] Includes the Open university.
Notes:
Figures are based on a HESA standard registration population.
Source:
HESA.

Additionally eligible students may apply for student support:

Students eligible for tuition fee grants

Students who entered higher education before 2006-07 may apply for a means tested tuition fee grant towards the cost of their tuition fees (up to £1,255 in 2008-09). The grant, paid from public funds, is paid direct to HE institutions, with students paying the balance of the tuition fee.

England[1]

Academic year	*Full fee support*	*Partial fee support*	*Total*[2]
2005-06	314,900	92,100	407,100
2006-07	190,400	59,000	249,400
2007-08	102,400	30,900	133,300
2008-09 (provisional)[3]	30,300	8,600	38,900

[1] English domiciled students studying in the UK. Data are not readily available for 2004-05.
[2] Constituent parts may not add to totals due to rounding, figures are rounded to nearest 100.
[3] 2008-09 figures are provisional and may increase substantially due to late applications.
Source:
Student loans company.

Students with tuition fee loans

All students entering higher education since 2006-07 may apply for a non-means tested loan to cover the whole cost of their tuition fees. The loan is repaid after leaving university and when income is above £15,000. A loan is also available to pre-2006-07 entrants if they are required to contribute to their fees.

England[1]

Academic year	*Pre-2006-07 entrants*	*Entered from 2006-07*	*Total*[2]
2006-07	157,900	239,400	397,300
2007-08	99,100	454,500	553,500
2008-09 (provisional)[3]	31,200	682,500	713,700

[1] English domiciled students studying in the UK and EU domiciled students studying in England.
[2] Constituent parts may not add to totals due to rounding, figures are rounded to nearest 100.
[3] 2008-09 figures are provisional and may increase substantially due to late applications.
Source:
Student loans company.

Students: Finance

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many publicly-funded places for first-time undergraduates there were in *(a)* 2007-08 and *(b)* 2008-09; and how many there are expected to be in 2009-10. [268642]

Mr. Lammy: In 2007-08 there were 1,143,000 HEFCE-funded student places (in full-time equivalent terms). The mix of students between undergraduate and postgraduate courses is an institutional decision. In 2007-08 around 990,000 of the 1,143,000 places were undergraduate. We do not have information on how many of these were first-time undergraduates.

2007-08 are the latest data we have on HEFCE-funded student numbers. DIUS funded an additional 20,000 places for core students in 2008-09, and a further 10,000 in 2009-10. Further information can be found in the 2009 HEFCE Grant Letter. We will not receive outturn data on the 2008-09 student population until early 2010.

Vocational Guidance: Internet

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many unique visitors the website www.careersadvice.direct.gov.uk had in *(a)* 2008 and *(b)* 2007. [268791]

Mr. Simon: The number of unique visitors to the website:

http://careersadvice.direct.gov.uk

were *(a)* 6.9 million in 2008; and *(b)* 5.4 million in 2007. The URL for the website changed from:

http://learndirect-advice.co.uk

to:

http://careersadvice.direct.gov.uk

in September, 2008.

Vocational Training

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills (1) how many learners were on Learning and Skills Council-funded work-based learning and Train to Gain provision at the end of each quarter of 2007-08; and what the average for each programme was in that year; [263781]

(2) how many learners were on advanced apprenticeships funded by the Learning and Skills Council at the end of each quarter of 2007-08. [264005]

Mr. Simon: Table 1 shows the number of Train to Gain and work-based learning starts by quarter for the 2007/08 academic year.

Table 1: Train to Gain and work-based learning starts by quarter, 2007/08

Quarter	*Train to Gain starts*	*Work-based learning starts*[1]
August to October 2007	73,100	102,600
November 2007 to January 2008	75,800	48,500
February to April 2008	92,200	59,900
May to July 2008	90,600	69,500
2007/08 total	331,800	280,600

[1] Apprenticeship starts have not historically been spread uniformly throughout the academic year. It is usual to see a peak in starts in the first quarter of the year, followed by a lower level of starts in the second quarter and then a gradual increase until the year end.

Table 2 shows the number of advanced apprenticeship starts by quarter for the 2007/08 academic year.

Table 2: Advanced apprenticeship starts by quarter, 2007/08

Quarter	*Starts*[1]
August to October 2007	28,000
November 2007 to January 2008	11,600
February to April 2008	15,800
May to July 2008	17,500
2007/08 Total	73,000

[1] Apprenticeship starts have not historically been spread uniformly throughout the academic year. It is usual to see a peak in starts in the first quarter of the year, followed by a lower level of starts in the second quarter and then a gradual increase until the year end.

Notes:

1. Numbers have been rounded to the nearest hundred.
2. Figures for advanced apprenticeships include Higher Level Apprenticeships (HLA) to be consistent with information published in statistical first releases. HLA numbers are currently too small to include as a separate category.
3. Work-based learning figures include apprenticeships, Entry to Employment and a small number of NVQ learners.

Source:

WBL ILR

In "World-Class Apprenticeships", we announced that we were changing the way we count apprenticeships, moving to counting the number of people starting an apprenticeship in the year ('starts') and the percentage who complete an apprenticeship ('completion rate').

The Government are committed to rebuilding apprenticeships. Since 1997 we have witnessed a renaissance in apprenticeships from a low point of 65,000 to a record 225,000 apprenticeship starts in 2007/08. Completion rates are also at a record high with 64 per cent. successfully completing an apprenticeship—up from 37 per cent. in 2004/05.

Mr. Dai Davies: To ask the Secretary of State for Innovation, Universities and Skills what research his Department has *(a)* evaluated and *(b)* commissioned on the (i) effectiveness of skills training courses and (ii) the proportion of those completing such courses who gain employment related to such training within 12 months of completion in the last five years. [264007]

Mr. Simon: The Department for Innovation, Universities and Skills has, through the LSC, conducted a number of evaluations examining the effectiveness of skills training courses. These are as follows:

Published reports:

Train to Gain evaluation—waves 1, 2 and 3

Evaluations currently in progress:

Train to Gain wave 4

Employability Skills Programme

Apprenticeship for Adults and

Skills for Jobs

These reports are due to be published during summer 2009.

Regarding outcomes; this information is not readily available for particular programmes or course, although one-off studies of leavers from FE have in the past looked at their destinations. This type of information will in future be collected using the Framework for Excellence learner destination survey with the first results for all FE colleges and work based learning providers available in spring 2009.

These destination data are not measured for Train to Gain participants.

Young People: Unemployment

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* males aged between 16 and 18, *(b)* females aged between 16 and 18, *(c)* males aged between 19 and 24 and *(d)* females aged between 19 and 24 were not in education, training or employment in England in the fourth quarter of each year since 1997. [264413]

Mr. Simon: The tables show estimates of people aged[1] 16 to 18 and 19 to 24 not in employment, education or training (NEET) in England. These estimates are from the Quarter 4 Labour Force Survey (LFS).

Between 2000 and 2008, the percentage of NEETS has remained largely stable.

We are unable to provide NEET estimates back to 1997 from the LFS as all the data necessary to produce them is not available on datasets prior to Quarter 2 2000.

---

[1] Age used is the respondent's academic age, which is defined as their age at the preceding 31 August.

16 to 18-year-olds not in employment, education or training (NEET)

	Male		Female	
	NEET	*Percentage*[1]	*NEET*	*Percentage*
2000	84,000	9.5	67,000	7.9
2001	85,000	9.1	86,000	9.9
2002	95,000	10.0	82,000	9.1
2003	97,000	9.9	81,000	8.9
2004	105,000	10.6	83,000	8.8
2005	132,000	13.2	83,000	9.0
2006	114,000	11.2	84,000	8.8
2007	111,000	11.0	81,000	8.6
2008	108,000	10.8	98,000	10.1

[1] Percentages are given as a proportion of NEETS within each gender.

PRIME MINISTER

Departmental Training

Mr. Hands: To ask the Prime Minister with reference to the answer of 27 November 2008, *Official Report*, column 666W, on departmental training, whether he has taken any personal training courses since that date. [265861]

The Prime Minister: No.

Departmental Visits Abroad

Mr. Hands: To ask the Prime Minister how much expenditure was incurred in respect of the overseas visits he undertook *(a)* between June and December 2007 and *(b)* in 2008. [265866]

The Prime Minister: Since 1999, the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Copies of these lists are available in the Library of the House. Information for the financial year 2008-09 will be published in the usual manner.

Fred Goodwin

Mr. Frank Field: To ask the Prime Minister on how many occasions Sir Fred Goodwin has been invited to 10 Downing Street for *(a)* official social engagements and *(b)* meetings in each of the last five years. [266748]

The Prime Minister: Since June 2007, Sir Fred Goodwin attended a meeting of representatives of financial institutions on 15 April 2008. Details of this event are available on the No. 10 website:

http://www.number10.gov.uk/Page15275

A copy of this web page has been placed in the Library of the House.

G20

Mr. Hands: To ask the Prime Minister what visits he has made to each of the G20 countries since June 2007. [265862]

The Prime Minister: Since 1999, the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Copies of these lists are available in the Library of the House. Information for the financial year 2008-09 will be published in the usual manner.

Hospitals

Mr. Lansley: To ask the Prime Minister what hospitals he has visited since becoming Prime Minister; and what the date of each visit was. [265539]

The Prime Minister: I refer the hon. Member to the answer I gave him on 16 October 2007, *Official Report*, column 959W.

Iraq: Inquiries

Mr. Gordon Prentice: To ask the Prime Minister whether he has set a timetable for establishing an Iraq inquiry. [264351]

The Prime Minister: I refer my hon. Friend to the answer given to the right hon. Member for Witney (Mr. Cameron) during my Statement on Iraq on 18 December 2008, *Official Report*, column 1239.

Ministers: Members Interests

Mr. Gordon Prentice: To ask the Prime Minister if he will allow the Independent Adviser on Ministers' Interests to initiate inquiries of his own volition. [264332]

The Prime Minister: The Government's position remains as set out in "Investigating the conduct of Ministers: Government Response to the Committee's Seventh Report of Session 2007-08" (HC 1056). Copies are available in the Libraries of the House.

Ministers: Pay

Mr. Gordon Prentice: To ask the Prime Minister pursuant to the answer of 18 March 2009, *Official Report*, column 1137W, on Ministers: pay, how many Ministers have received severance pay in accordance with section 4 of the Ministerial and Other Pensions and Salaries Act 1991 and have been re-appointed to a Ministerial position *(a)* subsequently in the same Parliament and *(b)* in a subsequent Parliament. [267255]

The Prime Minister: Details of all Ministers since 1997 are contained in editions of the "List of Ministerial Responsibilities", copies of which are available in the Libraries of the House, and in the press notices of ministerial appointments issued by my Office.

National Security

Mr. Dai Davies: To ask the Prime Minister pursuant to the written ministerial statement of 9 March 2009, *Official Report*, columns 3-4WS, on the National Security Forum, what assessment he made of the merits of obtaining expertise in civil nuclear security when selecting members of the National Security Forum. [263817]

The Prime Minister: The Forum members bring a breadth of experience and varied perspectives to the Government's thinking about national security. Where appropriate, Forum members will also be encouraged to call on selected experts outside Government for advice, support and specialist research.

Oral Questions: Government Responses

Mr. Graham Stuart: To ask the Prime Minister on how many occasions since June 2007 he has asked a ministerial colleague to respond to Oral Questions to the Prime Minister; what the reason was on each occasion; and if he will make a statement. [268229]

The Prime Minister: The information requested is a matter of public record and can be found in the *Official Report*.

President Obama: Discussions

Andrew Rosindell: To ask the Prime Minister (1) what discussions he has had with President Obama on troop levels in Iraq; [267079]

(2) what discussions he has held with President Obama on co-operation with the United States of America on the current global economic situation. [267080]

The Prime Minister: I discussed a wide range of issues with President Obama during our recent meetings. I refer the hon. Member to the joint press conferences I held with President Obama on 5 March 2009 and 1 April 2009. Transcripts of these are available on the No. 10 website:

http://www.number10.gov.uk/Page18514

and

http://www.number10.gov.uk/Page18896

Copies have also been placed in the Library of the House.

Russia

Mr. Hands: To ask the Prime Minister when he next expects to meet the Prime Minister of the Russian Federation. [265864]

The Prime Minister: I refer the hon. Member to the answer I gave him on 12 February 2009, *Official Report*, column 2137W.

Mr. Hands: To ask the Prime Minister whether he plans to visit Russia in *(a)* 2009 and *(b)* 2010. [265865]

The Prime Minister: For security reasons, my future engagements are announced as and when appropriate.

USA

Andrew Rosindell: To ask the Prime Minister what the cost to the public purse was of his recent visit to the United States of America. [267078]

The Prime Minister: Since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Copies of these lists are available in the Library of the House. Information for the financial year 2008-09 will be published in the usual manner.

USA: Ballistic Missile Defence

Mr. Kilfoyle: To ask the Prime Minister what recent discussions he has had with the US administration on missile defence *(a)* facilities in the UK and *(b)* deployment in the EU; if he will hold discussions on these matters when he next meets President Obama; and if he will make a statement. [264918]

The Prime Minister: I discussed a wide range of issues with President Obama during our recent meetings. I refer my hon. Friend to the joint press conferences I held with President Obama on 5 March 2009 and 1 April 2009. Transcripts of these are available on the No. 10 website:

http://www.number10.gov.uk/Page18514

and

http://www.number10.gov.uk/Page18896

Copies have also been placed in the Library of the House.

CULTURE, MEDIA AND SPORT

Regional Community Sport

14. **Mr. Allen:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of changes in Sport England regional budgets on revenue and capital funding for regional community sport projects up to 2012; and if he will make a statement. [269396]

Mr. Sutcliffe: England has streamlined its funding process, so funding will no longer be allocated regionally. These changes will help to realise savings of approximately £20 million over the next four years, which will allow reinvestment in community sport projects.

The vast majority of Sport England's funding—nearly half a billion pounds over the next four years—will be allocated to national governing bodies. This represents a significant change towards investment in grassroots sport, and NGBs will be funded on the basis of their potential to deliver against the strategic outcomes of grow, sustain and excel. Investment will in turn be directed by NGBs into areas where they believe it will best achieve their, and our, strategic outcomes. NGBs are currently taking decisions on where best to invest their money, and we are unable tc provide a regional breakdown of this investment for 2009-10.

This complements the huge amount of funding—£780 million nationally over the next three years—that is being invested in school sport. This will largely be channelled through local School Sport and County Sport Partnerships, and will deliver a real difference in the amount and quality of sport for children and young people across the country.

Tourism

15. **Mr. Wallace:** To ask the Secretary of State for Culture, Media and Sport how much funding his Department provided for the promotion of England as a tourism destination in 2008-09. [269397]

Barbara Follett: In 2008-09 my Department gave VisitBritain £47.9 million, of which, £8.46 million went on England marketing.

However this does not fully reflect the funding for all England activities because of 'shared services' like IT, HR and the fact that expenditure for improving the quality of our tourist accommodation and facilities counts as an industry service and not England marketing. In this exceptional year of restructuring it is not possible to give a detailed split between Britain and England spending for 2008-09.

In 2008-09 the combined VisitBritain/VisitEngland corporate services budget was £6.25 million.

Laura Moffatt: To ask the Secretary of State for Culture, Media and Sport what recent discussions he has had with ministerial colleagues on policy to provide support for the tourism industry. [269388]

Andy Burnham: We have held a number of discussions with ministerial colleagues, including a recent meeting with my right hon. Friend the Minister of State for Employment Relations at the Department for Business, Enterprise and Regulatory Reform, to discuss business support measures for the tourism industry, and with my hon. Friend the Minister for Borders and Immigration at the Home Office to review the effect of visa processes on inbound tourism.

We will also be convening a joint meeting of ministerial colleagues shortly to discuss cross-cutting issues relevant to promoting the visitor economy.

Mr. Flello: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the contribution of heritage in attracting tourists from overseas. [269394]

Barbara Follett: Market research carried out by VisitBritain indicates that heritage is one of the key motivators for those considering a visit to Britain. In the 2008 National Brand Index survey Britain is ranked as the 4th best nation (behind Egypt, Italy, and France) for built heritage which is therefore a real strength in our tourism offer.

Sport: North East England

16. **Mr. Hepburn:** To ask the Secretary of State for Culture, Media and Sport how much funding he plans to provide for sport in the north-east in 2009-10. [269398]

Mr. Sutcliffe: Sport England has streamlined its funding process, so funding will no longer be allocated regionally. These changes will help to realise savings of approximately £20 million over the next four years, which will allow reinvestment in community sport projects.

The vast majority of Sport England's funding—nearly half a billion pounds over the next four years—will be allocated to national governing bodies. This represents a significant change towards investment in grass roots sport, and NGBs will be funded on the basis of their potential to deliver against the strategic outcomes of grow, sustain and excel. Investment will in turn be directed by NGBs into areas where they believe it will best achieve their, and our, strategic outcomes. NGBs are currently taking decisions on where best to invest their money, and we are unable to provide a regional breakdown of this investment for 2009-10.

This complements the huge amount of funding—£780 million nationally over the next three years—that is being invested in school sport. This will largely be channelled through local school sport and county sport partnerships, and will deliver a real difference in the amount and quality of sport for children and young people across the country.

Local News Media

17. **Mr. Burns:** To ask the Secretary of State for Culture, Media and Sport whether he plans to provide support for local news organisations. [269399]

20. **Mr. Rob Wilson:** To ask the Secretary of State for Culture, Media and Sport what steps he plans to take to support the provision of local news services. [269402]

Andy Burnham: I refer the hon. Members to the answer I gave earlier to the hon. Member for Congleton (Ann Winterton).

Apprenticeships

18. **Mr. Slaughter:** To ask the Secretary of State for Culture, Media and Sport what discussions he has had with the Secretary of State for Innovation, Universities and Skills on provision of apprenticeships in the tourism sector. [269400]

Barbara Follett: High quality provision of apprenticeships is an important part of the national skills strategy for the hospitality, leisure, travel and tourism sector. My Department has received detailed recommendations from the industry, through People 1st, on how to achieve this.

I chair the Monitoring and Implementation Group for this strategy, and a senior official from the Department for Innovation, Universities and Skills is represented on that group.

In addition, I will shortly be convening a meeting of ministerial colleagues to discuss issues relevant to the tourism industry, and a DIUS Minister is being invited.

Newspaper Advertising

19. **Fiona Mactaggart:** To ask the Secretary of State for Culture, Media and Sport what discussions he has had with representatives of the newspaper industry on advertisements for sexual services in local newspapers. [269401]

Barbara Follett: The Minister for Women and Equality convened a meeting with the Newspaper Society on 1 November 2007 to talk about how to combat sex trafficking. The Minister for Culture, Creative Industries and Tourism attended that meeting.

Subsequently, the Newspaper Society updated and strengthened the legal advice and guidance it provides to publishers on accepting personal ads. Among other things, this warns publishers to be wary of ads, such as for massage parlours, which may disguise sexual services.

Regional Theatres

Ms Keeble: To ask the Secretary of State for Culture, Media and Sport what steps his Department is taking to support regional theatres. [269386]

Barbara Follett: Arts Council England plan to invest £318 million in theatre across England between 2008-09 and 2010-11.

The recently launched A Night Less Ordinary scheme will provide 618 000 free theatre tickets to under-26-year-olds over the next two years.

My Department is supporting this initiative, which will help theatres fill their seats while building the audience of the future.

London Olympics

Mr. McCartney: To ask the Secretary of State for Culture, Media and Sport what opportunities his Department is making available to local authorities to encourage sporting and cultural activities in connection with the London 2012 Olympics; and if he will make a statement. [269392]

Mr. Sutcliffe: Sport and culture play a significant role in plans for the Olympic and Paralympic games and Olympic Legacy.

As part of wider Government plans for getting two million people more active for 2012, we will get one million more people playing sport. 80 local authorities have signed up to having National Indicator 8 on Sport and Active Recreation, and nearly 300 are participating in the Government's Free Swimming Programme. In addition, Sport England will be having several themed (e.g. the first round recently targeted at rural communities) rounds of funding over the next four years, up to £30 million per year, which will be open to local authorities to bid for.

Local authorities have also already played a role in the delivery of the Cultural Olympiad, which aims to provide opportunities for a variety of organisations involved in culture to be part of the cultural celebrations linked to the games, and we expect they will continue to do so.

Following the success of 'Open Weekend' last year to celebrate the launch of the Cultural Olympiad, July 24 to 26 2009 will see the 'London 2012 Open Weekend' taking place across the country, and I encourage local authorities to get involved with local cultural, sporting and sustainability-related events over the weekend to celebrate London 2012 in the heart of our communities.

Alcoholic Drinks: Licensing

Chris Grayling: To ask the Secretary of State for Culture, Media and Sport how many licensees have had their licence revoked for selling alcohol to an under-age person in each of the last five years. [269254]

Mr. Sutcliffe: Statistical bulletins on licences to sell alcohol include the number of premises licences and club premises certificates revoked, but do not indicate the reason why. Licences and certificates may be revoked on review for one or more reasons relating to the four licensing objectives, including sales of alcohol to children.

The first DCMS Statistical Bulletin on Alcohol, Entertainment and Late Night Refreshment, under the provisions of the Licensing Act 2003 reported that there were 675 completed reviews between April 2006 and March 2007[1]. Following which, 91 licences or certificates were suspended, 92 licences were revoked or club premises certificates withdrawn, and 52 Designated Premises Supervisors were removed (Premises Licences only). It is not known which of these suspensions, revocations, withdrawals or removals related to underage sales.

The second statistical bulletin, covering the period between April 2007 and March 2008, reported that there were 1,008 completed reviews for England and Wales[2]. 396 of these completed reviews were carried out for reasons relating to the protection of children from harm (based on 91 per cent. of returns), but it is unknown if they relate to a one-off case of selling alcohol to children or the persistent selling of alcohol to children. The number of suspensions, revocations, withdrawals or removals following these completed reviews is unknown. However, following all completed reviews 167 licences or certificates were suspended, 155 licences were revoked or club premises certificates withdrawn and 102 designated premises supervisors were removed[3].

Since 6 April 2007, in addition to actions following reviews, 18 premises licences were suspended by a court under Section 147B(1) of the Licensing Act 2003 (as amended by the Violent Crime Reduction Act 2006) for the sale or supply of alcohol, following an offence of persistently selling to underage children.

Prior to the implementation of the Licensing Act 2003, data on the number of alcohol licences revoked in England and Wales were collected by petty sessional division (magistrates court areas), on a triennial basis. Between July 2003 to June 2004, there were a total of 354 revocations of on and off-licences. Again, it is not known how many revocations related to underage sales.

[1] Based on returns from 85 per cent. of licensing authorities in England and Wales.

[2] Based on 97 per cent. of returns.

[3] Based on around 94 per cent. of returns.

Bookmakers: Licensing

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what plans he has to regulate the use of betting exchanges as a means of avoiding requirements on bookmakers in relation to licensing and levy contributions. [268213]

Mr. Sutcliffe *[holding answer 1 April 2009]:* The operators of betting exchanges located in Great Britain are regulated by, and require a licence from, the Gambling

Commission, and are required to contribute to the Horserace Betting Levy. Any person providing facilities for gambling in Great Britain who uses betting exchanges in the course of business requires a remote operating licence from the commission, and any bookmaker who carries on a business which includes horse race betting transactions is required to contribute to the Horserace Betting Levy.

I am aware of some concerns around compliance in this area and my officials are exploring these issues with relevant bodies and licensed operators.

Departmental Carbon Emissions

Greg Clark: To ask the Secretary of State for Culture, Media and Sport for how long his Department has followed the Carbon Trust's Carbon Management programme. [269282]

Mr. Sutcliffe: The Department has been following the Carbon Trust's Carbon Management programme for three years.

Departmental Energy

Greg Clark: To ask the Secretary of State for Culture, Media and Sport how much *(a)* electricity, *(b)* gas and *(c)* other fuel was used by (i) his Department and (ii) each of its agencies in each of the last 10 years. [267338]

Mr. Sutcliffe: The electricity, gas and other fuel used by the Department and The Royal Parks on its office estate is detailed as follows.

Department for Culture, Media and Sport

			Kwh
	Electricity	Gas	Other Fuel
1999-2000	n/a	n/a	n/a
2000-01	n/a	n/a	n/a
2001-02	n/a	n/a	n/a
2002-03	n/a	n/a	n/a
2003-04	4,368,192	3,275,860	0
2004-05	4,186,267	2,643,861	0
2005-06	4,438,625	2,488,443	0
2006-07	4,320,106	2,631,318	0
2007-08	3,647,784	2,135,379	0
April 2008 to February 2009	2,881,646	1,240,516	0

The Royal Parks

			Kwh
	Electricity	Gas	Other Fuel
1999-2000	n/a	n/a	n/a
2000-01	n/a	n/a	n/a
2001-02	n/a	n/a	n/a
2002-03	n/a	n/a	n/a
2003-04	n/a	n/a	n/a
2004-05	4,141,338	1,275,682	0
2005-06	3,346,056	1,402,580	0
2006-07	3,220,032	1,505,334	0
2007-08	2,995,048	1,490,492	0
2008-09	n/a	n/a	n/a

Data are not available prior to April 2004 and since April 2008 The Royal Parks have not recorded data on kwh consumed.

Departmental Public Expenditure

Dr. Cable: To ask the Secretary of State for Culture, Media and Sport what his latest estimate is of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268[illegible]16]

Mr. Sutcliffe: The latest estimate of the capital spending by the Department for Culture, Media and Sport excluding the Olympics can be seen in the table.

Total capital spending excluding the Olympics

	£000
2008-09	235,353
2009-10	182,400
2010-11	181,400

Spending plans for 2011-12 are not yet available.

Departmental Training

Mr. Hands: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 10 February 2009, *Official Report,* column 1888W, on departmental training, which Ministers have attended the Action Learning Set course; and what the cost of the course was. [268957]

Mr. Sutcliffe: The cost of the course was £500.

Identifying Ministers who undertake training would, or would be likely to, discourage participation in future training sessions, acting as a disincentive for Ministers to undertake formal professional development.

Grant Shapps: To ask the Secretary of State for Culture, Media and Sport how many training courses were taken by *(a)* civil servants and *(b)* Ministers in his Department in each of the last three years; and what the cost of training was in each year. [265306]

Mr. Sutcliffe: DCMS is committed to developing our staff and also ensuring that they have the right skills and expertise to enable them to work effectively.

	Training courses	Cost (£)
(a) Staff		
2006-07	126	737,782.94
2007-08	183	841,383.13
2008-09	358	578,037.84
(b) Ministers		
2006-07	2	1,260
2007-08	2	450
2008-09	6	3,191.84

Gambling

Philip Davies: To ask the Secretary of State for Culture, Media and Sport how much it cost his Department to maintain its White List of countries permitted to advertise gambling services in the UK in each of the last three years. [267166]

Mr. Sutcliffe: The advertising provisions of the Gambling Act 2005, including the arrangements for whitelisting under section 331, only came into effect in September 2007. Much of the assessment work was carried out by DCMS officials with input from legal advisers, the Gambling Commission, HM Treasury and the Foreign and Commonwealth Office. As a result it is not possible to give a full and detailed assessment of costs.

Local Press

Ann Coffey: To ask the Secretary of State for Culture, Media and Sport what recent discussions he has had with representatives of press and broadcasting organisations on the future of weekly and regional newspapers; and if he will make a statement. [268164]

Andy Burnham: I have recently had discussions with the Society of Editors and the Newspaper Society; and the National Union of Journalists Parliamentary Group.

I shall be holding a summit shortly to discuss local media provision.

Swimming: Concessions

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport (1) how many swimming pools offering free swimming to over 60 year olds do so only after 9.00 am.; [268182]

(2) what recent estimate he has made of the number of over 60 year olds who have been provided with free swimming; and if he will make a statement. [268183]

Andy Burnham: Around 10 million people aged 60 or over in England stand to benefit from the Government's Free Swimming programme. We will be monitoring closely the impact of the scheme on levels of participation.

Nearly 300 local authorities will be offering free swimming to those aged 60 or over. This means that people in that age group who wish to swim, at any time throughout the year, when they would normally be admitted to the pool for public swimming, and in accordance with local programming, should not be charged for doing so. Beyond that condition of grant funding, we have not been prescriptive on how participating local authorities should deliver their offer locally.

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport how many swimming pools in *(a)* Lancashire and *(b)* England are taking part in the free swimming initiatives. [268184]

Mr. Sutcliffe: We estimate that approximately *(a)* 38 swimming pools in Lancashire and *(b)* over 1,000 swimming pools in England are taking part in the Government's Free Swimming programme. We will be collecting information from participating local authorities on free swimming in their pools as part of our monitoring and evaluation of the programme.

Television: Licensing

Mr. Kemp: To ask the Secretary of State for Culture, Media and Sport how many pensioners over the age of 75 years resident in Houghton and Washington East constituency received a free television licence in 2008. [268383]

Andy Burnham: TV Licensing, which administers free television licences for people aged 75 or over as agents for the BBC, advises that it is not able to provide breakdowns by constituency of the number of free licences issued.

Tourism: South West

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport (1) pursuant to the answer to the hon. Member for Torbay of 11 March 2009, *Official Report*, columns 461-2W, on tourism: South West, how much of the £3.5 million will have been provided to each regional development agency between 2008 and 2011; [264426]

(2) pursuant to the answer of 20 March 2009, *Official Report*, columns 1340-1W, on tourism: South West, how much of the £3.5 million funding was allocated to each regional development agency. [267360]

Barbara Follett *[holding answers 18 and 23 March 2009]:* Funding for regional development agencies (RDAs) is not ring-fenced for particular economic sectors, such as tourism. However, in each year since 2003-04, the Department for Culture, Media and Sport has contributed £3.6 million to the Department for Business, Enterprise and Regulatory Reform's (DBERR's) Single Programme budget (the "Single Pot") in respect of the tourism responsibilities of the eight RDAs outside London.

The Single Pot, which will total approximately £2.2 billion, £2.2 billion and £2.1 billion in 2008-09, 2009-10 and 2010-11 respectively, is allocated among the RDAs by DBERR. DCMS's contribution will be £3.5 million, £3.4 million and £3.3 million in these years.

Tourism: Summertime

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what recent representations he has received from the tourism industry on daylight saving. [268212]

Barbara Follett *[holding answer 1 April 2009]:* My Department has received representations on the merits of daylight saving from the Tourism Alliance, the British Association of Leisure Parks, Piers and Attractions and other members of the attractions sector. I discussed this issue at a meeting with my right hon. Friend the Minister for Employment Relations and Postal Affairs (Mr. McFadden) at the Department for Business, Enterprise and Regulatory Reform, and industry representatives on 8 November 2008.

WOMEN AND EQUALITY

Age: Discrimination

Graham Stringer: To ask the Minister for Women and Equality what assessment she has made of *(a)* levels of public support for and *(b)* potential harmful consequences of the marketing of (i) products and (ii) holidays directly to specific age groups. [269474]

Maria Eagle: The consultation paper "A Framework for Fairness: Proposals for a Single Equality Bill for Great Britain" (June 2007), called for evidence of unfair age discrimination in the supply of goods, facilities and services. The majority of the nearly 750 responses on this issue (around 80 per cent.) were in favour of legislation to tackle harmful age discrimination outside the workplace, but only a small number of respondents felt that the marketing of products and holidays to specific age groups was discriminatory and very few felt that such marketing was harmful.

We have been taking forward discussions with relevant representatives of industry and stakeholders with an interest in age discrimination to better understand the benefits and consequences of the ban on age discrimination in the provision of goods, facilities and services we are including in the Equality Bill. These discussions have helped us develop an approach which takes account of the need to ensure that the legislation does not prevent service providers offering age-specific goods and services where this is beneficial or can be justified. We will consult on our detailed proposals for the exceptions from the ban on age discrimination in the summer.

Graham Stringer: To ask the Minister for Women and Equality what recent assessment she has made of her policy on *(a)* age-based concessions in the insurance industry and *(b)* age limits on group holidays. [269512]

Maria Eagle: We have always been clear that the legislation banning age discrimination in the provision of goods, facilities and services—to be included in the Equality Bill—will bite on harmful age discrimination and allow justifiable and beneficial age-based practices to continue.

The legislation will not prevent different treatment on grounds of age in the provision of insurance, where this is based on actuarial evidence. Nor will it prevent holidays for particular age groups.

Consideration of how to frame the legislation is continuing, taking account of relevant evidence such as the October 2008 report of the Financial Services Expert Working Group established by Government to provide and analyse evidence of the implications and impacts of outlawing age discrimination, and recent research published by the Association of British Insurers in March 2009. In addition, the Government Equalities Office has recently commissioned additional independent research to explore this area further.

We will consult on our detailed proposals for the exceptions from the ban on age discrimination in the summer.

Departmental Bank Services

Mr. Hoban: To ask the Minister for Women and Equality with which banks the Government Equalities Office has or has had contracts for the provision of financial advice, for the financial year 2008-09. [262752]

Maria Eagle: The Government Equalities Office has not held any contracts with banks for the provision of financial advice.

Equality and Human Rights Commission: Manpower

Mr. Paul Goodman: To ask the Minister for Women and Equality pursuant to the answer of 10 March 2009, *Official Report*, columns 335-6W, on manpower: Equality and Human Rights Commission, how many staff who were paid *(a)* between £50,000 and £100,000 and *(b)* over £100,000 a year were employed by the (i) Disability Rights Commission, (ii) Equal Opportunities Commission and (iii) Commission for Racial Equality in their last full year of existence. [269477]

Maria Eagle: The total number of staff employed by each of the legacy commissions in their last full year of existence (2006-07) and who were *(a)* paid between £50,000 and £100,00 and *(b)* paid over £100,000 is shown in the following table.

	(a) paid between £50,000 and £100,000	*(b) paid over £100,000*
(i) Disability Rights Commission	11	1
(ii)Equal Opportunities Commission	7	1
(iii) Commission for Racial Equality	13	1

Mr. Paul Goodman: To ask the Minister for Women and Equality pursuant to the answer of 10 March 2009, *Official Report*, columns 335-6W, on manpower: Equality and Human Rights Commission, what the staffing costs are for each department of the Equality and Human Rights Commission. [269478]

Maria Eagle: The staff costs for 2008-09 by Directorate within the Equality and Human Rights Commission is shown as follows. This information is the best estimate available.

	Total (£000)
Corporate Management	6,240
Commissioners Office	1,238
Communications	5,498
Legal	3,612
Strategy and Research	3,993
Scotland	1,303

Equality and Human Rights Commission: Pay

Mr. Paul Goodman: To ask the Minister for Women and Equality what the *(a)* pay band of and *(b)* cash equivalent pension transfer value accrued by each member of the senior management board of the Commission of Equality and Human Rights is; and if she will make a statement. [269317]

Maria Eagle: The information asked for under *(a)* will be part of the Equality and Human Rights Commission's Annual Report and Accounts for the transition period of October 2007 to March 2008. The Commission intend that the Annual Report is laid before Parliament before the summer recess.

The cash equivalent transfer value information *(b)* will also appear in the remuneration report section of the Annual Report and Accounts.

Mr. Paul Goodman: To ask the Minister for Women and Equality pursuant to the answer of 10 March 2009, *Official Report*, columns 335-6W, on manpower: Equality and Human Rights Commission, how many staff of the Equality and Human Rights Commission are paid *(a)* between £50,000 and £100,000 and *(b)* over £100,000 a year. [269479]

Maria Eagle: As of 31 March 2009, the number of staff employees of the Equality and Human Rights Commission paid:

(a) between £50,000 and £100,000 was 28; and

(b) over £100,000 was three.

LEADER OF THE HOUSE

Departmental Computers

Mr. Hoban: To ask the Leader of the House how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in her Office in each year since 2005; and at what cost. [268264]

Chris Bryant: The Office of the Leader of the House of Commons joined the Cabinet Office in 2007. I refer the hon. Gentleman to the answer given by the Cabinet Office.

It would not be possible to provide information prior to 2007 without incurring a disproportionate cost.

Departmental Mobile Phones

Mr. Hoban: To ask the Leader of the House (1) how much has been spent on *(a)* the purchase of and *(b)* bills for (i) Blackberrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in her Office in each year since 2005; [268244]

(2) how many *(a)* Blackberrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in her Office in each year since 2005. [268280]

Chris Bryant: The Office of the Leader of the House of Commons joined the Cabinet Office in 2007. I refer the hon. Gentleman to the answer given by the Cabinet Office.

It would not be possible to provide information prior to 2007 without incurring a disproportionate cost.

CHURCH COMMISSIONERS

Departmental Finance

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what the Church Commissioners' own administration costs were in *(a)* 2006 and *(b)* 2007. [268811]

Sir Stuart Bell: Expenditure for the Commissioners' administration of national Church functions, governance, restructuring and rent, refurbishment and repairs to Commissioners' offices were £4.9 million in 2006 and £6.6 million in 2007.

Departmental Land

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how many acres of agricultural land were sold by the Church Commissioners in each year from 2000 to 2008. [268749]

Sir Stuart Bell: The Commissioners do not record this information and could not establish it retrospectively without incurring disproportionate cost.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how much the Church Commissioners received on average per acre of agricultural land they sold in each year since 2000. [268809]

Sir Stuart Bell: The Commissioners do not record average proceeds per acre but I can tell the hon. Gentleman that total proceeds for agricultural land for each year between 2001 and 2007 were as follows:

	£ million
2001	7
2002	5.9
2003	5.3
2004	15.6
2005	6.1
2006	36.2
2007	59.7

In 2000, agricultural sales were not recorded separately so the total proceeds for the year (£11.2 million) represents a mixture of agricultural and residential sales.

Figures for 2008 are not yet fully audited; they will be published in May.

Departmental Manpower

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how many people the Church Commissioners employ directly; and at what annual salary cost. [268804]

Sir Stuart Bell: The Church Commissioners are a joint employer of most staff of the National Church Institutions. They also employ staff engaged in local property management.

In 2007, the last year for which fully audited figures are available, the number of staff for which the Commissioners were the managing employer averaged 174, at a salary cost of £4 million (not including employer's national insurance and pension contributions).

Property Development

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what proposed property development schemes the Church Commissioners are participating in. [268810]

Sir Stuart Bell: The Commissioners' strategic land portfolio comprises about 40 property development schemes located throughout England. Of the few that are being developed, the Commissioners have agreements in place with developers for them to take forward the schemes at their risk. Most are pre-development, comprising sites which have yet to be allocated for development in a development plan, those allocated without planning permission, and those with planning permission but yet to be developed. In the hon. Gentleman's constituency, the Commissioners are jointly promoting the Bognor Regis Eco Quarter proposal with other landowners. This is part of Option 1 in the Arun District Council's current development options consultation exercise.

DEFENCE

Afghanistan

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many *(a)* troops in contact incidents and *(b)* indirect fire events were recorded in (i) Afghanistan and (ii) Iraq in each month of the last three years. [243255]

Mr. Hutton: The Ministry of Defence is currently collating and validating the data needed to answer this question. I will write to the hon. Member when this work is complete, and place a copy of my letter in the Library of the House.

Substantive answer from John Hutton to Gerald Howarth:

I am writing to provide you with the information promised in my holding reply to your Parliamentary Question regarding troops in contact incidents and indirect fire events in Iraq and Afghanistan (Official Record, 4 February 2009, column 1257W).

The Ministry of Defence has recently completed a review of the data required to answer this question, and has revised the manner in which we classify and present data to ensure consistency.

Afghanistan

The numbers of troops in contact events, regardless of the instigator, involving the International Security Assistance Force (ISAF) and insurgents in Helmand province as part of Task Force Helmand for each complete month from March 2006 to February 2009 for which verified data are available are shown below.

	2006[1]	*2007*[1]	*2008*[1]	*20091*
January	—	60	70	180
February	—	100	70	180
March	10	140	80	—
April	0	70	50	—
May	0	120	60	—
June	10	110	80	—
July	120	130	110	—
August	100	130	200	—
September	100	130	180	—
October	40	90	170	—
November	40	110	200	—
December	50	130	220	—

[1] Rounded to the nearest 10

The numbers of indirect fire events, regardless of the instigator, involving the International Security Assistance Force (ISAF) and insurgents in Helmand province as part of Task Force Helmand for each complete month from March 2006 to February 2009 for which verified data are available are shown below.

	2006[1]	*2007*[1]	*2008*[1]	*2009*[1]
January	—	40	30	40
February	—	50	30	40
March	10	80	50	—
April	0	40	30	—
May	0	30	30	—
June	10	30	40	—
July	40	50	50	—
August	70	50	60	—
September	80	40	50	—
October	20	60	20	—
November	20	70	40	—
December	30	70	60	—

[1] Rounded to the nearest 10

ISAF forces operating in Helmand come from a number of different nations, which often operate closely alongside each other and alongside Afghan Army and Police units. The environment in which forces are operating makes it extremely difficult precisely to distinguish between incidents initiated by insurgent forces and those initiated by ISAF.

Iraq

The numbers of troops in contact events, regardless of the instigator, involving Multinational Forces and insurgents in Multi-National Division (South East) (MND (SE)) for each complete month from March 2006 to February 2009 for which verified data are available are shown below.

	2006[1]	*2007*[1]	*2008*[1]	*2009*[1]
January	—	110	10	0
February	—	200	0	0
March	20	140	0	—
April	30	80	10	—
May	20	120	0	—
June	30	140	0	—
July	50	130	0	—
August	40	60	0	—
September	50	10	0	—
October	80	10	0	—
November	100	0	0	—
December	150	10	0	—

[1] Rounded to the nearest 10

The numbers of indirect fire events, regardless of the instigator, involving Multinational Forces and insurgents in MND (SE) for each complete month from March 2006 to February 2009 for which verified data are available are shown below.

	2006[1]	*2007*[1]	*2008*[1]	*2009*[1]
January	—	10	30	0
February	—	120	30	0
March	20	90	30	—
April	50	120	10	—
May	40	180	0	—
June	30	200	0	—
July	60	230	10	—
August	60	120	0	—
September	60	10	0	—
October	90	20	0	—
November	70	10	0	—
December	100	20	0	0

[1] Rounded to the nearest 10

Multinational Forces operating in MND (SE) come from a number of different nations, which often operate closely alongside each other and alongside the Iraqi Security Forces. The environment in which forces are operating makes it extremely difficult precisely to distinguish between incidents initiated by insurgent forces and those initiated by Multinational Forces.

All data shown above are data based on information derived from a number of sources and can only be an estimate, not least because of the difficulties in ensuring a consistent interpretation of the basis for collating statistics in a complex fast-moving multinational operational environment.

I hope that the above information addresses your concerns on this matter.

I will place a copy of this letter in the Library of the House.

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence how many contacts between British and anti-coalition militia forces there have been in Helmand province in each roulement since June 2006. [257686]

Mr. Hutton: The Ministry of Defence is currently collating and validating the data needed to answer this question. I will write to the hon. Member when this work is complete, and place a copy of my letter in the Library of the House.

Substantive answer from John Hutton to Liam Fox:

I am writing to provide you with the information promised in my holding replies to your Parliamentary Questions regarding contacts between British forces and anti-coalition militia in Afghanistan (Official Report, 24 February 2009, column 520W).

The Ministry of Defence has recently completed a review of the data required to answer this question, and has revised the manner in which we classify and present data to ensure consistency.

The numbers of troops in contact events, regardless of the instigator, involving the International Security Assistance Force (ISAF) and insurgents in Helmand province as part of Task Force Helmand for each complete month from June 2006 to February 2009 for which verified data are available are provided in the table below.

	2006[1]	*2007*[1]	*2008*[1]	*2009*[1]
January	—	60	70	180
February	—	100	70	180

June	10	110	80	—
July	120	130	110	—
August	100	130	200	—
September	100	130	180	—
October	40	90	170	—
November	40	110	200	—
December	50	130	220	—

[1] Rounded to the nearest 10

ISAF forces operating in Helmand come from a number of different nations, which often operate closely alongside each other and alongside Afghan Army and Police units. Without undertaking a detailed assessment of each engagement, it is not possible precisely to define in every case whether an attack was aimed at UK forces, at our ISAF partners, or against Afghan units. Data are therefore collected on the number of incidents involving ISAF forces in Helmand without attempting to identify the nationality of the forces actually being attacked. The environment in which forces are operating makes it extremely difficult precisely to distinguish between incidents initiated by insurgent forces and those initiated by ISAF.

These data are based on information derived from a number of sources and can only be an estimate, not least because of the difficulties in ensuring a consistent interpretation of the basis for collating statistics in a complex fast- moving multinational operational environment.

I hope that the above information addresses your concerns on this matter.

I will place a copy of this letter in the Library of the House.

Mr. Ancram: To ask the Secretary of State for Defence how many military engagements there have been between UK armed forces and Taliban insurgents in the last two months [265311]

Mr. Hutton: The Ministry of Defence is currently collating and validating the data needed to answer this question. I will write to the hon. Member with the information requested and place a copy of my letter in the Library of the House.

Substantive answer from John Hutton to Michael Ancram:

I am writing to provide you with the information promised in my holding reply to your Parliamentary Question regarding military engagements between UK armed forces and the Taleban (Official Record, 23 March 2009, Column 10W).

The Ministry of Defence has recently completed a review of the data required to answer this question, and has revised the manner in which we classify and present data to ensure consistency.

The number of engagements, regardless of the instigator, involving the International Security Assistance Force (ISAF) and insurgents in Helmand province as part of Task Force Helmand, for the last two complete months for which verified data is available are provided below.

January 2009[1]—210

February 2009[1]—200

[1] Rounded to the nearest 10

ISAF forces operating in Helmand come from a number of different nations, which often operate closely alongside each other and alongside Afghan Army and Police units. Without undertaking a detailed assessment of each engagement, it is not possible precisely to define in every case whether an attack was aimed at UK forces, at our ISAF partners, or against Afghan units. Data are therefore collected on the number of incidents involving ISAF forces in Helmand without attempting to identify the nationality of the forces actually being attacked. The environment in which forces are operating makes it extremely difficult precisely to distinguish between incidents initiated by insurgent forces and those initiated by ISAF.

These data are based on information derived from a number of sources and can only be an estimate, not least because of the difficulties in ensuring a consistent interpretation of the basis for collating statistics in a complex fast-moving multinational operational environment.

I hope that the above information addresses your concerns on this matter.

I will place a copy of this letter in the Library of the House.

Mr. Holloway: To ask the Secretary of State for Defence how many armed forces personnel at each grouping of rank served in Operation *(a)* Herrick 4, *(b)* Herrick 5, *(c)* Herrick 6 and *(d)* Herrick 7; how many who served in each have been treated for (i) psychological disorders, (ii) post-traumatic stress disorder and (iii) physical injuries; and how many have been discharged as a consequence of (A) a psychological disorder and (B) a physical injury. [268208]

Mr. Kevan Jones *[holding answer 31 March 2009]:* Data on the total number of personnel at each rank deployed on Operation Herrick 4-7 is provided in the following table.

Numbers[1] UK armed forces[2] personnel at each rank who have been identified as serving on Operation Herrick 4-7[3,4]

Rank	*Number deployed on Op Herrick prior to April 2007*	*Number deployed on Op Herrick 6-7*
Total	19,340	27,420
Officers	3,520	4,830
By rank[5]:		
Brigadier and above	50	90
Colonel	110	170
Lieutenant Colonel	400	480

Numbers[1] UK armed forces[2] personnel at each rank who have been identified as serving on Operation Herrick 4-7[3,4]

Rank	*Number deployed on Op Herrick prior to April 2007*	*Number deployed on Op Herrick 6-7*
Major	1,080	1,430
Captain	1,630	2,180
Lieutenant and below	250	480
Other ranks	15,330	22,590
By rank[5]:		
Warrant Officer	790	1,190
Staff Sergeant	1,200	1,600
Sergeant	2,060	2,750
Corporal	3,240	4,330
Lance Corporal	2,070	3,770
Private	5,970	8,950
Unknown ranks[5]	490	*

[1] All figures are rounded to the nearest 10, with figures of 5 or below denoted by *, totals and sub-totals have been rounded separately and so may not equal the sum of their rounded parts.
[2] UK armed forces personnel includes UK Regular Forces, Gurkhas, Full Time Reserve Service (FTRS) personnel and mobilised reservists.
[3] Due to data quality issues it is not possible to separate data for roulements 4, 5, 6 and 7 of Op Herrick.
[4] All data are provisional and subject to review.
[5] All rank information is based on NATO rank and includes equivalent ranks in the Naval Service and RAF. Rank shown is rank on outflow.

34 UK armed forces personnel attended the UK field hospital during Herrick 4-7 for psychiatric reasons. Due to the small number it is not possible to provide attendances for psychiatric reasons by roulement.

The number of personnel who were referred to a Department of Community Mental Health (DCMH) in 2007 following deployment on Operation Herrick 4-7 is provided in the following table. Of the 414 who were assessed as having a psychological disorder, 47 were diagnosed with PTSD.

New attendances at a DCMH in 2007 by Herrick roulement[1] and initial assessment diagnosis

	Herrick roulement	
Initial assessment	*Herrick 4-5*	*Herrick 6[2]*
Psychological disorder	180	234
Of which:		
PTSD	25	22

[1] These figures show the number of new attendees who have been identified as deployed to Herrick prior to their first referral at a DCMH.
[2] Includes 156 people who had also deployed to Herrick 4-5, of which 10 had PTSD.

Five armed forces personnel who have returned to the UK for treatment from Op Herrick 4-7 have been medically discharged for mental and behavioural disorders.

2,141 armed forces personnel attended the UK Field Hospital during Herrick 4-7 for physical injuries. T[illegible] following table provides the breakdown by roulen[illegible]

Op Herrick 4-7 UK military initial field hospital attendances for physical injuries, numbers[1]

Roulement	*Physical injuries*
All	2,141
Herrick 4	369
Herrick 5	487
Herrick 6	691
Herrick 7	594

[1] Data source: Operational Emergency Department Attendance Register (OpEDAR)

A proportion of those with physical injuries were returned to the UK for treatment. Since October 2007 these patients have been tracked through their care. For those deployed on Herrick 7 178 personnel were returned to the UK for treatment of their injury.

Of the 178 personnel who were returned to the UK for treatment, eight have since been medically discharged for injury related-conditions.

It should be noted, that the medical discharge may not be as a result of their injury in Afghanistan and Medical Boards do not make decisions on attributability to service.

Mr. Holloway: To ask the Secretary of State for Defence how many personnel at each grouping of rank who served in Operation *(a)* Herrick 4, *(b)* Herrick 5, *(c)* Herrick 6 and *(d)* Herrick 7 have left the armed forces. [268209]

Mr. Hutton *[holding answer 1 April 2009]:* Data on the number of deployed personnel at each rank broken down individually for each of Operations HERRICK 4, 5, 6 and 7 and who have left the armed forces are not available and as such could be provided only at disproportionate cost.

Mr. Holloway: To ask the Secretary of State for Defence how many rounds of *(a)* 51 mm and *(b)* 81 mm mortar ammunition of all natures were used in Operation (i) Herrick 4, (ii) Herrick 5, (iii) Herrick 6 and (iv) Herrick 7. [268210]

Mr. Hutton *[holding answer 1 April 2009]:* Officials are collating and validating the data needed and this is taking longer than anticipated. I will write to the hon. Member when this work is complete.

Mr. Ancram: To ask the Secretary of State for Defence what forewarning the US military gives to British armed forces commanders in Afghanistan of *(a)* Predator unmanned aerial vehicle attacks into Pakistan and *(b)* Predator unmanned aerial vehicle flights originating within Pakistan. [268694]

Mr. Hutton: British armed forces personnel in Afghanistan are not forewarned of alleged US Predator unmanned aerial vehicle attacks into Pakistan or whether Predator unmanned aerial vehicle flights over Afghanistan originate within Pakistan.

Anne Snelgrove: To ask the Secretary of State for Defence how many soldiers from The First Battalion The Rifles have sustained injuries in Afghanistan in the category of *(a)* very seriously injured, *(b)* seriously injured, *(c)* temporary incapacitating illness and *(d)* [illegible]ry unlisted. [268770]

Mr. Hutton: Since the Rifles formed on 1 February 2007, up to 28 March 2009, there have been two very seriously injured (VSI) and one seriously injured (SI) casualty from 1 Rifles in Afghanistan. We do not publish data on less severe injuries, so this information could be provided only at disproportionate cost.

Nick Harvey: To ask the Secretary of State for Defence what training on improvised explosive devices is provided to armed forces personnel assigned to duties in Afghanistan before deployment; what percentage of infantry personnel received such training before deployment in the last 12 months; and if he will make a statement. [268973]

Mr. Hutton: All personnel deploying to theatre, including infantry, undertake either collective or individual reinforcement training, which includes counter-improvised explosive device (C-IED) training. During pre-deployment training, they are given training in current tactics, techniques and procedures (TTPs) to deal with IEDs. These TTPs are constantly being improved in theatre, and the training conducted prior to deployment reflects the latest developments. A number of individuals are then given more in depth training on the use of specialist equipment for detection of other explosive devices. Training for patrolling skills includes detailed improvised explosive device awareness and avoidance techniques in both the mounted and dismounted roles.

Nick Harvey: To ask the Secretary of State for Defence how many armed forces personnel have been *(a)* seriously and *(b)* very seriously (i) injured and (ii) wounded by improvised explosive devices in Afghanistan in each year since 2001. [268974]

Mr. Hutton: Since the start of operations in Afghanistan in 2001 and up to the 15 March 2009, the latest date for which statistics are available, 82 UK service personnel have suffered very serious injuries (VSI) and 103 have suffered serious injuries (SI). These figures include all injured personnel, regardless of the mechanism or circumstances of their injury.

I am withholding further information on the numbers of personnel injured by improvised explosive devices (IEDs) as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

Defence Analytical Services and Advice (DASA) compile statistics on the number of operational casualties in the UK armed forces, the latest reports are available at the following websites:

http://www.mod.uk/DefenceInternet/FactSheets/OperationsFactsheets/OperationsInAfghanistanBritishCasualties.htm

http://www.mod.uk/DefenceInternet/FactSheets/OperationsFactsheets/OperationsInIraqBritishCasualties.htm

DASA update the casualty tables fortnightly, a fortnight in arrears on the MOD website.

Nick Harvey: To ask the Secretary of State for Defence what tasks private contractors are undertaking in Afghanistan on behalf of his Department. [268975]

Mr. Hutton: The main tasks undertaken in Afghanistan by private contractors listed as working for the Ministry of Defence are: troop welfare, leisure and retail services, logistics, provision of catering supplies, and works and maintenance services.

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence how many and what proportion of UK service personnel deployed in Afghanistan are engaged in tackling heroin production. [269817]

Mr. Hutton: UK troops, as part of International Security Assistance Force, support Afghan security forces to target narcotic traffickers and facilities that are supporting the insurgency. UK forces have also provided support to both the Poppy Eradication Force and the Governor-led eradication plan within Helmand province. The number of UK troops engaged in such activities varies both on a day-to-day basis and also by season.

Armed Forces

Dr. Fox: To ask the Secretary of State for Defence what his Department's policy is on the *(a)* purchase and *(b)* use on operations of personal kit by members of the armed forces. [265148]

Mr. Bob Ainsworth: Armed forces policy states that service personnel are not encouraged, at any time, to buy any items of personal protection. No service person is authorised or would be allowed, to deploy to any theatre with any item of protection which has not been issued by MOD.

MOD seeks to provide all necessary items of equipment, but while there is no need to do so, we are aware that some personnel personalise, and occasionally supplement some of their issued kit. This is purely due to personal preference, and supporting guidance to ensure the safety and welfare of all personnel is issued by the chain of command in each theatre.

Armed Forces Pay Review Body

Dr. Murrison: To ask the Secretary of State for Defence pursuant to the written ministerial statement of 31 March 2009, *Official Report*, column 53W, on Armed Forces Pay Review Body, from which budgets he plans to allocate the funding for that component of the pay award which is in excess of his Department's planning assumptions of 2.5 per cent. referred to at paragraph 2.13 of the 2009 Report of the Armed Forces Pay Review Body. [268939]

Mr. Hutton: The MOD's planning assumption included a 2.5 per cent. pay bill increase in 2009-10; 2 per cent. for the core pay settlement and 0.5 per cent. for targeted measures. The Armed Forces Pay Review Body's recommendations, which were accepted in full, provide for a 2.8 per cent. core pay settlement and 0.5 per cent. for targeted measures, bringing the total award to 3.3 per cent. Provision for the additional 0.8 per cent. above the planning assumption, which equates to some £65 million, has been generated from within the Defence programme as a whole during the current planning round.

Dr. Fox: To ask the Secretary of State for Defence what estimate he has made of the additional expenditure by his Department above its 2.5 per cent. financial planning assumption increase necessary fully to implement the recommendations of the Armed Forces Pay Review Body for 2009; and from which sources within the defence budget this funding will be drawn. [269185]

Mr. Hutton: The armed forces Pay Review Body's recommendations, which were accepted by the MOD in full, provide for a 2.8 per cent. core pay settlement and

0.5 per cent. for targeted measures, bringing the total award to 3.3 per cent. Provision for the additional 0.8 per cent. above the planning assumption, which equates to some £65 million, has been generated from within the Defence programme as a whole during the current planning round.

Armed Forces: Career Development

Mr. Jim Cunningham: To ask the Secretary of State for Defence what opportunities exist for non-commissioned personnel to become commissioned officers in the armed forces. [267688]

Mr. Bob Ainsworth: There are many opportunities for non-commissioned personnel to become commissioned officers in the armed forces and I have provided this information for each service as follows:

Naval Services

The Royal Navy runs several schemes to provide opportunities for the promotion of RN and RM Other Ranks to commissioned ranks. These personnel compete along side non-service candidates and must pass selection by the Admiralty Interview Board. The schemes are: Upper Yardmen and Royal Marine Corps Commissions to provide opportunities for promotion to commissioned ranks open to those aged under 26; and RN Senior Upper Yardman and RM Senior Corps Commission open to those over the age of 26.

Army

Soldier Commissions

The Army commissions soldiers from the ranks, selecting those judged to have sufficient leadership potential, to attend the standard commissioning course. Both direct entry (DE) and soldier commission candidates are assessed and then selected at the Army Officer Selection Board, Westbury thereby assuring a level method of selection and quality.

Late Entry Commissions

For those who are not selected for a direct entry commission from the ranks, then after nine years service (from age 21), and having attained the rank of sergeant, all soldiers are eligible to apply for a late entry (LE) commission up to 44 years of age (waivers can be applied for older applicants).

Direct Entry/Late Entry Balance

Over the last decade, the Army has adjusted its balance from 25 per cent. LE/75 per cent. DE to 33 per cent. LE/67 per cent. DE as greater demand for LE officers has emerged. LE officers do have differing terms of service from DE officers, principally to accelerate their promotion given their average commissioning age of 40. They are widely employed and compete up to the rank of Lt Col with DE officers for appointments.

RAF

Internal Commissioning Scheme (ICS)

Serving personnel in the rank of senior aircraftsman[1] and above are eligible to apply for the ICS. Leading aircraftsmen and below who wish to be considered for commissioning must meet the appropriate eligibility criteria for direct entrants including the required qualifications (for example, non-commissioned aircrew must have completed a three-year tour of duty at the time of entry into the initial officer training centre).

Commissioned Warrant Officer (CWO)

Warrant officers and master air crew commissioned under the CWO Scheme do not attend full officer training and are appointed in the rank of flight lieutenant with no additional seniority. All other serving personnel are appointed in the rank of flying officer with additional seniority determined by the substantive rank held, including normal paid acting rank, on commissioning.

[1] This rank includes women.

Armed Forces: Deployment

Mr. Ancram: To ask the Secretary of State for Defence how many British military personnel are deployed in *(a)* Tajikistan, *(b)* Uzbekistan, *(c)* the Kyrgyz Republic and *(d)* Turkmenistan. [268695]

Mr. Hutton: There are no British military personnel deployed in Tajikistan, Uzbekistan, the republic of Kyrgyz or Turkmenistan.

Mr. Ancram: To ask the Secretary of State for Defence how many conventional British military personnel are working in Frontier Corps training schools in Pakistan; and at which schools. [268738]

Mr. Hutton: We are working in partnership with the Pakistani Frontier Corps and Americans under the Security Development Plan to help Pakistan address the security challenges of the Afghanistan-Pakistan border. I am withholding further information for security reasons.

However, I can confirm that there are currently 24 UK military personnel based in Pakistan undertaking a variety of roles, including training, liaison and diplomatic duties.

The number of military personnel based in Pakistan varies from time to time. This can be for a variety of reasons, including revised tasking and changes to previous roles.

Armed Forces: Housing

Nick Harvey: To ask the Secretary of State for Defence pursuant to the answer of 26 March 2009, *Official Report*, columns 563-64W, on armed forces: housing, how many service family accommodation units are maintained by Modern Housing Solutions in each *(a)* region and *(b)* area. [269027]

Mr. Kevan Jones: Modern Housing Solutions (MHS) as at 31 March 2009 were responsible for the repair and maintenance of service family accommodation (SFA) properties in the following locations.

MHS Region	*Area*	*Number of SFA*
East	Brampton	763
	Chicksands	932
	Colchester	1,024
	Coltishall	42
	Cottesmore	1,400
	Marham	896
	Thetford	312
	Wattisham	798
East total		6,377

NHS Region	*Area*	*Number of SFA*
Central	Abingdon	1,496
	Brize Norton	1,067
	Bicester	1,035
	High Wycombe	1,306
	Kingston	1,374
	Uxbridge	806
	Woolwich	335
Central total		7,419
North	Bedale	213
	Catterick	2,212
	Waddington	1,649
	York	1,307
North total		5,381
South East	Aldershot	3,773
	Arborfield	1,396
	Brompton	683
	Folkestone	733
	Gosport	1,827
	Portsmouth	1,210
South East total		9,622
South West	Bovington	1,105
	Colerne	370
	Helston	571
	Larkhill	4,212
	Lympstone	429
	Lyneham	1,281
	Plymouth	1,175
	Warminster	989
South West total		10,292
West	Chester	403
	Haverfordwest	194
	Hereford	646
	St. Athan	708
	Telford	1,564
	Weeton	349
West total		3,864

Mr. Gray: To ask the Secretary of State for Defence how much has been spent by his Department on upgrading housing for armed forces personnel in each year since 2002. [269661]

Mr. Kevan Jones: The following was spent upgrading service family accommodation in Great Britain in each financial year since 2001-02.

Financial year	*£ million*
2001-02	25.3
2002-03	28.5
2003-04	30.5
2004-05	18.1
2005-06	32.4
2006-07	36.4
2007-08	46.9

Although the final expenditure for 2008-09 is yet to be confirmed, it is planned to be some £35 million.

Armed Forces: Mass Media

Mr. Gray: To ask the Secretary of State for Defence what rules govern serving members of the armed forces talking to the media. [269712]

Mr. Hutton: We want our people, military and civilian, to talk and write about what they do so that the roles and achievements of the armed forces and MOD can be better understood. However, in order to ensure that national and operational security is upheld, and that standards of political impartiality and public accountability are met, serving members of the armed forces must seek prior authorisation before talking to the media.

The guidance is set out in a Defence Instruction and Notice (DIN) which is available on the MOD internet site. It is also reflected in the relevant Queen's regulations.

Armed Forces: Mentally Ill

Clare Short: To ask the Secretary of State for Defence what his latest estimate is of the incidence of mental illness among serving soldiers in each age group. [269637]

Mr. Kevan Jones: Since July 2007 the Defence Analytical Services and Advice (DASA) organisation has reported on the psychiatric morbidity of the UK armed forces. The annual summary report for 2007 has recently been published, and this includes the breakdown of new attendances in 2007 including both in and out-patient mental health facilities by age group. This information is provided in the table.

		New in-patient attendances at external contractor facilities in 2007		*New out-patient attendances at MOD departments of community mental health in 2007*	
Age	*Total armed forces strength*	*Number of patients assessed with a mental disorder*	*Percentage of total strength*	*Number of patients assessed with a mental disorder*	*Percentage of total strength*
<20	16,000	6	0.04	384	2.39
20-24	45,500	77	0.17	1,102	2.42
25-29	41,700	65	0.16	807	1.94
30-34	29,500	36	0.12	529	1.79
35-39	34,300	38	0.11	554	1.61
40-44	19,100	15	0.08	242	1.26
45-49	9,500	6	0.06	107	1.13

		New in-patient attendances at external contractor facilities in 2007		*New out-patient attendances at MOD departments of community mental health in 2007*	
Age	*Total armed forces strength*	*Number of patients assessed with a mental disorder*	*Percentage of total strength*	*Number of patients assessed with a mental disorder*	*Percentage of total strength*
50+	5,300	7	0.13	49	0.92

The figures record all new attendances (i.e. people who have not attended previously) at MOD Departments of Community Mental Health (DCMHs) and in-patient facilities and therefore does not include those whose course of treatment at that facility started prior to January 2007.

Data for 2008 are currently being validated.

Armed Forces: Training

Dr. Fox: To ask the Secretary of State for Defence what the wastage rates from *(a)* phase 1 and *(b)* phase 2 training were in each year since 1997. [269187]

Mr. Bob Ainsworth: Wastage rates of cohorts including phase 1 and phase 2 training for each year since 1997 is not held centrally and could be provided only at disproportionate cost. The following table shows outflow from the untrained UK Regular Forces split by service and rank for each financial year from 1997-98 to 2007-08.

Outflow[1] of untrained UK Regular Forces[2] by Service

	1997-98	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
All Services	5,960	8,450	8,560	7,350	6,770	7,250	6,950	5,830	5,130	[3]6,290	[3]6,670
Officers	240	390	330	380	320	350	310	340	220	[3]370	[3]480
Other Ranks	5,720	8,060	8,230	6,970	6,450	6,900	6,640	5,490	4,910	[3]5,920	[3]6,190
Naval Service	1,200	1,470	1,680	1,510	1,760	1,740	1,340	1,050	1,190	[3]1,120	[3]1,230
Officers	120	80	70	90	80	120	90	90	90	[3]100	[3]120
Other Ranks	1,080	1,390	1,610	1,420	1,680	1,620	1,250	960	1,100	[3]1,020	[3]1,110
Army	4,260	6,290	6,200	5,160	4,390	4,880	5,020	4,330	3,690	[3]4,840	[3]4,860
Officers	80	260	220	260	190	180	170	200	90	[3]220	[3]330
Other Ranks	4,180	6,030	5,980	4,900	4,200	4,700	4,850	4,130	3,600	[3]4,620	[3]4,530
Royal Air Force	490	690	680	680	620	630	570	460	250	330	[3]590
Officers	40	50	40	40	50	50	40	60	30	50	[3]30
Other Ranks	450	640	640	640	570	580	530	400	220	280	[3]560

[1] Outflow from UK Regular Forces includes death and outflow to civil life including recalled reservists on release and outflow to the Home Service battalions of the Royal Irish Regiment, which was disbanded on 31 March 2008.

[2] UK Regular Forces includes all trained and untrained personnel. Gurkhas, Full Time Reserve personnel, and mobilised reservists are excluded.

[3] Provisional. Due to ongoing validation of data from the Joint Personnel Administration System, all Naval Service and Army flow statistics for financial year 2006-07 and 2007-08 and all RAF flow statistics for financial year 2007-08 are provisional and subject to review.

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* target and *(b)* actual number of gains to trained strength for (i) officers and (ii) other ranks in each service was since 1997. [269188]

Mr. Bob Ainsworth: The targets and total number of gains to trained strength for officers and other ranks in each service since financial year 1997-98 are shown in the following table.

Gains to trained strength[1] for UK regular forces[2]

		1997-98	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Naval Service	Target	—	—	—	—	3,330	3,310	3,430	3,140	3,090	3,370	3,320
	Achieved	—	2,820	3,760	3,090	2,870	3,390	3,210	2,650	2,650	[4]2,660	[4]3,480
Officers	Target	—	—	—	—	440	430	430	470	430	410	400
	Achieved	—	370	490	420	400	480	470	420	360	[4]410	[4]300
Other Ranks	Target	—	—	—	—	2,890	2,880	3,000	2,670	2,660	2,960	2,920
	Achieved	—	2,450	3,270	2,670	2,470	2,920	2,740	2,240	2,290	[4]2,250	[4]3,180

Gains to trained strength[1] for UK regular forces[2]

		1997-98[3]	1998-99	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
Army	Target	[6]—	[6]—	[6]—	[6]—	[6]—	[6]—	10,010	9,320	9,870	9,700	9,850

	Achieved	[6]—	620	560	530	540	590	600	640	630	[4]620	[4]610
Other Ranks	Target	[6]—	[6]—	[6]—	10,623	9,440	9,840	9,400	8,700	9,230	9,050	9,200
	Achieved	[6]—	8,350	9,490	9,140	8,870	10,150	10,390	8,950	7,770	[4]8,130	[4]7,690
Royal Air Force	Target	3,170	3,600	3,350	3,470	3,670	4,010	4,290	3,550	2,170	1,700	1,660
	Achieved	[6]—	3,450	3,440	3,110	3,210	3,360	3,640	3,310	2,190	[5]1,500	[5]1,580
Officer	Target	510	660	620	600	640	720	730	570	370	500	330
	Achieved	[6]—	520	510	520	570	360	570	550	380	[5]450	[5]440
Other Ranks	Target	2,660	2,940	2,720	2,870	3,030	3,290	3,560	2,980	1,800	1,200	1,330
	Achieved	[6]—	2,930	2,920	2,590	2,630	3,000	3,070	2,760	1,800	[5]1,050	[5]1,140

[1] Figures relate to personnel completing training and joining the trained strength. Direct entries to the trained strength, such as trained re-entrants, professionally qualified officers (PQO) are excluded.

[2] UK Regular Forces includes Nursing services and excludes Full Time Reserve Service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment and mobilised reservists.

[3] Prior to 1998-99 the achieved number of gains to trained strength could not be derived directly from centrally held records. Due to ongoing validation of data from the Joint Personnel Administration System, all Naval Service flow statistics from the 12 month period ending 31 October 2006, all Army flow statistics from period ending 31 March 2007 and all RAF flow statistics from the 12 month period ending 30 April 2007 are provisional and subject to review.

[4] Provisional

[5] Provisional estimate

[6] Data unavailable

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* required and *(b)* actual strength of each Volunteer Reserve service is. [269189]

Mr. Bob Ainsworth: The establishment and strength of the Reserve Forces, as at 28 February 2009, is provided in the following table.

	RMR	*RNR*	*TA[1] (Group A only)*	*RAuxAF*
Establishment	970	2,286	38,500	2,002
Strength	868	2,020	28,920	1,418

[1] TA Establishment figure excludes all 3,500 UOTC. TA Strength figure excludes TA Group B, UOTC, FTRS, Sponsored Reserves and NRPS.

Armoured Fighting Vehicles

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence what joint UK/EU development funding has been made available to armoured vehicle manufacturers in each year since 2004; in respect of which vehicles such development funding has been provided; and what plans he has for further such funding in the next 10 years. [269814]

Mr. Quentin Davies: There has been no joint UK/EU development funding available to military armoured vehicle manufactures and there are no current plans for such funding.

Army: Deployment

Dr. Fox: To ask the Secretary of State for Defence what the average tour interval of each infantry battalion in the Army was in the latest period for which figures are available. [269190]

Mr. Bob Ainsworth: The average tour interval for the infantry as a whole is 26 months. The current tour intervals for individual infantry battalions are provided in the following table:

Unit deployed	*Last operational deployment (as a unit)*	*Start date*	*Previous operational deployment (as a unit)*	*End date*	*Last unit tour interval (months)*
1 Grenadier Guards	Afghanistan	May 2007	Iraq	September 2006	8
1 Coldstream Guards	Afghanistan	October 2007	Iraq	October 2005	23
1 Scots Guards	Iraq	December 2007	Iraq	April 2005	31
1 Irish Guards	Iraq	June 2007	Northern Ireland	March 2004	38
1 Welsh Guards	Afghanistan	April 2009	Balkans	April 2007	24
1 Scots[1]	Iraq	December 2007	Iraq	May 2006	17
2 Scots	Afghanistan	April 2008	Iraq	December 2005	28
3 Scots	Afghanistan	April 2009	Iraq	January 2005	51
4 Scots	Iraq	June 2008	Iraq	May 2006	25
5 Scots	Afghanistan	April 2008	Balkans	October 2005	29

Unit deployed	*Last operational deployment (as a unit)*	*Start date*	*Previous operational deployment (as a unit)*	*End date*	*Last unit tour interval (months)*
1 PWRR	Iraq	December 2008	Iraq	December 2006	24
2 PWRR	Iraq	January 2005	Northern Ireland	December 2003	12
1 RRF	Iraq	June 2008	Iraq	May 2006	25
2 RRF	Afghanistan	April 2009	Northern Ireland	November 2003	64
1 R Anglian	Afghanistan	May 2007	Iraq	October 2005	18
2 R Anglian	Iraq	June 2008	Iraq	October 2006	20
1 Lancs[2]	Iraq	December 2007	n/a	—	—
2 Lancs[2]	Iraq	November 2006	n/a	—	—
1 Yorks	Iraq	December 2008	Iraq	May 2007	18
2 Yorks	Afghanistan	October 2007	Balkans	September 2006	13
3 Yorks	Iraq	November 2004	Balkans	June 2001	40
1 R Welsh	Cyprus	May 2007	Northern Ireland	January 2006	15
2 R Welsh	Iraq	June 2007	Iraq	October 2005	19
1 Mercian	Iraq	December 2007	Iraq	October 2004	37
2 Mercian	Afghanistan	April 2009	Afghanistan	November 2007	16
3 Mercian	Iraq	November 2006	Iraq	October 2005	12
1 Rifles[3]	Afghanistan	October 2008	Iraq	November 2006	23
2 Rifles	Afghanistan	April 2009	Iraq	May 2007	23
3 Rifles	Iraq	September 2006	Northern Ireland	March 2005	17
4 Rifles	Iraq	June 2007	Balkans	October 2001	67
5 Rifles	Iraq	December 2008	Iraq	December 2006	24
1 Royal Irish	Afghanistan	April 2008	Iraq	December 2005	28
2 Para	Afghanistan	April 2008	Iraq	April 2006	24
3 Para	Afghanistan	April 2008	Afghanistan	October 2006	18
1 RGR	Afghanistan	October 2007	Balkans	March 2006	18
2 RGR	Afghanistan	October 2008	Afghanistan	October 2005	37

Notes:

[1] 1 RS and 1 KOSB amalgamated in August 2006 to form 1 Scots.

[2] 1 KORBR, 1 Kings and QLR amalgamated in July 2006 to form 1 Lancs and 2 Lancs. Because of the nature of this amalgamation it is not representative to carry forward the unit deployments of 1 KORBR, 1 Kings and QLR to 1 Lancs and 2 Lancs.

[3] 1 RGBW and 1 DDLI amalgamated in March 2007 to form 1 Rifles.

AWE Management

Nick Harvey: To ask the Secretary of State for Defence whether *(a)* public-private partnership and *(b)* private finance initiative arrangements may be put in place under the AWE Aldermaston management contract. [269710]

Mr. Quentin Davies: There are no plans to put in place public-private partnership or private finance initiative arrangements under the Ministry of Defence's contract for the management and operation of the Atomic Weapons Establishment.

D-Day Landings: Anniversaries

Mr. Streeter: To ask the Secretary of State for Defence what steps his Department plans to take to assist veterans to commemorate the 65th anniversary of D-Day in Normandy. [269012]

Mr. Kevan Jones: It has been the policy of successive Governments that special commemorations are only initiated by the Ministry of Defence for key anniversaries and centennials of events of the greatest national significance. Other anniversaries do not receive MOD sponsorship at public expense.

I understand that the French Government are arranging an international commemoration in France to mark the D-Day anniversary. Ministers and Service Chiefs are keen to become involved in these events and await official invitations.

In the region of 1,000 members of the armed forces will be in Normandy in June, as many are each year and current members of units which fought on D-Day will stand alongside veterans at wreath laying ceremonies in France.

The Big Lottery Fund have recently agreed to pay travel costs for veterans wishing to attend the commemorations this year and those who have already arranged their own travel will also be reimbursed.

Finally, in the UK the Normandy Veterans Association (NVA) are holding their own wreath laying ceremony at the Cenotaph in London on Sunday 21 June, accompanied by the band of the Welsh Guards, and to follow that we are working with the NVA on the possibility of a church service.

Defence: International Co-operation

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for North Devon of 25 March 2009, *Official Report*, column 426, on defence: international co-operation, what steps have been taken to increase interoperability between countries *(a)* operating aircraft carriers and *(b)* with naval vessels able to support carrier operations. [269163]

Mr. Hutton: The Royal Navy regularly identifies opportunities at the tactical and operational level to increase interoperability with foreign navies.

The European Carrier Group Interoperability Initiative (ECGII) draws together European nations with operational aircraft carriers or with naval vessels capable of supporting carrier operations. This initiative seeks to improve interoperability between European navies for national, NATO or EU-led operations. The inaugural Steering Group for ECGII met in Paris on 18 March 2009.

The UK Carrier Strike Group Commander and his staff regularly liaise and train with the US Navy at both a tactical and operational level. The UK also has a Long Lead Skills programme with the US Navy, which is developing essential personnel skill-sets in advance of the arrival of Carrier Vehicular (Future).

It is routine procedure for warships of close allies to integrate into each others Carrier Strike Group deployments, as demonstrated last year with the integration of the US, French and Spanish warships into the RN's Orion 08 deployment led by HMS Illustrious, and HMS Manchester's integration into the US Carrier Strike Group.

Departmental Buildings

Mr. Hunt: To ask the Secretary of State for Defence what *(a)* grade II, *(b)* grade II* and *(c)* grade I listed buildings have been owned by his Department in each of the last three years. [266858]

Mr. Kevan Jones *[holding answer 26 March 2009]*: I will place in the Library of the House a current list of the Department's listed buildings and details of those that have been disposed of, and thus removed from the list, or added in 2007 and 2008. The list is broken down by grade and devolved Administrations as listed building grades differ between each Administration.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Defence how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since 2005; and at what cost. [268267]

Mr. Quentin Davies: Information relating to the number, cost and distribution of all laptop computers purchased by the MOD since 2005 is not held centrally and could be provided only at disproportionate cost.

Departmental Copyright

Ann Winterton: To ask the Secretary of State for Defence how many staff work in his Department's Intellectual Property Rights Directorate employs; and what the Directorate's *(a)* expenditure and *(b)* income was in each of the last five years for which figures are available. [268778]

Mr. Quentin Davies: The Defence Intellectual Property Rights (DIPR) Directorate employs 35 staff.

The expenditure and income figures for the DIPR budget are as follows:

£

	Expenditure	*Total income*	*Adjusted income*
2004-05	3,090,048	1,796,596	486,373
2005-06	3,472,449	1,903,525	403,504
2006-07	3,336,586	1,845,554	456,204
2007-08	3,580,491	1,754,358	298,077
2008-09	3,491,816	1,703,803	460,747

The expenditure covers DIPR staff costs, in meeting MOD Intellectual Property (IP) project support work (national and international), and includes the costs of staff seconded from DIPR to the Defence Science and Technology Laboratory (Dstl). The expenditure also includes costs to fund IPR activities such as IPR protection (patents, trade marks, registered designs) and for meeting the legislative requirements including managing and monitoring of Classified Patent Applications.

Total income is the total payments directly into the DIPR budget, including payments from Dstl to cover the seconded staff and DIPR outgoing costs paid on behalf of Dstl. This income excludes IP income such as levies and royalties which are credited to other MOD budgets. Adjusted income is the total payments into the DIPR budget, excluding payments from Dstl.

Ann Winterton: To ask the Secretary of State for Defence what the cost of administering Defence Crown Copyright was in each of the last five years; and how much was received in copyright fees in each such year. [268779]

Mr. Kevan Jones: The costs of administering Defence Crown Copyright during the last five years were as follows:

	£
2004-05	725,000
2005-06	736,000
2006-07	780,000
2007-08	809,000
2008-09	872,000

The external income received from licensing Defence Crown Copyright during the last five years were as follows:

	£
2004-05	609,000
2005-06	899,000
2006-07	1,022,000
2007-08	1,665,000
2008-09	1,882,000

Departmental Energy

Greg Clark: To ask the Secretary of State for Defence what steps have been taken by *(a)* his Department and *(b)* its agencies to improve the thermal efficiency of their buildings in the last 12 months. [266755]

Mr. Kevan Jones: In addition to complying with all applicable building regulations, Ministry of Defence construction projects are mandated, through the Office of Government Commerce Common Minimum Standards and the Sustainable Operations on the Government Estate Mandates, to undertake building research establishment environmental assessment method (BREEAM) or defence related environmental assessment methodology (DREAM) environmental performance assessments. DREAM assessments in particular encourage performance over and above that of building regulations in the area of energy efficiency.

Of those assessments completed since DREAM was launched in March 2006, 75 per cent. have achieved a greater than 10 per cent. improvement against the building regulations and six per cent. have achieved a greater than 20 per cent. improvement.

In addition there is a Departmental commitment that from 2008 all new service families accommodation in the UK will meet level 3 of the code for sustainable homes.

Greg Clark: To ask the Secretary of State for Defence what recent progress his Department has made towards the target of increasing its energy efficiency per square metre of its Estate by 15 per cent. by 2010, relative to 1999-2000 levels; and if he will make a statement. [266883]

Mr. Kevan Jones: The Ministry of Defence (MOD) did not report energy per square metre before 2004.

In 2006-07 following improvements in data quality, the MOD recalculated the building floor area used to measure performance against the Sustainable Development in the Government target of 15 per cent.

The latest assessment of Government's performance against these targets was published by the Sustainable Development Commission on 12 December 2008:

http://www.sd-commission.org.uk/sdig2008/

These show the MOD reduced energy consumption by per square meter by 10 per cent. since 2006-07.

Departmental Health Insurance

Nick Harvey: To ask the Secretary of State for Defence how much his Department has spent on private medical contractors in each of the last five years. [269272]

Mr. Kevan Jones: The vast majority of health care for service personnel is provided by the Defence Medical Services or the national health service. However, there will be times when it is necessary to employ private medical contractors, such as when a particular specialism is not readily available, or when it would be impractical to provide the service overseas using internal resources (for example, aspects of health care for personnel posted overseas to Germany and other smaller bases and detachments).

In practice, such private sector health provision is funded by a number of individual budgets across the MOD, including at local unit level within the single Services, and disproportionate effort would be required to provide the total Departmental spend.

However, we have been able to obtain a breakdown of costs from the MOD Central Budget and British Forces Germany which indicates the sums involved and services contracted. This information is provided in the following tables.

MOD central budget

Financial year	*£*
2004-05	4,702,662
2005-06	5,802,167
2006-07	4,892,840
2007-08	6,561,094
2008-09	4,731,393

These figures include contract costs for the provision of in-patient mental health provision, specialist prosthetic services, and civilian locums for operational deployments.

British Forces Germany

Financial year	*£*
2004-05	45,755,000
2005-06	43,790,000
2006-07	43,720,000
2007-08	45,450,000
2008-09	51,283,000

These figures include secondary health care contracts with German hospitals; non-contracted extra-contractual costs for specialist care; primary care contract costs with SSAFA Forces Help and Guy's & St Thomas' NHS Foundation Trust (i.e. not all private contractor provided); non-contracted primary care costs; and costs related to Isolated Detachments in European Theatre.

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Defence how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005. [268250]

Mr. Quentin Davies: The amount expended by the MOD on Blackberrys and mobile telephones, in each financial year since 2005, is shown in the following table.

Financial year	*Spend (£ million)*
2005-06	5.1
2006-07	5.4
2007-08	7.2
2008-09	7.6

It represents the combined spend on devices (Blackberrys and mobile telephones), accessories, rental charges and usage charges for all MOD users including Ministers, special advisers, civil servants and members of the armed forces. It has not been possible to identify separately the costs for Blackberrys and mobile telephones, or to show separately the costs for each group due to the complexity of the management data and the form in which it is held. This information could be provided only at disproportionate cost.

Departmental Standards

Mr. Philip Hammond: To ask the Secretary of State for Defence what estimate he has made of the cost to his Department of measuring compliance with its targets under its public service agreements in the last 12 months for which figures are available. [266568]

Mr. Bob Ainsworth: The Department does not distinguish between the costs of monitoring performance against targets under public service agreements and the costs of compliance. Compliance includes activities such as systems audit by Defence Internal Audit and supporting the work of the National Audit Office and could be provided only at disproportionate cost.

Departmental Training

Grant Shapps: To ask the Secretary of State for Defence how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and which organisations provided such training. [268555]

Mr. Hutton: Training is provided to Ministers as necessary in order to carry out their duties effectively under the Ministerial Code.

Erasmus

Dr. Fox: To ask the Secretary of State for Defence for what reasons the UK is not participating in the Erasmus military officer training programme. [269192]

Mr. Hutton: The European Initiative on the Exchange of Young Officers Inspired by Erasmus, sometimes known as military Erasmus, is focussed on European exchanges at the initial officer level.

The UK's initial training for officers is conducted at separate single service institutions. These three different courses all last approximately one academic year. The training has a strong focus on UK specific elements such as legal issues and specialist equipment training, with the aim to prepare officers for the next stage in their training on more specialist military courses. It would therefore not be practical to train officers at other nations' institutions.

The importance of education in international issues is recognised and is included in initial training for junior officers, but is covered in more depth later as officers' careers begin to include more staff appointments and as they begin to attend staff officer training such as the Intermediate Command and Staff Course, typically undertaken between the ages of 29 and 32. Similarly the higher proportion of, and the opportunity for, exchange training for UK officers comes later in officers' careers.

While the UK acknowledges the Erasmus initiative as a method of improving the understanding and awareness of other nations' services and cultures, we do not wish to participate in current circumstances for the practical reasons outlined above.

European Defence Agency

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence what joint procurement projects his Department has participated in with the European Defence Agency since 2004; and what assessment he has made of the effectiveness of such partnerships. [269815]

Mr. Quentin Davies: The UK participates in a wide range of activities across the agency. None of the activities we have taken part in has yet generated proposals for collaborative procurement.

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence how much funding his Department has provided to the European Defence Agency in each year since 2004; what mechanisms are in place to *(a)* audit such expenditure and *(b)* monitor the distribution of such funds against objectives; and if he will make a statement. [269816]

Mr. Quentin Davies: The amount paid by the Ministry of Defence to the European Defence Agency (EDA) in each of the financial years since it was established in 2004 is provided in the following table.

Financial year	*£ million*
2004-05	1.56
2005-06	2.36
2006-07	2.09
2007-08	1.95
2008-09	3.11
2009-10	[1]4.22

[1] Estimated

Funds for the agency are allocated annually against a work programme, approved by Defence Ministers at the EDA Steering Board. The accounts of the EDA are audited annually by a College of Auditors whose members are currently drawn from three participating member states.

Ex-servicemen: Compensation

Nick Harvey: To ask the Secretary of State for Defence how many complaints about the outcomes of claims for *(a)* war disablement pension and *(b)* compensation for injuries or illness incurred during service in the armed forces his Department has received in each year since 2000. [268672]

Mr. Kevan Jones: Complaints about the outcomes of claims under the War Pension Scheme (WPS) are known as appeals. It is not possible to provide information on appeals against outcomes of claims for war disablement pensions for 2000 as electronic records are only held back to 2001. For the period 2001-08, 21,895 appeals were registered under the WPS. A breakdown of appeals registered by calendar year is provided in the following table.

	Appeals[1, 2]
Total	21,895
2001	3,870
2002	3,360
2003	2,845
2004	2,590
2005	2,355
2006	2,675
2007	2,225
2008	1,980

[1] Appeals include disablement pensioner entitlement appeals and assessment appeals.
[2] Figures have been rounded to the nearest five, totals may not add due to rounding.

Complaints about the outcomes of claims under the Armed Forces Compensation Scheme (AFCS) are known as reconsiderations and appeals. Between the start of the scheme, 6 April 2005 and 31 December 2008, there have been 855 reconsiderations and 370 appeals made at the First Tier Tribunal under the Armed Forces Compensation Scheme (AFCS). A breakdown of reconsiderations and appeals by calendar year is provided in the following table.

	Reconsiderations[1, 2]	*Appeals*[2]
Total	855	370
6 April 2005 to 31 December 2005	0	0
2006	80	25
2007	200	80
2008	575	265

[1] Includes reconsiderations and reconsiderations carried out as part of the appeal process; if an appeal is requested before a reconsideration has taken place, then a reconsideration will automatically be registered on behalf of the claimant.

[2] Figures have been rounded to the nearest five, totals may not add due to rounding.

Nick Harvey: To ask the Secretary of State for Defence what percentage of unsuccessful claimants for *(a)* war disablement pensions and *(b)* compensation for injuries or illness incurred during service in the armed forces made a subsequent claim in each of the last three years. [268673]

Mr. Kevan Jones: Between 2006-08 there were 2,210 unsuccessful war disablement pension claims under the War Pension Scheme (WPS). The percentage of unsuccessful claimants who have subsequently registered a new claim under the WPS by calendar year is provided in the table. It is not possible to identify whether claimants that have made a subsequent claim have claimed for the same condition.

Between 2006-08 there were 2,210 unsuccessful war disablement pension claims under the War Pension Scheme (WPS). The percentage of unsuccessful claimants who have subsequently registered a new claim under the WPS by calendar year is provided in the table. It is not possible to identify whether claimants that have made a subsequent claim have claimed for the same condition.

Year[1, 2]	*Percentage*
2006	1.0
2007	0.5
2008	0.6

[1] Year in which unsuccessful war disablement claim was determined. Subsequent claims may have occurred in a following calendar year; data only available up to 31 December 2008.

[2] Claims include current invaliding and first claims.

Between 2006-08 there were 2,935 unsuccessful claims for compensation under the Armed Forces Compensation Scheme (AFCS). The percentage of unsuccessful claimants who have subsequently registered a new claim under the AFCS by calendar year is provided in the table.

Year[1, 2]	*Percentage*
2006	5.0
2007	8.4
2008	9.0

[1] Year in which unsuccessful claim for compensation was determined. Subsequent claims may have occurred in a following calendar year; data only available up to 31 December 2008.

[2] Claims include injury claims and additional claims.

Nick Harvey: To ask the Secretary of State for Defence what the average length of time taken by the Service Personnel and Veterans Agency and its predecessors to deal with cases relating to *(a)* war disablement pensions and *(b)* compensation for injuries or illness incurred during service in the armed forces was in each year since 2000. [268674]

Mr. Kevan Jones: The average length of time taken to deal with cases relating to war disablement pensions and compensation for injuries or illness incurred during service in the armed forces is provided in the table. The Armed Forces Compensation Scheme began in April 2005 and no performance measurement was made for the first year.

	Number of days for average clearance	
	War disablement pension	*Armed Forces Compensation Scheme*[1]
2000-01	92	n/a
2001-02	73	n/a
2002-03	63	n/a
2003-04	61	n/a
2004-05	57	n/a
2005-06	52	[2]n/a
2006-07	49	43
2007-08	50	64

[1] Figures for 2008-09 are not yet available.

[2] No AFCS performance measurement was made in the first year.

Nick Harvey: To ask the Secretary of State for Defence how many cases the Service Personnel and Veterans Agency *(a)* referred to and *(b)* received from the Department for Work and Pensions in each year since 2007. [268675]

Mr. Kevan Jones: The Service Personnel and Veterans Agency (SPVA) via their Veterans Welfare Service (VWS) will offer advice to veterans on possible eligibility to a range of other benefits some from the Department for Work and Pensions (DWP). VWS monitor the outcome of their advice with DWP.

The number of cases referred to by the VWS to the DWP is provided in the table.

	Number of cases
January-December 2007	744
January-December 2008	573
January-February 2009	68

Note:

Figures for March 2009 are not yet available.

However, SPVA have no formal process whereby they receive cases from the DWP, and therefore no data can be provided on this issue.

Ex-servicemen: Military Decorations

Dr. Fox: To ask the Secretary of State for Defence how many errors in the delivery of medals to veterans his Department has recorded in each year since 2003. [269194]

Mr. Kevan Jones: This information is not held centrally and could be provided only at disproportionate cost.

Ex-servicemen: Tribunals

Mr. Meale: To ask the Secretary of State for Defence what estimate he has made of his Department's average expenditure on a tribunal case related to veterans in the last 12 months. [267835]

Mr. Kevan Jones: None. The information is not kept in the format requested and could be provided only at disproportionate cost.

Future Large Aircraft

Mr. Gray: To ask the Secretary of State for Defence what recent discussions he has had with his French counterpart on the future of the A400M programme. [268969]

Mr. Quentin Davies: There have been a number of discussions with the French Defence Minister and with others of our partners, and this dialogue is continuing.

Mr. Ellwood: To ask the Secretary of State for Defence when he expects the first A400M transport aircraft to be introduced in the Royal Air Force; and if he will make a statement. [269062]

Mr. Quentin Davies: I refer the hon. Member to the answer I gave on 5 February 2009, *Official Report*, column 1406W, to the hon. Member for Congleton (Ann Winterton).

Kenya: Military Aid

Nick Harvey: To ask the Secretary of State for Defence which companies of 20 Parachute Battalion of the Kenyan army have received training from the British Army since 2005. [269669]

Mr. Bob Ainsworth: The UK has provided training to Support Company of 20 Parachute Battalion of the Kenyan army in a programme that commenced in 2007.

Members: Correspondence

Mr. Baron: To ask the Secretary of State for Defence when his Department plans to reply to the letter of 3 March 2009 from the hon. Member for Billericay and the hon. Member for Norwich North, requesting a meeting on the subject of nuclear test veterans. [268985]

Mr. Kevan Jones: I met with the hon. Member and representatives of the British Nuclear Test Veterans Association on Monday 20 April 2009. My hon. Friend the Member for Norwich, North (Dr. Gibson) was unable to attend.

Military Aircraft

Ann Winterton: To ask the Secretary of State for Defence pursuant to the answer of 25 March 2009, *Official Report*, column 424W, on Afghanistan: peacekeeping operations, with whom the national contract for providing medium and heavy helicopter lift is placed. [268780]

Mr. Hutton: I refer the hon. Member to the answer I gave on 25 March 2009, *Official Report*, column 424W. The UK currently supplements the NATO ISAF Contracted Air Transport with a national contract through SkyLink Aviation.

Ann Winterton: To ask the Secretary of State for Defence pursuant to the answer of 2 March 2009, *Official Report*, column 1366W, on Hercules aircraft, how many platforms were factored into the figure of 15,680 flying hours for the 2008-09 financial year. [268781]

Mr. Quentin Davies: The figure of 15,680 flying hours related to the period 1 April 2008 to 31 January 2009 and was achieved by a total of 23 Hercules C-130J aircraft.

Ann Winterton: To ask the Secretary of State for Defence what discussions his Department is having with Lockheed on the purchase of tactical airlift aircraft. [268782]

Mr. Quentin Davies: The Department has had limited discussions with Lockheed Martin Aerospace, without commitment, in relation to possible scope for lease or purchase of additional C-130J aircraft. The discussions are part of wider continuing work to assess all possible options for the temporary mitigation of the capability gap caused by the delay to A400M.

Ann Winterton: To ask the Secretary of State for Defence what information his Department holds on the sources of capital for the *(a)* suppliers and *(b)* backers of the A400M aircraft. [268783]

Mr. Quentin Davies: The Department undertakes regular analysis of its key suppliers. These analyses are generally done to ensure financial adequacy at a group level rather than for specific projects or contracts, and do not cover precise sources of funding. They are Departmental interpretations of publicly held financial information (e.g. a company's published accounts).

Military Aircraft: Helicopters

Dr. Fox: To ask the Secretary of State for Defence what the percentage shortfall of required spares for each helicopter type is in the *(a)* Army Air Corps, *(b)* Royal Navy and *(c)* Royal Air Force. [266939]

Nick Harvey: To ask the Secretary of State for Defence what the percentage shortfall of required spares is for each helicopter type in the *(a)* Army Air Corps, *(b)* Royal Navy and *(c)* Royal Air Force. [269271]

Mr. Quentin Davies: Information on spares availability is not held in the form requested and could be provided only at disproportionate cost.

Military Exercises

Dr. Fox: To ask the Secretary of State for Defence how many training exercises have been conducted under the European Carrier Group Interoperability Initiative with the exclusive purpose of improving interoperability *(a)* between countries operating aircraft carriers and *(b)* between countries with naval vessels able to support carrier operations. [269191]

Mr. Bob Ainsworth: No training exercises have been conducted to date under the European Carrier Group Interoperability Initiative.

Pakistan: Al Qaeda

Mr. Lidington: To ask the Secretary of State for Defence whether any official in his Department was given notice by any representative of *(a)* the Pakistan government and *(b)* the US administration of the US air strike on the village of Ali Khel on or before 22 November 2008. [245652]

Mr. Hutton: The Ministry of Defence was not given notice by the Pakistani government or the US Administration of the reported air strike on Ali Khel on or before 22 November 2008.

RAF Brize Norton

Mrs. Moon: To ask the Secretary of State for Defence how many flights from RAF Brize Norton have been abandoned following commencement owing to mechanical faults in each year since 2005. [260691]

Mr. Quentin Davies: A record of all flights originating from RAF Brize Norton since 2005 that were cancelled due to technical faults is not recorded centrally and could be provided only at disproportionate cost.

For part of the requested period, statistics have been collated for flights undertaking airbridge tasks in support of Operation Herrick, Operation Telic and the Falkland Islands Permanent Joint Operating Base. In the period from January 2008 to date, no airbridge flights were cancelled due to technical faults, although some flights did incur delays or airframes were changed due to technical faults on the originally allocated airframe.

Reserve Forces

Dr. Murrison: To ask the Secretary of State for Defence which *(a)* posts and *(b)* categories of post in public service are incompatible with service in the Reserve Forces. [268972]

Mr. Bob Ainsworth: No posts in public service are incompatible with service in the Reserve Forces.

Somalia: Piracy

Dr. Fox: To ask the Secretary of State for Defence what Royal Navy assets are *(a)* participating and *(b)* planned to participate in Operation Atalanta. [269186]

Mr. Bob Ainsworth: HMS Northumberland participated in Operation Atalanta from the start of the operation in December 2008 until the end of February 2009. Throughout the mandate of the operation (which expires on 13 December 2009) we have and will continue to provide the operational commander and associated headquarters. No decision has yet been taken on any continuance of the operation beyond its existing mandate.

Trident

Nick Harvey: To ask the Secretary of State for Defence what recent assessment he has made of the effects of reductions in the value of sterling on the estimated costs of the Trident replacement programme. [269711]

Mr. Hutton: The main part of the programme, covering the successor to the Vanguard Class submarines, has yet to reach the Initial Gate approval stage. In accordance with normal MOD procurement processes, a revised cost estimate that is due in September 2009 will inform this decision and this will include an assessment of the exchange rate risk.

Warships: Construction

Dr. Julian Lewis: To ask the Secretary of State for Defence pursuant to the answer from the Parliamentary Under-Secretary of State for Defence of 30 March 2009, *Official Report*, column 647, on the warship construction programme, what the tonnage of the warship construction programme will be. [268864]

Mr. Quentin Davies: The approximate tonnage of each class of warship currently under construction, and their combined total, is provided in the table:

Class of vessel	*Displacement per vessel (tonnes)*	*Planned number of vessels per class*	*Total tonnage of class*
Queen Elizabeth Class aircraft carriers (CVF)	65,000 (full displacement)	2	130,000
Type 45 Daring Class destroyers	[1]8,100 (mid-mission, mid-life full displacement)	6	48,600
Astute Class attack submarines	7,800 (full displacement when dived)	[2]7	54,600
Total tonnage			233,200

[1] The Type 45 tonnage will change throughout the ship's life due largely to the adoption of an incremental capability approach. Mid-life, mid-mission tonnage has been chosen as a representative figure.

[2] Our current plans are for a total class of seven boats.

The Future Surface Combatant and successor programmes also form part of the warship construction programme but are at an early phase in the design process, and decisions on final design have yet to be taken.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the Oral Answer of 12 January 2009, *Official Report*, column 16, what the evidential basis was for his statement that the UK has the largest programme under way since the end of the First World War in respect of naval construction. [269193]

Mr. Quentin Davies: I specified in my statement that it related to peacetime construction. I made this statement on the basis of real terms expenditure.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the percentage of farmers who have diversified their business into activities outside food production in each year since 1997. [264679]

Jane Kennedy: Since 2003-04 statistics on farm diversification have been collected through the Farm Business Survey. Prior to this, diversification figures were collected through the June Survey of Agriculture. The two surveys are not directly comparable.

Indications from the Farm Business Survey are that, since 2003-04, the percentage of farms that have diversified their business into activities outside food production has remained stable at around 50 per cent. Detailed figures can be found on the DEFRA website.

Agriculture: Waste Disposal

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many on-farm anaerobic digesters there are in each parliamentary constituency in England. [264120]

Jane Kennedy *[holding answer 17 March 2009]*: DEFRA does not hold the information requested as figures for the number of farm-based anaerobic digestion plants are not collected centrally.

Animal Feed: Imports

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what volume of animal feed ingredients of each *(a)* type of crop and *(b)* country of origin was imported in each of the last five years. [268144]

Jane Kennedy: Table 1 shows the volume of animal feed ingredients imported into the UK from 2004 to 2008, split by type and exporting country, as recorded in the Official Trade Statistics. Table 1 excludes whole cereal grains, which are shown in Table 2.

Table 2 shows estimates for the volume imported into the UK from 2003-04 to 2007-08 of whole cereal grain used in animal feedingstuffs. The Official Trade Statistics do not specifically distinguish whole cereal grain for animal feed from that for human consumption. However an estimate of imported cereal grain used for animal feed is derived and published as part of the UK Supply and Demand estimates on a crop year basis (July to June).

This estimate is derived from total import figures from the Official Trade Statistics and survey data on use of cereal grain by various cereal processors. It is not possible to provide a country of origin/despatch breakdown.

Table 1 UK imports of animal feedingstuffs, 2004-08, by exporting country (country of despatch for EU and origin for Non-EU—see notes)

Notes:
1. Data prepared by Trade Statistics, Economics and Statistics Programme, DEFRA.
2. 2008 data are subject to amendments.
3. Figures showing as zero are less than 0.5 tonnes.
4. These figures exclude preparations for pet animals such as dog and cat food.
5. Exports from outside the EU which are shown in table 1 are based on the country of origin. This is the country where the goods were originally produced. Exports from the EU shown are based on the country of despatch. This is the country where the last commercial transaction of the goods took place and may be different from the country of origin. This distinction is an artefact of the different administrative recording systems by which the data are collected.

DEFRA, HNIRC

Animal Welfare: Finance

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what funding his Department has allocated for *(a)* animal health and *(b)* increasing agricultural productivity in the South West in 2009-10. [267480]

Jane Kennedy: DEFRA's annual report gives estimated figures for its total spending in 2009-10 on animal health issues through Animal Health area offices and activities and the Veterinary Laboratories Agency, and on research and development directed towards improving agricultural production and productivity, but expenditure under these headings is not regionalised and so no separate figure for the south-west of England can be given.

Improving the competitiveness of the agriculture and forestry sectors is one of the objectives of Axis 1 of the Rural Development Programme for England (RDPE). In the south-west, Axes 1 and 3 of the RDPE are delivered by the South West Regional Development Agency (SWRDA). DEFRA has made an indicative allocation of £30.27 million to SWRDA for Axis 1 and 3 in 2009-10.

Animals: Circuses

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on the importation of elephants to perform in circuses; and whether his Department issues guidance on such imports. [267637]

Jane Kennedy: DEFRA has received no representations specifically on that issue.

The UK is a signatory party to the Convention on International Trade in Endangered Species of Fauna and Flora (CITES) which aims to ensure that international trade in specimens of non-domesticated animals and plants does not threaten their survival. The management authority of any state may waive the normal requirements which apply to the movement of a specimen where that specimen forms part of a travelling circus and provided certain conditions are fulfilled. These conditions include the requirement that the management authority is satisfied that any living specimen will be so transported and cared for as to minimise the risk of injury, damage to health or cruel treatment.

Beijing

Mr. Heathcoat-Amory: To ask the Secretary of State for Environment, Food and Rural Affairs how many visits were made by staff of his Department to Beijing in the financial year 2007-08. [264566]

Huw Irranca-Davies: From information held centrally DEFRA staff made 30 visits to Beijing in the financial year 2007-08. All visits by staff were undertaken in accordance with the Civil Service Code and the Civil Service Management Code.

Bovine Tuberculosis: Disease Control

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department has spent in each region on tackling bovine tuberculosis in each of the last three years; what estimate he has made of the amount of private sector expenditure in each region on tackling bovine tuberculosis in those years; and if he will make a statement. [266506]

Jane Kennedy: The Department is unable to breakdown spend by region. The financial system that we use only allows us to record spend on a country basis and until 2008-09 on a GB basis. Therefore, we have provided as follows a breakdown of the total amount spent on tackling bovine tuberculosis in each of the last three years[1] and only 2008-09 are England figures.

We have made no specific estimates of the amount of private sector expenditure in each region on tackling bovine tuberculosis.

---

[1] Data sourced from DEFRA Oracle Financial system.

£ million

	2006-07 Actual spend	*2007-08 Actual spend*	*2008-09 Forecast spend*
Cattle Testing[1]	37.8	32.6	32.6
Compensation[2]	24.5	29.7	25.7
Randomised Badger Culling Trial (RBCT)	1.6	0.03	0
Surveillance activity by the VLA[3]	6.4	7.9	6
Other Research	7.8	8.5	8.1
HQ/Overheads[4]	1.7	1.2	1.8
Total	79.7	79.9	74.2

[1] Cattle testing: the cost of carrying out the testing of cattle for TB by arranging, assessing and monitoring tests, conducting investigations of incident herds and diagnostic testing by local veterinary inspectors on behalf of DEFRA. NB: This expenditure is funded by DEFRA for GB.
[2] Compensation: includes payments for 'reactors' and 'contact animals' which are compulsorily slaughtered. This includes 'salvage' money received by the Government for those carcasses which are permitted to go into the food chain. Payments up until 2007-08 include those carcasses which are eligible for the Over Thirty Month Scheme. NB: For 2006-07 and 2007-08, these costs include Scotland and Wales and are funded by their respective Governments. From 2008-09 onwards, these costs are England only.
[3] Surveillance activity by the VLA: includes all DEFRA funded work carried out by the Veterinary Laboratories Agency relating to TB in cattle and badgers including the supply of tuberculin. NB: This expenditure is funded by DEFRA for GB.
[4] HQ/overheads: includes staff costs for veterinary advice and administration of TB policy in England only.

Mr. Robathan: To ask the Secretary of State for Environment, Food and Rural Affairs how many cattle have been slaughtered because of suspected bovine tuberculosis in the last 12 months; and at what cost. [R] [269010]

Jane Kennedy: In 2008, 27,455 cattle were slaughtered in England (26,038 as test reactors, 487 as inconclusive reactors and 930 as direct contacts). The 2008 spend on compensation for England was £27.5 million.

Compost

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on the potential health effects of composting. [264864]

Jane Kennedy: Since 1 December I have answered five written parliamentary questions and supplied a reply to one email inquiry.

Departmental Buildings

Greg Clark: To ask the Secretary of State for Environment, Food and Rural Affairs what recent progress his Department has made towards the target of increasing its energy efficiency per square metre of its Estate by 15 per cent. by 2010, relative to 1999-2000 levels; and if he will make a statement. [266882]

Huw Irranca-Davies: I can confirm that information relating to DEFRA's performance against the energy efficiency per metre square Sustainable Operations on the Government Estate (SOGE) target is available on the Sustainable Development Commission website.

DEFRA has an ongoing programme of work to improve the energy efficiency of its estate. A key element of this programme is to reduce the size of the DEFRA Estate and make more efficient use of the existing portfolio. To date this strategy has resulted in an overall reduction in energy consumption across the estate, but has had a negative effect on the energy efficiency per metre squared.

Also, over the past four years, DEFRA has increased its capability to investigate and respond to animal and plant disease outbreaks. This work is carried out in energy intensive high containment laboratories which are regulated by strict legislation. It is accepted by energy efficiency expert bodies such as the Building Research Establishment (BRE) and the Chartered Institute of Building Services Engineers (CIBSE) that energy efficiency of laboratory buildings cannot be calculated solely on a floor space basis. 75 per cent. of the DEFRA Estate's total energy consumption is used for laboratory activities.

It should be noted that the DEFRA office estate is performing well, and if SOGE target for energy efficiency related solely to the office estate, DEFRA would currently be within 4 per cent. of achieving the target.

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the change in the annual cost to his Department of maintaining the empty public buildings owned by his Department as a result of the April 2008 changes to empty property rate relief. [267134]

Huw Irranca-Davies: Allowing for the fluctuation in the number of vacant public buildings within the departmental portfolio during 2008-09 financial year due to new vacancies and property disposals, it is estimated that the change in empty property rates relief has resulted in an additional annual rates liability amounting to approximately £670,000 for the period.

Departmental Energy

Greg Clark: To ask the Secretary of State for Environment, Food and Rural Affairs how much *(a)* electricity, *(b)* gas and *(c)* other fuel has been used by (i) his Department and (ii) each of its agencies since its inception. [267336]

Huw Irranca-Davies: The annual energy consumption of buildings on the DEFRA and Executive Agency estate is shown in the following tables.

kWh

WDHS: Whitehall District Heating System CHP: Combined Heat and Power.

Notes:

2005-06

1. CHP heat data for 2005-06 are missing. 2. Solar technology installed in 2003-04, system taken out of operation in 2006-07. 3. MFA data in 2005-06 are for the whole year, we are unable to split the data before and after the agency was formed.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the initial estimated *(a)* cost and *(b)* delivery date was of each ICT project initiated by his Department and its predecessors in each year since 1997; what the (i) outturn cost and (ii) completion date was of each such project subsequently completed; what estimate he has made of the (A) outturn cost and (B) completion date of each such project which is ongoing; which contractors were hired for each project; and how much has been paid to each contractor in respect of each project to date; [251380]

(2) when he plans to answer question 251380, tabled on 22 January 2009, on ICT projects; and if he will make a statement. [264172]

Huw Irranca-Davies: The Department for Environment, Food and Rural Affairs (DEFRA) does not hold a current comprehensive list of ICT projects at the level of detail requested. This could be compiled only at disproportionate cost.

However, DEFRA has provided some related information to previous questions. The hon. Member is referred to the following answers:

(a) The hon. Member for Tatton (Mr. Osborne) on 9 February 2005, *Official Report*, column 1500W;

(b) The hon. Member for Twickenham (Dr. Cable) on 2 December 2005, *Official Report*, column 869W;

(c) The hon. Member for Twickenham (Dr. Cable) on 6 February 2008, *Official Report*, column 1276W; and

(d) The hon. Member for Fareham (Mr. Hoban) on 12 November 2008, *Official Report*, columns 1226-27W.

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs (1) which ICT projects his Department and its predecessors initiated and abandoned before completion in each year since 1997; what costs were incurred in each project; who the contractors for each were; on what date each was *(a)* commenced and *(b)* abandoned; and if he will make a statement; [251392]

(2) when he plans to answer question 251392, tabled on 22 January 2009, on ICT projects; and if he will make a statement. [264177]

Huw Irranca-Davies: The Department for Environment, Food and Rural Affairs (DEFRA) does not hold a current comprehensive list of ICT projects at the level of detail requested. This could be compiled only at disproportionate cost.

However, the hon. Member is referred to the response my Department provided to the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 17 October 2008, *Official Report*, columns 1516-17W. No further ICT projects and programmes have been cancelled since that response.

Departmental Redundancy

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 27 January 2009, *Official Report*, columns 332-4W, on redundancy, how many staff left his Department under staff exit schemes with a severance package worth *(a)* between £100,000 and £125,000, *(b)* between £125,001 and £150,000, *(c)* between £150,001 and £200,000, *(d)* between £200,001 and £250,000, *(e)* between £250,001 and £500,000, *(f)* between £500,001 and £1,000,000 and *(g)* over £1,000,000 in each year since 2005-06. [264286]

Huw Irranca-Davies: As a result of structural changes to the Department and to meet cross-Government targets to reduce headcount within Departments DEFRA has managed the exit of a number of staff over recent years. The initial investment in reducing the headcount will lead to significantly reduced future pay costs on staff.

These included both voluntary and involuntary leavers to whom payments were made. As is common to other Government Departments, the structures of these payments were based on the rules contained within the Civil Service Pension Scheme.

For staff leaving on compulsory or flexible early severance terms, or in receipt of a statutory redundancy payment, the size of the package represents the lump sum compensation payment made.

For staff leaving on compulsory, flexible or approved early retirement terms, the size of the package includes:

any lump sum compensation payment made on departure (compulsory terms only);

the capitalised cost of paying a pension or annual compensation payment (ACP) before pension age;

the cost of any pension enhancement (compulsory and flexible terms only) and the cost of bringing forward the payment of the pension lump sum (for those in classic).

These figures are therefore the initial provision for the early departure liabilities caused by the staff's departures and include any cash payments made during the period.

Packages also include any payments made on an ex gratia basis.

Breakdown of figures

The split of the 245 voluntary leavers and two involuntary leavers who had severance packages of over £100,000 in the last three financial years is:

Voluntary leavers

	2005-06		*2006-07*		*2007-08*		*Grand total*

Environment Agency: Administration

Norman Lamb: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Environment Agency spent on administration costs in each of the last three years. [265754]

Jane Kennedy: The total expenditure by the Environment Agency on administration costs in each of the three years to 31 March 2009 is as follows:

	2006-07	*2007-08*	*2008-09*[1]
Administration costs (£ million)	98	98	102
Total expenditure (percentage)	9.7	9.1	8.6

[1] Estimate based on management accounts as at 28 February 2009.

The administration costs for 2008-09 are split between National Corporate costs of £36 million and Regional Operational Support costs of £66 million.

During this period, the Environment Agency has restructured both the Finance and Human Resources Directorates, which will generate significant cost savings in future years.

Farmers: Income

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the likely average business income from a cropping farm in 2008-09. [268399]

Jane Kennedy *[holding answer 2 April 2009]:* The average farm business income on a cropping farm in England in 2008-09 has been provisionally estimated to be around £50,200 for cereal farms and £53,600 for general cropping farms[1]. This represents a fall of around a third compared to the previous year, as cereal prices have fallen and input costs have increased.

Farm Business Income is the headline measure of the profitability of farm businesses. It represents the financial return to all unpaid labour (farmers and spouses, non-principal partners and directors and their spouses and family workers) and on all their capital invested in the farm business, including land and buildings.

[1] The estimates for 2008-09 are based on information available in early January 2009 for prices, animal populations, marketings, crop areas and yields and are subject to a margin of error, particularly because farm income tends to be the relatively small difference between output and input.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the average business income from cropping farms was in each of the last 10 years. [268400]

Jane Kennedy *[holding answer 2 April 2009]:* The average farm business income[1], the preferred measure of farm profitability, is only available from 2003-04. The alternative measure of net farm income[2] is available for the years up to 2007-08.

[1] Farm business income represents the financial return to all unpaid labour (farmers and spouses, non-principal partners and directors and their spouses and family workers) and on all their capital invested in the farm business, including land and buildings.

[2] Net farm income is defined as the return to the principal farmer and spouse alone for their manual and managerial labour and on the tenant type capital of the business. An imputed rent is deducted for owner-occupied farms as is a charge for other unpaid labour.

Average farm business income

		£/farm
March/February years	*Cereals*	*General cropping*
2003-04	49,800	65,900
2004-05	29,200	42,400

Flood Control

Nick Herbert: To ask the Secretary of State for Environment, Food and Rural Affairs what types of critical infrastructure were categorised as at risk of flooding by the Environment Agency in each of the last five years; and how many of each type were so categorised in each such year. [267550]

Huw Irranca-Davies: The Environment Agency commissioned a report for the first time in 2007 to map and improve its understanding of flood vulnerability of infrastructure at a national scale. The resulting Receptors Vulnerable to Flooding database, which draws heavily on information in the public domain and held by other parties, provides a summary of the vulnerability to flooding of various types of public utility infrastructure.

The Environment Agency is currently working on updating this information for publication in spring 2009. The following table sets out a summary of the Receptors Vulnerable to Flooding database 2007.

Environment Agency 2007 study showing infrastructure overlain on flood risk maps (river and sea flood plains)[1]

	Number of sites in flood zone (flood risk probability)			
Asset	*Significant (1 in 75)*	*Moderate (1 in 75-200)*	*Low (1 in 200 or fewer)*	*Total in all three zones*
Water and sewerage (Number)	737	223	179	1,145
Electricity, generation and distribution (Number)	2,215	2,263	3,818	8,423
Gas, works and distribution (Number)	5	8	10	23
Telephone exchanges (Number)	82	67	86	241
Motorways (km)	139	104	132	382
A roads (km)	884	553	809	2,278
Railway lines (km)	1,470	750	948	3,213

[1] Information extracted from the Environment Agency Receptors Vulnerable to Flooding Database 2007.

This information was originally provided to the Pitt Review team but has since been updated because of changes in the methodology used to collate the data. The Cabinet Office (through the newly recruited Natural Hazards team) will take forward this work with the Environment Agency and other organisations as part of the Government's action plan in response to Sir Michael Pitt's recommendations.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to publish the draft Floods and Water Bill. [269530]

Huw Irranca-Davies: We expect to publish the draft Bill in late spring 2009 for pre-legislative scrutiny and public consultation. The final Bill will then be available for introduction in a later parliamentary Session.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what his most recent estimate is of the level of uptake of flood warnings; and by what means such warnings are delivered. [269531]

Huw Irranca-Davies: The Environment Agency's Floodline Warnings Direct is a free service that provides flood warnings direct to customers by telephone, mobile, email, SMS text message and fax.

The Environment Agency has signed up a further estimated 100,000 customers since July 2007, increasing the number of registered customers from 328,767 to the current 433,314.

Flood Control: Expenditure

Norman Lamb: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on the design and management of each flooding and coastal protection project currently under way in areas at risk from *(a)* fluvial and coastal flooding and *(b)* coastal erosion. [265755]

Huw Irranca-Davies: The Environment Agency completed 57 nationally managed projects on fluvial and coastal flooding between 1 April 2008 and 28 February 2009 of which 34 were funded or part-funded by DEFRA. The tables are based on information provided by the Environment Agency's capital works database. These show that the average costs spent on the appraisal of projects by the Environment Agency's National Capital Programme Management Service (NCPMS) on feasibility and approvals was 18 per cent. The remaining 82 per cent. was spent on the construction and post construction activities of the project.

The Environment Agency does not hold records centrally on the cost of design and management for most of its schemes below £250,000, nor for pre-feasibility costs for most schemes and for local authority coastal erosion projects.

Table 1: Summary of appraisal/delivery split for Environment Agency projects above £250,000 that have completed construction between 1 April 2008 to 28 February 2009

Flooding Lessons Learned Review

Mr. Graham Stuart: To ask the Secretary of State for Environment, Food and Rural Affairs how many of the recommendations made in Sir Michael Pitt's final report on Learning lessons from the 2007 floods have been implemented. [268110]

Huw Irranca-Davies: The Government's response to the Pitt Review set out what had been implemented before December 2008 and the further steps required to implement its recommendations in the future. The Government will report further on implementation every six months, beginning in June 2009.

Floods

Mr. Burns: To ask the Secretary of State for Environment, Food and Rural Affairs if he will publish the electronic maps developed by the Environment Agency which identify those areas vulnerable to flash flooding from surface water. [268404]

Huw Irranca-Davies *[holding answer 2 April 2009]:* The Environment Agency completed actions in response to the urgent recommendation from Sir Michael Pitt's interim report in August 2008 which stated

> 'The Review recommends that the Environment Agency, supported by local authorities and water companies, should urgently identify areas at highest risk from surface water flooding where known, inform Local Resilience Forums and take steps to identify remaining high risk areas over the coming months'.

The Environment Agency sent map data to Local Resilience Forums to help them plan their response to surface water flooding emergencies.

The information on the maps is still under development and is for emergency planning purposes. The maps give an indication of the broad areas likely to be susceptible to surface water flooding based upon an extreme summer rainfall event with no drainage systems working. The information is not sufficiently accurate to use for individual properties. For example, it excludes the impact of buildings and kerb heights on surface water flows which at the local level can be significant. There will be properties at risk from surface water flooding that will not be included in the outline areas on the maps. The Environment Agency has not published the maps because of these uncertainties.

The Environment Agency is committed to providing the public and businesses with accurate and meaningful information about surface water flood risk in conjunction with local authorities and water companies in the future. Work is ongoing to validate the model results against historic surface water flood events. The information will be published once there is confidence in the results.

I have balanced the need to share surface water flood risk data with the public against the risks of publishing nationally un-validated data based on extreme scenarios for some types of surface water flooding. The public interest is best served by the current situation where Local Resilience Forums have information that will help them plan for emergencies and it is better to wait until more reliable data are available before publishing the Environment Agency's maps. In the meantime, members of the public can purchase maps on surface water flooding on the internet from at least one commercial company.

Floods: Essex

Mr. Newmark: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 27 February 2009, *Official Report*, column 1127W, on floods: Essex, (1) which of the schemes in the Essex catchment area which have received funding in the last 12 months for *(a)* flood prevention and *(b)* river maintenance are scheduled to (i) receive further funding over the next five years and (ii) how much funding each scheme will be allocated in each case; [267954]

(2) which river maintenance schemes in the Essex catchment area have received funding from his Department in the last 12 months; and how much was spent on each such scheme; [267955]

(3) which flood protection schemes in the Essex catchment area have received funding from his Department in the last 12 months; and how much was spent on each such scheme in that period. [267956]

Huw Irranca-Davies *[holding answer 31 March 2009]*: During the financial year 2008-09, the Environment Agency has spent the following on constructing new, and refurbishing existing flood defences in Essex:

£9.32 million—Jaywick;

£0.65 million—Canvey Island;

£0.27 million—Tilbury;

£0.16 million—developing schemes for Brightlingsea and Great Wakering;

£2.62 million—on over 30 smaller tidal and river defence schemes.

£4.67 million has been spent during 2008-09 on the general maintenance of river and tidal defences in Essex by the Anglian Eastern Area of the Environment Agency. Work has been carried out across the county at many locations, covering routine maintenance and one-off repairs to defences and structures, and is not broken down into specific schemes.

The following Capital Flood Defence schemes in the Essex Catchment have received funding during 2008-09 and will continue into the next five years. Based on our current plans, funding will be allocated to the following projects over the period 2009 to 2014 in the amounts indicated:

£2.8 million—Brightlingsea;

£11.2 million—Great Wakering;

£0.7 million—Holland Sluice;

£0.3 million—Thames Tidal Defences;

£0.8 million—Tilbury Barrier;

£0.02 million—Jaywick.

In addition to the above, £4.27 million has been allocated to schemes for maintenance of river and tidal defences in 2009-10. Future years' maintenance is likely to be funded to a similar figure.

Source:

The Environment Agency's Capital Works database

Floods: South East

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps his Department has taken to reduce the incidence and severity of flooding in the south east of England. [267819]

Huw Irranca-Davies: The Government provided £132 million to the Thames and Southern Regions of the Environment Agency in 2008-09 in order to reduce the incidence and severity of flooding in the south east of England. The funding for these regions is to increase to £151 million for 2009-10.

The funding enables the Environment Agency to maintain and improve the flood defences and the Thames Barrier protecting London, and many other projects both inland and protecting the coastline around the south-east of England.

Over the current CSR period of 2008-09 to 2010-11, over 36 major projects will be completed in Thames Region alone, at a cost of £87 million. These will deliver further benefits and reduce flood risk to over 67,000 homes.

Within Romford itself, the Environment Agency will continue to carry out routine watercourse maintenance on Main Rivers in the River Rom catchment to reduce the risk of flooding. This includes vegetation control, blockage removal and incident response.

Several improvement measures are planned for the Cross Road Flood Storage Area at Collier Row, Romford, during 2010 and 2011 at an estimated cost of £620,000. This is to ensure that the current standard of flood alleviation to properties in west Romford is maintained.

Fly-tipping

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department has spent countering fly tipping measures in each of the last five years. [267818]

Jane Kennedy: Action and enforcement against fly-tipping is taken by local authorities and the Environment Agency.

Through the former BREW (Business Resource Efficiency and Waste) programme, DEFRA has given the Environment Agency £1.5 million each year for the last four years. This has been spent on a wide range of environmental crime-related work which includes anti fly-tipping measures. The Environment Agency also receives grant in aid from DEFRA for a range of environmental work and enforcement activities.

In 2008-09 DEFRA gave Encams ("Keep Britain Tidy") £95,000, in addition to its grant, to fund a range of activities to support local authorities in tackling fly-tipping. In recent years, DEFRA has also funded a range of research projects which have to varying degrees addressed the issue of fly-tipping.

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what recent steps his Department has taken to tackle fly-tipping; and if he will make a statement; [267816]

(2) what recent guidance his Department has issued to local authorities on *(a)* prevention and *(b)* clean-up of fly-tipping. [267817]

Jane Kennedy: The Government are taking steps on a number of fronts to help local authorities and the Environment Agency tackle fly-tipping, an antisocial activity which can blight both urban and rural areas.

DEFRA's illegal waste activity action plan, as set out in the England Waste Strategy 2007, aims to reduce fly-tipping through better prevention, detection and risk-based enforcement. The main measures are:

> new powers for local authorities and the Environment Agency to instantly seize vehicles that are involved in waste crime, implementing a power established by the Clean Neighbourhoods and Environment Act 2005. These powers are scheduled to be introduced later this year and should act as an effective deterrent, as well as helping regulators to build more effective prosecutions;
>
> improving the waste carrier registration system and promoting—through more user friendly guidance—the waste duty of care so that the law around carrying waste is better understood by businesses and easier for authorities to enforce;
>
> funding of the Environment Agency's Waste Crime Innovation Programme which is developing and testing new techniques for tackling waste crime.

There are various sources of support, advice and guidance on fly-tipping available to local authorities:

> DEFRA is funding Encams ("Keep Britain Tidy") to offer bespoke advice to local authorities requiring assistance with their anti-fly-tipping strategies. Forty authorities received this assistance in 2008-09 and further funding is now in place to assist additional authorities in the coming year. This will be supported by a CD-Rom, being distributed to local authorities during April 2009, which offers authorities a single source of information on legal, detection and enforcement issues around fly-tipping, as well as best practice case studies.
>
> DEFRA also funded the Environment Agency to develop the Flycapture Enforcement training programme which aims to help local authorities to take appropriate enforcement action in response to fly-tipping incidents. Training courses, delivered by Encams and the Chartered Institute of Waste Management (CIWM), are available around the country.
>
> The fly-tipping protocol sets out the circumstances in which either a local authority or the Environment Agency deals with a particular incident and is supported by various other guidance documents linked to the Flycapture database.

Food: EU External Trade

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs which countries have tariff-free access for *(a)* some and *(b)* all of their food product exports to the EU; and in respect of what quantities tariff-free access is allowed. [264785]

Jane Kennedy *[holding answer 23 March 2009]:* There are over 2,000 agricultural tariff lines in the European Union tariff schedule, each of which has a tariff that may differ (according to various concessionary arrangements) for approximately 200 countries. To list a country by tariff line breakdown of the tariff-free concessions would involve disproportionate cost.

Food: Waste Disposal

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how much food was thrown away *(a)* in tonnes and *(b)* as a percentage of total food sales in each of the last three years. [263906]

Jane Kennedy: The Waste and Resources Action Programme (WRAP) undertook research in 2007 to quantify the amounts and types of food waste being produced in the UK.

According to The Food We Waste report, UK households throw away 6.7 million tonnes of food every year.

Combining these data with estimates of quantities of food purchases from the Expenditure and Food Survey in 2007 suggests that 31 per cent. of the 21.7 million tonnes of food we purchase—roughly a third—is thrown away. Of this, 4.1 million tonnes, or 18 per cent. of the food we purchase, could have been eaten. Food thrown away that we could have eaten excludes items such as vegetable peelings, meat carcasses and teabags.

Litter: Smoking

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect of the smoking ban on the level of tobacco-related litter on streets. [265966]

Huw Irranca-Davies: Each year, DEFRA funds ENCAMS to carry out the Local Environment Quality Survey of England. The results for the seventh survey were published in March 2009 and are available on ENCAMS website at:

www.encams.org

Smokers' materials remain by far the most prevalent item, being present on 78 per cent. of all sites visited. The survey records only the incidence—that is to say the percentage of sites—where each type of litter occurs. It does not attempt to record the volume.

It is not possible to infer what effect the smoking ban in public places has had using this figure alone, but it is worth stating that it is the minority of people who choose to drop litter on the ground—not the smoking ban itself—which is responsible for creating litter.

Powers and duties for dealing with litter are provided by part 4 of the Environmental Protection Act 1990 (EPA 1990), as amended by the Clean Neighbourhoods and Environment Act 2005 (CNEA 2005). Dropping any smoking-related litter is a littering offence under section 87 of the EPA 1990. A person found guilty of the litter offence may be fined up to level 4 on the standard scale (currently £2,500) in a magistrates court and section 88 of the EPA 1990 allows an authorised officer of a litter authority to issue fixed penalty notices as an alternative to prosecution in the range of £50 to £80 (set locally).

Livestock: Disease Control

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many cattle were slaughtered owing to irregularities with their passports in each of the last 10 years. [268427]

Jane Kennedy *[holding answer 2 April 2009]:* The data required to provide the number of cattle slaughtered specifically because of irregularities with their passports in each of the last 10 years are not held in a form that is easily accessible. As the extraction and collation of these data would require a considerable amount of work and incur an unacceptable cost an answer cannot be provided. The data recorded monitor cattle slaughtered owing to the broader category of identification irregularities.

Livestock: Waste Disposal

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many animals of each species were disposed of through the National Fallen Stock Scheme in each year since the scheme came into force; and how much was received in payments in each case in each of those years. [268142]

Jane Kennedy: The National Fallen Stock Company which runs the National Fallen Stock Scheme does not hold the information by species in the format requested. With regard to the amount of payments, the latest information for the totals spent is as follows:

£ million

	By farmers	*By Government*
November 2004 to March 2005	2.29	0.86
April 2005 to March 2006	7.92	5.95
April 2006 to March 2007	10.29	6.87
April 2007 to March 2008	13.76	2.99
April 2008 to November 2008	8.10	1.29

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to reply to the email from the hon. Member for West Worcestershire, dated 30 January 2009, on farmers producing more food. [264876]

Jane Kennedy *[holding answer 20 March 2009]:* I wrote to the hon. Member for West Worcestershire on 2 April 2009.

Moscow

Mr. Heathcoat-Amory: To ask the Secretary of State for Environment, Food and Rural Affairs how many visits were made by staff of his Department to Moscow in the financial year 2007-08. [264562]

Huw Irranca-Davies: From information held centrally DEFRA staff made one visit to Moscow in the financial year 2007-08. This visit was undertaken in accordance with the Civil Service Code and the Civil Service Management Code.

Phytophthora Ramorum

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps his Department has taken to reduce the rate of *(a)* Phytophthora ramorum and *(b)* Phytophthora kernoviae infestations in gardens. [267820]

Jane Kennedy: The Government recently announced the allocation of £25 million to support a five-year programme of work in England and Wales to manage and contain the risks of Phytophthora ramorum and Phytophthora kernoviae from spreading further.

In addition to further research and development and an education and awareness programme, we will be looking to reduce the level of disease by removing infected and susceptible plants in woodlands and the wider environment, as well as identifying and controlling any new outbreaks. Experience has shown that the eradication of Rhododendron ponticum (the main host for the diseases) is the most effective control measure to reduce disease spread in the wider environment. At a selected number of woodland sites, the clearance of all rhododendrons, whether infected or not, has proved effective and appears to have prevented further infection of trees on those sites.

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on tackling *(a)* Phytophthora ramorum and *(b)* Phytophthora kernoviae in the most recent period for which figures are available. [267821]

Jane Kennedy: In addition to DEFRA's general plant health programme which covers action against a wide range of plant pests and diseases (c. £10 million per annum), an additional £0.75 million was spent in 2008-09 for work to eradicate and control Phytophthora ramorum and Phytophthora kernoviae in England and Wales. In this same period, The Forestry Commission spent approximately £0.05 million in combating these diseases in England and Wales.

The Government recently announced the allocation of £25 million to support a five-year programme of work in England and Wales to manage and contain the risks of Phytophthora ramorum and Phytophthora kernoviae, from spreading further.

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on diseases caused by *(a)* Phytophthora ramorum and *(b)* Phytophthora kernoviae. [267822]

Jane Kennedy: A policy and science review on Phytophthora ramorum and Phytophthora kernoviae, including a public consultation, was carried out in 2008 to examine the historic and current situation and propose options for management of the diseases in the future. The consultation in England and Wales on "Future management of risks from Phytophthora ramorum and Phytophthora kernoviae" closed on 10 October 2008. A total of 41 responses were received from a range of trade organisations and associations, individual businesses, local councils, owners and managers of historic gardens and government agencies. The review concluded that an increase in the current level of activity was required to reduce the risk of significant tree death and significant impact on heathlands within England and Wales, a view supported by the majority of respondents to the consultation.

The Government recently announced the allocation of £25 million to support a five-year programme of work in England and Wales to manage and contain the risks of Phytophthora ramorum and Phytophthora kernoviae, from spreading further.

Pigs: Animal Diseases

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of levels of post-weaning mortality in pigs in each year since 1997. [269007]

Jane Kennedy: Post-weaning mortality rate data for pigs are not collected by DEFRA. Production data such as post-weaning mortality rate are collected by the British Pig Executive (BPEX) and can be obtained directly from them.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the levels of wasting syndrome found in pigs in each year since 1997. [269008]

Jane Kennedy: The occurrence of endemic diseases in the GB pig population is monitored through diagnostic submissions made to the Veterinary Laboratories Agency (England and Wales) and the Veterinary Surveillance Centres of the Scottish Agricultural College (Scotland). These results are reported in the Veterinary Investigation Surveillance Report and the quarterly Disease Surveillance reports produced by Veterinary Laboratories Agency for DEFRA. The data captured only represent results for samples/carcasses submitted to Veterinary Laboratories Agency or the Veterinary Surveillance Centres of the Scottish Agricultural College and do not represent the actual number of cases/outbreaks occurring in GB.

Post-weaning multisystemic wasting syndrome (PMWS) was first diagnosed in GB in mid-1999. The number of incidents of PMWS recorded by Veterinary Laboratories Agency and Veterinary Surveillance Centres of the Scottish Agricultural College (combined) between 2000-07 are as follows. An incident is defined as the first diagnosis in an outbreak.

	Number of incidents
2000	11
2001	164
2002	286
2003	259
2004	164
2005	104
2006	66
2007	63

Source:
Veterinary Investigation Surveillance Report 2007.

Power Stations: EU Law

Greg Clark: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 2 March 2009, *Official Report*, column 1330W, on power stations: EC law, which existing power stations decided to *(a)* operate within the emissions trading scheme under the National Emission Reduction Plan, *(b)* comply with emission limit values and *(c)* opt out by committing to limit their hours of operation. [267087]

Jane Kennedy: I am arranging for the information requested to be placed in the Library of the House.

Soil: Pollution

John Howell: To ask the Secretary of State for Environment, Food and Rural Affairs when the Environment Agency plans to publish the revised *(a)* toxicological and *(b)* soil guideline value reports for (i) free cyanide and (ii) benzo[a]pyrene scheduled for publication in December 2007. [268901]

Huw Irranca-Davies: The Environment Agency plans to publish toxicological and soil guideline value reports for cyanide and polycyclic aromatic hydrocarbons, which will include benzo(a)pyrene, by 30 June 2009.

South East Water

Mrs. Maria Miller: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to announce a decision on whether to hold an inquiry into South East Water's Water Resources Management Plan; and what criteria will inform his decision. [269273]

Huw Irranca-Davies: Water companies have recently published their statements of response to the representations received on their draft Water Resources Management Plans. The Secretary of State will consider the need for inquiries or hearings in connection with the draft plans and whether these would assist him by eliciting information necessary in his consideration of whether to direct changes to the plans before they are finalised. Each plan will be considered on its merits and individual decisions on whether to hold an inquiry or hearing will be made once the Secretary of State has considered the statements of response.

Warm Front Scheme: Bexley

Mr. Evennett: To ask the Secretary of State for Environment, Food and Rural Affairs how many boilers installed under the Warm Front scheme in Bexleyheath and Crayford constituency have required repair on *(a)* one, *(b)* two, *(c)* three and *(d)* four or more occasions. [illegible]

Joan Ruddock: I have been asked to reply.

The Warm Front scheme offers an aftercare provision with cover for parts and labour under all installed gas central heating systems for two years. The latest period for which figures are available is 1 September 2007 to 2 April 2009. The following data show system repairs (including, although not exclusively pertaining to, boiler repairs) in Bexleyheath and Crayford and England respectively:

Bexleyheath and Crayford

Total Properties Visited	96,887

Water Companies

Charles Hendry: To ask the Secretary of State for Environment, Food and Rural Affairs whether the procedures of an inquiry by his Department into a water company's Water Resources Action Plan includes an appeals procedure. [illegible]

Huw Irranca-Davies: Water companies have recently published their statements of response to the representations received on their draft Water Resources Management Plans. The Secretary of State is considering the draft plans and the statements of response in order to reach a decision on the need for hearings or inquiries. Any hearing or inquiry will be conducted by an independent Inspector who will provide advice to the Secretary of State. There is no mechanism to appeal against that advice. Any decisions by the Secretary of State as a result of his review of the plans and statements of response, or as a result of the hearings or inquiries, may be challenged through the Judicial Review Process.

WORK AND PENSIONS

Advisory Services: Debts

John McDonnell: To ask the Secretary of State for Work and Pensions what guidance his Department has provided to staff working for Jobcentre Plus on the referral of clients to receive debt advice. [illegible]

Mr. McNulty *[holding answer 12 March 2009]*: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide my hon. Friend with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking what guidance his Department has provided to staff working for Jobcentre Plus on the referral of clients to receive debt advice. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Referring customers to appropriate agencies for advice and support on debt and financial management has long been part of the service provided by Jobcentre Plus. To help our Personal Advisers with this, we have a comprehensive programme of learning designed to equip them with the range of knowledge and skills required to support all customers. This learning provides the adviser with the key skills needed to undertake effective work-focussed interviews, identify things that may be making it harder to find work and, where appropriate, signpost people to relevant sources of help.

More specifically, the "Introduction to Customer Groups" learning and development module provides guidance on how to help customers with debt problems. Currently being updated to strengthen and reinforce the help that is available to customers from Third Sector Organisations, this module is included in a range of learning routeways to ensure personal advisers and other staff are able to signpost customers to appropriate sources of help.

It is also worth mentioning that as part of a national partnership agreement, customers with debt problems are often referred to their local branch of the Citizens Advice Bureaux, which is well equipped to offer advice and guidance.

Children: Maintenance

Paul Rowen: To ask the Secretary of State for Work and Pensions how much in child support payments remained uncollected by the Child Support Agency on the latest date for which figures are available. [illegible]

Kitty Ussher: I would refer the hon. Member to the answer I gave to the hon. Member for Cardiff, Central (Jenny Willott) on 12 January 2009, *Official Report*, column 21W.

Christmas

Mr. Rob Wilson: To ask the Secretary of State for Work and Pensions whether it is his Department's policy to offer staff *(a)* additional leave entitlement for Christmas shopping and *(b)* Christmas bonus payments. [262806]

Jonathan Shaw: No, it is not.

Christmas Bonus

Mrs. May: To ask the Secretary of State for Work and Pensions how many and what proportion of Christmas bonuses were paid in *(a)* December 2008, *(b)* January 2009 and *(c)* February 2009; and how many and what proportion of such bonuses he expects to be paid in *(d)* March and *(e)* April 2009. [262344]

Ms Rosie Winterton: The standard £10 Christmas bonus was paid as normal before Christmas to all those who qualified. Information on when the additional Christmas bonus was paid is in the table.

Actual and forecast volumes for additional £60 payment

	Volume payments made/expected to be made	*Percentage of forecasted total*
December 2008	Nil	Nil
January 2009	12,216,750	79.63
February 2009	1,433,420	9.34
March 2009	1,692,590	11.03
April 2009	Nill	Nil

Notes:

1. Exceptionally there may be some clerical payments.
2. All payments figures are rounded to the nearest 10.
3. The total volume of payments to be made is 15,342,751.

Special Payment Programme Weekly Review document 4 March 2009

Departmental Pay

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of recipients of the Christmas bonus will get the additional £60 between *(a)* 1 and 15 January, *(b)* 16 and 31 January, *(c)* 1 and 15 February, *(d)* 16 and 28 February, *(e)* 1 and 15 March and *(f)* 16 and 31 March 2009; and if he will make a statement. [247209]

Ms Rosie Winterton: The answer is in the following table:

Actual and forecast volumes for additional £60 payment

2009	*Volume payments to be made*	*Percentage of forecasted total*
1 to 15 January	12,175,120	81.94
16 to 31 January	41,630	00.28
1 to 15 February	49,390	00.33
16 to 28 February	1,302,100	08.76
1 to 15 March	1,289,700	08.69
16 to 31 March	[1]0	0

[1] Exceptionally some payments may be issued clerically after 15 March 2009.

Notes:

1. All payment figures are rounded to the nearest 10.
2. As of 9 February 2009 DWP have issued 12,231,904 payments.
3. The total volume of payments forecast to be made is 14,857,929.

Source:

Special Payment Programme weekly review document 11 February 2009.

Steve Webb: To ask the Secretary of State for Work and Pensions how many and what proportion of recipients of the Christmas bonus received their additional £60 by the end of January; how many of the remaining payments he estimates will have been paid by *(a)* the end of February and *(b)* the end of March; and if he will make a statement. [259118]

Ms Rosie Winterton *[holding answer 26 February 2009]:* The answer is in the following table.

Actual and forecast volumes for additional £60 payment

	Volume payments to be made	*Percentage of forecasted total*
1 January 2009 to 31 January 2009	12,216,750	79.63
1 February 2009 to 28 February 2009	1,433,420	9.34
1 March 2009 to 31 March 2009	[1]1,692,590	11.03

[1] Some additional payments may be issued clerically during March 2009.

Notes:

1. All payment figures are rounded to the nearest 10.
2. The total volume of payments to be made is 15,342,751.

Council Tax Benefits

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions if he will estimate the expenditure required from the public purse to alter personal allowances for council tax benefit to provide that households where no individual is eligible to pay income tax receive full council tax benefit *(a)* regardless of the amount of capital held and *(b)* while maintaining the current capital limits; and if he will estimate the number of households which would pay a reduced rate of or no council tax as a result of such a change. [268899]

Kitty Ussher: The following table shows estimates of the cost and number of council tax benefit (CTB) beneficiaries of *(a)* awarding full CTB where no individual is paying income tax, and regardless of any capital held and *(b)* awarding full CTB where no individual is paying income tax and capital held is within the current capital limits.

Full council tax benefit where no one in the household pays income tax

Full CTB where no one pays income tax, depending on capital	*Number of beneficiaries*	*Cost in annually managed expenditure (£ million per year)*
No capital limit		
Working age	450,000	200
Pensioners	510,000	270
Total	950,000	470
Capital under £16,000		
Working age	350,000	80
Pensioners	460,000	200
Total	800,000	290

Notes:

1. All figures are for Great Britain.
2. Beneficiaries are rounded to the nearest 10,000 and costs are rounded to the nearest £10 million. These estimates include customers who gain and those who become entitlement to the benefit.
3. Each beneficiary represents a benefit unit, which can be a single claimant or a couple.
4. The impact is estimated using the Department's Policy Simulation Model for 2008-09, using data from the 2006-07 Family Resources Survey up-rated to 2008-09 prices, benefit rates and earnings levels, and is calibrated to latest published forecasts and policies.
5. Results are subject to sampling and reporting errors and estimation assumptions, and are therefore indicative only. No behavioural changes are assumed.

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions if he will estimate the expenditure required from the public purse to *(a)* raise to £50,000 and *(b)* abolish the upper capital limit for council tax benefit; and if he will estimate the number of households which would pay a reduced rate of or no council tax as a result of such a change. [268900]

Kitty Ussher: The information is in the following table:

Increasing and abolishing the upper capital limit in council tax benefit

Increase in upper capital limit	*Number of beneficiaries*	*Cost in annually managed expenditure (£ million per year)*
£50,000	130,000	70
No limit	150,000	80

Notes:
1. All figures are for Great Britain.
2. Beneficiaries are rounded to the nearest 10,000 and costs are rounded to the nearest £10 million. These estimates include customers who gain and those who become entitled to the benefit.
3. Each beneficiary represents a benefit unit, which can be a single claimant or a couple.
4. The impact is estimated using the Department's Policy Simulation Model for 2008-09, using data from the 2006-07 Family Resources Survey up-rated to 2008-09 prices, benefit rates and earnings levels, and is calibrated to latest published forecasts and policies.
5. Results are subject to sampling and reporting errors and estimation assumptions, and are therefore indicative only. No behavioural changes are assumed.

Crisis Loans

Mr. Harper: To ask the Secretary of State for Work and Pensions if he will take steps to ensure that crisis loans customers can obtain a face-to-face assessment at their local Jobcentre with crisis loans officers; and if he will make a statement. [267899]

Mr. McNulty *[holding answer 31 March 2009]:* The administration of Jobcentre Plus is a matter for the acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to respond to your question asking the Secretary of State for Work and Pensions, if he will take steps to ensure that crisis loans customers can obtain a face-to-face assessment at their local Jobcentre with crisis loans officers. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Our preferred method of accessing Crisis Loans is by the telephone and this process works well for the majority of our customers as the service is more accessible without the need to visit a Jobcentre.

However, vulnerable customers who cannot use the telephone to access Crisis Loans do have the option of making an appointment for a face to face interview at their local Jobcentre. Processes are in place for the Jobcentre to immediately forward the application to a Crisis Loan Decision Maker to make the decision on the application and call the customer back with the outcome.

Mr. Harper: To ask the Secretary of State for Work and Pensions how many crisis loans officers there are operating the telephone helpline service for customers; and if he will make a statement. [267900]

Mr. McNulty *[holding answer 31 March 2009]:* The administration of Jobcentre Plus is a matter for the acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to respond to your question on how many crisis loans officers there are operating the telephone helpline service for customers. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

When the service was set up initially Jobcentre Plus had 800 Crisis Loan Decision Makers answering telephones and making decisions in the 20 Crisis Loan Benefit Delivery Centres. Due to an unprecedented rise in Crisis Loan applications which has more than doubled since October 2006, taking us to an average of 220,000 applications per month, plans were put in place to deploy an extra 700 staff from our Contact Centre Directorate to take Crisis Loan calls. The conversion of these 700 Contact Centre staff to offer the full telephone application and decision making process for Crisis Loans is due for completion by April 2009.

This year we have seen further increases in applications to 275,000 for January and 272,000 for February 2009. Therefore, a decision has been made to increase our staff over the next year by an extra 300. This will take us to 1,800 Decision Makers overall.

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate he has made of *(a)* the number of calls made by customers for crisis loans which went through to a recorded message, *(b)* the average number of calls a customer made before being connected to speak directly to a crisis loans officer and *(c)* the number of complaints made by crisis loans customers on the inability to be connected to talk to a crisis loans officer via the telephone system in the latest period for which information is available. [267901]

Mr. McNulty *[holding answer 31 March 2009]:* The administration of Jobcentre Plus is a matter for the acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to answer your question on what estimate he has made of *(a)* the number of calls made by customers for crisis loans which went through to a recorded message, *(b)* the average number of calls a customer made before being connected to speak directly to a crisis loans officer and *(c)* the number of complaints made by crisis loans customers on the inability to be connected to talk to a crisis loans officer via the telephone system in the latest period for which information is available. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

We do not have the information requested in this format.

However, latest information available for February 2009 shows we made 272,000 Crisis Loan decisions and the majority of these would have been made over the telephone where all customers would have gone through the Interactive Voice Response messaging service before the call was answered. Due to high demand, it is unfortunately taking longer than usual to get through to our Crisis Loans agents but I have no evidence that all customers wanting a Crisis Loan do not eventually get through to make their application.

I have received 49 complaints to me as Chief Executive about Crisis Loans in general from March 2008 to February 2009 compared to 2,774,032 Crisis Loan applications for the same period.

Departmental Buildings

Greg Clark: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of the *(a)* display energy certificates and *(b)* advisory reports for public buildings issued in respect of each property occupied by (i) his Department and (ii) its agencies. [256053]

Jonathan Shaw: Department for Work and Pensions Display Energy Certificates are in place in 375 buildings across England and Wales and in 45 buildings across Scotland. As disproportionate costs would be incurred to provide individual copies of the certificate and the accompanying advisory report, my officials are arranging for electronic copies of these documents to be prepared and placed in the Library.

Departmental Data Protection

Mr. Harper: To ask the Secretary of State for Work and Pensions what *(a)* organisational process and *(b)* staff resources his Department uses to provide assurance on IT system security. [268938]

Jonathan Shaw: The Department's Information Security Committee (a sub-committee of the Department's Executive Team) is responsible for information security issues across the Department. Operational responsibility for security is assigned to respective chief executives and heads of businesses within the Department. Other senior staff in the Department's agencies have specific responsibilities for promoting data and IT system security and report to their respective chief executives.

Following the publication of the Cabinet Office's Review of Data Handling Procedures in Government, specific senior civil servants across the Department have been designated as Information Asset Owners who provide assurance to the Department's Senior Information Risk Owner that data assets are properly protected.

The Department also deploys a range of internal and external professional security resources and suppliers to both deliver and assure its IT Infrastructure and systems.

The Department is compliant with the security policies contained in the Government Security Policy Framework including those for information security, assurance and the encryption of data. Its arrangements to ensure compliance with these measures comprise a system of self-assessment, accreditation, assurance reporting, audit and review.

The Department does not publish details of the resources used to provide assurance over IT system security, staff or otherwise, as this could potentially threaten the security of information.

Departmental Internet

Mr. Hoban: To ask the Secretary of State for Work and Pensions pursuant to the Answer to the hon. Member for Welwyn, Hatfield of 9 February 2009, *Official Report*, columns 1636-38W, on the departmental internet, how many hits each of the websites maintained by his Department received in each of the last 12 months. [262779]

Jonathan Shaw: The tables outline the page impressions for each of the websites maintained by the Department for Work and Pensions.

Table A: Websites operated by the Department for Work and Pensions where the Department is responsible for the content

Andrew Selous: To ask the Secretary of State for Work and Pensions how many *(a)* staff of and *(b)* contractors for his Department based in London are paid less than the London living wage. [263561]

Mr. McNulty *[holding answer 13 March 2009]*: The information is as follows.

(a) Full-time London based DWP employees have a 36 hour working week whereas the London Living Wage is calculated on the basis of a 38.5 hour working week. DWP employees based in London are paid on the relevant DWP inner or outer London payscale according to their grade and location. All of our directly employed London based employees are paid at a level above that of the London Living Wage when calculated on the basis of either a 36 or a 38.5 hour working week.

(b) DWP does not contractually require its suppliers to pay their employees at levels above the London Living Wage. It may be that within individual supply chains some employees are paid below the London Living Wage. However, it would be at a disproportionate cost to collect and collate the information requested.

Departmental Recruitment

Justine Greening: To ask the Secretary of State for Work and Pensions pursuant to the answer of 24 February 2009, *Official Report,* column 626W, on departmental recruitment, what estimate he has made of the annual salary cost of the new *(a)* permanent, *(b)* temporary and *(c)* agency staff recruited in each year since 2005-06. [264242]

Jonathan Shaw: The overall pay bill cost for permanent and temporary staff employed by the Department in each year from 2005-06 to 2007-08 is published in the departmental report 2008. We are unable to identify the costs of newly recruited staff or agency staff without incurring disproportionate cost.

Departmental Training

Mr. Hurd: To ask the Secretary of State for Work and Pensions what his Department's policy is on the practice of holding departmental away days outside the Department's buildings. [268536]

Jonathan Shaw: The Department's policy on away days, management conferences and seminars is that they should take place in venues which provide value for money taking account of the nature of the event.

Where the hire of rooms or the use of hotel facilities is considered appropriate, this should be judged against the availability of reasonable alternatives, the location of the facilities in relation to the home location of the majority of attendees, and the associated travel costs.

Any expenditure is incurred in accordance with the principles of managing public money and the Treasury Handbook on Regularity and Propriety.

Disability Living Allowance

Joan Walley: To ask the Secretary of State for Work and Pensions how many and what proportion of applications for disability living allowance were returned because the applicant was aged over 65 in the last 12 months. [268200]

Jonathan Shaw: Applications for disability living allowance from people aged over 65 years are not returned to the customer but are treated as a claim for attendance allowance.

Drugs: Rehabilitation

Paul Rowen: To ask the Secretary of State for Work and Pensions how many claimants in receipt of jobseeker's allowance have entered voluntary drug rehabilitation programmes in each of the last five years. [264368]

Mr. McNulty *[holding answer 18 March 2009]:* We do not collect information on the medical conditions of jobseeker's allowance claimants.

Economic and Monetary Union

Mr. Harper: To ask the Secretary of State for Work and Pensions what meetings representatives of his Department have had on the UK's potential membership of the euro in the last six months; and how many staff in his Department are engaged in work directly related to prospective membership of the euro. [248120]

Mr. McNulty: There are six staff on the Department's Euro Steering Committee, which commissions work elsewhere within the Department as necessary to maintain the Department's state of readiness, in accordance with Government policy. All members of the Steering Committee undertake this work alongside their other duties. In the last six months there have been two internal meetings of officials, and one meeting with HM Treasury, on this subject

The current focus of euro preparations work across the Department is on the governance arrangements for new IT developments, to ensure that any new systems incorporate an appropriate level of euro compatibility. Due to the nature of this work, we are not able to identify the number of people engaged in the euro-related aspect of these arrangements.

Employment and Support Allowance

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how many and what proportion of *(a)* new and *(b)* existing employment and support allowance claimants will participate in progression to work pathfinders; [255114]

(2) how many and what proportion of *(a)* new and *(b)* existing employment and support allowance claimants will be covered by (i) progression to work pathfinders, (ii) invest to save pathfinders and (iii) personalised employment programme pilots; [255118]

(3) how many and what proportion of existing incapacity benefits claimants will be covered by the invest to save pathfinders. [255519]

Mr. McNulty: One of the core recommendations from the Gregg review of conditionality was the creation of a new 'Progression to Work' group. Gregg recommends that this new approach should be for those people who may not be ready to work immediately, but who with the right mix of support and encouragement could get back into employment. This model would apply to employment and support allowance claimants (other than those in the employment and support allowance support group) and lone parents, and partners of benefit recipients, with children aged one to six. The Progression to Work pathfinders have been created as a result of this recommendation.

The claimants involved in the Progression to Work group will be required to actively engage with their adviser on an ongoing basis to consider, discuss and agree an action plan comprising activities they think will improve their prospects of moving back into work. They must then undertake these agreed activities as part of their own journey towards employment following directions from advisers where these are strictly necessary. This will be underpinned with recourse to sanctions for those failing to engage with support without good cause. However, although still in the Progression to Work group, lone parents and partners of benefit recipients, with children aged one and two will be encouraged, rather than required, to undertake work related activity and will not be sanctioned for refusing to undertake work related activity.

This pathfinder will cover approximately 10 to 15 per cent. of the new employment and support allowance claimants and parents with a youngest child aged between one and less than seven nationally. Based on current inflows, this equates to roughly 65,000 employment and support allowance claimants, 60,000 lone parents and 10,000 partners of benefit recipients each year. These pathfinders are anticipated to begin in late 2010 and last for two years. They are likely to be across six districts and delivery will be a mixture of provider led and Jobcentre Plus led.

The Progression to Work pathfinders will not cover any existing employment and support allowance claimants.

The Invest to Save pathfinders will not cover any new employment and support allowance claimants; it is planned that the pathfinders will cover existing incapacity benefits customers only, following migration to employment and support allowance. Based on published caseload projections, we estimate that approximately 17 per cent. of existing customers will be covered by these pathfinders. Estimates will be refined as part of the tendering process for the pathfinders and will be published at the Pre-Qualification-Questionnaire stage.

The Invest to Save pathfinders will not cover any existing employment and support allowance claimants; the pathfinders will cover existing incapacity benefits customers only.

We anticipate the Personalised Employment Programme pilots will, subject to the passage of legislation, cover approximately 6 per cent. of new employment and support allowance claimants. This equates to roughly

35,000 new employment and support allowance claimants annually, based on current inflows.

We anticipate that Personalised Employment Programme pilots will not cover any existing employment and support allowance claimants.

European Social Fund

Mr. Sanders: To ask the Secretary of State for Work and Pensions what projects in each Government region are planned to receive funding from the European Social Fund in the period 2007 to 2013; and how much funding each such project will receive. [264512]

Mr. McNulty: Regional lists of projects which will receive funding from the 2007-13 European Social Fund programme for England are available on the European Social Fund website at

www.esf.gov.uk/esf_in_action/esf_projects.asp.

The lists show the amount of funding each project will receive.

Housing Benefit

Jeremy Corbyn: To ask the Secretary of State for Work and Pensions when he expects to publish proposals for changes to housing benefit. [269422]

Kitty Ussher: In the Welfare Reform White Paper, 'Raising expectations and increasing support: reforming welfare for the future' (Cm 7506) published in December 2008, we announced our intention to launch a public consultation on housing benefit reform early in 2009. The timing of this consultation has not been finalised.

Incapacity Benefit: Voluntary Work

Lynne Jones: To ask the Secretary of State for Work and Pensions how many reviews of entitlement to incapacity benefit have been triggered as a result of claimants undertaking voluntary work. [263601]

Jonathan Shaw: The information is not collated centrally.

Incentives

Mrs. May: To ask the Secretary of State for Work and Pensions how long he expects the employers' golden hello incentive scheme to operate. [262498]

Mr. McNulty: The recruitment subsidy is part of the £0.5 billion package of jobs measures announced at the 12 January jobs summit. The package will be over two years from April 2009, subject to available funding.

Income Support

Mrs. May: To ask the Secretary of State for Work and Pensions how many and what proportion of claims for income support took *(a)* fewer than five days, *(b)* between five and 10 days, *(c)* between 10 and 20 days, *(d)* between 20 and 30 days, *(e)* between 30 and 50 days, *(f)* between 50 and 100 days and *(g)* over 100 days to process in each of the last (i) 12 months and (ii) five years for which information is available. [266127]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to reply to your question asking how many and what proportion of claims for Income Support took (a) fewer than five days, (b) between five and 10 days, (c) between 10 and 20 days, (d) between 20 and 30 days, (e) between 30 and 50 days, (f) between 50 and 100 days and (g) over 100 days to process in each of the last (i) 12 months and (ii) five years for which information is available. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

In terms of volumes and percentages our benefit processing system records the number of Income Support claims processed within 1-5 days, 6-13 days and 13+ days. The data provided below regarding the volumes is displayed cumulatively for the first two time band sets—up to 5 days and then up to 13 days. The 13+ day column then shows the remaining total of claims processed beyond this time period. The percentage figures are not cumulative and are subject to rounding.

This data has been available since 2006. I have provided you with the yearly total for 2006/07 and 2007/08. I have also provided you with the in-month data for the last 12 months. The available information is in the attached annex.

Income support claims

Month	*Income support processed in 5 days*	*Income support processed in 6-13 days*	*Income support processed in 13+ days*	*Percentage 1-5 days*	*Percentage 6-13 days*	*Percentage 13 days +*
2008						
March	33,239	54,079	10,129	51.8	32.5	15.8

Jobcentre Plus

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to his contribution of 10 March 2009, *Official Report*, column 176, on Woolworths, how many people made redundant from Woolworths as a result of its closure have found work through Jobcentre Plus. [263741]

Mr. McNulty *[holding answer 16 March 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking, pursuant to his contribution of 10 March 2009, *Official Report*, column 176 on Woolworths how many people made redundant from Woolworths as a result of its closure have found work through Jobcentre Plus. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

We do not have comprehensive information on the numbers of people made redundant from Woolworths who have found work through Jobcentre Plus as we do not record job outcomes achieved for former employees of particular employers: to do so would be prohibitively expensive. We do however know that large numbers of people who worked in Woolworths have found new work with Jobcentre Plus' help. In the retail sector, the skills, experience and knowledge of former Woolworths' employees have proven attractive to new employers.

Our support for Woolworths' staff began with deployment of our Rapid Response Service, which meant for example that staff in almost all of Woolworths' stores were offered support before they closed. We issued over 8,000 packs to enable people to make claims for benefit, and in many instances provided on-site advice on benefits. Our advice and support on jobsearch has also been available to Woolworths' employees, both in the run up to store closure and afterwards.

Mr. Paice: To ask the Secretary of State for Work and Pensions how many jobcentres there were in *(a)* rural and *(b)* urban areas in England in each year since 1997. [264573]

Mr. McNulty: The information requested is not available. Jobcentres are not categorised as constituting part of an urban conurbation or being sited within a rural location.

Mr. Cox: To ask the Secretary of State for Work and Pensions if he will assess the merits of reopening Jobcentre Plus branches in market towns more than 15 miles from the nearest branch. [267585]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. and learned Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking if he will consider the merits of reopening Jobcentre Plus branches in market towns more than 15 miles from the nearest branch. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus Customer Service Directors constantly review their service delivery plans to ensure optimum provision of service for all customers, for every Jobcentre Plus District. This is especially important in the context of the current economic conditions and welfare reform changes planned for the next two to three years.

In addition to our network of modernised Jobcentres we make our services accessible to customers by providing a range of support through outreach, often delivering advisory and other support on partners' premises. That is important in locations where maintaining a Jobcentre could not be justified. Typically such services can be delivered in partnership with Children's Centres or on Local Authority premises or in conjunction with one of our Welfare to Work Providers.

The great majority of our services (in common with most large, modern organisations) are now also delivered through the telephone and internet. For example, to give customers more convenient access, we have around half a million vacancies on-line at any time (our website receives close to one million job searches every working day), and new claims to benefit are predominantly taken by telephone with some taken on-line.

For these reasons, we have no plans to reopen Jobcentre Plus offices in the way you suggest, but will continue to explore realistic ways of delivering services that meet the needs of our customers.

Jobcentre Plus: Closures

Bob Spink: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus offices *(a)* have closed in the last 12 months and *(b)* are scheduled for closure; what the reason for closure is in each case; and if he will make a statement. [266592]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many Jobcentre Plus offices (a) have closed in the last 12 months and (b) are scheduled for closure; what the reason for closure is in each case. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

54 Jobcentre Plus offices were closed during 2008 that were previously open to the public. During the summer of 2008 every Jobcentre Plus district was asked to begin a review of their service delivery plans, taking account of current economic conditions and future changes. That initial review led to a decision, announced before Christmas, to suspend the planned closure of 25 Jobcentres. A further three small sites in London were closed during March 2009. These had been announced last summer prior to the decision to suspend future closures. No further Jobcentre closures are planned at the present time.

The great majority of our services (in common with most large, modern organisations) are now delivered through the telephone and internet. For example, to give customers more convenient access, we have around half a million vacancies on-line at any time (our website receives close to one million job searches every working day), and new claims to benefit are predominantly taken by telephone with some taken on-line. This has brought our customer facing services together in a more coherent and integrated network and I believe Jobcentre Plus is well-placed to respond to the full range of economic conditions.

I have asked the Customer Service Directors in our Regions to keep their plans under review so that we continue to respond effectively to customer demand.

Jobcentre Plus: Compensation

Justine Greening: To ask the Secretary of State for Work and Pensions how many compensation payments, and of what total value, were paid to Jobcentre Plus customers in the form of *(a)* payments to restore customers to their original financial position and *(b)* consolatory payments (i) in each year from 2002 to 2009 and (ii) in each of the last 24 months, broken down by (A) region and (B) Jobcentre Plus district. [264271]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves to Justine Greening

The Secretary of State has asked me to reply to your question asking how many compensation payments, and of what total value, were paid to Jobcentre Plus customers in the form of (a) payments to restore customers to their original financial position and (b) consolatory payments (i) in each year from 2002 to 2009 and (ii) in each of the last 24 months, broken down by (A) region and (B) Jobcentre Plus district. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Payments to restore customers to their original financial position are shown in the first table below. This information is not available before 2003. Details of consolatory payments made by Jobcentre Plus are shown in the second table. These payments are known as Special Payments. In both cases, the information requested is not available broken down by month, region or Jobcentre Plus district and could only be obtained at disproportionate cost.

Payments to restore customers to their original financial position

	Number of payments authorised	*Net amount authorised (£)*
2003-04	1,126	258,937.03
2004-05	2,193	220,033.04
2005-06	1,801	206,512.10
2006-07	1,679	235,189.33
2007-08	1,007	145,177.60
2008-09 (to February 2009)	1,339	173,197.32

Special Payments (consolatory payments)

	Number of payments authorised	*Net amount authorised (£)*
2002-03	932	90,315.67
2003-04	998	96,360.43
2004-05	1,298	125,654.88
2005-06	1,265	108,520.49
2006-07	1,389	113,316.75
2007-08	2,247	155,222.73
2008-09 (to February 2009)	932	90,315.67

Returns from Regional Jobcentre Plus special payments teams.

Jobcentre Plus: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Work and Pensions how many registered unemployed people in *(a)* Cumbria and *(b)* Copeland constituency Jobcentre Plus has assisted in finding work in each of the last five years. [263797]

Mr. McNulty: The information is not available.

Jobcentre Plus: Hertfordshire

Mike Penning: To ask the Secretary of State for Work and Pensions what estimate he has made of the level of sickness absence attributable to work-related stress among staff in jobcentres in *(a)* Hemel Hempstead and *(b)* Hertfordshire in the latest period for which figures are available; and what assessment he has made of the effect of such levels of absence on the delivery of jobcentre services. [265805]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking what estimate he has made of the level of sickness absence attributable to work-related stress among staff in jobcentres in *(a)* Hemel Hempstead and *(b)* Hertfordshire in the latest period for which figures are available; and what assessment he has made of the effect of such levels of absence on the delivery of jobcentre services. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus do not collect absence data specific to work related stress, as the causes of stress are complex and difficult to attribute to a single cause. We do, however, collect detailed data on the causes of sickness absence, including absences attributed to mental health problems, and through close monitoring are able to identify problem areas.

Jobcentre Plus is very aware of the negative impact of sickness absence on customer service and is committed to improving performance in this area. Indeed, our strategies are delivering considerable success, with the latest data confirming the improving trend we have seen over the last 12 months. We remain committed to securing further improvements.

Stress management and prevention are fundamental aspects of this approach, and we have a number of tools to support managers and staff achieve these objectives. These include risk assessment policies, developed by our psychologists, in consultation with the Health and Safety Executive, to identify working practices that might create pressure and to address stress experienced by individual employees regardless of the cause. These are supplemented by comprehensive lifestyle guidance for all staff on how to reduce personal stress levels.

Stress prevention is integral to wellbeing products available to all staff. For example, our people have 24-hour access to professional stress counsellors and to debt/legal advice free of charge. We also help managers to support their staff by providing them with access to medical advice provided by occupational health doctors and nurses.

In addition, we are embarking upon a major health and wellbeing programme across all of our sites. The programme provides staff with a wealth of information and guidance to support healthier lifestyles, gives them access to a confidential on-line health and wellbeing assessment and delivers targeted solutions to support the individual. The programme also provides managers at our Jobcentres with comprehensive information about the potential health risks to their staff, ensuring specific preventative action is taken to address the issues.

Mike Penning: To ask the Secretary of State for Work and Pensions how many personal advisers were employed in job centres in *(a)* Hemel Hempstead and *(b)* Hertfordshire in each of the last five years. [265808]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many Personal Advisers were employed in Jobcentres in Hemel Hempstead and Hertfordshire in each of the last five years. This is something that falls within the responsibilities delegated to me as acting Chief Executive of Jobcentre Plus.

The information is in the following table.

Number of personal advisers in Jobcentres in Hemel Hempstead and Hertfordshire (full time equivalents)

Years	*Hemel Hempstead Jobcentre*	*All Jobcentres in Hertfordshire including Hemel Hempstead*
2004-05	5.50	29.72
2005-06	9.51	88.27
2006-07	12.23	82.16
2007-08	11.68	82.65
2008-09	17.07	102.67

Source:
Jobcentre Plus Activity Based Management System

At the beginning of 2005-06 Jobcentre Plus implemented a more robust system that is designed to enable more accurate adviser activity reporting. At that time, as part of our Welfare to Work strategy, Jobcentre Plus expanded the Personal Adviser role to include specialist advisers for specific client groups, for example lone parents and customers aged over 50. This change was to improve the help it provides to customers who face additional barriers in returning to employment.

Jobcentre Plus: Manpower

Steve Webb: To ask the Secretary of State for Work and Pensions how many personal advisers working in Jobcentre Plus are graded at *(a)* executive officer and *(b)* higher executive officer level; and what the pay scales for each of those grades is. [262004]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many personal advisers working in Jobcentre Plus are graded at (a) executive officer and (b) higher executive officer; and what the pay scales for those grades are. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Personal Advisers in Jobcentre Plus are all graded at Band C which is equivalent to Executive Officer level. There are currently over 9,700 Personal Adviser full time equivalents in Jobcentre Plus. Personal Advisers are managed by Advisory Services Managers who are graded at Band D, which is equivalent to Higher Executive Officer level and there are currently over 900 full time equivalent people in this role.

The pay scales for Personal Advisers are those for EO/Band C and are as follows:

Pay scales for personal advisers

£

	National	*Inner London*	*Outer London*	*Specified locations*
Minimum	19,650	23,240	21,910	21,620
Maximum	23,990	27,850	26,680	26,210

The pay scales for Advisory services managers are those for HEO/Band D and are as follows:

Pay scales for advisory services managers

£

	National	*Inner London*	*Outer London*	*Specified locations*
Minimum	24,410	27,970	26,800	26,280
Maximum	29,500	33,190	32,020	31,550

Note:
Specified locations pay zones are those where recruitment difficulties historically have led to an increase in local salary scales. Generally these apply across much of the South East, outside the London pay zones.

Mr. Jamie Reed: To ask the Secretary of State for Work and Pensions how many personal advisers were employed in jobcentres in *(a)* Cumbria and *(b)* Copeland constituency in each of the last five years. [263791]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many personal advisers were employed in jobcentres in (a) Cumbria and (b) Copeland constituency in each of the last 5 years. This is something that falls within my responsibilities as Acting Chief Executive of Jobcentre Plus.

The information is in the following table:

Number of personal advisers employed in jobcentres in Copeland and Cumbria in the last five years

Year ending:	*Copeland*	*Cumbria*
March 2005 (see note 2)	15	87
March 2006	11	79
March 2007	12	74
March 2008	15	77
March 2009	13	72

Notes:
1. The Copeland area includes Jobcentres in Cleator Moor and Whitehaven.
2. Process changes between 2004-05 and the following years mean that this data is not comparable with later years.
Source:
Jobcentre Plus

We are closely managing our capacity to respond to the rising business volumes we are experiencing. The number of Personal Advisers in Cumbria will therefore be increasing in the coming months. Our planning for this increase is yet to be finalised and I know that Steve Johnson, District Manager for Jobcentre Plus in Cumbria and Lancashire, would be happy to discuss this with you at the meeting you have scheduled with him on 5 June.

Jobcentre Plus: Pay

Justine Greening: To ask the Secretary of State for Work and Pensions what the salary cost was of *(a)* permanent, *(b)* temporary and *(c)* agency staff employed in (i) benefit delivery centres, (ii) customer-facing jobcentres and (iii) contact centres operated by Jobcentre Plus in each (A) region and (B) Jobcentre

Plus district (1) in each year since 2002 and (2) in each of the last 24 months. [264263]

Mr. McNulty: The available information has been placed in the Library.

Jobcentre Plus: Sick Leave

Mr. Jamie Reed: To ask the Secretary of State for Work and Pensions what assessment he has made of levels of sickness absence attributable to work-related stress of staff in jobcentres in *(a)* Cumbria and *(b)* Copeland constituency in the last period for which figures are available; and what assessment he has made of the effect of such levels of absence on the delivery of jobcentre services. [263794]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking what assessment has been made of levels of sickness absence attributable to work-related stress in jobcentres in Cumbria and Copeland constituencies, and what assessment he has made of the effect of such levels of absence on the delivery of jobcentre services. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Pus do not collect absence data specific to work related stress, as the causes of stress are complex and difficult to attribute to a single cause. We do, however, collect detailed data on the causes of sickness absence, including absences attributed to mental health problems, and through close monitoring are able to identify problem areas.

Jobcentre Plus is very aware of the negative impact of sickness absence on customer service and is committed to improving performance in this area. Indeed, our strategies are delivering considerable success, with the latest data confirming the improving trend we have seen over the last 12 months. We remain committed to securing further improvements.

Stress management and prevention are fundamental aspects of this approach, and we have a number of tools to support managers and staff achieve these objectives. These include risk assessment policies, developed by our psychologists, in consultation with the Health and Safety Executive, to identify working practices that might create pressure and to address stress experienced by individual employees regardless of the cause. These are supplemented by comprehensive lifestyle guidance for all staff on how to reduce personal stress levels.

Stress prevention is integral to wellbeing products available to all staff. For example, our people have 24-hour access to professional stress counsellors and to debt/legal advice free of charge. We also help managers to support their staff by providing them with access to medical advice provided by occupational health doctors and nurses.

In addition, we are embarking upon a major health and wellbeing programme across all of our sites. The programme provides staff with a wealth of information and guidance to support healthier lifestyles, gives them access to a confidential on-line health and wellbeing assessment and delivers targeted solutions to support the individual. The programme also provides managers at our Jobcentres with comprehensive information about the potential health risks to their staff, ensuring specific preventative action is taken to address the issues.

Jobcentre Plus: Standards

Andrew Selous: To ask the Secretary of State for Work and Pensions (1) what the latest customer satisfaction levels are for Jobcentre Plus customers; how those levels were measured; and if he will make a statement; [262960]

(2) what the latest satisfaction levels were for social fund customers who have received crisis loans, budgeting loans or community care grants; how those levels were measured; and if he will make a statement. [262963]

Mr. McNulty *[holding answer 12 March 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking what the latest customer satisfaction levels are for Jobcentre Plus customers; how those levels were measured; and what the latest satisfaction levels were for social fund customers who have received crisis loans budgeting loans or community care grants; and how those levels were measured. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The most recent Jobcentre Plus Customer Satisfaction Survey took place in 2007 and found that 80 per cent. of customers were satisfied with the standard of service provided by Jobcentre Plus. Customers on Income Support were the most satisfied (84 per cent.), followed by Incapacity Benefit customers (80 per cent.) and Jobseeker's Allowance customers (74 per cent.).

The Survey was conducted by telephone between June and August 2007 with over 4,000 Jobseeker's Allowance, Income Support and Incapacity Benefit customers, although alternative completion methods were available to customers. The Survey was carried out independently by the Policy Research Institute of Leeds Metropolitan University. The next Jobcentre Plus Customer Satisfaction Survey is planned to be conducted in Summer 2009.

To measure customer satisfaction, customers were asked how satisfied or dissatisfied they were with all of the services provided by Jobcentre Plus. Satisfaction was measured as the percentage of customers who said they were either fairly or very satisfied with the services provided.

Jobcentre Plus does not measure customer satisfaction levels separately for Social Fund customers who have received Crisis Loans, Budgeting Loans or Community Care Grants. Customers who claim Social Fund may have been interviewed as part of the 2007 Jobcentre Plus Customer Satisfaction Survey, but their responses cannot be disaggregated.

Jobcentre Plus has a Customer Service Target which measures how well the business delivers its services to customers against a set of standards. Although the Customer Service Target does not measure customer satisfaction, it does reflect the three main ways in which Jobcentre Plus customers access Jobcentre Plus services—in person, by telephone and electronically. The overall national target is to achieve an overall 86 per cent. rating for standards of:

timeliness;

professionalism; and

information accuracy and comprehensiveness.

Performance on the Customer Service Target for the current year to date is 85.8 per cent.

Jobseeker's Allowance

Mr. Clappison: To ask the Secretary of State for Work and Pensions with reference to the answer of 26 November 2008, *Official Report*, column 1995W, on jobseeker's allowance, how many claimants were paid UK contribution-based jobseeker's allowance by the Employment Service in each EU member state in each of the last five years; and how much was spent on such payments to claimants in each EU member state. [254175]

Mr. McNulty: The information requested is not available.

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how many and what percentage of claimants of jobseeker's allowance have been excused from meeting jobseeker's allowance rules in each month of the last two years for which information is available; [261014]

(2) how many and what percentage of claimants of jobseeker's allowance have been excused from meeting jobseeker's allowance rules in each month of the last two years for which information is available; [261018]

(3) how many and what percentage of claimants of jobseeker's allowance have been excused from meeting jobseeker's allowance rules in each year since 1997 for which information is available. [261019]

Mr. McNulty: The information requested is not available. There is no policy in place which allows jobseekers to be excused from meeting jobseeker's allowance rules although different rules can apply in different circumstances.

Jenny Willott: To ask the Secretary of State for Work and Pensions how many people who began to claim jobseeker's allowance in each month between October 2005 and September 2008 claimed for a period of *(a)* less than three months and *(b)* between three and six months. [262571]

Mr. McNulty: Figures are available broken down by quarter. The available information is in the table.

Number of jobseeker's allowance claimants by each quarter, by duration of claim

	Unknown duration	*0 to3 months*	*3 to 6 months*	*Over 6 months*
November 2005	4,800	95,800	119,800	142,600
February 2006	4,800	113,900	117,300	125,700
May 2006	5,300	94,800	108,500	109,000
August 2006	4,700	123,400	107,600	118,000
November 2006	6,700	104,600	126,800	120,300
February 2007	13,600	124,100	120,300	92,300
May 2007	19,000	101,500	103,900	71,000
August 2007	27,100	120,100	74,100	70,200
November 2007	n/a	n/a	n/a	n/a
February 2008	87,400	114,800	113,100	26,000
May 2008	167,500	111,300	50,400	n/a
August 2008	285,700	19,100	n/a	n/a

n/a = Not available

Notes:

1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.
2. Figures for November 2007 are not available due to jobseeker's allowance data for that quarter not being received by IFD.
3. Figures for August 2008 will be revised when the new quarter's data are released.
4. Data shown are quarterly due to the frequency of the 5 per cent. data.
5. Caution should exercised when looking at the August 2008 quarter as this maybe deficient due to a proportion of claims being received late. The best statistics on benefits are now derived from 100 per cent. data sources. However, the 5 per cent. sample data still provide some detail not yet available from the 100 per cent. data sources. Figures are subject to a high degree of sampling error and should only be used as a guide.

Department for Work and Pensions, Information Directorate (IFD), 5 per cent. sample.

Dr. Kumar: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people claiming jobseeker's allowance in *(a)* the UK, *(b)* England and *(c)* Middlesbrough South and East Cleveland constituency in 2009-10. [262928]

Mr. McNulty: The information requested is not available.

While we do not predict future levels of unemployment, we are planning for the impact of higher levels of jobseeker's allowance claims in the coming months.

Paul Rowen: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of jobseeker's allowance claimants identified as having a drug addiction in each of the last five years. [264369]

Mr. McNulty: We do not collect information on the medical conditions of jobseeker's allowance claimants.

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many people claiming jobseeker's allowance are above the age of 50. [267269]

Mr. McNulty: As at February 2009, there are 216,690 people claiming jobseeker's allowance in Great Britain aged 50 and over.

Notes:

1. Number of claimants rounded to nearest five.

2. Data is published at: https://www.nomisweb.co.uk

3. Figures exclude clerical cases.

Source:

100 per cent. count of claimants of unemployment-related benefits, Jobcentre Plus computer systems (computer held cases only).

Mr. Gerrard: To ask the Secretary of State for Work and Pensions what the average time between submission of a claim for jobseeker's allowance and the claimant receiving the first jobseeker's allowance payment was in the last period for which figures are available. [267700]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what the average time between submission of a claim for Jobseeker's Allowance (JSA) being submitted and the claimant receiving the first Jobseeker's Allowance payment was in the last period for which figures are available. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The measurement of performance we use for JSA is known as the Actual Average Clearance Time (AACT). This is a calculation derived from an average of all the cases processed on our benefit processing system against the time each of those cases has taken to be processed. For JSA the two dates used to calculate this average are from the initial date of contact by the customer (i.e. their call to one of our Contact Centres) to the date a decision is made on their claim and a letter of eligibility is issued to them.

We cannot measure when the customer actually receives their first payment. The payment will be issued, if the customer is eligible, on the date a letter is issued. Monies will become available to the customer once they have passed through the banking clearance system for the relevant bank/building society or the Post Office Card Account, or when the postal system delivers a cheque payment for the customer to cash.

The AACT for JSA currently stands at 10.5 days (in month at February 2009) and 10.2 days (year to date). This is within the target of 11.5 days.

Jobseeker's Allowance: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Work and Pensions what the average length of a jobseeker's allowance claim by a person registered as unemployed in *(a)* Cumbria and *(b)* Copeland constituency was in each of the last five years. [263792]

Mr. McNulty: The information requested is shown in the following table.

The median duration of Jobseeker's Allowance completed claims in the parliamentary constituency of Copeland and the County of Cumbria, for the last five years.

	Copeland		*Cumbria*	
	Number	*Median*	*Number*	*Median*
March 2004 - February 2005 (inclusive)	3,525	10.1	18,500	8.8
March 2005 - February 2006 (inclusive)	2,990	10.7	16,795	9.0
March 2006 - February 2007 (inclusive)	3,010	12.2	17,205	10.1
March 2007 - February 2008 (inclusive)	3,180	10.5	17,470	9.3
March 2008 - February 2009 (inclusive)	3,155	9.6	17,545	7.9

Notes:
1. Data are published at www.nomisweb.co.uk
2. Completed claims are rounded to the nearest five
3. Median is measured in number of weeks
4. Median is a better measure of "average" than arithmetic mean for skewed distributions such as duration of claim.

Source:
DWP WPLS 100 percent data

Jobseeker's Allowance: Hertfordshire

Mike Penning: To ask the Secretary of State for Work and Pensions for how long on average an unemployed person resident in *(a)* Hemel Hempstead and *(b)* Hertfordshire claimed jobseeker's allowance in each of the last five years. [265807]

Mr. McNulty: The available information is in the table.

Median duration of Jobseeker's Allowance completed claims in Hemel Hempstead parliamentary constituency and Hertfordshire, for the last five years

	Hemel Hempstead		*Hertfordshire*	
	Number	*Median*	*Number*	*Median*
March 2004 to February 2005	3,355	9.1	29,460	8.3
March 2005 to February 2006	3,305	9.6	28,255	9.1
March 2006 to February 2007	3,540	10.4	30,190	10.0
March 2007 to February 2008	3,910	10.0	31,145	9.4
March 2008 to February 2009	3,735	7.5	32,105	7.1

Notes:
1. Data are published at www.nomisweb.co.uk.
2. Completed claims are rounded to the nearest five.
3. Median is measured in number of weeks.
4. Median is a better measure of "average" than arithmetic mean for skewed distributions such as duration of claim.

DWP WPLS 100 per cent. data

Members: Correspondence

Mr. Waterson: To ask the Secretary of State for Work and Pensions when the Independent Case Examiner plans to reply to the letters from the hon. Member for Eastbourne of 6 August, 29 September, 21 October and 20 November 2008 and 16 February 2009 sent on behalf of his constituent, Mr. A Siegel; and when the Secretary of State expects the matter raised in the correspondence to be resolved. [268373]

Jonathan Shaw: The Independent Case Examiner's office last wrote to the hon. Member on 9 December 2008 asking for further details of Mr. Siegel and his complaint, to enable them to provide an answer to the issues raised. They have no record of having received a reply. The Independent Case Examiner's office contacted the Member's constituency secretary on 31 March 2009 to request details of his letter of 16 February 2009. The Independent Case Examiner's office will write to the hon. Member separately to progress matters.

National Insurance Contributions

Sir Peter Viggers: To ask the Secretary of State for Work and Pensions how many temporary national insurance numbers were issued in the last 12 months; and how many are extant. [266348]

Mr. McNulty *[holding answer 30 March 2009]*: The Department for Work and Pensions does not issue temporary national insurance numbers.

New Deal Schemes: Finance

Mr. Harper: To ask the Secretary of State for Work and Pensions what the budget for the Flexible New Deal in *(a)* phase 1 and *(b)* phase 2 is; and whether he plans to revise the budget following the revised estimates of the numbers of people flowing through each phase provided to those tendering to administer the Flexible New Deal. [268402]

Mr. McNulty *[holding answer 2 April 2009]*: The indicative budget for phase 1 of the flexible new deal was included in the invitation to tender at an average of £236.6 million per annum, and the bids are subject to ongoing evaluation and commercial negotiation. Phase 2 indicative budgets will be announced as part of the procurement process later this year.

The Department does not forecast levels of long-term unemployment or the future number of claimants of jobseeker's allowance. However, for planning purposes the Department does make use of the HM Treasury unemployment assumption, which is based on an average of a number of independent unemployment forecasts. These figures are planning assumptions only and do not reflect an official view of numbers of unemployed people or the duration of unemployment. An update to this assumption will be published in the Budget.

Pathways to Work

Mr. Harper: To ask the Secretary of State for Work and Pensions what assessment he has made of the financial viability of Pathways to Work contracts in the current economic climate; and whether his Department has varied *(a)* contractual terms and *(b)* payment timings on any Pathways to Work contracts since their establishment. [267902]

Mr. McNulty *[holding answer 31 March 2009]*: The financial viability of providers is assessed before we award a contract, and throughout the contract life. Where any financial viability risks are identified the Department's financial specialists seek robust and appropriate mitigation and ensure that management plans are put in place.

The Department, working in consultation with providers, has been looking at approaches to improve performance of Pathways to Work contracts. Among the actions agreed, we have been prepared to consider re-profiling the payment of the service fee element, to reflect more closely the expenditure and income generation of providers. This re-profiling does not, overall, change the contractual terms, the value or the total amount payable for outcomes against the service fee or the overall performance expectations. Each contract is being looked at on an individual basis and of the 11 providers involved, we have agreed to re-profile in nine cases.

Pensioners: East Sussex

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many pensioners resident in *(a)* Eastbourne and *(b)* East Sussex have not yet received their Christmas bonus from his Department. [267246]

Ms Rosie Winterton: By 15 March 2009, 15.3 million scheduled additional Christmas bonus payments of £60 had been paid to pensioners and other eligible recipients. It is possible that a small number of customers may not have received their payment. Therefore exceptionally, some payments may need to be made clerically.

An exercise to identify the very small number of qualifying customers who have not yet received their payment is being undertaken.

Pensioners: Ex-servicemen

Mr. Frank Field: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of his letter of response to the representations made in the report from the Royal British Legion and Age Concern on the situation of ex-service pensioners; and if he will make a statement. [266797]

Kitty Ussher *[holding answer 26 March 2009]*: The director general of the Royal British Legion wrote to the Minister for Employment and Welfare Reform drawing attention to the Return to Rationing Campaign and the needs of ex-service and other pensioners. The then Under-Secretary of State, my hon. Friend the Member for Warwick and Leamington (Mr. Plaskitt) replied on 24 September 2008 and a copy of the reply has been placed in the Library.

We have since received a number of further representations in support of the Royal British Legion campaign and have replied in similar terms.

Pensioners: National Insurance Contributions

Steve Webb: To ask the Secretary of State for Work and Pensions if he will make an estimate of the cost of extending eligibility to buy back six additional years of national insurance contributions to *(a)* men and *(b)* women reaching state pension age in (i) 1978, (ii) 1988 and (iii) 1998; and if he will estimate the cost of such extension to all those reaching pension age within these time periods, regardless of qualifying years. [263150]

Ms Rosie Winterton: The information requested could be provided only at disproportionate cost.

Self-Employed

Mr. Sheerman: To ask the Secretary of State for Work and Pensions (1) what steps his Department is taking to support formerly self-employed persons without work; [261497]

(2) if he will adjust the criteria for claiming contribution-based jobseeker's allowance to enable formerly self-employed persons without work to claim the allowance. [261499]

Mr. McNulty: The Government are doing everything they can to help those who become unemployed back into work as quickly as possible. We are investing an extra £1.3 billion to ensure that through Jobcentre Plus we can continue to provide personal help and advice to everyone who needs it.

Income-based jobseeker's allowance is available to self-employed people who meet the eligibility criteria. The Department administers a wide range of benefits and allowances that are available to people on low incomes. Self-employed people who meet the qualifying criteria may be entitled to housing benefit, council tax benefit and help with NHS charges. Those working and on a low income may be entitled to working tax credit whilst those with children may be entitled to child tax credit.

Class 2 national insurance contributions provide self-employed people with protection against ill-health, bereavement and old age by providing entitlement to employment and support allowance, bereavement benefits and basic state pension and the rate of contributions they pay reflects this. There are no plans to extend this entitlement to contributory jobseeker's allowance.

Social Security Benefits: Crosby

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions how many benefit entitlement checks have been carried out on people in *(a)* Crosby constituency and *(b)* England in the last 12 months. [268772]

Mr. McNulty: The information requested is not held centrally.

Social Security Benefits: Fraud

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what scientific evidential basis has been used by his Department in its analysis of the use of voice risk analysis technology by benefit authorities; and if he will make a statement; [244211]

(2) what assessment of the efficacy of the use of voice risk analysis technology by benefit authorities his Department has *(a)* undertaken and *(b)* commissioned from (i) independent bodies and (ii) service providing contractors; and what the (A) methodology and (B) conclusions of those assessments is; [244212]

(3) what disability impact assessment of the use of voice risk analysis technology in each pilot benefit authority his Department has *(a)* undertaken and *(b)* commissioned from (i) independent bodies and (ii) service providing contractors; and what the (A) methodology and (B) conclusions of those assessments are; [244217]

(4) what assessments of the use of voice risk analysis technology by benefit authorities have been published by his Department. [249191]

Mr. McNulty: There is a body of published scientific research on voice risk analysis, but there is no published research on the efficacy of the technology when applied to benefit claims. The Department is therefore conducting its own research into the efficacy of voice risk analysis based on trials by local authorities and Jobcentre Plus. The Department's evaluation is being conducted by departmental statisticians who are bound by a National Code of Practice. The Department has not commissioned any independent bodies or service providing contractors to conduct an evaluation.

The Department's assessment of its voice risk analysis trials during 2007-08 in Jobcentre Plus and local authorities, and details of its evaluation methodology, have been published. I refer the hon. Member to the *Official Report*, column 19WS of the 11 March. Each local authority conducting trials of voice risk analysis technology is responsible for completing a disability impact assessment. This is a prerequisite to participation in the Department's trial.

In accordance with departmental policy on carrying out equality impact assessments Jobcentre Plus conducted an initial screening on their voice risk analysis pilot. The pilot was restricted to assessing whether the technology could successfully identify the difference between high and low risk readings. As the pilot processes were specifically designed to test the voice risk analysis technology only and not its use as a new process or policy for implementation across Jobcentre Plus, it was concluded a full impact assessment was not required.

The Department has not commissioned any independent bodies or service providing contractors to conduct a disability impact assessment.

Social Security Benefits: Tamworth

Mr. Jenkins: To ask the Secretary of State for Work and Pensions how many benefit entitlement checks have been carried out for people in *(a)* Tamworth constituency and *(b)* England in the last 12 months. [264533]

Kitty Ussher: This information is not held centrally.

State Retirement Pensions: Uprating

Jenny Willott: To ask the Secretary of State for Work and Pensions what estimate his Department has made of the additional annual cost to the public purse of uprating the basic state pension in line with earnings from 2010-11. [246723]

Ms Rosie Winterton: The gross additional basic state pension spend due to increasing the basic state pension by earnings from 2010 and the 2007 Pensions Act reforms are given in the following table:

Gross additional basic state pension spend due to pension reform and restoring uprating the basic state pension by earnings from 2010-11, 2008-09 prices

	£ billion
2010-11	0.1
2011-12	0.5
2012-13	0.5
2013-14	1.6
2014-15	2.6
2015-16	3.6
2020-21	9.2
2030-31	24.9
2040-41	48.7

Gross additional basic state pension spend due to pension reform and restoring uprating the basic state pension by earnings from 2010-11, 2008-09 prices

	£ billion
2050-51	70.0

Notes:

1. Baseline published projections of expenditure on pensioner benefits assume that the basic state pension is increased by earnings from 2012.

2. Estimates given show the gross additional basic state pension spend due to increasing the basic state pension by earnings from 2010 and implementing the 2007 Pensions Act reforms from April 2010. During the next Parliament, we will re-link the uprating of the basic state pension to average earnings. Our objective, subject to affordability and the fiscal position, is to do this in 2012, but in any event by the end of the next Parliament at the latest. We will make a statement on the precise date at the beginning of the next Parliament.

3. Estimates do not reflect the estimated savings from reduced income related benefit payments (pension credit, housing benefit and council tax benefit).

4. In the financial years up to and including 2013-14 Treasury Economic assumptions consistent with PBR 2008 have been used to model earnings uprating. After this point a long term earnings growth assumption of 4.93 per cent. has been applied.

5. Estimates are in 2008-09 prices, have been rounded to the nearest £100 million and include UK and overseas claimants.

DWP modelling.

Training: HIV Infection

Lynne Jones: To ask the Secretary of State for Work and Pensions what programmes his Department is funding to assist people with *(a)* HIV and *(b)* other long-term conditions back to work; and whether staff running those programmes receive HIV-specific training. [264183]

Mr. McNulty: Jobcentre Plus is committed to supporting people with a disability or health condition, including those with HIV and other long-term conditions to find suitable, sustainable employment. It does this through its personal advisers, including disability employment advisers, and a variety of programmes and services aimed at supporting customers with disabilities and health conditions.

Jobcentre Plus works with a range of providers from the private, public and voluntary sectors to provide specialist disability programmes to help people with a disability or health condition, including HIV, to overcome the labour market barriers they may face. These programmes include Work Preparation, Workstep (a programme of supported employment), New Deal for Disabled People and residential training. Disability employment advisers also have access to work psychologists to assist them in supporting customers if appropriate.

For customers claiming benefits due to illness or disability the Pathways to Work programme helps move them into or nearer to work. Pathways to Work offers, among other things, a series of interviews with a personal adviser and training programmes to increase skills, confidence or help to manage a health condition.

People who are in work or due to start work and need support can claim help from Access to Work. Access to Work can provide practical advice and support to the disabled person and their employer to help them overcome work related obstacles resulting from disability. All Access to Work support is tailored to the individual's needs.

From Autumn 2010 the new specialist disability programme will replace the existing Workstep and work preparation programmes and will be designed as a single streamlined and flexible programme based on effective needs assessment and creation of tailored packages of appropriate support.

There is a comprehensive programme of learning designed to equip Jobcentre Plus advisers with the full range of knowledge and skills required to support all customers. This learning routeway provides the adviser with the key knowledge and skills to interview customers and enable them to work effectively with customers with disabilities or health conditions. Part of the training is a "Disability Confident" course which explains various disabilities and health conditions, including HIV and other long term conditions, and what would be considered reasonable adjustment by employers.

UN Convention on the Rights of Persons with Disabilities

Dr. Alasdair McDonnell: To ask the Secretary of State for Work and Pensions for what reasons he proposes a UK reservation to Article 24 of the United Nations Convention on the Rights of Persons with Disabilities; what discussions he has had with representatives of devolved administrations in *(a)* Scotland, *(b)* Wales and *(c)* Northern Ireland on his proposal; and if he will make a statement. [269034]

Jonathan Shaw: The UK Government propose to enter an interpretative declaration and a reservation in respect of article 24 of the UN convention on the rights of persons with disabilities. The interpretative declaration will make clear that the UK general education system includes both mainstream and special schools, thereby clarifying how the UK Government interpret the convention. This will make it clear that special schools are considered part of the UK's general education system and that parents have the right to express a preference for a special school. A reservation will allow for circumstances where disabled children's needs may be best met through specialist provision, which may be some way from their home—so they will need to be educated outside their local community. This also maintains parental choice for schools outside the local community.

I met representatives from the Northern Ireland Assembly on 11 December 2008, and of the Welsh Assembly and Scottish Parliament on 14 December 2008. The Government's proposals for ratifying the convention, including the declaration and reservation in respect of article 24 were discussed at these meetings.

Unemployed: Voluntary Work

Ben Chapman: To ask the Secretary of State for Work and Pensions what steps his Department is taking to encourage the long-term unemployed to engage in voluntary work. [242360]

Mr. McNulty: There are already a number of flexibilities within jobseeker's allowance for claimants who are volunteers at any point during their claim. Jobseekers who do voluntary work do not have to attend a job interview or take up a job straight away. They are allowed 48 hours to attend a job interview and one week to take up a job offer. In addition any money they receive to cover expenses incurred while volunteering (for food, travel, etc.) does not affect their benefit entitlement.

Our view is that the benefit rules strike a proper balance between allowing benefit recipients to pursue voluntary activity while at the same time encouraging them to retain a clear focus on moving off welfare into paid work. Our recent White Paper, "Raising Expectations and Increasing Support" (Cm 7506, 10 December) set out our vision and route map for a welfare state where everyone is given the help they need to get back to work.

Unemployment

Mr. Ancram: To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of people who registered as jobseekers in the last six months who were under 40 years of age. [265297]

Mr. McNulty: The available information is in the following table.

Proportion of jobseeker's allowance claimants under 40 years of age in Great Britain

	Percentage
2008	
September	66.2
October	65.8
November	65.3
December	65.4
2009	
January	64.8
February	65.2

Notes:
1. Percentages are rounded to one decimal place.
2. Claimant count data are published at https://www.nomisweb.co.uk.
3. Figures exclude clerical cases.

Source:
100 per cent. count of claimants of unemployment-related benefits, Jobcentre Plus Computer Systems (computer held cases only).

Unemployment Benefits

Dr. Evan Harris: To ask the Secretary of State for Work and Pensions pursuant to the answer of 23 February 2009, *Official Report*, column 94W, on unemployment benefits (1) whether his Department holds any elements of the information requested; [263692]

(2) for what reasons the information requested is not available. [263693]

Mr. McNulty: Any such estimates could be collated only at disproportionate cost. This is because the Department holds records of people who have signed on but does not, and cannot, hold records of people who have not signed on, whatever their reason for not signing on may be.

Paul Rowen: To ask the Secretary of State for Work and Pensions what discussions he has had with the Secretary of State for Business, Enterprise and Regulatory Reform on the application of the provisions of the national minimum wage to individuals whom it is proposed should work for their benefits under the provisions of the Welfare Reform Bill; and if he will make a statement. [268425]

Mr. McNulty *[holding answer 2 April 2009]*: Participants in Work for Your Benefit will be undertaking work-experience as part of an employment programme designed to get them back into work. Individuals taking part in work placements on government programmes do so on the basis that such participation gives them work experience or training which adds value and which improves their employability.

Existing Government policy for people participating in employment programmes is that a person who continues to receive financial support from the Government is not entitled to receive the national minimum wage while on a work placement. As such the national minimum wage will not apply in Work for Your Benefit.

Discussions have taken place between BERR and DWP to ensure the Work for Your Benefit programme will be consistent with national minimum wage legislation.

Vacancies: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Work and Pensions what his Department's latest estimate has made of the number of job vacancies in *(a)* Cumbria and *(b)* Copeland constituency. [263799]

Kevin Brennan: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated March 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many job vacancies there were in *(a)* Cumbria and *(b)* Copeland constituency. (263799)

The Office for National Statistics estimates the number of vacancies from the Vacancy Survey, however estimates below UK are not available from this source.

An alternative source of information on job vacancies is administrative data from Jobcentre Plus. This data only includes job vacancies notified to Jobcentre Plus and consequently is inconsistent with the UK estimates from the Vacancy Survey, however geographical breakdowns of this data are available.

Table 1 attached, shows the number of live unfilled job vacancies held by Jobcentre Plus for Cumbria and Copeland constituency, in February 2009, the most recent period for which figures are available. Figures from Jobcentre Plus for Great Britain, along with three month averages for the UK from the Vacancy Survey have also been included for comparison.

Table 1: Number of job vacancies[1] in Cumbria and Copeland parliamentary constituency

			Not seasonally adjusted
	Copeland	*Cumbria*	*GB*
February 2009	124	1,290	237,000

Source:
Jobcentre Plus Administrative Data.

	Seasonally adjusted
	UK
December to February 2009	482,000

[1] Job vacancies for Copeland parliamentary constituency and Cumbria are live unfilled vacancies from the Jobcentre Plus administrative data. These are inconsistent with the UK figures from the ONS Vacancy Survey.

Source:
Vacancy Survey, ONS.

Vacancies: Marketing

Chris Grayling: To ask the Secretary of State for Work and Pensions how many complaints regarding the advertising of vacancies within the adult entertainment industry have been received from *(a)* pressure groups, *(b)* jobseekers who have seen the vacancies advertised, *(c)* jobseekers who have applied for such vacancies and *(d)* members of staff in each year since 2003 for which information is available. [243219]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many complaints regarding the advertising of certain vacancies from within the adult entertainment industry have been received from *(a)* pressure groups; *(b)* jobseekers who have seen the vacancies advertised; *(c)* jobseekers who have applied for such vacancies; and *(d)* members of staff in each year since 2003 for which information is available. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

I am only able to provide you with the level of information you require from 2006 onwards. Prior to that the information is limited. The available information is in the table below.

Recorded complaints received regarding the advertising of adult entertainment industry vacancies

Number

Category	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*	*Total*
Pressure groups	n/a	n/a	n/a	1	1	12	14

Vocational Training

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what recent steps have been taken to assist single parents in finding work. [268057]

Kitty Ussher: Lone parents are supported by a wide package of pre-employment and in-work support measures to help them move into paid work; make work pay, and help sustainability and progression in work.

From November 2008 customers who claim benefit solely on the grounds of being a lone parent and have a youngest child aged 12 or over, and who are capable of work, will claim jobseeker's allowance. This will be followed by lone parents with a youngest child aged 10 or over from October 2009, and aged seven or over from October 2010.

On 28 January 2009 we published the discussion document "Realising Potential: Developing Personalised Conditionality and Support". This set out our proposals for how we plan to run Pathfinders in income support which will require parents with a youngest child aged three to six to work closely with their personal adviser and design their own routeway back to work through work-related activity, including training, if appropriate.

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what recent steps have been taken to assist low-skilled people in finding work. [268060]

Mr. McNulty: We work with jobseekers from day one to help them identify and get the skills they need to enter work and remain there. We continue to focus particular help where people have basic skills needs and enable them to train from the beginning of their claim. Jobcentre Plus personal advisers are also able to agree early access to the job-search and training support offered by the New Deal for people whose circumstances may make it particularly hard to find work. The introduction of the Flexible New Deal will establish a new, individually-tailored approach for all job seekers, whatever their age, skills or barriers to work.

In autumn 2008 the Government announced that additional funding of £158 million has been made available through the European Social Fund for the Learning and Skills Council's Train to Gain programme. This will enable the newly unemployed or those facing redundancy to undertake training linked to opportunities in the local labour market for up to two weeks full time or eight weeks part time. This includes funding of up to £29 million to enable the "nextstep" service to increase its support to people who are facing redundancy, are newly redundant or who are further disadvantaged as a result of the current economic downturn.

On 6 April we launched a significant package of help for jobseekers, including those with lower level skills, who find themselves out of work for six months or more. Most people are still leaving benefit quickly—75 per cent. of people move off jobseeker's allowance within six months. For those who do not, an enhanced offer is now available which includes:

Personalised support from a Jobcentre Plus adviser who will work with customers to identify the steps appropriate to enable a swift return to work;

A recruitment subsidy, or "golden hello", for employers worth £2,500—which is made up of a £1,000 subsidy plus access to up to £1,500 worth of in-work training, dependent on location.

Support for those who want to become self-employed with advice on creating a business plan and employment credit of £50 per week for up to 16 weeks so that they have financial support during the early days and months of trading;

Access to 75,000 new work-focused training opportunities to help customers significantly increase their skills in order to enter work. The training, delivered on a part-time or full-time basis, will allow people to progress to a full qualification whether they are in or out of work;

Work-focused volunteering placements—to help JSA claimants develop or maintain skills while looking for a job. Third sector partners in England, Scotland and Wales will broker work-focused volunteering opportunities for JSA claimants interested in volunteering.

The Government has pledged £0.5 billion over two years from April 2009 to fund this programme. We estimate that the package will fund around 500,000 opportunities within the new options over the two years.

In addition, Government continue to support jobseekers with lower level skills through a range of measures, including the Employability Skills Programme (ESP) in England and Local Employment Partnerships (LEPs).

ESP enables people to train full time from day one of a jobseeker's allowance (JSA) claim and offers learners basic skills qualifications at Entry Level, Level 1 and Level 2 alongside an employability award at Entry Level 3 and Level 1.

LEPs ensure that disadvantaged customers get the preparation and training that enables them to meet employers' needs and expectations. LEPs involve every sector from manufacturing to retail and services. They provide support to get people ready to fill a role and help employers give people a fair chance at a job.

Welfare to Work

Mr. Harper: To ask the Secretary of State for Work and Pensions how many people in receipt of *(a)* jobseeker's allowance and *(b)* incapacity benefit have been referred to welfare to work providers and have subsequently been discovered to be deceased in each of the last four years. [268048]

Mr. McNulty *[holding answer 31 March 2009]:* The information is not collated centrally.

Winter Fuel Payments

Mr. Waterson: To ask the Secretary of State for Work and Pensions what his most recent estimate is of the number of overpayments made by the Winter Fuel Payment Centre in each of the last five years; and if he will make a statement. [248818]

Ms Rosie Winterton: The information requested is not available.

Mrs. May: To ask the Secretary of State for Work and Pensions what assessment he has made of the reasons for variations in levels of overpayment of the winter fuel payment in each of the last 10 years. [262338]

Ms Rosie Winterton: Winter fuel payments are made to customers aged 60 and over and are based on their personal circumstances in the qualifying week. Any overpayment of winter fuel payment is recoverable if it arose in consequence of a misrepresentation of, or failure to disclose a material fact.

There are variations in the levels of winter fuel overpayments which have been recorded over the last five years. Of £886,855 winter fuel overpayments in 2007-08 a total of £403,568 related to overpayments from October 2005 to March 2007. This is because the recoveries for this period were recorded on an interim Overpayment Recovery System which were then migrated and brought to account on the Debt Manager System in December 2007 and appear in the figure for 2007-08. Calculation and recovery action was pursued on all cases in accordance with the Overpayments Recovery Guide.

Information is not available to enable an assessment of the reasons for any variations in levels of winter fuel payments for the period beyond the last five years.

Workstep

Derek Conway: To ask the Secretary of State for Work and Pensions how many meetings his Ministers and officials have held with the Royal London Society for the Blind on the impact of changes for blind and partially-sighted employment support projects under the Workstep programme in London. [261780]

Jonathan Shaw: Neither Ministers nor officials have held any meetings with the Royal London Society for the Blind concerning the Workstep programme in London.

Voluntary Work

Tony Baldry: To ask the Secretary of State for Work and Pensions what arrangements his Department has put in place for jobseekers in Oxfordshire to access work-focused volunteering opportunities as part of their job search. [262956]

Mr. McNulty: We believe that volunteering alongside looking for work can help to develop useful skills for work and keep jobseekers in touch with the labour market. Provided jobseekers are available for and actively seeking work, they can take part in unlimited volunteering work.

Jobcentre Plus has over 2,400 partnerships with local third sector organisations across the country. These complement the service Jobcentre Plus offers, providing customers access to additional advice and support. Personal advisers in Oxfordshire have five main websites that they use and share with customers who would benefit from doing voluntary work. They are: Oxfordshire Community and Voluntary Action (OCVA), Oxford Radcliffe Hospital Volunteers, Smart, Do-it and the Oxfordshire county council website.

In addition to these existing partnerships, new measures to encourage volunteering as a means of developing skills for work are being introduced as part of the jobseeker's support at six months package from April 2009. Through this package, those who have been unemployed and claiming jobseeker's allowance for six months or more will have access to a range of support including recruitment subsidies, work-focused training, help to start a new business and access to work-focused volunteering placements delivered through third sector partners.

Jobseekers who have been claiming Jobseeker's Allowance for six months and would like to volunteer to maintain or develop their skills for work can discuss with their Jobcentre Plus personal adviser how they can make use of the extra support on offer from April 2009.

Written Answers to Questions

Monday 20 April 2009

HOME DEPARTMENT

Airguns: Young People

John McDonnell: To ask the Secretary of State for the Home Department if she will review the legislation relating to the control and ownership of air rifles, with particular reference to young people, with a view to introducing stricter controls. [268003]

Mr. Woolas: The Government have no objection to young people using air weapons provided it is done in a safe and responsible way. This is reflected in the law which makes it an offence for someone under 18 to have an air weapon with them unless they are supervised by someone aged 21 or over. Other than that, they may only use an air weapon for target shooting at an approved shooting club or at a miniature shooting gallery; or if they are aged 14 or over and are on private premises with the consent of the occupier.

The Government have the deepest sympathy for the family and friends of those who are killed by air weapons. Such tragic incidents are rare but we keep the law under review in case the controls on usage need to be tightened further.

Alcoholic Drinks: Crime

Mr. Don Foster: To ask the Secretary of State for the Home Department (1) how many *(a)* males and *(b)* females aged (i) under 10 years, (ii) 10 to 13 years, (iii) 14 to 17 years and (iv) 18 years and over were (A) arrested, (B) cautioned and (C) prosecuted for alcohol-related offences in (1) each region and (2) each constituency in each of the last five years; and if she will make a statement; [262266]

(2) how many *(a)* males and *(b)* females aged (i) under 10, (ii) 10 to 13, (iii) 14 to 17 and (iv) 18 years and over were convicted for alcohol-related offences in each of the last five years; and if she will make a statement. [262491]

Mr. Alan Campbell: The number of males and females cautioned, proceeded against at magistrates courts and found guilty at all courts for alcohol-related offences, by age group (the age of criminal responsibility in England and Wales is 10) and Government office region (GOR), from 2003 to 2007 (latest available) is given in tables 1 and 2 respectively, which have been placed in the Library.

The number of persons issued with a penalty notice for disorder (PND) for alcohol-related offences from 2004 to 2007 by GOR, age group (data are available for persons aged 16 and over) and sex are given in table 3, which has been placed in the Library.

The PND scheme was implemented in all 43 police force areas in England and Wales in 2004.

Data collected centrally at police force area level are not available by parliamentary constituency area.

The information requested on arrests is not collected centrally. The arrests collection held by the Home Office covers arrests for recorded crime (notifiable offences) only, broken down at a main offence group level, covering categories such as violence against the person and robbery.

It is not possible to identify the individual circumstances of offences (such as whether they were alcohol related) from the data on arrests reported to the Home Office.

Data for 2008 will be available in the autumn of 2009.

Ms Keeble: To ask the Secretary of State for the Home Department how many *(a)* women and *(b)* men have been convicted of alcohol-related offences in each of the last five years. [266817]

Mr. Alan Campbell: The number of men and women found guilty at all courts for alcohol-related offences, by age group (the age of criminal responsibility in England and Wales is 10) and Government office region (GOR), from 2003 to 2007 (latest available) is given in tables 1 and 2 respectively, which have been placed in the Library.

Data relating to those persons cautioned and proceeded against using the same conditions, have also been included as part of tables 1 and 2.

Data relating to the number of persons issued with a penalty notice for disorder (PND) for alcohol-related offences from 2004 to 2007 by GOR, age group (data are available for persons aged 16 and over) and sex are given in table 3, which has been placed in the Library. The PND scheme was implemented in all 43 police force areas in England and Wales in 2004.

Data for 2008 will be available in the autumn of 2009.

Mr. Burstow: To ask the Secretary of State for the Home Department what recent assessment her Department has made of the link between alcohol misuse and crime; what steps her Department is taking to tackle alcohol-related crime; and if she will make a statement. [269299]

Mr. Woolas: The Government have made a number of such assessments. The main one is the British Crime Survey (BCS), a report into 'The Impact of the Licensing Act 2003 on Levels of Crime and Disorder: An Evaluation (2008) by Hough et al' as well as 'Violent Crime, Disorder and Criminal Damage Since the Introduction of the Licensing Act (2007) Babb et al'.

In addition to piloting alcohol arrest referral schemes, the Government are taking a number of steps to tackle alcohol-related crime. These include the provisions in the Policing and Crime Bill which will introduce a mandatory code for all alcohol retailers, and will give licensing authorities new powers to clamp down on specific problems in their areas. We have also given £3 million to Crime and Disorder Reduction partnerships (CDRPs) in order to undertake multi-agency enforcement activities on specific alcohol-related problems. We have made available a further £1.5 million to our top 50 priority areas which have the highest levels of alcohol-related crime and disorder and public concern about drunk or rowdy behaviour. This money has been used to tackle under age sales, to confiscate alcohol from under 18's and to run communications campaigns to tell local people what action is being taken in their area. We have also just finished the series of 13 alcohol training enforcement workshops for front-line practitioners.

Animal Experiments: Licensing

Norman Baker: To ask the Secretary of State for the Home Department what recent assessment she has made of *(a)* the conditions in which monkeys are held at Nafovanny, Long Thanh, Vietnam and *(b)* the appropriateness of allowing the importation of monkeys from that facility under the Animals (Scientific Procedures) Act 1986. [267754]

Mr. Malik: In July 2008, a review of the Nafovanny Centre against the published qualifying criteria confirmed the centre as category A (no issues or only minor issues noted). Nafovanny's suitability was reviewed again in February 2009 in the light of a recent campaign report, in which allegations were made about the use and condition of some small cages. As a result, the centre remains acceptable as a source of non-human primates, but has been reassigned as category B (issues identified that require further monitoring by the Inspectorate and/or action by the breeding centre). Accordingly, a visit by the Home Office Inspectorate to Nafovanny has been arranged and is scheduled to be completed before the end of May 2009. Since the date of the last assessment there have been no requests from users to acquire animals from Nafovanny.

Ashford Borough Council

Damian Green: To ask the Secretary of State for the Home Department what grants her Department has made to Ashford borough council in each year since 2005-06; what sums were awarded; under what budget category each grant was made; and how much was allocated for grants in 2009-10. [269174]

Mr. Woolas: The Department has not made any grant payments directly to Ashford borough council, and there are no plans to do so.

However, Ashford BC may have benefited indirectly under the Department's funding of Kent county council for the following grant streams:

Basic Command Unit Fund
Area Based Grants
Drug Intervention Programme
Safer Stronger Communities Fund

Association of Chief Police Officers

Mr. Amess: To ask the Secretary of State for the Home Department how much her Department has paid to the Association of Chief Police Officers (ACPO) in each year since 2000; for what purpose; what restrictions apply to the use of the money; what discussions she has had since January 2008 with the President of ACPO; and if she will make a statement. [259061]

Mr. Coaker: The Home Offic[illegible]rovided funding for the Association of Chief Police Officers (ACPO) since 1997.

In addition to an annual grant in aid payment, the Home Office has made regular payments to the Association of Chief Police Officers (ACPO) to fund a number of specific projects or in support of initiatives that are best delivered by those with professional police experience. All the grants are prescribed only for the project or use specified. From the information currently held by the Department, the payments made to ACPO since 2006-07 have been listed as an annex to this response.

The Home Secretary and I meet Sir Ken Jones, the current President of ACPO, regularly to discuss a range of issues, including the projects in which ACPO are involved. This is in addition to frequent telephone conversations and joint attendance at conferences and events. Formal notes of these meetings are not available to place in the House Library.

Home Office payments to ACPO

	Financial year			
Project	*2006-07 (£)*	*2007-08 (£)*	*2008-09 (£)*	*Detail*[1]
Grant Aid	836,232	836,232	836,232	To meet the costs of the ACPO president and part of the ACPO office costs
ACIST	2,988,115	—	—	To fund the ACPO Change and Implementation Support Team
Criminal Records project	110,000	110,000	110,000	UK Central Authority for exchange of criminal records
Operation Sycamore	700,000	—	—	Investigation into prostitution project
Community Tensions project	60,000	60,000	82,172	To fund the ACPO National Community Tensions Team
Domestic Extremism project	2,000,000,	2,000,000,	2,000,000,	To fund the ACPO Domestic Extremism Team
Disaster Victims Identification	253,128	314,296	216,060	To fund the ACPO UK DIVI Management Team
Stockwell project	—	230,000	—	Learning lessons of the Stockwell incident
Drugs Conference	—	—	10,000	Contribution to ACPO conference

Home Office payments to ACPO

Project	*Financial year* *2006-07 (£)*	*2007-08 (£)*	*2008-09 (£)*	*Detail*[1]
Cannabis cultivation	—	—	40,000	Funding part of the costs of a co-ordinator
Wildlife crime	15,367	15,367	150,000	Funding for the National Wildlife Crime Unit
Vehicle Intelligence	—	—	100,000	Funding for ACPO Vehicle Intelligence Service
Car Parking	200,000	185,000	130,000	Funding for ACPO Safer Car parking Scheme

Knife Crime	0	0	81,250	Knife Crime £100,000 funding approximately agreed for 8 months (mid-September 2008 to mid-May 2009)
Domestic violence posters	0	0	4,690	Domestic violence awareness campaign. Grant agreement signed—funding awaited
Total	14,571,507	22,258,225	16,804,075	—

[1] Funding allocated for these purposes only.

Asylum

Mr. Hands: To ask the Secretary of State for the Home Department how many cases the UK Border Agency's Case Resolution Directorate plans to resolve in each quarter of *(a)* 2009, *(b)* 2010 and *(c)* 2011. [242838]

Mr. Woolas: We have ramped up performance in dealing with the asylum legacy cases and are now resolving several thousand every month, however, we have not set quarterly targets because the mix of case types means that some will take very little time to resolve while others will take longer. We are confident that we will be able to conclude the cases by summer 2011, and are on track to do so.

Mr. Hands: To ask the Secretary of State for the Home Department how many unresolved cases the UK Border Agency's Case Resolution Directorate has identified that were not taken into account in setting its initial target for resolution in each quarter since it was established. [242839]

Mr. Woolas: The then Home Secretary made clear when he announced the programme of work in July 2006 that the case-load of legacy asylum cases was estimated to be around 400,000 to 450,000 cases. This remains the estimate. We continue to be on track to complete all those categorised as older legacy cases by the summer of 2011. Up to 9 January 2009 we had concluded 155,500 cases.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many asylum seekers have been waiting more than six months for a final decision on their claim; and how many of these applicants have dependants aged over 16 years. [254614]

Mr. Woolas: An asylum seeker may make further representations at any stage in the application process which may, in certain circumstances, be treated as a fresh asylum application.

The United Kingdom Border Agency's asylum targets are based on case conclusion times and the agency is on target to fully conclude 90 per cent. of new asylum applications within six months by 2011.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many asylum seekers have been waiting more than 12 months for an initial decision on their claim; and how many of these applicants have dependants aged over 16 years. [254615]

Mr. Woolas: The information requested in this question could be obtained only at disproportionate cost by undertaking an examination of individual case records.

The United Kingdom Border Agency's asylum targets are based on case conclusion times and the agency is on target to fully conclude 90 per cent. of new asylum applications within six months by 2011.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many asylum seekers who waited more than 12 months for an initial decision on their claim are now at the appeal stage; and how many of these applicants have dependants aged over 16 years. [254616]

Mr. Woolas: The information requested in this question could be obtained only at disproportionate cost by undertaking an examination of individual case records.

The United Kingdom Border Agency's asylum targets are based on case conclusion times and the agency is on target to fully conclude 90 per cent. of new asylum applications within six months by 2011.

Damian Green: To ask the Secretary of State for the Home Department how many files under the asylum legacy cases programme have been archived because the individual could not be traced within six months. [269170]

Mr. Woolas: The chief executive of the UK Border Agency has undertaken to update the Home Affairs Committee every six months on progress within the Case Resolution Directorate. She confirmed in her last update, on 8 December 2008, that the legacy cohort contains cases that the agency struggles to trace, including those where the applicant has died or left the country voluntarily. The agency makes every effort to trace such cases, checking a number of internal and external databases. If such tracing fails, the case is placed into a controlled archive. As of the end of November 2008 we reported that there were 1,850 cases in the controlled archive older than six months. This figure will be updated in the next letter to the Home Affairs Committee in the summer.

Damian Green: To ask the Secretary of State for the Home Department how many Asylum Application Registration Cards were issued in *(a)* 2008 and *(b)* each month of 2009. [269177]

Mr. Woolas: The number of Asylum Application Registration Cards issued was: 26,022 in 2008; and 7,233 in the first 13 weeks of 2009. The information is not collated on a monthly basis. These figures are not provided under national statistics protocols and have been derived from management information which is provisional and subject to change.

Asylum: Children

Fiona Mactaggart: To ask the Secretary of State for the Home Department what steps she plans to take in response to the recommendation by the UN Committee on the Rights of the Child that the UK should provide disaggregated statistical data on the number of children seeking asylum; and when she plans to take those steps. [242365]

Mr. Woolas: Statistics on numbers of children seeking asylum are published on an annual basis in the Asylum Statistics United Kingdom bulletin.

Information on the number of asylum applications and initial decisions broken down by age and the number of unaccompanied asylum seeking children is available in this publication. Information on the number of persons held in detention solely under immigration Act powers for those recorded as being under the age of 18 as at the last Saturday of the quarter are also available from the Control of Immigration Quarterly statistical bulletin.

These publications are available in the Library of the House and from the Home Office research, development and statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Binyam Mohamed

Damian Green: To ask the Secretary of State for the Home Department whether Binyam Mohamed applied for asylum on his arrival to the UK on 23 February 2009; and if she will make a statement. [259395]

Mr. Woolas: It is the policy of successive Governments not to discuss the immigration status of individuals. However, as with any foreign national, consideration will be given as to whether their presence in the United Kingdom is conducive to the public good and, as always, all appropriate steps will be taken to protect national security.

Biometrics

Damian Green: To ask the Secretary of State for the Home Department how many IRIS pilot schemes were operational on 28 February 2009. [263197]

Mr. Woolas: The IRIS scheme was operational at 10 locations on 28 February 2009.

Borders: Personal records

Lady Hermon: To ask the Secretary of State for the Home Department how the e-Borders system will apply to the land border between Northern Ireland and the Republic of Ireland. [268001]

Mr. Woolas: The e-Borders system will not apply to the land border between Northern Ireland and the Republic of Ireland.

We will continue to work closely with the Republic of Ireland to tackle the major issues that face us today, from trafficking and terrorism to illegal immigration and drug smuggling.

The UK Border Agency, Police Service of Northern Ireland (PSNI) and the Garda National Immigration Bureau work collaboratively and run regular intelligence led operations to counter potential risks to the intra Common Travel Area (CTA) borders. These joint operations have successfully prevented foreign nationals attempting to cross the boundary illegally in both directions.

Philip Davies: To ask the Secretary of State for the Home Department when she plans to launch a consultation on the introduction of an authority to carry scheme. [250066]

Mr. Woolas: The Government have committed to a full consultation period on the introduction of an authority to carry scheme. This consultation period will be launched in due course following the completion of on-going development work and initial discussions with stakeholders.

Damian Green: To ask the Secretary of State for the Home Department when she expects to launch her Department's consultation on authority to carry under the e-Borders scheme. [251686]

Mr. Woolas: The Government have committed to a full consultation period on the introduction of an authority to carry scheme. This consultation period will be launched in due course following the completion of ongoing development work and initial discussions with stakeholders

The introduction of an authority to carry scheme will only be brought forward for parliamentary approval, once the full 12-week consultation period with all stakeholders has taken place.

Damian Green: To ask the Secretary of State for the Home Department what recent meetings her Department has had with coach operators on the effect of the e-Borders scheme; and if she will make a statement. [251687]

Mr. Woolas: The e-Borders Programme has engaged directly with several of the large coach operators involved in international coach travel. We recognise that their inclusion in the solution and the development of operational models, will support a more efficient implementation of e-Borders.

The programme is in regular contact with the Confederation of Passenger Transport (CPT), the industry trade association, and articles on e-Borders have appeared in their journal, Route One. The programme has also delivered presentations on e-Borders to the 2007 and 2008 coaching conferences.

Furthermore, e-Borders was represented at the 2008 Eurobus Expo at the NEC.

British Nationality

Mr. Kemp: To ask the Secretary of State for the Home Department how many citizenship ceremonies have been conducted in each region in England in the last five years. [268382]

Mr. Woolas: The available data regarding persons attending a British citizenship ceremony for 2005, 2006 and 2007 by English Government region are given in the following table. Data for 2008 are scheduled for publication in May 2009.

Statistics on persons attending a British citizenship ceremony by region of the United Kingdom and authority are published in table 8 of the Home Office statistical bulletin "Persons Granted British Citizenship United Kingdom". This publication may be obtained from the Library of the House and from the Home Office research, development and statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Persons attending a British citizenship ceremony by English Government office region, 2005-07

	Ceremony attended[1] [2]		
English Government office region	*2005*	*2006*	*2007*[3]
North East	1,310	1,420	1,705
North West	6,120	6,345	6,770
Yorkshire and the Humber	4,630	4,790	4,850
East Midlands	4,635	4,625	4,925
West Midlands	7,030	7,775	7,595
East of England	7,000	6,715	7,975
South East	12,030	12,145	14,640
South West	2,985	2,810	3,875
Greater London	63,045	56,995	61,690
Total (England)	108,780	103,615	114,025

[1] A ceremony organised by county or local authorities for successful applicants over 18 years of age as the final stage in the process of attaining British citizenship.

[2] Data are rounded to the nearest five so may not sum to the totals.

[3] Provisional data.

Cannabis

Chris Huhne: To ask the Secretary of State for the Home Department what percentage of cannabis seizures in each of the last 10 years was analysed by the Forensic Science Service. [265318]

Jacqui Smith: The Forensic Science Service (FSS) Ltd. is only one of a number of commercial forensic suppliers involved in cannabis testing. By no means all cannabis seizures are forensically tested. The Home Office publishes annual figures for the volume of cannabis seizures in the annual National Statistics bulletin "Drug Seizures England and Wales". The latest one covering 2006-07 was published on-line at:

www.homeoffice.gov.uk/rds/pdfs08/hosb1208.pdf

the 2007-08 edition will be published on 7 May. The Home Office does not collect figures on the percentage of seizures analysed by individual suppliers. However, as the FSS is the largest forensic supplier, it is likely that it tests around two thirds of the total seizures referred for forensic analysis.

Chris Huhne: To ask the Secretary of State for the Home Department what percentage of cannabis seizures by *(a)* number and *(b)* weight or volume analysed by the Forensic Science Service contained significant quantities of cannabidiol in each of the last 10 years. [265319]

Jacqui Smith: Cannabis seizures made by law enforcement agencies are usually submitted to the Forensic Science Service (FSS) Ltd. to provide only a confirmed identification and weight. Only a small proportion of cannabis seizures are further examined to determine the tetrahydrocannabinol (THC) content, as a result of a customer request; customer requests for cannabidiol content are extremely unusual.

The table sets out the number of records and total weight of herbal cannabis and cannabis resin examined in the last 10 years by FSS.

Data derived from the Home Office Cannabis Potency Study 2008, show that when measured, the cannabidiol content of herbal cannabis has consistently been found to be less than 0.1 per cent. The cannabidiol content of cannabis resin varied between 0.1 to 7.3 per cent., with a mean content of 3.5 per cent. In today's market, seizures of cannabis resin are comparatively rare compared to herbal cannabis.

		Herbal Cannabis	*Cannabis Resin*	*Plant*[1]
1999	Number of records[2]	4,499	5,433	—
	Total weight submitted (kg)	1,525.8	6,732.5	—

	Total weight submitted (kg)	2,659.8	11,615.9	—

[1] Prior to quarter three 2003 cannabis plants were mainly recorded as herbal cannabis.

[2] A record approximately equates to an individual item or exhibit. A seizure of cannabis or cannabis resin made by a law enforcement agency can consist of one item, a few items, several items or occasionally more.

Chris Huhne: To ask the Secretary of State for the Home Department what proportion of cannabis seizures by *(a)* number and *(b)* weight or volume analysed by the Forensic Science Service had a tetrahydrocannabinol content of (a) less than three per cent., (b) four to six per cent., (c) seven to 10 per cent. and (d) 11 per cent. and over in each of the last 10 years. [265320]

Jacqui Smith: The Forensic Science Service (FSS) Ltd has provided data in the following table. Only data from 2001 are readily available. The company reports that it is asked to test for tetrahydrocannabinol (THC) content only in a small proportion of the seizures referred to them for analysis.

Data on average THC levels of cannabis have previously been published in the Advisory Council on the Misuse of Drugs' Reviews of Cannabis up to the year 2007. Data for 2008 can be found in the Home Office Cannabis Potency Study 2008, published by the Home Office Scientific Development Branch, using test data prepared by the FSS. Another source of reference for 2005 is D. J. Potter, P. Clark and Marc B. Brown, Potency of D9-THC and other Cannabinoids in Cannabis in England in 2005: Implications for Psychoactivity and Pharmocology. J. Forensic Sci., 53(1), 90-94, 2008.

Cannabis

		THC range[1]

2006	Number of samples	9	36	94	176	315
2007	Number of samples	21	71	120	137	349
2008	Number of samples	15	39	70	203	327
2009	Number of samples	1	3	11	34	49

[1] THC = tetrahydrocannabinol

[2] Data before 2001 are not readily available

Civil Servants: Incentives

Mr. Hoban: To ask the Secretary of State for the Home Department how much her Department has allocated for staff bonuses in 2008-09. [252248]

Mr. Woolas: For senior civil servants ("the SCS") non-consolidated performance payments for 2008-09 have not been awarded yet as we are awaiting the recommendations of the Senior Salaries Review Body, the independent body which makes recommendations to the Government about SCS pay.

Under the current Home Office pay arrangements, up to 35 per cent. of staff below the SCS may receive non-consolidated performance payments for 2008-09 at a cost of up to £3 million: but these payments have not yet been determined. Non-consolidated performance payments are made to individuals who have made an exceptional contribution throughout the year.

There is also a scheme for awarding one-off non-consolidated special payments during the year. Up to 0.3 per cent. of the pay bill is allocated for this purpose. Special payments can be awarded for exceptional achievements by staff in particularly demanding tasks or situations at any time of the year.

All such non-consolidated performance-related payments are funded within existing pay bill controls, have to be re-earned each year against predetermined performance standards and, as such, do not add to future pay bill costs.

Closed Circuit Television

Mr. David Jones: To ask the Secretary of State for the Home Department what *(a)* financial and *(b)* other assistance her Department provides to local authorities for the installation of town centre closed circuit television security systems for the purposes of crime reduction and detection. [268409]

Mr. Coaker *[holding answer 2 April 2009]*: Since the end of the Home Office initiative under the Crime Reduction Programme in 2003, no further funding has specifically been provided for the installation of town centre CCTV security systems by the Home Office.

Although no new specific CCTV funding has been introduced, funding streams such as the building safer communities fund are available to local authorities through crime and disorder reduction partnerships to allow them to tackle their local crime priorities using a number of interventions, including CCTV.

Community Relations: Internet

Patrick Mercer: To ask the Secretary of State for the Home Department which companies providing internet filtering products her Department has worked with to strengthen protection against online material which promotes violent extremism; and what the outcome has been of such work. [263166]

Mr. Coaker: The Home Office is working with a range of companies that provide filtering and/or parental control software which offer products that allow users such as parents and schools to voluntarily restrict access to certain categories of material that may be harmful or offensive. Our engagement with the filtering industry is an ongoing process and I do not propose to provide a list of those we have worked with to date. Some companies, such as Smoothwall, have chosen to announce their participation in this work.

These companies are now able to receive from the Home Office details of material which we consider to be unlawful under the Terrorism Act 2006 in order to enhance the protection their products offer against terrorist material.

These products offer end-users a tool to make the internet a safer place for children and young people.

Convictions

Mr. Malins: To ask the Secretary of State for the Home Department how many *(a)* burglaries, *(b)* thefts, *(c)* robberies and *(d)* assaults (i) were reported and (ii) resulted in a conviction in England and Wales in the last two years for which figures are available. [261990]

Mr. Alan Campbell *[holding answer 9 March 2009]*: Information is not available in the form requested.

Council for the Registration of Forensic Practitioners

Chris Huhne: To ask the Secretary of State for the Home Department for what reason she decided to cease future funding to the Council for the Registration of Forensic Practitioners; what discussions she had on the matter with representatives of the National Policing Improvement Authority; and if she will make a statement. [269677]

Jacqui Smith: The original ministerial announcement of funding to the Council for the Registration of Forensic Practitioners (CRFP) in 1999 was expressly subject to the CRFP's performance, particularly the condition that it became self-financing through registrant's fees and there should not be a long-term reliance on grant.

By the time CRFP closed, this goal of a self-funding independent accreditation body had not been achieved and the company was facing a long-term shortfall of funding, because the registration income did not match the expenditure—and would not have matched it, irrespective of whether the Government grant had been continued or not. This was likely to become considerably worse because of the withdrawal of support for the registration process by police forces.

The grant was latterly provided by the National Policing Improvement Agency, who last year jointly commissioned with the CRFP an independent analysis of CRFP's finances. Following this, the CRFP's financial situation, as detailed above, was clear and further commitment of public money to CRFP would have amounted to a long-term commitment to funding the company without full public control, which would not have been a justifiable or sustainable approach. I, and ministerial colleagues, were kept fully briefed on this issue throughout.

Fear of Crime

Mr. Sharma: To ask the Secretary of State for the Home Department what assessment she has made of the effectiveness of steps taken by police forces to reduce the fear of crime and to increase public confidence in their personal security in public places. [269105]

Mr. Woolas: I refer the hon. Gentleman to the Policing Green Paper: From the Neighbourhood to the National: Policing Our Communities Together which sets out the Government's expectation that there will be a significant improvement in public confidence over the next three years.

Crime Prevention

Mr. Burstow: To ask the Secretary of State for the Home Department what advice her Department's online secure home scorecard tool offers in respect of each score achieved. [259602]

Mr. Alan Campbell: The online scorecard has been designed so that each person who uses the tool will receive a number of suggestions on how to improve their home security, targeted specifically to any potential weaknesses in their current home security arrangements, as identified from their answers.

Mr. Crausby: To ask the Secretary of State for the Home Department what assessment her Department has made of the effectiveness of the installation of closed circuit television cameras in combating crime; and if she will make a statement. [265879]

Mr. Coaker: CCTV is a powerful crime fighting tool. Police operational experience and various research studies show that it deters and detects crime and helps secure convictions. It can also reduce fear of crime. CCTV works best as part of a package of measures to deal with specific events and crime problems.

A recent review of existing research was undertaken by the Campbell Collaboration, which was part funded by the National Policing Improvement Agency. The review found that CCTV has a modest but significant desirable effect on crime, is most effective in reducing crime in car parks, when targeted at vehicle crimes, and is more effective in reducing crime in the United Kingdom than in other countries. The main points of the review will be summarised and made available to police forces by the summer.

Crime Prevention: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent steps her Department has taken to protect businesses in Coventry from criminal activities. [268765]

Mr. Woolas: Coventry was allocated £335,669 from the Police Basic Command Unit Fund by the Home Office in 2008-09 to deliver crime and disorder reduction, promote partnership working, and to assist in the delivery of the objectives set out in the Government's Public Service Agreements for 2008-11.

This funding has helped to fund two Business Improvement Districts in Coventry which work closely with Coventry's Community Safety Partnership with the aim of both improving relationships with business partners and also the response they receive in relation to tackling crime and disorder and antisocial behaviour. For example, deploying a business crime co-ordinator and working with businesses on prevention, education and target hardening advice/measures.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent steps her Department has taken to protect *(a)* domestic properties and *(b)* families in Coventry from criminal activities. [268766]

Mr. Woolas: The information is as follows:

(a) The Home Secretary recently announced a £15 million initiative to tackle burglary in domestic properties. This comprises: a national, regional and local media campaign providing crime prevention advice; specific advice on securing your home including a web-based toolkit; a safer homes fund to target measures designed to increase home security for the most vulnerable groups in society; increasing the pressure on prolific offenders; an on-line and leaflet version of home security assessment; and burglary advice packs including discount vouchers for DIY stores on home security products.

(b) Coventry has received Government funding for a number of specific projects that will protect both the community and families: for example, an initiative under the "Think Family" banner to promote early intervention that will prevent or reduce the circumstances that may lead to criminal or antisocial behaviour in families, and a Rape and Sexual Abuse Centre. Coventry is also part of several national schemes, which will help protect families from crime: it has been designated as an Alcohol Priority area; it is part of the Tackling Knives Action Programme, which includes actions such as safety arches being used at schools and additional police patrols during home time; it is part of the tackling violent crime programme; and it has also been successful in its bid for Youth Crime Action Plan funding for the next two financial years.

Crime: Maps

Mr. Sharma: To ask the Secretary of State for the Home Department what steps she is taking to ensure the delivery of local crime mapping. [268019]

Mr. Alan Campbell: The National Policing Improvement Agency is working towards the provision of a national crime map for England and Wales for the delivery to the public by the end of 2009. This will support and link the current 43 individual crime maps provided by forces since the end of December 2008.

Departmental Absenteeism

Mr. Hands: To ask the Secretary of State for the Home Department how many staff of her Department were recorded absent for non-medical reasons on *(a)* 2 February 2009 and *(b)* 3 February 2009; what estimate she has made of the (i) cost to her Department and (ii) number of working hours lost due to such absence; and what guidance her Department issued to staff in respect of absence on these days. [260469]

Mr. Woolas: The disruption caused by the extreme weather conditions on 2 and 3 February this year caused severe difficulty for many Home Office staff travelling to and from work.

As a result guidance was provided to line managers to remind them that they should consider sympathetically circumstances where staff were unable to report for work or have had to leave early due to severe travel disruption. This guidance reflected existing departmental arrangements on travel disruptions set out in the Staff Handbook. These arrangements provide for situations where staff experience unavoidable travel delays due to travel disruption or other exceptional circumstances which may mean they are either late for work or are unable to attend work. In these circumstances those staff that use the departmental flexi time system may be given a credit to compensate for travel delays. Depending on circumstances, other staff might not be required to make up time lost.

It was left to managers to decide locally whether the provisions allowed for in the Staff Handbook should be applied in individual cases. Records of the number of staff who were not able to attend work on 2 and 3 February as a result of the disruption to the transport system were not collated centrally and could be obtained only at disproportionate cost.

For the same reason it is also not possible to provide an estimate of the cost to the Department or the total number of working hours that were lost.

Departmental Buildings

Dr. Pugh: To ask the Secretary of State for the Home Department what buildings are owned or operated by her Department under a private finance initiative (PFI) arrangement; and which companies are involved with each such PFI arrangement. [267410]

Mr. Woolas: 2 Marsham Street London SW1 is operated under a private finance initiative contract with Anne's Gate Property plc. The Department has no other PFI building contracts.

Departmental Consultants

Damian Green: To ask the Secretary of State for the Home Department how much has been spent on consultants by *(a)* her Department and *(b)* each of its non-departmental public bodies in 2007-08, broken down by consultancy. [255920]

Mr. Alan Campbell: The Home Office's expenditure on consultancy (including that of its Executive agencies) in the year 2007-08 was £95.6 million. This represents 7 per cent. of overall Home Office expenditure on third party goods and services. It is also 36 per cent. less than in 2006-07, reflecting a desire to reduce consultancy expenditure. The expenditure by Home Office NDPBs on consultancy in 2007-08 is tabled as follows:

	£
Independent Police Complaints Commission	243,848
National Policing Improvement Agency	71,400,000
Security Industry Agency	81,967
Serious Organised Crime Agency	1,615,000

It is not possible to give a detailed breakdown by consultancy, but the majority of this expenditure is on major programmes (e.g. eBorders, national identity scheme) where most of the work is contracted out to specialist contractors.

Departmental Data Protection

Paul Holmes: To ask the Secretary of State for the Home Department how many members of staff have been *(a)* investigated, *(b)* suspended and *(c)* dismissed for losing (i) memory sticks, (ii) laptop computers, (iii) desktop computers and (iv) mobile telephones in each year since 1997. [247959]

Mr. Woolas: No member of staff has been investigated, suspended or dismissed for losing memory sticks, laptop computers, desktop computers and mobile telephones in the last three years. Information prior to 2005 is not held centrally and to provide such information would incur disproportionate costs.

Anne Main: To ask the Secretary of State for the Home Department whether her Department uses WPA2 encryption protocol on all its wireless networks. [259804]

Mr. Woolas: Identity and Passport Services are the only part of the Home Office that uses wireless functionality on their networks. IPS utilises the WPA2 protocol to protect this wireless network.

Dr. Kumar: To ask the Secretary of State for the Home Department what mechanisms are in place to ensure the security of personal data held by her Department. [268357]

Mr. Woolas: Good progress is being made on implementing the mandatory minimum measures set out in the data handling procedures in Government Report published in 2008 (a copy of which is in the House Library) following the review undertaken by Robert Hannigan. These and other mechanisms are being applied across the Home Office to reduce the risks to the security of personal and other sensitive information. These include:

Establishing a board-level senior information risk owner for the Home Office, and counterparts in each of our agencies and non-departmental public bodies;

Establishing an information assurance risk assessment and management process;

Creating a register of all information assets, identifying owners for all those assets and training those owners in managing information handling risks;

Carrying out training and raising awareness amongst all staff;

Setting up a bureau to allow any restricted or personal data that need to be sent, or received from, beyond the secure network to be encrypted;

Restricting the ability to write data to removable media to those that have a business need to do so;

Replacing existing USB sticks with encrypted ones, where they are required; and

Obtaining assurances from delivery partners that they will handle our data in line with the Hannigan requirements.

Departmental Detergents

Annette Brooke: To ask the Secretary of State for the Home Department if she will make it her policy to ensure that no cleaning products or ingredients of cleaning products used by her Department have been tested on animals. [261125]

Mr. Woolas: My Department inclusive of its agencies does not generally contract directly for cleaning services, but procures them through wider Facilities Management (FM) or operational service contractors. Typically contracts between my Department and FM suppliers stipulate that the suppliers should consider environmentally preferable products and materials. Our key suppliers have confirmed that their policy is only to use cleaning products or ingredients tested on animals if required to meet legal requirements.

National and international regulatory bodies require that products, ingredients and chemicals are tested to ensure that they are not a danger to children, adults, household pets and the environment. Until reliable alternatives are developed, this means that procedures have to be performed using animals.

Departmental Empty Property

Mr. Philip Hammond: To ask the Secretary of State for the Home Department what estimate she has made of the change in the cost to her Department of maintaining empty public buildings leased by it as a result of the changes to empty property rate relief that came into effect in April 2008. [267905]

Mr. Woolas: The Home Office including its Executive Agencies made budgetary provision in the financial year 2008-09 for an additional £65,377 as a result of the changes to empty rates relief that came into effect on 1 April 2008.

Departmental Energy

Greg Clark: To ask the Secretary of State for the Home Department how much *(a)* electricity, *(b)* gas and *(c)* other fuel was used by (i) her Department and (ii) each of its agencies in each of the last 10 years. [267343]

Mr. Woolas: Central Government Departments and their executive agencies are required to report performance data on their energy consumption for their office estate annually as part of the Sustainable Development in Government (SDiG) reporting process, to assess performance against the target to reduce carbon dioxide emissions from offices by 12.5 per cent. by 2010-11 against a 1999-2000 baseline.

The Department does not hold comprehensive information on how much electricity, gas and other fuel was used across the whole Home Office estate and its agencies for the last 10 years.

The latest assessment of Government's performance against these targets was published by the Sustainable Development Commission on 12 December 2008:

http://www.sd-commission.org.uk/sdig2008/

Departmental Freedom of Information

Mr. Ruffley: To ask the Secretary of State for the Home Department what percentage of freedom of information requests received by her Department gave rise to responses that were published by her Department in 2008-09. [269688]

Mr. Woolas: The Ministry of Justice publishes quarterly statistics on the number of FOI requests received by central Government Departments, the most recent of which relate to the third quarter (July to September) of 2008. The statistics show that during the period April to September 2008, the Home Office received 1,019 requests, of which 394 resulted in a full or partial release of information.

82 (8 per cent. of the number of requests received) of these responses have been published in the Freedom of Information disclosure log on the Department's website.

Departmental Manpower

Damian Green: To ask the Secretary of State for the Home Department how many people are employed in her Department's departmental security unit. [269175]

Mr. Woolas: At the end of February 2009 there were 53.82 headcount full-time equivalent permanent paid civil servants working in the Home Office departmental security unit.

Departmental Marketing

Damian Green: To ask the Secretary of State for the Home Department how much funding her Department allocated for publicity and promotional purposes in its budget for 2008-09. [267455]

Mr. Woolas: The Home Office allocated £13,183,000 for the financial year 2008-09. This was allocated to a range of public facing activity which includes advertising, public relations, events, leaflets and supporting literature. This figure excludes executive agency and NDPB expenditure, VAT, supplier fees, and recruitment advertising.

Departmental Procurement

Mr. Grieve: To ask the Secretary of State for the Home Department with reference to the answer of 21 October 2008, *Official Report*, column 259W, on departmental procurement, how much was paid to *(a)* the Labour party, *(b)* Biometrix, *(c)* Information Risk Management plc, *(d)* Good Relations Ltd. and *(e)* Marks and Spencer Lunch to Go in 2007-08; and for what purpose in each case. [241874]

Mr. Woolas: Based on the purchase order data held in the Home Department's financial database, the details of the payments made to *(a)* the Labour party, *(b)* Biometix *(c)* Information Risk Management plc, *(d)* Good Relations Ltd. and *(e)* Marks and Spencer Lunch to Go in 2007-08 are as follows:

Table 1

Supplier/organisation	*Date*	*Description of purchase*	*Value (£)*
The Labour party	25 October 2007	Provision of Security at Annual Labour Conference 2006. This was a further payment in relation to costs that had not been submitted at the time of the initial conference	11,748.73
The Labour party	25 October 2007	Provision of security at Annual Labour Conference 2007	1,267,359.00

In accordance with section 170 of the Criminal Justice and Public Order Act 1994, the Home Office reimburses security costs incurred by political parties provided that this is accompanied by a letter from the Chief Officer of Police for the host area confirming that the security measures are justified.

Table 2

Supplier/organisation	*Date*	*Description of purchase*	*Value (£)*
Biometix	25 March 2008	Tool for analyzing Biometric data. Performix PC Desktop Licence with 12 months support	4,990.00
Information Risk Management plc	26 March 2008	To conduct an IT Healthcheck on security of Criminal Justice Xhibit portal. This involved internal and external penetration tests to assess vulnerability	14,080.00
Good Relations Ltd.	13 April 2007	Provision of weekly news summaries to the Office of Criminal Justice Reform (OCJR) and Criminal Justice Technology (CJIT), now MOJ	46,978.00
Marks and Spencer Lunch to Go	18 June 2007	Working lunch	137.29
Marks and Spencer Lunch to Go	25 June 2007	Working lunch for external Swedish visitors attending meeting	77.87
Marks and Spencer Lunch to Go	23 July 2007	Working lunch for PSA/APACS event paid for by Police and Crime Standards Directorate (PCSD)	164.75
Marks and Spencer Lunch to Go	7 August 2008	Working lunch	331.20

Mr. Philip Hammond: To ask the Secretary of State for the Home Department whether there has been any nugatory cost to her Department and its agencies relating to tendered procurement where the tender process has been cancelled prior to the award of the contract in the last three years. [242462]

Mr. Woolas: In the last three years the Home Department and its Executive agencies have not incurred any nugatory bid costs from suppliers where tender processes have been cancelled prior to the award of contract.

Departmental Public Expenditure

Mr. Laws: To ask the Secretary of State for the Home Department how much capital expenditure has been brought forward in response to the economic downturn by her Department, its agencies and non-departmental public bodies to *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11; from which years such expenditure has been brought forward; and if she will make a statement. [251399]

Mr. Woolas: As announced in the pre-Budget report on 24 November, £20 million of capital expenditure has been brought forward from 2010-11 to 2009-10 to improve the estates of the Serious Organised Crime Agency and the National Police Improvement Agency, developing and installing high technology systems and enhancing intelligence gathering against serious organised crime.

Dr. Cable: To ask the Secretary of State for the Home Department what her latest estimate is of her Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if she will make a statement. [268121]

Mr. Woolas: As published in the Pre-Budget report on 24 November 2008, the Home Office capital budget in 2008-9 is £0.9 billion, in 2009-10 £0.8 billion, and in 2010-11 £0.8 billion. The Government have not set Departments' Capital DEL budgets for years beyond 2010-11. Capital DEL budgets for 2011-12 and beyond are a matter for the next spending review. The Government do, however, publish projections for PSNI (Public Sector Net Investment) over the forecast period at Budgets and Pre-Budget reports.

Chris Grayling: To ask the Secretary of State for the Home Department with reference to tables 52 and 53 in her Department's Annual Report 2008, under what budgetary headings expenditure under the *(a)* resource and *(b)* capital budget for the (i) National Policing Improvement Agency, (ii) Serious Organised Crime Agency, (iii) Office for Security and Counter-Terrorism, (iv) Office of the Immigration Services Commissioner, (v) UK Border Agency, (vi) Identity and Passport Service, (vii) Central Services and (viii) Research and Statistics Directorate has been incurred in 2008-09. [269224]

Jacqui Smith: The following tables set out the programmes which have incurred expenditure for the requested areas of work.

Budgetary headings are assumed to be the programme objects, sub-programmes and account descriptions as defined by HM Treasury, which inform HM Treasury financial management and reporting processes.

HM Treasury account description (resource)

Business	*Sub-Programmes*	*Wages and Salaries*	*Purchases and sales of goods/services*	*Grants to local authorities*	*Grants to private sector*	*EU grant income*	*Depreciation, cost of capital and provisions*

Business	*Sub-programmes*	*Capital expenditure net of sales*	*Capital support to local authorities*	*Capital grants to private sector and overseas*
Crime Reduction and Drugs	Crime Reduction	Yes	Yes	Yes
Crime Reduction and Drugs	Drugs	—	Yes	—

Chris Grayling: To ask the Secretary of State for the Home Department with reference to tables 5.2 and 5.3 in her Department's Annual Report 2008, under what budgetary headings expenditure under the *(a)* resource and *(b)* capital budget for the Independent Police Complaints Commission has been incurred in 2008-09. [269245]

Jacqui Smith: The Independent Police Complaints Commission has incurred expenditure under the following budget headings:

Wages and salaries

Purchases and sales of goods and services

Depreciation, cost of capital and provisions

Capital additions, net of sales

Budgetary headings are assumed to be the programme objects, sub-programmes and account descriptions as defined by HM Treasury, which inform HM Treasury financial management and reporting processes.

Departmental Stationery

Mr. Ruffley: To ask the Secretary of State for the Home Department how much her Department spent on *(a)* branded and *(b)* non-branded stationery in 2008-09. [269686]

Mr. Woolas: From best available information, the total expenditure in FY 2008-09 by the Home Department for both *(a)* branded stationery and *(b)* non-branded stationery was £3,011,000.

To separate stationery expenditure between *(a)* branded and *(b)* non-branded items would involve manually reprocessing source records and could be done only at disproportionate cost.

Departmental Training

Mr. Hands: To ask the Secretary of State for the Home Department with reference to the answer of 26 November 2008, *Official Report,* column 2243W, on departmental training, what personal training courses at public expense other Ministers in her Department have undertaken since 1 January 2008. [251316]

Mr. Woolas: Ministers in the Home Office have taken the following personal training courses at public expense since 1 January 2008:

Induction workshop

Departmental leadership development

Media training

Grant Shapps: To ask the Secretary of State for the Home Department how much has been spent on media training for each Minister in her Department in each of the last three years; how many sessions have been provided; and which organisations provided such training. [268550]

Mr. Woolas: Training is provided to Ministers as necessary in order to carry out their duties effectively under the Ministerial Code.

Departmental Written Questions

Mr. Amess: To ask the Secretary of State for the Home Department pursuant to the answer of 24 March 2009, *Official Report*, column 303W, on Departmental written questions, which are the nine questions referred to in the table as over 15 days late; what the reasons are for the time taken to respond in each case; and if she will make a statement. [268584]

Mr. Alan Campbell: The unique identification numbers (UIN) in respect of the nine questions referred to in my answer of 24 March are as follows:

248332

249216

241568

245482

245483

251937

244798

251292

240954

Deportation: Children

Damian Green: To ask the Secretary of State for the Home Department how many child asylum seekers were removed from the UK in *(a)* 2006, *(b)* 2007 and *(c)* 2008. [269168]

Mr. Woolas: The following table shows the number of child asylum seekers, including dependants, removed or voluntarily departed from the UK in 2006, 2007 and 2008.

Published statistics on immigration and asylum are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Child[1] asylum seekers[2] removed or voluntarily departed from the United Kingdom[3], 2006-08

	Number of departures[4]		
	2006	*2007[5]*	*2008[5]*
Total child asylum cases	1,645	905	705

[1] Persons recorded as being under 18 on the date of their departure from the UK.

[2] Persons who had sought asylum at some stage, including dependants.

[3] Includes persons departing voluntarily after notifying the UK Border Agency of their intention to leave prior to their departure, persons leaving under Assisted Voluntary Return Programmes run by the International Organization for Migration and persons who it has been established left the UK without informing the immigration authorities.

[4] Removals and voluntary departures recorded on the system as at the dates on which the data extracts were taken.

[5] Provisional figures.

Deportation: Offenders

Chris Grayling: To ask the Secretary of State for the Home Department how many foreign national prisoners were deported in 2008; and how many of those had been convicted of firearms offences. [269239]

Jacqui Smith: In March 2009 the quarterly National Asylum Statistics were published and it reported that there were 5,395 foreign national prisoners who had been removed or deported in 2008. The information on the numbers of those who had previously been convicted of firearms offences, or any other offence types, can only be obtained at a disproportionate cost. In order to obtain the full criminal history of such individuals it would be necessary to examine individual case files held by the UK Border Agency and cross-reference that information with police records.

Designated Public Places Orders

Chris Grayling: To ask the Secretary of State for the Home Department how many Designated Public Place Orders have been introduced in each year for which figures are available. [269236]

Jacqui Smith: The Home Office has been informed that 707 Designated Public Place Orders (DPPO)s have been implemented throughout England and Wales. This figure is broken down by year as follows:

	Number
2001	3
2002	68
2003	78
2004	109
2005	102
2006	122
2007	120
2008	84
2009	[1]21

[1] So far.

A full list of the councils which have implemented the orders can be accessed at the following internet link which includes commencement date:

http://www.crimereduction.homeoffice.gov.uk/alcoholorders/alcoholorders09.htm

Detainees: Children

Lynne Featherstone: To ask the Secretary of State for the Home Department how many children were held in immigration removal centres in each month during 2008; and if she will make a statement. [263891]

Mr. Woolas: The requested information is not held centrally and would be available only through the detailed examination of individual case files at disproportionate cost.

The following table shows the numbers of children detained within the UK Border Agency detention estate solely under Immigration Act powers on a snapshot basis as at the last Saturday of each quarter of 2008, broken down by length of detention (i.e. of those detained on that particular day, the numbers of whom had been detained for the lengths of time specified).

National Statistics on children detained solely under Immigration Act powers on a snapshot basis are published quarterly. This information is published in Tables 9 to 11 of the Control of Immigration: Quarterly Statistical Summary, United Kingdom bulletins which are available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Children[1] recorded as being in detention in the United Kingdom solely under Immigration Act powers, by length of detention as at the last Saturday of each quarter in 2008[2, 3]

				Number of children[1]
Length of detention[4, 5]	*29 March*	*28 June*	*27 September*	*27 December*
7 days or less	10	15	30	5
8 to 14 days	*	5	*	15
15 to 28 days	5	20	20	15
29 days to less than 2 months	15	15	5	5
2 months to less than 3 months	5	—	—	*
3 months to less than 4 months	—	—	—	—
4 months to less than 6 months	—	—	—	—
6 months to less than 1 year	—	—	—	—
1 year or more	—	—	—	—
Total	35	55	55	40

[1] People recorded as being under 18 on the last Saturday of each quarter. These figures will overstate if any applicants aged 18 or over claim to be younger.

[2] Figures rounded to the nearest 5 (— = 0, * = 1 or 2), may not sum to the totals shown because of independent rounding and exclude persons detained in police cells, Prison Service establishments and those detained under both criminal and immigration powers.

[3] Figures include dependants.

[4] Relates to most recent period of sole detention.

[5] 2 months is defined as 61 days; 4 months is defined as 122 days; 6 months is defined as 182 days.

Detainees: Offenders

Damian Green: To ask the Secretary of State for the Home Department (1) how many foreign national former prisoners were held in the immigration detention estate on 12 January 2009; [251641]

(2) how many foreign national prisoners were being held in prisons awaiting deportation on 12 January 2009. [251642]

Mr. Woolas: The Chief Executive of the UK Border Agency has regularly written to the Home Affairs Committee in order to provide them with all of the most robust and accurate information available. In her letter of 23 July 2008 she advised the Committee that there were around 1,650 foreign criminals who had completed their sentence and were detained under immigration powers pending deportation action. A copy of this letter is available in the Library of the House. She also recently advised the Public Accounts Committee during her appearance before them on 5 March that, of those who are detained pending deportation action, around 1,200 are held within the UK Border Agency detention estate.

The information relating to the numbers of foreign national prisoners subject to deportation action who are either serving their sentence or are being detained under immigration powers in prisons is not centrally held. In order to obtain the information it would be necessary to examine individual case files at disproportionate cost.

Diplomatic Service: Firearms

Tom Brake: To ask the Secretary of State for the Home Department pursuant to the answer of 26 March 2009, *Official Report*, column 663W, on the Diplomatic Service: security guards, how many requests to carry firearms whilst in Great Britain were received from each country in each of the last five years. [268795]

Caroline Flint: Detailed records are not kept beyond three years, and for security reasons it would be inappropriate to disclose details of protection requests received and measures provided.

Dispersal Orders

Mr. Burstow: To ask the Secretary of State for the Home Department how many authorities in each *(a)* London borough and *(b)* region have issued dispersal orders in each year since their introduction; and if she will make a statement. [269268]

Mr. Woolas: Between January 2004 and 31 March 2006, the police have used the power in section 30 of the Anti-social Behaviour Act 2003 to disperse unruly groups in over 1,000 designated areas. Figures are not available broken down by year. Figures for 1 April 2006 to 31 March 2008 by police force area are due to be published shortly.

DNA: Databases

Simon Hughes: To ask the Secretary of State for the Home Department (1) when she plans to bring forward proposals for the change in Government policy necessary for the UK to comply with the European Court of Human Rights' decision in the case of S and Marper; [265331]

(2) when she expects to make a decision on steps to be taken in response to the European Court of Human Rights' decision on the case of S and Marper. [265894]

Mr. Alan Campbell: I intend to consult on proposals for implementing the judgment as part of a wider Forensics White Paper. This is due to be published before summer 2009.

James Brokenshire: To ask the Secretary of State for the Home Department what proportion of the data held on the national DNA database relates to DNA samples taken by *(a)* police forces in Scotland, *(b)* police forces in England and Wales and *(c)* the Police Service of Northern Ireland. [266917]

Mr. Alan Campbell: The following table shows the number and proportion of all subject profiles held on the national DNA database (NDNAD) by forces in Scotland, England and Wales, and Northern Ireland as at 30 March 2009.

The number of subject profiles held on the NDNAD is not the same as the number of individuals with a profile on the database. As it is possible for a profile to be loaded on to the NDNAD on more than one occasion, some profiles held on the NDNAD are replicates. This can occur, for example, if the person provided different names, or different versions of their name, on separate arrests, or because profiles are upgraded. The replication rate for the NDNAD is currently estimated at 13.5 per cent. although the rate may vary between forces.

Force	*Number of subject profiles*	*Number of individuals (Estimated)*	*Proportion of total subject profiles held on NDNAD*
England and Wales	5,258,779	—	93.67
Scotland	259,522	—	4.62
Northern Ireland	66,967	—	1.19
Other	29,143	—	0.52
Total	5,614,411	4,856,466	100

Drugs: Crime

Dr. Gibson: To ask the Secretary of State for the Home Department which drugs fall into Class *(a)* A, *(b)* B and *(c)* C under the Misuse of Drugs Act 1971; and what estimate she has made of the number of users of each drug in each class. [267858]

Mr. Woolas: A list of the most commonly encountered drugs currently controlled under the misuse of drugs legislation is available on the Home Office website at the following link:

http://www.homeoffice.gov.uk/documents/cdlist.pdf?view=Binary

The latest figures from the British Crime Survey, showing the estimated number of drug users for each drug covered in the survey are shown in the table.

Estimated numbers of 16 to 59-year-olds who have taken drugs ever in their lifetime, in the last year and in the last month

	Number (thousand) 2007-08 BCS		
	Used ever	*Used last year*	*Used last month*
Class A			
Any cocaine	2,441	740	330
Cocaine powder	2,408	734	320
Crack cocaine	276	44	31
Ecstasy	2,394	470	164
Hallucinogens	2,869	198	48
LSD	1,655	88	28
Magic Mushrooms	2,198	156	28
Opiates	263	53	35
Heroin	217	34	24
Methadone	134	41	28
Class A/B			
Amphetamines	3,741	329	113
Class B/C			
Tranquillisers	901	147	65
Class C			
Anabolic steroids	179	17	1
Cannabis	9,637	2,382	1,339
Ketamine	423	113	49

Estimated numbers of 16 to 59-year-olds who have taken drugs ever in their lifetime, in the last year and in the last month

	Number (thousand) 2007-08 BCS		
	Used ever	*Used last year*	*Used last month*
Not classified			
Amyl Nitrite	2,856	472	193
Glues	718	32	13
Any class A drug	4,469	949	421
Any drug	11,467	2,996	1,701

Notes:

1. Estimates are derived by multiplying the prevalence rate by the 2007 population aged 16 to 59 in England and Wales (based on mid-2006 estimates from the Office for National Statistics).

2. It is not possible to add estimated numbers of drug users together for different drug types as users may have taken more than one type of drug.

Entry Clearances

Paul Holmes: To ask the Secretary of State for the Home Department what estimate she has made of the number of *(a)* short-term and *(b)* long-term visa applications that were wrongly approved in each year since 1997. [241068]

Mr. Woolas: Visa services deploy a range of indicators and checks concerning the quality of decisions to issue a visa. These include sampling of decisions by Entry Clearance Managers, spot checks on whether applicants have left the UK, refusals of visa holders at ports of entry and monitoring of compliance when in the UK. In addition, the use of biometrics allows us to identify those who have entered the UK on a visa but subsequently destroyed their ID papers. This information is fed into risk profiles to inform future visa decisions. UKBA is also employing structured decision-making techniques to improve consistency in decision-making. The Independent Monitor for Entry Clearance scrutinises visa refusals not acceptances.

Mr. Waterson: To ask the Secretary of State for the Home Department how many applications for visas for entry into the UK were *(a)* accepted and *(b)* refused in each year since 2003. [268375]

Mr. Woolas: The total number of (a) visa applications received (b) visas issued and (c) visas refused in each year from 2004-08 is shown in the following table. Reliable data for prior years are not held.

	Applications	*Issued*	*Refused*
2004	2,515,845	1,994,384	419,819
2005	2,575,518	2,075,781	459,958
2006	2,747,782	2,243,346	480,238
2007	2,551,890	2,071,878	472,418
2008	2,438,634	1,952,363	470,811

Entry Clearances: China

Mr. Hunt: To ask the Secretary of State for the Home Department what changes in the charge for visas for *(a)* business visitors, *(b)* students, *(c)* family visitors, *(d)* spouses or civil partners of a settled person, *(e)* children of a settled person, *(f)* prospective students and *(g)* visitors from China there have been in the last three years. [242518]

Mr. Woolas *[holding answer 11 December 2008]:* The visa fees for business visitors, students, family visitors, spouse or civil partners of a settled person, children of a settled person, prospective students and visits from China for the last three years are listed in the following table:

			£
	2006-07	*2007-08*	*2008-09*
Business visitors	50	63	65
Students	85	99	99
Family visitors	50	63	65
Spouses or civil partners of a settled person	260	500	515
Children of a settled person	260	500	515
Prospective students	85	99	99
Visitors from China	50	63	65
Long term visitor visa—multiple entry visa valid for 1, 2, 5 or 10 years (available to business visitors, family visitors and visitors from China)	85	200	205

We recently ran a pilot in China from 3 March 2008 to 3 October 2008 for visitors applying as a group to travel to the UK with a known and trusted agent. It was only open to those applicants who intended to travel with an agent who is part of the Approved Destination Scheme. We set a fee of £44 during March which then increased to £45 from April.

Entry Clearances: East Sussex

Mr. Waterson: To ask the Secretary of State for the Home Department how many visa applications have been made by residents of *(a)* Eastbourne and *(b)* East Sussex constituency in each of the last 10 years. [267273]

Mr. Woolas: The information requested is not held centrally.

Entry Clearances: Fees and Charges

Mr. Hunt: To ask the Secretary of State for the Home Department when she next expects to announce revised visa charges for entry into the UK. [242888]

Mr. Woolas: We announced the visa fees for 2009-10 in a written ministerial statement on 12 February 2009, *Official Report,* column 91WS.

Entry Clearances: Overseas Students

Mr. Willetts: To ask the Secretary of State for the Home Department by what means and on what dates the recent changes affecting the length of student visas issued under the points-based immigration system were communicated to *(a)* universities, *(b)* media organisations and *(c)* others. [268647]

Mr. Woolas: I agreed the change to the policy change on length of student visas under Tier 4 of the points based system on 24 February 2009. On the 25 February I confirmed these changes in writing to my right hon. Friend the Minster for high education and intellectual property and to Baroness Warwick, chief executive of Universities UK.

The principal consultative body with which we engage in the education sector is the Joint Education Taskforce. The taskforce includes universities, further education colleges and independent schools as well as members of the relevant bodies such as UUK, UKCISA, UCAS and many others. Those on the taskforce have agreed to cascade communications to their members and to publish any correspondence from the UK Border Agency on their websites as soon as reasonably practicable.

We presented the policy change on length of student visas to the meeting of the Joint Education Taskforce on 26 February 2009. We also presented updates on the maintenance requirements under Tier 4. A letter was distributed to the taskforce on 27 February confirming the new arrangements and asking members to advise the sector of the changes and to draw attention to the newly-published draft policy guidance on Tier 4 on the UK Border Agency website. The publication of the draft guidance was highlighted by an accompanying news item on the UK Border Agency website.

On 6 March, a further letter was sent to the taskforce to inform them that the guidance for Tier 4 migrants would be published on the UK Border Agency website after the immigration rules were laid in Parliament on 9 March, which they were asked to circulate to their members.

On 10 March, I made a written ministerial statement introducing a statement of changes to the immigration rules (HC314) which was accompanied by an explanatory memorandum. A press release supported this announcement.

Additionally, the final migrant policy guidance for Tier 4 and HC314 itself were published on the website with a supporting news article.

On 31 March, Tier 4 came into effect. This was supported by a press release and updates to the UK Border Agency website on 31 March, as well as an article published on 2 April in *The Times Higher Education Supplement*. These all referred to the change in length of leave under Tier 4.

Damian Green: To ask the Secretary of State for the Home Department which colleges are on the UK Border Agency's accredited institution list; and if she will make a statement. [269173]

Mr. Woolas: There are at present 1,496 colleges on the Register of Sponsors under Tier 4 of the points-based system. A full list of the establishments is available on the UK Border Agency website which is update twice weekly.

Entry Clearances: Overseas Visitors

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what estimate she has made of the number of persons who had travelled to the UK on visitor visas who remained in the UK after the expiry of the visas in the latest period for which figures are available. [269158]

Mr. Woolas: Since the phasing out of embarkation controls in 1994 no Government have ever been able to produce an accurate figure for the number of people who are in the country illegally, including those who have overstayed on their visa. By its very nature it is impossible to quantify accurately and that remains the case.

As part of the Government's 10-point plan for delivery, by 2010 over 95 per cent. of non-EEA foreign nationals will be counted in and out of the country, rising to 100 per cent. by 2014. This is part of a sweeping programme of border protection which also includes the global roll-out of fingerprint visas, watch-list checks for all travellers before they arrive or depart from the UK and ID cards for foreign nationals.

Extradition: USA

Chris Huhne: To ask the Secretary of State for the Home Department how many people the Government have sought to extradite from the United States in each year since 2001; and how many people were extradited from the United States to the UK in each of those years. [264514]

Jacqui Smith: The information requested is in the following table. The data are normally used for management information only and are not subject to the detailed checks that apply for National Statistics publications. The data are provisional and may be subject to change.

	UK extradition requests made to USA	*Persons returned by USA to UK*
2001	4	3
2002	9	3
2003	5	2
2004	2	4
2005	7	1
2006	4	4
2007	16	7
2008	8	10

Note:
Scotland makes and (until 1 April 2008) Northern Ireland made its own extradition requests. Statistics for such cases are not included in this table.

Chris Huhne: To ask the Secretary of State for the Home Department how many people *(a)* were extradited and *(b)* successfully appealed against extradition from the UK to the United States in each year since 2001; and how many people were subject to such extradition proceedings in each of those years. [264516]

Jacqui Smith: The information requested is in the following table. The data are normally used for management information only and are not subject to the detailed checks that apply for National Statistics publications. The data are provisional and may be subject to change.

	(a) Persons surrendered to USA	*(b) Persons discharged from US extradition requests*	*(c) Extradition arrests pursuant to US requests*
2001	8	0	14
2002	12	4	8
2003	6	2	5
2004	8	0	35
2005	14	1	6
2006	19	2	15
2007	9	1	10
2008	6	3	9

Note:
Cases involving persons in Scotland and in Northern Ireland are handled by the Scottish Ministers and were handled until 1 April 2008 by Northern Ireland Ministers. Statistics for such cases are not included in this table.

Fingerprints: Databases

Damian Green: To ask the Secretary of State for the Home Department on how many occasions staff of the UK Border Agency accessed the Eurodac database in *(a)* 2008 and *(b)* each of the first three months of 2009. [269179]

Mr. Woolas: The latest published data for the United Kingdom's transactions with the Eurodac database are for 2007 and can be found in the European Commission's Annual Report to the Council and the European Parliament on the activities of the Eurodac Central Unit. This report can be accessed at:

http://eur-lex.europa.eu/LexUriServ/LexUriServ.do?=COM:2009:0013:FIN:EN:PDF

and a copy will be placed in the House Library.

Information for 2008 and 2009 will be published in the annual reports for these years.

Firearms: Crime

Paul Holmes: To ask the Secretary of State for the Home Department how many *(a)* gun crimes and *(b)* arrests relating to gun crime there were in (i) England and Wales and (ii) each police force area in each of the last five years. [240935]

Mr. Woolas: Available data relate to offences involving firearms (excluding air weapons) recorded between 2003-04 and 2007-08, and were published in table 2.12 of 'Homicides, Firearm Offences and Intimate Violence 2007-08' (HOSB 02/09), which can be found online at:

http://www.homeoffice.gov.uk/rds/pdfs09/hosb0209.pdf

Firearms are taken to be involved in a crime if they are fired, used as a blunt instrument or used as a threat.

Data on arrests relating to gun crime cannot be provided by the Home Office since *(a)* the centrally held firearm offences database does not record detection or suspect data, and *(b)* offences involving firearms cannot be identified on the centrally held arrests database.

Forced Marriage

Mr. Evans: To ask the Secretary of State for the Home Department what estimate she has made of the number of forced marriages which occurred in *(a)* Lancashire and *(b)* England in each of the last five years. [268185]

Mr. Coaker: We know that forced marriage is a hidden issue, where many victims are too afraid to come forward and seek help. Given this, it is difficult to assess the true scale of the problem. The Government's Forced Marriage Unit deal with a significant number of cases every year. However, it is only possible to give figures for the whole of the UK, as opposed to specific regions.

In 2008, the FMU dealt with 420 cases (213 assistance cases, and 207 reluctant sponsor cases).

In 2007, the FMU dealt with 251 cases (165 assistance cases and 86 reluctant sponsor cases).

In 2006, the FMU dealt with 182 cases (99 assistance cases, and 83 reluctant sponsors).

In 2005, the FMU dealt with 152 cases (not broken down into assistance and reluctant sponsor cases).

In 2008, the FMU began keeping more detailed statistics on all reportings of forced marriage that were referred to the FMU. During the whole of 2008, the FMU received reports of over 1,600 possible forced marriage cases. Of those who gave a location, 15 per cent. were in the North West region. Unfortunately these statistics are not broken down by county.

Foreign Workers: Fixed Penalties

Chris Grayling: To ask the Secretary of State for the Home Department how many fixed penalty notices have been issued to workers from *(a)* Bulgaria and *(b)* Romania for breach of the Accession (Immigration and Worker Authorisation) Regulations 2006 since 1 January 2007. [257048]

Jacqui Smith: Between 1 January 2007 and 31 January 2009, a total of 99 fixed penalty notices for breach of the Accession (Immigration and Worker Authorisation) Regulations were issued to workers from Bulgaria, and 287 to workers from Romania.

These figures do not constitute part of National Statistics as they are based on internal management information. The information has not been quality assured under National Statistics protocols and should be treated as provisional and subject to change.

Published statistics on immigration and asylum are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Homicide

Mr. Hague: To ask the Secretary of State for the Home Department how many of those who have served at least part of a life sentence for homicide in the last 10 years were the partner or ex-partner of the victim at the time of the homicide. [268457]

Mr. Woolas: It is not possible to extract the requested information from databases centrally held by the Ministry of Justice.

Available data from the Home Office's Homicide Index relate to offences currently recorded as homicides in England and Wales as at 4 November 2008. Latest analysis was published in "Homicides, Firearm Offences and Intimate Violence 2007/08" (Home Office Statistical Bulletin 02/09), which is available on the Home Office RDS website.

Between 1998-99 and 2007-08, there were 546 currently recorded homicides where the victim's relationship to principal suspect was 'current or ex-partner' and the principal suspect was sentenced to life imprisonment having been convicted of murder, section 2 manslaughter or other manslaughter. This figure excludes those persons for whom a Restriction Order (Mental Health Act 1983 s41) was imposed by the court, since the sentence is without limit of time, and those for whom a Hospital Order (Mental Health Act 1983 s37(1)) was imposed.

Human Trafficking

Mr. Burstow: To ask the Secretary of State for the Home Department when she expects to publish the analysis of outcomes of Pentameter 2 undertaken by the UK Human Trafficking Centre; and if she will make a statement. [263418]

Mr. Woolas: A report on the outcomes of Operation Pentameter 2 is planned to be published by Gloucestershire Constabulary in the spring.

There are no plans for the UKHTC to publish a report on its analytical work because of operational sensitivities.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what programmes her Department has developed to tackle the illegal trafficking of individuals; how much has been allocated to such programmes; and what organisations are responsible for executing them. [269156]

Mr. Woolas: A programme of 85 cross Government actions are outlined in the United Kingdom's Action Plan which is updated annually with the responsible agencies listed against each action. Progress on all areas of work is overseen by the Inter Departmental Ministerial Group of which the Parliamentary Under-Secretary of State for the Home Department, my hon. Friend the Member for Tynemouth (Mr. Campbell) is Chair.

Human trafficking is core police business and all forces should have the capacity to deal with trafficking problems in their area. This will be reinforced by the joint UK Human Trafficking Centre and National Policing Improvement Agency programme to embed human trafficking within mandatory police training courses throughout 2009. Training on human trafficking issues within the UK Border Agency is mandatory for all staff up to grade 7 level.

The Serious Organised Crime Agency has tackling organised immigration crime as its second highest priority. SOCA co-ordinates two programmes of activity aimed at organised immigration crime, including human trafficking which are aimed at the reduction of such crime at source and key nexus points and to reduce the exploitation of migrants in the UK by organised criminal gangs.

We shall fund the UKHTC to the tune of £4.5million for the current spending review period and SOCA receives an overall budget of £400 million.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment she has made of the measures in place to prevent further exploitation of trafficked individuals prior to deportation; how many trafficked individuals detained in *(a)* 2006-07 and *(b)* 2007-08 were deported; and to which countries. [269157]

Mr. Woolas: Ratification of the Council of Europe convention on action against human trafficking in December 2008 underlines the Government's commitment to protecting victims of trafficking.

The Home Office monitors UN and EU reports on human rights and criminal justice issues in other countries. Specific country information is available for consideration when any return is being instigated. We also work with the International Organisation for Migration (IOM) and have established partnerships with a number of charities to offer reintegration assistance to victims who are returned to their country of origin.

Where there is a real risk that a person would be re-trafficked and subjected to torture or inhuman or degrading treatment in the proposed destination country, removal of that person would be contrary to the UK's obligations under the ECHR. In those circumstances the person concerned will generally be granted some form of leave.

The information concerning the deportation of trafficked individuals is not currently available in the format requested. As part of the implementation of the convention we are putting in place mechanisms for systematically capturing data relating specifically to victims of trafficking. We anticipate these data will start to become available in the summer.

Human Trafficking: Compensation

Gordon Banks: To ask the Secretary of State for the Home Department what recent discussions she has had with *(a)* her overseas counterparts and *(b)* Ministerial colleagues on financial compensation to individuals trafficked into the UK. [265832]

Mr. Alan Campbell: Compensation for victims of human trafficking can be sought in a number of ways. Prosecutors can request compensation orders upon a conviction or through the criminal injuries compensation scheme (CICS). We currently fund the charity Victim Support to assist in applications to the Criminal Injuries Compensation Authority and the Crown Prosecution Service has issued guidance to prosecutors on the matter of compensation orders.

Recently it has been highlighted in the media that four women trafficked into sexual exploitation received compensation through CICS of over £140,000 each.

Identity Cards: Costs

Damian Green: To ask the Secretary of State for the Home Department what percentage of the costs of identity cards for *(a)* UK citizens, *(b)* Irish citizens and *(c)* foreign nationals she expects to be covered by receipts from fees for issue of the cards. [269172]

Mr. Coaker: All operational resource costs associated with providing passports and ID cards to British and Irish citizens resident in the UK are expected to be funded through fee income. Initial set-up costs for this group will be funded by the Home Office.

The operational cost of issuing identity cards for foreign nationals, including capturing and registering biometric information, will be fully recovered through the application fees.

Identity Cards: Interviews

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to the Answer of 17 March 2009, *Official Report*, column 1093W, on the national identity register, in what type of cases may individuals be asked to attend an interview when they apply for registration on the National Identity Register or for a replacement card. [268936]

Mr. Woolas: Whether an individual would be invited to attend an interview prior to registration on the National Identity Register will depend on the particular circumstances of the application but, as now with first time adult applicants for passports, it is likely that the Identity and Passport Service would need to interview an applicant where there is limited evidence of identity such as no previous passport history. An interview is one way of helping to establish identity.

Illegal Immigrants: Amnesties

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment she has made of the merits of offering an amnesty to illegal migrants; and if she will make a statement. [269153]

Mr. Woolas: The Government have ruled out an amnesty and this remains our position. An amnesty would be unfair to those who are here legally; it would act as a pull factor for even more attempts at illegal immigration; and it would counter the achievements by the UK Border Agency to improve our border and immigration system.

Illegal Immigrants: Prosecutions

Damian Green: To ask the Secretary of State for the Home Department pursuant to the answer of 23 March 2009, *Official Report*, column 118W, on illegal immigrants: arrests, how many *(a)* prosecutions and *(b)* deportations were made following the 1,685 enforcement visits made to restaurants and takeaway food outlets in 2008. [267458]

Mr. Woolas: The UK Border Agency records details of the number of individuals arrested as suspected immigration offenders, details of prosecutions, and the details of those removed on three separate systems. In order to achieve the required level of data quality, the cross-referencing of data between the three systems could be completed only by the detailed examination of individual case records at disproportionate cost.

The Home Office publishes statistics on the number of persons removed and departed voluntarily from the UK on a quarterly and annual basis, as well as statistics on persons proceeded against for offences under Immigration Acts in England and Wales annually. National Statistics on immigration and asylum are placed in the Library of the House and are available from the Home Office's Research, Development and Statistics website at:

> http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Immigrants: Fingerprints

Damian Green: To ask the Secretary of State for the Home Department how many *(a)* records and *(b)* data subjects there are on the Immigration and Asylum fingerprint database. [269176]

Mr. Woolas: The number of records held on the Immigration and Asylum fingerprint database for the week ending 28 March 2009 is 4.80 million.

The number of data subjects there are on the Immigration and Asylum fingerprint database for the week ending 28 March 2009 is 4.14 million

Immigration

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many legacy cases of indefinite leave to remain are under consideration; what the longest time for a decision to be made on such a case has been; and when she expects the last such case to have been disposed of. [267716]

Mr. Woolas *[holding answer 2 April 2009]*: In July 2006 the former Home Secretary informed Parliament that the UK Border Agency had a backlog of around 400,000 to 450,000 electronic and paper records, which were riddled with duplication and errors, and include cases of individuals who have since died or left the country, or are now EU citizens.

Due to the poor data quality of these cases, to identify how many cases will result in the granting of indefinite leave to remain that are currently under consideration would involve disproportionate cost.

The information requested regarding the longest time for a decision to be made on a legacy case is not collated and could be obtained only at a disproportionate cost through the manual examination of individual case files.

The UK Border Agency is aiming to conclude the backlog of legacy cases by summer 2011 and is on track to do so.

Tony Baldry: To ask the Secretary of State for the Home Department when she expects to determine the application for indefinite leave to remain of Zakia Ahmed, reference A1387430, case ID10352843. [268397]

Mr. Woolas: I wrote to the hon. Member on 6 April 2009.

Immigration Controls

Damian Green: To ask the Secretary of State for the Home Department what guidance her Department issues to entry clearance officers on the registration of the application date in respect of the points-based immigration system. [267451]

Mr. Woolas: Guidance about the date of an entry clearance application is available in the points-based system policy guidance, which is published on the UK Border Agency website.

The current published version of the guidance says that the date an entry clearance application is made is

> "the date that the fee associated with the application is paid and the applicant's biometric details taken".

The UK Border Agency will shortly be publishing an amended version of the guidance which will say that the date of application is

> "the date that the fee associated with the application is paid".

Mr. Hancock: To ask the Secretary of State for the Home Department what training on the Tier 1 points-based system her Department has provided to *(a)* entry clearance officers and *(b)* other employees of (i) her Department and (ii) the UK Border Agency. [268226]

Mr. Woolas *[holding answer 2 April 2009]*: Entry clearance officers received full Tier 1 training during April 2008 which encompassed PBS overview and how to consider applications under the new system.

UK Border Agency staff received awareness sessions (248 staff) which covered Tier 1 General. Specifically 70 caseworkers were trained during February/March 2008 to process in-country applications. This involved a three day training course which covered all elements of Tier 1. Further training has been provided as new caseworkers join the Agency.

Immigration Controls: Eurostar

Mrs. Ellman: To ask the Secretary of State for the Home Department whether UK Border Agency staff assigned to juxtaposed controls at Eurostar terminals in France and Belgium have received training in the identification of suspected children being trafficked; and how many children have been so identified since the introduction of juxtaposed controls. [268710]

Mr. Woolas: All Border Force staff are required to complete a learning package on human trafficking which will teach them how to identify potential victims of trafficking.

In October 2007, a separate learning package was launched to ensure that staff have the right knowledge to safeguard children. This was designed in partnership with other organisations and is compulsory for all staff regardless of grade or Department.

A number of staff also receive specialised training in interviewing children.

Juxtaposed controls were introduced at France and Belgium in 2004. Since then, UK Border Agency staff, at the juxtaposed controls, have identified 110 cases involving children and vulnerable adults (up to the age of 30 years) suspected of being trafficked.

These figures have been sourced from locally collated management information and do not represent National Statistics.

Immigration: Biometrics

Lynne Jones: To ask the Secretary of State for the Home Department how much her Department has allocated to the Process Improvement Fund for Wave One airports. [258101]

Mr. Woolas: In November it was announced that a Process Improvement Fund of up to a maximum of £500,000 would be established to enable Wave One participants to take advantage of the opportunities identity cards provide in improving the efficiency and effectiveness of existing pre-employment checking processes, during the 18 month evaluation period.

Damian Green: To ask the Secretary of State for the Home Department pursuant to the answer of 16 March 2009, *Official Report*, columns 915-6W, on biometrics: airports, how much her Department spent on IRIS technology in *(a)* 2008 and *(b)* 2009 to date. [267462]

Mr. Woolas: The costs incurred to the Department for the maintenance and support of Iris Recognition Immigration System (IRIS), are as follows:

(a) 2008: £568,100

(b) January to March 2009: £149,600.

Damian Green: To ask the Secretary of State for the Home Department which UK airports are using the Iris Recognition Immigration System (IRIS) what percentage of passengers passing through immigration control at each airport was processed through IRIS on the latest date for which figures are available; and if she will make a statement. [269171]

Mr. Woolas: The Iris Recognition Immigration System is in use at ten locations, the five Heathrow Terminals, the two Gatwick Terminals, Manchester Terminals 1 and 2 and at Birmingham Airport.

Over the period from August 2008 to January 2009, the percentages of passengers at those ports passing through the IRIS gates are as follows:

	Percentage
Heathrow	1.11
Gatwick	0.53
Manchester	0.26
Birmingham	0.49

These data are normally used for management information only and are not subject to the detailed checks that apply for National Statistics publications.

Immigration: Marriage

Mr. Grieve: To ask the Secretary of State for the Home Department how many people granted settlement last year after four or five months on a work permit had married a person not subject to immigration control prior to their application for settlement. [24[illegible]01]

Mr. Woolas: The information is not held or collated, and to obtain it would require examination of each individual case at disproportionate cost.

Immigration: Married People

Damian Green: To ask the Secretary of State for the Home Department what plans her Department has to introduce pre-certification for marriage applications for foreign under 21-year-olds. [251640]

Mr. Woolas: We raised the minimum age at which someone can sponsor a spouse to come to the UK or be sponsored as a spouse from 18 to 21 on 27 November 2008.

We are continuing to look at what more can be done to strengthen the marriage route against abuse, and ensure that it assists a spouse's integration into the UK at an early stage. This includes work to develop our proposal, as set out in the document 'Marriage Visas: The Way Forward' published July 2008, to make it a requirement for sponsors to register their intention to sponsor a spouse to come to the UK and if needed attend a compulsory interview.

Immigration: Tibet

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what designation the UK Border Agency uses to classify persons of Tibetan origin who wish to enter the UK. [264120]

Mr. Woolas *[holding answer 19 March 2009]*: Tibetans, like all persons seeking entry to the UK, are required to produce a valid national passport satisfactorily establishing their identity and nationality, and are classified accordingly.

Immobilisation of Vehicles

Robert Key: To ask the Secretary of State for the Home Department if she will publish the wheel-clamping study recently sent to her by the Security Industry Authority. [268739]

Mr. Coaker: The Home Secretary announced on 3 April her intention to launch a formal consultation in late April on the options for how best to regulate the wheel-clamping industry. The consultation document, which includes the results of the SIA's feasibility study, will be published, and copies will be placed in the House Libraries.

The Government's preferred option will be to introduce compulsory licensing by the Security Industry Authority of wheel-clamping companies.

Robert Key: To ask the Secretary of State for the Home Department whether her proposals for the future of the wheel-clamping industry will include changes to *(a)* the regulation of wheel-clamping companies, *(b)* the maximum level of charges that clamping companies can impose on private land and *(c)* the minimum standards for signage on private land; and when she plans to publish her proposals. [268740]

Mr. Woolas: We will launch a formal consultation in late April considering how best to regulate the wheel-clamping industry. The Government's preferred option would be to introduce compulsory licensing for all wheel-clamping companies, to ensure they uphold standards of conduct, which will be enforced if they are not met.

The details of the scheme will be decided after the public consultation, but are likely to include maximum penalties that can be charged and standards on signage, including size and visibility.

Independent Safeguarding Authority

Chris Grayling: To ask the Secretary of State for the Home Department pursuant to the written ministerial statement of 19 March 2009, on the Vetting and Barring Scheme, what the reason is for the period of time taken between implementing the provisions of the Safeguarding Vulnerable Groups Act 2006 in October 2009 and the scheme becoming fully operational in July 2010; and what assessment she has made of the likely effects of this period on the operation of the scheme. [269247]

Jacqui Smith: The commencement of new applications under section 24 of the Safeguarding Vulnerable Groups Act 2006 will take place in July 2010 to enable full implementation and testing of the new IT systems which are required to introduce the scheme effectively, including a contingency period. In the period from October 2009, the Independent Safeguarding Authority will be able to bar from the full range of regulated activities with children or vulnerable adults any cases referred to it in which it considers the individual referred to be unsuitable for such work.

Chris Grayling: To ask the Secretary of State for the Home Department what estimate she has made of the monthly operating costs of the Independent Safeguarding Authority *(a)* at present and *(b)* once the Vetting and Barring Scheme becomes fully operational in July 2010. [269248]

Jacqui Smith: The present monthly operating costs of ISA are budgeted at c. £1.075 million (£12.9 million for 2009-10).

The monthly operating costs of ISA once the scheme becomes fully operational in July 2010 are estimated to be £3.33 million.

Chris Grayling: To ask the Secretary of State for the Home Department what electronic databases will be used by the Independent Safeguarding Authority to operate the Vetting and Barring Scheme. [269249]

Jacqui Smith: The Independent Safeguarding Authority (ISA) will operate a database maintaining the lists of those barred from working with children or vulnerable adults in accordance with section 2 of the Safeguarding Vulnerable Groups Act 2006. It will also operate two databases maintaining two lists of those who are ISA registered and able to work with children and vulnerable adults together with a casework management system.

It will be provided with relevant information by the Criminal Records Bureau, which has access to information recorded on the Police National Computer and other police systems.

Lunar House

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department when she expects work to be completed on the area beneath Lunar House to provide an additional covered queuing area for customers. [268727]

Mr. Woolas: The UK Border Agency is committed to improving the public queuing area outside Lunar House. The work is intended to provide an enclosed, safe and secure queuing area for customers attending both the Public Enquiry Office and the Asylum Screening Unit. Project managers have already been appointed to consider and specify work options and provide costs for these improvements. The project managers' report is due back within the next few weeks. Once this has been received it is hoped that a decision may then be made to start works on site with a provisional completion date in early 2010. This will be subject to receiving timely landlord's consent for the works to be undertaken and planning approval from the local authority.

Malicious Communications Act 1988: Prosecutions

Mr. Amess: To ask the Secretary of State for the Home Department how many prosecutions of *(a)* men and *(b)* women in each age group have taken place under the Malicious Communications Act 1988 in each police force area in each year since the Act came into force; and how many of those prosecutions related to anti-Semitic material. [268583]

Mr. Woolas: Data provided by the Ministry of Justice, showing the number of persons proceeded against at magistrates courts under the 1988 Malicious Communications Act in England and Wales, by police force area, sex and age, from 2002 to 2007 are in the following table. Court proceedings data for 2008 will be available in the autumn of 2009. The data provided cannot separately identify court proceedings relating to anti-Semitic material

The statistics relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Earlier data on prosecutions under the Act are not available because before 2002, data on this offence were reported to the Ministry of Justice as a part of a miscellaneous group which could not be separated.

Number of persons proceeded against under the 1988 Malicious Communications Act, broken down by police force area, sex and age, England and Wales, 2002 to 2007[1, 2]

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Evidence and Analysis Unit—Office for Criminal Justice Reform

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she plans to reply to the letter of 26 January 2009 from the right hon. Member for Manchester, Gorton, with regard to Mr K Khan. [266365]

Jacqui Smith: I wrote to my right hon. Friend on 24 March 2009.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she plans to reply to the letter of 6 February 2009 from the right hon. Member for Manchester, Gorton, with regard to Mrs A Sibal. [266370]

Jacqui Smith: I wrote to my right hon. Friend on 25 March 2009.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she plans to reply to the letter of 6 February 2009 from the right hon. Member for Manchester, Gorton, with regard to Mr. S. Ali. [266371]

Jacqui Smith: I wrote to my right hon. Friend on 25 March 2009.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she plans to reply to the letter to her dated 4 February 2009 from the right hon. Member for Manchester, Gorton with regard to S. Hashmi. [268031]

Jacqui Smith: I wrote to my right hon. Friend on 6 April 2009.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department when she plans to reply to the letter from the hon. Member for the Isle of Wight of 24 July 2008, reference M14 547/8, on Gurkhas retired from the armed forces, in respect of which the hon. Member has written to her on 10 September, 1 October, 30 October and 17 December 2008 and 22 January 2009. [268453]

Mr. Woolas: In September 2008, the High Court agreed that the 1997 cut-off date applied to retired Gurkhas was sound and not discriminatory. However, it did find that the policy guidance relating to the treatment of Gurkhas discharged before 1997 was not sufficiently clear and did not cover service-related factors. We are determined to get the revised guidance right to ensure that it is fair to all Gurkhas and this has involved consultation across Government.

The revised guidance for Gurkhas who retired before July 1997 and who wish to seek settlement in the UK will be published by 24 April.

We want to give Members the fullest possible information and we therefore plan to respond as soon as possible after that date with a full explanation of our revised guidance.

Rosie Cooper: To ask the Secretary of State for the Home Department when she plans to reply to the letter from the hon. Member for West Lancashire of 16 March 2009, on her constituent Mr. Joseph Kamangire. [268717]

Mr. Woolas: The Deputy Chief Executive of the UK Border Agency, Jonathan Sedgwick, wrote to my hon. Friend on 2 April 2009.

Mr. Winnick: To ask the Secretary of State for the Home Department when she plans to reply to the letter from the hon. Member for Walsall North of 9 February 2009 with regard to a constituent, reference POS(2)10644/0088; and what the reason is for the time taken to reply. [269036]

Mr. Woolas: The letter referred to was received in the Home Office on 12 February 2009, and was transferred to the Department for Work and Pensions on 17 February. A letter advising the transfer was sent to my hon. Friend's office, also on 17 February.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she plans to reply to the letter from the right hon. Member for Manchester, Gorton of 17 February 2009, with regard to Mr. Safraz Muneer. [269339]

Jacqui Smith: I wrote to my right hon. Friend on 6 April 2009.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she plans to reply to the letter from the right hon. Member for Manchester, Gorton of 16 February 2009, with regard to Mr. Mohammed Ayub. [269342]

Jacqui Smith: I wrote to my right hon. Friend on 2 April 2009.

Offences Against Children: British Nationality

Chris Huhne: To ask the Secretary of State for the Home Department how many British citizens were arrested in the course of Operation Koala; how many were charged with offences; how many were convicted of each type of offence; what sentence each person convicted received; on what date; and where each person given a custodial sentence was sent to serve it. [265753]

Jacqui Smith *[holding answer 24 March 2009]*: Operation Koala involves the investigation of the sexual abuse and exploitation of children, including the making and sharing of images from that abuse across a number of countries worldwide. From the original data passed to the Child Exploitation and Online Protection Centre in the UK, 92 suspects were identified and intelligence packages sent to relevant UK police forces where the suspected offender was believed to reside. Operation Koala remains an ongoing inquiry. The information sought is not held centrally.

Offensive Weapons

Mr. Ancram: To ask the Secretary of State for the Home Department if she will take steps to ascertain what proportion of crimes involving knives are carried out using domestic kitchen utensils. [265315]

Mr. Coaker: Although routine statistics are not collected by the police on this issue, as part of the Tackling Knives Action Programme we are working with local forces to try to gain a better understanding of the origins of weapons used in serious youth violence.

Offensive Weapons: Convictions

Chris Grayling: To ask the Secretary of State for the Home Department pursuant to the answer of 17 March 2009, *Official Report*, column 1093W, on offensive weapons: convictions, how many convictions there were for possession of a knife in the period June to November *(a)* 2008 and *(b)* 2007. [269246]

Jacqui Smith: The answer of the 17 March 2009 referred to a provisional 815 more convictions for the possession of a knife or offensive weapon in the 10 TKAP areas in the period June to November 2008 compared with the same period in 2007. Of this number, there were 777 more convictions for the possession of "an article with a blade or point" and 38 more convictions for the possession of an "offensive weapon".

These figures are provisional and have been derived from the police's administrative IT system, which, as with any large scale recording system, is subject to possible errors with data entry and processing.

Offensive Weapons: Crime Prevention

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to the Answer of 31 March 2009, *Official Report*, column 1083W, on offensive weapons: crime prevention, whether young people were involved in the Tackling Knives Action Programme. [269200]

Mr. Coaker: Engaging young people has been a key element of the Tackling Knives Action Programme. All forces involved have delivered education programmes on the dangers and consequences of carrying knives. In addition, young people have been involved in youth forums, conferences and a range of events using drama, sport, music and dance. A National Youth Theatre tour, funded through the programme, has also given young people an opportunity to educate their peers on the risks and consequences of knife carrying.

The Home Office worked with a group of young people to develop the 'It Doesn't Have to Happen' youth marketing campaign, which seeks to educate young people about the dangers of carrying a knife and encourage them to put the knife down and take up a more positive activity. Young people have contributed to the campaign's development and are encouraged to share the campaign messages with their peers. The campaign has used a range of radio, viral, online and poster adverts as well as events and competitions to get the messages across. Over 10,000 people are also members of the campaign's thriving Bebo community, providing young people with an online forum to share their views and take a stand against knife crime.

Lynne Jones: To ask the Secretary of State for the Home Department what recent discussions she has had with the Children's Commissioner on measures to reduce incidents of gun and knife crime. [269201]

Mr. Coaker: The Home Office is currently considering two reports it has recently received from the Children's Commissioner's organisation, 11 Million published on 16 March, which examine gun and knife crime. The first report sets out the results of a survey of young people. The second sets out the outcome of a literature review and provides a series of recommendations. I am shortly due to meet with the researchers of these reports to discuss their findings and proposals.

Offensive Weapons: Young People

James Brokenshire: To ask the Secretary of State for the Home Department how many people received the maximum punishment on conviction for selling a knife to a young person under age in each of the last 10 years. [248642]

Mr. Alan Campbell: The maximum punishment on conviction for selling a knife to a young person under age is six months imprisonment and a fine of £5,000. As of 1 October 2007, the definition of a young person was amended from anyone under the age of 16, to under the age of 18.

In each of the last 10 years, no one who was sentenced for selling a knife to a young person received the maximum sentence. Statutory maximums should be seen as just that: maximums, and reserved solely for the most serious of offenders and offences. The majority of offenders will, quite rightly, not be eligible for such a sentence.

Statistics on knife crime were published in annex A of the Home Office Statistical Bulletin 01/09 "Crime in England and Wales: Quarterly Update to September 2008", published on 22 January 2009. A copy of the publication is available at:

http://www.homeoffice.gov.uk/rds/pdfs09/hosb0109.pdf

Passports: Immigrants

Miss Widdecombe: To ask the Secretary of State for the Home Department what the average length of time to determine an application for a travel document by a person with indefinite leave to remain is. [265689]

Mr. Woolas *[holding answer 23 March 2009]*: The requested information is not held centrally in the format required and could be obtained by examination of individual case records only at disproportionate cost.

Passports: Lost Property

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many *(a)* passports sent to the UK Border Agency and its predecessors by applicants for leave to remain and *(b)* files of cases under active consideration by the Agency have been lost by the Agency and its predecessors in (i) 2009 to date and (ii) each year since 2004. [267718]

Mr. Woolas *[holding answer 2 April 2009]*: UKBA does not collate information about lost passports or files in the format requested. The number of files identified as lost on 31 March represents less than 0.2 per cent. of the Agency's total holding.

Police Custody: Death

John Smith: To ask the Secretary of State for the Home Department how many deaths in custody there were in each custody suite operated by South Wales police in each of the last five years. [269091]

Mr. Coaker: Between 1 April 2004 and 28 February 2009 the Independent Police Complaints Commission (IPCC) has reported on eight deaths that occurred 'in or following police custody' in custody suites operated by South Wales police.

In 2004-05 there were four deaths in or following police custody, involving police custody suites in Swansea Central police station and Barry police station.

In 2006-07 there was one death in or following police custody, involving police custody suites in, Swansea Central police station and Rumney police station.

There was one death on arrest but prior to arrival in a custody suite.

In 2007-08 there was one death in or following police custody, involving the police custody suite in Barry police station.

No deaths in or following police custody were reported in relation to South Wales police in 2005-06. Information for 2008-09 will be published in the IPCC annual report, which is due for publication in July 2009.

Police Stations: Barry

John Smith: To ask the Secretary of State for the Home Department what discussions she has had with the chief constable of South Wales police on the future of Barry police station. [269081]

Mr. Coaker: No discussions have taken place with the chief constable of South Wales police on the future of Barry police station. The management of the police estate and allocation of resources are matters for the police authority and chief constable for each force, who are responsible for assessing local needs.

Police: Animals

Andrew Rosindell: To ask the Secretary of State for the Home Department what species of animal, other than dogs, are used in police operations. [260704]

Mr. Coaker: Police also use horses in policing operations, mostly concerning public order.

Police: Discrimination

Chris Grayling: To ask the Secretary of State for the Home Department how many compensation claims for discrimination have been brought against each police force in each of the last five years; and what the *(a)* outcome and *(b)* category of discrimination was in each case. [262346]

Jacqui Smith: The available information shows the overall number of compensation claims for discrimination in each police force area for each year between 2003-04 and 2007-08; and the numbers of claims brought, withdrawn, settled and awards made for sex discrimination, race discrimination and other discrimination by police force area over the five year period. These data appear in the following tables.

Figures on individual cases are not collected centrally.

These data are normally used for management information only and are not subject to the detailed checks that apply for National Statistics.

These data are provisional and may be subject to change.

Under the Normington Review proposals, the compensation claims collection will cease from April 2009.

Number of claims brought in year by type of discrimination[1]

[1] All data are unverified and are therefore provided on a provisional basis only.

[2] Claims relating to more than one type of discrimination (e.g. sex and race) are included under 'other discrimination'.

[3] Date relates to when the awards were made ore claims were dismissed, settled or withdrawn, even though the original claim may originally have been made in an early year.

n/a = Data unavailable.

Police: Dogs

Andrew Rosindell: To ask the Secretary of State for the Home Department what roles are fulfilled by dogs in police forces. [260705]

Mr. Coaker: General purpose dogs are trained to deal with the location and recovery of stolen or lost property; the location and detention of offenders; the location of persons reported missing; the maintenance of public order, both in spontaneous outbreaks and pre-planned operations; and in high visibility patrols, both mobile and on foot to contribute to public reassurance.

Firearms support dogs are trained to work in company with, and in support of, teams of armed officers.

Pro-active drugs dogs are trained to search areas, buildings and vehicles to locate controlled drugs, and also firearms/component parts/ammunition and quantities of bank notes.

Passive scanning drugs dogs are trained to scan the air around people to indicate the scent of controlled drugs.

Pro-active scanning explosives dogs are trained to search areas, routes, buildings and vehicles to locate explosives.

Passive scanning explosive dogs are trained to scan the air around people to indicate the scent of explosives.

Crime scene investigation and victim recovery dogs are trained to search areas, buildings and vehicles to locate bodily fluids and human remains.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many dogs trained at the Metropolitan Police's Dog Training Establishment in Keston had been donated by the public in each of the last five years. [260706]

Mr. Coaker: The information requested is tabled as follows:

	Number
2004	1
2005	6
2006	4
2007	3
2008	3
2009	[1]0
Total	17

[1] To date.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many new police dog units have been established in each of the last five years. [260707]

Mr. Woolas: According to information from the Association of Chief Police Officers (ACPO), no new police dog units have been established in any of the last five years.

Police: Finance

Sarah Teather: To ask the Secretary of State for the Home Department how much her Department has allocated for promotion of and publicity for its policing pledge. [268816]

Mr. Woolas: The total amount of money allocated to the promotion of and publicity for the policing pledge during the financial year 2008-09 is £3,427,521.

This expenditure covers:

Radio advertising
National and regional press advertising
Online advertising and online search marketing
High street posters

Police: Greater Manchester

Mr. Leech: To ask the Secretary of State for the Home Department if she will provide funding to the Greater Manchester Police Authority to pay for policing the new electronic border operations centre in Wythenshawe. [267073]

Mr. Woolas: The National Border Targeting Centre (NBTC) is a multi agency centre staffed with UKBA and police officers which is scheduled to open in late 2009. It is operated by the UK Border Agency and managed by Trusted Borders, which is responsible for providing 24-hour security as part of the e-Borders service contract.

The impact of the NBTC upon local policing resources is considered to be negligible. It is not expected that specific funding to the Greater Manchester Police Authority will be needed to pay for policing the new centre.

Police: Health

Chris Grayling: To ask the Secretary of State for the Home Department pursuant to the answer of 17 March 2009, *Official Report*, column 1093W, on police: health, how many people took police fitness tests in each of the last five years for which figures are available; and what results were *(a)* achieved and *(b)* achieved for dynamic strength and endurance in each year. [269260]

Jacqui Smith: The available data are given in the tables placed in the House Library.

The Policing Green Paper announced that Sir David Normington, permanent secretary to the Home Office, would lead a review of the strategic data collection burden placed by the Home Office on police forces in England and Wales. Sir David's report was published on 16 February.

Fitness tests data collection was one of the data streams cut. It was previously required by HMIC and recorded fitness test breakdown by gender, number of attempts, number taking the attempt and the fitness skill level tested. Given HMIC's new mission after the publication of the Policing Green Paper, this data is no longer required by them. Forces have been informed not to provide the data in the 2009-10 annual data requirement notice thereby removing the burden on police support staff to collate and supply the data to the Home Office.

Police: ICT

Chris Grayling: To ask the Secretary of State for the Home Department (1) how many hand-held computers have been issued to police officers; and how many police forces have received funding for hand-held computers from her Department in the last two years; [269238]

(2) pursuant to the answer of 18 March 2009, *Official Report*, column 1166W, on police: electronic equipment, what proportion of patrol officers have been issued with a hand-held device. [269242]

Jacqui Smith: All police forces in England, Scotland and Wales have received funding. A total of 31,607 hand held devices had been issued at 30 March 2009. All of the devices have been issued to officers performing front line roles, many of whom will be undertaking patrol duties. The operational duties of the officers receiving the devices are a matter for the chief officer of the force concerned.

Police: Marketing

Chris Grayling: To ask the Secretary of State for the Home Department pursuant to the answer of 30 March 2009, *Official Report*, columns 954-55W, on police: marketing, how many people had used the text back service on the date for which figures are available. [269229]

Jacqui Smith: The text back service has received 2,250 texts since it began on 2 March 2009 up until 1 April 2009.

Chris Grayling: To ask the Secretary of State for the Home Department pursuant to the answer of 30 March 2009, *Official Report*, columns 954-55W, on police: marketing, how much her Department plans to spend on advertising and marketing the Policing Pledge in the financial year 2009-10. [269230]

Jacqui Smith: The Home Office plans to spend £3 million on advertising and marketing the Policing Pledge in the financial year 2009-10. This campaign will increase awareness and understanding of the Policing Pledge. The public have a right to understand what service level they can expect from their local police and how to hold them to account if standards are not met.

Police: South West

Mr. Laws: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* police community support officers there were in Avon and Somerset in each year since 1988; and if she will make a statement. [269296]

Mr. Coaker: The available data are given in the tables.

Police officer strength (FTE)[1] by police force as at 31 March 1977 to 31 March 2008[2]

Avon and Somerset	*FTE*
1988	3,013
1989	3,014
1990	3,094
1991	3,092
1992	3,06[illegible]
1993	3,068
1994	3,033
1995	3,000
1996	2,981
1997	2,989
1998	2,976
1999	2,999
2000	2,934
2001	2,994
2002	3,096
2003[3]	3,149
2004[3]	3,401
2005[3]	3,384
2006[3]	3,389
2007[3]	3,375
2008[3]	3,339

[1] Full-time equivalent. All officers less staff on career breaks or maternity/paternity leave (comparable with previously published figures)

[2] This and other tables contain full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.

[3] Comparable strength (excludes those on career breaks, or maternity/paternity leave). The Police Numbers Task Force (2001) recommended that a clear presentation was made of the numbers of staff employed by police forces including those seconded into the force and those on any type of long or short term absence. These new calculations were first used in 2003. and are not comparable with data prior to March 2003. The data from 2003 onwards used here are termed comparable because they have been calculated on the old basis to allow comparison.

Police community support officer strength[1] (FTE)[2] by police force as at 31 March 2003 to 31 March 2008[3]

Avon and Somerset police force	*FTE*
2003	0
2004	45
2005[4]	139
2006[4]	130
2007[4]	302
2008[4]	377

[1] This table contains full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.

[2] Full-time equivalent exclude those on career breaks or maternity/paternity leave.

[3] Police community support officers were introduced in statute in 2002, therefore data are not available prior to 2002-03.

[4] Strength figures as at 31 March 2005 onwards include those staff on career breaks or maternity/paternity leave. Therefore these figures are not comparable with those provided for other years in the table.

Police: Stun Guns

Tom Brake: To ask the Secretary of State for the Home Department how many *(a)* firearms officers and *(b)* non-firearms officers she expects to have received training to use Taser guns in 2009. [268390]

Mr. Woolas: Following the success of a 12-month trial in 10 police forces, the Home Secretary agreed on 24 November 2008 to allow chief officers of all forces in England and Wales, from 1 December 2008, to extend the use of Taser to specially trained units in accordance with current Association of Chief Police Officers (ACPO) policy and guidance. This sets out that Taser can only be used by specially trained units where officers would be facing violence or threats of violence of such severity that they would need to use force to protect the public, themselves and/or the subject(s). The number of specially trained officers in each police force is a matter for individual chief officers based on their own operational requirements.

Prosecutions: Costs

Miss McIntosh: To ask the Secretary of State for the Home Department what recent estimate her Department has made of the average cost to a police force of *(a)* issuing a caution, *(b)* issuing a penalty notice for disorder and *(c)* bringing charges. [265751]

Mr. Coaker: The amount of time spent by police officers on issuing a caution, issuing a penalty notice for disorder, or bringing charges is not collected centrally, and there are no general estimates of the average costs to police forces of undertaking these activities.

Queen Elizabeth II Conference Centre

Mr. Hurd: To ask the Secretary of State for the Home Department with reference to the answer to my right hon. Friend the Member for Horsham (Mr. Maude) of 4 March 2008, *Official Report*, column 2479W, on the Queen Elizabeth II Conference Centre: Government Departments, for what reasons her Department paid for a room in the QE2 Conference Centre to hold its leadership away day; how much the booking cost; and why departmental buildings were not used for the away day. [252456]

Mr. Woolas: The Government's London estate has limited conference facilities and so from time to time the Home Office and other Departments are required to hire external venues for events.

We are not able to reveal the cost of the booking as this is a commercially sensitive issue between the Home Office and the QEII Centre.

The QEII Centre is owned by the Crown (Department for Communities and Local Government).

Repatriation

Damian Green: To ask the Secretary of State for the Home Department how many voluntary assisted returns to each country were made in co-operation with the International Organisation for Migration in 2008. [269178]

Mr. Woolas: The following table shows the number of assisted voluntary returns run by the International Organisation for Migration in 2008, by country of destination.

Assisted voluntary returns from the United Kingdom, by country of destination, 2008[1, 2]

Country of destination[3]	*Number of departures* *Assisted voluntary returns*[4]
Albania	100
Macedonia	*
Moldova	15
Russia	35
Turkey	40
Ukraine	30
EU Accession States[5]	—
Other Former USSR	45
Other Europe	105
Total Europe	365
Bolivia	70
Brazil	485

Other Middle East	45
Total Middle East	715
Afghanistan	350

Assisted voluntary returns from the United Kingdom, by country of destination, 2008[1, 2]

Country of destination[3]	*Number of departures* *Assisted voluntary returns*[4]
Australia	5
Bangladesh	80
China (including Taiwan)	265
India	185
Malaysia	25
New Zealand	*
Pakistan	305
Philippines	20
South Korea	*
Sri Lanka	125
Thailand	5
Vietnam	40
Other Asia and Oceania	70
Total Asia and Oceania	1,480
Other and not known	*
Grand total	4,295

[1] Figures rounded to the nearest 5 ('—' = 0, '*' = 1 or 2) and may not sum to the totals shown because of independent rounding.

[2] Provisional figures. Removals and voluntary departures recorded on the system as at the dates on which the data extracts were taken.

[3] Destination data as recorded on source database.

[4] Persons leaving under the Assisted Voluntary Return and the Assisted Voluntary Return for Irregular Migrants Programmes run by the International Organisation for Migration. May include some on entry cases and some cases where enforcement action has been initiated.

[5] EU Accession States: Bulgaria, Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Romania, Slovakia and Slovenia.

Published statistics on immigration and asylum are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Research, Information and Communication Unit

Mr. Dai Davies: To ask the Secretary of State for the Home Department what the budget of the Research, Information and Communication Unit *(a)* has been in each year since it was established and *(b)* is planned to be in each of the next three years. [268062]

Mr. Coaker: RICU costs were not separately identified until the 2008-09 financial year; formative team (salary) costs from June 2007 to March 2008 were counted against PREVENT. The RICU budget allocations for the CSR period are currently:

		£ million
	2008-09	*2009-10*
HO	0.66	1.2
FCO	2.00	3.0
CLG	1.00	1.5

In 2008-09 the FCO and CLG budget allocations were subsequently reduced in line with 2008-09 forecasts to £0.8 million and £0.7 million respectively; an outturn figure for 2008-09 is not yet available. Funding levels for 2010-11 have not yet been settled by FCO, HO and CLG. The current CSR period runs to 2010-11, funding for Departments outside this period has not been confirmed.

Salvia Divinorum

Lady Hermon: To ask the Secretary of State for the Home Department (1) what research her Department has *(a)* commissioned and *(b)* evaluated on the health effects of salvia divinorum; and if she will make a statement; [268961]

(2) if she will classify salvia divinorum as an illegal drug. [268962]

Mr. Woolas: My right hon. Friend the Home Secretary has recently written to the Advisory Council on the Misuse of Drugs requesting that it provide advice to Government on the availability and harms of psychoactive legal alternatives to illegal drugs, so called "legal highs", with a particular focus on protecting young people. I fully anticipate that this work will include salvia divinorum. The Government's position on its control will be informed by Advisory Council's advice.

Sexual Offences

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) how many *(a)* complaints and *(b)* items of correspondence have been received by (i) her Department and (ii) Her Majesty's Inspectorate of Constabulary on historical sex abuse investigations in the UK in each year since 2001; [259301]

(2) how many *(a)* complaints and *(b)* items of correspondence (i) her Department and (ii) Her Majesty's Inspectorate of Constabulary has received in respect of historical investigations of allegations of sex abuse in each year since 2001. [268773]

Mr. Alan Campbell: The Home Office does not hold this information.

Sir Fred Goodwin

Mr. Dai Davies: To ask the Secretary of State for the Home Department whether her Department has specific arrangements to provide security at the home of Sir Fred Goodwin. [268946]

Mr. Woolas: It is long established policy not to comment upon matters of personal protective security and their associated costs. Disclosure of such information could compromise the integrity of those arrangements and affect the security of the individuals concerned.

Terrorism

Mr. Dai Davies: To ask the Secretary of State for the Home Department what the breakdown is of the aggregated expenditure of £140 million allocated to the key deliverables of the Counter-Terrorism Programme 2008-09, as referred to on page 12 of the United Kingdom Strategy for Countering International Terrorism, Cm 7547. [268063]

Mr. Coaker: The United Kingdom Strategy for Countering International Terrorism contains several statements about funding. The £140 million referenced in the question relates to key deliverables for prevent 2008-09 managed by a number of Government Departments and bodies such as the police. Increasingly, spend by a much wider range of Departments, in particular the Home Office, cannot be broken down by activity without revealing sensitive information about our capabilities.

Terrorism: Ashford

Damian Green: To ask the Secretary of State for the Home Department what recent discussions she has had with *(a)* businesses and *(b)* community representatives in Ashford on Operation Argus. [267895]

Mr. Coaker: A "Project Argus" event for members of the retail community in Ashford, which included local authority and emergency services representatives, was held on 12 February 2008. In addition, local police counter-terrorism security advisers have delivered counter-terrorist protective security advice to 13 businesses in Ashford during the last 18 months.

Discussions are taking place with business and community representatives to hold a "Project Argus" night time economy event in May this year.

Terrorism: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent steps her Department has taken to counter terrorist activity in Coventry. [268764]

Mr. Coaker: The Government have recently refreshed CONTEST, its counter-terrorism strategy, which has four strands: Pursue, Prepare, Protect and Prevent. The following work is being taken forward by local partners in Coventry with the support of national agencies:

Prevent

I understand that a Prevent Working Group has been developed in Coventry, made up of senior representatives from the police, council, universities, colleges and other public agencies, which will meet for the first time this month.

Coventry has recently developed a communications strategy to help mainstream messages to counter extremism. The local authority is also currently developing a programme of activities for young people from diverse communities, which explores issues of identity, challenging extremist ideology, and provides support to the most vulnerable.

Prepare

Prepare activity in Coventry is driven through the well established partnership of the Coventry Local Resilience Forum. This group is responsible for the development of the Local Community Risk Register which works to mitigate risks and threats within the area through prioritising planning, training and exercising activities.

Protect

Through NaCTSO (the National Counter Terrorism Security Office) and Project ARGUS we have provided advice and an awareness-raising programme to staff in all the main five shopping areas in Coventry (West Orchards, Cathedral Lane, Cross point, Lower Precinct and Tesco Arena), theatres and cinemas, the Transport Museum, Coventry FC and delegates from the night-time economy. For more information on NaCTSO and Project ARGUS visit

http://www.nactso.gov.uk/

There are two planned Project Griffin events at Warwick University on 7 May 2009 and 28 May 2009. Project Griffin is a police initiative bringing together and coordinating the resources of the police, emergency services, local authorities, business and the private sector security industry. For more information on Project Griffin visit

http://www.projectgriffin.org.uk/

More generally at all UK airports we are strengthening the arrangements for security planning, with clear proposals set out in the Policing and Crime Bill.

The key stakeholders at Coventry and other airports will have statutory responsibility for carrying out a joint threat and risk assessment and for preparing a comprehensive security plan setting out the actions being taken to address the risks at their airport. The costs of the police resources identified in that plan would then feature in a separate agreement about reimbursement between the operator, police force and the police authority.

Terrorism: Deportation

Mr. Lidington: To ask the Secretary of State for the Home Department how many individuals have been deported to *(a)* Jordan, *(b)* Libya and *(c)* Lebanon on national security grounds since July 2008. [262576]

Mr. Coaker: No one has been deported to the countries concerned on national security grounds since July 2008.

Theft

Chris Grayling: To ask the Secretary of State for the Home Department how many offences of *(a)* shoplifting, *(b)* robbery of business property and *(c)* theft by an employee were recorded by police in the quarter October to December in each of the last 10 years. [269232]

Jacqui Smith: Quarterly information for the requested offences is only available from 2001-02 onwards and the available data for the October to December quarters are given in the table. Statistics for October to December 2008 will be available following the publication of the quarterly update on 23 April 2009.

Selected offences recorded by the police in England and Wales

Number of offences

October to December each year	*Shoplifting*	*Robbery of business property*	*Theft by an employee*
2001	77,536	3,653	4,414
2002[1]	74,302	2,852	4,454
2003	73,998	2,873	4,481
2004	70,763	2,226	4,541
2005	74,970	2,437	4,377
2006	75,500	2,723	4,119
2007	70,196	2,518	4,102

[1] Includes British Transport Police from this quarter onwards.

UK Border Agency: Finance

Mr. Grieve: To ask the Secretary of State for the Home Department what the budget for the Advisory Panel on Country Information of the UK Border Agency and its predecessor was in each of the last three years. [241796]

Mr. Woolas: The Home Office met all costs for running the Advisory Panel on Country Information (APCI) until the function was transferred to the new independent chief inspector of the UK Border Agency in April 2008. The Chair and members of the APCI were unpaid and expenditure was limited to research costs for evaluating

Home Office country information material, recruitment of members and the expenses associated with meetings. These were approximately as follows for the years 2005 to 2008:

APCI Expenditure 2005-2008

	2005-06	*2006-07*	*2007-08*
Research	48,170	46,040	14,500
Meetings	1,120	3,360	760
Members' expenses (estimate)	2,000	3,200	1,200
Recruitment	3,100	4,360	—
Total	54,390	56,960	16,460

Notes:
1. Costs exclude VAT
2. Figures rounded to nearest £10

UK Border Agency: Manpower

Damian Green: To ask the Secretary of State for the Home Department how much the UK Border Agency spent on frontline border staff in 2008. [269223]

Mr. Woolas: The latest financial year for which accounts are available is 2007-08. Border Control was the operational directorate which included all frontline border staff in that year, and its pay costs were £161.2 million.

It is not possible to breakdown those costs into frontline operational staff and support staff.

Vetting

Mr. Ruffley: To ask the Secretary of State for the Home Department what the average time taken by each police force was to respond to inquiries from the Criminal Records Bureau as part of routine disclosures in 2008-09. [269697]

Mr. Woolas: Data concerning the average time taken to complete a disclosure by police force area are not collated by the Criminal Records Bureau (CRB).

Mr. Ruffley: To ask the Secretary of State for the Home Department how many and what proportion of record checks processed by the Criminal Records Bureau in each police force area had comments from chief police officers on otherwise clean reports in 2008-09. [269699]

Mr. Woolas: The Criminal Records Bureau (CRB) does not collate data on the number of disclosures which contain comments from chief police officers but which do not contain any data from the Police National Computer (PNC), Department for Children, Schools and Families (DCSF) or Department of Health (DOH).

Vetting: Maladministration

Paul Holmes: To ask the Secretary of State for the Home Department (1) how many of those incorrectly designated as having a criminal conviction by the Criminal Records Bureau since the bureau's inception are aged *(a)* under 18, *(b)* 19 to 25, *(c)* 26 to 40, *(d)* 41 to 60, *(e)* 60 to 65 and *(f)* 65 years and over; [262335]

(2) how many of those incorrectly designated as having a criminal conviction by the Criminal Records Bureau since the Bureau's inception are *(a)* male and *(b)* female. [262474]

Mr. Coaker: The Criminal Records Bureau (CRB) has issued over 18 million disclosures since its inception in 2002. The following table represents the number of disclosures issued to applicants that had been matched to a record held on the Police National Computer (PNC) which had been challenged and subsequently upheld, broken down by age groups and gender.

	Gender		
Age group	*Male*	*Female*	*Total*
Under 18	14	29	43
18 to 25	367	294	661
26 to 40	1,223	663	1,886
41 to 60	905	489	1,394
61 to 65	62	17	79
Over 65	60	18	78
Total	2,631	1,510	4,141

Vetting: Standards

Tom Brake: To ask the Secretary of State for the Home Department what the average time was for each police force to release *(a)* a standard disclosure and *(b)* an enhanced disclosure as part of Criminal Records Bureau checks in the latest period for which information is available. [268421]

Mr. Malik: Only enhanced disclosures are sent to police forces as part of the Disclosure Service. Data concerning the average time taken to complete a disclosure by police force area are not a performance target and are not collated by the CRB. Comparative police force performance data can be found on the CRB website at

www.crb.gov.uk

Average figures do not give an accurate indication of performance, since any force's performance can be affected by a number of factors; the volume of cases sent to a force to process in any given month, the number of staff available to process the checks and the IT resources on hand to forces. With these variables, performance can fluctuate within individual forces from one month to the next.

Written Questions: Government Responses

Chris Grayling: To ask the Secretary of State for the Home Department when she plans to answer Question 250112, on Operation Pentameter, tabled by my hon. and learned Friend the Member for Beaconsfield (Mr. Grieve) on 19 January 2009. [264897]

Jacqui Smith: My hon. Friend the Under-Secretary (Mr. Campbell) replied on 26 March 2009, *Official Report*, column 650W.

CHILDREN, SCHOOLS AND FAMILIES

Building Schools for the Future Programme

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much funding has been allocated to each school under the Building Schools for the Future programme to date. [268367]

Jim Knight: In Building Schools for the Future, funding is allocated to local authorities and not directly to schools. Local authorities take decisions on how to allocate this funding to their schools in accordance with local need. The following table shows the funding which has been allocated to authorities which have reached financial close in their BSF projects.

Funding

			£000
Local authority project	*Conventional*	*PFI credits*	*Total*
Bristol ph 1 (Wave 1)	7,598	157,173	164,771
Manchester	201,644	0	201,644
Greenwich	57,226	183,510	240,736
Bradford ph 1 (Wave 1)	9,461	111,904	121,365
Lancashire ph 1	4,183	94,812	98,995
Lambeth	87,123	0	87,123
Leeds ph 1	37,877	143,500	181,377
Solihull	29,536	86,790	116,326
Newcastle ph 1	36,856	51,706	88,562
Sheffield ph 1 (Wave 1)	22,721	88,999	111,720
Waltham Forest ph 1	38,321	29,078	67,399

Michael Gove: To ask the Secretary of State for Children, Schools and Families what his latest estimate is of expenditure on the Building Schools for the Future programme in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [268369]

Jim Knight: The following table shows the latest estimate of expenditure on the Building Schools for the Future programme. These estimates may change as projects progress through the procurement phase and into construction.

			£ billion
	2008-09	*2009-10*	*2010-11*
Capital grant	0.7	2.0	2.3

Notes:
1. These figures include estimated expenditure on academies delivered through the Partnerships for Schools national framework.
2. Capital grant payments are made following the financial close of the project in accordance with construction payment milestones.

In addition, we expect to allocate £3.9 billion PFI credits to projects in this period. Credits are allocated following approval of the project's outline business case, but the revenue payments to local authorities to which they relate are not made until the new school building is completed.

Michael Gove: To ask the Secretary of State for Children, Schools and Families which banks are involved in the Building Schools for the Future programme. [268477]

Jim Knight: The following list sets out (i) financial institutions that are involved in BSF schemes that have already reached financial close; and (ii) financial institutions who are in the market to finance BSF schemes that have not yet reached financial close.

Funding to BSF schemes that have reached financial close:

Bank of Ireland
Barclays
BNP Paribas
European Investment Bank
HBOS
Abbey National
HSBC
NIB Bank
Royal Bank of Canada
SMBC
Depfa

In the market to fund BSF schemes that have not yet reached financial close:

Nationwide
SMBC
Barclays
National Australia Bank
European Investment Bank
Aviva
Co-op
Helaba Landesbank
Lloyds
Norddeutsche Landesbank
RBS
Santander
NIB Bank
Westdeutsche Landesbank
Deutsche Postbank

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which local authorities he expects to join the Building Schools for the Future programme after 2010; and if he will make a statement. [268677]

Sarah McCarthy-Fry: On 2 March 2009, the indicative revised prioritisation of Building Schools for the Future (BSF) was published, based on the revised expressions of interest which authorities provided in November 2008. Partnerships for Schools (PfS) the body which assists local authorities procure their BSF investment, is already engaging with authorities to discuss their readiness to deliver. No project will formally enter BSF until PfS is satisfied that there is robust evidence that the authority is ready to deliver. It has therefore not yet been decided which will be the next authorities to enter the programme after 2010-11.

Children: Autism

Mr. Marsden: To ask the Secretary of State for Children, Schools and Families what the average age at which a child receives a diagnosis of autism was in the latest period for which figures are available. [268161]

Phil Hope: I have been asked to reply.

This information is not collected centrally.

In 2001, the Medical Research Council (MRC) undertook the first comprehensive review of the UK research into autism, called the MRC Review of Autism Research and is still considered to be a leading source of information about the causes and epidemiology of autism and autism spectrum disorders (ASDs).

The review report states at page 15:

> "In a study of individuals aged 2 to over 40 years, the average age of diagnosis was 5 years for autism."

Children: Databases

Annette Brooke: To ask the Secretary of State for Children, Schools and Families which local authorities have made representations to his Department on the shielding of data on the ContactPoint database; and if he will make a statement. [266661]

Beverley Hughes: We have been working closely with all local authorities to ensure those records which need it are appropriately shielded. All local authorities have been regularly reporting progress and notifying us of any data issues they have encountered, during this pre-deployment phase, as we requested. As of 24 March, 13 local authorities have provided additional written feedback so far via letters or e-mails.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) for what reasons ContactPoint data will be kept for six years after a person reaches the age of 18 years; [266818]

(2) what method will be used permanently to delete a person's records from ContactPoint; [266819]

(3) how long on average he expects to elapse between the death of a young person and the removal of their data record from the ContactPoint database. [266820]

Beverley Hughes: Six years is the accepted standard for retention of information in accordance with the provisions of the Limitations Act 1980. Once a person reaches age 18 their ContactPoint record will be moved into archive. Once in archive, the record will only be accessible by data managers for a period of one year. After that it is only accessible by our system suppliers in order to support investigations under section 47 of the Children Act 1989, any serious case review or investigation into a child death.

Once a record reaches the end of its archive period, an automatic batch process (purge) permanently deletes it from ContactPoint.

On receipt of notification of death of a child, ContactPoint retains the child record for one year before it is moved to the archive.

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the expenditure which will be incurred as a result of the *(a)* delay in introducing ContactPoint and *(b)* the changes to data entry and shielding in the ContactPoint system. [268723]

Beverley Hughes: The ContactPoint budget includes an appropriate contingency element and any additional costs that arise from developments made to the system will be met from those contingency arrangements. It has always been anticipated that this would be the case. We do not anticipate the overall costs for implementing ContactPoint exceeding the original estimate of £224 million.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 2 April 2009, *Official Report*, column 1336W, on children: databases, which companies bid for his Department's ContactPoint contract. [269794]

Beverley Hughes: In answer to the question I refer the hon. Member to the reply I gave him on 2 April 2009, *Official Report*, column 1336W.

Children: Internet

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families what progress he has made on the proposal for an e-safety week announced in the Byron Review Action Plan; and when he expects it to take place. [268943]

Beverley Hughes: The Byron Review Action Plan announced that the UK council for Child Internet Safety (UKCCIS) would work with the Child Exploitation Online Protection Centre (CEOP) and other council members to launch an e-safety week in 2009.

This year UKCCIS supported a Safer Internet Week (9 to 13 February) by assisting CEOP to run national newspaper advertisements throughout the week and circulating information to council members and interested parties, specifically promoting Safer Internet Day 2009 on 10 February.

Children: Protection

Tim Loughton: To ask the Secretary of State for Children, Schools and Families when he expects Ofsted next to report on lessons learnt from serious case reviews. [264383]

Beverley Hughes: Lord Laming's report 'The Protection of Children in England: A Progress Report' was published on 12 March. The Government announced, on the same day, that all of the recommendations had been accepted, and undertook to provide a detailed response to all 58 recommendations by the end of April.

Recommendation 49 of the report said:

> 'Ofsted should produce more regular reports, at six monthly intervals, which summarise the lessons from Serious Case Reviews'.

Ofsted will also be responding to this and other relevant recommendations by the end of April.

Ofsted has commenced the planning for its second report on the outcomes of its evaluations on serious case reviews. However, the report by Lord Laming recommended that Ofsted produce reports at six monthly intervals and they will consider whether they need to bring the next evaluation forward in the light of this.

The Government already commission biennial overviews of Serious Case Reviews to draw out their key findings and identify their implications for policy and practice.

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families when he plans to publish the assessment of the impact of the commercial world on children's wellbeing referred to in the Byron Review Action Plan. [268941]

Beverley Hughes: The assessment in to the impact of the commercial world was launched on the 7 April 2008. It is being led by Professor David Buckingham from the Institute of Education. The work has involved stakeholders from many sectors including education, business and NGOs. The assessment is nearing completion but there is as yet no firm publication date.

Children: Protection

Tim Loughton: To ask the Secretary of State for Children, Schools and Families with reference to page 60 of The Protection of Children in England: a progress report, HC330, what recent estimate he has made of the number of police officers with the specialist training necessary to work on child protection available to each local authority. [265235]

Mr. Alan Campbell: I have been asked to reply.

Data in relation to the number of police officers specially trained in child protection available to each local authority are not held centrally.

The Secretary of State for Children, Schools and Families intends to publish a detailed action plan in response to Lord Laming's recommendations by the end of April.

Departmental Buildings

Grant Shapps: To ask the Secretary of State for Children, Schools and Families what properties his *(a)* Department and *(b)* Department's (i) executive and (ii) non-departmental public bodies have sold in each of the last five years; and how many of these have been sold for housing development. [266494]

Sarah McCarthy-Fry: The following properties have been sold in the last five years:

(a) In 2004 the Departm[illegible]r Children, Schools and Families sold Letchwo[illegible]re in Hertfordshire and in 2008 it sold Midd[illegible]ough Skillcentre Annex and Wales Bar in Rotherham. None of these sales was for housing development.

(b) The Department has no agencies.

(c) In 2006 The Office for Standards in Education (Ofsted) sold a property in Preston, Lancashire to a developer, although the property did not have a residential planning permission.

In 2004 the Children and Families Courts Advisory Service (CAFCASS) sold 5 Upper Park Road, Bromley, Kent.

In 2005 it sold 65 Alma Road, Windsor, Berkshire.

In 2006 it sold Darwen Health Centre, Blackburn, Lancashire and 90 Finkle Street, Cottingham, Yorkshire.

In 2007 it sold a property in Dudley in the West Midlands.

None of these sales were for housing development.

Departmental Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Children, Schools and Families how many staff in his Department *(a)* were disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last 12 months. [262245]

Sarah McCarthy-Fry: Information on sickness absence in the Department can be found on the DCSF website:

http://www.dcsf.gov.uk/sicknessabsence/

Departmental Energy

Greg Clark: To ask the Secretary of State for Children, Schools and Families what recent progress his Department has made towards its target for energy efficiency per square metre of its Estate; and if he will make a statement. [266887]

Sarah McCarthy-Fry: The Department for Children, Schools and Families (DCSF) has a target to reduce its energy consumption to 283.9 kWh per square metre by 2011/12.

The returns for the 2007-08 Sustainable Operation of the Government Estate (SOGE) showed that the DCSF estate consumed 325 kWh of energy per square metre. The full report can be found under the following link at:

http://www.sd-commission.org.uk/sdig2008/

This has reduced from 334 kWh/m2 in the baseline year 1999/2000.

Departmental Finance

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much funding has been allocated by his Department to each of its capital funding programmes, excluding the Building Schools for the Future programme, for 2010-11. [268366]

Jim Knight: The Department's 2010-11 capital Estimate, excluding the Building Schools for the Future (BSF) programme, after the Spring Supplementary exercise are detailed by function in the following table.

Capital Budget

	£ million
	2010-11 estimate
Devolved Programmes	2,550
Targeted Programmes	980
Strategic Primary Capital (excl. BSF & Academies)	850
Less: Schools Fiscal Stimulus transferred to 2009-10[1]	-770
Schools Sixth Form (via Learning and Skills Council)	100
Learning and Skills Council 14-19 Capital	140
Young People Capital	27
Children and Families Capital	20
Improving Information Sharing and Management	35
Sure Start	315
Activities to support all functions	146

Capital Budget

	£ million *2010-11 estimate*
Other Capital	12
Total (excludes PFI credits)	4,381

[1] An additional £124 million has been provisionally approved by HMT to be transferred from 2010-11 to 2009-10 which will not be reflected in the Department's Main Estimate. Following the approval of the Winter Supplementary Estimate later in the 2009 calendar year, will see figures adjusted accordingly. A further small transfer will be requested, reflecting late applications from local authorities for accelerated funding.

Departmental Publications

Mr. Philip Hammond: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the *(a)* production and printing and *(b)* other costs to his Department of producing its most recent (i) departmental annual report and (ii) autumn performance report. [266699]

Sarah McCarthy-Fry: The cost of production and printing for the Departmental Report and the Autumn Performance Report was £24,875 and £24,238.69 respectively.

Other costs relating to the reports can be provided only at disproportionate cost.

Departmental Training

Grant Shapps: To ask the Secretary of State for Children, Schools and Families how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and who provided the training. [268301]

Sarah McCarthy-Fry: Training is provided to Ministers as necessary in order to carry out their duties effectively under the ministerial code.

Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much his Department has spent establishing local education partnerships to date. [268476]

Sarah McCarthy-Fry: The Department provides funding support of £0.5 million to each local authority for local education partnership (LEP) establishment costs. The Department has incurred £9 million for the 18 LEPs currently established.

Education Act 2002

Mrs. Gillan: To ask the Secretary of State for Children, Schools and Families how many notifications under the Education Act 2002 his Department and its predecessor *(a)* received from (i) independent schools and (ii) grant maintained schools and *(b)* sent to the schools inspectorate in each case in each year since April 2005. [267293]

Sarah McCarthy-Fry *[holding answer 27 March 2009]*: The number of notifications sent to schools inspectorates since April 2005 is 87. These relate to individuals who resigned or were dismissed from independent schools because they were considered unsuitable to work with children. Details are given in the following table. The hon. Member will recall from previous answers that in the case of maintained schools, Ofsted can approach the local authority concerned in respect of notifications from its schools.

Referrals to Inspectorates

Inspectorate	*2005*	*2006*	*2007*	*2008*	*2009*	*Total*
ISI	5	27	17	16	1	66
Ofsted	2	4	7	7	1	21
CSCI[1]	2	4	1	0	0	7

[1] The seven referrals made to the former Commission for Social Care Inspection (now Ofsted) were also referred to the relevant education inspectorate and are thus included in the totals for ISI and Ofsted above

Under the new vetting and barring scheme a supervisory authority such as Ofsted will be required to inform the Independent Safeguarding Authority (ISA) if it has information that a person poses a risk of harm. In return, the ISA must inform them when it bars someone who is supervised or registered by them.

Where employers (including independent schools) in the education sector have ceased to use the services of a person because they consider that person is unsuitable to work with children, or they would have ceased to use the person's services where the person has left their employment, they are required to refer information to the Department or, from 20 January 2009, the ISA. In addition, the police also refer cautions and convictions, including for those who have been working in educational establishments in accordance with Home Office Circular 6/2006 (The Notifiable Occupations Scheme).

Identifying how many referrals and letters of notification were received from maintained schools would require detailed checks to be made of individual case records and this would incur disproportionate cost.

Education Maintenance Allowance

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what estimate he has made of the number of students eligible to receive the education maintenance allowance who have waited *(a)* one, *(b)* two, *(c)* three, *(d)* four and *(e)* five months or more to receive a payment since September 2008; [269650]

(2) what estimate he has made of the number of students who have experienced a delay in the payment of education maintenance allowance since September 2008. [269651]

Jim Knight: This is a matter for the Learning and Skills Council (LSC) who operate the Education Maintenance Allowance (EMA) for the Department for Children, Schools and Families (DCSF). Geoffrey Russell the LSC's Acting Chief Executive, will write to the hon.

Member with the information requested and a copy of his reply will be placed in the House Library.

Education: Assessments

Michael Gove: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of pupils who achieved level five in English, science and mathematics at Key Stage 2 in 2001 who achieved three or more A grades at A level in 2008. [260539]

Jim Knight *[holding answer 3 March 2009]*: The most readily available analysis is given in the following table:

Number of pupils who achieved three A grades at A level in 2008

	Number
Achieved level 5 or more in all three KS2 tests	17,965
Took KS2 tests but did not receive level 5 in all three	7,213
Other	163
Prior attainment not available	6,038
Total	31,379

Notes:
1. Figures relate to 16-18 year olds (age at start of academic year, i.e. 31 August 2007) in all schools in England. Figures relate to achievements in GCE/VCE/Applied A level/Double Awards.
2. Not all of these pupils will have taken their Key Stage 2 tests in 2001. Pupils who took their KS2 tests in 2001 and achieved at least 3 As in their A levels in a year other than 2008 are not included.
3. 'Other' includes pupils working below the level of the test and those absent or with missing results. Some pupils have no prior attainment available (for example pupils who took their KS2 tests in Scotland or Wales).
Source:
National Pupil Database

Education: Ethnic Groups

Keith Vaz: To ask the Secretary of State for Children, Schools and Families (1) in how many secondary schools the majority of registered students are black, Asian or other minority ethnic in *(a)* England, *(b)* Leicestershire and *(c)* Leicester East constituency; [262210]

(2) in how many primary schools the majority of registered students are black, Asian or other minority ethnic in *(a)* England, *(b)* Leicestershire and *(c)* Leicester East constituency. [262438]

Sarah McCarthy-Fry: The requested information is shown in the tables:

Maintained primary[1] and state-funded secondary schools[2] [3]: number of schools with the majority of pupils classified as minority ethnic: As at January 2008—In England, Leicestershire, Leicester City and Rutland Local Authorities and Leicester East parliamentary constituency

All Schools

	England	*Leicester LA*	*Leicester city LA*	*Rutland LA*	*All Leicestershire*	*Leicester East Parliamentary constituency*
Primary Schools	17,205	225	81	17	323	30
Secondary Schools	3,383	54	18	3	75	6

Schools where majority of pupils are minority ethnic[3]

	England[4]	*Leicestershire LA*	*Leicester city LA*	*Rutland LA*	*All Leicestershire*	*Leicester East Parliamentary constituency*
Primary Schools	2,122	6	43	0	49	23
Secondary Schools	440	2	10	0	12	4

[1] Includes middle schools as deemed.
[2] Includes City Technology Colleges and Academies.
[3] Where more than 50 per cent. of pupils of compulsory school age and above are classified as other than White British or Unclassified.
[4] Five primary schools and one secondary school did not return ethnicity data.
Source:
School Census

Education: Finance

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much funding has been *(a)* spent on and *(b)* allocated to (i) the Building Schools for the Future programme, (ii) the primary capital programme, (iii) the academy capital programme and (iv) other national capital programmes in each local authority area; and on what date each such allocation was made. [268470]

Jim Knight: The Department's programme capital Estimates (as approved by Parliament) for the relevant programmes along with forecast spend for 2008-09 are provided in the following table:

Capital Budget

			£ million
	2008-09	*2009-10*	*2010-11*
	Forecast spend	*Estimate*	*Estimate*
Building Schools for the Future and Academies	1,100	1,640	2,447
Primary Capital Programme (excluding PFI credits)	163	745	850
Other Schools Capital Programmes	3,341	3,985	2,760
Non Schools Capital Programmes	733	784	771
Total	5,337	7,154	6,828

The Academies programme is increasingly being delivered through the Building Schools for the Future Framework, and is therefore included as one figure.

The above takes into account £800 million brought forward from 2010-11 to 2009-10 as part of the fiscal stimulus. In addition, HMT has also agreed for a further £124 million to be brought forward which will be reflected in the Estimates in due course.

In addition to the above, £3.9 billion of PFI credits are available for allocation over the CSR period. The figures also do not include any End of Year Flexibility amounts which may be approved by HMT during future years. If approved, the above Estimate figures are likely to increase accordingly.

Funding is allocated on different dates depending on the nature of each programme. An analysis of this, also a split by local authority, cannot be provided without incurring disproportionate cost.

Education: Hearing Impaired

Glenda Jackson: To ask the Secretary of State for Children, Schools and Families if he will take steps to ensure that Ofsted inspections of educational provision for deaf children are carried out by inspectors who *(a)* have adequate levels of training and expertise in (i) education for the deaf and (ii) communication with deaf children and *(b)* are accompanied by a skilled interpreter. [265779]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to my hon. Friend and a copy of her reply has been placed in the House Libraries.

Letter from Christine Gilbert, dated 2 April 2009:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Ofsted recognises that inspecting provision and outcomes for deaf or hearing impaired pupils requires particular specialist knowledge and skills with regard to issues such as language development, communication methods, and acoustic conditions.

You asked how Ofsted ensured that its inspectors had adequate levels of training and expertise in education for the deaf and communication with deaf children. Ofsted has a small core team of four Her Majesty's Inspectors (HMI) who are specialists in the inspection of sensory impairment who are routinely deployed in the inspection of schools for deaf and hearing impaired pupils. Ofsted also requires our contracted Regional Inspection Service Providers to provide inspectors who are suitable for each individual inspection. Every effort is made to inspect special schools with inspectors who have expertise in that particular field. Where there is specific provision for pupils with SEN in mainstream schools, then every effort is made to provide the inspection team with an inspector with expertise in the particular field of SEN provided by the school. Training on inspecting special educational needs (SEN) in mainstream schools, special schools and pupil referral units was provided for HMI and Additional Inspectors (AI) during 2008, and is being updated for the coming year. All inspectors have access to extensive guidance available to support this area of work.

In February 2009, Ofsted announced that it has agreed three new contracts with contractors for the provision of inspection from September 2009. These contracts will cover all the inspection remits in schools and colleges, apprenticeships, adult skills and initial teacher education. The procurement process for the new contracts has provided the opportunity for Ofsted to renew the commitment of its contractors to deploy appropriately skilled and specialist additional inspectors for each school's context, including those with deaf children.

Ofsted is also working with the Department for Children, Schools and Families to ensure the availability to inspectors of better performance data for pupils with learning difficulties and/or disabilities, including children who are deaf and/or hearing impaired. In particular, we are seeking to provide performance data for individual pupils who have specific learning difficulties and/or disabilities, in order to measure more rigorously their progress and achievement.

You also asked whether inspectors are accompanied by a skilled interpreter. It is necessary for inspectors to be able to communicate effectively with deaf and hearing impaired pupils: this may require competence in British Sign Language or other methods of communication, or use of a skilled interpreter. Ofsted is reviewing these requirements for the new inspection arrangements for September, including the requirement to have an interpreter on inspection.

A copy of this reply has been sent to Rt Hon Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Extracurricular Activities

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many maintained secondary schools provide after-school, small group tuition in specific subject areas. [266447]

Sarah McCarthy-Fry: We do not collect information centrally on the number of secondary schools offering after-school, small group tuition in specific subject areas.

Further Education: Finance

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what change in allocations for 16 to 18 year learners there was between the provisional and final funding figures sent to schools and colleges; [illegible]

(2) whether the final 16 to 18 learner funding allocations cover *(a)* all students enrolled in schools and sixth form colleges and *(b)* all students predicted to enrol for the 2009-10 academic year; [illegible]

(3) when the Learning and Skills Council notified schools and colleges of their provisional 16 to 18 learner funding allocation. [illegible]

Jim Knight: We are planning record investment of over £6.7 billion in education for 16 to 18-year-olds from September this year. That means there is funding for over 1.5 million young people to study, the most 16 to 18-year-olds that have ever been in education in this country.

As part of the Department's wider discussions in the National Economic Council on what more we can do to support the economy, we are working across Government on the extra financial support we need to provide for the new learners that are coming forward.

The Learning and Skills Council's (LSC) letter of 31 March said that we continue to consider options for further funding, including meeting emerging pressures from the impact of the recession and recruitment during the year.

The LSC will be writing again to schools and colleges by the end of April.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families for what reasons the final 16 to 18 learner funding allocation issued to schools and colleges varied from the provisional allocation issued in early March. [269807]

Jim Knight: I refer the hon. Member to the press statement of 3 April 2009, which is available at:

http://www.dcsf.gov.uk/pns/DisplayPN.cgi?pn_id=2009_0068

GCE A-Level

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils took A levels in two or more of *(a)* accounting, *(b)* art and design, *(c)* business studies, *(d)* communication studies, *(e)* dance, *(f)* design and technology, *(g)* drama and theatre studies, *(h)* film studies, *(i)* health and social care, *(j)* home economics, *(k)* information and communication technology, *(l)* leisure studies, *(m)* media studies, *(n)* music technology, *(o)* performance studies, *(p)* performing arts, *(q)* photography, *(r)* physical education, *(s)* sports studies and *(t)* travel and tourism in (i) maintained schools and (ii) independent schools in the latest period for which figures are available. [257300]

Jim Knight *[holding answer 23 February 2009]*: 26,483 pupils[1] in maintained schools[2] were entered for two or more GCSE/Applied A-levels in the listed subjects in 2007/08. The equivalent number in independent schools was 3,283.

[1] Pupils aged 16-18 at the start of the academic year.

[2] The figure for maintained schools does not include further education colleges.

GCSE: Young Offenders

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many young people in the secure estate sat GCSE examinations in 2008. [269798]

Beverley Hughes: Information on the number of GCSEs sat for young people in custody are not collected centrally. However, the Learning and Skills Council (LSC) collects monthly data on learning for young people in Prison Service Young Offender Institutions. These data show that during the 2008 academic year, for young people under the age of 18, there were 106 GCSE achievements between grades A and C, and 159 GCSE achievements below grade C. However, these figures do not reflect all of the GCSEs achieved in juvenile custody because this does not include young people in Secure Children's Homes, Secure Training Centres, or private prisons. Also some of the young people in Young Offender Institutions are still registered at schools and colleges and therefore any GCSEs that they achieve whilst in custody will be reflected in achievement figures of schools and colleges, rather than the figures reported by the LSC for those achieved in custody.

General Certificate of Secondary Education

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 6 October 2008, *Official Report*, column 489W, on the General Certificate of Secondary Education, if he will provide an itemised breakdown of the estimated cost of providing the requested information in full. [241878]

Jim Knight: In the reply to PQ 231974, the estimated costs of providing the information requested in PQs 224479 and 224500 were £1,300 and £900 respectively.

Following a detailed analysis of the processes involved in answering these questions we are able to provide the itemised breakdowns as follows:

To ask the Secretary of State for Children, Schools and Families, at how many comprehensive schools 50 per cent. or more pupils achieved a modern languages GCSE at A-C in each year since 1997. (224479)*

	Hours required	*Cost to Department*
Planning	9	225
Implementing production rules	1	25
Writing syntax	8	200
Producing figures (11 years)	50.16	1,254
Producing figures (one year)	4.56	114
Run the required filters (including maintained only sector)	0.32	8
Create variables in exam file	0.32	8
Aggregate up to pupil level	0.2	5
Merge into pupil file	0.32	8
Aggregate up to school level	0.2	5
Merge to school file	0.2	5
Analysis of output (e.g. remove independent schools, remove schools with <10 pupils, count how many with <50 per cent. MFL, etc.)	3	75
Additional work	1.5	37.5
Formatting, footnotes, etc.	0.25	6.25
Personal QAing	1	25
Drafting PQ reply	0.25	6.25
QAing	3.5	87.5
Comments, redrafting, etc.	3	75
Signing off at SCS level	1	25
Total	66.16	1,704

To ask the Secretary of State for Children, Schools and Families, what percentage of pupils in the maintained mainstream sector achieved five GCSEs including a modern language at A to C grades in each year since 1997. (224500)*

	Hours required	*Cost to Department*
Planning	9	225
Implementing production rules	1	25
Writing syntax	8	200
Producing figures (11 years)	16.28	407
Producing figures (one year)	1.48	37
Run the required filters (including maintained only sector)	0.32	8
Create variables in exam file	0.32	8
Aggregate up to pupil level	0.2	5
Merge into pupil file	0.32	8

	Hours required	*Cost to Department*
Analysis of output (count number of pupils with 5 A*-C including MFL)	0.32	8
Additional work	1.5	37.5
Formatting, footnotes, etc	0.25	6.25
Personal QAing	1	25
Drafting PQ reply	0.25	6.25
QAing	3.5	87.5
Comments, redrafting, etc	3	75
Signing off at SCS level	1	25
Total	32.28	857

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 14 January 2009, *Official Report*, column 845W, on the General Certificate of Secondary Education, what estimate he has made of the cost to his Department of providing all the information requested; and under what budgetary headings such expenditure would be incurred. [251045]

Sarah McCarthy-Fry: The estimated cost to the Department of providing all the information requested is £850. These are salary costs.

Mr. Brady: To ask the Secretary of State for Children, Schools and Families what percentage of those pupils taking the further mathematics GCSE were at *(a)* comprehensive, *(b)* independent and *(c)* grammar schools in each of the last five years for which figures are available. [247785]

Jim Knight: Further mathematics is a subject that is not available at GCSE or equivalent. Further mathematics is first available as an AS-level subject.

Mr. Brady: To ask the Secretary of State for Children, Schools and Families of those who achieved *(a)* A* and A and *(b)* A* to C grades at GCSE in (i) physics, (ii) biology, (iii) chemistry and (iv) further mathematics, what percentage were studying at (A) comprehensive, (B) independent and (C) grammar schools in each of the last five years. [247793]

Jim Knight: The tables show the number of pupils at the end of key stage 4 achieving *(a)* an A* or A grade at GCSE and *(b)* an A* to C grade at GCSE in each subject in the last five years. Also shown are the percentages of these pupils who studied at comprehensive, independent and grammar schools and are placed in the House Libraries. These figures are not included for further mathematics, as this is not available at GCSE level.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 17 April 2007, *Official Report*, columns 1854-55W, on educational attainment, how many and what proportion of pupils at the end of Key Stage 4 attending *(a)* maintained secondary schools and *(b)* independent secondary schools achieved each grade in GCSE for (i) geography, (ii) history, (iii) a modern foreign language, (iv) English and (v) mathematics in each year since 1998. [248480]

Jim Knight: Tables showing the number and proportion of GCSE entries by grade and subject for pupils at the end of key stage 4 attending maintained and independent secondary schools from 2005-08 have been placed in the House Libraries. All GCSE attempts (including multiple attempts within each subject group) have been counted.

Figures prior to 2005 can not be provided on a comparable basis.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 16 October 2008, *Official Report*, columns 1502-3W, on schools: assessments, which of the schools that entered no pupils for a GCSE in history or geography also entered no pupils for a GCSE in humanities. [248567]

Jim Knight: The information is given in the following table:

Schools that entered no pupils for a GCSE in history or geography and also no pupils for a GCSE in humanities

School code	*Institution name*	*Local authority*
3096005	Greig City Academy	Haringey
3125406	Rosedale College	Hillingdon
3304611	St. Alban's CE Specialist Engineering College	Birmingham
3706905	The Barnsley Academy	Barnsley
8134075	Brumby Engineering College	North Lincolnshire
8564005	New College Leicester	Leicester City
8866906	The Marlowe Academy	Kent
9255422	St. Hugh's C of E Mathematics and Computing College	Lincolnshire
9354600	St. Benedict's Catholic School	Suffolk

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many students took both English language and English literature GCSE in *(a)* independent and *(b)* maintained schools in each of the last five years for which figures are available. [252603]

Jim Knight *[holding answer 29 January 2009]*: The numbers of pupils attempting both English language and English literature GCSE in maintained and independent schools for the last five years are as follows:

	Maintained schools	*Independent schools*
2007/08	471,943	38,685
2006/07	481,904	39,704
2005/06	486,514	39,944
2004/05	485,569	38,495
2003/04	491,666	37,011

Notes:

1. Figures relate to pupils at the end of Key Stage 4 except in 2003/04 for which the figures relate to 15-year-olds (age at start of academic year, i.e. 31 August).
2. Figures include attempts by these pupils in previous academic years. Only one attempt is counted per pupil.
3. The figures are derived from the Achievement and Attainment Tables data.

Gifted Children

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much has been spent on the Young, Gifted and Talented programme in each local authority area in each year since its introduction; and for what purposes such expenditure has been incurred. [268448]

Sarah McCarthy-Fry: There is no ring fenced funding for gifted and talented education in local authorities or schools, so this information is not available.

Gifted Children: Chelmsford

Mr. Burns: To ask the Secretary of State for Children, Schools and Families how many and what proportion of *(a)* primary and *(b)* secondary school pupils in West Chelmsford constituency have been identified as gifted and talented. [269215]

Sarah McCarthy-Fry: Through the School Census schools are asked to confirm the number of gifted and talented pupils they have identified. According to the summer 2008 Census 848 (10.7 per cent.) of pupils in maintained primary schools and 1,091 (12.8 per cent.) of pupils in maintained secondary schools were identified as gifted and talented in the West Chelmsford constituency.

Languages: General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what percentage of schools with a specialism in modern foreign languages entered all pupils for a modern language GCSE in the latest period for which figures are available. [259097]

Jim Knight: Of all schools with a specialism in languages, 15 (4.3 per cent.) entered their entire cohort at the end of KS4 for assessment in a modern foreign language at GCSE or equivalent in 2008.

Learning Mentors

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils of each age have been assigned a mentor in the last 12 months; and what percentage of mentors are from local businesses. [268479]

Jim Knight: The information requested is not held centrally.

Members: Correspondence

Steve Webb: To ask the Secretary of State for Children, Schools and Families when he plans to reply to the letter of 28 January 2009 from the hon. Member for Northavon, sent on behalf of Dr. G. Bailey of Yate, on Government support for childcare provision. [269022]

Sarah McCarthy-Fry: The Department has no record of receiving the letter of 28 January from the hon. Member. If the hon. Member can forward a copy of the letter to the Department a reply will be sent within the agreed Whitehall standard.

National Assessment Agency

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what meetings took place between the Minister for Schools and officials at the National Assessment Agency during 2008. [245828]

Jim Knight: I met with David Gee, managing director of the then National Assessment Agency (NAA), on 17 June and with David Gee and Ken Boston, chief executive of the Qualifications and Curriculum Authority (QCA), on 2 July. I also met with Ken Boston on 3 July. These meetings related to the delivery of national curriculum tests in 2008. As set out in Lord Sutherland's report there were regular meetings between senior officials in the Department, QCA and NAA, as part of the governance arrangements explained in the report to monitor QCA's delivery of its remit.

I also met with officials from QCA on 6 February, 18 March, 6 August, 14 August and 15 September to discuss matters relating to QCA's wider agenda.

National Curriculum Tests

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils in maintained schools obtained level 9 or above in *(a)* mathematics, *(b)* English and *(c)* science at Key Stage 3 in the latest year for which figures are available. [260543]

Sarah McCarthy-Fry: Key Stage 3 attainment at National Curriculum level 9 has not been assessed through national tests since 1995.

Ofsted

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 24 March 2009, *Official Report*, columns 221-2W on local government: disclosure of information, how many people have contacted Ofsted's National Business Unit anonymously in each of the last four years; how many Ofsted investigators have been investigated as a result; and if he will make a statement. [267787]

Jim Knight *[holding answer 30 March 2009]:* This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Libraries.

Letter from Christine Gilbert, dated 1 April 2009:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Ofsted has only recorded the number of anonymous contacts with the National Business Unit—that may have required action, as opposed to simple requests for information—since April 2007, when the new organisation came into being. These anonymous contacts relate to complaints about schools. Table A shows the number in each year as recorded in our system.

Table A: Number of anonymous contacts with the National Business Unit that may have required action

Year	Quantity
2007-08	30
2008-09	65

Some additional anonymous contacts relating to the compliance, investigation and enforcement activities we undertake on childcare, daycare and other children's services are made directly to our inspectors or local teams, rather than via the National Business Unit. This information is not collated or held centrally and could only be provided at a disproportionate cost.

As these were complaints about schools and not about inspections, they did not lead to any Ofsted inspectors being investigated.

A copy of this reply has been sent to the Rt Hon Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Peter Housden

Robert Neill: To ask the Secretary of State for Children, Schools and Families with reference to page 28 of the Department for Education and Skills Resource Accounts 2001-02, for what reason Mr. Peter Housden received an interest-free housing loan; and for how many years he received such a loan from the Department for Education and Skills. [259582]

Sarah McCarthy-Fry: The loan was provided in 2002 when Mr. Housden worked for the Department for Education and Skills as part of a relocation package from Nottingham to London. The loan transferred to Communities and Local Government when Mr. Housden was appointed as Permanent Secretary on 24 October 2005.

Packages of this kind are commonplace in many major organisations and are a key part of recruiting the very best candidates. The loan is counted as taxable income and is being paid back over a 10-year period. Rules governing loans are detailed in the Civil Service Code.

Pre-school Education: Finance

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to assess different options for funding the early years entitlement. [268984]

Beverley Hughes: The dedicated schools grant formula review was launched at the end of January 2008. The purpose of the review is to ensure that all education to the age of 16 is well supported and providers have the confidence they require to plan their spending effectively over the longer term. We have established a DSG formula review group with representation from central and local Government, teaching associations, unions representing support staff and governors' organisations. In addition, other stakeholders are invited to attend when the most relevant issues to them are on the agenda. We are also considering the extent to which we can rationalise and simplify the different funding streams to deliver children's services — particularly relevant to early years.

In addition, all local authorities in England are currently in the process of introducing a single funding formula to support the delivery of the free entitlement to early years provision. While this will not mean that funding levels will be equal across all providers, it will mean that it will be provided on an equitable basis, taking into account the same factors, reflective of costs and that any differences will be both transparent and fully justifiable.

It will also introduce a shift away from place based funding toward participation led funding. There are a number of options for consideration in the formulation of the framework—for example how local formulas are used to take account of costs associated with quality, flexibility and outcomes, and under participation led funding when children are counted as participating in provision. The Department is assessing these options through a formula development pilot which was set up in November 2007 and now involves 12 local authorities whose experiences and challenges are being captured.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the effectiveness of the processes by which nurseries had recovered the full cost of providing early years childcare places to three and four-year-olds in the last 12 months. [269198]

Beverley Hughes: Independent research shows that the funding at the national level is sufficient with around £4 billion being spent by local authorities on provision for under fives in 2007-08, including the free entitlement for three and four-year-olds. This amount is up from around £1 billion in 1997-98. The research, conducted by Hedra in 2007 can be found at:

www.everychildmatters.gov.uk/resources-and-practice/RS00042/

The cost of delivering the free entitlement will vary from region to region therefore it is for local authorities to make any assessments. As part of the requirement to introduce a single funding formula to support the delivery of the flexible extension to the free entitlement, all local authorities are required to undertake a cost analysis of their providers to ensure that the offer is fully and fairly supported.

Pupil Exclusions: Special Educational Needs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what percentage of pupils with statemented special educational needs of *(a)* behavioural, emotional or social difficulties and *(b)* autism were given (i) one, (ii) two, (iii) three, (iv) four, (v) five and (vi) more than five fixed-period exclusions from (A) mainstream primary and (B) mainstream secondary schools in the latest year for which data are available. [262105]

Sarah McCarthy-Fry: Data on pupil characteristics linked to exclusions were collected in the School Census for the first time in 2005/06, but was collected from secondary schools only. In 2006/07 data were also collected from primary and special schools. The special educational needs status can change between periods of exclusion and the Department is currently working on a methodology for the analysis of this information.

Pupil Referral Units

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many *(a)* boys and *(b)* girls in each age group have been in pupil referral units in each of the last 10 years. [266720]

Sarah McCarthy-Fry: The available information is shown in the following tables.

Pupils in pupil referral units as at January each year: number of pupils[1] by age[2] England

Number of pupils

	1999		2000		2001		2002		2003

[1] Includes solely registered pupils, including those registered at a PRU who attend at other providers, e.g. FE colleges.
[2] Age at 31 August in previous year.
[3] Not available.
[4] Less than five pupils.
Note:
Pupil numbers have been rounded to the nearest 10. *Source:* School Census.

Pupils: Absenteeism

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what percentage of pupils enrolled at National Challenge schools were persistent absentees in the latest period for which figures are available. [268484]

Jim Knight: There are 440 schools where fewer than 30 per cent. of pupils achieve 5 A*-C at GCSE including English and mathematics, based on validated 2008 data. In these schools 34,748 pupils, or 9.5 per cent. were persistently absent in 2007/08. National Challenge also provides bespoke support to schools deemed to be at risk of falling below the 30 per cent. benchmark. In these 545 schools 39,915 pupils, or 8.9 per cent., were persistently absent.

National Challenge is providing £400 million over three years for bespoke packages of support to meet schools' particular needs, including tackling persistent pupil absence where this is an issue.

We are committed that by 2011 no local authority will have more than 5 per cent. of its secondary pupils as persistent absentees. Additional support is targeted at schools and local authorities with the highest proportions of persistently absent pupils to help minimise pupil absence from schools.

Pupils: Languages

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils whose first language was not English achieved five grades A* to C at GCSE in each year since 1997. [265671]

Jim Knight: The information requested is given in the following table for the years 2001-02 to 2007-8. Information for years prior to 2001-02 is not available as prior to 2002 individual pupil characteristic information was not collected.

Pupils whose first language is not English or believed not to be English: Achievement of 5 A-C grades at GCSE, 2002-08*

Year[1]	*Number eligible*	*Number achieving*	*Proportion achieving (percentage)*
2001-02	50,200	23,000	45.8
2002-03	51,700	24,800	48.0
2003-04	51,500	26,100	50.7
2004-05	51,300	28,100	54.8
2005-06	54,500	30,700	56.2
2006-07	55,800	32,500	58.2
2007-08	58,400	36,000	61.6

[1] From 2004/05 these figures are based on pupils at the end of key stage 4. Prior to this the figures were based on 15-year-olds.

Pupils: Per Capita Costs

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how much his Department spent on average per pupil in primary education in *(a)* Tamworth constituency, *(b)* Staffordshire and *(c)* England in each of the last five years. [267976]

Jim Knight: The Department allocates education funding to local authorities so the requested information for Tamworth constituency is not available. In addition it is for local authorities to determine how they spend their funds locally. The per pupil revenue funding figures for primary school pupils and all funded pupils for England and Staffordshire local authority in 2004-05 and 2005-06 are as follows. These figures are in real terms:

Real terms revenue funding per pupil—EFS plus grants

£

	England	*Staffordshire*
Primary pupils (3 to 10 years)		
2004-05	3,850	3,390
2005-06	4,080	3,610
All pupils (3 to 19 years)		
2004-05	4,360	3,870
2005-06	4,580	4,080

Notes:

1. Price Base: Real terms at 2007-08 prices, based on GDP deflators as at 25 November 2008.
2. Figures reflect relevant sub-blocks of Education Formula Spending (EFS) settlements and include the pensions transfer to EFS.
3. Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged 3 to 15 and exclude Education Maintenance Allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EFS settlement calculations.
5. Rounding: Figures are rounded to the nearest £10.
6. Status: Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

The revenue per pupil figures shown in the following table are taken from the Dedicated Schools Grant (DSG) which was introduced in April 2006. They are not comparable with those for the years 2004-05 to 2005-06 because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded.

The 2004-05 to 2005-06 figures are based on Education Formula Spending (EFS) which formed the education part of the Local Government Finance Settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. The DSG is based largely on an authority's previous spending. In addition, the DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's Local Government Finance Settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable.

To provide a comparison for 2006-07 DSG, the Department have isolated the schools block equivalent funding in 2005-06; as described above this does not represent the totality of 'education' funding in that year.

The per pupil revenue funding figures for years 2005-06 (baseline) to 2008-09 for England and Staffordshire local authority are provided in the following table. As the DSG is a mechanism for distributing funding, a split between primary and secondary schools is not available. The figures shown are for all funded pupils aged three to 19 and are in real terms:

Real terms revenue funding per pupil—DSG plus grants

£

	England	*Staffordshire*
All pupils (3 to 19 years)		
2005-06 (baseline)	4,230	3,890
2006-07	4,370	3,990
2007-08	4,530	4,130

Real terms revenue funding per pupil—DSG plus grants

£

	England	*Staffordshire*
2008-09	4,550	4,160

Notes:
1. This covers funding through the Dedicated Schools Grant, School Standards Grant, School Standards Grant (Personalisation) and Standards Fund as well as funding from the Learning and Skills Council; it excludes grants which are not allocated at LA level.
2. Price Base: Real terms at 2007-08 prices, based on GDP deflators as at 25 November 2008.
3. These figures are for all funded pupils aged 3 to 19.
4. Figures have been rounded to the nearest £10.
5. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

Annette Brooke: To ask the Secretary of State for Children, Schools and Families how much on average his Department has spent on each pupil between 16 and 19 years in each year since 2000; and if he will make a statement. [269715]

Jim Knight: Average funding on participation per full-time equivalent learner in Learning and Skills Council (LSC) funded school sixth forms and FE colleges (including specialist schools and colleges) is presented in the following table.

Financial year	*16-18 learners in SSF and FE colleges (£)*
2003-04	4,460
2004-05	4,570
2005-06	5,100
2006-07	5,310
2007-08	5,340

Note:
Rounded to the nearest £10.

It is not possible to provide data prior to 2003-04 in a comparable form due to changes in the methods of measuring learner numbers.

School Leaving

Kelvin Hopkins: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effect of the extension of the compulsory age of participation in education or training on his responsibilities in respect of ensuring a safe environment for all young people; and what *(a)* steps he plans to take and *(b)* resources he plans to allocate to (i) establish and (ii) regulate such an environment. [269777]

Jim Knight: We are committed to making this country the best place for children to grow up. This includes providing world class facilities for young people to learn which are safe, support their needs and inspire them to succeed. By 2015 local authorities will need to ensure access to high quality facilities to deliver the full 14-19 entitlement, enabling all young people to be in learning.

Guidance on "Safeguarding Children and Safer Recruitment in Education" came into force in January 2007. The guidance sets out the responsibilities of all local authorities, schools and FE colleges in England to safeguard and promote the welfare of children and young people.

Independent of DCSF, Ofsted are responsible for assessing the safety of young people in every learning environment. This includes the care, guidance and support offered to them, and the extent to which the provision contributes to them being healthy and staying safe. We envisage this will continue after the raising of the participation age has come into force.

School Meals: Somerset

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of school kitchens which were *(a)* opened and *(b)* closed in Somerset in each year from 1988-89 to 2008-09. [269180]

Jim Knight: The Department does not collect this information.

Schools: Cornwall

Matthew Taylor: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary and *(b)* secondary schools there are in each parliamentary constituency in Cornwall with no other school serving the same age range within a (i) one and (ii) two mile radius. [262772]

Sarah McCarthy-Fry: The information requested is given in the following table:

	Primary			*Secondary*		
	Total number of schools	*Number of schools with no other school within 1 mile*	*Number of schools with no other school within 2 miles*	*Total number of schools*	*Number of schools with no other school within 1 mile*	*Number of schools with no other school within 2 miles*
Falmouth and Camborne	37	13	2	5	5	1
North Cornwall	57	41	28	7	5	5
South East Cornwall	49	32	14	6	6	4
St. Ives	49	36	7	7	5	5
Truro and St. Austell	45	30	6	6	4	4

Source:
School Census January 2008

Schools: Finance

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much was spent through the Basic Needs Safety Valve Targeted Capital Fund in 2007-08 and what his most recent estimate is of expenditure through the Fund in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [268365]

Sarah McCarthy-Fry: The Department allocated £9 million Basic Need Safety Valve funding in 2007-08. The most recent estimate of allocations is:

(a) 2008-09: £19 million;

(b) 2009-10: £32 million; and

(c) 2010-11: £26 million.

Michael Gove: To ask the Secretary of State for Children, Schools and Families what his latest estimate is of expenditure on the Primary Capital programme for *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [268368]

Sarah McCarthy-Fry: The latest estimate of allocations by the Department to local authorities in respect of the Primary Capital Programme, including amounts brought forward from 2010-11 to 2009-10, are

(a) £2008-09: £149 million;

(b) 2009-10: £745 million; and

(c) 2010-11: £903 million.

Local authorities are expected to add substantial resources to these allocation figures from their other capital resources, when fulfilling their Primary Capital Strategies.

Schools: Somerset

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much capital funding was allocated to schools in Somerset in each year from 1988-89 to 2008-09; and if he will make a statement. [269165]

Sarah McCarthy-Fry: Capital funding allocated to schools in Somerset in each year from 1996-97, the first year in which detailed records are available, to 2008-09, is set out in the following table:

	£000
1996-97	3,568
1997-98	3,845
1998-99	8,765
1999-2000	9,188
2000-01	18,148
2001-02	17,621
2002-03	19,859
2003-04	18,850
2004-05	21,831
2005-06	18,240
2006-07	26,222
2007-08	21,318

The increases in funding in 1998-99 to 2000-01 are due to the new deal for schools programmes, from 2000-01 the Devolved Formula Capital programme, and from 2004- 05 the Modernisation programme. The spike in 2006-07 largely results from an allocation for maintained boarding schools.

Schools: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of children aged 16 years or under are attending a school participating in the National Challenge in each local education authority. [259484]

Jim Knight: The following shows the proportion of children aged 16 years or under attending schools supported by the National Challenge by local authority.

This table captures the proportion of pupils in the 440 schools currently below the 30 per cent. benchmark target where fewer than 30 per cent. of pupils achieve five A*-C at GCSE including English and mathematics, based on validated 2008 data. These figures are captured in column A. All of these schools are receiving additional bespoke support.

The National Challenge programme does not just however support schools below the floor target. Bespoke support is also provided for schools at risk of dropping below the floor target. The table also therefore captures the proportion of pupils in schools receiving support from the National Challenge and City Challenge programmes. These figures are captured in column B.

[1] Includes City Technology Colleges and Academies.

[2] Excludes dually registered pupils.

[3] Number of pupils aged 16 and under in National Challenge schools expressed as a percentage of the number of pupils aged 16 and under in all state-funded secondary schools.

[4] Two National Challenge schools in this LA have not been included as they were not open at the January 2008 census date.

Note:

Pupil numbers are rounded to nearest 10.

School Census

Mr. Gray: To ask the Secretary of State for Children, Schools and Families what percentage of *(a)* medium-sized and *(b)* large schools Ofsted judged to be (i) outstanding, (ii) good, (iii) satisfactory and (iv) inadequate in each of the last 10 years. [267382]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Libraries.

Letter from Christine Gilbert, dated 3 April 2009:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

There are no standard definitions for medium or large schools. This response provides data based on the size banding used when analysing inspection outcomes for Ofsted's Annual Reports. These also include the figures on small schools (primary schools with 100 pupils or fewer, and secondary schools with 600 pupils or fewer), previously provided in response to Parliamentary Question 258254. Data identifying the total number of pupils on a school's roll in each academic year are derived from the Annual School Census produced by the Department for Children, Schools and Families. Please note that schools for which the number of pupils on roll is not available have been excluded from this analysis.

Ofsted introduced a judgement of schools' overall effectiveness in January 2000, and this response covers data since that point. Under the school inspection framework used between January 2000 and August 2005 (commonly known as Section 10), the school's overall effectiveness judgement was made using a seven point scale: excellent, very good, good, satisfactory, unsatisfactory, poor and very poor. Since September 2005, the overall effectiveness judgement has been made under the current school inspection framework (commonly known as Section 5) using a four point scale: outstanding, good, satisfactory and inadequate. Tables A to D show the percentages of primary and secondary schools by grade for each academic year since January 2000.

It is not possible to operate a simple read-across approach from a seven- to a four-point scale. Ofsted's criteria for making inspection judgements about schools are clearly set out in our inspection guidance, which is available on the Ofsted website at

http://www.ofsted.gov.uk/Ofstedhome/Formsandguidance/Browseallby/Other/General/Guidance-for-inspectors-of-schools-conducting-the-inspection/(language)/eng-GB

A copy of this reply has been sent to Rt Hon Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Table A—Overall effectiveness in primary schools inspected between January 2000 and 2004/05, by size of school

			Overall effectiveness: percentage of schools inspected						
Academic year	Size of school (number of pupils on roll)	Number of school inspections	Excellent	Very good	Good	Satisfactory	Unsatisfactory	Poor	Very poor
January-July 2000	1-100	338	0	19	49	23	8	1	0

Science: Education

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) with reference to the answer of 2 November 2005, *Official Report*, columns 1207-11W, on science, what percentage of those students who gained *(a)* a GCSE, *(b)* an A-level and *(c)* an AS-level in (i) biology or human biology, (ii) chemistry and (iii) physics in each year since 2000 were educated in (A) the state sector and (B) the independent sector, broken down by grade; [241876]

(2) pursuant to the answer of 21 January 2009, *Official Report*, columns 2544-46W, on languages: general certificate of secondary education, how many and what proportion of pupils who gained a GCSE in *(a)* physics, *(b)* chemistry and *(c)* biology at each grade were educated in the (i) maintained and (ii) independent sector in the most recent year for which figures are available. [254448]

Jim Knight: The information requested has been placed in the House Libraries for the years 2005-08. Figures prior to 2005 can be produced only at disproportionate cost.

Secondary Education: Milton Keynes

Mr. Lancaster: To ask the Secretary of State for Children, Schools and Families (1) what assessment he has made of the effect of the reduction in funding for secondary schools in Milton Keynes announced for 2009-10 by the Learning and Skills Council; [268958]

(2) for what reasons the Learning and Skills Council replaced the final funding allocation sent to schools in Milton Keynes on 3 March 2009 with a final funding statement on 31 March 2009; what assessment he has made of the effect of this on schools' budgetary planning; and if he will make a statement. [268960]

Jim Knight: I refer the hon. Member to the press statement of 3 April 2009, which is available at:

http://www.dcsf.gov.uk/pns/DisplayPN.cgi?pn_id=2009_0068

Sixth Form Education

Kelvin Hopkins: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 11 December 2008, *Official Report*, columns 279-80W, on sixth form education, whether the changes to the Decision Makers' guidance in relation to new school sixth forms were implemented in February 2009. [268021]

Jim Knight: I am currently considering comments received from key 16-19 stakeholders in the consultation on the proposed changes to the Decision Maker's Guidance. The full revised guidance will be published on the Department's website as soon as possible. On 26 March we made one change to the guidance to alter the presumption eligibility period from 12 to 24 months.

Sixth Form Education: Admissions

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what the projected learner numbers are for those between 16 and 19 years in sixth form education in each of the next five years; and if he will make a statement. [269716]

Jim Knight: The Learning and Skills Council (LSC) Annual Statement of Priorities published in 2008 estimated total participation in 2009/10 to be 1,484,000 of which 399,000 are in school sixth forms including Academies. Projected information for each of the next five years will be part of the next spending review and is not yet available.

Sixth Form Education: Finance

Mr. Burstow: To ask the Secretary of State for Children, Schools and Families (1) if he will reverse the reductions announced in overall funding levels for the 2009-10 sixth form allocations; and if he will make a statement; [269312]

(2) what the reasons are for the reductions in 2009-10 sixth form funding allocations made by the Learning and Skills Council; and if he will make a statement. [269313]

Jim Knight: We are not cutting funding for further education (FE) colleges or sixth forms in 2009/10.

We are planning record investment of over £6.7 billion in education for 16 to 18-year-olds from September this year. That means there is funding for over 1.5 million young people to study, the most 16 to 18-year-olds that have ever been in education in this country.

As part of the Department's wider discussions in the National Economic Council on what more we can do to support the economy, we are working across Government on the extra financial support we need to provide for the new learners that are coming forward.

The Learning and Skills Council's (LSC) letter 31 of March confirmed that we continue to consider options for further funding, including meeting emerging pressures from the impact of the recession and recruitment during the year. The LSC will be writing again to schools and colleges by the end of April.

Social Services: Children

Mr. Waterson: To ask the Secretary of State for Children, Schools and Families how many serious case reviews there have been on the death of children in Eastbourne in each of the last 10 years. [267270]

Beverley Hughes: Information is collected at local authority level only.

Special Educational Needs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what the planned expenditure in England on *(a)* provision for pupils with statements and the provision for non-statemented pupils with special educational needs (SEN), *(b)* support for inclusion, *(c)* inter-authority recoupment, *(d)* fees for pupils at independent special schools abroad, *(e)* educational psychology services, *(f)* local authority functions in relation to child protection, therapies and other health-related services, *(g)* parent partnership, guidance and information, *(h)* the monitoring of SEN provision and inclusion administration, assessment and co-ordination, *(i)* funding delegated to nursery, primary and secondary schools identified as notional SEN and *(j)* the individual schools budget for special schools is for 2008-09. [253326]

Sarah McCarthy-Fry: The available information for planned net expenditure on the provision of education for pupils with special educational needs in England for 2008-09 is contained within the following table:

	£
Individual Schools Budget (ISB) for special schools	1,505,416,000
Funding delegated to nursery, primary and secondary schools identified as "notional SEN"	2,043,281,000
SEN funding delegated to schools	3,548,697,000
Provision for pupils with SEN (including assigned resources)	261,032,000
Provision for pupils with SEN; provision not included in line 1.2.1	215,724,000
Support for inclusion	80,239,000
Fees for pupils at independent special schools and abroad	582,156,000
Inter-authority recoupment	45,991,000
Centrally retained SEN element of the school budget	1,185,141,000
Educational Psychology Service	146,243,000
SEN administration assessment and co-ordination	86,016,000
Therapies and other Health Related Services	13,171,000
Parent partnership guidance and information	20,115,000
Monitoring of SEN provision	17,895,000
LA functions in relation to child protection	81,789,000
SEN element of the LA budget	365,229,000
Total planned expenditure on the provision of education for children with special educational needs'	5,099,068,000
Planned expenditure on SEN transport	552,559,000

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what percentage of pupils with statements in each local authority area attended *(a)* mainstream primary, *(b)* mainstream secondary, *(c)* independent primary and *(d)* independent secondary schools in each year since 1997. [258732]

Sarah McCarthy-Fry: The requested information for the 12 year time period could be provided only at disproportionate cost. However, a table providing information for the years 1997, 2002 and 2008 has been placed in the House Libraries. Information is provided for maintained primary, state-funded secondary and independent schools. Information on types of independent schools is not collected.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils with statements of special educational needs attended mainstream secondary schools at which fewer than *(a)* 10 per cent., *(b)* 20 per cent. and *(c)* 30 per cent. of pupils obtained fewer than five A* to C grades in GCSEs including English and mathematics in 2007-08. [260508]

Sarah McCarthy-Fry: In 2008, 38 (0.29 per cent.) of pupils with statements of SEN were in maintained mainstream schools with fewer than 10 per cent. of pupils achieving five or more grades A*-C including English and maths.

578 (4.38 per cent.) of pupils with statements of SEN were in maintained mainstream schools with fewer than 20 per cent. of pupils achieving five or more grades A*-C including English and maths.

2383 (18.06 per cent.) of pupils with statements of SEN were in maintained mainstream schools with fewer than 30 per cent. of pupils achieving five or more grades A*-C including English and maths.

Only maintained mainstream schools with 10 or more pupils were considered in the answer.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many maintained and non-maintained special schools there were in each local authority in *(a)* 1997, *(b)* 2003 and *(c)* 2008, broken down by special educational needs priority. [260935]

Sarah McCarthy-Fry: The Department does not hold historical data relating to the special educational needs priority one indicator for special schools. The indicator relates only to a school's current SEN designation. Tables, taken from my Department's records, based on information provided by local authorities, indicating the number of maintained and non-maintained special schools in each local authority area for each of the years 1997, 2003 and 2008 have been placed in the House Libraries for viewing.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many pupils attended independent special schools in each local authority area in each year since 1997. [264608]

Jim Knight: The earliest and latest available data are shown in the following table.

Data for further years could be provided only at disproportionate cost.

The data show the number of pupils attending independent schools in each local authority area that are either approved under s347 of the Education Act 1996, or that cater wholly or mainly for pupils with special educational needs. The Department does not hold data identifying which authority may have placed a pupil in an independent school, or whether pupils have been placed at their parents' own expense.

Independent special schools[1]: Number of pupils in independent schools that are either approved under s347 of the 1996 Education Act or that cater wholly or mainly for pupils with SEN: As at January 2005 and 2008—England

[1] Includes school types: Independent Schools Approved for SEN Pupils and Other Independent Special Schools.
[2] Excludes dually registered pupils.
[3] In a small number of cases there is a relatively large change between the two years. This is because of changes in the number of schools of this type between the years, and movement of schools between local authority areas.
[4] Less than five pupils.
Note:
Figures have been rounded to the nearest 10.

School Census

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) pursuant to the answer of 18 March 2008, *Official Report*, column 1250W, on special educational needs: disadvantaged, how many special schools there were in each decile of lower layer super output areas as determined by the income deprivation affecting children indices in 2008; [266447]

(2) how many specials schools there were in each decile of lower layer super output areas as determined by the income deprivation affecting children indices in 2003. [266448]

Sarah McCarthy-Fry: The information requested is shown in the table:

Number of special schools[1] by IDACI decile[2] of school location

IDACI decile	2003	2008
0-10% most deprived areas	121	117
10-20%	122	114
20-30%	113	102
30-40%	125	123
40-50%	110	99
50-60%	94	92
60-70%	115	105
70-80%	105	93
80-90%	129	109
90-100% least deprived areas	126	111

[1] Includes maintained and non-maintained special schools.
[2] 2007 Income Deprivation Affecting Children Index.
Source:
School Census

Mr. Waterson: To ask the Secretary of State for Children, Schools and Families how many special needs children have not been accepted into mainstream education because of the lack of resourced staff in *(a)* Eastbourne constituency, *(b)* East Sussex and *(c)* England in the last 12 months; and if he will make a statement. [268374]

Sarah McCarthy-Fry: This information is not available.

No child with special educational needs (SEN) should be denied admission to a mainstream school because of staffing levels. They are protected against being treated worse then other children in the admissions process. For children with SEN statements, under section 324 (5) (b) of the Education Act 1996, local authority maintained schools, including maintained mainstream schools, are required to admit pupils whose statements name the school. The statements may set out extra staffing resources to meet the child's needs. The statutory School Admissions Code says that admission authorities and school governing bodies must ensure that their admission arrangements are fair and do not unfairly disadvantage particular social or racial groups including children with SEN. Under the Disability Discrimination Act 1995, children with SEN who also come within the definition of disability under that Act are protected against discrimination in the matter of admissions on the ground of disability and their parents can make claims to the First-tier Tribunal (SEN and Disability) or to local admissions panels if they feel their child has been discriminated against.

As at January 2008, there were 40,000 more teachers in schools than there were in 1997. The total school workforce staff (teacher and support staff) has grown by 42 per cent. since 1997, with the number of teaching assistants having increased by 12,700 between 2007 and 2008. Full-time teacher vacancies in local authority maintained schools were running at 0.7 per cent. in East Sussex, the same percentage as for England as a whole.

Special Educational Needs: Disadvantaged

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils who were eligible for free school meals, had statements of special educational needs and were children in care were given *(a)* fixed-term and *(b)* permanent exclusions in the most recent school year for which figures are available. [260505]

Sarah McCarthy-Fry: Currently available sources of data on children in care do not provide sufficiently complete data to answer this question.

The OC2 data collection collects information on a range of outcomes for looked after children from local authorities. This information has been published in the Statistical First Release "Outcome Indicators for Children Looked After, Twelve months to 30 September 2007—England" (SFR 08/2008), which is available on the Department's website via the following link at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000785/index.shtml

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils with *(a)* statemented and *(b)* non-statemented special educational needs lived in the most deprived percentile of lower layer super output areas as determined by the income deprivation affecting children indices in (i) 2003 and (ii) 2008. [266444]

Sarah McCarthy-Fry: The information is provided in the following table:

Number and proportion of pupils[1] with a statement of special education needs (SEN) and with SEN but without a statement living in the most deprived percentile of lower layer super output areas as determined by IDACF, 2003 and 2008

		2003	2008
Pupils with a statement of SEN	Number of pupils living in the most deprived percentile	4,168	3,598
	Percentage of pupils with a statement of SEN living in the most deprived percentile[1]	1.7	1.7
Pupils with SEN but without a statement	Number of pupils living in the most deprived percentile	24,184	28,556
	Percentage of pupils with SEN but without a statement living in the most deprived percentile3	2.2	2.2

[1] Includes solely registered pupils only.
[2] Income Deprivation Affecting Children Index 2007 at Super Output Area level.
[3] Proportion calculated using the number of pupils with valid postcodes who could be matched to super output areas.

School Census

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 18 March 2009, *Official Report*, column 1250W, on special educational needs: disadvantaged, what the names of the 117 schools referred to in the table are; and in which local authority area each is located. [266507]

Sarah McCarthy-Fry: A table listing the 117 special schools in the most deprived decile of lower layer super output area by Income Deprivation Affecting Children Indices has been placed in the House Libraries.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what percentage of children in each decile of area deprivation by *(a)* pupil residence and *(b)* school location were recorded as having (i) statemented and (ii) non-statemented special educational needs in (A) 2003 and (B) 2008. [264846]

Sarah McCarthy-Fry: The information requested is shown in the following tables:

(i) Percentage of children in schools[1, 2, 3] with a statement of special educational needs[4] by IDACI decile[5] of pupil residence and school location, 2003 and 2008

	2003		2008

Special Educational Needs: East Sussex

Mr. Waterson: To ask the Secretary of State for Children, Schools and Families how many maintained special schools there were in *(a)* Eastbourne and *(b)* East Sussex in each year since 1990. [267248]

Sarah McCarthy-Fry: The available information is shown in the following table. Information by parliamentary constituency is only available from 1997.

Maintained special schools: number of schools in Eastbourne parliamentary constituency and East Sussex local authority as at January each year

	East Sussex local authority	*Eastbourne parliamentary constituency*
1990[1]	20	n/a
1991[1]	20	n/a
1992[1]	19	n/a
1993[1]	19	n/a
1994[1]	19	n/a
1995[1]	19	n/a
1996[1]	19	n/a

School Census.

Special Educational Needs: General Certificate of Secondary Education

Tim Loughton: To ask the Secretary of State for Children, Schools and Families at how many mainstream schools attended by pupils with statements of special educational needs no such pupils achieved five A* to C grades at GCSE in 2008. [265674]

Sarah McCarthy-Fry *[holding answer 20 March 2009]:* In 43 maintained mainstream schools, no pupils with statements of SEN attained five or more GCSEs at grades A* -C or the equivalent in 2008.

Only schools with 10 or more pupils with SEN with statements were considered in the answer.

Special Educational Needs: Pupil Exclusions

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many pupils with special educational needs were given a fixed-period exclusion from a secondary school in each local authority area in the latest year for which figures are available, broken down by reason for exclusion. [260807]

Sarah McCarthy-Fry: A table showing the number of fixed period exclusions (not the number of pupils) for pupils with special educational needs for 2006/07 and has been placed in the House Libraries. Pupils can be excluded more than once and these can be for different reasons.

Special Educational Needs: Tribunals

Mr. Marsden: To ask the Secretary of State for Children, Schools and Families what estimate he has made of local authorities' expenditure on legal counsel in preparation for and for representation at special educational needs and disability tribunals related to autism in 2007-08. [268741]

Sarah McCarthy-Fry: No estimate has been made.

Specialised Diplomas

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils of each age are entered for the 14 to 19 diploma examinations. [268496]

Jim Knight: Data gathered from local authorities in September 2008 told us that 12,072 young people had started a diploma course. This figure comprises 8,568 pre-16 and 3,504 post-16 learners. We collected this information for funding purposes, and we have not collected revised figures subsequently.

Because the diploma is a composite qualification consisting of several different elements, centres will not enter their learners for just a single examination. We will know exactly how many diploma awards have been made in the first year when the results are made available on 27 August 2009. However, most diplomas are taken as two-year courses, and we therefore expect the majority of awards from the first phase of teaching to be made in summer 2010. We do not normally expect to know how many learners have been entered for a particular examination before results are collected from awarding organisations.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many days work-based training pupils have completed on average in each level of each of the 14 to 19 diplomas. [268498]

Sarah McCarthy-Fry: Young people began diploma programmes for the first time in September 2008. At this early stage, in one or two year programmes, detailed data on the number of days they have completed in work based training is not available.

However, each diploma learner must complete a minimum of 10 days work experience during their programme. In addition, as part of their diploma programme, they will have opportunities to undertake work related learning in a range of settings beyond the classroom, to equip them with the knowledge and skills for employment and further study.

Specialised Diplomas: Publicity

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) on what sites *(a)* posters and *(b)* other promotional material for the 14-19 diploma have been placed; [267521]

(2) how much his Department has spent on advertising for the 14-19 diploma; on what date each advertising campaign was commissioned; how much each cost; and what type of advertising was used. [267526]

Sarah McCarthy-Fry *[holding answer 27 March 2009]:* The aim of the ongoing diploma information campaign is to increase awareness and understanding of the diploma to enable young people and their parents to make informed choices about whether the qualification is the right option for them.

The information campaign has included posters placed on buses, bus shelters, telephone kiosks and roadside sites to raise awareness of the new qualification.

The campaign has also involved: radio and press advertising; events; and information materials, including leaflets and DVDs which are available on the internet and for schools to order.

The diploma information campaign was commissioned in August 2007 and, to date, the Department has spent £6,712,189.38 on advertising.

There were two main phases of advertising activity in 2007/2008 between 29 October and 25 November and 21 January and 17 February.

There were three main phases of advertising activity in 2008/2009 between 22 September and 19 October, 5 January and 1 February and 9 March and 5 April. The type of advertising is broken down in the following table.

Media	*Spend (£)*
2007/2008	
Radio	967,842.04

Sure Start Programme

Michael Gove: To ask the Secretary of State for Children, Schools and Families where each Sure Start Centre opened in the last 12 months is located. [268482]

Beverley Hughes: Between 1 April 2008 and 31 March 2009 Sure Start Children's Centres opened in the following local authorities:

Barking and Dagenham
Barnet
Bexley
Birmingham
Brent
Bristol
Bromley
Camden
Cornwall
Coventry
Derbyshire
Devon
Dorset
East Riding of Yorkshire
Enfield
Hammersmith
Hampshire
Harrow
Herefordshire
Kent
Kingston upon Hull
Kirklees
Knowsley
Lambeth
Lancashire
Leeds
Leicestershire
Merton
Milton Keynes
Norfolk
North East Lincolnshire
North Lincolnshire
Northumberland
Nottinghamshire
Oxfordshire
Peterborough
Plymouth
Portsmouth
Redcar and Cleveland
Rotherham
Sandwell
Shropshire
Southwark
Staffordshire
Stockton on Tees
Suffolk
Surrey
Sutton
Thurrock
Walsall
Waltham Forest
Wandsworth
Warwickshire
West Berkshire
Wigan
Wiltshire
Windsor and Maidenhead
Worcestershire

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many childcare settings located in Sure Start children's centres have closed in each quarter of the last 12 months. [268630]

Beverley Hughes: The information is not collected centrally.

Teachers: Gender

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many and what proportion of *(a)* secondary and *(b)* primary school headteachers were (i) male and (ii) female in each of the last 10 years; and if he will make a statement; [267743]

(2) how many and what proportion of *(a)* secondary and *(b)* primary school teachers were (i) male and (ii) female in each of the last 10 years; and if he will make a statement. [267744]

Jim Knight: The available information on full-time regular qualified teachers in local authority maintained schools by phase, grade and sex is published in Table D2 of the Statistical First Release "School Workforce in England (including Local Authority level figures), January 2008 (Revised)" which can be found at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000813/index.shtml

The annual survey of teachers in service and teacher vacancies, 618G, is the Department's preferred source of teacher numbers in service, but this is not broken down by gender. Table D2 uses information from the Database of Teacher Records which is not as complete as 618G. Hence, the proportions quoted within it are reliable but the underlying numbers are not included.

Underlying teacher numbers, broken down by gender, are available from the School Census and cover all teachers employed in local authority maintained nursery/primary and secondary schools. These figures cannot be broken down by grade however and therefore relate to all teachers including heads.

Full-time equivalent number and proportions of male and female teachers[1] in local authority maintained nursery/primary and secondary schools—years: January 1997 to 2008

Coverage: England

	Nursery/Primary				*Secondary[2]*			
	Male	*Percentage*	*Female*	*Percentage*	*Male*	*Percentage*	*Female*	*Percentage*

School Census

Teachers: Information and Communications Technology

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families what recommendations the Training and Development Agency has made to his Department on the ICT skills tests for new teachers. [268942]

Sarah McCarthy-Fry: The Training and Development Agency for Schools has made no recommendations to the Department on the ICT skills test for teachers.

Teachers: Males

Tim Loughton: To ask the Secretary of State for Children, Schools and Families with reference to his letter of correction of 4 December 2008 to the hon. Member for East Worthing and Shoreham, Deposited Paper DEP2008-2997, to the answer of 28 October 2008, *Official Report*, column 596W, on teachers: males, which five secondary schools did not have any male teachers in 2008; and in which local authority area each was. [264684]

Jim Knight: The following table provides the name and local authority area of maintained secondary schools recorded in the school census of January 2008 as having no male full-time qualified teacher. Middle schools deemed secondary are included.

Local authority maintained secondary schools with no male full-time qualified[1] teacher, 2008, England

	Local authority area
Bolton Muslim Girls School	Bolton
Feversham College	Bradford
Seahouses Middle School	Northumberland
West Sleekburn Middle School	Northumberland
Yesodey Hatorah Senior Girls School	Hackney

[1] Teacher with qualified teacher status.

School Census.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families with reference to his letter of correction of 4 December 2008 to the hon. Member for East Worthing and Shoreham, Deposited Paper DEP2008-2997, to the answer of 28 October 2008, *Official Report*, column 596W, on teachers: males, how many and what percentage of primary school pupils who *(a)* lived and *(b)* attended school in the most deprived decile of lower layer super output areas as determined by the income deprivation affecting children indices in 2008 attended schools with no male teachers. [264685]

Jim Knight: The information requested is shown as follows:

(a) In 2008, 85,883 primary school pupils[1,2] who lived in the most deprived decile of lower layer super output areas as determined by the income deprivation affecting children indices (IDACI) attended schools with no male teachers. This represents 14.7 per cent. of all primary school pupils who lived in the most deprived IDACI decile. This compares with 20.5 per cent. of primary pupils resident in all IDACI deciles, who attend schools with no male teachers.

(b) In 2008, 69,990 primary school pupils[1,2] who attended school in the most deprived decile of lower layer super output areas as determined by the income deprivation affecting children indices (IDACI) attended schools with no male teachers. This represents 14.6 per cent. of all primary school pupils who attended school in

the most deprived IDACI decile. This compares with 20.6 per cent. of primary pupils who attend school in all IDACI deciles, who attend schools with no male teachers.

[1] Includes solely registered and main registration of dually registered pupils.

[2] Includes pupils of all ages attending maintained primary schools.

School Census 2008.

Teachers: Pay

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of *(a)* primary and *(b)* secondary teachers did not move up the pay spine in each of the last three years for which data are available. [268481]

Jim Knight: The information is not available in the format requested.

Information on the pay progression of teachers is available in the 2007 and 2009 Office of Manpower Economics (OME) survey of teachers' pay which are available at the following web link:

http://www.ome.uk.com/review.cfm?body=7

Teachers: Qualifications

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of teachers in each local authority area were classified as unqualified in the latest period for which figures are available; and if he will make a statement. [263882]

Jim Knight: The following table shows the proportion of full-time equivalent number of teachers without qualified teacher status (QTS) employed in local authority maintained schools by each local authority in England in January 2008, the latest information available.

Teachers without QTS include instructors, overseas trained teachers and teachers on employment based routes to qualified teacher status (Graduate Teacher Programme, the Registered Teachers Programme, the Overseas Trained Teachers Programme and the Teach First Scheme).

Percentages of full-time equivalent regular teachers without qualified teacher status[1] in local authority maintained schools in each local authority[2]. Years: January 2008—Coverage: England

Annual Survey Of Teachers In Service And Teacher Vacancies, 618g

Teachers: Retirement

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many teachers *(a)* retired, *(b)* retired on grounds of ill health and *(c)* took early retirement in the last year for which figures are available. [268883]

Sarah McCarthy-Fry: The information requested is shown in table H1 of the Statistical First Release titled School Workforce in England (including Local Authority level figures), January 2008 (Revised) which can be found at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000813/index.shtml

Teachers: Training

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many students studied courses leading to *(a)* a Bachelor of Education degree and *(b)* a postgraduate certificate in education in each year since 1990; and if he will make a statement. [260945]

Jim Knight: The following table shows the number of students on undergraduate and postgraduate initial teacher training programmes gaining qualified teacher status (QTS) in academic years 1998/99 to 2006/07, the latest year for which data are available. Data for years prior to 1998/99 are not available in the format requested.

Teachers gaining qualified teacher status (QTS) via college-based courses: qualification by phase of training, 1998/99 to 2006/07, England

	Undergraduate	*Postgraduate*	*Total*
1998/99	8,910	15,160	24,070
1999/2000	6,850	14,850	21,690
2000/01	6,490	16,150	22,640
2001/02	6,340	16,940	23,280
2002/03	6,250	19,180	25,430
2003/04	5,880	21,460	27,340
2004/05	5,360	21,790	27,150
2005/06	5,410	21,600	27,010
2006/07	5,900	21,080	26,980

Notes:

1. Includes trainees from universities and other higher education institutions, school centred initial teacher training and Open universities but exclude employment-based routes (EBR).

2. Excludes cases where QTS was granted on assessment without a course of initial teacher training.

3. Includes those trained through the Fast Track programme, which started in 2001/02.

4. Numbers are individually rounded to the nearest 10 and therefore may not sum.

TDA Performance Profiles

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of applicants for the initial teacher training course in *(a)* mathematics, *(b)* English, *(c)* modern languages, *(d)* physics, *(e)* chemistry, *(f)* history, *(g)* primary teaching and *(h)* ICT were successful in each year since 2001; and if he will make a statement. [268980]

Jim Knight: The available information is given in the tables and shows the number of postgraduate applications and acceptances to Initial Teacher Training (ITT) courses in England for *(a)* mathematics, *(b)* English, *(c)* modern foreign languages, *(d)* physics, *(e)* chemistry, *(f)* history, *(g)* ICT and *(h)* primary teaching for each year since 2001/02 for which complete data are available.

Postgraduate applications and acceptances to ITT courses 2001/02 to 2008/09, England

[1] Provisional end of year.

Notes:

1. Figures are rounded to the nearest 10.

2. Some applications for Postgraduate ITT courses are made independently of the Graduate Teacher Training Registry and are not included in the figures.

3. Figures above include trainees to secondary courses and do not include trainees to middle year's courses.

4. Data are as at the end of the application process so are subject to change. 5. Membership to the GTTR changes between years, therefore the higher education institutes covered may vary. 6. Modern languages include French, Spanish, German, Italian, Russian and other modern languages.

Source:

Graduate Teacher Training Registry (GTTR).

The figures are published on the GTTR website at:

http://www.gttr.ac.uk/stats.html

Finalised data relating to the number of applications and the proportion which have been accepted on courses in 2009 are not available until February 2010.

The same information is not available for ITT courses via undergraduate or employment based routes.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of applicants for the TeachFirst programme were successful in each year since its inception. [268981]

Sarah McCarthy-Fry: Figures for the number of people applying to join the Teach First programme, and those going on to become qualified teachers are as follows:

	2003	*2004*	*2005*	*2006*	*2007*	*2008*
Cohort	1	2	3	4	5	6
Number of applications in recruitment year	1,294	990	989	1,390	1,600	1,760
Number of acceptances/graduates beginning summer institute	186	197	183	265	272	373
Number of participants completing first year/achieving QTS	165	177	159	243	253	[1]364
Percentage of participants completing first year/achieving QTS	89	90	87	92	93	[1]97

[1] Provisional.

Teach First.

Teenage Pregnancy

Mr. Amess: To ask the Secretary of State for Children, Schools and Families what the *(a)* pregnancy and *(b)* abortion rate for under-16 year old girls was in (i) 1999 and (ii) at the latest available date. [268563]

Kevin Brennan: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent question asking what the (a) pregnancy and (b) abortion rate for under-16 year old girls was in (i) 1999 and (ii) at the latest available date. (268563)

Available figures are estimates of the number of conceptions that resulted in a live birth and/or stillbirth (a maternity) or a legal termination.

The conception rate and conceptions leading to abortion rate for girls aged under 16 in England and Wales for 1999 and 2007 (the most recent year for which figures are available), are shown in the attached table. Figures for 2007 are provisional.

All conceptions and conceptions leading to abortion rate for girls aged under 16, England and Wales, 1999 and 2007

		Rate
Year	*All conceptions*	*Conceptions leading to abortion*
1999	8.3	4.4
2007	8.3	5.1

Notes:

1. Rate per 1,000 girls aged 13-15

2. Figures for 2007 are provisional

Vetting

Tim Loughton: To ask the Secretary of State for Children, Schools and Families which members of his Ministerial team were subject to a Criminal Records Bureau check upon appointment; and if he will make a statement. [269100]

Sarah McCarthy-Fry: No member of the current ministerial team in the Department for Children, Schools and Families were subject to a Criminal Records Bureau check upon appointment.

Vocational Education

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families which courses leading to vocational qualifications are available to 14 and 15 year olds in *(a)* schools and *(b)* further education colleges. [269065]

Sarah McCarthy-Fry: There are currently 646 vocationally-related qualifications, 123 national vocational qualifications, and one occupational qualification approved for use by learners under the age of 16 in institutions in the maintained sector in England. These qualifications can be delivered by both schools and further education colleges. A full list of approved qualifications and the age ranges for which they are approved can be accessed on the Department's website at:

www.dcsf.gov.uk/section96

Written Questions

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the cost to his predecessor Department of preparing the answer of 2 November 2005, *Official Report*, columns 1207-11W, on science. [241877]

Jim Knight: It is estimated that the cost of preparing the reply to PQ 22930 was £2,700.

To ask the Secretary of State for Education and Skills what percentage of those students who gained (a) a GCSE, (b) an A level and (c) an AS level in (i) biology or human biology, (ii) chemistry and (iii) physics in each year since 1997 were educated in (A) the state sector and (B) the independent sector, broken down by grade; and if she will make a statement. [22930]

The estimated breakdown for this PQ is:

	Hours required	*Cost to Department*
Planning	4.5	112.5
Implementing production rules	0.5	12.5
Writing syntax	4	100
Producing figures (9 years – GCSE, AS Level and A Level)	93.96	2,349
Producing figures (one year - GCSE, AS Level and A Level)	10.44	261
Producing figures (one year)	3.48	87
Run the required filters (maintained/independent sector)	0.32	8
Create variables in exam file	0.32	8
Aggregate up to pupil level	0.2	5
Merge into pupil file	0.32	8
Create tables	0.32	8
Analysis of output	2	50
Additional work	2.75	68.75
Formatting, footnotes, etc.	1.5	37.5
Personal QAing	1	25
Drafting PQ reply	0.25	6.25
QAing	3.5	87.5
Comments, redrafting, etc.	3	75
Signing off at SCS level	1	25
Total	108.71	2,717.75

Young People: Apprentices

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many young people aged between 14 and 16 years are undertaking young apprenticeships. [268363]

Jim Knight: The Young Apprenticeship programme for 14 to 16 year olds is a successful pilot available in selected areas since 2004. A total of 17,012 young people are currently on a Young Apprenticeship programme—8,090 as part of cohort 4, the current year 11 group who will be achieving this year, and 8,922 on cohort 5, the year 10 group which started last September.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many hours a week on average pupils on young apprenticeships in each industrial sector spent in a work setting in the latest period for which figures are available. [268364]

Sarah McCarthy-Fry: The Young Apprenticeship programme (YA) for 14 to 16-year-olds is a successful pilot available in selected areas since 2004. From September 2006 all YAs have undertaken a minimum of 50 days work experience, regardless of sector. The Sector Skills Council (SSCs) oversees the quality and certification of this process.

There are a number of approved delivery models with many young people undertaking placements on a one day per week basis. However, on average 44 per cent. of YAs also use periods of block placement to gain work experience with employers or a mixture of both.

An evaluation of the programme carried out by the National Foundation for Educational Research (NFER) which covers the period September 2004 to July 2006 indicated that on average YA learners undertook between 10 and 53 days of work experience. These data cover a period before a 50 day minimum requirement was introduced.

Monitoring of the fulfilment of placements is the responsibility of the lead partner within the YA partnerships which may be a school, work base learning provider or the delivery partner.

WALES

Environment Protection

Mrs. Gillan: To ask the Secretary of State for Wales what recent discussions he has had with Welsh Assembly Government Ministers on the progress of the proposed Environmental Protection and Waste Management Legislative Competence Order; and if he will make a statement. [269289]

Mr. Paul Murphy: I have regular discussions with the First Minister about the progress of legislative competence orders. I hope to present the Environmental Protection and Waste Management Legislative Competence Order for pre-legislative scrutiny in the next few weeks.

NORTHERN IRELAND

Abortion

Mr. Amess: To ask the Secretary of State for Northern Ireland if he will delete paragraph 4.2 from his Department's publication "Guidance on the Termination of Pregnancy: The Law and Clinical Practice in Northern Ireland"; what recent representations he has received on the paragraph; and if he will make a statement. [268435]

Paul Goggins: This is a devolved matter; I refer the hon. Member to the answer I gave on 30 March 2009, *Official Report*, column 851W.

Departmental Buildings

Grant Shapps: To ask the Secretary of State for Northern Ireland what properties *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies have sold in each of the last five years; and how many have been sold for housing developments. [267599]

Mr. Woodward: The following table gives details of the number of properties sold by the Northern Ireland Office and its agencies in each of the last five years:

	Number of properties sold	
Financial year	*Northern Ireland Office*	*Agencies*
2007-08	9	0
2006-07	7	0
2005-06	22	0
2004-05	14	0
2003-04	1	0
Total	53	0

The Department holds no records that show that any of these properties have been sold for housing developments.

The Northern Ireland Office's executive non-departmental bodies operate independently of Government. I would encourage the hon. Member to write to the respective chief executives when requesting details of operational matters. Details of the Northern Ireland Office's non-departmental public bodies can be found in the Northern Ireland Office 2008 Departmental Report:

http://www.nio.gov.uk/northern_ireland_office_departmental_report_2008.pdf

Departmental Carbon Emissions

Greg Clark: To ask the Secretary of State for Northern Ireland whether his Department has adopted the Carbon Trust's Carbon Management Programme. [266736]

Mr. Woodward: My Department's offices are principally located in Northern Ireland where the Northern Ireland Executive has responsibility for taking forward the Sustainable Development agenda. We work in conjunction with the Northern Ireland Executive and Departments in taking forward this agenda, which does not at this stage include the adoption of the Carbon Trust's Carbon Management Programme.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Northern Ireland how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since 2005; and at what cost. [268263]

Paul Goggins: The following table provides details of the laptop computers provided to Ministers, special advisers and civil servants in the Northern Ireland Office since 2005.

	Ministers		*Special advisers*		*Civil servants*	
	Number	*£*	*Number*	*£*	*Number*	*£*
2005-06	1	1,986	0	—	27	21,486
2006-07	0	—	2	3,469	25	18,534
2007-08	0	—	0	—	35	24,951
2008-09	0	—	0	—	21	13,016

Departmental Lost Property

Paul Holmes: To ask the Secretary of State for Northern Ireland what the total cost of replacing lost or stolen property from his Department was in the last 12 months. [268040]

Paul Goggins: The Northern Ireland Office (excluding its Agencies and Executive NDPBs) has incurred no costs in replacing lost or stolen property in the last 12 months.

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Northern Ireland how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005. [268241]

Mr. Woodward: The Northern Ireland Office groups expenditure for BlackBerrys and mobile phones together.

Expenditure for the purchase of these items is posted against telecommunications expense headings which contain spend for other goods and services. Therefore extracting the purchase costs required could be done only at disproportionate cost.

Total departmental spend, excluding Agencies and Executive NDPBs, on BlackBerry and mobile phone charges from 2005-06 to 2007-08, is shown in the following table:

Financial year	*Expenditure (£000)*
2005-06	136
2006-07	124
2007-08	78

The decrease in spend in 2007-08 reflects a new contract which has reduced line rental costs.

Mr. Hoban: To ask the Secretary of State for Northern Ireland how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [268290]

Paul Goggins: Records for the number of mobile telephones and BlackBerrys are maintained on a rolling basis and therefore it is only possible to give an accurate picture of the total number currently in use.

As of 1 April 2009, 28 BlackBerrys are being provided by the Department; One to Ministers, two to special advisers and 25 to civil servants. On the same date, 341 mobile phones are being provided, two to Ministers and 339 to civil servants.

Departmental Rail Travel

Mr. Hurd: To ask the Secretary of State for Northern Ireland what guidance his Department issues on whether members of staff may claim for travel in first class carriages on trains if there are no seats in standard class. [268541]

Mr. Woodward: All travel is undertaken in accordance with Departmental rules and guidance. Staff travelling standard class may not upgrade to first class.

Offensive Weapons

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people aged 16 to 18 years have been charged with violent offences involving the use of a knife in Northern Ireland since 2007. [268724]

Paul Goggins: These data are collated by the Police Service of Northern Ireland. I have asked the chief constable to reply directly to the hon. Gentleman, and a copy of his letter will be placed in the Library of the House.

Prisons: Construction

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what advance preparation work on the new Magilligan Prison is expected to be undertaken in the 2009-10 financial year. [268978]

Paul Goggins: The Northern Ireland Prison Service (NIPS) is procuring programme management, design and business case services to take forward the redevelopment of Magilligan Prison.

Programme management services have been selected and will be in place by June. It is intended that the organisations responsible for design and business case services will be appointed and in place by July and August respectively.

In addition, NIPS has established a project office to take forward a range of issues with the relevant bodies.

In 2009-10 NIPS anticipates starting the design phase and preparing an initial draft of the outline business case.

Prisons: Food

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the policy of the Northern Ireland Prison Service is on whether food and other supplies for prisons should be purchased locally. [268979]

Paul Goggins: All food and other supplies for the Northern Ireland Prison Service are tendered under European competition and awarded in line with the European procurement directives and public contract regulations 2006 and amendments.

The Northern Ireland Prison Service actively encourages local small and medium size enterprises to participate in procurement competitions in line with Northern Ireland public procurement policy.

Written Questions: Government Responses

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many written questions from hon. Members on policing matters in Northern Ireland were answered via referrals to the Chief Constable in *(a)* January and February 2008 and *(b)* January and February 2009. [268728]

Paul Goggins: The Department changed its policy on answering police operational questions in September 2008. Prior to this date information requested was obtained from the Chief Constable and then included in a substantive answer. The Department now refers such questions to the Chief Constable for him to respond directly to the Member. A copy of the letter is then placed in the Library.

In January and February of 2008 no questions were referred to the Chief Constable. The Department did, however, obtain information from the PSNI on 26 occasions over this period.

In January and February of 2009, 27 questions were referred directly to the Chief Constable.

ENERGY AND CLIMATE CHANGE

Advisory Committee on Carbon Abatement Technologies

Greg Clark: To ask the Secretary of State for Energy and Climate Change whether his Department has lead responsibility for the Advisory Committee on Carbon Abatement Technologies. [266668]

Joan Ruddock: The lead responsibility for the advisory committee on Carbon Abatement Technologies (ACCAT) transferred from the Department for Business, Enterprise and Regulatory Reform to the Department of Energy and Climate Change following its creation in October 2008.

Carbon Emissions

Sir Nicholas Winterton: To ask the Secretary of State for Energy and Climate Change if he will take steps to attract private sector funding for his Department's programmes designed to improve the energy efficiency of domestic properties. [269515]

Joan Ruddock: Energy supply companies are required to meet carbon reduction targets by promoting the installation of energy efficiency measures under CERT. Insulation measures make up a significant percentage (62 per cent.) of energy suppliers' progress towards their targets to date (as end December 2008). We are currently consulting on expanding the CERT by 20 per cent. and on extending a CERT mechanism beyond March 2011 to 2012. We hope that these two proposals, in combination with work to improve the exchange of information between the insulation industry and energy suppliers, should help to generate greater continuity and confidence in the market and lead to appropriate investment.

Sir Nicholas Winterton: To ask the Secretary of State for Energy and Climate Change if he will assess the effectiveness of incentives to increase energy efficiency. [269518]

Joan Ruddock: The Government's package of policies and measures to tackle energy efficiency is reviewed on a regular basis to take account of latest evidence and data. We first published our Energy Efficiency Action Plan in 2004 and this was revised in 2007. The Government also undertook evaluations of their energy efficiency strategy during development of the 2006 Climate Change programme and the 2007 Energy White Paper.

The Heat and Energy Saving Strategy, currently under consultation, has provided a fresh opportunity to revisit our energy efficiency strategy. In doing so, our aim is to ensure the policies we put in place are capable of delivering the increased challenges over the next decade, particularly in light of the new legally-binding target to cut UK greenhouse gas emissions by 80 per cent. by 2050.

Carbon Emissions: Buildings

Greg Clark: To ask the Secretary of State for Energy and Climate Change how much funding has been provided through phase two of the Low Carbon Buildings Programme in each year since the programme was established. [266666]

Mr. Mike O'Brien: Since January 2007, we have provided the following amounts:

	Funding committed (£)
2006-07	119,289.60
2007-08	8,917,084.54
2008 to date	24,194,772.76
March to June 2009 (forecast)	14,768,853.10
Total	48 million

Carbon Emissions: Canada

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what recent estimate his Department has made of the level of carbon dioxide emissions resulting from the full exploitation of the oil sands in Canada. [264575]

Joan Ruddock: Data contained in the fourth assessment report of the Intergovernmental Panel on Climate Change suggest that the hypothetical full exploitation of energy in unconventional oil resources globally would release in excess of 2,670 billion tonnes of carbon dioxide. The Government have not made a separate estimate for the oil sands of Canada.

Coal Fired Power Stations

Simon Hughes: To ask the Secretary of State for Energy and Climate Change if he will review his Department's policy in respect of electricity generation from coal-fired power stations. [265836]

Mr. Mike O'Brien *[holding answer 23 March 2009]*: Yes, we have publicly announced we are doing so.

Greg Clark: To ask the Secretary of State for Energy and Climate Change by what dates he expects the consultations on carbon capture readiness and a new framework for coal-fired power stations to conclude; and how long after that he expects to make a decision on the construction of the proposed units at Kingsnorth power station. [269276]

Mr. Mike O'Brien: The response to the "Towards Carbon Capture and Storage" consultation which covered carbon capture readiness is due for publication shortly. The timetable for the planned new consultation on a new framework for coal fired power stations has not yet been set.

I am not able to comment on the timing of the announcement of decisions in respect of live planning applications and therefore am unable to be precise about when a decision will be made on the proposed Kingsnorth power station following the conclusion of that consultation.

Greg Clark: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the tonnage of coal used in electricity generation in the UK in each year since 1997. [266770]

Mr. Mike O'Brien: The tonnage of coal used in electricity generation in the UK for 1997 to 2007 is given in the following table. Figures for 2008 will be published on 30 July 2009.

	Coal used by UK electricity generation (thousand tonnes)
1997	47,333
1998	48,588
1999	41,178
2000	46,197
2001	50,931
2002	47,741
2003	52,464
2004	50,444
2005	52,058
2006	57,363
2007	52,571

Digest of UK Energy Statistics 2008, table 2.7, available at:
http://www.berr.gov.uk/energy/statistics/source/coal/page18529.html

Combined Heat and Power

Simon Hughes: To ask the Secretary of State for Energy and Climate Change how many staff of his Department work on matters relating to combined heat and power on a *(a)* full-time equivalent and *(b)* headcount basis. [264622]

Joan Ruddock: In order to respond flexibly to the needs of Government, resources are frequently redeployed as needed on key projects. At present, on a full-time equivalent basis, three staff in DECC are dedicated solely to combined heat and power. A far larger number of officers address issues partially related to combined heat and power, such as economic analysis, statistical analysis and the role of combined heat and power in a number of schemes and strategies such as the proposed Renewable Energy Strategy and the Heat and Energy Saving Strategies.

Committee on Climate Change: Finance

Martin Horwood: To ask the Secretary of State for Energy and Climate Change what the budget of the Committee on Climate Change is for 2009-10. [269719]

Mr. Mike O'Brien: The 2009-10 Budget for the CCC will be agreed shortly as part of the overall DECC business planning process, subject to the DECC main estimate laid before Parliament after Budget Day.

Defence Nuclear Safety Committee

Mr. Weir: To ask the Secretary of State for Energy and Climate Change (1) what the annual salary of the Chief Executive of the Defence Nuclear Safety Committee was in each of the last 10 years; [267067]

(2) what the *(a)* final severance package and *(b)* pension arrangements were for the previous Chief Executive of the Defence Nuclear Safety Committee. [267068]

Mr. Kevan Jones: I have been asked to reply.

The Defence Nuclear Safety Committee is an advisory non-departmental public body and does not have a chief executive. The Committee is headed by a chairman who is neither salaried nor has a departure package nor pension arrangements. The chairman's remuneration is a daily fee of £315 and he is engaged on average for 14 days a year.

Departmental Buildings

Dr. Pugh: To ask the Secretary of State for Energy and Climate Change what buildings are owned or operated by his Department under a private finance initiative (PFI) arrangement; and which companies are involved with each such PFI arrangement. [267403]

Mr. Mike O'Brien: None.

Grant Shapps: To ask the Secretary of State for Energy and Climate Change what properties his Department has sold in each of the last five years; and how many have been sold for housing developments. [267558]

Mr. Mike O'Brien: None.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Energy and Climate Change how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department since its creation; and at what cost. [268260]

Mr. Mike O'Brien: The Department uses laptop computers provided by both the Department of Business Enterprise and Regulatory Reform and Department of Environment Food and Rural Affairs. The detailed process of reallocating resources from these Departments has not yet been completed and the numbers of laptops allocated for the Department's use cannot be provided without incurring disproportionate expense.

Departmental Detergents

Annette Brooke: To ask the Secretary of State for Energy and Climate Change if he will make it his policy to ensure that no cleaning products or ingredients of cleaning products used by his Department have been tested on animals. [261129]

Mr. Mike O'Brien: Since its inception, the Department has made use of BERR's and Defra's facilities management systems. Given that, I refer the hon. Member to the answers given by my hon. Friend the Secretary of State for the Department for Environment, Food and Rural Affairs on 2 April, *Official Report*, column reference 1294W and by my hon. Friend the Minister for Employment Relations and Postal Affairs at the Department for Business, Enterprise and Regulatory Reform on 2 April 2009, *Official Report*, column reference 1440W.

Departmental Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Energy and Climate Change how many staff in his Department *(a)* were disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last 12 months. [262249]

Mr. Mike O'Brien: Since the Department was established, three members of staff have been disciplined as a result of a poor sickness record (poor attendance), one of whom has been dismissed.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department since its establishment; and if he will make a statement. [269542]

Mr. Mike O'Brien: The Department currently uses IT systems provided by the Department of Business Enterprise and Regulatory Reform and the Department of Environment Food and Rural Affairs. There has not been a detailed analysis by organisation and division of energy consumption and carbon dioxide emissions.

Jenny Willott: To ask the Secretary of State for Energy and Climate Change what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269576]

Mr. Mike O'Brien: The Department currently uses IT systems provided by the Department for Business Enterprise and Regulatory Reform and Department for Environment Food and Rural Affairs, but in purchasing future systems, my Department has been specifying equipment with an EPEAT Gold rating to minimise the impact on carbon dioxide emissions.

Jenny Willott: To ask the Secretary of State for Energy and Climate Change what the average server capacity utilisation by each division of his Department has been since its establishment; and if he will make a statement. [269587]

Mr. Mike O'Brien: The Department currently uses IT systems provided by the Department of Business Enterprise and Regulatory Reform and Department for the Environment Food and Rural Affairs under IT services contracts with Fujitsu and IBM respectively. Server capacity and utilisation management are the responsibility of these companies and statistics are not held at a divisional level.

Jenny Willott: To ask the Secretary of State for Energy and Climate Change what estimate has been made of the proportion of personal computers in each of his Department's offices that are turned off *(a)* overnight, *(b)* at weekends and *(c)* during holiday periods; and if he will make a statement. [269599]

Mr. Mike O'Brien: I am informed that in the Department, most personal computers are routinely turned off overnight, at weekends and during holiday periods. The exceptions are a small percentage of personal computers that are used for overnight processing or monitoring purposes. There is an automated checking process to identify and turn off any personal computers inadvertently left on and unused.

Jenny Willott: To ask the Secretary of State for Energy and Climate Change how many *(a)* printers and *(b)* multi-function devices with printing functions are in use in each division of his Department; how many such devices have a function enabling two-sided printing; and if he will make a statement. [269609]

Mr. Mike O'Brien: The Department currently uses IT systems provided by the Department of Business Enterprise and Regulatory Reform and Department of Environment Food and Rural Affairs. There has not been a detailed analysis by organisation and division of the allocation of printers; however most printers, including multi-function devices, enable two-sided printing. Printers are allocated on about a one printer to 30 staff ratio.

Jenny Willott: To ask the Secretary of State for Energy and Climate Change how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269642]

Mr. Mike O'Brien: The Department currently uses IT systems provided by the Department of Business Enterprise and Regulatory Reform and Department of Environment Food and Rural Affairs. The computers provided under this arrangement are compliant with the Government's Buy Sustainable-Quick Win standard.

Departmental Lost Property

John Mason: To ask the Secretary of State for Energy and Climate Change what property has been lost or stolen from his Department since its creation; and what the estimated cost was of replacement of such property. [263118]

Mr. Mike O'Brien: There have been none notified since DECC came into formal existence.

Departmental Manpower

Greg Clark: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the annual staffing costs of his Department. [266599]

Mr. Mike O'Brien: The Administration budget for DECC in 2008-09 was £98 million.

Departmental Marketing

Greg Clark: To ask the Secretary of State for Energy and Climate Change which external bodies were engaged by his Department to contribute to the design of the Department's logo; and what the monetary value was of each contract awarded for such work. [266715]

Mr. Mike O'Brien: COI designed the departmental logo at a cost of £11,663.

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Energy and Climate Change how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department since its establishment. [268236]

Mr. Mike O'Brien: The Department uses BlackBerrys and Mobile Phones provided by both the Department of Business Enterprise and Regulatory Reform and Department of Environment Food and Rural Affairs. The detailed process of reallocating resources from these Departments has not yet been completed and the numbers of devices allocated with an associated cost analysis for the Department's use cannot be provided without incurring disproportionate expense.

Mr. Hoban: To ask the Secretary of State for Energy and Climate Change how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department since its establishment. [268281]

Mr. Mike O'Brien: The Department uses Blackberrys and Mobile Phones provided by both the Department of Business Enterprise and Regulatory Reform and Department of Environment Food and Rural Affairs. The detailed process of reallocating resources from these Departments has not yet been completed and the numbers of devices allocated to the Department's use cannot be provided without incurring disproportionate expense.

Departmental Public Expenditure

Mr. Hoban: To ask the Secretary of State for Energy and Climate Change how much capital spending is planned to be brought forward by his Department to *(a)* 2008-09 and *(b)* 2009-10. [266341]

Mr. Mike O'Brien: The Department of Energy and Climate Change brought forward £50 million of capital expenditure on the Warm Front programme from 2010-11 into 2009-10 and received additional funding of £50 million for 2008-09 and £50 million for 2009-10, also on the Warm Front programme, as announced in the 2008 pre-Budget report.

Grant Shapps: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 10 March 2009, *Official Report*, column 404W, on the economic situation, what expenditure under each budget heading his Department incurred in the meeting of energy and oil Ministers in London on 18 and 19 December 2008. [267996]

Mr. Mike O'Brien: The meeting in London on 18 and 19 December 2008 of International Energy and Oil Ministers cost the Department £516,200.28. This figure is broken down by the following categories of expenditure:

	£
Event organisation and logistical arrangements	[1]255,870.75
Hire of conference venue and hotel accommodation for delegates	130,289.53
Production of analytical reports and research	130,040.00

[1] This figure includes event management, security, A/V equipment, interpretation, design and set up of the conference venue, catering, transportation and equipment used during the event.

Dr. Cable: To ask the Secretary of State for Energy and Climate Change what his latest estimate is of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268118]

Mr. Mike O'Brien: DECC's capital budgets for 2008-09, 2009-10 and 2010-11 are £1,709 million, £1,771 million and £1,767 million respectively. The Government have not set Departments' capital DEL budgets for years beyond 2010-11. Capital DEL budgets for 2011-12 and beyond are a matter for the next spending review. The Government do, however, publish projections for PSNI (public sector net investment) over the forecast period at Budgets and pre-Budget reports.

Departmental Public Relations

Greg Clark: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to my hon. Friend the Member for Welwyn, Hatfield of 23 February 2009, *Official Report*, column 297W, on departmental public relations, with which public relations consultancies his Department has entered into contracts since it was established. [266825]

Mr. Mike O'Brien: Kreab Gavin Anderson (formerly Gavin Anderson and Company) is contracted to DECC to provide expert strategic advice on the renewable energy finance community.

Departmental Publications

Mr. Philip Hammond: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the *(a)* printing and production and *(b)* other costs to his Department of producing its forthcoming (i) departmental annual report and (ii) autumn performance report. [266560]

Mr. Mike O'Brien: The Department of Energy and Climate Change has an estimate in place as follows:

(1) Annual report

(a) Print and production: £6,000

(b) Design: £12,000

(2) Autumn Performance Report

(a) Print and production £4,000

(b) Design £8,000

Departmental Reorganisation

Greg Clark: To ask the Secretary of State for Energy and Climate Change how many of his Department's staff were based in *(a)* his Department's London offices, *(b)* the London offices of the Department for Business, Enterprise and Regulatory Reform and *(c)* the London offices of the Department for Environment, Food and Rural Affairs on 1 March 2009. [266621]

Mr. Mike O'Brien: As at 1 March 2009 there were approximately 106 staff in the Department's London office and of those transferring to DECC from BERR and DEFRA there were approximately 320 in the London offices of DEFRA and approximately 480 in the London offices of BERR.

Departmental Responsibilities

Greg Clark: To ask the Secretary of State for Energy and Climate Change whether his Department has lead responsibility for *(a)* the Civil Nuclear Police Authority and *(b)* the UK Atomic Energy Authority. [266677]

Mr. Mike O'Brien: DECC has lead responsibility for the Civil Nuclear Police Authority, and BERR has lead responsibility for the United Kingdom Atomic Energy Authority.

Departmental Training

Mr. Hurd: To ask the Secretary of State for Energy and Climate Change what his Department's policy is on holding departmental away days at locations other than departmental premises. [268469]

Mr. Mike O'Brien: The Department of Energy and Climate Change has no specific policy on holding away days in non-departmental premises other than guidelines about ensuring value for money in all instances. Departmental premises are not always of sufficient size to accommodate the number of people attending such events.

Grant Shapps: To ask the Secretary of State for Energy and Climate Change how much has been spent on media training for each Minister in his Department since its inception; how many sessions have been provided; and who provided such training. [268560]

Mr. Mike O'Brien: Nothing.

Empty Property

Mr. Pickles: To ask the Secretary of State for Energy and Climate Change what the estimated cost in empty property business rates for the vacant properties recorded on the e-PIMS database owned by *(a)* the Nuclear Decommissioning Authority and *(b)* the UK Atomic Energy Authority is in 2008-09. [258531]

Mr. Mike O'Brien: DECC does not hold the information requested as the bodies covered by the question are managed by their own estates teams.

My officials have asked the chief executives of the Nuclear Decommissioning Authority and the UK Atomic Energy Authority to write to the hon. Member, and copies of their letters will be placed in the Libraries of the House.

Energy Supply

Greg Clark: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 12 February 2009, *Official Report*, column 2160W, on energy supply, for what reasons he does not plan to place in the Library a copy of *(a)* the agenda and *(b)* the minutes of the meeting he held with the main energy supply companies on 17 November 2008. [266671]

Mr. Mike O'Brien: Ministers meet regularly with stakeholders as part of the commercial and policy development process, and these meetings are not public meetings.

Energy Supply: Competition

Gordon Banks: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the adequacy levels of competition in the markets to supply *(a)* liquefied petroleum gas and *(b)* heating oil to domestic consumers. [265837]

Mr. Mike O'Brien *[holding answer 23 March 2009]*: The supply of liquefied petroleum gas and heating oil is subject to UK competition law. Ensuring that those markets operate freely and fairly is a matter for the independent competition authorities.

Energy: EU Action

Joan Walley: To ask the Secretary of State for Energy and Climate Change what recent discussions he has had with his EU counterparts on liberalising the European energy market. [268196]

Mr. Mike O'Brien: On 10 October my right hon. Friend the Secretary of State attended the Energy Council which agreed a common position on the Commission's third package of measures on the internal market. Since then the Presidency has been in negotiation with the European Parliament and the Commission to agree a final text.

The representatives of the different institutions reached agreement at the end of March and we expect the legislation to be formally adopted by the European Parliament and the Council this summer. Member states will then have eighteen months to comply with the new requirements.

The deal should improve the functioning of EU energy markets, encourage the investments needed for secure and sustainable energy supplies, protect consumers and promote energy efficiency.

Energy: Finance

Simon Hughes: To ask the Secretary of State for Energy and Climate Change how much his Department has allocated under each budget heading for its expenditure on work relating to *(a)* nuclear energy, *(b)* combined heat and power and *(c)* renewable energy in 2008-09. [264621]

Mr. Mike O'Brien: DECC allocated budgets in 2008-09 for *(a)* nuclear energy, £3 million; *(b)* combined heat and power—separate figures are not available except at disproportionate cost; and *(c)* low carbon and renewable energy demonstration through the national Environmental Transformation Fund, £76.5 million.

Energy: Meters

Mike Penning: To ask the Secretary of State for Energy and Climate Change how many households in *(a)* England and *(b)* Hemel Hempstead constituency have (i) electric and (ii) gas prepayment meters. [261277]

Mr. Mike O'Brien: The Office of Gas and Electricity Markets (Ofgem) monitors, and publishes information about gas and electricity prepayment customers. However, prepayment data are published for England, Scotland and Wales or, by individual energy supplier, not on a parliamentary constituency basis. In September 2008, the last period for which data have been published, the number of customers in England using prepayment meters was two million for gas and 2.9 million for electricity.

Energy: Public Consultation

Grant Shapps: To ask the Secretary of State for Energy and Climate Change how many responses to the Heat and Energy Saving Strategy Consultation had been received on the latest date for which figures are available. [265085]

Joan Ruddock: The Heat and Energy Saving Strategy (HES) Consultation was launched on 12 February 2009. As of 7 April the consultation website had received over 40 responses. Respondents are free to change or even delete their responses until the website closes so these responses are not yet officially completed.

To accompany the formal written HES consultation, and also consultations on the Carbon Emissions Reduction Target (CERT) and the Community Energy Saving Programme (CESP), a series of stakeholder events were held across Great Britain during March. These were part of the open and active consultation process to raise awareness of the proposals and encourage responses. Feedback from these events will contribute to the consultation responses.

Grant Shapps: To ask the Secretary of State for Energy and Climate Change how much he expects his Department's Heat and Energy Saving Strategy Consultation to cost. [265086]

Joan Ruddock: I refer the hon. Member for Welwyn Hatfield to the answer given by my hon. Friend the Minister of State for the Department of Energy and Climate Change (Mr. Mike O'Brien) on 25 March 2009, *Official Report*, columns 499-500W.

Energy: Syria

Andrew Rosindell: To ask the Secretary of State for Energy and Climate Change whether he has discussed energy policy with his Syrian counterpart; and if he will make a statement. [267095]

Mr. Mike O'Brien: There have been no ministerial discussions on energy issues with Syrian counterparts since the Department was formed.

Enrichment Holdings

Greg Clark: To ask the Secretary of State for Energy and Climate Change how many staff in his Department are engaged in work arising from his Department's shareholding in Enrichment Holdings Limited. [266722]

Mr. Mike O'Brien: Three staff spend part of their time working on the shareholding in Enrichment Holdings Ltd. Taken together; the total time commitment on the shareholding for all three of them currently equates to no more than two days per week of one person's time.

Greg Clark: To ask the Secretary of State for Energy and Climate Change what recent estimate he has made of the monetary value of the Government's shareholding in Enrichment Holdings Limited. [266723]

Mr. Mike O'Brien: As part of the portfolio of the Shareholder Executive, the value of the Government's holding in Enrichment Holdings Ltd. is assessed regularly and such valuations are commercially confidential.

Fossil Fuels: Government Assistance

Gregory Barker: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how much Government financial support was provided to fossil fuel suppliers in each of the last 10 years. [265220]

Mr. Mike O'Brien: The Government have supported coal producers through coal operating aid (2000-2002) and coal investment aid (2003-2008). Payments were made as follows:

	£
2000-01	87,339,268
2001-02	62,357,501
2002-03	12,474,226
2003-04	404,393
2004-05	21,789,907
2005-06	19,490,000
2006-07	9,662,879
2007-08	422,965
2008-09	1,449,440

Fuel Poverty

Mr. Kemp: To ask the Secretary of State for Energy and Climate Change what steps his Department has taken together with local authorities to reduce levels of fuel poverty in the last 12 months. [268380]

Joan Ruddock: Since 2000 over £20 billion has been spent on fuel poverty benefits and programmes.

This includes: the Warm Front Scheme in England, which has assisted 1.8 million households; the Carbon Emissions Reduction Target and the Decent Homes Programme, primarily addressing the energy efficiency of households; and Winter Fuel and Cold Weather Payments to increase household incomes. The Warm Front scheme alone, has in the 2008-09 year, assisted almost 235,000 households spending almost £340 million on measures.

The combination of national and local programmes and delivery through local government, partnerships and area based schemes can help target areas of particular need. We are currently consulting on the Community Energy Savings Programme (CESP), where we propose to support energy efficiency measures at a local, community level, by fostering new and existing partnerships between energy companies, local authorities, voluntary organisations and other such bodies, to offer support to poorer communities on a house-by-house, street-by-street basis.

As part of the Local Government Framework, National Indicator 187 (Tackling Fuel Poverty) has been designed to measure the proportion of households on income related benefits for whom an energy assessment of their housing has been carried out and have a SAP of below 35 or greater than 65. We are encouraged that 40 out of 150 Local Area Agreements (LAAs) have included NI187 as one of their 35 local improvement targets and have set challenging but achievable targets. All local authorities will have to report on progress each year.

Responsibility for fuel poverty policy is a devolved matter. Ministers across Government and the Devolved Nations discuss policy to tackle fuel poverty and we publish an annual report which includes information on progress in the Devolved Administrations.

Gas and Electricity Markets Authority: ICT

Greg Clark: To ask the Secretary of State for Energy and Climate Change what internal IT projects Ofgem *(a)* has commissioned in the last five years and *(b)* plans to commission in the next 12 months. [269275]

Mr. Mike O'Brien: This is an operational matter for Ofgem. I have asked them to write to the hon. Member.

Heating: Carbon Emissions

Lembit Öpik: To ask the Secretary of State for Energy and Climate Change what information his Department has gathered for benchmarking purposes of the percentage of circulator pumps installed in domestic properties with an A rated energy label in *(a)* Denmark and *(b)* Germany. [268150]

Jane Kennedy: I have been asked to reply.

Defra does not hold the specific information requested. However, information from the Energy using Products preparatory study suggests that A rated circulators represented about 5 per cent. of sales across Europe in 2006.

Home Energy Saving Programme

Greg Clark: To ask the Secretary of State for Energy and Climate Change (1) what proportion of the £910 million home energy saving fund announced on 11 September 2008 he expects to be spent in *(a)* 2008-09 and *(b)* 2009-10; [266717]

(2) by what date he expects the first payment from the £910 million home energy saving fund announced on 11 September 2008 to have been made. [266718]

Joan Ruddock: On 11 September 2008 the Prime Minister announced the Home Energy Saving Programme which included a 20 per cent. uplift to the level of the Carbon Emissions Reduction Target (CERT) and a new obligation, the Community Energy Saving Programme (CESP). These schemes operate as obligations on the energy suppliers (and the electricity generators in the case of CESP) to achieve carbon savings by encouraging households to take-up energy saving measures.

The figure of £910 million refers to the estimated extra investment suppliers and generators will need to make in order to deliver these additional obligations. No Government funding is involved.

In terms of CERT, Ofgem, the scheme administrator, does not collect data on energy supplier spend. However, based on the costs of the measures promoted by suppliers, we estimate that the overall spend by suppliers on delivering the 20 per cent. increase to the CERT obligations will be around £560 million. However, we expect the CESP to lead to supplier and generator investment of some £350 million by 2012.

The proposals for CERT and CESP are currently subject to public consultation.

Industrial Diseases: Compensation

John Mann: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the merits of settling coal health claims handled by firms of solicitors whose majority partners have been subject to professional disciplinary action over matters directly related to such claims. [261839]

Mr. Mike O'Brien: None to date. The Department will consider the matter further when Solicitors Disciplinary Tribunal's written rulings in respect of the Beresfords and Raleys cases are published.

Lighting: Carbon Emissions

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the average level of carbon dioxide emissions caused in commercial buildings by electrical lighting being left on outside office hours in the last period for which figures are available; and if he will make a statement. [264646]

Joan Ruddock: The Department for Energy and Climate Change does not hold the data necessary to make such an estimate.

Low Carbon Buildings Programme

Jenny Willott: To ask the Secretary of State for Energy and Climate Change how much has been spent *(a)* under each (i) stream and (ii) phase and *(b)* for each technology under the Low Carbon Building Programme (A) in total and (B) in each region since the scheme started; and if he will make a statement. [269644]

Mr. Mike O'Brien: The total amount spent *(a)* under each (i) stream and (ii) phase under the Low Carbon Buildings Programme is shown as follows. Further details relating to technologies under the Low Carbon Building Programme relating to regions have been placed in the Libraries of the House.

Low Carbon Buildings Programme—phase 1

Technology	*Number of applications approved*	*Paid Amount (£)*
Householder stream—spent per technology in total		
Air source heat pump	18	16,200.00
Biomass room heater/stove (automated wood pellet feed)	10	5,297.55
Ground source heat pump	429	513,541.13
Small scale hydro	4	15,500.00
Solar photovoltaic	1,342	5,653,248.99
Solar thermal hot water	4,545	1,816,842.02
Wind turbine	623	1,413,417.89
Wood fuelled boiler system	320	471,642.21
Grand total	7,291	9,905,689.79

Details relating to regional spend under Phase 1 have been placed in the Libraries the House.

Low Carbon Buildings Programme—phase 2

Technology type	*Total committed (£)*	*Project number*	*Total paid (£)*	*Project number*
Scotland				
Solar photovoltaic	803,694.56	43	404,874.47	17
Solar thermal hot water	595,940.93	27	33,000.00	1

Total	£33,795,625.33	1,702	£8,870,773.86	594

Mass Media

Grant Shapps: To ask the Secretary of State for Energy and Climate Change how much his Department has spent on press monitoring services since its inception. [260874]

Mr. Mike O'Brien: The amount spent on press monitoring since the Department's inception is £40,198.42.

Members: Correspondence

Miss Widdecombe: To ask the Secretary of State for Energy and Climate Change when he plans to reply to the letter of 23 October 2008 from the right hon. Member for Maidstone and The Weald. [265690]

Mr. Mike O'Brien *[holding answer 23 March 2009]:* My right hon. Friend the Secretary of State replied to the right hon. Member on 21 March.

Ministerial Duties

Greg Clark: To ask the Secretary of State for Energy and Climate Change what public engagements each of the Ministers in his Department have attended since its creation. [255858]

Mr. Mike O'Brien: Public engagements undertaken by Ministers in the Department for Energy and Climate Change since its creation are set out as follows.

Secretary of State:

KPMG Speech—27 October 2008

Environment Agency Annual Conference Speech—25 November 2008

Visit to National Grid in Wokingham—26 November 2008

CBI Conference: Speech—2 December 2008

Energy Speech at Imperial College—9 December 2008

Panel discussion with South African Minister at the Foreign Press Association—16 December 2008

Pre-Energy Meeting Dinner at Lancaster House—18 December 2008

London Energy Meeting—19 December 2008

Launch of the Consultation of the Severn Tidal Power Project—26 January 2009

British Council Climate Change Launch—4 February 2009

Oil and Gas All Party Group Reception—9 February 2009

PILOT Dinner—9 February 2009

PILOT—10 February 2009

Heat and Energy Savings Launch—12 February 2009

Launch of the Church of England's Carbon Fast—25 February 2009

DFID Conference: Securing our Common Future—9 March 2009

Nuclear APPG Energy Speech—10 March 2009

Renewable Energy Investors Dinner—16 March 2009

Reception to mark the 50th Anniversary of the Antartic Treaty—23 March 2009

Mike O'Brien:

Climate Change Forum Dinner—9 October 2009

Lynn and Inner Dowsing Wind Farm visit—21 October 2008

British Wind Energy Association BWEA30 Conference—22 October 2008

Coal Forum Meeting—23 October 2008

Reception: The Future of UK Coal—3 November 2008

Parliamentary Reception—Police Dependants' Trust—5 November 2008

Energetix Genlec Micro-CHP launch event—10 November 2008

Ministerial media drinks reception—11 November 2008

Dinner: Worcester Bosch and Intelligent Energy Group—12 November 2008

Chatham House Speech—17 November 2008

The Climate Change Forum—17 November 2008

EEF Low Carbon Economy Event—19 November 2008

Combined Heat and Power Association Annual Conference—19 November 2008

Green Business Events—27 November 2008

Lunch: Coal Industry Society—1 December 2008

Severn Tidal Power Regional Forum—2 December 2008

Christmas Luncheon: Police Dependants' Trust—3 December 2008

3M Parliamentary Dinner—3 December 2008

Nuclear Industry Association Energy Choices conference—4 December 2008

Industry Forum meeting (and lunch): Responsible Corporates and Energy Use—4 December 2008

Keynote Speech: Aldersgate Group—4 December 2008

Offshore visit to Buzzard Oil Rig—9 December 2008

Speech: Micropower Council Christmas Reception—10 December 2008

Reception: The NHS Confederation Christmas Reception—10 December 2008

Associate Parliamentary Renewable and Sustainable Energy Group (PRASEG) Christmas Reception—11 December 2008

Launch of the Consultation of the Severn Tidal Power Project—26 January 2009

Parliamentary Forum Severn Tidal Power—26 January 2009

Nuclear Development Forum—27 January 2009

Visit to Sizewell—29 January 2009

Chatham House Speech—5 February 2009

Nuclear Lunch: Duke of York—5 February 2009

Chatham House Speech—Middle East—9 February 2009

Oil and Gas All Party Group Reception—9 February 2009

Visit Torness Power Station—10 February 2009

Unite parliamentary group—11 February 2009

Coal UK Annual Conference—26 February 2009

Nuclear Industry Association Supply Chain Speech—3 March

Options for a New Britain—12 March 2009

Areva Supply Chain Event—16 March 2009

Renewable Energy Investors Dinner—16 March 2009

Organization of the Petroleum Exporting Countries (OPEC) International Seminar—18/19 March 2009

Parliamentary Forum Severn Tidal—23 March 2009

Nuclear Industry Association Dinner—23 March 2009

Renewable Energy Association speech—26 March 2009

Ports Investment Seminar—30 March 2009

UK Coal Forum—31 March 2009

Oil and Gas Trade Association Meeting—1 April 2009

Regional Visit for Severn Tidal—2 April 2009

Lord Hunt:

Low Carbon Cars International Experts Meeting—27 October 2008

Climate Change Forum Dinner—17 November 2008

Micropower Generation Council Reception—10 December 2008

New Local Government Network Energy, Climate Change and Innovation Event—13 January 2009

Energy Research Partnership—14 January 2009

Launch of Heat and Energy Saving Strategy—12 February 2009

Low Carbon Industrial Strategy Summit—6 March 2009

Sainsbury dinner on Climate Change and the Environment—17 March 2009

Heat and Energy Saving Consultation Stakeholder Workshop—19 March 2009

Joan Ruddock:

Lacors Climate Change conference—21 October 2008

Visit to Citizens Advice Bureau—23 October 2008

Climate Wise stakeholder event—24 November 2008

Act on C02 event—27 November 2008

National Energy Efficiency Awards—2 December 2008

Climate Change speaking engagement at Japanese Embassy—15 December 2008

Brokering a Global Deal on Climate Change speaking engagement—26 January 2009

National Right to Fuel Campaign stakeholder forum—4 February 2009

Heat and Energy Saving Launch—12 February 2009

Big Energy Shift event—14 February 2009

Sustainable Development Commission public sector event—23 February 2009

UK Green Building Council speaking event—5 March 2009

Middlesbrough Climate Change conference—11 March 2009

OECD event in Paris—12 March 2009

The Municipal Journal's National Conference on Carbon Reduction Commitment—24 March 2009

CERT workshop—25 March 2009

Npower's Green SOS finale—25 March 2009

Westminster Sustainable Business Forum—26 March 2009

Energy Saving Trust stakeholder event—31 March 2009

National Grid

Chris Ruane: To ask the Secretary of State for Energy and Climate Change how many reported breakdowns there were in the national grid network in each year for which figures are available. [263103]

Mr. Mike O'Brien: The following table shows the number of unplanned outages of the GB electricity transmission system which led to customer disconnection between 1991-92 and 2007-08. The table also shows the amount of power in megawatt hours (MWh) lost in each of those years. The data are taken from National Grid's annual transmission performance reports.

	Total MWh lost	*Total number of events*
1991-92	407	33
1992-93	1,210	52
1993-94	1,051	19
1994-95	518	34
1995-96	311	23
1996-97	215	33
1997-98	614	28
1998-99	859	33
1999-2000	587	23
2000-01	1,404	20
2001-02	699	29
2002-03	415	26
2003-04	1,329	27
2004-05	1,119	28
2005-06	1,939	28
2006-07	511	25
2007-08	1,675	49

National Grid: Weather

Graham Stringer: To ask the Secretary of State for Energy and Climate Change if he will bring forward proposals to protect the national grid from extreme solar weather events. [267658]

Mr. Mike O'Brien *[holding answer 30 March 2009]:* National Grid (NGET) is aware of the phenomena of extreme solar weather events and began preparations for the next peak in 2011-12 some years ago. NGET has procedures in place to improve the resilience of the network which include putting their field force on standby and ensuring that enough reactive power is available (a technical service provided by generators which helps manage voltage fluctuations—a possible consequence of both a conventional and severe solar storm).

The electricity networks are designed to provide a level of resilience that would cope with incidents that are potentially more severe than those that may be caused by a solar flare. Similarly, Government emergency planning arrangements are in place and tested to be able to cope with a complete shutdown of the electricity network. There is therefore no requirement for additional resilience or emergency response measures to deal with any potential disruption due specifically to a solar flare.

Natural Gas

Mr. Crabb: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the effect of levels of Crown Estate rents on trends in investment in offshore gas storage infrastructure projects. [266864]

Mr. Mike O'Brien *[holding answer 26 March 2009]:* None. The cost of the lease will be a matter for negotiation between the Crown Estate, acting in accordance with its statutory framework, and the developer.

Natural Gas: Storage

Mrs. Gillan: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the levels of employment that would result from the liquefied natural gas facility on Anglesey and the gas storage facility at Preesall coming on-stream. [268594]

Mr. Mike O'Brien *[holding answer 2 April 2009]:* I have not made any such assessment. However, the facilities on Anglesey and at Preesall would make a valuable contribution to the security of the UK's gas supplies if they were to come forward.

Mrs. Gillan: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the changes in the ability to import and store gas that would result from the liquefied natural gas facility on Anglesey combined with the proposed gas storage facility at Preesall, Lancashire coming on stream. [268595]

Mr. Mike O'Brien *[holding answer 2 April 2009]:* The Preesall gas storage facility would potentially provide approximately one billion cubic meters of gas storage capacity, making a valuable contribution to UK gas supplies. The proposed liquefied natural gas (LNG) facility on Anglesey would provide a welcome increase in the amount and diversity of the UK's gas import capacity.

Mrs. Gillan: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the effects of the current level of availability of finance on the delivery of new gas storage projects. [268596]

Mr. Mike O'Brien *[holding answer 2 April 2009]:* The current financial climate makes raising funding for gas storage developments, like other projects, more difficult for some smaller developers but this is less of an issue for the larger ones. We are working closely with the industry to ensure that they make the most of alternative funding sources including the European Investment Bank.

Nuclear Decommissioning Authority: Land

Greg Clark: To ask the Secretary of State for Energy and Climate Change what his most recent estimate is of the market value of the Nuclear Decommissioning Authority sites at *(a)* Wylfa, *(b)* Bradwell and *(c)* Oldbury; and by what date he expects these sites to have been sold. [266669]

Mr. Mike O'Brien: The NDA is currently in the process of auctioning parcels of land adjacent to the licensed sites it owns at Wylfa, Bradwell and Oldbury.

It would be inappropriate at this point to disclose the estimated market value of that land or the current highest bids. The auction will end once a period of 24 hours has elapsed without a bid on any of the three lots. Once the auction is complete the NDA will make a statement.

Nuclear Fuel Reprocessing

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what arrangements have been put in place for nuclear plant operators to set aside ring-fenced financial provision for the long-term onsite storage of spent fuel discharged from licensed reactors; and which regulator is responsible for ensuring necessary encapsulation of spent fuel at site is carried out. [268061]

Mr. Mike O'Brien: The long-term storage of spent fuel on licensed nuclear sites is the responsibility of the operator, and is regulated by the Health and Safety Executive's Nuclear Installations Inspectorate.

Nuclear Power

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change how many times the Justification Co-ordination Committee for the Proposals for New Nuclear Reactors has met; which bodies are represented on the Committee; and if he will publish the Committee's agendas and minutes on his Department's website. [263557]

Mr. Mike O'Brien: The Justification Co-ordination Committee has met three times, on 17 June and 27 November 2008 and 10 March 2009. The bodies represented are my Department, the statutory consultees (Health and Safety Executive, Food Standards Agency, Health Protection Agency, Environment Agency, Scottish Environment Protection Agency and Department for the Environment (Northern Ireland)), the Devolved Administrations, the Department for Transport and the Department of Health.

Material relating to the new nuclear Justification process, including meeting minutes, are available on my Department's website at ,

http://www.berr.gov.uk/energy/sources/nuclear/whitepaper/actions/justification/page45386.html.

The November 2008 meeting took the form of a discussion of the Department's consultation document on the Nuclear Industry Association's application to justify new nuclear power stations, which was published on 17 December. No official record of the meeting was kept, although after the meeting we sent JCC members an e-mail confirming the meeting's conclusion that they should send us any final comments on the document. I have previously placed on the website, and in the House Library, a copy of the consultation document. This explains the part played by the JCC in helping my Department consider the NIA's application and in identifying where further information was needed. The questions which we asked as a result of this process, and the NIA's revised application, were also published as part of the consultation document.

Mr. Ancram: To ask the Secretary of State for Energy and Climate Change what plans he has for future levels of nuclear energy generation in the UK. [265440]

Mr. Mike O'Brien: In January 2008 the Government published the nuclear White Paper which explains that new nuclear should have a role in the UK's future energy mix.

The Government are now taking active steps to facilitate nuclear new build as set out in the nuclear White Paper. No upper limit on the number of nuclear power stations that might come forward has been set. In the White Paper, the Government also explained how it was feasible that the first new nuclear power station might start generation around 2018.

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what the evidential basis is for the statement in the Prime Minister's speech on nuclear energy on 17 March 2009 that the complete lifecycle emissions from nuclear power are only between two and six per cent. of those of gas for every unit of electricity generated. [265592]

Mr. Mike O'Brien: The evidential basis for that figure is set out in the Sustainable Development Commission paper reference 'The Role of Nuclear Power in a Low Carbon Economy, Paper 2: Reducing CO_2 Emissions - Nuclear and the Alternatives, March 2006', taken from the nuclear consultation document 'The role of nuclear power in a low carbon UK economy, May 2007' and as quoted in that document and illustrated in figure 2.1 on page 49.

Nuclear Power Stations: Decommissioning

Greg Clark: To ask the Secretary of State for Energy and Climate Change when he expects to announce the process by which the auction of the Nuclear Decommissioning Authority sites at Wylfa, Bradwell and Oldbury is to be conducted; and if he will make a statement. [260202]

Mr. Mike O'Brien: The process for the sale of land adjacent to the Nuclear Decommissioning Authority's sites at Wylfa, Bradwell and Oldbury was set out by the NDA in a press release on 26 November 2008. This is available on the NDA's website at:

http://www.nda.gov.uk/news/land-disposal.cfm

The process is now well under way. The auction will end once a period of 24 hours has elapsed without a bid on any of the three lots. Once the auction is complete, the NDA will make a statement.

Nuclear Power: Conferences

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change if he will place on his Department's website *(a)* a list of all invitees and *(b)* copies of all speeches and presentations made to the international nuclear fuel cycle conference at Lancaster House on 17 March. [265606]

Mr. Mike O'Brien *[holding answer 23 March 2009]*: The International Nuclear Fuel Cycle Conference at Lancaster House (17-18 March) was jointly organised by FCO and DECC. It was intended to promote further dialogue between supplier states and recipient states—notably, the so-called 'nuclearising' states—on 'securing safe access to peaceful power'.

Where speakers have given permission, copies of their speeches and presentations to the Conference are being placed on the FCO website. The conference speech given by the Prime Minster is, of course, already in the public domain and can be found on the Number 10 website.

We shall also place a full list of participating states, NGOs and Parliamentarians on the FCO website.

Nuclear Power: Consultants

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 2 March 2009, *Official Report*, columns 1329-30, on nuclear power: consultants, what proportion of the amount of each contract had been recovered in fees on the latest date for which figures are available; and what proportion of the monetary value of each contract he expects to be recovered under fees regulations. [263399]

Jonathan Shaw: I have been asked to reply.

The Nuclear Installations Inspectorate of the Health and Safety Executive (HSE) has engaged a range of external bodies and individuals to assist it with various technical aspects, process assurance and organisation. The proportion value of each consultancy contract recovered in fees as of 31 December 2008, and the percentage value expected to be recovered under the fee regulations is as follows:

		£		Percentage
Contractors: (listed in column 1431W)	*Cost*	*Amount recovered at 31 December 2008*	*The proportion value of each contract recovered*	*Recoverable*
IAEA (International Atomic Energy Agency)	229,879.00	230,267.61	100	100
Washington E and C Ltd	70,000.00	25,000.00	36	100

		£		Percentage
Contractors (listed in column 1431W)	*Cost*	*Amount recovered at 31 December 2008*	*The proportion value of each contract recovered*	*Recoverable*
EPRI	57,144.00	13,671.60	24	100
Health Protection agency (formerly NRPB)	10,564.40	10,560.81	100	100
Morson International	14,000.00	8,231.70	59	100
Imperial College London	900.00	900.00	100	100
OECD-NEA	902,312.84	99,672.30	11	100
AMEC NNC	19,314.00	6,037.80	31	100
Atkins Nuclear	22,403.02	4,905.48	22	100
Other Contractors (used since)	—	—	—	—
DYCODA, LLC	10,000.00	6,499.50	65	100
Jacobsen Engineering Ltd	104,400.00	0.00	0	100
Serco Assurance	59,975.00	58,000.92	97	100
University of Liverpool	2,605.84	2,606.07	100	100
VTT Technical Research Centre Finland	66,400.00	70,403.02	106	100
Process Review Board (column 1432W)	—	—	—	—
David Hughes	12,500.00	15,603.95	125	100
John Raine	15,016.00	11,500.21	77	100
Bernard Whittle	12,195.00	8,565.60	70	100
Philip Woodward	12,155.00	7,685.20	63	100
Project Assurance Officer (column 1432W)	—	—	—	—
James Furness	29,500.00	3,848.96	13	100

Additional costs above contract value for VTT and David Hughes were incurred as a result of contract extension.

The variance on the IAEA contract is due to currency exchange rate and bank charges.

Values in table are contract values not annual costs.

Nuclear Power: North West

Mr. Wallace: To ask the Secretary of State for Energy and Climate Change what steps he is taking to support the provision of nuclear power in the North West. [266043]

Mr. Mike O'Brien *[holding answer 24 March 2009]*: It is our policy to facilitate new nuclear build and we are taking active steps to do that, as set out in the Nuclear White Paper and the update that we published in January 2009.

The Strategic Siting Assessment will determine those sites that are strategically suitable for new build.

The Department, through the West Cumbria Strategic Forum, engages with this sub-region of the North West on various issues and we have encouraged their participation in recent consultations and reports to ensure that the areas views on new nuclear are understood and considered.

Nuclear Power: Regulation

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to the hon. Member for Tunbridge Wells, of 27 February 2009, *Official Report*, column 1138W, on nuclear power: regulation, how many pages there are in the review of nuclear regulation by Dr Tim Stone to which he refers. [262712]

Mr. Mike O'Brien: 38 pages.

Nuclear Research Advisory Council

Mr. Weir: To ask the Secretary of State for Energy and Climate Change (1) what the *(a)* final departure package and *(b)* pension arrangements were for the previous Chief Executive of the Nuclear Research Advisory Council; [267060]

(2) what the salary of the Chief Executive of the Nuclear Research Advisory Council has been in each of the last 10 years. [267065]

Mr. Kevan Jones: I have been asked to reply.

The Nuclear Research Advisory Council is an advisory non-departmental public body and does not have a chief executive. The Council is headed by a chairman who is neither salaried nor has a departure package nor pension arrangements. The chairman's remuneration is a daily fee of £315 and he is engaged on average for 17 days a year.

Nuclear Trust

Greg Clark: To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of the work of the Nuclear Trust; and if he will make a statement. [264298]

Mr. Mike O'Brien: The Nuclear Trust owns the Nuclear Liabilities Fund which is responsible for meeting decommissioning cost of British Energy's existing nuclear power stations, together with defuelling costs and certain British Energy uncontracted liabilities. The Shareholder Executive advises the Secretary of State for Energy and Climate Change on the Nuclear Liabilities Fund's holdings as part of its role of managing a portfolio of public sector bodies on behalf of Government. The work of the shareholder executive is set out in its annual report.

Oil: Syria

Andrew Rosindell: To ask the Secretary of State for Energy and Climate Change what proportion of oil imported to the United Kingdom originated in Syria in each of the last five years. [266947]

Mr. Mike O'Brien: The following table shows the proportion of UK imports of crude oil and finished petroleum products from Syria from 2003-07.

Percentage

	Crude oil	Petroleum products	Overall
2003	0.2	0.1	0.1
2004	0.3	0.0	0.2
2005	1.4	0.2	0.9
2006	0.6	0.0	0.4
2007	1.0	0.0	0.6

Source:
International Energy Agency

Power Failures

Justine Greening: To ask the Secretary of State for Energy and Climate Change how many *(a)* planned and *(b)* unplanned power cuts there have been by (i) region and (ii) London borough in each of the last five years. [266654]

Mr. Mike O'Brien *[holding answer 26 March 2009]*: A breakdown of planned and unplanned interruptions (counting each household or meter point without power as one interruption) for the last five years is shown in the following table.

The data shown are for EDF London Power Network (LPN) (the entire London distribution service area). Data by borough are not collected.

EDF (LPN)	2007-08	2006-07	2005-06	2004-05	2003-04
Unplanned interruptions	686,000	816,000	709,000	775,000	770,000
Pre-arranged interruptions	18,000	20,000	21,000	18,000	25,000

Power Stations: Construction

Andrew Rosindell: To ask the Secretary of State for Energy and Climate Change how many *(a)* gas, *(b)* coal and *(c)* oil-fired power stations he expects to begin being constructed in each of the next five years. [259508]

Mr. Mike O'Brien: There is currently 6.7 GW of gas-fired capacity and 0.9 GW of gasified coal capacity with planning consent. Time scales for construction are a matter for the companies concerned. However, the Department publishes an overview of generation capacity development in its annual Energy Markets Outlook Report, which is available at:

http://www.berr.gov.uk/energy/energymarketsoutlook/page41839.html

Copies of the report are also available in the Libraries of the House.

Power Stations: Planning Permission

Greg Clark: To ask the Secretary of State for Energy and Climate Change what requests his Department has received under section 36 of the Electricity Act 1989 since its creation. [266626]

Mr. Mike O'Brien: Applications DECC has received under S36 of the Electricity Act 1989 are listed as follows:

Date of application	Company/location	Type	Maximum output (MW)
February 2009	Helius Energy plc, Bristol Dock, Avonmouth	Biomass	100
January 2009	Centrica (RBW) Ltd., Race Bank, Greater Wash	Offshore wind farm	620
December 2008	Centrica (DSW) Ltd., Docking Shoal, Greater Wash	Offshore wind farm	540
December 2008	Npower Renewables Ltd., Carnedd Wen, Powys	Onshore wind farm	130-250
October 2008 (withdrawn February 2009)	Marshland Windfarm Ltd., Norfolk	Onshore wind farm	57

Renewable Energy

Graham Stringer: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the increase in the level of biomass crops required to meet the UK's renewables energy strategy target for 2020. [268802]

Mr. Mike O'Brien: Analysis undertaken for the Renewable Energy Strategy (RES) consultation document suggested that to meet our 2020 target, we may need about a quarter of the UK's renewable energy to come from biomass-fuelled heat and electricity. A range of biomass sources will be required, including purpose-grown energy crops, wood, and organic wastes such as wood and food waste, manure and slurry. The RES consultation document referred to a previous estimate that there is potential to plant an additional 350,000 hectares of energy crops across the UK by 2020. An updated analysis will be published in the UK Renewable Energy Strategy, which is due in the summer.

Graham Stringer: To ask the Secretary of State for Energy and Climate Change what proportion of the biomass needed by 2020 to comply with the UK renewable energy strategy he estimates will be sourced within the UK. [268803]

Mr. Mike O'Brien: In their consultation on a Renewable Energy Strategy, Government published figures estimating the long term technical potential of sustainable biomass sourced in the UK for heat and electricity to be 100 TWh of primary energy per year. This would be sufficient to meet our modelled bioenergy requirement in 2020 but we recognise that, as occurs today, it is likely that we will make use of a mix of domestic and imported products.

We are in the process of furthering our understanding of how the biomass market within the UK may develop and intend to use this information to inform development of the Renewable Energy Strategy. We will, of course, publish our findings.

Greg Clark: To ask the Secretary of State for Energy and Climate Change what proportion of the UK share of the EU 2020 renewable energy target he expects to be met by *(a)* onshore wind, *(b)* offshore wind, *(c)* renewable gas technologies and *(d)* marine power sources. [269206]

Mr. Mike O'Brien: The 2008 UK Renewable Energy Strategy consultation document set out scenarios for deployment of renewable energy needed to meet the UK's share of the EU renewable energy target. In one scenario presented in the consultation, the shares of technologies were: 13 per cent. renewable energy from onshore wind, 19 per cent. from offshore wind, at least 5 per cent. from biogas heat and 3-4 per cent. from marine power sources.

Renewable Energy: Finance

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what *(a)* financial and *(b)* other support his Department provides for viable renewable energy projects. [269195]

Mr. Mike O'Brien: Changes to the renewables obligation, the main support mechanism for renewable electricity generation, took effect on 1 April. These will provide different levels of support to different technologies depending on their costs. In addition, we took powers in the Energy Act 2008 to introduce a feed-in tariff for small-scale renewable electricity generation, and a renewable heat incentive.

Sellafield

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change if he will instruct his Department's Management Board to investigate the presentation of the projected contingent liabilities arising from the proposed indemnification arrangements for nuclear management partners management contract for Sellafield to Parliament. [263529]

Mr. Mike O'Brien: The presentation to Parliament of the Nuclear Decommissioning Authority's nuclear indemnity for Nuclear Management Partners in relation to the contract for the parent body organisation (PBO) for the Sellafield Site Licence Company was the responsibility of BERR and it would not, therefore, be appropriate for the management board of DECC to carry out an investigation. The facts of the case are well known and any further investigation is unnecessary.

The Government are committed to following the correct procedures and keeping the House informed and I am told that BERR did so in this case. Because there were elements of special urgency to achieve the contract award date for Sellafield, BERR followed a non-standard procedure in accordance with Treasury guidance to Departments in Managing Public Money. The then Minister of State for Energy at BERR wrote on 14 July 2008 to the chairmen the PAC and the Business Select Committee asking them to raise any concerns about the proposed indemnity within 14 working days.

The Minister's intention was that this letter should be put in the House Libraries on the same day, but that did not happen due to an oversight by a member of staff. This was only noticed on 15 October and it was deposited in the Libraries of the House that same day.

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what indemnification arrangements have been agreed with the consortium appointed to run the National Nuclear Laboratory at Sellafield; if he will publish on his Department's website a copy of those agreements; and which other organisations bid for the National Nuclear Laboratory contract. [266807]

Mr. Mike O'Brien: SBM Group (comprising Serco, Battelle and Manchester University) is the consortium appointed to run the National Nuclear Laboratory and it assumed responsibility on 6 April. Under the agreement, the consortium has provided various indemnities to the Department but the Department has provided none in return. Because the terms of the agreements remain commercially sensitive, it is not our intention to make the terms public.

The only other bidder to pre-qualify and be invited to participate in dialogue was Qqest, a consortium of Energy Solutions and Qinetiq.

Solar Power

Mr. Kidney: To ask the Secretary of State for Energy and Climate Change what steps his Department is taking to meet demand for solar photovoltaic applications under the Low Carbon Buildings Programme. [264888]

Mr. Mike O'Brien: The popularity of the Low Carbon Buildings Programme (LCBP) Phase 2 has lead to an oversubscription in solar photovoltaic applications.

Any applications for solar photovoltaic made after the full budget allocation for this technology was reached (26 February) are being kept on hold. We are discussing the current allocations for the other technology pots with the Framework Suppliers to ensure we can maximise spend through to the end of programme.

LCBP Phase 2 is still open for solar thermal, biomass, micro wind and ground source heat pump applications. In addition, LCBP Phase 1 is open to household applications for the range of technologies including solar photovoltaic.

Street Lighting: Standards

Mr. Stewart Jackson: To ask the Secretary of State for Energy and Climate Change when he expects Ofgem to issue guidance to local authorities on the required standards for the electrical maintenance of street lighting. [263928]

Joan Ruddock: Ofgem has worked closely with the industry to develop standards for the maintenance of street lighting i.e. street lighting fault repairs. A Service Level Agreement (SLA) was introduced following extensive consultation by Ofgem involving local authorities and distribution network operators (DNOs). Ofgem published a decision letter in this respect in 2007 and set out a number of key performance indicators (KPIs) to apply to the various street lighting maintenance categories. Ofgem also made it clear that DNOs should be seeking to meet and surpass the KPIs and if performance did not improve it would take action in this respect through the distribution price control review (DPCR).

I understand that Ofgem is now considering the extent of regulation required for the KPIs and is working with the industry to formalise these arrangements through further regulation. Ofgem expects to publish its initial proposals in this respect in July 2009.

Warm Front Scheme

Greg Clark: To ask the Secretary of State for Energy and Climate Change who the members of the Warm Front Scheme Management Board are; and on what date *(a)* each was appointed and *(b)* the term of appointment of each expires. [257472]

Joan Ruddock: The Warm Front Scheme Management Board oversees the delivery and performance of the Warm Front Scheme and its contribution to achievement of the fuel poverty and wider Government targets. The board meets on a quarterly basis. Member organisations of the board are:

Department of Energy and Climate Change—officials from the Fuel Poverty team and procurement

eaga plc—the Warm Front Scheme Manager

Wolseley—supplier of materials to the scheme

Graham group—supplier of materials to the scheme

White Young Green—the independent quality assessor for the scheme

National Energy Action—England's leading fuel poverty charity

Consumer Focus—a customer advocacy body

All members have sat on the board since the start of the current contract in 2005, with the exception of Consumer Focus who were invited to the board in 2008 after the previous consumer advocacy member, Energy Watch, was disbanded. Members do not have a fixed term of appointment.

Individuals representing a member organisation may change from meeting to meeting. Members may also request permission to bring along technical representatives for certain agenda items.

Greg Clark: To ask the Secretary of State for Energy and Climate Change if he will place in the Library a copy of the contract between his Department and Eaga for the management of the Warm Front scheme. [257475]

Joan Ruddock: The release of this information would prejudice commercial interests.

Andrew George: To ask the Secretary of State for Energy and Climate Change how his Department assesses the value for money of services provided under the Warm Front scheme. [265378]

Joan Ruddock: The Department employs independent quality assessors White Young Green who audit all aspects of Warm Front delivery to assess whether it provides value for money. This includes regular six monthly audit reports, as well as ad hoc projects which have included two reviews of Warm Front pricing.

The National Audit Office has also recently completed a Value for Money report on Warm Front, which is available from its website.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what the average grant awarded under the Warm Front scheme was in each year since 2000. [266140]

Joan Ruddock: The following table shows the average grant awarded to applicants to the Warm Front scheme since the beginning of its current phase in 2005. Consolidated data prior to 2005 are unavailable as the scheme was administered by two agencies, one of which is no longer involved with the scheme. As such, the data retained are not sufficient to provide an accurate average in earlier years.

Scheme year	*Average grant (£)*
2005-06	1,216
2006-07	1,245
2007-08	1,302
2008-09	1,701

Daniel Kawczynski: To ask the Secretary of State for Energy and Climate Change how many people awarded Warm Front grants in *(a)* Shropshire, *(b)* the West Midlands and *(c)* England were asked to make an excess payment in 2008. [267763]

Joan Ruddock: The data showing the number of people awarded Warm Front grants in *(a)* Shropshire, *(b)* the West Midlands and *(c)* England asked to pay a client contribution are given in the table. This is based on the most recent information available: the data run from 1 April 2008 to 6 March 2009.

Area	*Number of people asked to pay a contribution*	*Households assisted*
Shropshire	403	1,754
West Midlands	10,957	30,435
England	50,861	211,920

Joan Walley: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the average waiting time for work under the Warm Front scheme to be completed in the latest period for which figures are available. [268227]

Joan Ruddock: The average waiting times since the start of the current scheme in 2005 until 28 February 2009 are detailed as follows. These waiting times are within the Department's contractual guidelines, which state that heating measures will be installed within 120 days of survey and insulation measures within 40 days.

	2005-06	2006-07	2007-08	*Days* 2008-09
Heating				
Installation	66.0	81.9	63.8	64.7
Insulation				
Installation	28.2	32.7	27.4	35.8

JUSTICE

Blood: Contamination

Jenny Willott: To ask the Secretary of State for Justice how many inquests into the deaths of people who contracted *(a)* HIV, *(b)* Hepatitis C or *(c)* variant Creutzfeldt-Jakob disease through contaminated blood products administered to them under the NHS have been completed; and if he will make a statement. [269757]

Bridget Prentice: The Ministry of Justice collects statistics on the verdicts returned at inquests by coroners in England and Wales during each calendar year, broken down into 15 categories of verdict and the sex of the deceased. No further information is collected on the circumstances of each case. (In a reformed system, the Chief Coroner is likely to review the matters on which annual statistics are collected and published, and is likely to consider whether there are specific issues on which occasional research should be carried out.)

Courts: Repairs and Maintenance

Mr. Grieve: To ask the Secretary of State for Justice pursuant to the answer of 17 March 2009, *Official Report*, column 1119W, on courts: repairs and maintenance, how much was spent on the refurbishment of court buildings in each of the last three years, excluding expenditure on the Royal Courts of Justice and on the Crown Court at Isleworth. [266177]

Mr. Straw: Altogether in 2008-09 £47 million was spent by HMCS on maintenance at all courts, £27 million on projects to increase capacity and to rationalise the estate (and £75 million on major new builds). HMCS does not define 'refurbishment projects' as a specific programme of work. Expenditure for the last three financial years from the maintenance and capacity programmes which could be classed as 'refurbishment' is as follows.

Financial year	*Expenditure (£ million)*
2006-07	8.0
2007-08	1.8
2008-09	1.5

This is mainly made up of the following projects:

	£ million
Warwick Criminal Justice Centre (South)	2.5
Shoreditch/Clerkenwell County Courts	1.3
Hendon Magistrates Court	3.9
Regional refurbishment spend	3.7

Departmental Buildings

Grant Shapps: To ask the Secretary of State for Justice what properties *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies have sold since his Department's inception; and how many have been sold for housing developments. [267556]

Mr. Malik: Since the Ministry of Justice's inception on 9 May 2007, there has been no sale of property from the Department or its non-departmental bodies. There have however, been 61 sales of property from its agencies.

Her Majesty's Courts Service has sold 11 properties. They are:

Flax Bourton Magistrates Court, The Courthouse
Bedford, The Old Bank Site
Newtown Magistrates Court, Back Lane
Cheltenham County Court, County Court Road
Bolton, 22 Queen Street
Kingston upon Thames, Triangle Site
Epsom County Court and Magistrates Court
Sleaford Magistrates Court
Manchester 184-186 Deansgate (Former County Court)
Maidstone Wierton Grange (Former Judges Lodgings)
Land at the rear of the former Marylebone Magistrates Court

Her Majesty's Prison Service has made 50 sales which are nearly all of former quarters but also include a garage, a lease and a sewage treatment works. They are:

29 Manor Crescent, Kingston
92 Park Road, Birmingham
125 Ashford Road, Feltham
Garage, 27 Honeybourne, Long Lartin
Sale of Lease, Newbrook and Brookhouse
25 Victoria Park, Erlestok
85 Perryn Road, Wormwood Scrubs
97 Jebb Avenue, Brixton
79 Jebb Avenue, Brixton
2 Eastly Close, Eastwood Park
67 Jebb Avenue, Brixton
12 Bethune Ave, Pentonville
33 Finch Road, Reading
3 Anson Close, The Mount
52 Welland Avenue, Gartree
37 Burley Crescent, Ashwell
42 South Road, Coldingley
13 Birchlands Avenue, Brixton
19 Maplestead Road, Brixton
58 First Avenue, Wormwood Scrubs
18 Park Road, Feltham
2 Southgate Ave, Feltham
67 Old Oak Road, Wormwood Scrubs
18 Knox Close, Norwich
Westview, Onley
4 Stuart Crescent, Gartree
143 Stanford Road, Brixton
3 Kenilworth Avenue, Styal
65 Onley Park, Onley
16 Hawthorne Way, Highpoint
9 Link Lane, Wandsworth
Mill Farm, Feltham (Garage)
31 Copley Way, Highdown
42 Grenoble Gardens, Pentonville

36 Heathfield Square, Wandsworth
27 Finch Road, Reading
66 Anderson Drive, Feltham
8 West End Close, Winchester
25 Hornby Close, Liverpool
11 Montague Place, Leeds
4 Lyham Close, Brixton
Sewerage Works, Guys Marsh
18 Southgate Avenue, Feltham
6 Rudgate Park, Wealstun
32 Perry Hill, Chelmsford
22 Priorsgate, Lancaster Farms
6 Priorsgate, Lancaster Farms
7 Frewin Road, Wandsworth
5 Elder Green, Wakefield
6 Shepherds Croft, Portland

In all, four properties have been sold for housing development. The Epsom county court and magistrates court were purchased with the intention of the site being used for additional housing development, as was the land at the rear of the Marylebone magistrates court site. The sale of HMPS land at Gringley has been sold for housing development.

Departmental Empty Property

Mr. Philip Hammond: To ask the Secretary of State for Justice what estimate he has made of the change in the annual cost to his Department of maintaining the empty public buildings owned by his Department as a result of the April 2008 changes to empty property rate relief. [267126]

Maria Eagle: The estimate of the change in the annual cost to the Ministry of Justice as a result of the April 2008 changes to the empty property rate is £804,081. The cost is made up as follows:

	£
Her Majesty's Court Service	361,270
National Offender Management Service (non-custodial)	314,458
Her Majesty's Prison Service	128,352

Departmental Furniture

Grant Shapps: To ask the Secretary of State for Justice how much was spent by his *(a)* Department and *(b)* its agencies on furniture in each of the last five years. [266202]

Maria Eagle: Information is not held centrally on the amount spent on procuring furniture before the financial year 2007-08. Available data were therefore related to the financial year 2007-08 only, when the total expenditure was £3,214,944. This was made up of:

	£
Ministry of Justice headquarters	235,398
HM Court Service	2,166,667
Tribunal Service	162,879
HM Prison Service	650,000

Details for the financial year 2008-09 will be available shortly.

Information about the expenditure of the National Probation Service is not held centrally and could be provided only at disproportionate cost by contacting 43 probation boards and trusts.

The Prison Service seeks to manufacture furniture in house by using prisoners. This has resulted in expenditure on outsourced furniture decreasing as internal production has expanded. Expenditure for the financial year 2006-07 was £761.229, resulting in a decrease of £111,229 in 2007-08. The Prison Service aims to occupy prisoners in out of cell activity and wherever possible to help them gain skills, qualifications and work experience to improve their employment prospects upon release.

Departmental Lost Property

Paul Holmes: To ask the Secretary of State for Justice what the total cost of replacing lost or stolen property from his Department was in the last 12 months. [268037]

Mr. Straw: Details of individual cases of property lost or stolen are maintained at a local level, and to obtain all information across the MOJ could be completed only at disproportionate cost. To determine the replacement cost of the property could similarly be gathered by making queries at an operational level across the organisation only at disproportionate cost.

For the year to date 2008-09 the following unaudited balances are available for the value of property lost or stolen within HM Prison Service, where the majority of cases arise, totalling £133,317. This comprises:

Losses of stores: 479 instances; £41,279

Loss of personal property for which compensation was paid to prisoners, staff or third parties: 1,598 instances; £92,038.

Departmental Manpower

Mrs. Laing: To ask the Secretary of State for Justice how many officials in his Department have been working on matters related to the Governance of Britain agenda since July 2007. [268205]

Mr. Wills: The Governance of Britain Green Paper set out to tackle the problems that power remains too centralised and too concentrated in Government and some people have become cynical about the political process and disengaged from it. It also set out to explore how the United Kingdom can benefit from articulating a shared understanding of what it means to be British.

A team was set up within the Ministry of Justice to implement the proposals contained in the 2007 Green Paper to deliver these objectives. Numbers in the team varied, with the maximum being the equivalent of 21 permanent members of staff, added to which a number of other staff within the Constitution Directorate have contributed to the delivery of various of the proposals. It would, however, entail disproportionate cost to determine the precise number of staff time devoted to the delivery of each of the proposals in the Green Paper.

Departmental Mobile Phones and Computers

Mr. Hoban: To ask the Secretary of State for Justice (1) how much has been spent on *(a)* the purchase of and *(b)* bills for (i) Blackberrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005; [268252]

(2) how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department and its predecessor in each year since 2005; and at what cost; [268269]

(3) how many *(a)* Blackberrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [268299]

Mr. Wills: Departmental laptops, mobile phones and BlackBerrys are provided through contracted arrangements with service providers. They are usually allocated from a central pool and returned to the pool for re-allocation when no longer required. The contracts provide fully managed services, which include the provision of equipment, service costs, helpdesk support, and, for mobile phones, line rental and call charges.

The Ministry of Justice (MOJ) was established in May 2007. Numbers of BlackBerry and laptop users for 2007-08 and 2008-09 are given as follows. These are taken from the Department's central records which cover MOJ headquarters, and main business areas, including Her Majesty's Courts Service (HMCS) and tribunals. The figures for mobile phone users cover MOJ headquarters only. Larger business areas, which include HMCS and Tribunals Service, manage mobile telephone provision locally, and these figures could be provided only at disproportionate cost.

2007-08

	Number
BlackBerry users	510
Laptop users	1,511
Mobile phone users	961

2008-09

	Number
BlackBerry users	878
Laptop users	1,997
Mobile phone users	863

In addition, the National Offender Management Service holds a central record of the following equipment:

	Average laptop volumes	*Average BlackBerry volumes*	*Average mobile telephone volumes*
2005	2,789	0	3,741
2006	2,447	0	4,156
2007	2,094	0	4,484
2008	2,740	393	4,775

Costs incurred for mobile phones and BlackBerrys allocated to Ministers and special advisers have been identified from available records. These figures include the cost of call charges, rental and the original purchase cost, if applicable. Note: figures for BlackBerrys are only available for 2008-09.

2007-08: Mobile phones

	£
Ministers	3,005.70
Special advisers	652.67

2008-09: Mobile phones

	£
Ministers	5,591.25
Special advisers	1,113.11

2008-09: BlackBerrys

	£
Ministers	2,930.25
Special advisers	1,208.09

Other cost information is not readily available in a form to answer the question. This information could be provided only at disproportionate cost.

The Ministry is continually seeking to ensure optimum use of resources. Recent initiatives include the One computer policy, which encourages staff to use only one device—either a laptop, desktop, or BlackBerry, and new approvals procedures for BlackBerrys have been introduced.

Departmental Public Consultation

Mr. Grieve: To ask the Secretary of State for Justice how much *(a)* his Department and *(b)* the Department for Constitutional Affairs spent on public consultations in each of the last five years. [266176]

Mr. Straw: Most of the Ministry of Justice and the former Department for Constitutional Affairs public consultations conducted in the last five years were covered by departmental costs as an integral part of the policy-making process. No breakdown exists for those costs and to provide one would incur disproportionate cost. However, the following table shows where activity over and above a standard consultation has been carried out and related cost details are available because the consultation was therefore funded by a different method.

Name of consultation	*Cost (£)*
2006 consultations	
Openness in the Family Courts -Confidence and Confidentiality	28,000
Legal Aid: a sustainable future (joint consultation with Legal Services Commission)	[1]23,500
2007 consultations	
Openness in the Family Courts - a new approach	14,000
Judicial Appointments: the Executive, Legislature and Judiciary	15,000
War-making powers and international treaties	14,000
NOMS Strategic Plan for Reducing Reoffending	75,000
NOMS Believing we can - engagement with the faith based sector to support work to reduce reoffending	10,000
NOMS Third Sector Strategy	20,000
	[2]—
MOJ Third Sector Strategy	35,500
OCJR Improving the criminal justice process for young witnesses	2,000
2008 Consultations	
NOMS Best Value in Probation	[3]9,500
Local Authority Charges for Property Search Services (joint consultation with Communities and Local Government)	12,000
Titan Prisons	£1,210
Election Day - Weekend Voting	6,153.95

Name of consultation	*Cost (£)*
Murder, Manslaughter and Infanticide: Proposal for reform of the Law	10,254
Rules for Mandatory Polygraph Tests for Sex Offenders	£300
Reducing Re-offending in London	13,995.26
Reviewing the Mental Capacity Act 2005: Forms Supervision and Fees	6,300

[1] Matched by Legal Services Commission.

[2] Plus £18,000 for joint consultation events for NOMS Believing We Can and NOMS Third Sector Strategy.

[3] On 19 May 2008 for the answer to PQ 205828, a figure of £12,000 was given. This was an estimate of likely costs. This figure was then confirmed as £9,500 in time for publication in the answer to PQ 259572 on 3 March 2009.

Departmental Public Expenditure

Grant Shapps: To ask the Secretary of State for Justice what capital funding his Department has brought forward from its *(a)* 2009-10 and *(b)* 2010-11 budgets for use in (i) 2008-09 and (ii) 2009-10; and to what ends this funding has been allocated. [266204]

Mr. Hoban: To ask the Secretary of State for Justice how much capital spending is planned to be brought forward by his Department to *(a)* 2008-09 and *(b)* 2009-10. [266297]

Mr. Straw: The Ministry of Justice (MOJ) has not brought forward any capital spending from 2009-10 or 2010-11 for use in 2008-09 or 2009-10. However, the MOJ is considering bringing forward capital spending on maintenance projects on existing operational estates.

Dr. Cable: To ask the Secretary of State for Justice what his latest estimate is of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268124]

Mr. Straw: The Ministry of Justice is currently forecasting to spend its full capital allocation of £961 million in 2008-09, as published in the Spring Supplementary Estimate (SSE). A copy of the SSE is available in both Libraries of the House.

The Department plans to spend its full allocation of funding of £768 million and £734 million respectively in 2009-10 and 2010-11, as published in the 2007 Comprehensive Spending Review (CSR), a copy of which is available in both Libraries of the House. This does not include funding made available by HM Treasury following the Carter Review of Prisons to increase prison capacity. Also there is a sum of c. £370 million relating to additional prison expansion projects that we are expecting to spend during 2009-10 and 2010-11.

For 2011-12, this falls outside the current CSR period and so it is not possible to provide details of planned expenditure until the next spending review has been finalised.

Departmental Rail Travel

Mr. Hurd: To ask the Secretary of State for Justice what guidance his Department has issued to its staff on claims for travel in first class carriages on trains if there are no seats in standard class. [268445]

Mr. Wills: All rail travel is completed in line with the Staff Pay and Allowances Handbook, which states that all employees are encouraged to travel at standard class unless there is justification for travelling first class.

Senior employees may travel first class on official journeys by rail in exceptional circumstances.

Other employees should travel at standard class, except when:

> necessarily travelling with a colleague entitled to first class travel, or someone not a civil servant travelling first class;
>
> they certify (other than on suburban lines) that a standard class seat could not be found.

Separate guidance is provided for staff working within the NOMS agency, although it is broadly similar, stating:

> For staff in the NOMS agency, current guidance states that staff at Prison Service Manager Grade G and below are entitled to travel first class when they certify that they were unable to find a seat in standard class and the journey exceeds 30-minutes in duration.

The MOJ has provided guidance to staff in order to reduce the costs of travel, subsistence and hospitality, for example by using video conferencing where possible and significantly reducing refreshments provided for meetings.

Departmental Training

Mr. Hurd: To ask the Secretary of State for Justice what his Department's policy is on holding departmental away days at locations other than departmental premises. [268467]

Mr. Wills: The Ministry of Justice does not hold a specific policy for holding departmental away days at locations other than departmental premises.

All spending on away days is completed in line with the Finance Policy Manual, which is in line with HM Treasury Guidance on Managing Public Money, and states the following for away days and team building events:

> "These occasional events are organised to develop working relationships and achieve Departmental objectives. They are acceptable as long as the event can be justified as good value for money and can demonstrate development achievements. Costs should be reasonable and comparable to the status of the event".

Across the MOJ staff are looking at ways to get best value for money and make savings, this includes local changes to ways of working which managers are putting in place. Wherever possible, taking into account room availability, size and flexibility, managers are using MOJ, or other public sector buildings, for planning and team meetings and away days rather than using external venues.

Grant Shapps: To ask the Secretary of State for Justice how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and which organisations provided such training. [268549]

Mr. Wills: Ministers in the Ministry of Justice (formerly the Department for Constitutional Affairs) have not undertaken any media training within the last three years.

Departmental Translation Services

Damian Green: To ask the Secretary of State for Justice how much his Department spent on translation services in each area of allocation in 2008. [267449]

Mr. Straw: The Ministry of Justice (MOJ) are able to provide the total cost for language translators and interpreters for the calendar year 2008 only at a disproportionate cost as the details are not held in this format.

Figures are available for the financial year 2007-08, as follows:

MOJ headquarters

Translators: £272, 877

Interpreters: £4,034,000[1]

Her Majesty's Courts Service

Translators: £200,000

Interpreters: £0

Tribunals Service

Translators and interpreters: £6,058,000[2]

Office of Criminal Justice Reform

Translators: £448

Interpreters: £0

Her Majesty's Prison Service

Translators and interpreters: £820,633[2]

National Offender Management Service (headquarters, excluding HM Prison Service and the Probation Service)

Translators: £8,906

Interpreters: £32,000

[1] This figure is the total cost for interpreters' services in Her Majesty's Crown Court in 2007-08. This is paid from the central funds budget within MOJ headquarters.

[2] Tribunals Service and HM Prison Service are able to differentiate between the cost of translators and interpreters only at disproportionate cost. For TS this figure includes services for people with visual and hearing impairments and travel expenses.

The Probation Service costs for interpretation and translation services are not held centrally and are available only at a disproportionate cost.

Information for 2008-09 is currently being collated.

Feltham Young Offender Institution and Remand Centre

Dr. Vis: To ask the Secretary of State for Justice how many *(a)* juveniles and *(b)* young adults have been physically restrained in Feltham Young Offenders Institution in each month since January 2008. [261689]

Mr. Hanson: Establishments in the young people's estate, commissioned by the Youth Justice Board (YJB) collect information on the number of Restrictive Physical Interventions (RPI) that occurs each month. In the young adult estate we report on the use of control and restraint. Figures are collected on the number of incidents of restraint that take place, not the number of young people or young adults restrained.

A Report of an Independent Review of the Use of Restraint in Juvenile Secure Settings and the Government's response was published in December 2008. The Report recommended that HMPS provide staff with safe restraint techniques designed especially for young people and which do not reply on pain-compliance. The Government accept this recommendation and NOMS is developing a new Adapted Control and Restraint (C and R) technique specifically for young people which will form part of a comprehensive behaviour management system.

Young People: Data on the number of times Restrictive Physical Intervention (RPI) was used on a young person (15-18 years old) at HMYOI Feltham from January 2008 to January 2009 are shown on the following table:

	Average YP Population	*RPI Incident*
January 2008	211	39
February 2008	207	57
March 2008	226	33
April 2008	211	38
May 2008	209	31
June 2008	220	50
July 2008	215	41
August 2008	211	22
September 2008	209	64
October 2008	205	44
November 2008	211	34
December 2008	186	25
January 2009	191	41

RPI is a Youth Justice Board (YJB) measure defined as any occasion when force is used with the intention of overpowering or to overpower a young person. Overpowering is defined as "restricting movement or mobility".

Young adult: Data on the number of times Control and Restraint (C and R) was used on a young adult (18-21 years old) at HMYOI Feltham from January 2008 to January 2009 are shown in the following table:

	Average YA Population	*C and R Incident*
January 2008	371	18
February 2008	378	19
March 2008	374	33
April 2008	371	24
May 2008	364	16
June 2008	385	17
July 2008	379	21
August 2008	419	28
September 2008	404	13
October 2008	404	30
November 2008	387	46
December 2008	389	24
January 2009	385	27

C and R is used as a last resort in order to bring a violent or refractory prisoner under control and the technique is only applied for as short a time as is possible.

Fines: Surcharges

Mr. Grieve: To ask the Secretary of State for Justice what the expected income of the Victims Surcharge Fund is in 2009-10. [268072]

Maria Eagle: The Victims Surcharge is a £15 charge levied on fines imposed in the magistrates and Crown courts in England and Wales on offences committed on or after 1 April 2007. Her Majesty's Courts Service have forecast that £8 million will be raised from the surcharge in 2009-10. The forecasts are based on the current numbers of fines imposed and enforcement achieved.

Housing: Sales

Grant Shapps: To ask the Secretary of State for Justice when the Land Registry expects to publish figures for the numbers of properties which were sold in *(a)* February and *(b)* March 2009. [268585]

Mr. Wills: Land Registry publishes sales volume figures within its monthly house price index (HPI). The data are collected on all residential property transactions in England and Wales. It is expected that figures for February and March will be published on 1 June and 26 June 2009 respectively. The HPI is published at:

www.landregistry.gov.uk

and will be available at 11:00 hours on the aforementioned dates.

Magistrates Courts: Sentencing

Philip Davies: To ask the Secretary of State for Justice how many people were sentenced in magistrates courts in the last year for which figures are available; and how many of those sentences were custodial. [267047]

Maria Eagle: In 2007, the latest year for which data are available, there were 1,325,453 persons sentenced at magistrates courts and 76,643 were given a custodial sentence including suspended sentences. More than 80 per cent. of sentences at magistrates courts are for summary offences for which custody is not always either available or appropriate. For non-summary offences the total number sentenced was 234,541 and 43,595 were given a custodial sentence.

These figures can also be found in table 1.3 of "Sentencing Statistics, England and Wales, 2007" published by the Ministry of Justice at the following link:

http://www.justice.gov.uk/publications/sentencingannual.htm

Members: Correspondence

Steve Webb: To ask the Secretary of State for Justice when he plans to reply to the letter of 13 January 2009 from the hon. Member for Northavon on behalf of Mr. E. Penberton of Thornbury, on proposals relating to bailiffs. [269070]

Bridget Prentice: I replied to the letter from the hon. Member on behalf of Mr. E. Pemberton on 15 April 2009.

National Offender Management Service: Finance

Mr. Grieve: To ask the Secretary of State for Justice what the planned budget is for each probation area in 2009-10. [268074]

Mr. Straw: Since 1997, the probation resource budget has increased by nearly 70 per cent. in real terms, with 7,000 more probation staff. The service now receives over £900 million of public money, and it is essential that this money is put to good use.

There is significant scope for savings in the probation service, particularly by reducing unnecessary management layers, streamlining changes and cutting bureaucracy. The potential for savings has been verified externally.

Challenging efficiency targets have been set for probation areas that want to become trusts, but the priority is public protection. This will not be compromised.

The probation service's budget for 2009-10 is set at £894 million. Although this is £20 million less than the £914 million budget for 2008-09, outturn for this year is estimated at £889 million—£5 million less than 2009-10 budget allocation. In order to make funding allocations as fair as possible savings requirements vary between probation areas, taking identified potential savings and the number of convictions in the area into account. Planned budgets for individual probation areas in 2009-10 are:

	£000
South West	65,132
Avon and Somerset	20.221
Devon and Cornwall	20.236

Nottingham Prison

Mr. Todd: To ask the Secretary of State for Justice whether he plans to implement the recommendations of HM Chief Inspector of Prisons' reports of 2005 and 2007 on the visits booking system at HM Prison Nottingham; and if he will make a statement. [268529]

Mr. Hanson: The recommendations on the visits booking system were accepted in both reports by HM Chief Inspector of Prisons. A computer booking system was introduced following the 2005 report. A new computer system will be introduced later this year in response to the 2007 report.

Offenders: Ex-servicemen

Dr. Murrison: To ask the Secretary of State for Justice what *(a)* account is taken by and *(b)* information is made available to offender managers of the services provided by the Service Personnel and Veteran's Agency in the drafting of supervision plans for offenders who have served in the armed forces; if he will ensure that such offenders are informed of the services for which they are eligible which are provided by (i) the Royal British Legion, (ii) Combat Stress and (iii) Soldiers, Sailors and Airforce Association; and if he will make a statement. [261045]

Mr. Hanson: The Veterans Prison In-Reach Initiative, a partnership between the Ministry of Justice and Ministry of Defence, promotes the help and support for veterans available from the Service Personnel and Veterans Agency (SPVA) to prison establishments and probation offender managers. The SPVA website and free-phone helpline is promoted to front-line staff which can assist the development of supervision plans for veteran offenders.

As part of the Veterans Prison In-Reach initiative we are running an extensive cross-departmental marketing campaign aimed at staff, including offender managers, ex-veteran offenders and their families on services available. This exercise is conducted in close and active co-operation with the three veteran charities mentioned by my hon. Friend. This helps to inform the sentence planning for ex-veteran offenders.

Offensive Weapons: Sentencing

Tom Brake: To ask the Secretary of State for Justice how many people have received the maximum sentence for possession of a knife in each region in each year for which figures are available. [260056]

Maria Eagle: The available figures, extracted from the dataset used to compile "Sentencing Statistics, 2007" published in November 2008, are contained in the following table. The maximum penalty has increased from two to four years imprisonment for offences committed after 12 February 2007. These penalties relate to possession of a knife. Where a knife is used to commit a crime a more severe sentence will be imposed. In some cases (e.g. for grievous bodily harm with intent) this could be life imprisonment.

The sentence imposed in individual cases is a matter for the courts to decide upon, within the statutory limits laid down by Parliament. It is entirely a matter for the court to determine the sentence taking account of all the circumstances in each case.

Provisional statistics, mainly from the police national computer, published by the Ministry of Justice in the first quarterly knife crime sentencing bulletin (on Thursday 12 March) and covering possession of an offensive weapon as well as possession of an article with a blade or point showed that:

> More offenders are being sent to jail (23 per cent.): the number of offences resulting in immediate custody rose from 1,125 in the last quarter of 2007 to 1,386 in the same period of 2008. On average there was a 40 per cent. increase in the number of prisoners serving a sentence for possession of an offensive weapon between the same periods.
>
> Fewer cautions being issued: the number fell 31 per cent. over the same period (1,706 in the last quarter of 2008 compared to 2,455 in the same period of 2007).
>
> More use of tougher community sentences: the number of offences resulting in community sentences rose 16 per cent. (from 1,861 in the last quarter of 2007 to 2,151 in the same period of 2007)
>
> Longer sentences: the average immediate custodial sentence has risen by 38 per cent. (from 133-days in the last quarter of 2007 to 184 days in the same period of 2008.

The proportion of all possession offences resulting in immediate custody rose to 21 per cent in the last quarter of 2008 from 17 per cent. in the same period of 2007. The proportion of offences resulting in a caution decreased from 36% in the last quarter of 2007 to 25 per cent. in the last quarter of 2008.

The statistics also show a decline in the total number of offences involving possession of a knife or other offensive weapon (6,704 offences were dealt with between October and December last year, compared to 6,808 in the same period of 2007).

Number of persons given maximum custodial sentence[1] for possession of an article with blade or point in public place or school premises, by region, 1993 to 2007

Region	*1993*	*1994*	*1995*	*1996*	*1997*	*1998*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007[2]*
North West	—	—	—	—	—	—	—	—	—	—	—	—	—	1
North East	—	—	—	—	—	1	—	—	—	—	—	—	—	—
Yorkshire and Humberside	—	—	—	—	—	—	1	—	—	—	—	—	1	—

South West	—	—	—	—	—	—	—	—	1	—	—	—	—	—
Wales	—	—	—	—	—	—	—	—	—	—		1	—	—
Total	—	—	—	—	—	1	1	1	1	1	—	1	1	2

[1] These data are on the principle offences basis.

[2] These figures are for offenders sentenced to two years imprisonment which would be the maximum sentence if the offence had been committed before 12 February 2007 where a new provision came into force which increased the maximum sentence from two years to four years.

There was no person sentenced to four years custody in 2007.

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Pentonville Prison: Prison Escapes

Mr. Garnier: To ask the Secretary of State for Justice if he will hold an inquiry into the escape from HM Prison Pentonville on 27 March 2009. [268997]

Mr. Hanson: The National Offender Management Service has a well established process for investigating serious incidents in prison, and all escapes are investigated. This was the only escape from inside a prison establishment in 2008-09. This reflects a significant achievement on behalf of staff working in prisons to protect the public.

Prison Sentences

Mr. Burrowes: To ask the Secretary of State for Justice how many people were sentenced in courts in England and Wales in *(a)* 2003, *(b)* 2004, *(c)* 2005, *(d)* 2006, *(e)* 2007 and *(f)* 2008; and what proportion of such sentences included a compensation order in each year. [269504]

Maria Eagle: The available information is shown in the following table. Statistics for 2008 will be available when 'Sentencing Statistics 2008' is published later in the year.

Number of offenders sentenced and number and proportion made to pay compensation[1] 2003-07

	2003	2004	2005	2006	2007
Number sentenced	827,216	839,435	815,327	798,057	803,606
Number of compensation orders issued	120,465	123,315	131,687	137,446	165,872
Proportion of offenders made to pay compensation (%)	15	15	16	17	21

[1] Excludes summary motoring offences

Note:

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

OMS Analytical Services, Ministry of Justice

Prison Service: Manpower

Dr. Murrison: To ask the Secretary of State for Justice how many members of staff were employed at *(a)* HM Prison (i) Belmarsh, (ii) Brixton, (iii) Holloway, (iv) Latchmere House, (v) Pentonville, (vi) Wandsworth and (vii) Wormwood Scrubs, *(b)* HM Young Offenders, Institution Feltham and *(c)* Clelland House on the latest date for which figures are available; and if he will make a statement. [268756]

Mr. Hanson: Information on the number of staff employed in London establishments and at Cleland House on 28 February 2009 requested is contained in the table.

Location	Function	Operational capacity	Staff employed
Belmarsh	Male local	910	963
Brixton	Male local	798	353
Feltham	Male closed young offender institution	762	738
Holloway	Female local	500	520
Latchmere House	Semi open	207	84
Pentonville	Male local	1,152	626
Wandsworth	Male local	1,644	707
Wormwood Scrubs	Male local	1,277	586
Cleland House	Headquarters	—	547

Prison Service: Political Activities

Dr. Murrison: To ask the Secretary of State for Justice what guidance is provided to HM Prison Service staff in respect of political activity; and if he will make a statement. [268760]

Mr. Hanson: The advice given to staff in HM Prison Service is exactly the same as that given to all civil servants. The advice is contained within the Prison

Service Staff Handbook and is drawn from the generic guidance in the Civil Service Code.

Political activities are divided into two areas; local and national. The freedom and extent to which staff may engage in political activities is dependant on the grade of the member of staff and which of the following three groups they fall into: politically free, intermediate or politically restricted.

The general principle that applies to staff that wish to engage in political activities is that every care should be taken to avoid causing any embarrassment to Ministers and the Prison Service by engaging in matters that are deemed to be politically controversial.

Prisoners

Mr. Oaten: To ask the Secretary of State for Justice what measures are in place to ensure that records held by *(a)* his Department and *(b)* HM Prison Service accurately record the identity of prisoners. [268863]

Mr. Hanson: Prisoners are only accepted into custody on production of a valid warrant signed by an officer of a court, or other lawful authority. Those escorted from a court or transferred from another establishment will be accompanied by a Prisoner (or Person) Escort Record form. Other documentation relating to the prisoner's identity may include a temporary release licence, licence revocation order, transfer order, or authority to detain under immigration or anti terrorism legislation.

In all cases the staff receiving the prisoner into the establishment will confirm that he or she is the person named on the warrant or other document. If there is any dispute, staff will still take the prisoner into custody, unless there is clear evidence of error, but will endeavour to resolve the issue. Prisoners will be allowed to contact their family or a friend, and their legal representative to seek advice as soon as possible, and will be informed of their right to petition the Secretary of State.

The prisoner's details will be recorded on his or her personal record, which accompanies the prisoner whenever he or she transfers from one establishment to another, and on the prison's IT system. Any aliases or changes of the prisoner's name will be cross-referenced in all records. Prisoners are photographed and fingerprinted shortly after arrival in prison, providing further confirmation of their identity.

Prisoners Release

Mr. Garnier: To ask the Secretary of State for Justice pursuant to the answer of 31 March 2009, *Official Report*, column 1070W, when he expects there to be sufficient capacity within the prison system to end the End of Custody Licence scheme. [268982]

Mr. Straw: End of Custody Licence (ECL) will be brought to end as soon as there is sufficient capacity within the prison system to do so. I set out a comprehensive strategy for managing the increasing prison population in December 2007 and we have been pursuing that strategy vigorously. We are monitoring the position carefully and will end the scheme when sufficient headroom exists.

Prisoners Release: Reoffenders

Mr. Garnier: To ask the Secretary of State for Justice how many offenders released under the Home Detention Curfew Scheme have re-offended while on a tag in each year since the scheme's commencement; and what offences were committed by such offenders. [265887]

Mr. Straw: Reoffending data in respect of offenders who are subject to the Home Detention Curfew are currently being audited. This exercise will be completed in May, when I will write to the hon. and learned Member, providing the information he has requested and will place a copy of the reply in the Library.

Prisoners: Females

John Battle: To ask the Secretary of State for Justice how many single mothers were in prison on the latest date for which figures are available; and if he will make a statement. [245431]

Maria Eagle: The National Offender Management Service does not routinely keep information on the number of prisoners who are single mothers.

Prisons: Alcoholic Drinks

Mr. Garnier: To ask the Secretary of State for Justice how many prisons in England and Wales have an alcohol strategy. [266595]

Mr. Straw: The National Alcohol Strategy for Prisoners was introduced in December 2004. The strategy provides a framework for addressing prisoners' alcohol-related problems. It balances treatment and support with supply reduction, and provides a benchmark against which prisons can formulate an appropriate strategy if there is a local need.

A survey of the estate shows that:

37[1] prisons/young offender institutions (YOIs) have a separate alcohol strategy;

97[1] prisons/YOIs have an integrated drug and alcohol strategy; and

five prisons do not have an alcohol strategy.

[1] Huntercombe YOI has a separate alcohol strategy and an integrated substance strategy for young people so is included in both sets of figures.

Four of the five prisons currently without an alcohol strategy are planning to develop one by 2009-10.

Prisons: Drugs

Mr. Ruffley: To ask the Secretary of State for Justice how many visitors to prisons were *(a)* suspected of, *(b)* banned for and *(c)* arrested for smuggling drugs into prison in 2007-08; and how many such visitors were on closed visits as a result of smuggling drugs into prison. [266832]

Mr. Hanson: In March 2008, the Government commissioned a report (the Blakey Review) into the effectiveness of measures to disrupt the supply of drugs into prisons, and all ten of the report's recommendations have been accepted and work has begun to implement them. This report and the Government's response were published on 7 July 2008.

The data on the actions taken in 2007-08 against visitors suspected of smuggling drugs are given in the following table. The Ministry of Justice do not keep records of the number of social visitors. From a very indicative calculation we estimate this to be at least three million social visits annually.

	Number
Number of visitors:	
Suspected[1]	3,296
Banned as a result	2,687
Made subject to closed visits instead of a ban	414
Made subject to closed visits following a ban	1,638
Not banned and not made subject to closed visits	195
Arrested in connection with these incidents	434

[1] Visitors are suspected of smuggling drugs in a number of ways, on a case by case basis. This can include prison or police intelligence concerning the visitor and/or the prisoner, drugs dog indications, drugs test results, suspicious behaviour or movements in the visits hall, or drugs being found in the possession of visitors during pre-entry searches.

The banning or placing on closed visits of a visitor is an administrative measure which can be imposed by a prison on the basis of suspicion but without the recovery of drugs. This level of suspicion would however be insufficient for a police arrest, which requires a higher standard of proof, often with the recovery of drugs.

Where drugs are recovered from visitors it is National Offender Management Service policy to refer the matter to the police.

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system. The data are not subject to audit.

Mr. Oaten: To ask the Secretary of State for Justice what methodology is used in the random selection of prisoners for drug testing. [268862]

Mr. Hanson: Names of those to be tested each month are generated at random by a computer programme contained within the Local Inmate Data System.

Prisons are required to conduct all random tests from the random list. In a number of closely defined circumstances a prisoner may not be available for test. Prisons are then required, in order to meet the monthly testing target, to draw in strict order additional prisoners from a reserve list.

Prisons: Finance

Mr. Grieve: To ask the Secretary of State for Justice what means will be used to finance the construction and operation of Titan prisons. [268806]

Mr. Straw: Finance issues relating to the construction and operation of the new prisons, will form part of our response to the consultation on these prisons. This response will be published shortly.

Prisons: Lancashire

Mr. Wallace: To ask the Secretary of State for Justice what discussions he has had in the last 12 months with Lancaster and Morecambe City Council on the construction of a Titan prison in the district; and if he will make a statement. [266039]

Mr. Hanson: No discussions have taken place with Lancaster and Morecombe city council in the last 12 months about the construction of new prisons in their districts.

Prisons: Mobile Phones

Mr. Garnier: To ask the Secretary of State for Justice what progress has been made on the provision of mobile telephone jammers for use in prisons in England and Wales. [269066]

Mr. Hanson: We have committed to take forward mobile phone signal blocking, as we indicated in the Government response to David Blakey's report, "Disrupting the Supply of Illicit Drugs into Prisons". We are working closely with the Home Office Scientific Development Branch to trial and evaluate a range of disruption technologies.

Disrupting mobile phones is one part of our three-tiered strategy to minimise the number of illicit mobile phones entering prison, and find and disrupt those that do enter. We are rolling out a range of technology to strengthen local searching and security strategies, including BOSS chairs for every prison which does not already have one, as recommended in the Blakey report.

Prisons: Standards

Dr. Murrison: To ask the Secretary of State for Justice which prisons participated in the most recent performance testing exercise; and if he will make a statement. [268761]

Mr. Hanson: The three prisons on the Isle of Sheppey (Elmley, Swaleside and Stanford Hill) were involved in the most recent performance testing exercise. Their proposals for improvement were accepted and a service level agreement was awarded to the Sheppey cluster from April 2006.

Probation

Mr. Grieve: To ask the Secretary of State for Justice whether he has issued guidance to the probation service on conducting unpaid work assignments in bad weather. [268774]

Mr. Straw: Probation areas are required under health and safety guidance to provide suitable clothing for staff and offenders when work is taking place outdoors. It is expected that offenders undertaking Community Payback will work outdoors in all but the most severe weather conditions.

Repossession Orders

Grant Shapps: To ask the Secretary of State for Justice how many repossession orders there were in each of the last 12 quarters for which figures are available. [268579]

Bridget Prentice: The latest quarterly figures on mortgage and landlord possession orders made in the county courts of England and Wales (from 2004 to 2008) are available on the Ministry of Justice website. Please see the tables on pages seven and nine of the following link:

http://www.justice.gov.uk/docs/stats-mortgage-landlord-qu4-2008.pdf

These figures do not indicate how many homes have actually been repossessed. Repossessions can occur without a court order being made while not all court orders result in repossession.

The civil procedure rules state that all claims for the repossession of land must be commenced in the district in which the land is situated. However, geographical boundaries of county courts may not necessarily be consistent with other administrative or constituency boundaries.

Social Security Benefits: Appeals

Mr. Crabb: To ask the Secretary of State for Justice what the average time taken by the Cardiff office of the Appeals Service was to review decisions on applications for *(a)* disability living allowance and *(b)* all benefits in the latest period for which information is available; and how many appeals submitted to that office for review were outstanding on 31 January 2009. [269510]

Bridget Prentice: In 2008-09 the average time taken by the First-tier Tribunal Social Security and Child Support (SSCS) office in Cardiff to review decisions on applications for *(a)* disability living allowance was 10.84 weeks and *(b)* all benefits was 11.85 weeks. The national target for SSCS appeals is to ensure that 75 per cent. of all appeals should receive a first hearing within 14 weeks of receipt. There were 9,455 appeals outstanding in the Cardiff office on 31 January 2009.

Mr. Crabb: To ask the Secretary of State for Justice what guidance his Department has issued to the Appeals Service on the maximum time for making determinations on appeals against decisions on disability living allowance applications. [269803]

Bridget Prentice: The Secretary of State for Work and Pensions is not responsible for setting performance targets for the tribunals service, as the tribunals service is an agency within the Ministry of Justice. The Tribunals Service Business Plan for 2008-2009 contained agreed strategic objectives, service delivery targets and performance indicators. The tribunal seeks to ensure that 75 per cent. of all social security appeals receive a first hearing within 14-weeks of receipt.

Television: Licensing

Mr. Burns: To ask the Secretary of State for Justice how many *(a)* prosecutions and *(b)* convictions for non-payment of the television licence fee there have been in West Chelmsford constituency in each of the last three years. [269073]

Maria Eagle: The number of defendants proceeded against at magistrates courts and found guilty at all courts for non-payment of the television licence fee in Essex police force area, 2005 to 2007 is shown in the following table.

Information held centrally cannot be further broken down to constituency level, hence Essex police force area data have been provided in lieu of West Chelmsford constituency.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in the autumn of 2009.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for non-payment of the television licence fee in Essex police force area, 2005-07[1, 2, 3]

	Proceeded against	Found guilty
2005	[4]—	[4]—
2006	3,114	2,793
2007	3,034	2,620

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The TV licensing provisions of the Wireless Telegraphy Act 1949 were replaced by new provisions in section 363 of the Communications Act 2003 which came into effect 1 April 2004.

[4] Following quality checks these data are not considered reliable enough for publication.

Evidence and Analysis Unit—Office for Criminal Justice Reform, Ministry of Justice

DUCHY OF LANCASTER

Age Concern: Finance

Rosie Cooper: To ask the Chancellor of the Duchy of Lancaster what funding his Department has *(a)* allocated to and *(b)* channelled through Age Concern in each of the last three years; for what purposes such spending has been incurred; and what steps his Department takes to monitor the value for money achieved from such spending. [268719]

Kevin Brennan: In the last three years the Office of the Third Sector has provided funding to three local Age Concern branches. The table shows the funding per year for the past three years:

£

Age Concern	2006-07	2007-08	2008-09	Total
Gateshead	24,793.70	25,727.95	25,727.95	76,249.60
Islington	11,216.80	44,867.20	44,867.20	100,951.20
North Tyneside	8,453.80	33,815.20	33,815.20	76,084.20
Total	44,464.30	104,410.35	104,410.35	253,285.00

This funding was provided as part of the Office of the Third Sector GoldStar volunteering and mentoring programme and was provided to these organisations to support their work to involve more volunteers. Each of the 46 organisations that received funding from the GoldStar programme were subject to regular monitoring visits. They were also required to submit accounting and progress reporting documentation each quarter.

Business

Mr. Hepburn: To ask the Chancellor of the Duchy of Lancaster how many medium-sized businesses there are in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK. [268416]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning how many medium-sized businesses there are in (a) Jarrow Constituency, (b) South Tyneside, (c) the North East and (d) the UK.

Annual statistics on business size and locations are available from the ONS release on UK Business: Activity, Size and Location. The following table contains the enterprise counts for 2008.

Count of Business 2008

	Employment Size Band (50-249)
United Kingdom	[illegible]
North East GOR	1,130
South Tyneside	45
Jarrow Constituency	30

Central Government: Public Relations

Mr. Hurd: To ask the Chancellor of the Duchy of Lancaster in what year the Central Office of Information established its list of accredited public relations companies for Government contracts. [257523]

Mr. Byrne: The information requested falls within the responsibility of the Central Office of Information. I have asked the chief executive to reply.

Letter from Peter Buchanan, dated April 2009:

As Acting Chief Executive of the Central Office of Information (COI), I have been asked to reply to your recent Parliamentary Question [257523] asking in what year the Central Office of Information established its list of accredited public relations companies.

The Central Office of Information established its first framework of accredited public relations companies in 1997.

Central Office of Information: Directories

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster with reference to the hon. Member for North East Hertfordshire of 26 March 2007, *Official Report*, columns 1348-49W, on departments: publications, if he will place in the Library a copy of the Central Office of Information's IPO Directory or equivalent publication for 1996. [258655]

Mr. Byrne: The information requested falls within the responsibility of the Central Office of Information. I have asked the chief executive to reply.

Letter from Peter Buchanan, dated April 2009:

As Acting Chief Executive of the Central Office of Information (COI), I have been asked to reply to your recent Parliamentary Question [258655] requesting a copy of the 1996 IPO directory published by the Central Office of Information.

A copy has been placed in the libraries of the House.

Central Office of Information: Expenditure

Mr. Hurd: To ask the Chancellor of the Duchy of Lancaster with reference to the answer to Lord Cope of Berkeley of 19 November 2008, *Official Report, House of Lords*, column 193WA, on the Central Office of Information: expenditure, for what reasons the figure of £265.8 million expenditure on public relations, marketing and advertising given in the Answer differs from the £391 million expenditure figure published in the Central Office of Information's Annual Report and Accounts for 2007-08; and if he will publish an expenditure figure for 1996-97 using the same methodology as used to calculate the figure in the 2007-08 document. [249011]

Mr. Byrne: The £265.8 million figure represents expenditure on public relations, marketing and advertising. The £391 million figure in the 2007-08 annual report is the total for all expenditure through COI, including for example costs relating to Directgov, public consultations, research, interactive services, publications and regional offices.

In 1996-97 the total expenditure through COI was £125.9 million. The expenditure on public relations, marketing and advertising, unadjusted for inflation, was £81.2 million.

The majority of the increased expenditure since 1996-07 is related to campaigns for public service recruitment, health and safety and new issues such as climate change. The largest campaigns over the last year have been on Army recruitment, RAF recruitment, Act On C02, Alcohol Harm Reduction, Obesity and Road Safety.

Charities

Rosie Cooper: To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the Charity Commission's regulatory case report on Age Concern England and its Heyday membership scheme; and what reports he has received of the Charity Commission's investigation into the Green Crescent Charity in Stockport. [268948]

Kevin Brennan: The Charity Commission's regulatory case report into Age Concern England and its Heyday membership scheme raises some wider issues for the charity sector. In particular, the report highlighted the importance of strong governance arrangements alongside accountability and transparency. The ongoing inquiry into Green Crescent is a matter for the Commission who notified us that they had opened an inquiry under section 8 of the Charities Act 1993. However, in accordance with its normal practice, the Commission will publish a statement of the results of the inquiry setting out its findings and any wider lessons once the inquiry is completed.

Jenny Willott: To ask the Chancellor of the Duchy of Lancaster how many charities have *(a)* opened and *(b)* closed in each (i) year since 2004 and (ii) month since January 2008; and if he will make a statement. [269357]

Kevin Brennan: The information requested falls within the responsibility of the Charity Commission. I have asked the Charity Commission to reply.

Letter from Andrew Hind, dated April 2009:

As the Chief Executive of the Charity Commission, I have been asked to respond to your question (269357) regarding the number of charities that have opened and closed each year since 2004 and each month since January 2008.

I attach below tables which set out the number of charities that registered with the Charity Commission and the number of charities that were removed from the Register for each year since 2004 and for each month since January 2008.

The tables below refer to those charities which are required to register with the Commission by law. Smaller charities are not required to register with us; the threshold for registration was an annual income of £1,000 for the periods shown by the tables until April 2008 when this threshold was increased to £5,000.

Charities are removed from the Register for a number of different reasons and the figures below are not directly representative of the number of charities that are wound down during any one period. The peak in removals seen in the figures for November 2008 represents the removal of dormant charities from the Register. Likewise the number of charity registrations is not directly representative of the number of charities that have been opened during any one period. For example charities that are opened with an annual income below the threshold do not have to register and other charities may only register when their income rises above this threshold.

	Removals	*Registrations*
2004	4,630	6,096
2005	4,094	5,169
2006	3,728	4,807
2007	4,024	4,686
2008	6,062	5,169

	Month	*Removals*	*Registrations*
2008	1	472	396
2008	2	353	479
2008	3	376	357
2008	4	316	543
2008	5	542	343
2008	6	418	465
2008	7	336	548
2008	8	300	354
2008	9	400	441
2008	10	500	420
2008	11	1,424	467
2008	12	625	356
2009	1	348	444
2009	2	573	574
2009	3	587	633

I hope this is helpful.

Charities: Finance

Mr. Bone: To ask the Chancellor of the Duchy of Lancaster what discussions he has had with the Chancellor of the Exchequer on the Government's response to the National Audit Office report on Capacitybuilders and Futurebuilders. [267957]

Kevin Brennan: I welcome the NAO report and its findings, and want to ensure that we continue to develop our approach to get the best value for money possible. I hope to work closely with colleagues from across Government to respond to any recommendations that the Public Accounts Committee may make, which will be informed by this report.

Rosie Cooper: To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the implications of the findings of the Charity Commission in its recent report on Age Concern for his Department's *(a)* policies affecting and *(b)* funding channelled through the charity sector. [268718]

Kevin Brennan: The Charity Commission's regulatory case report into Age Concern England and its Heyday membership scheme raised some wider issues for the charity sector. In particular, the report highlighted the importance of strong governance arrangements alongside accountability and transparency. The Office of the Third Sector promotes good governance in the third sector, for example through the leadership and governance workstream of Capacitybuilders' National Support Services Programme. In relation to the Department's funding of the charity sector, appropriate controls and monitoring arrangements are in place both before any grant funding is awarded, and for the duration of any funding agreement.

Rosie Cooper: To ask the Chancellor of the Duchy of Lancaster if he will make an assessment of the adequacy of financial controls in those charitable organisations through which his Department channels funding. [268720]

Kevin Brennan: All organisations receiving grant funding directly from the Office of the Third Sector are required to complete an Internal Financial Controls Checklist for Charities provided by the Charity Commission

www.charitycommission.gov.uk

and provide three references. The checklist ensures that any organisation receiving funding has secure financial controls in place.

Funding agreements with organisations are monitored on an on-going basis as per the terms and conditions of the particular agreement in place.

Rosie Cooper: To ask the Chancellor of the Duchy of Lancaster if he will take steps to increase the level of monitoring undertaken by the Charity Commission of the use by charitable organisations of the donations which they receive. [268721]

Kevin Brennan: As the independent regulator of charities in England and Wales, the Charity Commission is not subject to ministerial direction or control. The Commission's statutory objectives were recently reviewed and updated in the Charities Act 2006. This included increasing public confidence in charities, promoting compliance by charity trustees with their legal obligations in exercising control and management of the administration of their charities, promoting the effective use of charitable resources and enhancing the accountability of charities to donors, beneficiaries and the general public. The Commission has wide powers of intervention where there is evidence of misconduct or mismanagement. It operates a risk-based approach to the regulation of charities. This is set out in its published Risk and Proportionality Framework, and I have placed a copy in the House Library.

Charities: Standards

Rosie Cooper: To ask the Chancellor of the Duchy of Lancaster if he will bring forward proposals to improve standards of governance in charitable organisations. [268949]

Kevin Brennan: Charity trustees are already subject to a number of legal duties and obligations. The Charity Commission provides a range of advice, guidance and support to help charity trustees meet their legal obligations and strengthen their governance arrangements. The Government also continues to support the development of resources and learning to promote high standards of governance in the sector, for example through the governance and leadership workstream of Capacitybuilders' National Support Services.

Departmental Buildings

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how much the Cabinet Office spent on works and refurbishment to offices allocated to Ministers in departmental buildings in the last 12 months. [252418]

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster what minor works have been undertaken in Downing Street *(a)* offices and *(b)* ministerial residences in the last year for which audited figures are available. [252424]

Kevin Brennan: I refer to the answer given by my right hon. Friend the Prime Minister on 13 March 2009, *Official Report*, column 801W.

Departmental Internet

Grant Shapps: To ask the Chancellor of the Duchy of Lancaster what budget has been assigned to his Department's Real Help Now website for each of the next three years; and whether other Government Departments have provided funding. [259523]

Mr. Byrne: The Real Help Now website brings together information about the range of support available during the economic downturn and makes it easier for people and businesses to access that support.

The development budget for the site in this financial year (2008-09) was less than £10,000 and falls within the existing Cabinet Office communications budget. Ongoing maintenance costs for the site will form part within the Cabinet Office communications budget which is yet to be agreed for the next three years. No other Departments have provided funding.

Departmental Public Expenditure

Dr. Cable: To ask the Chancellor of the Duchy of Lancaster what his latest estimate is, of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268113]

Kevin Brennan: Capital expenditure in 2008-09, 2009-10 and 2010-11 is currently projected to be £53.896 million, £50.471 million and £51.387 million respectively. 2011-12 is outside the current comprehensive spending review period and an estimate of expenditure is not available.

Departmental Security

Nick Harvey: To ask the Chancellor of the Duchy of Lancaster what access independent security assessors appointed to review the security function of his Department have to his Department's premises. [267978]

Kevin Brennan: The Department ensures that all personnel engaged in providing a security advisory role have the relevant and appropriate access to perform their function.

Employment

Mr. Hepburn: To ask the Chancellor of the Duchy of Lancaster how many people have been employed in the medium-sized business sector in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [268376]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning how many people have been employed in the medium-sized business sector in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. (268376)

The table below show the number of employees within the size-band 50-199 employees from 1998 to 2007. Figures for 1997 are not available.

Number of employees in the employee size-band 50-199

	Jarrow constituency	*South Tyneside*	*North East*	*England*
1998	4,700	11,200	230,400	4,925,500
1999	4,400	10,400	225,600	4,871,200
2000	4,900	10,000	234,300	5,113,000
2001	4,800	11,000	242,100	5,247,700
2002	4,800	10,000	246,700	5,251,500
2003	5,700	11,600	257,000	5,333,100
2004	6,100	11,900	250,600	5,422,300
2005	6,800	12,700	266,400	5,453,000
2006	6,100	10,900	247,300	5,333,000
2007	6,600	11,000	246,400	5,369,500

Note:

Estimates for 2005 and earlier period are on a different basis to those from 2006 onwards. A preliminary assessment of changes in survey methodology suggests that the estimated total number of employees (for GB at the whole economy level) was reduced by around 1 per cent. Direct comparisons of employee estimates should therefore be treated with caution.

Source:

Annual Business Inquiry

Mr. Hepburn: To ask the Chancellor of the Duchy of Lancaster how many people have been employed in the small business sector in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997. [268415]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning how many people have been employed in the small business sector in (a) Jarrow constituency, (b) South Tyneside, (c) the North Hast and (d) the UK in each year since 1997.

The following table show the number of employees within the size-band 0-49 employees from 1998 to 2007. Figures for 1997 are not available.

Number of employees in the employee size-band 0-49

	Jarrow constituency	South Tyneside	North East	GB[1]
1998	9,800	20,300	429,800	11,200,100
1999	10,100	20,600	422,500	11,329,800
2000	10,600	21,600	423,300	11,581,100
2001	10,300	21,000	424,800	11,611,400
2002	10,600	21,300	436,400	11,679,400
2003	10,500	20,700	433,000	11,640,500
2004	10,600	20,700	430,800	11,708,600
2005	11,400	22,700	430,900	11,982,800
2006	10,900	20,900	442,700	11,832,600
2007	10,900	21,000	433,600	11,894,000

[1] Figures from the annual business inquiry are only produced for Great Britain.

Annual Business Inquiry

Estimates for 2005 and earlier period are on a different basis to those from 2006 onwards. A preliminary assessment of changes in survey methodology suggests that the estimated total number of employees (for GB at the whole economy level) was reduced by around 1%. Direct comparisons of employee estimates should therefore be treated with caution.

Mr. Amess: To ask the Chancellor of the Duchy of Lancaster how many *(a)* private and *(b)* public sector employees there were in each month since September 2008. [268441]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell:

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning how many *(a)* private sector and *(b)* public sector employees there were in each month since September 2008. (268441)

The Office for National Statistics produces estimates of employment for the whole economy from the Labour Force Survey (published monthly), and for the public sector through the quarterly Public Sector Employment surveys. Private sector employment estimates are derived as the difference between Labour Force Survey and public sector employment totals. It is important to acknowledge, as with any sample survey, estimates from the Labour Force Survey are subject to a margin of uncertainty.

Private and public sector employment estimates are updated on a quarterly (3-monthly) basis alongside the publication of the Public Sector Employment First Release. The latest available statistics are for December 2008 (Quarter 4).

The requested data are attached at Annex A.

Annex A: Public and private sector employment: United Kingdom, (thousand) seasonally adjusted

		Public sector[1,2,3,4]		Private sector[4,5]		Total employment[6,7]
		Thousand	Percentage	Thousand	Percentage	Thousand
All in employment	September 2008	5,770	19.6	23,610	80.4	29,380
	December 2008	5,780	19.7	23,600	80.3	29,380

[1] Estimates derived from public sector organisations.

[2] Estimates for Northern Ireland included in the UK total are sourced from the Quarterly Employment Survey and are based on jobs rather than employees.

[3] Estimates for December 2007 onwards are based partly on projections.

[4]. Northern Rock Plc was reclassified for statistical purposes from the private to the public sector on 9 October 2007.

[5] Estimated as the difference between LFS total employment and the data from public sector organisations.

[6] LFS data for September refers to August-October and December refers to November-January.

[7] Labour Force Survey employment; All aged 16 and over, seasonally adjusted.

Note:

Details of the sampling variability of national Labour Force Survey estimates are included each month in the Labour Market Statistics First Release, available on www.statistics.gov.uk

Office for National Statistics (ONS) Labour Force Survey and returns from public sector organisations

Fires: Children

Derek Twigg: To ask the Chancellor of the Duchy of Lancaster how many children died in house fires in each year since 2001. [269307]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent question asking how many children died in house fires in each year since 2001. (269307)

The attached table provides the number of deaths of children aged under 16 years who died from smoke, fire or flames in the home, in England and Wales, from 2001 to 2007 (the latest year available).

Number of deaths of children[1] with an underlying cause of smoke, fire or flames in the home[2], England and Wales[3], 2001-07[4]

	Deaths
2001	24
2002	30
2003	30
2004	20
2005	24
2006	25
2007	15

[1] For the purposes of mortality statistics, children are defined as persons under the age of 16. Figures exclude deaths at ages under 28 days.

[2] The cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X00-X09, X76, X97 and Y26 where the death occurred in a private home. These include deaths given a verdict of accident, assault, suicide or undetermined intent.

[3] Figures for England and Wales include deaths of non-residents.

[4] Figures are for deaths registered in each calendar year.

History: Publications

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster what consideration is being given to new subjects for an official history; and if he will make a statement. [268612]

Kevin Brennan: We are conducting an internal review into selection and production for the Government's Official History Programme. The review will be concluded by the summer.

Immigrants: Employment

Mrs. Curtis-Thomas: To ask the Chancellor of the Duchy of Lancaster what estimate the Office for National Statistics has made of the number and proportion of the working population which are *(a)* legal and *(b)* illegal migrants. [269154]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to respond to your question concerning what estimate the Office for National Statistics has made of how many and what proportion of the working population are (a) legal and (b) illegal migrants (269154).

The Office for National Statistics collects data on the working population from the Annual Population Survey which covers residents of the UK. However this does not collect information on the legal status of workers.

On 30 June 2005 the Home Office published the outcome of the assessment of the applicability to the UK of the methods used by researchers and government agencies in other countries to estimate the size of the illegal population. A copy of the Research Development Statistics (RDS) On-line report 29/05—"Sizing the unauthorised (illegal) migrant population in the United Kingdom in 2001" can be found at:

http://rds.homeoffice.gov.uk/rds/pdfs05/rdsolr2905.pdf

Manufacturing Industries: Employment

Mr. Burns: To ask the Chancellor of the Duchy of Lancaster how many jobs in the manufacturing sector there were in *(a)* West Chelmsford constituency, *(b)* Essex and *(c)* England in each of the last 10 years. [269093]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning how many jobs in the manufacturing sector there were in (a) West Chelmsford constituency, (b) Essex and (c) England in each of the last 10 years. (269093)

Table 1 shows the number of employees in the manufacturing sector for 1998 to 2007, which is the latest available period. The figures are from the Annual Business Inquiry which produces estimates of the number of employees. These figures exclude self employed jobs. An estimate of jobs is not available at the detailed regional level requested.

Table 1: Number of employees in the manufacturing sector, 1998 to 2007

	West Chelmsford constituency	Essex	England
1998	5,100	75,900	3,504,700
1999	5,300	69,800	3,395,500
2000	4,300	73,500	3,279,500
2001	4,500	71,200	3,121,000
2002	4,900	68,700	2,965,600
2003	4,900	63,800	2,807,100
2004	4,500	63,100	2,665,400
2005	4,800	61,300	2,549,700
2006	4,400	56,800	2,485,000
2007	3,800	52,900	2,439,100

Notes:

1. Estimates for 2002 and earlier periods are based on SIC(92). Estimates for 2003 onwards are based on SIC(03).
2. Estimates for 2005 and earlier periods are on a different basis to those from 2006 onwards. A preliminary assessment of changes in survey methodology suggests that the estimated total number of employees (for GB at the whole economy level) was reduced by around 1 per cent. Direct comparisons of employee estimates should therefore be treated with caution.

Annual Business Inquiry.

Opinion Leader Research: Complaints

Norman Baker: To ask the Chancellor of the Duchy of Lancaster (1) when the Central Office of Information was first informed by Opinion Leader Research about the complaint against Opinion Leader Research made to the Market Research Standards Board by Greenpeace; [267088]

(2) whether the Central Office of Information has been involved in any submissions to the Market Research Standards Board made by or on behalf of Opinion Leader Research; and whether it has made submissions to the Market Research Standards Board regarding Greenpeace's complaint against Opinion Leader Research; [267089]

(3) whether the Central Office of Information has made representations to *(a)* Opinion Leader Research and *(b)* the Market Research Standards Board (MRSB) on the (i) timing and (ii) publication of the MRSB's decision about Greenpeace's complaint against Opinion Leader Research; [267090]

(4) how many meetings took place between the Central Office of Information and *(a)* Opinion Leader Research and *(b)* the Market Research Standards Board in relation to Greenpeace's complaint against Opinion Leader Research; on what dates those meetings took place; and who attended each meeting. [267091]

Mr. Byrne: The information requested falls within the responsibility of the Central Office of Information. I have asked the chief executive to reply.

Letter from Peter Buchanan, dated March 2009:

As Acting Chief Executive of the Central Office of Information (COI), I have been asked to reply to your recent Parliamentary Questions [267088, 267089, 267090 and 267091] on a complaint made against Opinion Leader Research.

The Central Office of Information was first made aware by Opinion Leader Research of the complaint made against them to the Market Research Standards Board by Greenpeace on the 19 September 2007.

The Central Office of Information has made two submissions to the MRSB regarding Greenpeace's complaint against Opinion Leader Research. At the request of Opinion Leader Research, the Central Office of Information also provided information and comments on their submissions.

The Central Office of Information made no representations to Opinion Leader Research or the Market Research Standards Board about the timing or publication of the decision about Greenpeace's complaint.

The Central Office of Information had two meetings with Opinion Leader Research and BERR on 17 October 2007 and 28 February 2008. The following attended these meetings Hergen Haye, Fiona Wood and Brian Parry. The meetings also included other junior officials from both BERR and the Central Office of Information. The Central Office of Information also attended a meeting between Opinion Leader Research and the Market Research Standards Board on 22 October 2007. Fiona Wood attended this meeting on behalf of the Central Office of Information.

Regional Ministers

Andrew Mackinlay: To ask the Chancellor of the Duchy of Lancaster whether the Permanent Secretary of his Department has authorised expenditure on travel costs for the Parliamentary assistants to *(a)* the Minister for the West Midlands and *(b)* the Minister for London in accordance with the circumstances envisaged in the Cabinet Secretary's letter to Permanent Secretaries of 2 December 2008. [267156]

Mr. Byrne: No travel costs have been incurred by the Cabinet Office for the Parliamentary Assistant to the Minister for the West Midlands. The Minister for London is not a Minister in the Cabinet Office.

Andrew Mackinlay: To ask the Chancellor of the Duchy of Lancaster what steps the Cabinet Secretary has taken to inform the Director of the Government Office in each region of the provisions of his letter to Permanent Secretaries of 2 December 2008 in respect of the circumstances in which a Department may pay the travel costs of a Parliamentary assistant to a Regional Minister; and if he will make a statement. [267161]

Mr. Byrne: The Cabinet Secretary's letter of 2 December 2008 to permanent secretaries was copied to regional directors of the Government offices.

Somalia

Mr. Fallon: To ask the Chancellor of the Duchy of Lancaster how many Somali citizens are resident in the UK. [269752]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to respond to your question concerning how many Somali citizens are currently resident in the United Kingdom. (269752)

The Office for National Statistics collects data on nationality from the Annual Population Survey, which is the Labour Force Survey (LFS) plus various sample boosts, which covers residents of the UK. The latest estimates available are for the 12 month period of July 2007 to June 2008, these show that the estimated number of UK residents with Somalian nationality was 71,000. The margin of error around this estimate is +/- 11,000. It should be noted that the LFS:-

excludes students in halls who do not have a UK resident parent

excludes people in most other types of communal establishments (e.g. hotels, boarding houses, hostels, mobile home sites, etc)

is grossed to population estimates of those living in private households that only include migrants staying for 12 months or more.

Unemployment

Mr. Blunkett: To ask the Chancellor of the Duchy of Lancaster how many people were *(a)* claiming jobseeker's allowance and *(b)* unemployed according to the International Labour Organisation definitions in each quarter since 1979. [268743]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many people were (a) claiming jobseeker's allowance and (b) unemployed according to the International Labour Organisation survey in each quarter since 1979. (268743)

The Office for National Statistics (ONS) compiles unemployment statistics from the Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions.

Table 1 shows the number of people who were unemployed in each quarter since 1979. It also shows the number of persons who were claiming Jobseeker's Allowance and its predecessors adjusted on a consistent basis.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty, shown in a footnote to the table.

Table 1: Number of persons unemployed or claiming jobseeker's allowance

[1] Coefficients of Variation have been calculated for the latest period as an indication of the quality of the estimates. See Guide to Quality as follows.

Guide to Quality:

The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an estimate of 200 with a CV of 5 per cent. we would expect the population total to be within the range 180-220.

KEY Coefficient of Variation (CV) (percentage) Statistical Robustness

* 0 = CV ≤5 Estimates are considered precise.

** 5 = CV ≤ 10 Estimates are considered reasonably precise.

*** 10 = CV ≤ 20 Estimates are considered acceptable.

**** CV = 20 Estimates are considered too unreliable for practical purposes.

Labour Force Survey/Jobcentre Plus administrative system

Unemployment: Bournemouth

Mr. Ellwood: To ask the Chancellor of the Duchy of Lancaster how many people resident in Bournemouth were unemployed in each of the last 10 years. [269063]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many people resident in Bournemouth were unemployed in each of the last 10 years. (269063)

The Office for National Statistics compiles unemployment statistics for local areas using model based estimates based on Annual Population Survey and administrative data.

Table 1 gives estimates for Bournemouth for 12 month periods ending February, from 1997 to 2004, and for 12 month periods ending March, from 2005 to 2008. The latest available estimate, for the 12 months ending June 2008, has also been provided.

These estimates, as with any involving sample surveys, are subject to a margin of uncertainty.

Table 1: Number of unemployed persons aged 16 and over, resident in Bournemouth

ONS Model based estimates

Unemployment: Statistics

Paul Rowen: To ask the Chancellor of the Duchy of Lancaster (1) what account the figures on unemployment produced by the Office for National Statistics take of individuals participating in New Deal schemes operated by the Department for Work and Pensions; [268722]

(2) whether those participating in the *(a)* Work Trial, *(b)* Workstep, *(c)* Work Preparation, *(d)* Work Path, *(e)* Employment Zones and *(f)* Progress2Work programme are classified as unemployed for the purposes of unemployment statistics. [268685]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking:

what account the figures on unemployment produced by the Office for National Statistics take of individuals participating in New Deal schemes operated by the Department for Work and Pensions. (268722):

whether those participating in the (a) Work Trial, (b) Workstep, (c) Work Preparation, (d) Work Path, (e) Employment Zones and (f) Progress2Work programme are classified as unemployed for purposes of unemployment statistics. (268685).

Estimates of unemployment published in the monthly Labour Market Statistics First Release are derived from the Labour Force Survey (LFS).

The definition of unemployment follows that recommended by the International Labour Organisation (ILO)—an agency of the United Nations. In the LFS, people are classified as unemployed if:

(a) they consider themselves to be without a job, want a job, and report that they have actively sought work in the last four weeks and are available to start work in the next two weeks; or

(b) they report that they are out of work, have found a job and are waiting to start it in the next two weeks.

This ILO internationally-standard definition is applied in the LFS so that people are defined as unemployed purely on the basis of their behaviour in the labour market. Therefore the definition of unemployment is independent of someone's participation on any training scheme. Consequently, people on such schemes who satisfy the above criteria will be classified as unemployed and others will not.

Voluntary Organisations

Tony Baldry: To ask the Chancellor of the Duchy of Lancaster what the procedures are for people in Oxfordshire to access the volunteer brokerage scheme for unemployed people. [262952]

Mr. McNulty: I have been asked to reply.

We believe that volunteering alongside looking for work can help to develop useful skills for work and keep jobseekers in touch with the labour market. As long as jobseekers are available for and actively seeking work, they can take part in unlimited volunteering work.

Jobcentre Plus has over 2,400 partnerships with local third sector organisations across the country. These complement the service Jobcentre Plus offers, providing customers access to additional advice and support. Personal advisers in Oxfordshire have five main websites that they use and share with customers who would benefit from doing voluntary work. They are: Oxfordshire Community and Voluntary Action (OCVA), Oxford Radcliffe Hospital Volunteers, Smart, Do-it and the Oxfordshire county council website.

In addition to these existing partnerships, new measures to encourage volunteering as a means of developing skills for work are being introduced as part of the jobseeker's support at six months package from April 2009. Through this package, those who have been unemployed and claiming jobseeker's allowance for six months or more will have access to a range of support including recruitment subsidies, work-focused training, help to start a new business and access to work-focused volunteering placements delivered through third sector partners.

Jobseekers who have been claiming Jobseeker's Allowance for six months and would like to volunteer to maintain or develop their skills for work can discuss with their Jobcentre Plus personal adviser how they can make use of the extra support on offer from April 2009.

Voluntary Organisations: Job Creation

Jenny Willott: To ask the Chancellor of the Duchy of Lancaster (1) how many new jobs were created in the third sector in *(a)* each year since 2004 and *(b)* each month since January 2008; and if he will make a statement; [269358]

(2) how many jobs there were in the third sector in each *(a)* year since 2004 and *(b)* month since January 2008; and if he will make a statement. [269359]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking:

how many jobs there were in the third sector in (a) each year since 2004 and (b) each month since January 2008; and if she will make a statement. (269359)

how many new jobs were created in the third sector in (a) each year since 2004 and (b) each month since January 2008; and if she will make a statement. (269358)

Information on the number of jobs in the third sector is not available centrally. However, quarterly estimates on those aged 16 and over employed in charities, voluntary organisations and trusts can be provided for 2007 and 2008. These are shown in the attached table. Monthly estimates are not available.

The estimates are derived from the Labour Force Survey. As with any sample survey, estimates from the LFS are subject to a margin of uncertainty. This is indicated in the table.

The figures in the table are derived from the LFS microdata, weighted using the official population estimates published in autumn 2007. They are not entirely consistent with employment figures published in the current monthly Labour Market Statistics First Release, which are weighted using more up-to-date population estimates.

People aged 16 and over employed by charities, voluntary organisations and trusts Quarter 4 2004 to 2007; all calendar quarters from quarter 1 2008 to quarter 4 2008 United Kingdom, not seasonally adjusted

	People (thousand)
2004 Q4	624
2005 Q4	630
2006 Q4	668
2007 Q4	671

People aged 16 and over employed by charities, voluntary organisations and trusts Quarter 4 2004 to 2007; all calendar quarters from quarter 1 2008 to quarter 4 2008 United Kingdom, not seasonally adjusted

	People (thousand)
2008 Q1	701
2008 Q2	721
2008 Q3	724
2008 Q4[1]	*716

[1] Coefficients of Variation have been calculated as an indication of the quality of the estimates, as described below:
Guide to Quality:
The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an estimate of 200 with a CV of 5 per cent. we would expect the population total to be within the range 180-220.
Key Coefficient of Variation (CV) (%) Statistical Robustness
* 0 = CV≤5 Estimates are considered precise
** 5 = CV ≤10 Estimates are considered reasonably precise
*** 10 = CV ≤20 Estimates are considered acceptable
**** CV 20 Estimates are considered too unreliable for practical purposes
It should be noted that the above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites etc.).

ONS Labour Force Survey

TREASURY

Bank Services

Jenny Willott: To ask the Chancellor of the Exchequer what his Department's latest estimate is of the number and proportion of working age people *(a)* in each age group and *(b)* in total without a bank account in the UK; and if he will make a statement. [269348]

Ian Pearson: The Government are committed to reducing financial exclusion and increasing the number of people who can manage their money by using a bank account.

The Family Resources Survey data for 2006-07, published in June last year, shows that the number of adults living without access to a bank account fell from 2.8 million in 2002-03 to 2.1 million in 2006-07.

The Financial Inclusion Taskforce recently published their third annual report on access to banking. The report contains profiles of the number of people in the UK without access to a bank account, including breakdowns by age. You can find the report on the Taskforce's website:

http://www.financialinclusion-taskforce.org.uk

Banks: Finance

Mr. Hoban: To ask the Chancellor of the Exchequer (1) with reference to his Department's press notice of 19 January 2009 on the Asset Protection Scheme, what the agreed *(a)* principles and *(b)* guidelines for managing assets under the terms of the Asset Protection Scheme are; [264391]

(2) what documents were supplied by participants in the Asset Protection Scheme relating to the implementation, administration and compliance with the applicable remuneration policy; and if he will place in the Library a copy of each such document; [264392]

(3) what criteria will be used to assess whether participants have a credible senior management team. [264421]

Ian Pearson: Further details on the operation of the Asset Protection Scheme, including the management and governance of protected assets, and remuneration arrangements for the managers of protected assets, are set out in the document on the Asset Protection Scheme that the Chancellor placed in the House Library on 27 February.

Jim Cousins: To ask the Chancellor of the Exchequer whether bank assets under the asset loan guarantee scheme will be required to be on a balance sheet; what other requirements will apply to methods of accounting for them; and whether the accountancy treatment of such assets will be agreed with the Financial Reporting Council and the Accountancy Standards Board. [264721]

Ian Pearson: Assets are required to remain on the participant's balance sheet at all times in order to be protected under the Asset Protection Scheme.

The banks participating in the Asset Protection Scheme will continue to be required to comply with international financial reporting standards.

Dr. Cable: To ask the Chancellor of the Exchequer what steps his Department has taken to ensure compliance with section 26 of Appendix A to the document on the UK Asset Protection Scheme; and if he will make a statement. [268078]

Ian Pearson: Institutions participating in the Asset Protection Scheme will be required to comply with asset management requirements prescribed by HMT.

More detail on the requirements will be set out in the Accession Agreements with the participating banks, when the due diligence process has been completed.

Banks: International Cooperation

Jim Cousins: To ask the Chancellor of the Exchequer who the UK members are of the UK-US working group to develop proposals to monitor and regulate the banking system; what the terms of reference of the group are; and on how many occasions it has met. [264722]

Ian Pearson: The UK is working closely with its international partners through the G20 to strengthen regulation and supervision of the financial system. The G20 has established working groups to develop recommendations on means of strengthening transparency and accountability, enhancing sound regulation, strengthening prudential regulation, promoting integrity in financial markets, and reinforcing international co-operation.

G20 Finance Ministers and Central Bank Governors met in March 2009 and agreed measures to address these issues, which were discussed by Leaders at the London Summit on 2 April.

Banks: Ireland

Derek Conway: To ask the Chancellor of the Exchequer what safeguard measures have been agreed with his Irish counterpart on the removal of Financial Services Authority cover for UK Anglo-Irish bond holders; and if he will make a statement. [266139]

Ian Pearson: UK depositors (including retail bond holders) with Anglo Irish Bank are protected by the Irish Deposit Guarantee Scheme up to €100,000 (c£90,000), and by an additional temporary, unlimited, Irish Sovereign Guarantee until 2010. The Deposit Guarantee limit in Ireland was raised from €20,000 to €100,000 per depositor per institution on 21 September 2008. As this is higher than the protection offered by the UK deposit protection scheme (the Financial Services Compensation Scheme FSCS), Anglo Irish Bank has withdrawn from 'topping-up' its deposit protection to the level applicable in the UK. Under the old topping up arrangements, the FSCS would compensate retail depositors for deposits between €20,000 and £35,000 (£50,000 from 8 October 2008).

Banks: Regulation

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer if he will introduce legislation to require all banks regulated by the Financial Services Authority to publish an annual table showing their assets, liabilities, income, expenses, profits, employees and taxes for each jurisdiction that they operate in. [260404]

Ian Pearson: The legal framework of the Companies Act and accounting standards stipulate the information that companies are required to report for the benefit of their shareholders.

Under the provisions of the Companies Act 2006, all UK companies (including financial services companies) are required to file annual accounts at Companies House. These accounts are a report of the company's activities and performance during the financial year.

The Companies Act 2006 imposes a specific obligation on the directors of a company to satisfy themselves that the accounts give a true and fair view of the assets, liabilities, financial position and profit or loss of the company taking account of income and expenses in respect of that financial year.

Banks which report their accounts on the basis of UK generally accepted accounting principles or international financial reporting standards are required to show their financial position and results split by geographical area.

In the case of a company not subject to the small companies regime, the average number of persons employed by the company in the financial year must be given in notes to the company's annual accounts.

Under financial reporting standard 16, a company must report its current tax for the period in its profit and loss account.

Capital Gains Tax

Dr. Cable: To ask the Chancellor of the Exchequer if he will estimate the cost to the Exchequer of exempting from capital gains tax business owners who sell their businesses upon retirement up to the value of *(a)* £100,000, *(b)* £200,000, *(c)* £300,000, *(d)* £400,000, *(e)* £500,000 and *(f)* £1,000,000 in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [269044]

Mr. Timms: The cost to the Exchequer would depend on how the exemption interacted with entrepreneurs' relief.

Carbon Emissions: Costs

Dr. Whitehead: To ask the Chancellor of the Exchequer what benchmark financial cost per tonne of carbon dioxide emissions saved he uses when appraising expenditure on greenhouse gas abatement measures. [267635]

Angela Eagle: Supplementary guidance to the Treasury Green Book explains how greenhouse gas emissions are valued in policy appraisal. The guidance is available at:

http://www.defra.gov.uk/Environment/climatechange/research/carboncost/index.htm

Clemmow Hornby Inge Partners

Norman Baker: To ask the Chancellor of the Exchequer what value for money assessment *(a)* his Department and *(b)* UK Financial Investments carried out before the Royal Bank of Scotland awarded its retail advertising account to Clemmow Hornby Inge partners. [267779]

Angela Eagle *[holding answer 30 March 2009]*: Advertising contracts are a matter for the RBS board.

Council of Economic Advisers

John Mason: To ask the Chancellor of the Exchequer how many times the Council of Economic Advisers has met; when it last met; who the members of the Council are; how many civil servants attended each meeting of the Council; and how much the Council has spent on *(a)* travel, *(b)* hospitality and *(c)* other expenses since June 2007. [268857]

Angela Eagle: The Prime Minister provides Parliament with details of special advisers through an annual written ministerial statement. This includes members of the Council of Economic Advisers, who are appointed on special adviser terms.

The terms of reference for the Council of Economic Advisers are:

> "To advise the Chancellor of the Exchequer on the design and implementation of policies for the achievement of the Government's economic objectives."

In meeting these terms of reference, the Council meets regularly on an informal basis.

Details of the Treasury's administration costs spending is published in the resource accounts and the departmental report, copies of which are available in the Library and via:

www.hm-treasury.gov.uk

Departmental Carbon Emissions

Greg Clark: To ask the Chancellor of the Exchequer for how long his Department has followed the Carbon Trust's Carbon Management programme. [269279]

Angela Eagle: I refer the hon. Member to the answer given on 1 November 2005, *Official Report*, column 978W, to the hon. Member for North Norfolk (Norman Lamb).

Departmental Data Protection

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer with reference to the answer of 21 July 2008, *Official Report*, column 716W, on Departmental ICT, for what reasons his Department's IT systems and services are not accredited as conforming to the ISO 27001 standard; and what assessment he has made of the effect on data security of compliance with the standard. [268140]

Angela Eagle: HM Treasury's IT systems and services have recently been accredited in line with HMG standards, which closely conform to ISO 27001.

Departmental Mobile Phones and Computers

Mr. Hoban: To ask the Chancellor of the Exchequer (1) how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005; [268256]

(2) how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since 2005; and at what cost; [268273]

(3) how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [268296]

Angela Eagle: HM Treasury no longer holds records of portable computers, BlackBerry and other mobile phone devices made available for the use of individuals prior to the creation of a shared IT service for HM Treasury and the Office of Government Commerce (OGC) in April 2007.

Details of the dates of purchase of individual computers and mobile telephony devices are not available. Since 2007, a total of 472 laptop computers have been purchased centrally for use within HM Treasury, at a total cost of £270,000. Of these, three laptops are currently made available for the use of Government Ministers, and one for the use of a special adviser.

There are also currently 207 BlackBerry devices in use across HM Treasury, including three by Ministers and five by special advisers. The total number of other mobile telephony devices is not available.

The Treasury does not record the costs of acquiring or using BlackBerry devices (being all-in-one mobile phones, email devices, web browsers and organisers) or similar devices separately from other telecommunications costs, so the information could be provided only at disproportionate cost.

Departmental Training

Mr. Amess: To ask the Chancellor of the Exchequer how many of his Department's officials of each grade attended a training course overseas paid for by his Department in each month since 2007; what his policy is on officials attending overseas training courses; and if he will make a statement. [268507]

Angela Eagle: Disaggregated information on training courses attended by Treasury officials is not held centrally and could be obtained only at disproportionate cost.

The Treasury's central records show that four officials attended training with an overseas component in the period concerned: two directors and a deputy director participated in a National School of Government leadership programme, and in addition, the Treasury sponsored one range D (SEO /HEO equivalent) to undertake a masters degree in economics.

Excise Duties: Motor Vehicles

Mr. Greg Knight: To ask the Chancellor of the Exchequer what assessment he has made of the effect of the planned 2010 changes to vehicle excise duty affecting purchases of new models of cars on automotive sales in *(a)* 2010 and *(b)* the next five years; and if he will make a statement. [263390]

Angela Eagle *[holding answer 16 March 2009]*: Pre-Budget report 2008 confirmed that differential first year rates of vehicle excise duty (VED) would be introduced in 2010, in order to provide a stronger signal of vehicle emissions at the point of sale.

As a result of these changes the Treasury expects sales of lower-emitting cars to increase and sales of higher-emitting cars to decrease. The Treasury does not hold data in relation to specific models of new cars and does not make assessments for specific models.

Vehicle excise duty reforms will continue to incentivise the purchase of lower-emitting cars in future years, helping to deliver the long-term EU target of average new cars' emissions of 95 grams per kilometre by 2020. It is estimated that by 2020 around one million tonnes of carbon dioxide will be saved as a result of changes to VED rates and bands announced at pre-Budget report 2008.

Financial Institutions: Credit

Mr. Philip Hammond: To ask the Chancellor of the Exchequer (1) what his estimate is of the proportion of *(a)* mortgage and *(b)* credit card lending carried out by non-bank lending institutions in each of the last three financial years; [268378]

(2) what meetings *(a)* he and *(b)* Ministers in his Department have had with (i) non-bank lending institutions and (ii) organisations representative of non-bank lending organisations in the last 12 months; and on what date each such meeting took place. [268379]

Ian Pearson: I refer the hon. Member to my response on 3 March 2009, *Official Report*, column 1420W, to the hon. Member for Solihull (Lorely Burt).

Fred Goodwin

Mr. Dai Davies: To ask the Chancellor of the Exchequer if he will request UK Financial Investments to take steps to cancel the private security agreement paid by the Royal Bank of Scotland for the private home of Sir Fred Goodwin. [268111]

Ian Pearson: That is a matter for the Royal Bank of Scotland.

Mr. Frank Field: To ask the Chancellor of the Exchequer on how many occasions Sir Fred Goodwin has been invited to 11 Downing Street for *(a)* official social engagements and *(b)* meetings in each of the last five years. [268747]

Angela Eagle: Treasury Ministers and officials have meetings with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings.

Gift Aid

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer how many smaller charities became eligible for the Gift Aid scheme following the 2008 Budget. [268977]

Mr. Timms: There were no changes to the qualifying conditions for charities to benefit from the Gift Aid scheme in Budget 2008.

Individual Savings Accounts

David Taylor: To ask the Chancellor of the Exchequer what revenue has accrued to the Exchequer from the taxation of *(a)* individual savings accounts and *(b)* the interest on individual savings accounts since 6 April 2008. [266574]

Ian Pearson: ISAs are tax-advantaged savings products. No tax is payable on interest or capital gains arising on investments held within ISAs, and therefore no revenue accrues to the Exchequer as a result. In 2007-8 the tax relief provided through ISAs amounted to an estimated £2.4 billion.

A small amount of revenue may accrue to the Exchequer in the case of uninvested cash which is held for a period of time within a stocks and shares ISA, however this is not a result of tax. This is because interest earned on this cash is subject to a flat 20 per cent. charge to prevent abuse of the ISA regime. HMRC does not collect specific data on the income from this charge.

Members: Correspondence

Mr. McLoughlin: To ask the Chancellor of the Exchequer pursuant to the answer of 23 February 2009, *Official Report*, column 322W, on hon. Members: correspondence, when the Economic Secretary plans to respond to the letter from the right hon. Member for West Derbyshire of 23 October 2008 on inclusion of non-bank building societies in the financial support package for the banking industry. [265528]

Ian Pearson *[holding answer 23 March 2009]*: A reply has been sent to the right hon. Member.

Mike Penning: To ask the Chancellor of the Exchequer when he plans to reply to the letter of 22 October 2008 from the hon. Member for Hemel Hempstead on finance and investment in Icelandic banks. [266642]

Ian Pearson: A reply has been sent to the hon. Member.

Mr. Waterson: To ask the Chancellor of the Exchequer when he plans to reply to the letters from the hon. Member for Eastbourne of 10 October, 25 November and 14 December 2008 and 4 February 2009 sent on behalf of his constituent, Mr M Wilberforce; and when he expects the matter raised in the correspondence to be resolved. [268372]

Ian Pearson: A reply has been sent to the hon. Member.

Robert Key: To ask the Chancellor of the Exchequer when the Financial Secretary plans to reply to the letter from the hon. Member for Salisbury of 16 January 2009 on Northern Rock mortgage interest rate changes. [268592]

Ian Pearson: A reply has been sent to the hon. Member.

Steve Webb: To ask the Chancellor of the Exchequer when he plans to reply to the letter of 26 January 2009 from the hon. Member for Northavon, sent on behalf of Mr D Powell of Iron Acton, on transfer of tax-free allowances. [269017]

Mr. Timms: I replied to the hon. Member on 7 April.

Steve Webb: To ask the Chancellor of the Exchequer when he plans to reply to the letter of 21 January 2009 from the hon. Member for Northavon, sent on behalf of Mr A Kybert of Tate, on banks' support for small businesses. [269018]

Ian Pearson: A reply has been sent to the hon. Member.

Mr. Winnick: To ask the Chancellor of the Exchequer when he plans to reply to the letter from the hon. Member for Walsall, North of 24 February 2009 with regard to a constituent, reference 3-89302009; and what the reason is for the time taken to reply. [269035]

Mr. Timms: I replied to the hon. Member on 7 April.

Sir George Young: To ask the Chancellor of the Exchequer when the Financial Secretary to the Treasury plans to reply to the letter of 15 October 2008 from the right hon. Member for North West Hampshire, on Icesave, and to the letters of reminder sent on 24 November 2008, 30 January 2009 and 26 February 2009. [269315]

Ian Pearson: A reply has been sent to the right hon. Member.

Mortgages

Mr. Brady: To ask the Chancellor of the Exchequer how many *(a)* banks, *(b)* building societies and *(c)* other lending institutions have (i) withdrawn from the UK mortgage market and (ii) stopped accepting new mortgage business during the last 12 months. [265152]

Ian Pearson: I refer the hon. Member to my answer to the hon. Member for Twickenham (Dr. Cable) of 9 March 2009, *Official Report*, column 99W.

Mortgages: Government Assistance

Mr. Brady: To ask the Chancellor of the Exchequer (1) on what basis the eligibility of financial institutions to participate in the new guarantee scheme for residential mortgage-backed securities will be determined; and whether UK non-bank lenders will be permitted access to the scheme; [265149]

(2) what assessment he has made of the likely effects on competition in the UK mortgage market of restricting access to the new guarantee scheme for residential mortgage-backed securities to banks and building societies; [265150]

(3) pursuant to the oral statement of 19 January 2009, *Official Report*, columns 482-6, on financial markets, whether any schemes being developed to encourage lending to businesses and consumers will be open to UK non-bank financial institutions; [265196]

(4) whether his Department plans to develop a scheme to support new lending by UK non-bank financial institutions. [265197]

Ian Pearson: On 19 January, the Government announced measures designed to reinforce the stability of the financial system, to increase confidence and capacity to lend, and in turn to support the recovery of the economy. These build on measures announced on 8 October last year.

This included a guarantee scheme for asset-backed securities to help improve lenders' access to wholesale funding markets and help promote robust and stable markets in the medium term. The scheme draws on the recommendations made by Sir James Crosby and will commence in April 2009 subject to state aid approval.

UK banks and building societies (i.e. deposit takers currently eligible for the Credit Guarantee Scheme) are eligible to participate in the new scheme. The Government will work closely with the industry and keep the scope of the scheme under review. Eligible institutions will be able to access the scheme subject to fulfilling conditions that will be announced by the Debt Management Office in due course.

The Government have not, at this time, produced any assessment of the impact on competition in UK mortgages of limiting participation to deposit taking institutions. However, the measures announced on 19 January were put in place with the express purpose of boosting confidence in the banking sector and are part of ongoing, successful efforts to stabilise financial markets.

Personal Equity Plans

David Taylor: To ask the Chancellor of the Exchequer how much revenue was derived by the Exchequer from the taxation of personal equity plans in each year since such plans have been in operation. [266575]

Ian Pearson: Personal equity plans were tax-advantaged savings products, not revenue-raising schemes.

When ISAs were introduced in 1999, PEPs initially continued to exist but could not be subscribed to, and new accounts could not be opened. However, from April 2008, all PEPs automatically became stocks and shares ISAs as part of the ISA reforms. PEPs are therefore no longer in operation.

Personal Income

Dr. Cable: To ask the Chancellor of the Exchequer if he will publish an update to HM Revenue and Customs' tax table 2.5 based on the 2006-07 Survey of Personal Incomes; and if he will make a statement. [266043]

Mr. Timms: Table 2.5 'Income tax liabilities, by income range' based on the 2006-07 Survey of Personal Incomes will be available on the HM Revenue and Customs website at the end of May 2009.

Information for 2007-08 to 2009-10 will be projected in line with Budget 2009.

Post Offices

Lorely Burt: To ask the Chancellor of the Exchequer what recent discussions on the underwriting of the banking service offered through the Post Office network his Department has had. [265507]

Mr. McFadden: I have been asked to reply.

The Post Office provides a wide range of financial services. Details of the specific protections in place are available from the Post Office website:

http://www.postoffice.co.uk/portal/po/
content1?catId=19300232&mediaId=92400740

Public Sector: Pensions

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 16 March 2009, *Official Report*, columns 89-90W, on banks: finance, what assessment he has made of the effect of the Asset Purchase Scheme on levels of public sector pension scheme deficits. [266309]

Ian Pearson: Asset purchases undertaken by the Bank of England will increase the flow of money within the economy. This will help to revive the flow of credit within the economy, encourage spending and support economic activity. A prosperous and stable economy is vital for pension schemes to meet their obligations.

Public sector pensions are predominantly run on a pay as you go basis. This means that pension liabilities are financed when they become due, mainly from contributions into pension schemes and otherwise out of other current Government revenues.

For funded pension schemes, to the extent that asset purchases by the Bank of England lead to movements in bond yields, this will affect the present value of pension funds liabilities, and also the present value of bonds and other assets held by the fund. The overall effect on an individual fund's financial position will depend on how closely the fund's assets and liabilities are matched in terms of their exposure to interest rate risk. This will vary across funds, reflecting differences in the composition of each fund's assets and liabilities.

Students: Loans

Grant Shapps: To ask the Chancellor of the Exchequer (1) how many persons HM Revenue and Customs identified as having made full repayment of a student loan in each of the last three years; [266124]

(2) what measures are in place for HM Revenue and Customs to notify the Student Loans Company of full repayment of a student loan; [269132]

(3) how long on average HM Revenue and Customs took to inform the Student Loans Company that a graduate had paid back the full amount of a student loan in the latest period for which figures are available; and if he will make a statement. [269133]

Mr. Timms: HM Revenue and Customs collects student loan repayments through the tax system, and passes on repayment information to the Student Loans Company (SLC). SLC is responsible for maintaining and updating borrower loan accounts, and informs HMRC when collection should begin and end. HMRC does not hold any information on borrowers' outstanding balances, and is not able to tell when a loan has been fully repaid.

Taxation

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer (1) whether he has examined the practice in other tax jurisdictions of publishing the tax returns of individuals; and if he will make a statement; [illegible]

(2) what assessment he has made of the merits of publishing the tax returns of individual taxpayers. [illegible]

Mr. Timms: The Government regularly monitor developments in other jurisdictions, including in jurisdictions where individual tax returns are published, such as Sweden and (in the case of elected officials) the United States. Tax returns of individuals contain confidential information and the UK Government have no plans to publish them.

Taxation: Energy

Graham Stringer: To ask the Chancellor of the Exchequer if he will make an estimate of the level of additional taxation on *(a)* electricity, *(b)* natural gas, *(c)* oil, *(d)* liquefied petroleum gas which would be equivalent to the required subsidy for biomass to meet the UK renewables energy target in 2020. [illegible]

Angela Eagle: The Government do not hypothecate revenue—spending priorities are not, in general, determined by the way in which the money is raised.

The expected costs of meeting our renewable energy targets were published in the Government's Renewable Energy Strategy last summer. The document can be found at:

http://renewableconsultation.berr.gov.uk/consultation/consultation_summary

VAT: Construction

Sir Nicholas Winterton: To ask the Chancellor of the Exchequer if he will widen the range of construction products and the labour associated with their installation to which a reduced rate of value added tax applies. [illegible]

Mr. Timms: All taxes are kept under review and any changes are made as part of the Budget process.

VAT is governed by EU agreements entered into by successive Governments. Under these agreements EU member states may only apply a reduced VAT rate to a prescribed list of goods and services.

The Government only apply reduced VAT rates where they believe these would provide well-targeted and cost-effective support for their policy objectives, compared with other measures.

TRANSPORT

A1079: Accidents

Mr. Greg Knight: To ask the Secretary of State for Transport how many people were *(a)* killed and *(b)* injured in road traffic incidents on the A1079 road in each of the last five years; and if he will make a statement. [269353]

Jim Fitzpatrick: The number of *(a)* killed and *(b)* injured casualties resulting from reported personal injury road accidents on the A1079 in each of the last five years is given in the table:

	Number of casualties				
	2003	*2004*	*2005*	*2006*	*2007*
(a) Killed	4	5	11	2	0
(b) Injured	255	198	184	154	182
Total casualties	259	203	195	156	182

The 2008 data will be available at the end of the June 2009.

A127: Speed Limits

Bob Spink: To ask the Secretary of State for Transport when the system of average speed check cameras on the A127 between Basildon and Southend will be fully operational; and if he will make a statement. [269801]

Jim Fitzpatrick: This information is not held by the Department for Transport. Since 1 April 2007 the deployment of safety cameras has been the responsibility of individual local partnerships. The operation of the average speed cameras on the A127 will therefore be a matter for the Essex road safety partnership.

Airports: High Speed Trains

Mrs. Villiers: To ask the Secretary of State for Transport whether his Department is working on proposals for a draft national policy statement on *(a)* airports and *(b)* high speed rail. [268992]

Jim Fitzpatrick: The Department for Transport is planning to produce three national policy statements (NPS) on ports, national networks (i.e. strategic roads and railways, including strategic rail freight interchanges), and airports respectively.

Aviation

Mrs. Villiers: To ask the Secretary of State for Transport whether his Department plans to issue a new version of the Aviation White Paper to take account of developments since 2004. [268994]

Jim Fitzpatrick: Since the publication of "The Future of Air Transport" White Paper in 2003, the Department for Transport has undertaken a significant programme of work to ensure that the long-term strategy set out in the White Paper remains up-to-date, including: "The Future of Air Transport Progress Report" in 2006; the consultation on "Adding Capacity at Heathrow Airport" and the decisions announced on 15 January 2009, and updated UK air passenger demand and CO_2 forecasts in 2007 and 2009. A further progress report on the White Paper is due to be published within the next two years, which will take into account developments across the range of White Paper policies. The Government have also stated their intention to produce a national policy statement on airports, based on the Air Transport White Paper, which satisfies the requirements of the 2008 Planning Act.

Cycleways: North West

Mark Hunter: To ask the Secretary of State for Transport how many miles of cycle lanes were introduced in local authority areas in the North West in each year since 1997. [268716]

Paul Clark: This information is no longer collected centrally by the Department for Transport as part of our drive to reduce the burden upon local authorities in respect of the information we request annually from them.

However, we do hold some historical information. This has been placed in the Libraries of the House and covers the whole of England. The data are not verified by the Department, may be incomplete and may include estimates.

Cycling: Greater Manchester

Mark Hunter: To ask the Secretary of State for Transport what plans his Department has to improve facilities for cyclists in the Greater Manchester area. [268714]

Paul Clark: The Department for Transport has allocated £98 million from 2009 to 2011 to Greater Manchester to spend on integrated transport. It is for Greater Manchester authorities to determine how much of this they allocate to improving facilities in Greater Manchester including completion of the cycle network and schemes at cycle investment sites.

Departmental Carbon Emissions

Greg Clark: To ask the Secretary of State for Transport for how long his Department has followed the Carbon Trust's Carbon Management programme. [269285]

Mr. Hoon: The Department for Transport began discussions with the Carbon Trust in June 2007, and commenced a targeted approach, concentrating on the main energy using areas of the Department identified in the Sustainable Development in Government Report.

This resulted in the completion of a Carbon Management Energy Efficiency Report in January 2008, which made recommendations to the Department on those areas where the greatest energy (carbon emissions) savings might be made.

The Department for Transport will consult the Carbon Trust to determine the best next steps. The main objective of working with the Carbon Trust will be to continue improving the sustainable performance of the Department for Transport estate.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Transport how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since 2005; and at what cost. [268276]

Mr. Hoon: The information requested on laptop computers for the Department for Transport and its agencies is contained in the following table:

	DfT(c)[1]		*DVLA*[2]		*HA*[3]		*DSA*		*MCA*		*VOSA*[4]	*VCA*		*GCDA*	
	Total	*Cost £000*	*Total*	*Cost £000*	*Total*	*Cost £000*	*Total*	*Cost £000*	*Total*	*Cost £000*	*Total*	*Total*	*Cost £000*	*Total*	*Cost £000*
2005-06	349	405	58	45	120	—	74	50	13	15	n/a	28	34	0	—
2006-07	195	216	105	86	423	—	33	22	25	24	n/a	12	15	12	6
2007-08	210	229	83	83	31	—	33	22	540	662	n/a	30	36	4	3
2008-09	301	320	406	278	0	—	301	203	200	82	n/a	26	31	5	3

[1] Totals include two in 2005-06 and one in 2007-08 for Ministers and one in 2005-06 and one in 2008-09 for special advisers.

[2] 2008-09 figure high due to Tech Refresh project.

[3] Separate costs for laptops can be provided only at disproportionate cost.

[4] The agency made use of a total of approximately 1,050 laptops across the period, but these were provided as part of a wider IT contract and were not purchased or owned by VOSA. Separate costs not available.

Departmental Energy

Greg Clark: To ask the Secretary of State for Transport what steps have been taken by *(a)* his Department and *(b)* its agencies to improve the thermal efficiency of their buildings in the last 12 months. [266762]

Mr. Hoon: The Department for Transport is committed to improving the thermal efficiency of its buildings, subject to the development of business cases addressing the value for money, affordability and carbon implications.

Greg Clark: To ask the Secretary of State for Transport what recent progress his Department has made towards the target of increasing its energy efficiency per square metre of its estate by 15 per cent. by 2010, relative to 1999-2000 levels; and if he will make a statement. [266875]

Mr. Hoon: The Department for Transport including its agencies reports performance data on energy efficiency per m^2 of its estate annually as part of the Sustainable Development in Government (SDiG) reporting process. The Department for Transport was formed in 2002-03 and therefore has this year as its baseline for energy targets under SDiG.

In the last published SDiG Report for 2006-07 the Department for Transport recorded an energy efficiency figure of 293 kWh per m^2 compared to a baseline of 277 kWh per m^2. The figure for 2007-08 is due to be published in the next SDiG report on 27 April. The Department expects to see an improvement on the 2006-07 figure, with further work to do to achieve the 15 per cent. reduction by 2010.

Departmental Lost Property

Mr. Hancock: To ask the Secretary of State for Transport whether officials in his Department who have lost laptops that were the property of his Department in the last 12 months have been charged the full value of replacement. [266231]

Mr. Hoon: The Department for Transport includes seven agencies, a shared service centre and the central Department, with a total staff of over 19,000. We do not therefore have comprehensive records. Records held centrally however show that no members of staff have been charged for the replacement value of laptops lost in the last 12 months.

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Transport how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005. [268243]

Mr. Hoon: The information requested on BlackBerrys and mobile telephones for the Department for Transport and its agencies is contained in the following table:

	DfT(c)[1]	*DVLA*[2]	*HA*[3]	*DSA*[4]	*MCA*[5]	*VOSA*[6]	*VCA*[7]	*GCDA*[8]
2005-06	Bills—£37,000 (all mobiles as no BlackBerrys purchased in 2005-06)	Not available	£195,000	£43,000	No BlackBerry purchases. Bills—£129,000	£1,000 spent on mobiles. Bills—£379,000	£10,000	£17,000
2006-07	£63,000 on purchase of BlackBerrys. Bills—96	Not available	£255,000	£41,000	£4,000 on BlackBerry purchases. Bills—£117,000	Bills—£310,000	£17,000	£30,000
2007-08	£18,000 on purchase of BlackBerrys. Bills—£157,000	Not available	£387,000	£48,000	£208,000 on BlackBerry purchases for 2007-08 and 2008-09. Bills—£117,000	£3,000 on purchase of BlackBerrys. Bills—£287,000	£25,000	£33,000
2008-09 (to date)	£11,000 on purchase of BlackBerrys. Bills—£255,000	Mobile purchase—£15,000. Bills—£32,000	Figures not yet available	£52,000	BlackBerry purchases for 2008-09 included in 2007-08 Bills—£102,000	£2,000 spent on mobiles. £1,000 on purchase of BlackBerrys. Bills—£258,000	£27,000	£33,000

[1] Separation of costs between purchase and rental of mobiles, or rental and running costs for BlackBerrys and mobiles can be provided only at disproportionate cost, therefore Bills figures include all. Details for Ministers and special advisers not recorded separately.

[2] No BlackBerrys purchased by DVLA.

[3] Separation of costs between purchase and rental of mobiles, or rental and running costs of BlackBerrys and mobiles can be provided only at disproportionate cost, therefore Bills figures include all.

[4] Separation of costs between purchase and rental of mobiles, or rental and running costs for BlackBerrys and mobiles can be provided only at disproportionate cost, therefore Bills figures include all.

[5] Figures for purchase of mobiles not available, cannot split between BlackBerrys and mobiles on running costs.

[6] Separation of running costs for BlackBerrys and mobiles can be provided only at disproportionate cost, therefore Bills figures include all.

[7] Separation of costs between purchase and rental of mobiles, or rental and running costs for BlackBerrys and mobiles can be provided only at disproportionate cost, therefore Bills figures include all.

[8] Separation of costs between purchase and rental of mobiles, or rental and running costs for BlackBerrys and mobiles can be provided only at disproportionate cost, therefore Bills figures include all.

Departmental Rail Travel

Mike Penning: To ask the Secretary of State for Transport what the cost was of travel by train by staff in his Department in each year since 1997. [261252]

Mr. Hoon: The information requested can be provided only at disproportionate cost.

Departmental Training

Grant Shapps: To ask the Secretary of State for Transport how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and who provided such training. [268311]

Mr. Hoon *[holding answer 1 April 2009]*: Training is provided to Ministers as necessary in order to carry out their duties effectively under the Ministerial Code.

Driving Offences: Fines

Bob Spink: To ask the Secretary of State for Transport how many speeding tickets have been issued on the basis of evidence from the average speed check cameras on the A13 between Basildon and Southend since their inception. [269802]

Jim Fitzpatrick: This information is not held by the Department for Transport. Since 1 April 2007 the deployment of safety cameras has been the responsibility of individual local partnerships. The average speed cameras on the A13 were deployed in 2008. The number of speeding tickets issued will therefore be a matter for the Essex road safety partnership.

Driving: Licensing

Mr. Leech: To ask the Secretary of State for Transport what estimate he has made of the cost to driving licence holders of applying for renewal of a photo driving licence every 10 years. [268744]

Jim Fitzpatrick: The current fee for renewing a photocard licence is £20 with predicted volumes for 2009-10 of 1.9 million. The annualised cost of the licence would therefore be £2.

Freight

Norman Baker: To ask the Secretary of State for Transport how much freight has been carried by *(a)* road, *(b)* rail, *(c)* water and *(d)* air in each region in each year since 1997. [269059]

Jim Fitzpatrick: Published regional freight data are available from the following sources.

(a) Table 7.1 of Regional Transport Statistics 2008 shows goods lifted by region of origin. Table 7.3 of Regional Transport Statistics 2008 shows goods moved by region of origin.

The publication is available on the Department for Transport website at:

http://www.dft.gov.uk/pgr/statistics/datatablespublications/regionaldata/rts/regtranstats2008

(b) Rail freight data by region are not available.

(c) Table 7.5 of Regional Transport Statistics 2008 gives a regional breakdown of foreign and domestic sea freight traffic at UK ports for the years 2004 to 2007. Data for earlier years back to 1999 are available from earlier editions.

Regional Transport Statistics editions are available on the Department for Transport website at:

http://www.dft.gov.uk/pgr/statistics/datatablespublications/regionaldata/rts/

These tables do not include inland waterways traffic, which is not available by region. Table 5.10 in Transport Statistics Great Britain shows goods lifted on the inland major waterway routes. Copies of Transport Statistics Great Britain have been placed in the House Library and are also available on the Department for Transport website at:

http://www.dft.gov.uk/pgr/statistics/datatablespublications/tsgb/

(d) Table 8.3 in Regional Transport Statistics shows freight lifted at UK airports by region for 1997-2007. Freight lifted includes both picked up and set down.

2008 data for each airport are available on the CAA website in table 13.2 at:

http://www.caa.co.uk/default.aspx?catid=80&pagetype=88&sglid=3&fld=2008Annual

Heathrow Airport: Public Consultation

Stephen Hammond: To ask the Secretary of State for Transport pursuant to the answer of 13 March 2009, *Official Report*, column 805W, on Heathrow Airport: public consultation, if he will place in the Library a copy of the supplementary analysis of the responses from stakeholders. [269004]

Jim Fitzpatrick: The supplementary analysis was undertaken solely for the purposes of presenting internal advice. The full report of consultation responses by Ipsos/MORI/Detica has been published, and individual responses have been available for inspection since the Heathrow decisions were announced.

Helicopters: Royal Family

Norman Baker: To ask the Secretary of State for Transport if he will take steps to discourage the use of helicopters for short journeys by members of the Royal Family. [269047]

Jim Fitzpatrick: Short single journeys by helicopter are discouraged by the Royal Household and do not normally take place at a distance of 50 miles or less. However, use of the helicopter on official visits where several short journeys may take place, permits the maximum number of engagements to take place in a day. This makes best use of the Principal's time and minimises the disruption to the public when car journeys and a police escort may be used as an alternative.

High Speed Trains

Stephen Hammond: To ask the Secretary of State for Transport what recent discussions he has had with the Chancellor of the Exchequer on the availability of funding for a high-speed rail line. [268998]

Paul Clark: High Speed Two has been formed to help develop the case for high-speed services between London and Scotland, and will report by the end of the year. The report will include advice to the Government on financing and construction proposals.

Stephen Hammond: To ask the Secretary of State for Transport what recent estimate he has made of the cost per mile of construction of a new high-speed rail line. [268999]

Paul Clark: Precise costs vary depending on a number of factors including the route, whether construction is on a disused railway alignment or built on green fields and the need for major works such as tunnelling. Costs of operation and maintenance must also be considered. Average costs do not therefore tell the whole story, but recent work for the Department for Transport suggested a new double track high-speed rail line might cost £12 to £16 million per route-kilometre.

Stephen Hammond: To ask the Secretary of State for Transport with reference to the letter which he placed in the Library from the Permanent Secretary of his Department to a director of High Speed Two Limited of 14 January 2009, whether High Speed Two Limited provides monthly written reports to his Department. [269005]

Paul Clark: High Speed Two provides regular reports to the Department for Transport, and Sir David Rowlands meets regularly with the Minister of State, to report the progress being made.

High Speed Two also publishes a regular newsletter to update and engage with stakeholders.

Mr. Lidington: To ask the Secretary of State for Transport (1) what recent estimate he has made of the number of dwellings that would need to be demolished to permit the High Speed Two project to be implemented; and if he will make a statement; [269106]

(2) whether he plans to consult *(a)* Buckinghamshire County Council, *(b)* Aylesbury Vale District Council, *(c)* Wycombe District Council, *(d)* Chiltern District Council and *(e)* South Banks District Council on the High Speed Two proposal; and if he will make a statement; [269107]

(3) whether he plans to consult *(a)* the Chilterns Conservation Board and *(b)* the National Trust on the High Speed Two proposal; and if he will make a statement; [269108]

(4) what recent assessment he has made of the effect on land owned by the National Trust of the High Speed Two proposal; and if he will make a statement. [269110]

Paul Clark: High Speed Two has been formed to develop the case for high-speed services between London and Scotland. As a first stage, High Speed Two will report by the end of the year with a proposed route from London to the West Midlands, setting out any necessary options with appropriate environmental, social and economic assessments. This will form a sound basis for a public consultation on the proposal, including options for a London to west midlands route during the course of 2010, should the Government decide to proceed.

High Speed Two is engaging with stakeholders during the course of this work, and I would encourage any interested parties to contact Sir David Rowlands and his team directly.

High Speed Trains: South East

Mr. Lidington: To ask the Secretary of State for Transport if he will make it his policy to require the management of High Speed Two Ltd to develop the proposal in ways which maintain the standard of passenger rail service provided by Chiltern Railways to residents in Buckinghamshire; and if he will make a statement. [269109]

Paul Clark: High Speed Two will be seeking to maximise benefits that can be delivered by both the new line and the existing network. This will include consideration of routing and service options for the new line, whether intermediate stations on the new line would be beneficial, and how capacity on the existing network released by a new line to the west midlands may best be used for local, regional and freight services.

Highways Agency

Mr. Winnick: To ask the Secretary of State for Transport what procedures govern responses by the Highways Agency to letters and emails from members of the public; what proportion of such letters and emails were responded to within the last 12 months; how long it took to make each such response; and if he will make a statement. [268397]

Paul Clark *[holding answer 2 April 2009]:* The Highways Agency has a target to respond to at least 90 per cent. of customer correspondence within 15 working days. During the past 12 months, the Highways Agency received 11,791 items of correspondence and responded to 11,352 (96.3 per cent.) within 15 working days.

Due to the large quantity of correspondence from members of the public, it is not possible to provide the details of how long it took to make each response in the timescales given.

Light Dues: Northern Ireland

Sandra Gidley: To ask the Secretary of State for Transport by what date he expects the Republic of Ireland to meet the cost of its light dues. [269786]

Jim Fitzpatrick: The UK and Irish Governments are engaged in constructive dialogue to agree long-term funding arrangements for the provision of aids to navigation in the Republic of Ireland.

To this end, I am meeting the Irish Transport Minister in Dublin in the near future. The time scale for reaching and implementing a lasting agreement will be among the matters we expect to discuss.

Lorries: Driver Information Systems

Mark Hunter: To ask the Secretary of State for Transport what recent discussions his Department has had with manufacturers of vehicle satellite navigation equipment on identification of routes inappropriate for heavy goods vehicles and public service vehicles. [268715]

Jim Fitzpatrick: Department for Transport officials have been reviewing a number of issues related to route guidance systems. In March 2009 officials attended a meeting involving local authorities, digital map providers and freight haulage interests on how best to address the lorry routeing issue.

M25: Repairs and Maintenance

Mrs. Villiers: To ask the Secretary of State for Transport what his Department's timetable is for work to widen stretches of the M25. [268991]

Paul Clark: The widening of the M25 between Junctions 16 to 23, and Junctions 27 to 30, is included in the scope of the M25 Design, Build Finance and Operate (DBFO) Contract, currently in the final stages of procurement. Subject to satisfactory completion of statutory processes and completion of the ongoing competition to secure finance for the project, the widening works are planned to take place as follows:

	Start	Complete
Junctions 16 to 23	27 April 2009	July 2012
Junctions 27 to 30	20 July 2009	July 2012

Two further sections of the M25 are being considered by the Highways Agency as part of the Managed Motorways programme, where hard shoulder running is envisaged rather than widening.

The earliest dates for construction of these two sections are:

	Start	Complete
Junctions 5 to 7	late 2012	late 2013
Junctions 23 to 27	late 2012	late 2013

Motor Vehicles: Excise Duties

Mr. Greg Knight: To ask the Secretary of State for Transport what estimate he has made of the number of passenger cars with a valid vehicle excise duty disc at the latest date for which figures are available. [269355]

Jim Fitzpatrick: In 2007 there were 28,227,576 cars with a valid vehicle excise licence.

Motor Vehicles: Manufacturing Industries

Mr. Greg Knight: To ask the Secretary of State for Transport what research his Department has *(a)* commissioned and *(b)* evaluated on the cost involved in the manufacturing of cars with daytime running lights. [269354]

Jim Fitzpatrick: In 2006 the Department for Transport commissioned TRL to review the studies on daytime running lights that were carried out on behalf of the European Commission. The cost to install dedicated daytime running lamps was estimated to be 25 euros per car.

Motor Vehicles: Registration

Mr. Goodwill: To ask the Secretary of State for Transport how many V5 vehicle registration forms have been *(a)* misplaced by and *(b)* stolen from (i) the Driver and Vehicle Licensing Agency, (ii) its printers and (iii) its distribution network in the last 12 months. [269087]

Jim Fitzpatrick: No such certificates have been misplaced or stolen in the last 12 months.

Motor Vehicles: Testing

Stephen Hammond: To ask the Secretary of State for Transport pursuant to the answer of 13 March 2009, *Official Report*, column 806W, on motor vehicles: testing, what checkpoint sites are used by the Vehicle and Operator Services Agency. [269002]

Jim Fitzpatrick: As previously mentioned in my answer of 13 March 2009, the Vehicle and Operator Services Agency (VOSA) uses over 1,000 checkpoint sites. Some of these sites are temporary and some are permanent. A list of the permanent sites has been placed in the Libraries of the House. VOSA wishes to withhold the list of temporary sites as this information would affect the level of enforcement of non-compliant operators if it became available.

Navigation

Sandra Gidley: To ask the Secretary of State for Transport what funding his Department has allocated to the development of navigational aids and infrastructure in the maritime sector in the last 10 years. [269787]

Jim Fitzpatrick: The costs incurred by the General Lighthouse Authorities in developing aids to navigation are generally recovered in full from users of such aids through the system of light dues.

The Department for Transport has contributed £187,500 in each of the last three years towards the costs of the General Lighthouse Authorities' eLoran project, in recognition of its potential contribution to an international agreement. eLoran is a land-based, high-powered precise terrestrial radio navigation system for all mariners that is fully independent of global navigation satellite systems such as GPS and delivers complementary levels of performance.

The funding has enabled further research into the potential for e-navigation, which if successful, would allow a significant reduction in the provision and associated costs of traditional aids to navigation.

Parking: Fees and Charges

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the answer of 27 January 2009, *Official Report*, column 300W, on parking: fees and charges, what comments were received from other Departments on the proposals for regulations for workplace policy levy schemes. [268993]

Paul Clark: The proposals for regulations were discussed in the usual way by Cabinet. Information relating to Cabinet Committees, including Cabinet Committee papers, are generally not disclosed, as to do so could harm the frankness and candour of internal discussion.

Railways

Mr. Andrew Turner: To ask the Secretary of State for Transport what rules and regulations would apply to a Translohr guided rail system established in England. [263699]

Paul Clark *[holding answer 16 March 2009]*: It is not possible to provide definitive guidance on the rules and regulations applicable to the Translohr guided rail system. However, if such a system was allowed to run on a highway in England it could be considered as vehicular traffic and, therefore, in such a case, all relevant rules and regulations for road vehicles would apply accordingly.

Mr. David Anderson: To ask the Secretary of State for Transport what steps his Department is taking to bring forward capital expenditure on rail infrastructure projects. [268670]

Paul Clark: Capital expenditure on rail infrastructure projects is primarily the responsibility of Network Rail which is funded in accordance with the Office of Rail Regulation's determination of its income requirement. This income requirement is derived from the outputs set out in the High Level Output Specification set out by the Government in their White Paper—Delivering a Sustainable Railway.

We are also bringing forward around £300 million for an additional 202 train carriages to relieve overcrowding, pursuant to the previously announced High Level Output Specification. The trains are due to enter service by 2012 subject to negotiations with train operators.

Jeremy Corbyn: To ask the Secretary of State for Transport what proportion of railway journeys were undertaken in first class in each of the last 10 years. [269739]

Paul Clark: The Department for Transport does not hold this information. However, this information should be available from the Association of Train Operating Companies (ATOC). My hon. Friend should contact ATOC at the following address for a response to his question.

Association of Train Operating Companies (ATOC)
3rd Floor
40 Bernard Street
London
WC1N 1BY

Jeremy Corbyn: To ask the Secretary of State for Transport what proportion of railway carriages were built and furbished as *(a)* first class and *(b)* second class in each of the last 10 years. [269740]

Paul Clark: The Department for Transport does not hold the information requested. It may be available from the rolling stock leasing companies, individual train operators or the Association of Train Operating Companies.

Railways: Disabled

Mr. Gray: To ask the Secretary of State for Transport how many and what proportion of the trains of each train operator which were in operation in each year since 1997 were accessible to people in wheelchairs; and if he will make a statement. [269662]

Paul Clark: The majority of trains have been accessible to wheelchair users for many years, although the proportion that meet modern accessibility standards has increased dramatically since the Rail Vehicle Accessibility Regulations (RVAR) (SI 1998/2456) were introduced in 1998. The RVAR considerably improve the accessibility of rail vehicles to disabled people by setting minimum technical standards designed to make trains more accessible to disabled people, including wheelchair users.

Almost 4,800 train carriages have been built in compliance with RVAR, while almost all older vehicles have featured improved accessibility, including for wheelchair users, when they have undergone refurbishment. A list of all trains that were built in compliance with RVAR and their current operator is available on the Department for Transport's website:

www.dft.gov.uk/transportforyou/access/rail/vehicles/pubs/rva/accessibilityregulations.xls)

However, as rolling stock is frequently moved between different train operating companies, the Department does not keep a historical record of where these rail vehicles have previously been in service.

The UK's lead in this area resulted last year in the introduction of new pan-European accessibility standards (the Technical Specification of Interoperability for Persons with Reduced Mobility—PRM TSI) which are based on RVAR. In future, all heavy rail trains will be subject to the PRM TSI, while tram, underground and metro systems will remain subject to RVAR.

In 2008, the Department set an end date of 1 January 2020, by which time all trains must be accessible. This is some 15 years earlier than would occur naturally through normal fleet replacement and we are already working closely with the rail industry to deliver this commitment.

Railways: Fares

Jeremy Corbyn: To ask the Secretary of State for Transport what the average change in the cost of *(a)* first class and *(b)* second class unregulated rail fares was in each of the last 10 years. [269736]

Paul Clark: This information is contained in the Fares Index in National Rail Trends—available from the ORR website at:

http://www.rail-reg.gov.uk/upload/pdf/rolling-c5-fares.pdf

Railways: Franchises

Stephen Hammond: To ask the Secretary of State for Transport pursuant to the answer of 17 March 2009, *Official Report*, column 990W, on railways: franchises, what timetable has been set for completion of the research. [269028]

Paul Clark: As described in the previous answer of 17 March 2009, the current research project into rail passenger demand forecasting is due to conclude by the end of 2009. Work is currently on schedule.

Kate Hoey: To ask the Secretary of State for Transport which rail franchises and concessions were fully or partly operated by non-UK companies in each of the last five years; and how much public subsidy each such franchise received in each of those years. [269792]

Paul Clark: All franchises let by the Department for Transport have been awarded to companies registered in the United Kingdom. Details of the ultimate shareholders should be available in the relevant filed accounts at Companies House.

Subsidy paid to all franchises is published annually by the Office of Rail Regulation in National Rail Trends which is available in the Library of the House and online at:

www.rail-reg.gov.uk

Railways: Freight

Hugh Robertson: To ask the Secretary of State for Transport pursuant to the answer of 30 March 2009, *Official Report*, column 835W, on railways: freight, what his Department's policy is on where on a stretch of motorway rail freight interchanges should be sited. [268897]

Paul Clark: The Strategic Rail Authority document 'Strategic Rail Interchange Policy' of 2004, which can be found at:

www.dft.gov.uk/pgr/freight/railfreight/
railfreightinterchange.pdf

is still the basis for the Department's policy on rail freight interchanges. It does not specify locations on the motorway network where rail freight interchanges should be sited, but does state that such interchanges should have "high quality links to the motorway and trunk road network".

Hugh Robertson: To ask the Secretary of State for Transport pursuant to the answer of 30 March 2009, *Official Report*, column 835W, on railways: freight, what the position of *(a)* the Highways Agency and *(b)* Kent Highways was on the proposed Kent International Gateway development; and if he will make a statement. [268898]

Paul Clark: The position of the Highways Agency is that further clarifications are required from the developer about the impact of the proposed development. At present the Highways Agency's view is that the proposal might be detrimental to safety and journey time reliability at Junction 8 of the M20 and the developer might be able to offer mitigation measures to offset this issue. The position of Kent Highways is a matter for Kent county council.

Roads

Mrs. Villiers: To ask the Secretary of State for Transport if he will place in the Library a copy of the service contract with each of the four appointed road user service providers. [262419]

Paul Clark: These have been placed in the Libraries of the House, with the exception of the two out of 10 supporting schedules to each contract which are commercially sensitive.

Roads: Accidents

Mr. Amess: To ask the Secretary of State for Transport what the cost to the public purse funds on average was of each road fatality in the latest period for which figures are available; and if he will make a statement. [268437]

Jim Fitzpatrick: The Department for Transport publishes the average value of preventing a fatality on roads as part of the new approach to appraisal guidance. This is used by promoters to develop business cases. The overall value includes some estimates of costs that would be avoided by preventing road fatalities, some of which would otherwise fall on public funds.

Savings made in the form of police costs from preventing a fatal accident are estimated as £1,920 (2007 prices) on average. It is important to note that this cost saving is attributable to a fatal accident and not to each single fatality. A single accident can involve more than one fatality and include other individuals with injuries varying in severity. Medical and ambulance costs, however, relate to each personal fatality and are estimated at £6,310 (2007 prices).

Each year the Department for Transport publishes its valuation of preventing fatalities (VPF) on transport using annual road accident data for appraisal purposes. In addition to the costs mentioned above components of the VPF that are directly attributable to each fatality on average include valuations of lost human output (£624,190 in 2007 prices) and human costs such as grievance and suffering (£1,232,800 in 2007 prices).

Roads: EC Action

Mark Hunter: To ask the Secretary of State for Transport (1) pursuant to the written ministerial statement of 16 December 2008, *Official Report*, columns 113-4WS, on the EU Transport Council, (1) what recent progress has been made in respect of the EU's proposed directive on cross-border enforcement in the field of road safety; and if he will make a statement; [268712]

(2) with reference to the written ministerial statement of 8 October 2008, *Official Report*, column 18WS, on the EU Transport Council, what progress has been made on overcoming the practical and legal difficulties of cross-border enforcement for non-resident drivers escaping financial penalties for road safety infringements; and if he will make a statement. [268713]

Jim Fitzpatrick: The proposed EU directive on cross-border enforcement is not on the Transport Council agenda under the current presidency and I am not aware of any further work having been done on the proposed directive following the December Transport Council.

Roads: Yorkshire and Humberside

Mr. Greg Knight: To ask the Secretary of State for Transport what recent discussions his Department has had with the East Riding of Yorkshire council on road safety improvements on the A1079. [269352]

Jim Fitzpatrick: The Department for Transport has had no recent discussions with East Riding of Yorkshire council regarding road safety improvements on the A1079.

Rolling Stock: Manpower

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the answer to the hon. Member for Derby North of 6 March 2009, *Official Report*, column 1847W, on rolling stock, what assessment he has made of the effect of the introduction of new rolling stock on numbers of jobs servicing and maintaining the rolling stock to be replaced. [268995]

Paul Clark: Agility Trains has suggested that around 1,400 jobs in train maintenance will be safeguarded by their Super Express proposal. Across the network, the demand for train maintenance personnel will increase as the Department for Transport invests in the new Super Express fleet, the HLOS requirements, the new Thameslink and the new Crossrail fleets.

Rolling Stock: South East

Mr. Fallon: To ask the Secretary of State for Transport what additional rolling stock is planned for the Sevenoaks to London railway line. [269750]

Paul Clark: Southeastern will be a recipient of some of the new rolling stock that is being procured for the Thameslink programme. Sevenoaks to London will be one of the lines on which this stock is likely to be deployed.

Tankers: Safety

Mr. Gordon Prentice: To ask the Secretary of State for Transport what failsafe safety measures are in place in tankers transporting liquefied gas; and if he will make a statement. [269344]

Jim Fitzpatrick: Road tank vehicles transporting liquefied gas brought into service in the UK must meet the vehicle and service equipment construction requirements of the European agreement concerning the international carriage of dangerous goods by road. These requirements include at least three mutually independent closures mounted in series, and spring-loaded safety valves.

Tank vehicles and shells must be certified as meeting the requirements prior to entering into service for the first time. Tank vehicles must pass an annual inspection thereafter to ensure they remain fit for service and tank shells are subject to periodic inspection requirements.

Mr. Gordon Prentice: To ask the Secretary of State for Transport when he expects all UK-registered tankers to have double hulls. [269345]

Jim Fitzpatrick: There is no requirement within UK or international law for all tankers to be equipped with double hulls.

The requirements for double-hulling of such ships are based upon the type of cargo carried and as such there is no expectation that at a specific date the entire fleet of UK registered tankers will be so equipped.

Transport: Royal Family

Norman Baker: To ask the Secretary of State for Transport who decides the mode of transport appropriate for official journeys by a member of the royal family. [269076]

Jim Fitzpatrick: The Royal Travel Office in conjunction with the Royal Household decides the mode of transport appropriate for a journey by a member of the royal family. The decision on the mode takes account of safety, security, value for money, the best use of principals' time, the requirements of the visit, the avoidance of disruption to the public, environmental considerations and appropriateness for the occasion.

Wind Power: Planning Permission

Dr. Whitehead: To ask the Secretary of State for Transport what criteria the Highways Agency uses in appraising proposals for the construction of wind farms adjacent to or near highways. [269221]

Paul Clark: The current working criteria used by the Highways Agency for appraising proposals for the construction of wind farms is available on the Highways Agency website at:

www.highways.gov.uk/business/238.aspx

Written Answers to Questions

Monday 20 April 2009

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Bank Services: Fees and Charges

Linda Gilroy: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what progress the Office of Fair Trading (OFT) has made in investigating unfair bank charges; and when he expects the OFT to report. [269800]

Mr. Thomas: The OFT has written to banks with its provisional view on the fairness of unarranged overdraft and returned item fees, setting out its concern that they may be unfair under the Unfair Terms in Consumer Contract Regulations 1999. The OFT announced on 3 April 2009 that it is to streamline its investigation into unarranged overdraft charges by focusing on the terms of three banks in particular in order to progress the case in the shortest and most efficient way possible. The OFT expects to reach final conclusions on fairness later this year.

China

Mr. MacNeil: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform whether officials from his Department have held discussions with colleagues in the Scotland Office on the Secretary of State for Scotland's forthcoming visit to China as part of the Scottish Council for Development and Industry's trade delegation; and whether officials from his Department will accompany the Secretary of State for Scotland on the visit. [267018]

Mr. Thomas: Officials from this Department have been in contact with colleagues in the Scotland Office regarding the Secretary of State for Scotland's visit to China.

Officials from this Department did not accompany the Secretary of State for Scotland on his visit. However, officials at our missions in China supported both the trade mission and the visit.

Departmental Buildings

Grant Shapps: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what properties his *(a)* Department and *(b)* Department's (i) executive agencies and (ii) non-departmental public bodies have sold in each of the last five years; and how many of these have been sold for housing development. [266497]

Mr. McFadden: This Department has not sold any land from its HQ estate over the last five years.

I have approached the chief executives of Companies House and the Insolvency Service and they will respond to you directly.

Information for those non-departmental public bodies overseen by BERR who have sold properties in each of the last five years is as follows:

UK Atomic Energy Authority

The Winfrith Technology Centre, Dorset was sold to the Urban Regeneration Agency (doing business as English Partnerships) on 31 March 2004. Associated with the sale of the Winfrith Technology Centre, six plots of adjoining agricultural land were sold in financial year 2006-07 in accordance with the Crichel Down rules. Two areas of agricultural land to the west of the Winfrith site were sold in financial year 2005-06. The final plot of this agricultural land was sold in financial year 2006-07. None of these were sold for housing development.

In summer 2006 two plots of land were sold in Sutton Courtenay, Oxfordshire associated with the former water treatment works at Harwell: an angling lake; and a plot of land with planning permission for two residential dwellings.

Information for the regional development agencies (statistical information only due to volume involved) is as follows:

The information given for the RDA's are actual buildings mainly for regeneration purposes. It does not include land or larger regeneration sites. The RDAs are not involved in direct housing provision.

Letter from Gareth Jones, dated 13 April 2009:

I am replying on behalf of Companies House to your Parliamentary Question tabled on 23 March 2009, UIN 266497, to the Minister of State for Business Enterprise and Regulatory Reform.

Companies House has not sold any properties in the last five years.

Letter from Stephen Speed, dated 13 April 2009:

The Minister of State, Department for Business, Enterprise and Regulatory Reform has asked me to reply to you directly on behalf of the Insolvency Service in respect of your question, what properties *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental public bodies it oversees have sold in each of the last five years; and how many of these have been sold for housing development The Insolvency Service leases its properties and therefore have not been and will not be in a position to sell any.

Departmental Carbon Emissions

Greg Clark: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform with reference to the answer to the hon. Member for Hayes and Harlington of 3 December 2007, *Official Report*, column 895W, on departmental carbon emissions, whether his Department has adopted the Carbon Trust's Carbon management programme. [269274]

Mr. McFadden: BERR has had two recent reviews carried out by the Carbon Trust, on its headquarters estate. The second, run in April to May 2008, was a follow-on to previous work done under the energy efficiency accreditation scheme (EEAS) which closed in March 2008. As a result of the second review, BERR was given certification under the new Carbon Trust Standard; this was awarded to the Department on 2 July 2008. On the basis that these reviews had been done, the Department did not feel it necessary to take up the Carbon Trust management programme.

Departmental Electronic Equipment

Mr. Hoban: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how much was spent on *(a)* the purchase of and *(b)* bills for (i) Blackberrys and (ii) mobile phones for (A) Ministers, (b) special advisers and (c) civil servants in his Department in each year since 2005. [266128]

Mr. McFadden: The information requested is as follows:

(i) The Department has deployed Blackberry services to staff since 2006 through the Office of Government Commerce's mobile telecommunication services contract. From the records available the cost of purchasing the Blackberry hardware each year since 2006 has been:

	Ministers	Special advisers	Other staff
			£
2006	—	—	16,800
2007	1,120	1,120	68,880
2008	280	280	8,400
2009	280	—	27,695

The 2009 figure includes the costs of recent hardware upgrades.

The operating costs for BERR's Blackberry service is only held from 2008 and includes costs for Ministers and special advisors:

	Other staff (£)
2006	n/a
2007	n/a
2008	132,128
2009	154,902

n/a = Not available.

(b) The Department uses the Office of Government Commerce's mobile telecommunication services contract to provide official mobile telephones to staff. No cost information is available on the provision of mobile hardware. No detailed information is available on the cost of the services that have been deployed to Ministers and their special advisors. During this period all Ministers and special advisors have had access to mobile telephones from a central pool of handsets operated by the ministerial support office. The only information available is the total cost of the mobile telephones services operated by the ministerial support office and for those services provided to other BERR staff for each year since 2008.

	Mobile telephone costs for ministerial support office	Total cost of staff mobiles provided
		£
2008	23,541	218,317
2009	24,541	192,868

Departmental Energy

Greg Clark: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what recent progress his Department has made towards its target for the energy efficiency per square metre of its estate; and if he will make a statement. [266866]

Mr. McFadden: BERR are continuing to work towards achieving the energy efficiency targets expressed in the Sustainable Operation of the Government Estate (SOGE) framework. Our main strategy has been to gain efficiencies through a reduction in the physical size of its estate and the number of buildings occupied. As a result the whole BERR estate has been reduced by 58 per cent. and its overall carbon footprint by 26 per cent. since the baseline year of 1999-2000.

As we are working the remaining buildings harder, through better space optimisation, energy use has risen slightly. We are addressing this through improved utilisation of building management systems; installing new environmental and lighting controls during 2008-09, together with introduction in January 2009 of new automated monitoring and targeting systems, which will give significant savings over the next few years.

Furthermore, in mid-February 2009, BERR installed two sets of photovoltaic arrays on the roof of its 1 Victoria Street HQ building and carried out a thermal imaging study. We are currently evaluating the latter study to see if there are additional means of improving the performance of the HQ building.

BERR's HQ estate recently received the Carbon Trust Standard certification.

Greg Clark: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how much *(a)* electricity, *(b)* gas and *(c)* other fuel was used by (i) his Department and (ii) each of its agencies since the establishment of his Department; and how much was used by each of the regional development agencies in each of the last 10 years. [267342]

Mr. McFadden: Since the inception of BERR in June 2007, the Department has used the following amounts of electricity and gas on its HQ estate up to the end of February 2009.

	kWh
Electricity	19,746,096
Gas	9,264,323

I have approached the chief executives of the Insolvency Service and Companies House and they will respond to you directly.

The following tables contain details of the amounts spent by each regional development agency on electricity, gas and other fuels during the past 10 years. Where there is a blank entry (—), figures are unavailable and would incur disproportionate cost to produce. The RDAs do not record units used.

Letter from Gareth Jones, dated 13 April 2009:

I am replying on behalf of Companies House to your Parliamentary Question tabled on 25 March 2009, UIN 267342, to the Minister of State for Business Enterprise and Regulatory Reform.

Since the inception of BERR in 2007, Companies House has used the following amounts of fuel:

kWh

Financial year	Electricity	Gas
2007-08	5,315,640	1,766,260

Letter from Stephen Speed, dated 13 April 2009:

The Minister of State, Department for Business, Enterprise and Regulatory Reform has asked me to reply to you directly on behalf of The Insolvency Service how much (a) electricity, (b) gas and (c) other fuel was used by (i) his Department and (ii) each of its agencies since the inception of his Department; and how much was used by each of the regional development agencies in each of the last 10 years.

The Insolvency Service has consumed the following energy to date since the formation of BERR in June 2007:

	kWh
Electricity	2,099,682
Gas	934,211
Other Fuel	0

Departmental Public Expenditure

Dr. Cable: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what his latest estimate is of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268112]

Mr. McFadden: The latest estimate of capital expenditure for the Department for Business, Enterprise and Regulatory Reform (BERR) is as follows:

Capital expenditure in £ million	*2008-09 forecast outturn*	*2009-10 budgets allocated*	*2010-11 CSR07 settlement figures*
Capital expenditure	142,000	131,056	166,325
Less capital income from launch investment	(123,000)	(120,000)	(184,500)
Net capital expenditure	19,000	11,056	(18,175)[1]

[1] Planned receipts are in excess of expenditure in 2010-11.

The Department's settlement from the 2007 comprehensive spending review (CSR07) included use of end year flexibility (EYF) stocks and other flexibilities, subject to agreement by HM Treasury. The planned expenditure for 2009-10 includes use of £43 million, the balance of a loan made to the Department for Innovation, Universities and Skills (DIUS), which is due to be repaid in 2009-10. There remains considerable volatility in the planned income received from launch investments in the aerospace sector, which will impact on BERR's future capital expenditure plans, particularly in 2010-11.

Plans for 2011-12 have not yet been formulated, pending the outcome of the next spending review.

Departmental Redundancy

Justine Greening: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform with reference to the answer of 12 January, *Official Report*, columns 462-63W, on redundancy, how many staff left his Department under staff exit schemes with a severance package worth *(a)* between £100,000 and £125,000, *(b)* between £125,001 and £150,000, *(c)* between £150,001 and £200,000, *(d)* between £200,001 and £250,000, *(e)* between £250,001 and £500,000, *(f)* between £500,001 and £1,000,000 and *(g)* over £1,000,000 in each year since 2005-06. [264319]

Mr. McFadden: The following table sets out details of staff who left the Department for Business, Enterprise and Regulatory Reform under staff exit schemes with a severance package.

Severance package	*2005-06*	*2006-07*	*2007-08*	*Total*
£100,000-£125,000	9	12	4	25
£125,000-£150,000	2	2	3	7
£150,000-£200,000	3	10	4	17
£200,000-£250,000	1	6	3	10
£250,000-£500,000	0	5	3	8
£500,000 plus	0	0	0	0
Total	15	35	17	67

For staff leaving on compulsory or flexible early severance terms, or in receipt of a statutory redundancy payment, the size of the package is simply the lump sum compensation payment made.

For staff leaving on compulsory, flexible or approved early retirement terms, the size of the package includes any lump sum compensation payment made on departure (compulsory terms only) and also the capitalised cost of paying a pension or annual compensation payment (ACP) before pension age, the cost of any pension enhancement (compulsory and flexible terms only) and the cost of bringing forward the payment of the pension lump sum (for those in classic). These figures are therefore the initial provision for the early departure liabilities caused by the staff departures. They will include any cash payments made during the period.

Departmental Responsibilities

Mr. Hands: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform pursuant to the answer of 25 March 2009, *Official Report*, column 523W, on the Corporate Governance Unit, when his Department's Corporate Law and Governance Directorate was established; what the remit of the Directorate is; what the cost to the public purse has been of the Directorate in each year of its operation; what the job title is of each member of staff of the Directorate; and which Ministers other than the Secretary of State have had responsibility for the Directorate since its establishment. [268956]

Mr. McFadden: BERR and its predecessor Departments have been responsible for company law issues since the 19th century. The name "Corporate Law and Governance Directorate" (CLG) was adopted in 2005 when responsibility for company investigations transferred to the Insolvency Service. Highlights of CLG work appear on the Department's annual report (Sections 2.91-2.94)

http://www.berr.gov.uk/files/file47097.pdf

My hon. Friend the Parliamentary Under-Secretary of State currently has responsibility for company law issues in succession to my hon. Friend the Minister for Trade, Development and Consumer Affairs. The directorate also houses BERR's Better Regulation Unit, which reports to the Minister for Communications, Technology and Broadcasting in succession to the Minister for Competitiveness and Small Business. In 2007-08 the running costs of the directorate were £2,198,000.

Departmental Sick Leave

Norman Lamb: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many staff in his Department were recorded as having been on sick leave for over 12 months on 31 December in each of the last five years. [256636]

Mr. McFadden: The total number of staff recorded as having been on sick leave for over 12 months on 31 December over the past five years is 12.

It is not possible to give a breakdown for each individual year in order to avoid possibly revealing the identity of the individual staff members.

Departmental Standards

Mr. Philip Hammond: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what estimate he has made of the cost to his Department of measuring compliance with its targets under its public service agreements in the last 12 months for which figures are available. [266563]

Mr. McFadden: BERR leads delivery of three CSR 07 public service agreements, (PSA 1—Raise the productivity of the UK economy; PSA 6—Deliver the conditions for business success in the UK; PSA 7—Improve the economic performance of all English regions and reduce the gap in economic growth rates between regions), and two PSAs outstanding from SR 04, (PSA 6—Enterprise; and PSA 10—Maximising potential in the workplace.)

Compliance with BERR's PSAs is measured as progress against a number of indicators. Costs to BERR of measuring progress against these PSAs are as listed. In most cases progress is measured against externally produced data, provided at no cost to BERR.

Progress against the CSR 07 PSA 1 is measured wholly against externally produced data, provided at no cost to BERR.

Costs to BERR of producing data for measuring progress against the CSR 07 PSA 6 are estimated at £66,000 in the last 12 months.

Costs to BERR of processing data for measuring progress against the CSR 07 PSA 7 are estimated at £43 in the last 12 months.

Costs to BERR of producing data for measuring progress against the SR 04 PSA 6 are estimated at £144,550 (excluding VAT) in the last 12 months.

Costs to BERR of producing data for measuring progress against the SR 04 PSA 10 are estimated at £1,000 in the last 12 months.

Total costs to BERR of producing data for measuring progress against these PSAs are estimated at £211,593 in the last 12 months.

EU Internal Trade

Mr. Austin Mitchell: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what recent assessment he has made of the steps necessary to implement the Mutual Recognition Regulation (EC) 764/2008; and what timetable he has set for taking such steps. [268449]

Mr. Thomas: The Mutual Recognition Regulation places two main obligations on EU member states—to ensure that specified fair and transparent procedures are followed when enforcing rules which exclude from their market products lawfully marketed elsewhere in the EU, and to establish a contact point to provide information on these rules.

An exercise to identify affected UK rules has been completed. Officials have been working with other Departments and enforcement authorities responsible for these rules in order to ensure that their procedures are in line with the requirements of the regulation.

The product contact point for the regulation is being established within the Businesslink.gov.uk website, including new guidance pages within the international trade area of the site. Guidance pages on individual regulations are being amended or expanded as necessary to provide the additional information specified in the regulation.

The regulation comes into effect on 13 May 2009. New enforcement procedures will take effect from this date, and the new section on Businesslink.gov.uk is expected to go live by this date.

Mr. Austin Mitchell: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many cases the Action Single Market/UK SOLVIT centre had handled on the latest date for which figures are available. [268450]

Mr. Thomas: The latest figures available for the number of cases handled on SOLVIT is for the period January to December 2008. During that period the Action Single Market/UK SOLVIT centre dealt with 247 cases.

Mr. Austin Mitchell: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform whether his Department has designated a product contact point in respect of the Mutual Recognition Regulation (EC) 764/2008. [268451]

Mr. Thomas: The product contact point for the Mutual Recognition Regulation will be located within the Businesslink.gov.uk website. Businesslink.gov.uk already provides the majority of the information on technical rules required by the regulation, so locating the contact point here minimises the cost and takes advantage of the site's high brand recognition and traffic.

India: Overseas Trade

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what steps he *(a)* has taken and *(b)* plans to take to increase trade between the UK and India; how much his Department and its predecessor spent on the promotion of trade between the UK and India in each of the last five years; and if he will make a statement. [268503]

Mr. Thomas: UK Trade and Investment (UKTI) is the principal Government organisation for the promotion of trade and investment with India. In 2007 UKTI increased its staff in India by 18 per cent. to better support British business and inward investment. In

2007-08 and 2008-09 UKTI allocated grant funding to the newly created UK India Business Council (UKIBC)—a business-led organisation specifically tasked with supporting Government in the promotion of bilateral trade, business and investment with the two countries. We have also refreshed the UK-India Joint Economic Trade Committee (JETCO) dialogue, which my noble Friend the Secretary of State co-chaired with Minister Nath this January as part of a wider trade and investment visit to India.

We continue actively to develop trade and investment links, through the ongoing work of our team in India and the UK, and have commissioned research by the UKIBC into the opportunities represented by India's second tier cities—the results of which will be released shortly. We are also recruiting a supply chain specialist and have put in place a new initiative, Fiscal Compass, which will help UK companies capitalise on overseas business opportunities arising from fiscal stimulus spending, including in India. My noble Friend the Minister for Trade and Investment is planning to visit India later this year, to further promote trade and investment.

UKTI annual programme expenditure (£)[1] on the promotion/support of trade with India over the last 5 years was:

	£
2008-09	[2]2,033,261
2007-08	1,964,507
2006-07	1,842,356
2005-06	1,213,472
2004-05	872,234

[1] Figures may slightly under-report the total programme expenditure on India as they do not take account of UKTI multi-market initiatives where the India costs are not specifically identified.
[2] Estimated outturn.

Staff and establishment costs,[1, 2] for the UKTI team in India over the last 2 years were:

	£
2007-08	7,018,563.28
2006-07	5,028,766.97

[1] 2008-09 figures are not yet available.
[2] Staff and establishment cost for UKTI in the years prior to 2006-07 were included in the general FCO compliment in India and are therefore not specifically identifiable.

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many officials in his Department at each grade work on the promotion of trade between the UK and India; and what the equivalent numbers were for the Department of Trade and Industry in *(a)* 1983, *(b)* 1987 and *(c)* each year between 1998 and 2007. [268510]

Mr. Thomas: UK Trade and Investment (UKTI) is the principal body concerned with promoting trade and investment with India. The network in India consists of officials (full-time equivalent) at the following grades:

	AA	*AO*	*EO*	*HEO*	*SEO*	*Grade 7*	*Grade 6*	*SCS*	*Total*
Present	1.9	9.3	32.1	34.95	0.7	3.7	1.7	1.95	86.3
2007	6.35	34.99	8	23.85	1.7	1.95	1.8	1.78	80.42
2006	3.1	35.35	7.8	20.63	2.65	2.05	0.8	1.6	73.98
2005	4.1	37.48	7.35	20.26	2.7	1.95	0.55	1.95	76.34

Historical staffing levels for the period 1998 to 2004 are not available in a format that provides a meaningful comparison with the subsequent data.

The South Asia Team in International Group, UKTI consists of seven officials and is predominantly focused on India but it also has responsibility for trade and investment issues in other South Asian markets.

Similarly other officials in UKTI and BERR contribute towards the promotion of trade between the UK and India but it is not possible to quantify exact staffing levels as this is only part of their role.

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how much was allocated by his Department to the UK-India Business Council in each of the last two years; for what purposes; and if he will make a statement. [268516]

Mr. Thomas: In each of the two financial years 2007-08 and 2008-09 we paid to the UK-India Business Council (UKIBC) a grant of £1,000,000.00.

The purpose of the grant is to finance the UKIBC's advice and assistance to UK businesses doing or seeking to do business in India. This complements the services offered by UKTI in the UK.

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what assistance his Department provides to Indian businesses wishing to *(a)* invest in the UK and *(b)* take part in joint ventures with UK companies; how much was made available for these purposes in each of the last two years; and if he will make a statement. [268517]

Mr. Thomas: UKTI, within BERR, provides services to companies not only from India, but across the globe. This includes: promoting the attractiveness of the UK to investors; a free consultancy service to foreign owned companies wishing to locate in the UK; direct access to Government Departments (and HMG policy) and introductions to private sector advisors wherever possible. Relationships between UKTI staff in London and overseas and with the UK regions provide a seamless service to clients.

UKTI, working with the regional development agencies and the devolved Administrations, maintains links with strategic companies once they have invested in the UK via the Investor Development programme. UKTI systematically gathers feedback on issues of concern to established inward investors, bringing these to the attention of relevant Government Departments and Ministers as appropriate.

UKTI does not offer specific services around joint ventures or mergers and acquisitions but provides services to assist with the trade and expansion efforts of companies that establish in the UK. UKTI does not provide finance to companies locating in the UK, but does provide strategic and operational advice via the UKTI/RDA/private sector networks.

Israel: Overseas Trade

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what steps *(a)* he has taken since September 2008 and *(b)* plans to take during the next 12 months to increase trade between the UK and Israel; how much his Department (i) has spent since September 2008 and (ii) plans to spend during the next 12 months on the promotion of trade between the UK and Israel; what recent representations he has received on increasing trade between the UK and Israel; and if he will make a statement. [268504]

Mr. Thomas: UK Trade and Investment (UKTI) provides a range of support services to British companies wishing to trade with or invest in Israel, through commercial teams based in both the UK and the British embassy in Tel Aviv.

UKTI support focuses, in particular, on business opportunities in high technology sectors, including biotechnology, health care, aerospace, information and communication technology, the environmental industries and financial and legal services. Information on commercial events in Israel is posted on the UKTI website (www.uktradeinvest.gov.uk) along with details of specific business opportunities in the market.

UKTI supports the work of the Israel British Business Council (IBBC) including bi-annual meetings in Tel Aviv and London, and also supports a broad range of activities aimed at boosting bilateral trade and investment, including trade missions to Israel, inward missions by Israeli firms to trade fairs in the UK and promotional events aimed at encouraging Israeli companies to list in London and do business which brings benefits to Britain.

Information on annual expenditure on trade promotion is unavailable due to the length of time it would take to research these figures.

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how much trade with Israel contributed to the UK's gross domestic product in each of the last two years; what recent discussions he has had with his Israeli counterpart on increasing trade between the UK and Israel; and if he will make a statement. [268505]

Mr. Thomas: The benefits of international trade to gross domestic product (GDP) result from greater economic efficiency due to a combination of increased competition in markets, relative comparative advantages, economies of scale, increased opportunities for learning, and greater incentives for innovation. Due to the difficulty of differentiating between the impact of trade and other factors on growth, it is not possible to quantify precisely the impact of trade with another country on GDP.

The following table indicates the scale of UK trade in goods and services to Israel for the years 2006-07 as a proportion of GDP:

	2006	*2007*
UK exports to Israel: % of UK GDP at market prices	0.13	0.12
UK imports from Israel: % of UK GDP at market prices	0.10	0.10

Geographical data for trade in 2008 are due to be published at the end of July.

I have not met my Israeli counterpart but there are regular exchanges between officials.

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how much was allocated by his Department to the Israel Britain Business Council in each of the last two years; for what purposes; and if he will make a statement. [268513]

Mr. Thomas: UK Trade and Investment (UKTI) allocates £25,000 annually for the activities of the Israel-Britain Business Council (IBBC). This funding supports UKTI's efforts to increase trade and investment with Israel. UKTI officials work closely with both the director of the IBBC and other UK members, to try to ensure the best fit between the activities of the Business Council and UKTI's strategic priorities for business with Israel, including the financial services, health care and high technology sectors.

Kenya: Overseas Trade

Andrew Rosindell: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what the monetary value of trade between Kenya and the UK was in 2008. [269481]

Mr. Thomas: According to HM Revenue and Customs Overseas Trade Statistics, in 2008 UK exports of goods to Kenya were worth about £194 million and UK imports of goods from Kenya were worth about £316 million.

The Office for National Statistics is likely to publish its first estimates of 2008 UK trade in services with Kenya on 31 July. Their Balance of Payments Pink Book estimates for 2007 trade in services were UK exports to Kenya worth about £136 million and UK imports from Kenya worth about £182 million.

Legal Opinion

Grant Shapps: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what the cost was of external legal services engaged by his Department in each year since its establishment. [251361]

Mr. McFadden: Since this Department was established in July 2007, it has spent the following on external legal services:

	£ million
2007-08[1]	9.8
2008-09[2]	8.2

[1] From July onwards.
[2] Up to 22 January 2009.

Lord Jones of Birmingham

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform which countries were visited by Lord Digby-Jones in a Ministerial capacity during his time as a Minister in his Department; and what the cost of each visit was. [268521]

Mr. Thomas: Since 1999 the Government have published the total cost of all overseas travel by Ministers and a list of all overseas travel by Cabinet Ministers costing over £500. From 20[illegible] the list included details of overseas visits undertaken by all Ministers. This information for the last financial year was published in July 2008. Details for the last financial year will be published as soon as possible. All ministerial travel is undertaken in accordance with the "Ministerial Code".

Members: Correspondence

Sir Michael Spicer: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he will reply to the letter from the hon. Member for West Worcestershire, dated 29 January 2009, transferred from the Department for Communities and Local Government on 9 February 2009, on business diversification grants. [264880]

Mr. McFadden *[holding answer 20 March 2009]:* I responded to the hon. Member on 6 April 2009.

Mr. Winnick: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he plans to reply to the letter from the hon. Member for Walsall North of 12 February regarding a constituent. [265186]

Mr. McFadden *[holding answer 20 March 2009]:* This matter falls under the responsibility of the Insolvency Service and I have asked the chief executive to reply direct to my hon. Friend.

Steve Webb: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he plans to reply to the letter of 16 January 2009 from the hon. Member for Northavon, sent on behalf of Mr. C Simpson of Pucklechurch, on Royal Mail. [269021]

Mr. McFadden: I responded to the hon. Member on 27 March 2009.

Mr. Winnick: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he plans to reply to the letter from the hon. Member for Walsall North of 24 February 2009 with regard to a constituent; and what the reason is for the time taken to reply. [269038]

Mr. McFadden: I responded to my hon. Friend on 31 March. I apologise for the delay caused by the current high volumes of correspondence.

Minimum Wage

Mr. Jenkins: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what estimate he has made of the number of people in *(a)* the UK, *(b)* the West Midlands and *(c)* Tamworth constituency whose income rose following the introduction of the national minimum wage. [268387]

Mr. McFadden: The national minimum wage was introduced in 1999. The following numbers relate to the number of workers who were earning below the national minimum wage before its introduction.

Information on earnings is taken from the ONS' Annual Survey of Hours and Earnings (ASHE) dataset for 1998. Information for individual parliamentary constituencies is not readily available in the ASHE dataset. However, information is available on a Government office region basis.

(a) The number of workers in the UK that stood to benefit directly in the form of higher hourly wages from the introduction of the national minimum wage in April 1999 is estimated to be around 1,000,000.

(b) In the West Midlands, 100,000 workers were estimated to benefit directly from higher hourly wages as a result of the introduction to the national minimum wage in April 1999.

Morocco: Overseas Trade

Joan Walley: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what advice his Department issues to UK firms on trade with Morocco which involves exploitation of resources located in Western Sahara. [268194]

Mr. Thomas: UK Trade and Investment (UKTI) is able to provide British companies with detailed advice concerning business opportunities in Morocco when requested. They would also be advised of the sensitivities in respect of Western Sahara.

Motor Industry: France

Mr. Hoyle: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what discussions the Secretary of State has had with the European Commission on the compatibility with state aid rules of proposals by the French Government to provide loans to the French motor industry. [261372]

Mr. Thomas: My noble Friend the Secretary of State has discussed state aid matters with Commissioner Kroes on a number of occasions. On each occasion he has stressed the need to take enforcement action against abuses of the state aid rules by any member state.

Post Offices

Mr. Laws: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many post office branches were *(a)* opened and *(b)* closed in each year since 1979; and if he will make a statement. [269164]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Royal Mail: Pensions

Emily Thornberry: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what proportion of the *(a)* membership and *(b)* estimated deficit of the Royal Mail pension scheme is accounted for by employees of Post Office Ltd. [268189]

Mr. McFadden: Over time there have been a number of changes in the organisation and structure of the Royal Mail group of companies. This makes a clear and accurate split of the past membership and deficit of the pension scheme for Post Office Ltd. difficult to establish.

Under Government proposals to support the pension scheme (as part of the package of measures currently before Parliament in the Postal Services Bill) members of the scheme who do, or did, work for Post Office Ltd will be treated on an equivalent basis to other Royal Mail employees.

As at 31 March 2008 out of a total 181,276 permanent Royal Mail employees, 9,163 were engaged on Post Office Ltd. business. This represents approximately 5 per cent. of the current workforce.

Royal Mail: Reorganisation

Jon Cruddas: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what recent estimate he has made of the expenditure incurred to date on *(a)* consultants and *(b)* other companies engaged to advise on aspects of the proposed sale of parts of Royal Mail. [264318]

Mr. McFadden: The estimated expenditure incurred to the end of March 2009 on external advisers providing legal, financial and accountancy advice in relation to the partnership proposals for Royal Mail is £3.6 million.

Jon Cruddas: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what recent estimate he has made of the expenditure incurred on legal fees associated with the proposed sale of parts of Royal Mail. [264319]

Mr. McFadden: It is not appropriate for commercial reasons to reveal the costs incurred by a specific external adviser which would be the case in this instance. The total estimated expenditure incurred to the end of March 2009 on external advisers providing legal, financial and accountancy advice in relation to the partnership proposals for Royal Mail is £3.6 million.

South West Regional Development Agency

Mr. Harper: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what reductions in *(a)* capital and *(b)* resource funding for the South West of England Regional Development Agency his Department has made in the last 12 months; and if he will make a statement. [268641]

Mr. McFadden: The following reductions were made to the indicative allocations given to the South West of England Regional Development Agency (SWRDA) at the start of the comprehensive spending review 2007 period:

£ million

	SWRDA contribution	
Programme[1]	*Resource*	*Capital*
£20 million Flood Work and Climate Change (2008-09)	1.5	—
£25 million HomeBuyers Direct Initiative (2009-10)	—	[2]20.0
£275 million HomeBuyers Direct Initiative (2010-11)	—	[2]—
£17 million Fuel Efficiency Initiative (2008-09)	1.1	—
£25 million Small Business Finance Scheme (2009-10)	[3]3.5	—
£25 million Small Business Finance Scheme (2010-11)	[3]—	—
£10 million Equity Fund (2009-10)	—	0.7

[1] Figures represent total for the regions

[2] Indicates brace

[3] Indicates brace

Zimbabwe: Overseas Trade

Andrew Rosindell: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what the monetary value of trade between the UK and Zimbabwe was in the last five years. [269490]

Mr. Thomas: Data on recorded trade in goods with Zimbabwe are shown in the following table:

£ million

	UK exports of goods to Zimbabwe	*UK imports of goods from Zimbabwe*
2004	26	48
2005	22	44
2006	20	27
2007	23	20
2008	21	37

Source:
HMRC Overseas Trade Statistics

Estimates of trade in services are not available for the full five years. ONS data published in the UK Balance of Payments Pink Book 2008 were:

£ million

	UK exports of services to Zimbabwe	*UK imports of services from Zimbabwe*
2006	21	31
2007	32	37

COMMUNITIES AND LOCAL GOVERNMENT

Council Tax

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many second homes there were in each council tax band in each region in England in each year from 1997 to 2008. [269502]

John Healey: Details of the number of second homes in each council tax band in each region in England since 2004 are given in the following table. Information for previous years is not available. The data are a snapshot taken in the autumn of each year and are as reported to Communities and Local Government by all billing authorities in England on their annual council tax base (CTB) returns.

	Bands								
	A	*B*	*C*	*D*	*E*	*F*	*G*	*H*	*Total*
1 November 2004

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many chargeable dwellings in each council tax band there were in each region in each year from 1997 to 2008. [269503]

John Healey: Details of how many chargeable dwellings in each council tax band there were in each region in each year from 1997 to 2008 are shown in the following table. The data are a snapshot taken in the autumn of each year and are as reported to Communities and Local Government by all billing authorities in England on their annual council tax base (CTB) returns.

Numbers of chargeable dwellings in each council tax band for England, but only at an all England total level, are published by the Department in statistical releases, most recently on 26 November 2008, and in the annual publication 'Local Government Financial Statistics'.

Councillors

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 19 January 2009, *Official Report*, columns 1072-3W, on councillors: Arun, whether the Audit Commission plans to obtain bank account information from councillors in other local authorities during its next National Fraud Initiative national data matching exercise. [268732]

John Healey: This is an operational matter for the Audit Commission and I will ask the chief executive of the Audit Commission to write to the hon. Member direct.

Letter from Steve Bundred, dated 20 April 2009:

Your Parliamentary question on whether the Audit Commission plans to obtain bank account information from councillors in other local authorities during its next National Fraud Initiative national data matching exercise has been passed to me to reply.

All local authorities will be required to provide payroll data relating to a salary, members' allowance or other remuneration for the next scheduled exercise, NFI 2010/11. The fields required for data matching are set out in a 'data specification'. The bank account and sort code are included on the payroll data specification. This information is required under powers in Part 2A of the Audit Commission Act 1998.

A copy of this letter will be placed in *Hansard*.

Departmental Carbon Emissions

Greg Clark: To ask the Secretary of State for Communities and Local Government for how long her Department has followed the Carbon Trust's Carbon Management programme. [269287]

Mr. Khan: Communities and Local Government signed up to the Carbon Trust's Carbon Management Programme in April 2006. Since then, the Department has continued to work with the Carbon Trust to identify opportunities to reduce further carbon emissions.

In 2007-08, the Department reduced its electricity and gas consumption in its main headquarter building by 22 per cent. and 37 per cent., respectively, compared to 2006-07.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in her Department in each year since 2005; and at what cost. [268271]

Mr. Khan: The information is as follows.

Ministerial Team

The costs of laptops in 2005 to 2007 are not recorded separately and could be provided only at disproportionate cost.

	Number	*Cost (£)*
2005	1	n/a
2006	1	n/a
2007	1	n/a
2008	1	1,047
2009	1	1,047

n/a = Not available.

Special advisers

The cost and numbers of any laptops provided to special advisers in 2005 and 2006 are not recorded separately and could be provided only at disproportionate cost.

	Number	*Cost (£)*
2005	n/a	n/a
2006	n/a	n/a
2007	1	1,178
2008	2	[1]1,047
2009	0	—

n/a = Not available.

[1] Plus one laptop reused.

The Department as a whole (figures include those above). Cost information for 2005 and 2006 is not centrally held and can be provided only at disproportionate cost. A further 31 laptops were purchased during 2007 as part of a wider project to upgrade the CLG network and costs cannot be disaggregated from the overall project costs.

	Number	*Cost (£)*
2005	237	n/a
2006	140	n/a
2007	61	72,089
2008	123	182,582
2009	159	285,227

n/a = Not available.

Departmental Manpower

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many of her Department's staff were employed to work on housing-related matters in each of the last five years. [265004]

Mr. Khan: The following table shows the numbers of staff employed in Housing Directorates in each of the last five years. There may be other staff engaged in housing-related matters, though it is not possible to ascertain this without incurring disproportionate cost.

Number

Current Directorate Title	*2004*	*2005*	*2006*	*2007*	*2008*
Housing Delivery and Homelessness	102.54	108.49	114.01	110.62	138.12
Housing Management and Support	57.18	61.49	64.66	50.76	73.85
Housing Markets	38.77	40.61	43.39	49.63	66.55
Grand Total	198.49	210.59	222.06	211.01	278.52

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in her Department in each year since 2005. [268254]

Mr. Khan: This information is not held centrally and could be supplied only at disproportionate cost. However, details of our total spend on mobile devices (hardware and running costs) for the last five years are in the following table:

	Total (£)
2004-05	94,487
2005-06	94,904
2006-08	112,650
2008-09	166,985

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in her Department in each year since 2005. [268298]

Mr. Khan: This information is not held centrally and could be supplied only at disproportionate cost.

However, the Department currently has 684 mobile devices on contract from our supplier; 284 of these devices are BlackBerrys.

Departmental Pay

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether the system for the remuneration of *(a)* board members and *(b)* special advisers in her Department includes an incentive or bonus element. [268835]

Mr. Khan: The Communities and Local Government board consists of eight executive board members and five non-executive board members (although one non-executive board member post is vacant at present). There is no system of incentives or bonuses for the non-executive board members.

The eight executive board members are all senior civil servants and therefore eligible to be considered for annual performance bonuses under senior civil service pay arrangements. Our senior civil service staff members are assessed against a range of factors, such as:

> The achievement of their Prime Objective which focuses on the way in which they lead, manage and develop their staff;
>
> Degree to which business objectives are met;
>
> Delivery for Ministers;
>
> Demonstration of skills such as judgment, leadership and the PSG skills;
>
> Effective resource management

There is no system of incentives or bonuses for special advisers in the Department.

Eco-Towns: Publicity

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the cost was of producing the eco-town video on the directgov website; and which organisation produced the video. [268830]

Margaret Beckett: The cost of producing the video 'Animated eco-town walkthrough—what might an eco-town look like?' on the Directgov website was £21,500 excluding VAT. It was produced by Smoothe, a design agency procured through the COI.

Empty Property: Essex

Bob Spink: To ask the Secretary of State for Communities and Local Government how many residential dwellings were vacant in *(a)* Essex and *(b)* Castle Point in each of the last five years. [268429]

John Healey: The number of empty residential dwellings in Castle Point and Essex in each of the last five years are shown in the following table.

	Castle Point	*Essex*
1 November 2004	664	14,501
10 October 2005	712	15,097
9 October 2006	811	16,331
8 October 2007	862	16,045
6 October 2008	877	18,365

Data for Essex are the sum of all vacant dwellings in the individual billing authorities including Castle Point but excluding figures for Southend-on-Sea and Thurrock unitary authorities.

The data are as reported annually to Communities and Local Government on the CTB and CTB (Supplementary) forms that are completed by all billing authorities in England. The data relate to particular dates in the autumn of each year.

Faith Communities Capacity Building Fund

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 11 March 2009, *Official Report*, column 483W, on the Faith Communities Capacity Building Fund, for what reasons the British Humanist Association was funded from the fund. [268692]

Mr. Khan: The British Humanist Association received £25,000 in order to establish and support a network of grassroots humanists to work and build relationships with statutory bodies and participate in groups that advise local authorities on matters of religion or belief, or encourage dialogue between people with different beliefs. The project aimed to enable local humanists to network with faith and 'interfaith' groups and participate in groups convened by local authorities, and thus contribute towards good relations and community cohesion.

The Faith Communities Capacity Building Fund was designed to increase the capacity of all religion and belief communities to engage with each other and with wider society. The guidance notes for the fund included the following definition:

> "For the purpose of this fund, a faith organisation is defined as one where the majority of its members adhere to the same faith. They share a world view or 'life stance' that involves a set of moral and spiritual values and beliefs about the nature of life and the world. They will usually, but not always, believe in a god or gods."

The application was made under the "relationships with local, regional or national Government" category—one of the capacity building categories of the fund. In its application, the BHA described their faith tradition as: "Humanist (though we do not think of ourselves as a 'faith', we meet the definition of 'faith' given in the guidance)".

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 11 March 2009, *Official Report*, column 483W, on the Faith Communities Capacity Building Fund, what funding her Department and its agencies have allocated to the British Humanist Association other than through the Faith Communities Capacity Building Fund; and for what purposes. [268693]

Mr. Khan: None.

Fire Services

John McDonnell: To ask the Secretary of State for Communities and Local Government what her estimate is of the number of fires prevented in each *(a)* region and *(b)* fire authority area in the most recent year for which figures are available. [268797]

Mr. Khan: There is no mechanism that allows Communities and Local Government to access how many fires have been prevented. However the latest provisional figures show that in 2007-08, fire and rescue services in England attended a total of 293,900 fires, a 32 per cent. reduction on the 2001-02 figure of 431,800.

Fire Services: Manpower

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many fire stations in each fire and rescue authority area were staffed in *(a)* whole and *(b)* part by retained fire fighters in the latest period for which figures are available. [268922]

Mr. Khan: The number of fire stations in England by type of staffing system is set out as follows.

As at 31 March 2008 there were 774 fire stations staffed wholly by retained duty firefighters in England. Stations with the Day-crew, Nucleus and 'Wholetime-other duty' system staffing typically use both whole-time and retained firefighters.

Fire stations in England as at 31 March 2008

Type of fire station	*Number*
Whole-time 2:2:4 shift	551
Day-crew	97
Wholetime-other duty system	14
Nucleus	3
Retained duty system	774
Total	1,439

Fire Services: Pay

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the average cost was of employing a full-time equivalent *(a)* fire fighter and *(b)* retained fire fighter in the latest period for which figures are available. [268921]

Mr. Khan: The latest available data for average costs of employing fire fighters are for 2007-08 and are shown in the table.

Average costs of employing fire fighters[1], England, 2007-08

	Whole-time	*Retained*
Headcount (31 March 2008)	30,826	14,166
Full-time equivalents (31 March 2008)	30,580	n/a
Cost (£ million)	1,276	110
Average cost per full-time equivalent (£)	41,738	n/a

n/a = Not applicable

[1] Costs are collected as totals covering all roles from Fire Fighter to Brigade Manager.

[2] Pay, employer pension contributions and employer national insurance contributions.

Annual returns to Communities and Local Government

Homes and Communities Agency

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much the Homes and Communities Agency and its predecessor bodies spent on staff in each year since 1997. [266191]

Margaret Beckett: The predecessor bodies of the HCA were English Partnerships, the investment arm of the Housing Corporation, and the Academy for Sustainable Communities. A range of programmes previously delivered by Communities and Local Government (CLG) also transferred to the Agency.

The last 10 years spending on staff for English Partnerships and the Housing Corporation can be found in their published Annual Report and Accounts. The spend for the Academy was consolidated within the Annual Report and Accounts of its parent organisation, Yorkshire Forward. The salary costs for ASC staff were £42,000 in 2005-06, the year of its establishment, £972,000 in 2006-07 and £1.28 million 2007-08. The costs of CLG staff that transferred to the Agency were included within Departmental Annual Reports and could be disaggregated only at disproportionate cost.

The HCA is responsible to Parliament for ensuring public funds are properly used. The Agency is also subject to scrutiny by the National Audit Office. Information on staff costs for the year ending 31 March 2009 will be published in the HCA's Annual Report and Accounts which will be laid before Parliament later this year.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much the *(a)* the Homes and Communities Agency and *(b)* Tenants Service Authority have spent on IT since their inception. [266193]

Margaret Beckett: Since their establishment the Homes and Communities Agency (HCA) has spent approximately £0.8 million on IT for former English Partnerships, Academy for Sustainable Communities and transferred CLG staff. The spend for the Tenants Services Authority (TSA) is £0.9 million which covers the costs of IT relating to former Housing Corporation staff. This cannot be disaggregated between those staff that transferred to the HCA and those that transferred to the TSA.

Housing: Construction

Mr. Walker: To ask the Secretary of State for Communities and Local Government what recent assessment she has made of the social effect on communities of the Government's target of building 3 million new homes by 2020 not being met. [268745]

Mr. Iain Wright: The Housing Green Paper "Homes for the future: more affordable, more sustainable" published in July 2007 set out the Government's ambition to increase housing supply. This step-change in housing delivery is necessary to ensure adequate housing supply that is crucial in order to improve housing affordability, ease the pressure on social housing waiting lists and improve economic productivity.

Mr. Kidney: To ask the Secretary of State for Communities and Local Government how many new units of social housing have been built in *(a)* Stafford constituency, *(b)* the West Midlands and *(c)* England in the last 12 months. [269725]

Mr. Iain Wright: Information on new build social housing by constituency is not available. The following table shows the number of new build for social rent in Stafford local authority, the West Midlands region, and England in 2007-08.

Area	2007-08
Stafford local authority	60
West Midlands region	2,060
England	25,196

The social rent new build figures are from the Homes and Communities Agency Investment Management System (IMS), and Housing Strategy Statistical Appendix (HSSA) returns and P2 house building returns submitted to CLG by local authorities and the National House-Building Council (NHBC).

Not all social rented housing is provided by new build completions, as some supply can come from acquisitions. An additional 3,980 social rented homes were acquired in England in 2007-08; these are not included in the table. The social rent figures differ from the number of affordable homes provided, because the affordable housing figures also include intermediate rent and low-cost home ownership, as well as social rent.

Housing: Low Incomes

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what the difference was between *(a)* the actual rate of (i) inflation, (ii) wage inflation, (iii) discount rate for scheme liabilities and (iv) increase for pensions and *(b)* the assumptions of each made by the Homes and Communities Agency and its predecessors in each of the last three years; [264083]

(2) what assumptions about *(a)* inflation, *(b)* wage inflation, *(c)* discount rate for scheme liabilities and *(d)* rate of increase for pensions were made by the Homes and Communities Agency and its predecessors in each of the last three years. [264066]

Margaret Beckett: Homes and Communities Agency employees are covered by three pension schemes. The English Partnerships Pension scheme was renamed the Homes and Communities Agency Pension scheme with effect from 1 December 2008, when the Homes and Communities Agency replaced English Partnerships as the Principal Employer. It was adopted as the scheme of choice for the Homes and Communities Agency and is used to provide benefits for new employees of the Agency. Due to legacy arrangements on the formation of the Agency, some employees are covered by the Westminster Pension Fund or the West Sussex Pension Fund, both Local Government Pension schemes.

An actuarial valuation of each of the schemes is carried out every three years to assess the value of liabilities and future funding requirements. The assumptions used for the valuation are set by the Trustees or Administering Authority after taking actuarial advice. As part of the valuation, an analysis of the experience over the previous three years is carried out. The assumptions used to value each Scheme's liabilities are long term assumptions and are intended to reflect experience over the lifetime of the scheme. Details of the most recent available actuarial valuation for each of the schemes are as follows:

The experience for the three years following the valuation of the Homes and Communities Agency Pension scheme as at 31 March 2005 was as follows (the Trustees' long-term assumptions at 31 March 2005 are shown in brackets):

	Percentage p.a.
(a) average inflation	3.4 (2.8)
(b) average wage inflation	4.5 (4.8)
(c) average investment return/discount rate	6.2 (6.2)[1]
(d) average rate of pension increase	3.6 (2.8)

[1] This figure is a weighted average, assuming a return of 6.7 per cent. on assets backing pre-retirement liabilities and 5.2 per cent. on assets backing post-retirement liabilities.

The approximate impact on the Scheme's ongoing liabilities due to actual experience differing from the assumptions over the three years to 31 March 2008 is as follows:

	Increase/decrease
(a) average inflation higher than assumed (includes impact on pension increases)	increase by £1.1 million
(b) average wage inflation lower than assumed	decrease by £0.7 million
(c) rate of pension increase higher than assumed	increase by £0.8 million

The next actuarial valuation has an effective date of 31 March 2008 and is currently being finalised.

The experience for the three years following the valuation of the Westminster Pension Fund as at 31 March 2004 was as follows (the long-term assumptions at 31 March 2004 are shown in brackets):

	Percentage p.a.
(a) inflation	3.3 (2.9)
(b) wage inflation (estimate)	5.6 (4.4)
(c) investment return/average discount rate	13.0 (5.7)
(d) rate of pension increase	3.3 (2.9)

The financial impact for the (then) Housing Corporation over the three years to 31 March 2007 is as follows:

(a) change in financial assumptions: reduced funding position by approximately £2.5 million.

(b) investment returns greater than expected: improved funding position by approximately £16.9 million.

The assumptions used to determine the value of the ongoing liabilities of the Westminster Pension Fund for the triennial actuarial valuation of the Fund as at 31 March 2007 were as follows:

	Percentage p.a.
(a) inflation	3.2
(b) wage inflation	4.7
(c) (i) discount rate for members whilst in service	6.2
(ii) discount rate for members other than whilst in service	5.2
(d) rate of pension increase	3.2

An analysis of the experience over the three years following the valuation is not yet available. The next actuarial valuation will have an effective date of 31 March 2010.

The experience for the three years following the valuation of the West Sussex County Council Pension Fund as at 31 March 2004 was as follows (the long-term assumptions at 31 March 2004 are shown in brackets):

	Percentage p.a.
(a) average inflation	2.9 (2.9)
(b) average wage inflation	[1]3.5 (4.4)

	Percentage p.a.
(c) average investment return/discount rate	14.1 (6.1)
(d) average rate of pension increase	2.9 (2.9)

[1] This is an average figure for the Fund as a whole, based on average pensionable salaries at 31 March 2004 and 31 March 2007

A breakdown of the impact on the Fund's ongoing liabilities due to actual experience differing from the assumptions is not disclosed in the actuarial valuation report. However at a high level the financial impact for the whole fund over the three years to 31 March 2007 is as follows:

(a) change in financial assumptions: reduced funding position by £156 million.

(b) investment returns greater than expected: improved funding position by £278 million.

The assumptions used to determine the value of the ongoing liabilities of the West Sussex county council pension fund for the triennial actuarial valuation of the fund as at 31 March 2007 were as follows:

	Percentage p.a.
(a) inflation	3.2
(b) wage inflation	[1]4.7
(c) discount used to value liabilities	6.1
(d) rate of pension increase	3.2

[1] Plus allowances for promotional increases.

An analysis of the experience over the three years following the valuation is not yet available. The next actuarial valuation will have an effective date of 31 March 2010.

Housing: Sales

Grant Shapps: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of first-time home buyers there were in each year between 1987 and 1996. [268763]

Mr. Iain Wright: The numbers of first-time buyers purchasing a home with a mortgage in the UK in each year between 1987 and 1996 are presented as follows. This shows between 1987 and 1996 there were 4,689,400 first-time buyers. There were 5,272,500 between 1997 and 2008.

	Number of first-time buyers purchasing with a mortgage, UK
1987	523,700
1988	580,500
1989	411,200
1990	409,200
1991	436,200
1992	467,000
1993	519,500
1994	552,000
1995	435,300
1996	463,900

Source:
Council of Mortgage Lenders

Infrastructure Planning Commission

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the number of applications for judicial review of discussions taken by the Infrastructure Planning Commission which will be made in the first three years of its operation. [268833]

Mr. Iain Wright: The number of judicial reviews the Infrastructure Planning Commission is likely to face in the first three years of its operation depends on a number of unknown variables. As such it is not possible to make a meaningful estimate of their number. However, I am confident that the Commission will ensure its decisions are robust and would be able to defended legal challenges vigorously.

Local Government

Andrew Selous: To ask the Secretary of State for Communities and Local Government which *(a)* employment and *(b)* classes of employment are incompatible with source as a councillor in a local authority where the authority is or, is deemed to be, the employer. [269089]

John Healey: A person who is employed by a local authority is disqualified for being a member of that local authority whatever their occupation.

Local Government: Bank Services

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 9 February 2009, *Official Report*, columns 1695-6W, on local government finance, if she will seek to obtain information on the levels of exposure of local authorities to the Madoff hedge fund. [268729]

John Healey: I have no plans to seek further information on levels of exposure on local government finance due to investment in the Madoff hedge fund.

Mr. Cameron: To ask the Secretary of State for Communities and Local Government what capitalisation directions to local authorities have been issued by her Department for back pay for equal pay claims to date; and for what value in each case. [269681]

John Healey: Since 2006, the Government have issued over £1.1 billion in capitalisation directions to provide support for councils to deliver equal pay for thousands of employees.

In 2006-07, Communities and Local Government approved capitalisation directions for equal pay for 35 authorities totalling £160.5 million. A full list of these authorities and the sums they received is available at:

http://www.local.communities.gov.uk/finance/capital/cap0607appls.xls

The actual amount of capital expenditure used by individual authorities is available from their accounts.

In 2007-08, 46 applications for equal pay capitalisation were approved, totalling £500 million. The full list of authorities who received capitalisation directions, including the amount of capitalisation used is available at:

http://www.local.communities.gov.uk/finance/capital/equalpay0708.pdf

A further £455 million approved for 34 councils in 2008-09. The amount of capitalisation used by each individual authority will not be published until September 2009. However, a list of the councils who received directions is available at:

http://www.communities.gov.uk/news/corporate/977615

Local Government: Pensions

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) what guidance has been provided to local authorities on *(a)* the setting of investment strategies in respect of the local government pension scheme and *(b)* appropriate levels of exposure to equities; [268829]

(2) what requirements there are on trustees of local government pension schemes in relation to maximising returns on their investments. [268934]

John Healey: Investment decisions in the local government pension scheme in England and Wales are the responsibility of designated administering authorities whose decisions are subject to the provisions governing the management and investment of funds. Authorities are required to publish a Statement of Investment Principles, including their policy on the expected rate of return on investments, the types of investments to be held and the way in which risks are measured and managed. Decisions must be taken on the basis of expert advice, and comply with the regulations and with each authority's published Statement of Investment Principles and Funding Strategy Statement. Authorities must have regard also to guidance issued by CIPFA on the preparation of these statements and on funding and investment issues.

Those responsible for investment decisions in the scheme are also required to act within general legal principles relating to their fiduciary duty and the investment of monies held in trust.

Local Government: Redundancy

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance her Department has issued to local authorities on redundancy payments to local authority staff. [268834]

John Healey: The Department issues no general guidance on redundancy payments. All decisions to terminate a local authority employment, for any reason, are matters for the local authority involved.

Mobile Homes

Andrew George: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 24 February 2009, *Official Report*, column 550W, on mobile homes, if she will place in the Library a copy of her Department's ad hoc survey on local authorities in England. [268828]

Mr. Iain Wright: The 2006 ad hoc survey of park home sites in England has now been placed in the Library. The data were provided by local authorities and my Department is not responsible for their accuracy.

Mortgages

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what information her Department and its agencies hold on the amount of mortgage lending which has funded mortgages *(a)* for new build, *(b)* for first-time buyers and *(c)* with high loan to property value ratios in the last (i) six and (ii) 12 months. [268933]

Mr. Iain Wright: The Department holds data on completed mortgages used for house purchase via the Regulated Mortgage Survey (RMS) which is supplied by the Council of Mortgage Lenders. The RMS covers about 60 per cent. of the UK mortgage market and includes details on whether the mortgage was used to purchase a new build property, whether the buyer was a first-time buyer and the loan amount and the purchase price of the property.

From this survey we have the following information on the amount of mortgage lending which has funded mortgages for house purchase *(a)* for new build, *(b)* for first-time buyers and *(c)* with high loan to value ratios in the (i) six months to February 2009 and (ii) the 12 months to February 2009:

Mortgage lending for house purchase (based on amount loaned) as a percentage of all mortgage lending for house purchase

	Six months to February 2009 (Percentage)	*12 months to February 2009 (Percentage)*
New build	6.8	7.3
First-time buyers	30.0	30.0
High loan to value ratios (90 per cent. or over)	17.1	24.0
Total gross mortgage lending for house purchase (£ million)	25,624	67,841

Notes:

1. These data are not necessarily representative of all mortgage lending as they are based on the Regulated Mortgage Survey data that Communities and Local Government hold which include only mortgages for house purchase and cover only about 60 per cent. of the market. 2. The total gross mortgage lending for house purchase is published by the Council of Mortgage Lenders.

Mortgages: Government Assistance

Steve Webb: To ask the Secretary of State for Communities and Local Government how many households in each local authority area have received assistance under her Department's mortgage rescue scheme in circumstances where a housing association has purchased a property that would otherwise have been repossessed; and if she will make a statement. [269068]

Margaret Beckett: As part of the monitoring arrangements for the Government mortgage rescue scheme, headline data will be published on a monthly basis on the Department's website starting this month. We plan to publish data for January, February and March 2009 on 21 April 2009.

Non-Domestic Rates: Small Businesses

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to her Department's announcement of 31 March 2009 on business rates, what the estimated cost to the Exchequer will be of the proposed changes. [268889]

John Healey: The impact assessment, which will be prepared alongside the necessary secondary legislation, will set out details of the cost to the Exchequer and include costs to local government which are being considered as part of the Government's new burdens rules.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to her Department's announcement of 31 March 2009 on business rates, (1) whether an impact assessment of the proposals has been prepared; [268890]

(2) what estimate she has made of the likely take-up rate of the deferred business rate scheme. [268888]

John Healey: There are approximately 1.7 million hereditaments in England that could potentially be eligible for deferring the increase in their business rate bills. An impact assessment will be undertaken as part of the process of making the necessary secondary legislation.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to her Department's announcement of 31 March 2009 on business rates, what funding will be provided to local authorities to cover the costs of rebilling. [268891]

John Healey: Any policy which increases the cost of providing local authority services is subject to the new burdens principle. The Government are committed to ensuring that all net new burdens falling on local authorities are fully and properly funded. The business rates announcement is covered by the new burdens principle, and the potential net impacts on local authorities will be fully funded.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the eligibility criteria are for small business rate relief in *(a)* England outside London and *(b)* London. [268838]

John Healey: The information is as follows:

England—Small Business Rate Relief Scheme

The eligibility rules for small business rate relief can be found at:

www.businesslink.gov.uk

and are summarised in the following table:

Rateable value threshold criterion	*Multiplier payable*	*Relief granted*	*Note*
Below £5,000—England and London	Small business rate multiplier for 2008-09 is 48.1p	50 per cent. rate relief on liability	This relief is available for occupiers of one property But other properties with a rateable value under £2,200 can be disregarded in deciding whether the single occupancy criterion has been met. However, the rateable value(s) of such properties are included in determining whether the threshold criterion has been met.
Between £5,000 and £10,000—England and London	As above	Relief is on a declining sliding scale from 50 per cent. to zero reducing at 1 per cent. per £100 of rateable value	
Between £10,000 and £21,499 in London or £10,000 and £14,999 elsewhere	As above	No relief granted	
Above £14,999 in England and £21,500 in London	National non-domestic rate multiplier for 2009-10 is 48.5p	No relief granted	The small business rate relief scheme is funded by businesses that pay the national non-domestic rates multiplier

Planning: Gardens

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what powers local authorities have to exclude gardens from brownfield designation within their local development framework. [269501]

Mr. Iain Wright: Residential gardens are contained within the definition of previously-developed land in Annex B of Planning Policy Statement 3 (PPS3). However, paragraph 43 of PPS 3 says that local authorities can, when deciding the priority for the location of new housing, set out in their local development framework the contributions expected from different categories of previously-developed land. This could include residential gardens. If garden development is a particular issue for an authority, then they could also introduce a plan policy on development in gardens which, for example, could set out the circumstances and type of development that would or would not be acceptable.

On the 2 April the Government announced, via a response to a parliamentary question from the hon. Member for Sutton and Cheam, a review into the evidence on the extent and impact of housing development on garden land in order to establish whether there was a genuine problem. Further details can be found at:

http://www.publications.parliament.uk/pa/cm200809/cmhansrd/cm090402/text/90402w0048.htm#0904032000060

Regional Government: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 6 March 2009, *Official Report*, columns 1885-86W, on joint economic commission, what funding has been given to each regional economic commission; what the remit of each is; who the members of each are; and how each was appointed. [268730]

Mr. Khan: As part of the Government's response to the economic downturn, the Ministers for each English region have established regional economic fora, which they co-chair with the chair of the regional development agenda. These short-term, ad hoc advisory groups, whose members are unpaid, have no dedicated budgets and are supported by secretariats provided by their Government offices. The members come from a variety of bodies with an interest in the regional economy, including public sector bodies, local authorities, business organisations, unions and the third sector and were invited to take part in the meetings by the co-chairs of the fora.

Details of the remits and members of each forum have been placed in the Library.

Sheltered Housing

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many people in each *(a)* region and *(b)* local authority area (i) live in and (ii) are on a waiting list for sheltered accommodation. [268472]

Mr. Iain Wright: Information is collected on sheltered housing schemes for older people that are in receipt of Supporting People funding. The information collected does not include a count of people but shows the number of household units that can be accommodated in the sheltered housing. A household unit can be one or more persons. A table has been placed in the Library which includes the number of household units that can be accommodated in such sheltered housing services, by region and administering authority area as at 31 December 2008.

No information is collected centrally on waiting lists for sheltered accommodation.

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many sheltered accommodation *(a)* units and *(b)* schemes there are in each (i) region and (ii) local authority area. [268473]

Mr. Iain Wright: Information is collected on sheltered housing schemes for older people that are in receipt of Supporting People funding. The information collected includes the number of household units that can be accommodated in the sheltered housing. A household unit can be one or more persons.

A table has been placed in the Library showing *(a)* the number of household units that can be accommodated and *(b)* the number of sheltered housing services for older people in receipt of Supporting People funding as at 31st December 2008, by region and administering authority area.

Sarah Teather: To ask the Secretary of State for Communities and Local Government what guidance her Department issues to local authorities on the employment of wardens and care workers in sheltered accommodation schemes. [268474]

Mr. Iain Wright: The Department for Communities and Local Government does not issue any guidance on the employment of wardens and care workers in sheltered accommodation.

However Communities and Local Government has recently refreshed the Quality Assessment Framework (QAF) which is a voluntary scheme that sets out the standards expected in the delivery of housing-related support services, including staff quality and competence—although not mandatory, the majority of administering authorities continue to use the QAF to continue to drive up the quality standards of service providers and to ensure that services adapt to meet the changing needs of clients.

Social Rented Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how many social homes there are expected to be in *(a)* London, *(b)* Birmingham, *(c)* Liverpool, *(d)* Leeds, *(e)* Sheffield, *(f)* Bristol, *(g)* Manchester, *(h)* Leicester, *(i)* Coventry, *(j)* Kingston upon Hull, *(k)* Bradford, *(l)* Stoke-on-Trent, *(m)* Wolverhampton, *(n)* Nottingham, *(o)* Plymouth, *(p)* Southampton, *(q)* Reading, *(r)* Derby, *(s)* Dudley and *(t)* Newcastle upon Tyne in 2010; [268570]

(2) how many social homes there were in *(a)* London, *(b)* Birmingham, *(c)* Liverpool, *(d)* Leeds, *(e)* Sheffield, *(f)* Bristol, *(g)* Manchester, *(h)* Leicester, *(i)* Coventry, *(j)* Kingston upon Hull, *(k)* Bradford, *(l)* Stoke-on-Trent, *(m)* Wolverhampton, *(n)* Nottingham, *(o)* Plymouth, *(p)* Southampton, *(q)* Reading, *(r)* Derby, *(s)* Dudley and *(t)* Newcastle upon Tyne in (i) 2007 and (ii) 2008; and how many there were on 1 March 2009. [268572]

Mr. Iain Wright: I refer the hon. Member to the answer I gave to the hon. Member for Brent, East (Sarah Teather) on 2 April 2009, *Official Report*, column 1510W. A table has already been placed in the Library to provide the number of social homes owned by local authorities and registered social landlords in 2008, for every local authority area.

A new table showing the number of social homes owned by local authority and registered social landlords in 2007, for every local authority area has been deposited in the Library.

Information on local authority (LA) owned housing stock is collected from local authorities on the Housing Strategy Statistical Appendix (HSSA) return. This information is recorded as at 1 April and is published on the Communities and Local Government website in Table 116 at:

http://www.communities.gov.uk/documents/housing/xls/140882.xls

Information on Registered Social Landlords' (RSL) stock is collected through the Tenant Services Authority's Regulatory and Statistical Return (RSR)and is recorded as at 31 March.

Figures for RSLs are for social housing stock owned in England only and include general needs, supported housing and housing for older people acommodation. Both self-contained units and bed spaces are included because a split for local authority areas is not available.

Information is not available for the expected number of social homes in 2010 or for the number of social homes on 1 March 2009.

Mrs. Maria Miller: To ask the Secretary of State for Communities and Local Government what guidance the Tenant Services Authority gives to housing associations in respect of the affordability to tenants of rent increases. [269061]

Mr. Iain Wright: On 29 January 2009, the Tenant Services Authority issued a guidance note to housing associations entitled "Guideline limit for rent increases"—it can be found on their website at:

http://www.tenantservicesauthority.org/server/show/ConWebDoc.16647

The guidance note refers to a circular (04/08) from the former Housing Corporation entitled "Rent, Rent Differentials and Service Charges". This is available to download at:

http://www.housingcorp.gov.uk/server/show/ConWebDoc.156337PHPSESSID8beeeea4f3ff072063dbe6c96d431a4

Travelling People: Caravan Sites

Anne Milton: To ask the Secretary of State for Communities and Local Government how many responses to its consultation on Traveller sites the South East England regional assembly has rejected because the views in the response are considered by the Assembly to be discriminatory. [268153]

Mr. Iain Wright: The regional assembly held this consultation and took decisions on how to treat responses. It has not yet submitted the outcome to the Secretary of State.

Mr. Fallon: To ask the Secretary of State for Communities and Local Government what steps her Department is taking on the provision of sites for Travellers in those districts adjoining Sevenoaks district council. [269751]

Mr. Khan: The provision of pitches for the Gypsy and Traveller community throughout the south-east of England is currently being reviewed as part of the region's spatial strategy. The review is being undertaken by the South East England regional assembly, as the regional planning body. The next stage in the Gypsy and Travellers regional spatial strategy review will be a public consultation, followed some months later by an examination in public.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health what estimate he has made of the number of abortions which will take place in each year to 2015; and if he will make a statement. [268524]

Dawn Primarolo: No assessment has been made of the number of abortions which will take place in each year to 2015. The reasons women seek an abortion are complex and may be subject to a number of different factors, and this means that it is very difficult to formulate robust estimates.

Abortion: Costs

Mr. Randall: To ask the Secretary of State for Health what the estimated cost to the NHS was of providing abortions up to nine weeks of pregnancy in the latest period for which figures are available. [268588]

Dawn Primarolo: This information is not collected centrally.

Mr. Randall: To ask the Secretary of State for Health what the estimated cost to the NHS was of providing morning-after pills in the latest period for which figures are available. [268589]

Dawn Primarolo: The cost of emergency contraception (morning after pills) for the latest period for which figures are available is given in the following table. The cost is for drugs listed in the British National Formulary (BNF) under paragraph 7.3.5, emergency contraception.

This figure is taken from the prescription cost analysis system, supplied by the prescription pricing division of the Business Services Authority, and covers prescriptions dispensed in England. It is based on an analysis of prescriptions dispensed in the community i.e. by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England. The data do not cover drugs dispensed in hospitals (including mental health trusts), private prescriptions, or community contraceptive services.

	£000
2007	1,892.3

Cost is the net ingredient cost and is given in thousands.

Accident and Emergency Departments: Death

Dr. Kumar: To ask the Secretary of State for Health what the causes of death at accident and emergency departments in *(a)* England and *(b)* the North East in each of the last 10 years. [268362]

Mr. Bradshaw: The information requested is not collected centrally. The hon. Member may wish to approach local national health service organisations for further information.

Alcoholic Drinks: Health Education

Dr. Kumar: To ask the Secretary of State for Health what steps his Department is taking to inform people of the effects on health of excessive alcohol consumption in *(a)* England, *(b)* the North East and *(c)* Middlesbrough South and East Cleveland constituency. [268356]

Dawn Primarolo: The Department has invested £6 million per year in a national communications campaign, launched in May 2008, to improve the public's understanding of units of alcohol and alcohol related health harm. The campaign's purpose is to give clear information about how many units are in alcoholic drinks and to raise awareness of the risks to health of regularly drinking too much. Its messages are being released across television, press, outdoor, radio and on-line channels.

We intend that this campaign should be sustained over a number of years. The key tasks in 2009-10 will be to optimise the unit messaging, by continuing to focus on the recommended unit guidelines and to communicate the health risks associated with drinking regularly in excess of these guidelines through media channels such as television and print.

We also provide web-based support and advice and an enhanced helpline available nationally.

We have recently completed an innovative pilot to target information to neighbourhoods, individuals and their families and encourage those most affected to seek advice and support, including help from health professionals locally. Initial results are promising and development work will continue in 2009. The aim is to develop an evidence base for effective local action by national health service bodies.

The north-east has launched a regional alcohol office, which is committed to changing the drinking culture in the north-east by informing, influencing and educating people about the health and other dangers caused by alcohol misuse, both to themselves as individuals and to the wider community and by encouraging evidence-based NHS interventions.

Middlesbrough Primary Care Trust has received £150,000 in additional funding in 2008-09, as an Early Implementer of the Alcohol Improvement Programme, to implement high impact changes and other measures, which will address health problems caused by alcohol misuse. This includes providing £32,000 funding for extra identification and brief advice sessions in hospitals, accident and emergency departments, and primary care.

Ambulance Services: Airwave Service

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will publish each document concerning Airwave which he has sent to ambulance trusts since November 2008. [267881]

Mr. Bradshaw: No formal documentation has been issued to ambulance trusts with regards to Airwave although regular communication takes place between the Department and ambulance trusts; this includes planning documentation related to the implementation of the radio project and regular reports to ambulance chief executives on progress to date.

Antidepressants

Norman Lamb: To ask the Secretary of State for Health (1) how many prescriptions for each selective serotonin reuptake inhibitor were dispensed in each of the last five years; and how many were dispensed to persons aged over 65 years; [269729]

(2) how many prescriptions for each selective serotonin reuptake inhibitor were dispensed to persons aged *(a)* under 10, *(b)* 10 to 15 and *(c)* 16 to 25 years in each of the last five years. [269731]

Phil Hope: The number of items of Selective Serotonin Reuptake Inhibitors (SSRIs) dispensed in England is available by calendar year from the Prescribing Cost Analysis database.

The number of items dispensed for each formulation is given in the following table.

Selective Serotonin Reuptake Inhibitors (SSRIs) prescription items dispensed in the community in England, 2003 to 2007

Thousand

Drug name	*2003*	*2004*	*2005*	*2006*	*2007*
Citalopram Hydrobromide	4,210.1	4,615.7	5,077.9	6,265.5	7,830.7
Escitalopram	627.6	1,033.5	1,358.8	1,466.3	1,373.9
Fluoxetine Hydrochloride	4,288.0	4,409.8	4,394.5	4,690.1	5,045.7
Fluvoxamine Maleate	31.6	30.4	29.6	29.8	29.9
Paroxetine Hydrochloride	2,869.3	2,388.3	2,040.2	1,864.9	1,765.9
Sertraline Hydrochloride	1,790.3	1,834.3	1,845.1	1,910.7	2,032.8
Total[1]	13,816.9	14,312.0	14,746.1	16,227.1	18,078.9

[1] Totals may not match individually aggregated figures due to rounding.

Notes:

1. SSRI drugs listed are those classified within the British National Formulary paragraph 4.3.3.
2. Information is not available on the age of a person receiving a particular drug or group of drugs.

Source:

Prescription Cost Analysis (PCA) system

Autism: Health Services

Mr. Kidney: To ask the Secretary of State for Health (1) how many providers of NHS services for people with autism are *(a)* direct NHS, *(b)* private, *(c)* voluntary and *(d)* independent providers; and how many such providers are classified as social enterprises; [269523]

(2) how much funding his Department provided for the commissioning of autism services in the last year for which figures are available. [269524]

Phil Hope: National health service services are commissioned locally and information on the types and numbers of providers of NHS services for people with autism is not held centrally.

For 2007-08, and also for the Comprehensive Spending Review 07 (2008-11), the Department did not provide grants for the commissioning of autism services.

A statutory duty of partnership requires primary care trusts and NHS trusts to participate in local strategic partnerships and the development of local area agreements when agreeing commissioning plans for the delivery of autism services in their locality. The Department published on 2 April this year "Services for adults with autistic spectrum conditions (ASC): good practice advice for primary care trust and local authority commissioners", which reminds commissioners of the need to plan for autistic services and provides best examples of how they may be implemented. A copy of this publication has been placed in the Library.

Blood

Mr. Andrew Turner: To ask the Secretary of State for Health what records *(a)* his Department and *(b)* NHS bodies hold on the (i) source of individual blood batches used in the NHS and (ii) destinations to which blood batches used in the NHS have been forwarded; and on how many occasions his Department has sought to trace the (A) origin and (B) destination of blood batches in the last 12 months. [268663]

Dawn Primarolo: The Department holds some records on the source of individual donations of blood and blood components given by donors who subsequently developed variant Creutzfeldt-Jakob disease. However, these records contain no information that identifies the patients concerned.

The Department holds no records on the hospitals or other destinations to which individual units of blood components are sent, or on the number of occasions the Department sought information on the origin and destination of blood components.

In England and North Wales, the collection, processing, testing and issue of blood products to hospitals is the responsibility of NHS Blood and Transplant (NHSBT).

In accordance with the Blood Safety and Quality Regulations (2005), records kept by NHSBT uniquely identify each donor, each blood unit collected, and each component prepared, whatever its intended purpose. These records contain sufficient information to ensure each donation, unit and blood component can be identified and traced at each processing stage, and as far as the hospitals which receive the products. The time limit for retention of records is for a period of not less than 30 years.

Cardiovascular System: Children

Mr. Dhanda: To ask the Secretary of State for Health (1) what funding is available for measures to reduce extreme vascular malformations in children in Gloucestershire; [269331]

(2) what guidance his Department has issued to primary care trusts on the reduction of extreme vascular malformations in children. [269332]

Ann Keen: The majority of cases of congenital heart disease are isolated defects and not associated with any other disease. Many cases have no clear cause. However, the Department and the National Institute for Clinical Excellence have issued advice and guidance to help reduce known risk factors. This covers: vaccination against rubella; ensuring that diabetic women achieve good glycaemic control prior to conception and throughout the pregnancy; encouragement to women to seek the advice of their family doctors before conception if they are taking any medicine, as some prescription drugs increase the likelihood of congenital heart disease; and advice to avoid alcohol during pregnancy.

Funding is a matter for the national health service locally.

CJD: Screening

Mr. Hancock: To ask the Secretary of State for Health pursuant to the answer of 27 March 2009, *Official Report*, columns 756-7W, on CJD: screening, what the criteria are for validation of a test for variant Creuzfeldt-Jakob disease. [269064]

Dawn Primarolo: Any item of equipment for a variant Creutzfeldt-Jakob disease test kit must meet the essential safety requirements specified in the In Vitro Diagnostic Medical Devices Directive.

The device must perform as intended by the manufacturer and meet criteria relating to sensitivity, specificity, accuracy, repeatability and reproducibility.

Mr. Hancock: To ask the Secretary of State for Health what rights family members of those who have died of variant Creuzfeldt-Jakob disease (vCJD) have in relation to the use of their relatives' blood samples for the purposes of *(a)* research into and *(b)* validation of a blood screening test for vCJD. [269218]

Dawn Primarolo: Such samples can only be used for the purposes for which consent was given. Consent may be withdrawn at any time.

Mr. Hancock: To ask the Secretary of State for Health pursuant to the answer of 27 March 2009, *Official Report*, column 757W, on blood donation screening, if he will make an assessment of the merits of giving access to blood samples of those who have died of variant Creuzfeldt-Jakob disease (vCJD) to companies which have developed a blood screening test for vCJD. [269219]

Dawn Primarolo: A process, overseen by the independent OD Resource Centre Oversight Committee, is already in place to enable appropriate access to the small number of blood samples from variant Creutzfeldt-Jakob (vGD) disease patients. Companies developing vCJD screening tests are already participating in this process.

Congenital Abnormalities: Compensation

Sir Paul Beresford: To ask the Secretary of State for Health how much compensation the Government has paid out to people who had birth defects caused by the side-effects of pharmaceutical treatment in the last 30 years. [269030]

Ann Keen: The Department's financial records indicate that no such compensation has been paid in the period since 2001-02.

Information prior to this date could be provided only at disproportionate cost.

Contraception

Mr. Amess: To ask the Secretary of State for Health what research his Department has *(a)* undertaken and *(b)* evaluated to determine whether there is a relationship between access to emergency contraception and teenage sexually-transmitted infection rates; and if he will make a statement. [268436]

Dawn Primarolo: The Department has not undertaken or evaluated any research on the relationship between access to emergency contraception and teenage sexually transmitted infection rates.

Mr. Amess: To ask the Secretary of State for Health which schools are taking part in the project to allow girls to ask for emergency contraception by text message; on which basis each school was selected; and if he will make a statement. [268522]

Dawn Primarolo: This information is not collected centrally. However, the Department supports innovative approaches to ensuring that young people have access to sexual health advice.

Departmental Carbon Emissions

Greg Clark: To ask the Secretary of State for Health whether his Department has adopted the Carbon Trust's Carbon Management Programme. [266733]

Mr. Bradshaw: The Department's consultant, Clouds Environmental Consultancy Ltd., is currently working with the Department and the Carbon Trust to produce a report recommending the appropriate scope for the full Carbon Management Programme. Once this is completed we intend to commence the full programme by early summer 2009.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Health how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since 2005; and at what cost. [268265]

Mr. Bradshaw: The Department issues laptop computers to individuals conducting work on behalf of the Department based upon business need. No distinction is made between the allocation of such devices to Ministers, special advisers, civil servants or other staff working on behalf of the Department. Historical records of the allocation of laptops to specific individuals are not kept.

Based upon current allocation we can state the following:

Ministers, three laptops;

Special advisers no laptops allocated currently; and

Civil servants and others, working on behalf of the Department have 2,346 laptops.

The costs of the specific laptops allocated to individuals are not held.

Departmental Domestic Visits

Tim Loughton: To ask the Secretary of State for Health how many times *(a)* he and *(b)* each other Minister in his Department has visited his Department's offices at Quarry House, Leeds since June 2007. [268233]

Mr. Bradshaw: Ministers of this Department have had a number of meetings with Leeds departmental staff in Leeds and by videoconference. The Department makes as much use as possible of technology in holding meetings between Ministers and staff based in Leeds to help reduce both travel costs and carbon emissions. In 2007, the Secretary of State for Health, the then Parliamentary Under-Secretary of State my hon. Friend the Member for Bury, South (Mr. Lewis) and the Minister of State my right hon. Friend the Member for Bristol, South (Dawn Primarolo) and met staff at an all-staff event at a conference venue in Leeds. In 2008, the Secretary of State my hon. Friend the Member for Brentford and Islesworth, the Parliamentary Under-Secretary of State my hon. Friend the Member for Brentford and Isleworth (Ann Keen), the Minister of State my right hon. Friend the Member for Bristol, South (Dawn Primarolo) and the then Parliamentary Under-Secretary of State my hon. Friend the Member for Bury, South (Mr. Lewis) met staff at the next all-staff event in Leeds, which was also based at a conference venue. In 2009, Ministers attended the Leeds all-staff event by videoconference. The dates on which Ministers have had meetings within Quarry House itself are in the following table.

Date of visit	*Minister*
15 August 2007	Parliamentary Under-Secretary of State for Health services (Ann Keen)
20 September 2007	Secretary of State (Alan Johnson)
6 March 2008	Parliamentary Under-Secretary of State (Lord Ara Darzi)
28 August 2008	Secretary of State (Alan Johnson)

Departmental Energy

Greg Clark: To ask the Secretary of State for Health what steps have been taken by *(a)* his Department and *(b)* its agencies to improve the thermal efficiency of their buildings in the last 12 months. [266759]

Mr. Bradshaw: The Department and its agencies (Medicines and Healthcare product Regulatory Agency and NHS Purchasing and Supply Agency) have not undertaken any steps to improve the thermal efficiency of our buildings in the last 12 months.

We have been working with the Carbon Trust over the past two years to identify energy saving measures, and this has been reflected in an improvement in our performance on energy efficiency in 2007-08, compared with 2006-07. We have a number of further initiatives planned, which should improve these figures further in the coming year.

On 12 December 2008, the Sustainable Development Commission published its latest annual Sustainable Development in Government report, which sets out Government's performance against these and other targets. The Department was ranked in fourth place across Government, with an overall mark of 87 per cent.

Greg Clark: To ask the Secretary of State for Health how much *(a)* electricity, *(b)* gas and *(c)* other fuel was used by (i) his Department and (ii) each of its agencies in each of the last 10 years. [267333]

Mr. Bradshaw: The Department and its Executive Agency NHS Purchasing and Supply Agency (PASA) have used the following amounts:

Electricity	*Department (kWh)*	*NHS PASA (kWh)*
1999-2000	14,081,000	813,129
2000-01	13,802,000	622,901
2001-02	13,417,000	648,947
2002-03	13,780,000	593,896
2003-04	13,913,000	578,984
2004-05	14,220,000	580,332
2005-06	13,454,000	640,780
2006-07	12,340,000	670,197
2007-08	12,065,000	718,863

Gas	*(kWh)*	*(kWh)*
1999-2000	6,411,000	829,826
2000-01	6,180,000	566,937
2001-02	4,237,000	560,301
2002-03	5,268,000	507,060
2003-04	5,208,000	482,176
2004-05	5,604,000	444,397
2005-06	4,636,000	506,310
2006-07	3,835,000	429,092
2007-08	4,176,000	523,680

We do not have any records prior to 1999-2000.

The Medicines and Healthcare products Regulatory Agency are unable to provide this information as the data is not available from their landlord.

These figures are based on actual usage of fuel over the period and differ slightly from the figures submitted as part of the Sustainable Development in Government (SDiG) reporting process, as some buildings were excluded from this exercise. SDIG figures are also weather corrected data.

The information in this answer covers the Department's central administrative estate of Richmond House, Wellington House and Skipton House. The Department is a minor occupier in New Kings Beam House (HM Revenue and Customs) and Quarry House in Leeds (Department of Work and Pensions) and the data for these sites is not available to us. Reductions in 2005-06 and 2006-07 are due to the closure of two London buildings. Eileen House and Hannibal House.

The data supplied for NHS PASA relates to energy used at their Reading, Chester and Sheffield sites.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Health what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department in each of the last five years; and if he will make a statement. [269556]

Mr. Bradshaw: In October 2008, an assessment of the Department's information and communications (ICT) infrastructure by the Information Services Division provided estimates of energy consumption and carbon emissions within the categories of information technology device listed in the following table.

Type of device	*Annualised estimated energy consumption (kWh)*	*Estimated annual energy cost (£)*	*Annualised tonnes of CO_2 (includes the effect of Datecentre efficiency)*
Servers	1,329,892	138,511	1,350
Desktops	1,609,503	166,423	864
Laptops	300,835	31,106	162
Printers	166,221	17,187	89
Monitors	392,246	40,558	211
Total	3,795,451	392,785	2,676

There has been no survey of the energy and carbon emissions from the ICT estate prior to October 2008. It would incur disproportionate cost to identify the components of the infrastructure and assess energy consumption in the five years prior to the survey. A governance structure is being put into place to ensure that ongoing change in the ICT infrastructure is tracked against a carbon reduction roadmap to meet government targets.

Jenny Willott: To ask the Secretary of State for Health what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269557]

Mr. Bradshaw: Since the publication of the Greening Government ICT Strategy, the Department has only purchased personal computers, laptops and monitors that meet Energy Star performance criteria and EPEAT environmental criteria. The policy for procurement of these items includes specification of low energy processors and high efficiency power conversion units.

A managed print service has been put in place to reduce the number of printers on the estate and to increase the efficiency of the printing service. This will reduce if not remove the need for new printers over the next two to three years.

A policy is in place to redeploy existing suitable devices before procurement is approved and to extend the life of assets while they continue to meet minimum performance criteria.

A green governance process is being established to ensure that any other new information and communications technology purchase is specified within a framework that ensures the performance of the device or service is optimised to reduce carbon emissions, that existing suitable equipment is redeployed before a new purchase is approved, and that virtualisation technology is used where possible in the solution definition.

Jenny Willott: To ask the Secretary of State for Health what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269577]

Mr. Bradshaw: The Department operates centralised information technology services and does not measure or deliver services by division. Average server capacity utilisation has not been monitored over the past five years and it would be at disproportionate cost to provide this information.

As part of the Department's Greening information and communications technology (ICT) strategy and action plan, the Department's provider of ICT services under an outsource agreement has been commissioned to review current server utilisation and to cost opportunities for server optimisation. This report will be delivered in May 2009.

Jenny Willott: To ask the Secretary of State for Health how many (a) printers and (b) multi-function devices with printing functions were in use in each division of his Department in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269602]

Mr. Bradshaw: The majority of printers and multi function devices (MFDs) are located in open plan accommodation and are available for use by any group within reach of the device. Information is not held on numbers of devices per division. The figures provided represent the total numbers of devices in use across the estate.

Historically, information has not been held on an annual basis of the numbers of printers and MFDs in use before 2007. In August 2007, an audit was undertaken in advance of the introduction of a new managed print service. The numbers were as follows:

	Duplex	*Non Duplex*
MFDs	116	12
Printers	467	736

The numbers, as of January 2009, with the managed print service fully implemented are as follows:

	Duplex	*Non Duplex*
MFDs	216	0
Printers	189	36

Two-sided printing is the default setting for all duplex enabled devices.

Jenny Willott: To ask the Secretary of State for Health how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269624]

Mr. Bradshaw: In the 2008-09 financial year, the Department procured:

60 personal computers, 100 per cent. meeting EPEAT gold and Energy Star criteria;

119 laptops, 100 per cent. meeting EPEAT silver and Energy Star criteria; and

175 flat screen monitors, 100 per cent. meeting EPEAT silver and Energy Star criteria.

All the products above listed as meeting Energy Star criteria are deemed to meet the Buy Sustainable-Quick Win standard. There is no breakdown by division available as devices are procured in bulk and allocated on individual need for the duration of the requirement. It would incur disproportionate cost to identify allocation of new equipment by division.

There were no purchases of individual printers, scanners and inkjet printers in the year as the Department procured a contract for a managed print service, deployed in 2007-08. The service replaced 1,500 individual printers with multifunctional devices and achieved significant carbon and financial savings.

External power supplies are purchased with laptops only and meet the required criteria of the EPEAT and Energy Start Standards.

Departmental Internet

Alun Michael: To ask the Secretary of State for Health what steps *(a)* his Department and *(b)* each of the agencies and public bodies for which his Department is responsible are taking to ensure the principles of digital inclusion are applied to information made available online by them. [268968]

Ann Keen: The Department takes the issue of digital inclusion seriously. Where digital services are offered to citizens, the Department is working with the agencies and with the national health service to ensure citizens are not disadvantaged due to access to relevant technology. The Department is participating in the preparation of the cross-government Digital Inclusion Action Plan and is active to ensure awareness across the system. The principal channel for tackling Digital Inclusion within health is through NHS Choices.

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Health how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005. [268247]

Mr. Bradshaw: The Department do not hold detailed historic records of BlackBerry devices provided specifically to Ministers and special advisers. Information is held on the bills for the BlackBerry and other mobile devices but do not differentiate between the costs of different types of device.

The purchase price of BlackBerry and mobile telephones varies dependant on the purchase price and the time of procurement and any negotiated deals or discounts available at the time. The quarterly bills comprise BlackBerry and mobile telephone phone contract costs and calls, calls made from the Departments offices to our mobile telephones and other data charges for devices such as those to allow broadband access for laptops. Therefore, providing the information in the form requested in the question would incur disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Health how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [268291]

Mr. Bradshaw: The Department issues mobile telephones and BlackBerry devices to individuals based upon business need. No distinction is made between the allocation of such devices to Ministers, special advisers, civil servants or other staff working on behalf of the Department. Historical records of the allocation to specific individuals are not kept.

From our current records we can state that the following are in use:

Ministers

Three BlackBerry devices;

Three mobile telephones.

Special advisers

Two BlackBerry devices;

One mobile telephone.

Civil Servants and others, working on behalf of the Department

1,092 BlackBerry devices;

1,363 mobile telephones.

Departmental Public Expenditure

Dr. Cable: To ask the Secretary of State for Health what his latest estimate is of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268120]

Mr. Bradshaw: Information on the amounts of capital resources so far allocated to strategic health authorities, NHS trusts and primary care trusts (PCTs) in 2008-09 have been placed in the Library.

Allocations for 2009-10 are based on financial plan returns from PCTs, NHS trusts and NHS foundation trusts; the returns from the trust sector are still incomplete, meaning that comprehensive estimates are not yet available. The process is expected to be finalised in the coming weeks and information on allocations is then available on a quarterly basis. Allocations for 2010-11 are also in the process of being finalised.

The Government have not set Departments' capital departmental expenditure limit (DEL) budgets for years beyond 2010-11. Capital DEL budgets for 2011-12 and beyond are a matter for the next spending review. The Government do, however, publish projections for PSNI (public sector net investment) over the forecast period at Budgets and pre-Budget reports.

Departmental Rail Travel

Mr. Hurd: To ask the Secretary of State for Health what guidance his Department issues on whether members of staff may claim for travel in first class carriages on trains if there are no seats in standard class. [268547]

Mr. Bradshaw: The Department's staff expenses policy makes no specific provision for members of staff to travel in first class carriages on trains if there are no seats in standard class. The following extract from the staff expenses guide covers policy in this area.

> "For rail travel, staff in pay band Senior Executive Officer (SEO) and above may travel first class without separate approval. Staff below SEO may travel first class with permission from their line manager for specific business need. However, all staff should consider travelling standard class unless they have a special need related to their work such as the need for concentrated work prior to a meeting or privacy afforded by more spacious accommodation in first class. Very rarely should it be necessary to travel first class on short journeys, where the journey time is 30 minutes or less."

All staff are encouraged to book rail tickets in advance in order to reserve seats and to take advantage of any available discounted fares.

Departmental Research

Mike Penning: To ask the Secretary of State for Health pursuant to the answer of 20 March 2009, *Official Report*, column 1360W, on departmental publications, how many articles appearing in healthcare publications and journals in the last two years have been funded in whole and in part by *(a)* his Department and *(b)* its executive agencies. [267503]

Mr. Bradshaw: 21 advertorials (paid-for articles) in health care publications and journals have been funded in whole or in part by the Department's communications directorate in the last two years.

To identify this information against a wider definition would incur a disproportionate cost.

Mike Penning: To ask the Secretary of State for Health pursuant to the answer of 20 March 2009, *Official Report*, column 1360W, on departmental publications, how much *(a)* his Department and *(b)* its executive agencies spent on articles appearing in healthcare publications and journals in the last two years. [267504]

Mr. Bradshaw: The Department's communications directorate has spent £59,000 excluding VAT on advertorials (paid-for articles) in health care publications and journals in the last two years.

To identify this information against a wider definition would incur a disproportionate cost.

Departmental Training

Mr. Hurd: To ask the Secretary of State for Health what his Department's policy is on the practice of holding departmental away days outside the Department's buildings. [268539]

Mr. Bradshaw: Departmental awaydays are held at buildings other than those on the Department's estate when this is justified by business need.

The Department's 'Code of Business Conduct', which all staff must comply with, makes it clear that departmental officials should avoid providing hospitality at non-business locations unless there is a clear need to do so. The code also stresses that any hospitality provided should be modest and necessary for the effective discharge of the Department's business.

Doctors: Working Hours

Mr. Oaten: To ask the Secretary of State for Health what assessment he has made of the merits of a national audit to assess the adequacy of arrangements made by hospital trusts to fill NHS doctor rotas; and if he will make a statement. [269152]

Ann Keen: Strategic health authorities are assessing the adequacy of arrangements made by hospital trusts to fill national health service doctor rotas as part of their quality assurance monitoring for the implementation of the European Working Time Directive.

The UK Government's assessment of the national position was submitted to the European Commission at the end of January 2009.

This information is contained in the notification to the European Commission which has been placed in the Library.

Domestic Visits

Mike Penning: To ask the Secretary of State for Health how many times each of the Ministers in his Department visited *(a)* a hospital, *(b)* a dental practice, *(c)* an accident and emergency department, *(d)* a GP practice, *(e)* an ambulance service trust and *(f)* an independent sector treatment centre in the last 12 months; and if he will make a statement. [258319]

Mr. Bradshaw: As part of their official duties, departmental Ministers visit a variety of hospitals, dental practices, accident and emergency departments, general practitioner (GP) practices, ambulance service trusts and independent sector treatment centres. The following visits occurred during the period 18 February 2008 to 20 February 2009.

Visits by each Minister in the last 12 months were:

Alan Johnson

Type of organisation	*Number of visits from 18 February 2008 to 20 February 2009*
Hospital	23
A dental practice	3
An accident and emergency department	0
A GP practice	10
An ambulance service	0
An independent sector treatment centre	0

Lord Darzi

Type of organisation	*Number of visits from 18 February 2008 to 20 February 2009*
Hospital	13
A dental practice	0
An accident and emergency department	0
A GP practice	4
An ambulance service	0
An independent sector treatment centre	4

Ben Bradshaw

Type of organisation	*Number of visits from 18 February 2008 to 20 February 2009*
Hospital	10
A dental practice	0
An accident and emergency department	0
A GP practice	9
An ambulance service	1
An independent sector treatment centre	1

Ann Keen

Type of organisation	*Number of visits from 18 February 2008 to 20 February 2009*
Hospital	10
A dental practice	0
An accident and emergency department	0
A GP practice	0
An ambulance service	0
An independent sector treatment centre	0

Dawn Primarolo

Type of organisation	*Number of visits from 18 February 2008 to 20 February 2009*
Hospital	4
A dental practice	0
An accident and emergency department	0
A GP practice	0
An ambulance service	0
An independent sector treatment centre	0

Ivan Lewis (until October 2008)

Type of organisation	*Number of visits from 18 February 2008 to 20 February 2009*
Hospital	11
A dental practice	0
An accident and emergency department	0
A GP practice	0
An ambulance service	0
An independent sector treatment centre	0

Phil Hope (from October 2008 onwards)

Type of organisation	*Number of visits from 18 February 2008 to 20 February 2009*
Hospital	4
A dental practice	0
An accident and emergency department	0
A GP practice	0
An ambulance service	0
An independent sector treatment centre	0

General Practitioners: Standards

Mr. Stephen O'Brien: To ask the Secretary of State for Health what percentage of general practitioners' premises were above all minimum standards set by his Department in each primary care trust area at the most recent date for which figures are available; and what percentage in each primary care trust area did not meet minimum standards through not complying with the requirements of the Disability Discrimination Act 1995. [267441]

Mr. Bradshaw: Details of the minimum standards for general practitioner practice premises are set out in Schedule 1 of The National Health Service (General Medical Services - Premises Costs) (England) Directions 2004, a copy of which has been placed in the Library. Compliance with these standards is a matter for local primary care trusts (PCT) and each make their own arrangements for undertaking this assessment.

The most recent relevant data collected centrally was a snapshot return as at 31 March 2005 which was provided by PCTs. It has not been collected centrally since then. A copy was placed in the Library on 12 May 2006. The data is now four years out of date and does not reflect the investment in primary care premises that has taken place in the intervening period.

New premises that fully satisfy minimum standards are being provided under the NHS Local Finance Investment Trust (NHS LIFT) initiative. Over £1.5 billion in private sector capital has already been injected into GP premises and community facilities across the country with 48 NHS LIFT schemes established and another one in procurement. This has, to date, delivered 205 new buildings open to patients with another 25 under construction. Private sector capital has also been invested by third party developers who specialise in the primary care estate.

The NHS ProCure21 initiative has also provided premises that fully satisfy minimum standards. Of a total of £3.5 billion invested through that investment programme, over £400 million has been invested in primary care and community facilities across England. Of that amount, 36 projects with a value of £143 million have been completed and 33 projects with a value of £260 million are currently in the earlier stages of development.

General Practitioners: Tamworth

Mr. Jenkins: To ask the Secretary of State for Health how many general practitioner surgeries in Tamworth constituency have been *(a)* refurbished and *(b)* rebuilt in each of the last 11 years. [illegible]

Mr. Bradshaw: The information is not available in the format requested.

The only data collected centrally relates to a target in the Department's NHS Plan published on 1 July 2000. The target was to substantially refurbish or replace up to 3,000 family doctors' premises by 2004. This national target was achieved with a total of 2,848 by December 2004.

The data were not collected at constituency level but by strategic health authority (SHA); and also by primary care trust (PCT) from 2002-03. The PCT for Tamworth between 2000 and 2004 was Burntwood, Lichfield and Tamworth PCT, for which three premises were recorded as refurbished or replaced. However, as the data for this exercise was only collected on a PCT level from 2002-03, other premises may have been refurbished or replaced before this date. The total number of premises refurbished or replaced in the former Shropshire and Staffordshire SHA between 2000 and 2004 was 79.

Health Professions: Training

Norman Lamb: To ask the Secretary of State for Health what benchmark cost his Department uses for the training of a *(a)* midwife, *(b)* health visitor and *(c)* nurse. [268211]

Ann Keen: The national benchmark price for pre-registration training for both degree and diploma nursing students in the financial year 2008-09 was £7,273 outside London, and the average benchmark price for London was £7,746.

The national benchmark price for pre-registration training for both degree and diploma midwifery students in the financial year 2008-09 was £8,363 outside London, and the average benchmark price for London was £8,907.

There is no current benchmark cost for a health visitor as these are post-registration courses and the benchmark prices only apply to pre-registration courses.

Norman Lamb: To ask the Secretary of State for Health what estimate he has made of the average cost of *(a)* tuition, *(b)* bursary, *(c)* salary support and *(d)* other training costs for a (i) doctor, (ii) nurse, (iii) midwife and (iv) health visitor between entry onto a degree or diploma course and full registration in the latest period for which figures are available. [268214]

Ann Keen: The average cost of tuition, bursary, salary support and other training costs for a doctor, nurse and midwife between entry onto a degree or diploma course and full registration are shown in the following table. Information for health visitors is not held centrally.

£

Course	*Level of qualification*	*NHS bursary*	*Tuition fees*[1]	*Salary support*[2]	*Other training costs*[3]
Medicine	Degree	1,865	60,285	30,000	135,000
Nursing	Degree	12,309	22,530	—	—
Nursing	Diploma	19,467	22,530	44,325	—
Midwifery	Degree	13,335	25,905	—	—
Midwifery	Diploma	21,492	25,905	44,325	—

[1] For students studying medicine, for whom there is currently no commissioning strategic health authority, a students liability of £1,255 (standard rate) is met by the NHS Student Bursary Unit. All costs have been based on a five-year course and include the university tuition costs met by the Higher Funding Council for England.

[2] Salary support for nurses and midwives is an alternative to a bursary and applies only to seconded trainees from trusts.

[3] For doctors in training the other training costs relate to payments of Service Increment for Teaching paid to the trusts to support infrastructure costs and the costs of the doctors training the students. Costs of student loans provided by the Department for Innovation Universities and Skills have been excluded.

Health Services

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many *(a)* NHS hospitals, *(b)* other NHS organisations, *(c)* social care organisations, *(d)* hospices and *(e)* private hospitals he and his Ministers have visited since their appointments; and what the (i) purpose and (ii) duration of each visit was. [267474]

Mr. Bradshaw: The information requested has been placed in the Library.

Dr. Kumar: To ask the Secretary of State for Health (1) what funding his Department has allocated for the treatment and care of people diagnosed with *(a)* meningitis, *(b)* dementia and *(c)* osteoporosis in each of the last 10 years; [268360]

(2) how much funding his Department has allocated for the treatment and care of people diagnosed with Alzheimer's disease in each of the last 10 years. [268432]

Phil Hope: The Department does not allocate funding for specific illnesses.

Primary care trust (PCT) allocations provide funding to PCTs to treat and support people with these conditions. PCTs prioritise their spending based upon local need for services among their populace.

Mr. Cash: To ask the Secretary of State for Health if he will place in the Library a copy of the minutes of each meeting of *(a)* (i) the West Midlands Strategic Health Authority, (ii) the Mid-Staffordshire NHS Foundation Trust and (iii) North Staffordshire NHS Trust since 1 January 2003 and the Healthcare Commission since its inception. [268950]

Mr. Bradshaw: This information is not held centrally. The hon. Member may wish to approach the organisations listed directly, as they may publish or be able to provide the information requested. There is no such national health service (NHS) organisation as North Staffordshire NHS Trust. However, there is the University Hospital of North Stafford NHS Trust or North Stafford NHS Primary Care Trust. The Healthcare Commission (HCC) ceased to exist on 31 March 2009 and was replaced by the Care Quality Commission (CQC), which is the new health and adult social care regulator for England. CQC may be approached to provide historical HCC documents.

As stated in the publication 'Governing the NHS—a guide for Boards', which has been placed in the Library, there is an obligation on the boards of strategic health authorities, primary care trusts and NHS trusts to conduct themselves and their business in an open and transparent way that commands public confidence. As stated in 'The NHS Foundation Trust Code of Governance', published by *Monitor* the independent regular of NHS foundation trusts (FT), an FT's board of directors should follow a policy of openness and transparency in its proceedings and decision making unless this conflicts with a need to protect the wider interests of the public or the NHS foundation trust.

Health Services: Disabled

Dr. Kumar: To ask the Secretary of State for Health what expenditure his Department incurred in *(a)* England, *(b)* the North East, *(c)* the Tees Valley and *(d)* Middlesbrough South and East Cleveland constituency in respect of services for disabled people in each year since 2005. [268354]

Phil Hope: Data on local authority expenditure on social care services is collected and published by the NHS Information Centre for health and social care. Data is not collected centrally at constituency level.

A table showing gross current expenditure by local authorities broken down by primary client group for 2004-05 to 2007-08 has been placed in the Library.

Health Services: Greater London

Mr. Burrowes: To ask the Secretary of State for Health pursuant to the answer of 30 March 2009, *Official Report*, column 898W, on health services: Greater London, what assessment he has made of the effects on the revenue of primary care trusts in *(a)* Enfield and *(b)* London in (i) 2009-10 and (ii) 2010-11 of changes to the formula used to determine revenue allocations to such trusts. [269652]

Mr. Bradshaw: The 2009-10 and 2010-11 revenue allocations to primary care trusts (PCTs) were made on the basis of a new funding formula, recommended by the independent advisory committee on resource allocation.

The funding formula determines PCT target allocations. Actual allocations to PCTs depend also on the pace of change policy—how additional funding is distributed to move PCTs towards their target allocations. It is therefore not possible to say what the allocations would have been in 2009-10 and 2010-11 if the previous funding formula had still applied.

The Department is moving all PCTs towards their target allocations as quickly as possible, but this must be balanced with the need to ensure that all PCTs are appropriately supported with stable funding that both supports existing commitments and allows long-term planning, as well as recognising the unavoidable cost pressures that all PCTs face.

Enfield PCT moved from being 0.1 per cent. above target under the previous funding formula at the close of 2008-09 to opening 2009-10 under the new formula at 2.3 per cent. above target. This means that under the 2009-10 and 2010-11 pace of change policy, Enfield PCT received a 10.6 per cent. average increase in funding over the two years, equivalent to a cumulative cash increase of £44.1 million. The average increase for London PCTs over the two years is 10.7 per cent.

The 2009-10 and 2010-11 allocations made to the PCTs in the London strategic health authority and the difference between their actual and target allocations (the distance from target) are listed in the following table.

					Distance from target percentage		
PCT name	*2009-10 allocation £000*	*2010-11 allocation £000*	*Two year increase £000*	*Two year increase percentage*	*2008-09 closing*	*2009-10 opening*	*2010-11 closing*

Health Services: Hemel Hempstead

Mike Penning: To ask the Secretary of State for Health what recent research he has *(a)* commissioned and *(b)* evaluated on changes in acute care in Hemel Hempstead and the surrounding area following the removal of acute services from Hemel Hempstead hospital. [268872]

Phil Hope: This is a matter for the national health service, locally as they have responsibility for ensuring that the services they provide meet the needs of the communities that they serve.

Health Services: Non-profit-Making Associations

Mr. Kidney: To ask the Secretary of State for Health how many social enterprises which provide one or more NHS healthcare service have been established in each of the last three years. [269525]

Phil Hope: The Department does not hold information on how many social enterprises that provide one or more national health service healthcare services have been established in each of the last three years.

Hospital Beds: Stoke on Trent

Joan Walley: To ask the Secretary of State for Health what financial penalties have been imposed on Stoke-on-Trent City Council as a result of delayed discharges from hospitals in each of the last three years. [268197]

Phil Hope: The information is not collected centrally.

Hospitals

Mr. Lansley: To ask the Secretary of State for Health what hospitals each Minister in his Department has visited since July 2007; and what the date of each visit was. [265540]

Mr. Bradshaw: Information, which covers the dates 1 July 2007 to 23 March 2009, has been placed in the Library.

Hospitals: Infectious Diseases

Mr. Evans: To ask the Secretary of State for Health what assessment he has made of the effectiveness of alcohol-based hand rubs in countering *(a)* Clostridium difficile and *(b)* other healthcare-associated infections. [268892]

Ann Keen: The Purchasing and Supply Chain undertook an assessment of the effectiveness of alcohol-based hand rubs in 2004 prior to awarding their national contract. All products supplied under the NHS contract are effective for use at the point of care in most situations. However, guidance makes it clear that liquid soap and water should be used during *Clostridium difficile* outbreaks as hand rubs will not eradicate *Clostridium difficile* spores.

Mr. Evans: To ask the Secretary of State for Health what training the NHS has provided to *(a)* surgeons, *(b)* doctors, *(c)* nurses and *(d)* other healthcare professionals on best practice in the prevention, detection and treatment of (i) Clostridium difficile and (ii) other healthcare-related infections. [268893]

Ann Keen: Under "The Health and Social Care Act 2008 Code of Practice for the NHS on the prevention and control of healthcare associated infections and related guidance", there is an obligation for national health service, bodies to ensure that all staff are suitably educated in the prevention and control of healthcare associated Infections. A copy of this code of practice has been placed in the Library.

Training is a local decision, and we do not collect the information requested. However, BMJ Learning, in association with the Department, produced an e-learning module to learn practical ways to avoid an outbreak of *Clostridium difficile*. This is available at

www.bmjlearning.com/cdifficile

Mr. Evans: To ask the Secretary of State for Health how much his Department has spent on research into *(a)* vaccines against, *(b)* treatments for and *(c)* other aspects of Clostridium difficile in each of the last five years. [268894]

Ann Keen: The Department is not directly funding research to develop vaccines for Clostridium difficile infections. However, the Health Protection Agency is working with Acambis, a UK based company, through the Department's funded National Vaccine Evaluation Consortium to support clinical trials of a vaccine against Clostridium difficile.

The Medical Research Council (MRC) is one of the main agencies through which the Government support medical and clinical research. The MRC is an independent body that receives its grant-in-aid from the Department for Innovation, Universities and Skills.

MRC spend on research into health care associated infections, including Clostridium difficile, over the last five years is shown as follows:

	Expenditure (£ million)
2003-04	0.8
2004-05	1.7
2005-06	2
2006-07	2.5
2007-08	3.7

Clostridium difficile projects currently being funded by the MRC include:

Understanding the relationship between bacteriophages and pathogenicity in the gut pathogen Clostridium difficile, led by Dr. M Clokie at the university of Leicester (awarded £350,000);

Structural and functional characterisation of cell wall proteins of Clostridium difficile, led by Professor R Titball at Imperial College of Science Technology and Medicine (awarded £1.4 million);

The I-STRAT trial: Do Isolation Strategies reduce endemic levels of Methicillin-resistant Staphylococcus aureus and Clostridium difficile associated diarrhoea, led by Dr. S Stone at University College London (awarded £420,000); and

Understanding the molecular basis of virulence in Clostridium difficile, led by Professor N Minton at the university of Nottingham (awarded £1.6 million).

The Department's policy research programme is currently supporting a research project on the environmental survival and antimicrobial resistance of pathogens (including Clostridium difficile) in hospitals. Expenditure on the project in 2007-08 was £15,000.

Mr. Evans: To ask the Secretary of State for Health how much his Department has spent on campaigns to raise public awareness of *(a)* Clostridium difficile and *(b)* other healthcare-associated infections in each of the last five years. [268895]

Ann Keen: The National Patient Safety Agency has run the 'Cleanyourhands' campaign focussed on hand hygiene in hospitals since 2004, broadening its focus in 2008 to primary care ambulance and mental health trusts. Currently over 90 per cent. of national health service trusts are signed up to the campaign. In addition, the Department has run a campaign on antibiotic awareness and participated in European antibiotic awareness days. The correct use of antibiotics and hand hygiene represent two important areas in tackling Clostridium difficile and other health care associated infections.

We have not run any specific campaigns to raise public awareness of Clostridium difficile or other health care associated infections in the last five calendar years.

Mr. Evans: To ask the Secretary of State for Health what information is available to NHS patients and their families on the *(a)* prevention and *(b)* detection of (i) Clostridium difficile and (ii) other healthcare-associated infections. [268896]

Ann Keen: The national health service, in order to meet its legal requirements under 'The Code of Practice of the Prevention and Control of Healthcare Associated Infections' (HCAI) must provide suitable and sufficient information on HCAI to the patient, the public and other service providers when patients move to the care of another health care or social care provider.

NHS trusts will provide this information locally and we do not hold details centrally.

Human Tissue Authority: Fees and Charges

Damian Green: To ask the Secretary of State for Health whether the licence fee structure of the Human Tissue Authority effects *(a)* full recovery and *(b)* more than full recovery of the costs of granting a licence. [269744]

Mr. Bradshaw: The licence fee structure of the Human Tissue Authority covers the full cost of licensing only. This includes the evaluation of the licence application to assess the level of compliance and risk, the provision of advice and guidance, the management of conditions and variations in respect of each licence (of which there are 800), and site visit inspections.

Damian Green: To ask the Secretary of State for Health if he will publish the guidelines for including acellular material under the licence fee structure of the Human Tissue Authority; and if he will make a statement. [269745]

Mr. Bradshaw: The Human Tissue Authority (HTA) has recently issued a position statement on regulating acellular material, which is available on its website at: www.hta.gov.uk

The cost of regulating acellular material is the same as for its cellular equivalents. Licensed establishments will be subject to the fee structure recently published by the HTA on its website.

Influenza

Mr. Ancram: To ask the Secretary of State for Health what proportion of the population was inoculated against influenza in *(a)* 2006-07, *(b)* 2007-08 and *(c)* 2008-09. [268735]

Dawn Primarolo: The seasonal influenza programme is a targeted vaccination campaign. The Department recommends that all people aged 65 and over and people aged under 65 years who are in clinical at-risk groups receive the annual influenza vaccine. The uptake information for England is shown in the following table:

Percentage

	Uptake 2006-07	*Uptake 2007-08*	*Uptake 2008-09*
Influenza vaccine uptake in people aged 65 and over	74.0	73.5	74.1
Influenza vaccine uptake in people aged under 65 at-risk	43	45	47.1

Information for each strategic health authority and primary care trust is published on the website:

www.immunisation.nhs.uk

This information covers those who received the vaccine as part of the national health service influenza programme. It does not cover those who receive the vaccine privately.

Learning Disability

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many people with a learning disability are employed by *(a)* his Department and *(b)* the NHS. [267476]

Mr. Bradshaw: The Department do not currently hold figures for the number of people with learning disabilities employed in its workforce. This information will start to be collected later this year when 'learning disability' will be introduced as a workforce monitoring category.

The Department do not keep the figures for the number of people with learning disabilities employed in the national health service. That information is not collected centrally.

The New Opportunities White Paper published in January commits the civil service to producing action plans to employ more people with learning disabilities and from the other groups covered by public service agreement 16 about socially excluded adults (PSA 16). The Cabinet Office is working with Government Departments, including the Department, to help them develop their action based on recognised good practice.

Life Expectancy

Mr. Moss: To ask the Secretary of State for Health what measures he intends to adopt to ensure that local authorities in the Spearhead Group considered not to be on track to reach the 2010 target of reducing the gap in life expectancy compared with the population as a whole by 10 per cent. are able to meet their target. [269775]

Mr. Bradshaw: Health inequalities are a key priority for the national health service as set out in the NHS Operating Framework 2009-10 and all primary care trusts (PCTs) are required to have plans that add up to a narrowing of the life expectancy gap. Incentives for the NHS and local authorities have been aligned with the same health inequalities indicators in both the NHS Operating Framework 2009-10 and the New Performance Framework for Local Authorities and Local Authority Partnerships: Single Set of National Indicators. PCT performance against health inequalities plan is managed through strategic health authorities.

The Department is working to provide local partners with the support and tools they need to tackle health inequalities effectively and meet the 2010 National Target. This includes establishing a range of national support teams (NSTs) with an inequalities focus, providing tailored, intensive, assistance to areas that face the biggest challenges in delivering public health-related Public Service Agreement targets. The NSTs which have a particular role in supporting the inequalities targets are:

Health Inequalities NST;

Infant Mortality NST;

Tobacco Control NST; and

Teenage Pregnancy NST.

The NST for health inequalities, has been expanded and will have offered to visit all Spearheads by summer 2009.

In addition, the Department is funding the Improvement Foundation to deliver a Healthy Communities Collaborative programme to promote earlier presentations of cardiovascular disease and cancer symptoms in Spearhead areas. In addition, the Department has continued or expanded support for communities to tackle inequalities such as the Improvement and Development Agency's Healthy Communities and Communities for Health programmes.

A range of important tools has been developed to support target delivery in local areas, including:

Health Inequalities Intervention Tool;

Health Poverty Index;

Local authority 'Health Profiles'; and

Health Equity Audit.

Mr. Moss: To ask the Secretary of State for Health what assessment he has made of the causes of excess deaths within the Spearhead Group of local authorities considered off track from reaching their 2010 target of reducing the gap in life expectancy compared with the population as a whole by 10 per cent. [269776]

Phil Hope: National level analysis of the life expectancy gap by the Department shows circulatory disease, cancer and respiratory disease account for around two thirds of the gap in men and women. Other drivers of the gap are digestive diseases, external causes of injury and poisoning, infections and parasitic diseases and deaths under 28 days. Further information is contained in "Tackling Health Inequalities: 2005-07 Policy and Data Update for the 2010 National Target", which has already been placed in the Library.

The relative contribution of specific causes varies from one Spearhead to another. The Health Inequalities Intervention Tool for Spearhead Areas, jointly developed by the Association of Public Health Observatories and the Department provides a breakdown of the causes of the life expectancy gap by disease type and age in each Spearhead local authority.

Malnutrition: Death

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many deaths were caused by malnutrition among those in each age group over 65 years in each region in the last 10 years; and if he will make a statement. [267440]

Kevin Brennan: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 20 April 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths were caused by malnutrition among those in each age group over 65 years in each region in the last 10 years. (267440)

The attached table provides the numbers of deaths where malnutrition or effects of hunger were mentioned on the death certificate, by age group for persons aged over 65 years, for each government office region in England, for the years 1998 to 2007 (the latest year available).

Table 1: Deaths from malnutrition and effects of hunger[1] persons aged over 65 years by age group, government office regions in England[2] 1998-2007[3]

Deaths (persons)

Government office region	*Year*	*66-70*	*71-75*	*76-80*	*81-85*	*Over 85*

	2002	1	3	5	4	7
	2003	1	3	4	5	4
	2004	3	2	5	8	13
	2005	3	3	5	6	5

Table 1: Deaths from malnutrition and effects of hunger[1] persons aged over 65 years by age group, government office regions in England[2] 1998-2007[3]

Deaths (persons)

Government office region	*Year*	*66-70*	*71-75*	*76-80*	*81-85*	*Over 85*
	2006	4	3	7	5	10
	2007	1	3	7	4	8

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 260-269 (malnutrition) and E904.1 (effects of hunger) for the years 1998 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) codes E40-E46 (malnutrition) and T73.0 (effects of hunger) for 2001 onwards. Deaths were included where one of these causes was mentioned anywhere on the death certificate. The introduction of ICD-10 in 2001 means that the numbers of deaths from each cause before 2001 are not completely comparable with later years.

[2] Based on boundaries as of 2009.

[3] Figures are for deaths registered in each calendar year.

Measles: Vaccination

Mr. Ancram: To ask the Secretary of State for Health what proportion of children up to the age of six years old were inoculated against measles in *(a)* 2006-07, *(b)* 2007-08 and *(c)* 2008-09; and how many such inoculations were for measles only. [268734]

Dawn Primarolo: Routine childhood immunisation against measles is provided by the measles, mumps and rubella (MMR) vaccine. I refer the right hon. Member to the answer I gave the hon. Member for Basingstoke (Mrs. Miller) on 27 February 2009, *Official Report*, columns 1173-74W, for information about 2006-07 and 2007-08. Information for MMR vaccine uptake for the year 2008-09 is not yet available.

Data on the use of single vaccines are not collected. As a result the proportion of children fully or partially protected against measles may be slightly higher than that identified by the MMR vaccine uptake data collection.

Medical Records: Databases

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 23 February 2009, *Official Report*, column 239W, on NHS: data protection, which companies have had access to NHS patient information in each of the last 10 years. [267378]

Mr. Bradshaw: The information requested is not collected centrally and could be obtained only at disproportionate cost. However, the Department has published clear rules and standards of practice on the management of patient information. These apply both to staff who work within, and those who work under contract to, national health service bodies.

Meningitis

Dr. Kumar: To ask the Secretary of State for Health how many people were diagnosed with meningitis in *(a)* England, *(b)* the North East, *(c)* Tees Valley and *(d)* Middlesbrough South and East Cleveland constituency in each of the last 10 years; and what proportion resulted in death. [268358]

Dawn Primarolo: Meningitis is a notifiable disease and the Health Protection Agency collects notification data for each local authority in England. Information is not available for the hon. Member's constituency. The available information is given in the following table.

Notifications	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
England	1,916	2,251	2,431	1,449	1,387	1,186	1,271	1,406	1,199	1,123
North East	76	95	104	72	51	50	65	80	43	32
Tees Valley	22	13	18	13	11	13	29	38	10	1
Middlesbrough Borough Council (BC)	6	5	1	1	—	1	9	9	3	—
Redcar and Cleveland BC	2	—	3	1	4	6	10	9	1	—

Notes:

1. Data for 2008 is provisional.
2. Information is given for North East government office region.
3. Tees Valley is not a single administrative or health area. It is an area which comprises the five unitary authorities of Hartlepool, Middlesbrough, Redcar and Cleveland, Stockton-on-Tees and Darlington.

Information about registered causes of death is collected separately and is not linked to notification data by year. The available information is given in the following table, including information for Middlesbrough South and East Cleveland constituency.

Deaths	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
England	392	368	387	363	280	331	244	260	205	220
North East	27	22	24	17	11	14	14	14	5	10
Tees Valley	5	9	2	7	1	4	7	3	1	4
Middlesbrough South and East Cleveland	0	0	1	0	0	2	1	1	0	0

Notes:

1. Cause of death selected using the international classification of diseases, ninth revision (ICD-9) codes 036, 047, 320 and 322 for 1997 to 2000 and tenth revision (ICD-10) codes A39, A87 and G00-G03 for 2001 onwards.
2. Based on parliamentary constituency and local authority boundaries as of 2009.
3. Information is given for North East government office region.
4. Tees Valley is not a single administrative or health area. It is an area which comprises the five unitary authorities of Hartlepool, Middlesbrough, Redcar and Cleveland, Stockton-on-Tees and Darlington.
5. Figures are for deaths registered in each calendar year. Information for 2008 is not yet available.

Mental Health Services

Anne Milton: To ask the Secretary of State for Health which bodies, other than individual mental health NHS trusts, are responsible for ensuring that patients committed to *(a)* low security, *(b)* medium security and *(c)* high security mental health hospitals and required to reside there for treatment do not abscond. [268814]

Phil Hope: No other body is responsible for ensuring that patients do not abscond from secure services than the secure services provider. Low and medium secure services are provided by the national health service and independent sector voluntary and private sector organisations. The three high secure hospitals in England are operated by the NHS.

Mr. Burstow: To ask the Secretary of State for Health what steps his Department is taking to provide older people with improved mental health services; and if he will make a statement. [269267]

Phil Hope: The Department's Service Development Guide 'Everybody's Business', published in 2005, a copy of which has already been placed in the Library, made clear how mental health services for older people should be commissioned and set up. A subsequent review of the Care Programme Approach (2008) contains specific guidance in relation to, and is inclusive of older people with mental health needs. A copy has been placed in the Library. As part of Improving Access to Psychological Therapies (IAPT), guidance for commissioners was issued in November 2008 and in January 2009, a positive practice guide for older people. Both sets of guidance make clear that appropriately designed "talking therapies" can also benefit older people. Copies have been placed in the Library.

In addition, the implementation of the National Dementia Strategy published on 3 February 2009, will be a lever for further improvements in access to care and support for the mental health needs of older people, not only those dementia with dementia. A copy has been placed in the Library.

The Mental Health National Service Framework (NSF), which ends this year, was designed with working-age adults in mind. The successor strategy 'New Horizons in Mental Health' will be age-inclusive. Consultation on the new strategy is expected in the summer.

Mr. Swire: To ask the Secretary of State for Health (1) pursuant to the answer of 10 March 2009, *Official Report*, columns 368-69W, on assertive outreach teams, what the reasons are for the reduction in the number of assertive outreach teams in *(a)* England and *(b)* the South West Strategic Health Authority area since January 2006; [269346]

(2) how much his Department has spent on the provision of assertive outreach teams in *(a)* England, *(b)* the South West and *(c)* Devon in each of the last 10 years. [269350]

Phil Hope: The public service agreement target for assertive outreach teams was to have 220 teams by December 2003, and was met. The reduction in team numbers since 2006 has been minimal at both national and strategic health authority (SHA) level. Nationally, the number of teams was 252 in 2006 and 249 in 2008. The corresponding figures for South West SHA were 29 in 2006 and 28 in 2008. Primary care trusts are responsible for ensuring that the number of teams commissioned meets local need.

The information on local services is not collected centrally in the format requested. However, the data in the following table shows the total investment for England and the South West region for assertive outreach teams from 2001-02 to 2007-08.

Assertive outreach teams, total cash investment from 2001-02 to 2007-08

	England (£ million)	South West region (£)
2001-02	48.4	5,397
2002-03	62.2	5,782
2003-04	78.2	7,442
2004-05	95.2	8,499
2005-06	101.4	8,759
2006-07	108.5	10,448
2007-08	124.9	10,440

Source:
Mental Health Strategies.

Mental Health Services: Nurses

Mr. Swire: To ask the Secretary of State for Health pursuant to the answer of 9 February 2009, *Official Report*, columns 1762-4W, on mental health services: nurses, what the reason is for the reduction in the number of registered mental health nurses in the Devon Partnership NHS Trust since 30 September 2006. [269347]

Phil Hope: Work force planning is a matter for local determination as local work force planners are best placed to assess the health care needs of their local population. The Department continues to ensure the frameworks are in place to enable effective local work force planning.

Mr. Swire: To ask the Secretary of State for Health how much his Department has spent on the provision of registered mental health nurses in *(a)* England, *(b)* the South West and *(c)* Devon in each of the last 10 years. [269349]

Phil Hope: The information is not held centrally.

Mid Staffordshire NHS Foundation Trust

Mr. Kidney: To ask the Secretary of State for Health what mechanisms are in place for *(a)* supervision and *(b)* monitoring of implementation of the recommendations of the Healthcare Commission report on Mid-Staffordshire NHS Foundation Trust which relate to (i) that trust and (ii) other parts of the NHS. [269526]

Mr. Bradshaw: It is the responsibility of the board of the trust, with the new leadership in place, to ensure it fully implements the recommendations made within the Healthcare Commission's (HC) report. The trust is producing an action plan to implement the recommendations that it will agree with Care Quality Commission (CQC). Monitor, the foundation trust (FT) regulator, will hold the trust to account for delivery of the action plan. CQC, which replaced the HC on 1 April 2009, has informed us that they plan to take stock with the trust and Monitor at three months and perform a follow up review in approximately six months time to provide the necessary assurance that all the recommendations in the HC's report have been satisfactorily addressed.

David Nicholson, chief executive of the national health service, wrote to all NHS organisations on 18 March 2009 urging NHS leaders to ensure that the recommendations set out in the report are fully understood by boards and that any local actions necessary are implemented with immediate effect. In addition, Monitor has written to all FTs making clear the expectation that their boards should consider the contents and recommendations of the HC report and implement any actions to ensure they do not breach their terms of authorisation. In his letter, the chief executive made clear that where senior NHS management and boards fail to act in the light of the HC recommendations to assure the ongoing quality and safety of the care they provide, they must and will be held accountable.

In addition, Professor Sir George Alberti is undertaking a rapid review at Stafford of the procedures for emergency admissions to ensure the trust is providing the best service it can to patients, building on the progress already made in implementing the recommendations of the HC. Dr. David Colin-Thomé is undertaking a rapid local review to identify what the people who commission NHS services and manage the performance of these services across England can learn from this case. The new National Quality Board (NQB) has been asked to look at how we can ensure that any early signs that something is going wrong with patient care are picked up immediately, that the right organisations are alerted, and that action is taken quickly. (The NQB is comprised of representatives from the Royal Colleges, patient groups, regulatory bodies and clinical experts, and has been set up to look at how organisations work together to improve the quality of patient care and patient experience.) Any recommendations arising from these reviews will be shared with the wider NHS for action as necessary.

Mid Staffordshire NHS Foundation Trust: Managers

Mr. Lansley: To ask the Secretary of State for Health whether his Department *(a)* was informed in advance of and *(b)* agreed to the suspension of the Chief Executive of Mid Staffordshire NHS Foundation Trust. [269718]

Mr. Bradshaw: The suspension of the chief executive is entirely a matter for the NHS foundation trust and its chairman.

Midwives: Training

Norman Lamb: To ask the Secretary of State for Health what proportion of midwives in service qualified by completing a midwifery *(a)* degree and *(b)* short programme before registration. [269213]

Ann Keen: This information is not collected centrally.

Multiple Sclerosis: Research

Mr. Burrowes: To ask the Secretary of State for Health what research he has *(a)* commissioned and *(b)* evaluated on a possible link between vitamin D and a common genetic variant which lowers the risk of developing multiple sclerosis; and if he will make a statement. [267953]

Dawn Primarolo: The Department has made no assessment of evidence on a possible link between vitamin D and a common genetic variant which lowers the risk of developing multiple sclerosis.

Current Government policy recommends a dietary supplementation of vitamin D in certain groups including all pregnant and breastfeeding women, children from six months up to the age of five years and people aged over 65 years or housebound.

Musculoskeletal Disorders: Waiting Lists

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the *(a)* median and *(b)* mean length of time a patient has waited for (i) an outpatient and (ii) an inpatient appointment in the (A) orthopaedic and (B) rheumatology specialty since 1997, as measured by the (1) Korner and (2) Hospital Episodes Statistics databases, broken down by strategic health authority area. [249246]

Mr. Bradshaw: The median and mean time a patient waited for an out-patient and in-patient appointment for orthopaedics and rheumatology since 2002, when strategic health authorities were established, as measured by Korner and Hospital Episodes Statistics (HES) are available in the document 'Trauma & Orthopaedics and Rheumatology—Median and Mean 2002 to January 2009', which has been placed in the Library.

The median referral to treatment time waited of patients who were admitted for treatment has come down from 18.8 weeks in March 2007 to 8.6 weeks in January 2009. Median referral to treatment time waited for non-admitted patients was 4.6 weeks in January 2009, compared to 7.4 weeks in August 2007.

The median referral to treatment time waited of trauma and orthopaedic patients admitted for treatment has come down from 29.5 weeks in March 2007 to 12.6 weeks in January 2009. Median referral to treatment time waited for non-admitted trauma and orthopaedic patients fell from 5.8 weeks in August 2007 to five weeks in January 2009.

The median referral to treatment time waited of rheumatology patients admitted for treatment has come down from 15 weeks in March 2007 to 4.4 weeks in January 2009. Median referral to treatment time waited for non-admitted rheumatology patients fell from 9.3 weeks in August 2007 to 5.8 weeks in January 2009.

NHS: Drugs

Grant Shapps: To ask the Secretary of State for Health (1) what estimate he has made of the cost of prescribing anti-depressant drugs in *(a)* North and East Hertfordshire and *(b)* England in each of the last five years (i) in cash terms and (ii) in 2009-10 prices; [269646]

(2) what the average net ingredient cost was for drugs falling within section 4.3 of the British National Formulary in each of the last five years *(a)* in cash terms and *(b)* in 2009-10 prices. [269647]

Phil Hope: The information requested is in the following table.

Section 4.3 of the British National Formulary: antidepressant drugs, 2003-07

	Net ingredient cost for prescription items dispensed in East and North Hertfordshire PCT[1,2] *(£000)*	*Uprated to 2009-10 prices*[3]	*Net ingredient cost for prescription items dispensed in England (£000)*	*Uprated to 2009-10 prices*[3]	*Average net ingredient cost per prescription item dispensed in England (£)*	*Uprated to 2009-10 prices*[3]
2003	n/a	n/a	395,178.0	458,466.2	14.29	16.58
2004	n/a	n/a	400,681.7	452,542.2	13.82	15.61
2005	3,375.1	3,735.4	338,546.7	374,684.0	11.52	12.75
2006	2,891.7	3,115.0	291,511.4	314,023.8	9.39	10.12
2007	2,683.7	2,812.5	276,107.6	289,357.3	8.16	8.55

[1] Data based on current primary care trust (PCT) structure. The structure changed in October 2006 when North Hertfordshire and Stevenage PCT, Royston, Buntingford and Bishop's Stortford PCT, South East Hertfordshire PCT and Welwyn Hatfield PCT were incorporated into the new East and North Hertfordshire PCT.

[2] PCT level data supplied by the NHS Prescriptions Service is only held for a rolling 60-month period.

[3] Based on HM Treasury gross domestic product deflators.

Source:

Prescription Cost Analysis (PCA) system.

Norman Lamb: To ask the Secretary of State for Health how many patients *(a)* were admitted to hospital and *(b)* died because of an adverse reaction to prescription medication in each of the last 10 years. [269732]

Phil Hope: Reports of suspected adverse drug reactions (ADRs) are collected by the Medicines and Healthcare products Regulatory Agency (MHRA) and Commission for Human Medicines (CHM) through the spontaneous reporting scheme; the Yellow Card Scheme. Approximately 20,000-25,000 reports of ADRs are reported to the MHRA/CHM through this scheme each year. The scheme collects ADR reports from across the whole United Kingdom and includes all medicines, including those from prescriptions, over-the-counter or general retail sales. Reports are also received for herbal medicines and other unlicensed medicines.

The following table shows the number of spontaneous UK suspected Adverse Drug Reaction reports received by the MHRA between 1998 and 2008 which (i) had a fatal outcome (ii) resulted in or prolonged hospitalisation.

Year received by MHRA	*Number of spontaneous UK suspected ADR reports received*	*Number of spontaneous UK suspected ADR reports received with a fatal outcome*	*Number of spontaneous UK suspected ADR reports received which resulted in or prolonged hospitalisation*
1998	18,047	520	2,970
1999	18,483	564	3,212
2000	33,147	632	4,060
2001	21,454	648	3,011
2002	17,602	666	3,624
2003	19,215	733	4,380
2004	19,975	859	4,426
2005	21,917	1,015	4,564
2006	22,001	952	4,621
2007	21,761	1,030	4,500
2008	25,424	1,299	4,487

It is important to note that a report of an adverse drug reaction does not necessarily mean that it was caused by the drug. Many factors have to be taken into account in assessing causal relationships including temporal association, the possible contribution of concomitant medication and the underlying disease being treated.

NHS: Equality

Mr. Clifton-Brown: To ask the Secretary of State for Health how much his Department's Pacesetters programme is estimated to cost; how many staff of his Department are engaged on it; how long *(a)* Wave 1 and *(b)* Wave 2 is expected to last; and what assessment of the costs and benefits of the programme have been carried out. [268910]

Phil Hope: The total cost of the Pacesetter programme for 2008-09 was approximately £2 million, including an allocation of some £200,000 for each of the six participating strategic health authority (SHAs) (slight variations occur between SHAs). There are four departmental staff engaged on the programme, supported by a number of national health service secondees.

By mid-2007, 18 trusts from six SHA areas had signed up to wave 1 of the programme. Each participating trust in wave 1 has up to three years of funding allocated dependent on when they joined the programme. A further 16 trusts from six SHA areas were recruited to wave 2 in October 2008. Each participating trust in wave 2 has up to two years of funding allocated.

The equality impact assessment of the Pacesetters Programme was issued for consultation on 17 March 2009. It spells out the anticipated outcomes of and the potential challenges facing Pacesetters. Where challenges are identified, action plans to address or mitigate them are presented.

NHS: Private Sector

Mr. Swire: To ask the Secretary of State for Health what recent steps he has taken to monitor the effect of the use of private sector operators on levels of patient care quality in *(a)* patient transport services and *(b)* the NHS; and if he will make a statement. [263402]

Mr. Bradshaw: On 1 April 2009, the Care Quality Commission took over from the Healthcare Commission, the Commission for Social Care Inspection and the Mental Health Act Commission.

For 2009-10, the Commission continues to regulate private and voluntary health care and adult social care under the Care Standards Act 2000. Also for 2009-10, national health service providers have been registered against the requirement relating to health care associated infection and will continue to work to the national standards in Standards for Better Health.

From April 2010, the Care Quality Commission will start to operate a new registration system, covering both health and adult social care providers. This will be based in secondary legislation under the Health and Social Care Act 2008. Our aim is to ensure that the registration system is fair to all providers of regulated health or adult social care activities, no matter whether they are classed as health or adult social care, from the NHS, local authority or independent sectors.

In the Department's "Response to Consultation on the Framework for Registration of Health and Adult Social Care Providers and Consultation on Draft Regulations", published on 30 March 2009, it has been announced that patient transport services will be brought within the new registration system under the 'emergency and urgent care' activity. It is also stated that private ambulance service providers will be brought into regulation from April 2011.

NHS: Training

Norman Lamb: To ask the Secretary of State for Health how much his Department spent on each type of non-medical education and training for NHS staff in each of the last five years; and what the budget for each year to 2010-11 is. [269212]

Ann Keen: Information on the amount spent by the Department on each type of non-medical education and training in each of the last five years is not held centrally. The annual allocations for non-medical education and training (NMET) for each year to 2010-11 are shown in the following table.

	Annual NMET allocation
2005-06	1,721
2006-07	1,753
2007-08	1,797
2008-09	1,895
2009-10	2,000
2010-11	Not available

Northern Burn Care Network

Derek Twigg: To ask the Secretary of State for Health where the *(a)* network manager and *(b)* clinical director of the Northern Burn Care Network are based. [269306]

Ann Keen: The Northern Burn Care Network is organisationally based within Yorkshire and the Humber Specialised Commissioning Group. The network manager and clinical director are based at:

2nd Floor
Fulwood House
Old Fulwood Road
Sheffield
S10 3TH

Occupational Therapy: Manpower

Mr. Burns: To ask the Secretary of State for Health how many fully qualified occupational therapists have been employed by the NHS in West Chelmsford constituency in each year since 2001. [269217]

Ann Keen: Information is not available in the format requested. The following table shows the number of qualified occupational therapists at Mid Essex Hospitals NHS Trust and Mid Essex Primary Care Trust (PCT) which cover the hon. Member's constituency of West Chelmsford area.

National health service hospital and community health services: Qualified occupational therapists in each specified organisation as at 30 September each specified year

Headcount

	2001	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Total specified organisations	41	39	49	46	47	55	52	61
Mid Essex Hospital Services NHS Trust	30	27	28	26	28	32	32	37
Mid Essex PCT	11	12	21	20	19	23	20	24

Notes:
In October 2006 Maldon and South Chelmsford PCT and Witham, Braintree and Halstead Care Trust merged to form Mid Essex PCT.
2. Figures prior to 2006 are an aggregate of these predecessor organisations.
Source:
The NHS Information Centre for health and social care

Out of Area Treatment: Wales

Mr. Harper: To ask the Secretary of State for Health pursuant to the answer of 30 March 2009, *Official Report*, column 901W, on out of area treatment: Wales, whether the protocol to have effect from April 2009 will be a renewal of the existing temporary protocol; and if he will make a statement. [269102]

Mr. Bradshaw: The Government and the Welsh Assembly Government have agreed a revised protocol for cross-border health services with effect from 1 April 2009—31 March 2011. This replaces the interim protocol on cross-border commissioning.

Quality Health Ltd.

Mr. Scott: To ask the Secretary of State for Health how much his Department paid to Quality Health Ltd. in the last 12 months. [268659]

Mr. Bradshaw: Quality Health Ltd. have not received any direct payments from the Department since 1 April 2004 according to the Department of Health's own accounting system.

Respiratory System

Stephen Hammond: To ask the Secretary of State for Health how many *(a)* hospital admissions and *(b)* finished consultant episodes for patients with respiratory complaints there were (i) in England and (ii) at (A) Ashford Hospital, (B) Hillingdon Hospital, (C) Ealing Hospital, (D) West Middlesex University Hospital and (E) Teddington Memorial Hospital in each of the last five years. [268986]

Ann Keen: The number of hospital admissions and finished consultant episodes for patients with diseases of the respiratory system in England and in Ashford and St. Peter's Hospitals NHS Trust, Ealing Hospital NHS Trust, The Hillingdon Hospital NHS Trust, Richmond and Twickenham PCT and West Middlesex University Hospital NHS Trust in each of the last five years are shown in the following tables.

Number of finished consultant episodes for diseases of the respiratory system, by provider, 2003-04 to 2007-08. Activity in English NHS Hospitals and English NHS commissioned activity in the independent sector*

	Finished consultant episode

Ealing Hospital NHS Trust	6,341	5,565	5,455	5,373	4,750
The Hillingdon Hospital NHS Trust	6,269	5,238	4,907	3,728	3,235
Richmond And Twickenham PCT	0	21	84	59	50
West Middlesex University Hospital NHS Trust	5,436	2,548	5,012	3,873	3,454

Notes:

1. The NHS Information Centre have provided the number of finished consultant episodes and finished admission episodes for diseases of the respiratory system (ICD-10 J00 to J99). The data has been presented for England, and broken down by hospital provider for the years 2003-04 to 2007-08. From the term 'respiratory complaints' the NHS Information Centre are unable to provide a definitive list of respiratory conditions without specification of the conditions required. Clinical input would be required to confirm that the condition was a 'respiratory complaint'. The data provided is for 'diseases of the respiratory system'. As a result the figures provided may provide an under count of episodes and admissions.

2.The NHS Information Centre are unable to provide data at individual hospital level and have therefore used the appropriate hospital providers of the requested hospitals:
Ashford and St. Peter's Hospital NHS Trust - which includes Ashford Hospital
Ealing Hospital NHS Trust - which includes Ealing Hospital
The Hillingdon Hospital NHS Trust - which includes Hillingdon Hospital
West Middlesex University Hospital NHS Trust - which includes West Middlesex University Hospital
Richmond and Twickenham PCT - which includes Teddington Memorial Hospital

3. There is a shortfall of data for West Middlesex University Hospital NHS Trust in 2006. Six months of the year were effected by an error when submitting data.

*The following ICD-10 codes have been used:
J00-J99 - 'Diseases of the respiratory system'. Reference should be made to the following J00-J99 sheet for ICD-code descriptions
Diagnosis code
Diagnosis code Primary description
J00 Acute nasopharyngitis [common cold]
J01 Acute sinusitis
J02 Acute pharyngitis
J03 Acute tonsillitis
J04 Acute laryngitis and tracheitis
J05 Acute obstructive laryngitis [croup] and epiglottitis
J06 Acute upper respiratory infections of multiple and unspecified sites
J10 Influenza due to identified influenza virus
J11 Influenzavirus not identified
J12 Viral pneumonia, not elsewhere classified
J13 Pneumonia due to Streptococcus pneumoniae
J14 Pneumonia due to Haemophilus influenzae
J15 Bacterial pneumonia not elsewhere classified
J16 Pneumonia due to other infectious organisms NEC
J17 Pneumonia in diseases classified elsewhere
J18 Pneumoniaorganism unspecified
J20 Acute bronchitis
J21 Acute bronchiolitis
J22 Unspecified acute lower respiratory infection
J30 Vasomotor and allergic rhinitis
J31 Chronic rhinitisnasopharyngitis and pharyngitis
J32 Chronic sinusitis
J33 Nasal polyp
J34 Other disorders of nose and nasal sinuses
J35 Chronic diseases of tonsils and adenoids
J36 Peritonsillar abscess
J37 Chronic laryngitis and laryngotracheitis
J38 Diseases of vocal cords and larynx not elsewhere class
J39 Other diseases of upper respiratory tract
J40 Bronchitis not specified as acute or chronic
J41 Simple and mucopurulent chronic bronchitis
J42 Unspecified chronic bronchitis
J43 Emphysema
J44 Other chronic obstructive pulmonary disease
J45 Asthma
J46 Status asthmaticus
J47 Bronchiectasis
J60 Coalworker's pneumoconiosis
J61 Pneumoconiosis due to asbestos and other mineral fibres
J62 Pneumoconiosis due to dust containing silica
J63 Pneumoconiosis due to other inorganic dusts
J64 Unspecified pneumoconiosis

J65 Pneumoconiosis associated with tuberculosis
J66 Airway disease due to specific organic dust
J67 Hypersensitivity pneumonitis due to organic dust
J68 Respiratory cond's due to inhalation of chemicals, gases, fumes and vapours
J69 Pneumonitis due to solids and liquids
J70 Respiratory conditions due to other external agents
J80 Adult respiratory distress syndrome
J81 Pulmonary oedema
J82 Pulmonary eosinophilia, not elsewhere classified
J84 Other interstitial pulmonary diseases
J85 Abscess of lung and mediastinum
J86 Pyothorax
J90 Pleural effusion not elsewhere classified
J91 Pleural effusion in conditions classified elsewhere
J92 Pleural plaque
J93 Pneumothorax
J94 Other pleural conditions
J95 Post procedural respiratory disorders NEC
J96 Respiratory failure not elsewhere classified
J98 Other respiratory disorders
J99 Respiratory disorders in diseases classified elsewhere

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care

Self-harm

Norman Lamb: To ask the Secretary of State for Health how many cases of self-harm were diagnosed among *(a)* men and *(b)* women aged (i) between 50 and 64 years and (ii) over the age of 65 years in each region in each of the last five years. [269734]

Phil Hope: This information is not collected centrally, however, the information that is available about finished consultant episodes for intentional self-harm is contained in a table which has been placed in the Library.

Sleep

Dr. Kumar: To ask the Secretary of State for Health what steps his Department has taken to raise awareness of the health risks arising from sleep deprivation. [264411]

Jonathan Shaw: I have been asked to reply.

HSE recognises that fatigue as a consequence of sleep deprivation can affect performance and increase the risk of work-related accidents, injuries and possibly ill-health. HSE has published guidance (HSG 256, Managing shift work: Health and Safety Guidance) to assist employers in managing these risks in their workforce.

The guidance includes background information on the health and safety risks associated with shift work and fatigue, UK legal duties and practical guidance on how to reduce the risks. This advice is also summarised in the form of good practice guidelines. The guidance is available from:

www.hsebooks.co.uk.

A short summary of the guidance, including the good practice guidelines, is available on our website at:

http://www.hse.gov.uk/humanfactors/shiftwork/index.htm.

Smoking

Mr. Burstow: To ask the Secretary of State for Health what data his Department collects on the number of NHS patients who have ceased smoking as a result of advice given by their GP in *(a)* each London borough and *(b)* England in the latest period for which figures are available. [269266]

Mr. Bradshaw: The information requested is not collected centrally.

Data are available on the number of people who have stopped smoking through NHS Stop Smoking Services. This is reported on quarterly and annually at national, strategic health authority and primary care trust level by the NHS information centre for health and social care (IC) and the reports can be found on the NHS IC website at:

www.ic.nhs.uk/statistics-and-data-collections/health-and-lifestyles/nhs-stop-smoking-services

The Office for National Statistics (ONS) omnibus survey collects information on adult smokers in the general population who have had advice from their general practitioner about smoking. The annual report smoking-related behaviour and attitudes is available on the ONS website at:

www.statistics.gov.uk/statbase/Product.asp?vlnk=1638

Social Services

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 24 March 2009, *Official Report*, column 251W, on social care: research, whether the research being undertaken by the Personal Social Services Research Unit to make projections of likely future demand for long-term care has been completed. [269772]

Phil Hope: The personal social services unit (PSSRU) is currently in the early stages of producing a report detailing the results around the projections of likely future demand for long-term care. We expect PSSRU to publish this report within the next few months.

Social Services: National Skills Academies

Mr. Stephen O'Brien: To ask the Secretary of State for Health with reference to the answer of 20 June 2008, *Official Report*, column 1236W, whether the Social Care Skills Academy is operational. [269771]

Phil Hope: The National Skills Academy for Social Care is currently involving a broad array of sector employers and people who use services to ensure its programmes and activities meet the needs and expectations of those who will benefit most from its creation. It has recently appointed a permanent director and is currently rolling out its first programmes. The Skills Academy is expected to be fully operational by autumn 2009.

Social Workers

Mr. Greg Knight: To ask the Secretary of State for Health how many social workers the NHS employs; and how many of them completed their training *(a)* in the UK and *(b)* abroad. [269724]

Phil Hope: The information is not collected centrally.

South Staffordshire and Shropshire Healthcare NHS Foundation Trust

Frank Dobson: To ask the Secretary of State for Health (1) when South Staffordshire NHS Trust applied to Monitor for foundation status; [268051]

(2) when Monitor *(a)* began and *(b)* completed its intensive assessment of the application for foundation status by South Staffordshire NHS Trust; [268052]

(3) when Monitor granted foundation status to South Staffordshire NHS Trust; [268053]

(4) if he will place in the Library a copy of Monitor's assessment of the arrangements made by the board of South Staffordshire NHS Trust for monitoring and continuously improving the quality healthcare provided to the hospitals patients. [268054]

Mr. Bradshaw: We are informed by the chairman of Monitor (the statutory name of which is the independent regulator of NHS foundation trusts) that the trust wrote to Monitor to formally apply for NHS foundation trust (NHS FT) status on 23 January 2006.

Monitor began its assessment work on 25 January 2006 when the 'kick-off meeting was arranged with the trust, and completed its work on 24 April 2006 which was the date of the decision board.

South Staffordshire and Shropshire NHS FT was authorised on 1 May 2006.

The requirement for an assessment of arrangements for monitoring and continuously improving the quality of healthcare, which is set out in appendix B12 of the Guide for Applicants dated November 2008, was not in place at the time of the South Staffordshire assessment in 2006. Therefore it is not possible to place this in the Library.

Suicide

Dr. Ladyman: To ask the Secretary of State for Health for what reasons the Suicide and Injury of Undetermined Intent Mortality Rate indicator was withdrawn; and what assessment he has made of the effect of its withdrawal on the anti-suicide strategy. [269104]

Phil Hope: The 2008-09 National Health Service Operating Framework includes a measure for strategic health authorities (SHAs) to reduce the death rate from injury and undetermined death by at least 20 per cent. from a 1995-97 baseline figure by 2010. SHAs are expected to have plans in place with the Department to achieve this reduction.

However, as primary care trusts (PCTs) do not have equivalent plans, the Healthcare Commission (now Care Quality Commission) agreed to withdraw this indicator from 2008-09 national priorities for PCTs. PCTs are expected to support SHAs in delivery on their agreed priorities, and their suicide rates are monitored as part of the Vital Signs set.

Progress with implementation of the suicide prevention strategy and the target is published in the departmental report each year, and also in the Suicide Prevention Strategy annual report. The overall rate of suicide amongst the general population is at the lowest rate on record and among the lowest in Europe.

Teenage Pregnancy: Hillingdon

Mr. Randall: To ask the Secretary of State for Health how many teenage pregnancies there were in the London Borough of Hillingdon in each of the last five years for which figures are available. [268586]

Kevin Brennan: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent question asking how many teenage pregnancies there were in the London Borough of Hillingdon in each of the last five years for which figures are available. (268586)

Available figures are estimates of the number of conceptions that resulted in a live birth and/or stillbirth (a maternity) or a legal termination.

The number of conceptions to women aged under 18 in the London Borough of Hillingdon for the years 2003-2007 (the most recent year for which figures are available), are shown in the attached table. Figures for 2007 are provisional.

Number of conceptions to women aged under 18 in the London borough of Hillingdon, 2003 to 2007

	Number
2003	225
2004	223
2005	218
2006	210
2007[1]	221

[1] Figures for 2007 are provisional

INTERNATIONAL DEVELOPMENT

Conflict Prevention

John Barrett: To ask the Secretary of State for International Development what change in funding for *(a)* the Conflict Prevention Pool budget and *(b)* each activity funded under that budget is planned for 2009-10; what discussions he has had with his Ministerial colleagues on the subject; and if he will make a statement. [268808]

Mr. Thomas: The Secretary of State has discussed changes to the Conflict Prevention Pool (CPP) Budget with the Foreign and Defence Secretaries. The agreements reached are set out in the written ministerial statement submitted to Parliament by the Foreign Secretary on 25 March 2009, *Official Report*, columns 17-19WS. The statement sets out a new structure for conflict funding in 2009-10. This includes merging the Stabilisation Aid Fund Iraq and Afghanistan programmes with certain CPP programmes. It also sets out the overall funding levels available for conflict-related activity in 2009-10.

Departmental Public Expenditure

Dr. Cable: To ask the Secretary of State for International Development what his latest estimate is of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268123]

Mr. Michael Foster: The latest estimates of expenditure against capital departmental expenditure limits (CDEL) were published on page 214 of the pre-Budget report in November 2008. The Department for International Development estimates that the Department's expenditure within CDEL will be as follows:

	£ million
(a) 2008-09	891
(b) 2009-10	1,366
(c) 2010-11	1,556

Capital DEL budgets for 2011-12 and beyond are a matter for the next spending review.

Mr. Moore: To ask the Secretary of State for International Development whether funding under the Returns and Reintegration Fund is classified as official development assistance; and if he will make a statement. [268867]

Mr. Michael Foster: Most of the projects funded by the Returns and Reintegration Fund do not count as Official Development Assistance (ODA).

Departmental Publications

Mr. Philip Hammond: To ask the Secretary of State for International Development what estimate he has made of the *(a)* production and printing and *(b)* other costs to his Department of producing its most recent (i) departmental annual report and (ii) autumn performance report. [266698]

Mr. Michael Foster: The cost of the Department for International Development's (DFID) most recent Annual and Autumn Performance Reports were as follows:

£

	(a) Production and printing[1]	*(b)* Other costs[1]
(i) Annual Report	27,504	0
(ii) Autumn Performance Report	75,578.41	10,060.36

[1] Including VAT

Departmental Training

Grant Shapps: To ask the Secretary of State for International Development which training courses were *(a)* available to and *(b)* taken up by (i) civil servants and *(b)* Ministers in his Department in the last 12 months. [265305]

Mr. Ivan Lewis: Staff at the Department for International Development (DFID) are able to attend a range of internal and external training courses. It is not possible to provide specific details of all courses available and taken up by civil servants without incurring disproportionate costs.

On training courses undertaken by Ministers, I refer the hon. Member to the answer given on 2 February 2009, *Official Report*, column 861W.

Grant Shapps: To ask the Secretary of State for International Development how much his Department spent on the provision of training for Ministers and civil servants in each of the last three years. [264214]

Mr. Michael Foster: Information on the costs of staff training are not recorded centrally and cannot be provided without incurring disproportionate costs.

On training courses undertaken by Ministers, I refer the hon. Member to the answer given on 30 March 2009, *Official Report*, column 865W.

Developing Countries: Drugs

Sir Robert Smith: To ask the Secretary of State for International Development what his policy is on the creation of a patent pool to enable access to generic copies of drugs by governments in developing countries. [267910]

Mr. Ivan Lewis: The UK Government support the recommendation in the World Health Organization's Global Strategy and Plan of Action on Public Health, Innovation and Intellectual Property to

> "examine the feasibility of voluntary patent pools of upstream and downstream technologies to promote innovation of and access to health products and medical devices".

We have therefore welcomed the investigation of a patent pool for HIV/AIDS treatments being carried out by UNITAID, the international drug purchase facility. This has the objective of making HIV/AIDS drugs more widely available, and of promoting the development of new fixed dose combinations, in particular those suitable for use by children.

We also welcome the recent proposal by GlaxoSmithKline to create a patent pool to facilitate research on neglected tropical diseases, and its intention to place over 800 patents (and patent applications) in such a pool.

Developing Countries: Water

Lady Hermon: To ask the Secretary of State for International Development what consideration was given to holding discussions on the issue of poor water and sanitation in the developing world at the London G20 summit. [268963]

Mr. Ivan Lewis: The concerns of developing countries and the poorest people were central to discussions at the G20 London summit. This is reflected in the number of positive outcomes for international development and global poverty reduction achieved at the summit.

These outcomes included G20 Leaders agreeing substantially more funds for poor countries at a time when they are being badly hit by the economic crisis. The headline figure is an additional $50 billion to safeguard development and boost growth in the poorest countries. These additional resources secured for developing countries at the London summit are available to support progress towards the MDGs, including improved water and sanitation in the developing world.

G20 Leaders also recognised our collective responsibility to address the social impact of this crisis—alongside the economic impact. The summit highlighted the importance of providing resources for social protection for the most vulnerable. A special mechanism will also be set up by the UN to track the impact of the crisis on the poor at the household level so we can ensure that assistance is properly targeted.

Lady Hermon: To ask the Secretary of State for International Development what recent steps the Government has taken to improve access to clean water and sanitation in the developing world. [268964]

Mr. Ivan Lewis: The Department for International Development (DFID) is committed to improving access to water and sanitation in the developing world.

The 2008 Water Policy: "Water: An increasingly precious resource, Sanitation: A matter of dignity" sets out the steps DFID is taking to meet its £200 million commitment to address the serious water and sanitation challenges.

The policy is available on the DFID website at:

http://www.dfid.gov.uk/News/files/water-sanitation-policy-08.asp

EU Aid

Mr. Drew: To ask the Secretary of State for International Development if his Department will make it its policy in EU negotiations to ensure that aid conditionality with particular reference to acceptance of *(a)* International Criminal Court and *(b)* Cotonou provisions does not prevent aid reaching those for whom it was intended; and if he will make a statement. [269323]

Mr. Ivan Lewis: The Cotonou agreement is the legal basis by which European development funds (EDF) are provided to Africa, Caribbean and Pacific partner countries. The Cotonou agreement has clear references to the adoption of the International Criminal Court and has other conditions which must be adhered to by all parties. The UK Government believe that all countries receiving EDF support must be signatories of the Cotonou agreement. This is fundamental to the partnership between these countries and the European Union, and should be upheld.

When situations arise where partner country governments do not meet the conditions outlined in the Cotonou agreement, then the UK will explore options with the European Commission to find alternative sources of aid funding to reach those in need.

Fines

Mr. Grieve: To ask the Secretary of State for International Development whether any administrative financial penalties may be levied by his Department. [253591]

Mr. Michael Foster: I can confirm that the Department for International Development does not apply administrative financial penalties as a remedy for non performance of a service contract or aid agreement.

Global Fund to Fight AIDS Tuberculosis and Malaria

Sir Robert Smith: To ask the Secretary of State for International Development what recent representations he has received on the level of his Department's funding for the Global Fund to fight AIDS, tuberculosis and malaria. [267909]

Mr. Ivan Lewis: Since January 2009, the Department for International Development (DFID) has received representations, in the form of correspondence and parliamentary questions, from Members of Parliament on the level of UK funding to support the Global Fund to fight AIDS, TB and Malaria. This was in the lead up to the Stop AIDS Campaign: Day of Action held on 24 March and the Global Fund Mid-Term Review of the Second Voluntary Replenishment Meeting in Spain between the 30 March-1 April.

I attended the Student Stop AIDS Campaign meeting on 24 March and held a question and answer session. The audience spoke passionately about the anticipated funding needs that the Global Fund would help respond to.

DFID has already made an unprecedented pledge to the fund of up to £1 billion between 2008 and 2015. Last year we set out in a memorandum of understanding with the Secretariat how we will commit £330 million for the current period, 2008-10. We also set out that we will commit an additional amount of £30 million in 2010 dependent on performance and results. The Prime Minister also announced in September last year a further £40 million in support to the Affordable Medicines Facility for Malaria (AMFM) which will be hosted by the fund as part of its existing business.

Montserrat: Overseas Aid

Andrew Rosindell: To ask the Secretary of State for International Development how much budgetary aid the UK gave to Montserrat in each of the last five years. [269781]

Mr. Michael Foster: The information requested is as follows:

UK budgetary aid to Montserrat, 2003-04 to 2007-08

	DFID bilateral expenditure (£000)
2003-04	12,451
2004-05	10,133
2005-06	10,367
2006-07	11,350
2007-08	11,725

Further information on the UK's expenditure on aid to Montserrat is contained in the Department for International Development's (DFID) publication 'Statistics on International Development'. This is available in the Library of the House and online at:

www.dfid.gov.uk

Details on DFID's expenditure in 2008-09 are not yet available but will be published in its 2009 annual report in July.

Overseas Aid: Fossil Fuels

Gregory Barker: To ask the Secretary of State for International Development what his policy is on the provision of *(a)* loans and *(b)* loan guarantees by multilateral development banks to fossil fuel projects overseas; and if he will make a statement. [265215]

Mr. Thomas: In October 2008 the Governors of the World Bank agreed a new strategic framework for climate change and development that will integrate climate change adaptation and mitigation into its core activities. The framework sets out a series of considerations that will govern decisions on financing for new coal power projects. Details of these are available on the World Bank's web-site:

http://web.worldbank.org/WBSITE/EXTERNAL/TOPICS/
ENVIRONMENT/EXTCC/0,,contentMDK:21876999
~menuPK:4849391~pagePK:210058~piPK:210062~theSite
PK:407864,00.html

The UK worked with the Bank in developing the Framework and led calls for its adoption. The Department for International Development (DFID) is continuing work with the World Bank and other multilateral development banks (MDBs) to develop these criteria further and identify how they should be applied to fossil fuel projects across the MDBs.

The clean energy investment framework agreed by the Gleneagles G8 in 2005, has led to an increase in low carbon energy investments by the MDBs representing $117.7 billion of leveraged investment. Our £800 million contribution to the climate investment funds will help provide some of the additional resources needed to help support this.

Poverty

Mr. Moore: To ask the Secretary of State for International Development what the estimated cost of the regional consultation on his Department's White Paper on eliminating world poverty is; and if he will make a statement. [268055]

Mr. Michael Foster: The estimated cost of the regional consultation is £205,000. 12 events are planned in total, covering the nine English regions, together with Scotland, Northern Ireland and Wales.

Poverty: Conferences

Mr. Moore: To ask the Secretary of State for International Development which *(a)* hon. Members and *(b)* Members of the House of Lords (i) were invited and (ii) attended his Department's Conference on Eliminating World Poverty. [268014]

Mr. Thomas: The information is as follows.

(a) The following participated as guest speakers or session chairs: Right hon. Gordon Brown MP; right hon. Douglas Alexander MP; right hon. David Miliband MP; right hon. Ed Miliband MP; right hon. Malcolm Bruce, Chair of the Commons Select Committee on International Development; Gareth Thomas MP and Ivan Lewis MP.

The following Members accepted invitations to attend the "Eliminating World Poverty: Building our Common Future" conference:

Right hon. John Battle MP, Chair of the All-Party Parliamentary Group on Overseas Development;

David Borrow MP, Chair of the All-Party Parliamentary Group on AIDS and acting Chair of the All-Party Parliamentary Group on Debt, Aid and Trade;

Christine McCafferty MP, Chair of the All-Party Parliamentary Group on Population, Development and Reproductive Health;

Richard Ottaway MP, contributor to All-Party Parliamentary Group hearings on population growth.

Mike Gapes MP, Chair of the House of Commons Select Committee on Foreign Affairs, was unable to attend and declined the invitation.

(b) The following members of the House of Lords were invited and attended: Lord Crisp; Lord Hannay of Chiswick; Lord Joffe and Lord Judd. Lord Robertson of Port Ellen and Lord Stern of Brentford participated as speakers.

The following members of the House of Lords declined the invitation: Lord Browne of Madingley; Lord Desai and Lord Turner of Ecchinswell.

St. Helena: Airports

Bob Russell: To ask the Secretary of State for International Development what assessment was made of the economic case for an airport on the island of St Helena before tenders for the construction of an airport were sought. [267933]

Mr. Michael Foster: Preliminary work was carried out by High Point Rendel in the 2001 Comparative Study of Air and Sea Access for St. Helena. This fell short of a full economic analysis.

The 2005 Feasibility Study by Atkins included outline economic appraisal of a wide range of access options, and detailed financial and economic analysis of three shortlisted options, including the proposed airport. This work was reviewed by a leading independent economist.

Bob Russell: To ask the Secretary of State for International Development how much the preferred tenderer has spent on pre-contractual work for the construction of an airport on the island of St Helena; and what steps he plans to take to compensate the preferred tenderer in the event that the project is not proceeded with. [267936]

Mr. Michael Foster: We have no means of knowing how much the preferred tenderer has spent on pre-contractual work. Any such work is carried out at the tenderer's own risk.

Under the terms of the tender, tenderers who have submitted bids which are not taken forward to contract are entitled to reclaim up to £100,000 in costs.

Mike Penning: To ask the Secretary of State for International Development what meetings *(a)* Ministers and *(b)* officials in his Department have held in respect of the proposed airport on the island of Saint Helena in the last six months; and if he will make a statement. [268215]

Mr. Michael Foster: I, with departmental officials, have had meetings with the Governor of St. Helena, representatives of the St. Helena Leisure Corporation (SHELCO) and Impregilo, the preferred bidder, in respect of the proposed airport.

Discussions have also been held at official level between DFID and the Foreign and Commonwealth Office and the Treasury.

Mike Penning: To ask the Secretary of State for International Development what research his Department has *(a)* commissioned and *(b)* evaluated on the proposed airport on the island of Saint Helena; and if he will make a statement. [268230]

Mr. Michael Foster: Predecessors of the Department for International Development commissioned studies by the Civil Aviation Authority in 1973 and 1987, both of which concluded that while a runway was feasible technically the costs would be considerable. DFID commissioned High Point Rendel as part of the

Comparative Study of Air and Sea Access in 2001. This assessed costs of both forms of access indicating air access a better long-term option.

More recently, DFID commissioned Atkins to undertake the full feasibility study. This was completed in January 2005 and evaluated a wide range of options, including the proposed airport. It was on the basis of its conclusions that the Government went to tender in 2007. A full environmental impact assessment was carried out in 2005-06, following earlier studies into the St. Helena wirebird, invertebrates and lichens on the proposed airport site.

St. Helena: Politics and Government

Bob Russell: To ask the Secretary of State for International Development how many consultations on *(a)* proposals for an airport on the island of St Helena, *(b)* other matters associated with an airport and *(c)* general matters relating to the economy of St Helena have been held in each year since 1999; and what the cost of each was. [267932]

Mr. Michael Foster: The St. Helena Government and the Department for International Development have together consulted the public on St. Helena on a wide range of issues associated with the airport and the economy over a number of years. These include the referendum on access in 2002, and subsequent consultations regarding Land Use, Private Sector Investment, Tourism and most recently Taxation. Details of consultation relating to the airport can be found in the planning statement at:

http://www.sainthelenaaccess.com/application/documents/Planning-Statement

Most of the consultation work has been carried out in the course of wider preparatory work and costs are not readily disaggregated.

Bob Russell: To ask the Secretary of State for International Development what discussions he has had with *(a)* the Secretary of State for Defence and *(b)* the Secretary of State for Foreign and Commonwealth Affairs on the strategic importance to the UK of the island of St Helena in respect of (i) the South Atlantic and (ii) Africa in the last six months. [267934]

Mr. Michael Foster: The Secretary of State for International Development has regular meetings with Cabinet colleagues on a range of issues.

Bob Russell: To ask the Secretary of State for International Development for what periods in *(a)* 2009 and *(b)* 2010 RMS St Helena will be out of service for programmed works; and what plans there are to ensure that the island of St Helena will receive supplies during such periods. [267935]

Mr. Thomas: The RMS St. Helena will be out of service for programmed works from 16 to 30 August 2009, from 8 March 2010 to 19 April 2010 and from 31 August to 5 October 2010.

The Government of St. Helena are planning in the same way as they plan for the RMS absences when it makes trips to the United Kingdom, as that journey is comparable to these out of service periods. The RMS schedule is published well in advance so that arrangements can be made, through proper preparation, to ensure that essential supplies are maintained.

RMS voyage schedules information can be found on the RMS website:

http://www.rms-st-helena.com/schedules.html

Bob Russell: To ask the Secretary of State for International Development pursuant to the written ministerial statement of 16 March 2009, *Official Report*, column 40WS, on St. Helena, when he expects the consultation on access arrangements for the island of St. Helena to conclude; if he will publish all submissions the consultation receives; and if he will make an oral statement to the House as soon as possible after conclusion of the consultation. [267980]

Mr. Michael Foster: The consultation starts in April. The deadline for responses is 31 July. In line with the Government's 'Code of Practice on Consultation', we plan to publish a report within three months of the close of the consultation. This will summarise the responses received and explain how the consultation will influence policy development. The Secretary of State for International Development will make his decision once he has considered the report.

St. Helena: Travel

Mike Penning: To ask the Secretary of State for International Development what means of transport are available to visitors wishing to travel to Saint Helena; and if he will make a statement. [268216]

Mr. Michael Foster: Visitors travel to St. Helena on the RMS St. Helena, commercial cruise ships, and yachts. In addition the island is also visited by cargo ships, fuel tankers, navy ships and research ships. In 2008, five cruise ships and over 140 yachts visited St. Helena and the RMS St. Helena called on the island 30 times.

Tuberculosis: Overseas Aid

Mr. Sharma: To ask the Secretary of State for International Development what his Department's priorities are in respect of programmes for the global control of tuberculosis in the next 12 months. [268069]

Mr. Ivan Lewis: The Department for International Development's (DFID) main focus remains the delivery of the Global Plan to Stop TB 2006-15, which aims to save 14 million lives. We do this with substantial support through country programmes, multilateral organisations, global partnerships, research, and through using our political voice in the G8 and other fora.

Key priorities for TB control at present include addressing the challenges of HIV-TB co-infection and the increasing problem of drug resistance. We will continue to focus on both HIV and TB, and on strengthening the underlying health systems in order to improve the way health services diagnose and treat illnesses, including TB and TB-HIV. We will also continue to support research into new TB treatments. DFID recently made a new £18 million funding package to the Global Alliance for TB Drug Development. This is part of the £220 million committed for product development research for diseases including HIV, TB and malaria.

Mr. Sharma: To ask the Secretary of State for International Development what steps he is taking to ensure that international development and control of the spread of drug-resistant tuberculosis are discussed at the 2009 G8 conference in Italy. [268070]

Mr. Ivan Lewis: Italy holds the presidency of the G8 this year and they have agreed that development and Africa will be a key element of the G8 Leaders Summit in Italy in July. As with previous summits, the UK Government will continue to work through all available channels in the lead up to the summit to ensure that tackling global health challenges remains a high priority for the leaders' agenda. The UK is strongly committed to reducing death and suffering from drug-resistant tuberculosis, and will encourage other G8 partners to ensure that tuberculosis is addressed as part of the comprehensive package of G8 measures. This should enable developing countries to make faster progress towards the millennium development goal targets.

Washington

Mr. Paul Goodman: To ask the Secretary of State for International Development which airline was used by the hon. Member for Dewsbury (Mr. Malik) for his visit to Washington from 25 to 26 October 2007, as listed in the Cabinet Office's list of overseas travel by Ministers undertaken between 1 April 2007 and 31 March 2008; what class his ticket was; how much the flight cost; what accommodation he used; how much it cost; who accompanied him; what official engagements he undertook on his visit; and if he will make a statement. [269333]

Mr. Douglas Alexander: Details of Ministers' travel are published annually in the Cabinet Office publication "Overseas Travel by Ministers". The most recent version is available in the Library of the House and online at:

http://www.cabinetoffice.gov.uk/media/cabinetoffice/proprioty_and_ethics/assets/travel_2007_2008.pdf

FOREIGN AND COMMONWEALTH OFFICE

Arctic

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his Canadian counterpart on Russian military deployments in the Arctic. [268751]

Caroline Flint: There have been no discussions between my right hon. Friend the Foreign Secretary and the Canadian Foreign Minister on this matter.

Balkans: Conflict Prevention

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 25 March 2009, *Official Report*, columns 17-19WS, on conflict resources 2009-10, what level of funding will be provided for conflict prevention work in the Balkans; and if he will make a statement. [267725]

Caroline Flint: We plan to fund some £6.5 million of conflict prevention project work in the Western Balkans from the Wider Europe Conflict Prevention Fund in 2009-10. I have covered this further in my letter of 25 March 2009 to the chairman of the European Scrutiny Committee, a copy of which will be placed in the Library of the House.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Written Ministerial Statement of 25 March 2009, *Official Report*, columns 17-19WS, on conflict resources 2009-10, what a reduced level of commitment to EU and OSCE operations in the Balkans and the Caucasus will entail; how much funding is required for this reduced level of commitment; how much funding was originally planned under the 2007 Comprehensive Spending Review; and if he will make a statement. [267726]

Caroline Flint: I refer the hon. Member to the written ministerial statement given by my right hon. Friend the Foreign Secretary on 25 March 2009, *Official Report*, column 18WS.

The UK will continue to support the work of EU and the Organisation for Security and Co-operation in Europe missions in the Balkans and south Caucasus. Details of the prioritisation of our commitments are set out in my letter to the Chairman of the European Scrutiny Committee of 25 March 2009, a copy of which has been placed in the Library of the House.

Binyam Mohamed

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department's Senior Legal Adviser was instructed during his recent visit to Washington to request the US administration to permit the release of the 42 documents on Binyam Mohamed currently classified as secret by the US intelligence services. [260384]

David Miliband: The Foreign and Commonwealth Office (FCO) Legal Adviser met with a range of interlocutors from across the US government on 9-10 February 2009 to discuss legal issues relating to a number of foreign policy matters including the case of Mr. Binyam Mohamed. At this stage we continued to press for Mr. Mohamed's release and return. The FCO legal adviser was informed of the US review on all state secret cases ordered by President Obama. He made it clear that the UK had no objection to the release of US documents in this case. We will not lobby the US on the matter. It is for them to decide on the publication of their documents.

British Council: Finance

Mr. Paul Goodman: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 March 2009, *Official Report*, column 778W, on British Council: finance, how much expenditure *(a)* in which countries and *(b)* on what programmes he expects the British Council to incur under its Reconnect Programme in 2008-09. [268605]

Caroline Flint: The British Council's Reconnect programme for 2008-09 focussed on youth leadership programmes within countries in its priority regions of the middle east, near east and north Africa as well as parts of its central and south Asia and east Asia regions.

The individual programmes are: Global Changemakers, Active Citizens, Global Exchange, Leadership in Community Development, Women at Work and the Springboard Programme. The total spend for these programmes in 2008-09 is forecasted at just over £2 million which constitutes £1 million of the British Council's Reconnect funding supplemented by additional funding from the British Council's grant in aid funding.

British Overseas Territories: Nature Conservation

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many animal species previously known to inhabit each British Overseas Territory have been recorded as extinct since 2004. [269728]

Gillian Merron: As far as we are aware, no animal species previously known to inhabit each British Overseas Territory has been recorded as extinct since 2004.

British Virgin Islands: Nature Conservation

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to ensure the preservation of biodiversity and coral reefs in the British Virgin Islands. [269780]

Gillian Merron: The management and protection of the environment has been devolved to the individual Overseas Territories. However, we recognise that there are capacity limitations in the Overseas Territories and that they need help to address conservation issues. The Government supports the Overseas Territories by providing funding through the Overseas Territories Environment Programme, a joint Foreign and Commonwealth Office and Department for International Development funded programme, and through the Darwin Initiative, a Department for Environment, Food and Rural Affairs, funded programme, to encourage the conservation and preservation of biodiversity in the British Virgin Islands.

Through the Overseas Territories Environment Fund, we are funding a project for the community of Jost Van Dyke, the fourth largest inhabited island in the British Virgin Islands, to help it develop an environmental profile and increase environmental awareness among residents, stakeholders, visitors and government agencies, providing a long-term programme of education, outreach and environmental monitoring.

We have also provided funding for a project, working with the British Virgin Islands National Parks Trust, which has created an identification guide to the major Caribbean reef species. This enables accurate monitoring and conservation of the reefs, and also enables information to be shared across the Caribbean Overseas Territories, whose reefs have many ecological similarities.

Canada: Politics and Government

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps the Government has taken to monitor the political situation in Canada. [266096]

Bill Rammell: Foreign and Commonwealth Office officials in London, and staff based at our high commission in Ottawa and at our consulates-general elsewhere in Canada, maintain frequent and regular contact with their Canadian counterparts on a wide range of domestic and international political issues. At ministerial level, recent contacts have included my right hon. Friend the Foreign Secretary's meeting on 16 February 2009 with Peter Mackay, Canadian Minister of National Defence and chair of its Cabinet Foreign Affairs Committee, and my right hon. Friend the Prime Minister's telephone call on 17 March 2009 to the Canadian Prime Minister Stephen Harper.

Central Africa: Peacekeeping Operations

Mr. Newmark: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the contribution of the EU military mission in Chad and the Central African Republic to regional stability. [268033]

Gillian Merron: During its one year mandate, the EU forces in Chad and the Central African Republic made a valuable contribution towards providing security in the region, in particular by deterring attacks on civilians by armed groups and in facilitating the delivery of humanitarian aid.

Children: Safety

Mr. Paul Goodman: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* funding and *(b)* other assistance his Department provided for the production of series (i) one, (ii) two and (iii) three of the Kids Taskforce Watch over Me production. [268041]

Caroline Flint: The Foreign and Commonwealth Office (FCO) provided £62,412 over the 2004-05 financial year towards the development of series 2 of the "Kids Task Force—Watch over Me" video production to cover the inclusion of issues relating to forced marriage and how they affect young people.

The FCO did not provide any other funding or assistance to the project.

Colombia: Drugs

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what mechanisms are in place to ensure that the counter-narcotics assistance provided by the Government to the Colombian security forces is not used for counter-insurgency purposes. [269737]

Gillian Merron: I refer my hon. Friend to my answer of 3 March 2009, *Official Report,* column 1410W.

Colombia: Military Aid

Mrs. Moon: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Written Ministerial Statement of 30 March 2009, *Official Report*, columns 40-2WS, on Colombia, what plans there are for future UK bilateral counter-narcotics assistance to the Colombian security forces. [268865]

Gillian Merron: We do not divulge the details of our counter-narcotics work in Colombia, including costs, because of the risk to the people concerned. The parliamentary ombudsman has upheld this approach.

Conflict Prevention

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 25 March 2009, *Official Report*, columns 17-19WS, on conflict resources 2009-10, what the breakdown is of the costs incurred under each peacekeeping mission to which the UK is committed; and if he will make a statement. [267721]

Bill Rammell: Based on our calculations, in 2008-09 we estimate that the UK's share of assessed costs to individual missions paid for from within conflict resources will be as follows:

	£
UN Mission in the Central African Republic and Chad (MINURCAT)	18,297,738
UN Operation in Côte d'Ivoire (UNOCI)	19,968,022
UN Mission in the Democratic Republic of Congo (MONUC)	49,272,772
UN Mission in Ethiopia and Eritrea (UNMEE)	1,334,652
UN Mission in Liberia (UNMIL)	25,323,581
UN African Union: UN Hybrid Operation in Darfur (UNAMID)	64,197,346
UN Mission in Sudan (UNMIS)	30,070,770
UN Peacekeeping Force in Cyprus (UNFICYP)	1,392,357
UN Integrated Mission in East Timor (UNMIT)	6,008,093
UN Observer Mission in Georgia (UNOMIG)	1,462,365
UN Disengagement Observer Force Zone (UNDOF)	1,834,559
UN Stabilisation Mission in Haiti (MINUSTAH)	24,201,172
UN Interim Administration Mission in Kosovo (UNMIK)	7,480,504
UN Interim Force in Lebanon (UNIFIL)	28,307,578
UN Mission for the Referendum in Western Sahara (MINURSO)	1,764,832
UN International Criminal Court	5,463,876
UN International Criminal Tribunal for Rwanda	5,403,725
UN International Criminal Tribunal for Yugoslavia	7,145,468
UN/AU UN Logistical Support to African Union Mission to Somalia (AMISOM)	1,960,880
Organisation for Security and Co-operation in Europe field missions	9,633,681
EU Common Foreign and Security	15,100,000
EU Force in Chad (EUFOR)	6,647,350
EU NAVFOR Atalanta	340,466
Total	332,611,787

We have budgeted for £456 million for assessed costs in 2009-10. As most of these costs are yet to be agreed in the relevant international forum, we do not yet have reliable estimates for individual missions.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Written Ministerial Statement of 25 March 2009, *Official Report*, columns 17-19WS, on conflict resources 2009-10, what estimate has been made of the effect on the costs to the Government of its commitments to international institutions caused by the fall in the value of sterling; and if he will make a statement. [267722]

Bill Rammell: The projected increase in the UK's assessed peacekeeping contributions in 2009-10 is the result of both an increase in peacekeeping activity international and the fall in the value of sterling against the US dollar and the euro.

The impact of exchange rate changes in financial year 2008-09 has been partly offset by the effects of forward purchasing our foreign currency requirement.

We have earmarked £456 million for assessed costs in 2009-10. However, this remains a projection as UN peacekeeping costs are still to be negotiated by the UN General Assembly for 2009-10, and future UN peacekeeping activity remains subject to decisions by the UN Security Council. We cannot provide an accurate estimate of the additional costs caused by the fall in the value of sterling rather than through the expansion of international peacekeeping missions until the budgets for each of the individual missions are agreed and payments made.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Written Ministerial Statement of 25 March 2009, *Official Report*, columns 17-19WS, on conflict resources 2009-10, what proportion of the additional £71 million for conflict prevention, stabilisation and discretionary funding will be met by *(a)* his Department, *(b)* the Department for International Development and *(c)* the Ministry of Defence; and if he will make a statement. [267723]

Bill Rammell: Of the additional £71 million to be provided by the Foreign and Commonwealth Office (FCO), Ministry of Defence (MOD) and Department for International Development (DFID) for discretionary conflict activity (conflict prevention, stabilisation and peacekeeping), £15 million (21 per cent.) has been provided by the FCO, £22.5 million (32 per cent.) by the MOD and £33.5 million (47 per cent.) by DFID.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Written Ministerial Statement of 25 March 2009, *Official Report*, columns 17-19WS, on conflict resources 2009-10, what the allocation for South Asia and Afghanistan was before the revision announced in the Statement. [267869]

David Miliband: The final budgets contained within the written ministerial statement are the original and only allocation figures for South Asia and Afghanistan for financial year 2009-10.

South Asia and Afghanistan received £56.4 million in 2008-09 and has been allocated £61.3 million for 2009-10.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 25 March 2009, *Official Report*, columns 17-19WS, on conflict resources 2009-10, what proportion of the additional £71 million to be provided for peacekeeping activities by his Department, the Department for International Development and the Ministry of Defence will be drawn from his Department's budget. [267870]

David Miliband: Of the additional £71 million to be provided by the Foreign and Commonwealth Office (FCO), Ministry of Defence (MOD) and Department for International Development (DfID) for discretionary conflict activity (conflict prevention, stabilisation and peacekeeping), £15 million (21 per cent.) has been provided by the FCO, £22.5 million (32 per cent.) by the MOD and £33.5 million (47 per cent.) by DfID.

Departmental Carbon Emissions

Greg Clark: To ask the Secretary of State for Foreign and Commonwealth Affairs for how long his Department has followed the Carbon Trust's Carbon Management programme. [269280]

Caroline Flint: The Foreign and Commonwealth Office has been following the Carbon Trust's Carbon Management Programme since April 2006.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since 2005; and at what cost. [268266]

Gillian Merron: As the Foreign and Commonwealth Office devolves budget responsibility for most purchases of this type to individual directorates, there is no central record of the information requested. Consequently a full answer could be provided only at disproportionate cost.

However, a central pool of laptops is maintained for work involving sensitive information. There are currently approximately 450 machines available for use by staff on a rental basis. The cost of providing this service was approximately £650,000 in the financial year 2008-09.

Departmental Conferences

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 12 March 2009, *Official Report*, columns 626-27W, on economic situation, what expenditure was incurred under what budgetary headings his Department incurred on its seminar on Organisation for Economic Co-operation and Development's Africa Economic Outlook held in June 2008. [268174]

Gillian Merron: The Organisation for Economic Co-operation and Development (OECD) Africa Economic Outlook seminar helps inform Foreign and Commonwealth Office (FCO) staff about economic developments in Africa and is also a valuable part of the UK's extensive links with the OECD.

The total cost of the seminar was £123.74, to provide refreshments for the participants and guest speakers from the OECD's Development Centre. This was met from the FCO's Global Economy Group's administrative budget.

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 12 March 2009, *Official Report*, columns 626-27W, on the economic situation, what expenditure under what budgetary headings was incurred by his Department in relation to its Global Economy Group internal seminar held in October 2008. [268175]

Caroline Flint: The lunchtime seminar on risks facing emerging market economies in the financial crisis cost £270.36. All costs were associated with catering provided by the Foreign and Commonwealth Office's standard internal caterers.

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 12 March 2009, *Official Report*, columns 626-27W, on the economic situation, what expenditure under what budgetary headings was incurred by his Department in relation to its bi-annual conference for its economic officers held in December 2008. [268176]

Gillian Merron: The Foreign and Commonwealth Office (FCO) Economic Officers conference is held bi-annually.

The budget for this year's conference was set at £35,000 with 120 officials attending. The actual spend as of 30 March 2009 was £23,238 and final spend is expected to be within the budget.

Two thirds of the budget for the conference was to provide a contribution to officials' airfares. The remainder was allocated to catering and audio equipment hire.

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 12 March 2009, *Official Report*, columns 626-27W, on the economic situation, what the expenditure under what budgetary headings was incurred by his Department in relation to its seminar on Global economics crisis: challenges and opportunities for Europe held in Budapest in February. [268177]

Gillian Merron: The Department incurred a total expenditure of £1,464 for this seminar under the following budgetary headings:

	£
Language Interpretation	315
Conference Audio Visual Services	227
Photographer	85
Banners	38
Graphic Design	136
Stationery	663

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 12 March 2009, *Official Report*, columns 626-7W, on the economic situation, what expenditure under what budgetary headings was incurred by his Department in relation to its conference for climate and energy attachés held on 26 and 27 February 2009. [268178]

Caroline Flint: The conference held on 26 to 27 February 2009 succeeded in allowing our Diplomats based throughout the world to engage directly with policy makers in Whitehall, non-governmental organisations and key business stakeholders so as to improve their effectiveness in representing the UK overseas. Over 150 people attended this event which is held annually. Final costs are contingent on claims for subsistence some of which are yet to be received. But anticipated final costs break down as follows:

	Anticipated final costs (£)
Conference facilities including the hire of audio equipment and catering	7,587.75
Cost of hotels and subsistence for delegates	26,683.75
Cost of flights for delegates	19,119.34
Total costs	53,390.84

Costs are incurred under the administration budget line for the global and economic issues directorate at the Foreign and Commonwealth Office.

Departmental Energy

Greg Clark: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what steps have been taken by *(a)* his Department and *(b)* its agencies to improve the thermal efficiency of their buildings in the last 12 months; [266758]

(2) what recent progress his Department has made towards the target of increasing its energy efficiency per square metre of its Estate by 15 per cent. by 2010, relative to 1999-2000 levels; and if he will make a statement. [266880]

Gillian Merron: The Foreign and Commonwealth Office has draught-proofed the windows in our London offices and reduced office heating in the UK from approximately 24°C to a target of 21°C this winter. We are currently undertaking a thermal survey of our UK estate in order to identify further opportunities to reduce heat loss.

In June 2008 we constructed a new information communications technology building at Hanslope Park in Buckinghamshire. This building is a high thermal mass structure, with exposed concrete ceilings that absorb at night the heat generated by the building during the day and selected elevations have solar shading to minimise the heat gain from the sun. The building also contains passive cooling systems using chilled ceiling beams. In winter the building is heated using waste heat recovered by heat exchangers from the data halls.

This building won two Datacentre Leaders Awards for Innovation in 2008. This new building partially replaces three thermally inefficient pre-fabricated buildings which have been decommissioned; a further such building will be decommissioned by the end of 2011.

At Wilton Park measures including repairing window frames, installing thermostatic temperature control valves to radiators and new boiler controls have been taken to improve thermal efficiency.

Greg Clark: To ask the Secretary of State for Foreign and Commonwealth Affairs how much *(a)* electricity, *(b)* gas and *(c)* other fuel was used by (i) his Department and (ii) each of its agencies in each of the last 10 years. [267334]

Gillian Merron: Information on the worldwide use of electricity, gas and other fuels by the Foreign and Commonwealth Office (FCO) and its agencies in each of the last 10 years is not held centrally and it would not be possible to provide this information without incurring disproportionate cost.

The following table provides all the available data for the UK FCO estate and Wilton Park. FCO services energy usage cannot be extracted from the remainder of the UK FCO estate without incurring disproportionate cost.

	1999-2000	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
FCO (inc FCO services)									
Electricity (kWh)	17317198	16395548	17193208	18636612	18717254	19457515	20756930	22578615	23524791
Gas (kWh)	n/k	1838096	1663895	1689517	1490484	1616136	1679115	1341891	1153023
Oil (kWh)	n/k	2637032	4552078	4503978	4459440	3878744	4732676	3291842	4280027
Heat (kWh)	n/k	4365330	5306887	7116929	6475252	6636479	7146240	5290430	5677120
Wilton Park									
Electricity (kWh)	n/k	n/k	n/k	330000	398716	411676	439213	451972	414771
Gas (kWh)	n/k	501626	437841	469730	423842	406431	423272	402785	419166
Oil (Litres)	n/k	51198	57230	57310	56500	52900	58088	59412	28000
Woodchip (Tonnes)	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	130

Notes:

1. Heating for the bulk of the London Estate is supplied by the Whitehall district heating system.
2. Where the value is stated as n/k, the information is not currently available in this format and could be obtained only at disproportionate cost.
3. Where the value is stated as n/a, which refers to woodchip at Wilton Park, this refers to a new facility introduced in 2007-08.

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005. [268248]

Caroline Flint: The structure of the Foreign and Commonwealth Office accounts does not readily allow financial data relating to mobile devices to be broken down as requested, so a comprehensive answer could be provided only at disproportionate cost.

However, the accounts show the following annual expenditure, categorised as relating to mobile phones, incurred worldwide:

	Annual expenditure (£)
2004-05	2,007,278.06
2005-06	2,972,010.60
2006-07	3,188,356.62
2007-08	1,815,066.03
2008-09	[1]2,222,930.46

[1] 2008-09 has not yet closed and the final figure may vary from this.

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [268292]

Gillian Merron: The Foreign and Commonwealth Office has purchased, or upgraded, the following numbers of mobile devices centrally:

	Number of mobile devices
BlackBerry	
2005	24
2006	75
2007	161
2008	289
Other mobile devices	
2005	273
2006	334
2007	284
2008	352

These figures do not include any devices that may have been purchased using devolved budgets. It is not possible to provide a breakdown of the users of these devices without incurring disproportionate cost.

Departmental Official Hospitality

Mr. Rob Wilson: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's entertainment budget was in each of the last five years. [261110]

Caroline Flint: The following figures cover entertainment costs for the last five financial years (1 April 2004 to 28 February 2009) and are actual spend figures rather than budget allocations.

	£
2004-05	4,202,925.92
2005-06	4,441,416.84
2006-07	3,517,135.09
2007-08	6,470,379.11
2008-09	7,334,177.90

These figures include all items, for example catering and set up costs that are directly attributable to functions, events and receptions held at posts throughout the world and in the UK.

Departmental Public Expenditure

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 16 March 2009, *Official Report*, columns 843-44W, on departmental public expenditure, from which budgets the additional funds required by overseas posts to maintain the purchasing power of their local budgets in 2008-09 and 2009-10 will be drawn; and if he will make a statement. [267732]

David Miliband: The additional funds required by overseas posts to maintain the purchasing power, are allocated from the overall Foreign and Commonwealth Office's budget and supplemented by the benefits of forward purchase of foreign currencies.

Departmental Rail Travel

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of travel by train by staff in his Department in each year since 1997. [261173]

Gillian Merron: We cannot provide data prior to January 2008 as this information is not held centrally, and to provide it would incur disproportionate cost.

The cost of train travel by Foreign and Commonwealth Office (FCO) staff from January 2008 to March 2008 was £43,955.95.

The cost of train travel, by FCO staff from April 2008 to February 2009 was £176,269.85.

Departmental Recycling

Mr. Rob Wilson: To ask the Secretary of State for Foreign and Commonwealth Affairs how much and what proportion of its waste his Department recycled in each of the last five years. [266613]

Gillian Merron: Government Departments report their waste data against a baseline of 2004-05 and we do not have reliable data prior to that.

The figures for the Foreign and Commonwealth Office UK estate are as follows:

	Tonnes/percentage
2004-05	
Total waste arising (Tonnes)	1,857.5
Total waste sent for recycling/reuse (Tonnes)	736
Recycling/reuse (Percentage)	40
2005-06	
Total waste arising (Tonnes)	1,508.4
Total waste sent for recycling/reuse (Tonnes)	534.3
Recycling/reuse (Percentage)	35
2006-07	
Total waste arising (Tonnes)	1,797
Total waste sent for recycling/reuse (Tonnes)	740
Recycling/reuse (Percentage)	41
2007-08	
Total waste arising (Tonnes)	1,212.4
Total waste sent for recycling/reuse (Tonnes)	577.5
Recycling/reuse (Percentage)	48

Figures for 2008-09 will not be available until later this month.

Departmental Training

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs how many training courses *(a)* civil servants and *(b)* Ministers in his Department undertook in each of the last three years; and what the cost of providing such training was in each year. [266267]

Gillian Merron: The Foreign and Commonwealth Office (FCO) provides a range of learning and development opportunities in the UK and at its posts overseas. Information and attendance statistics are not held centrally and cannot be provided without incurring disproportionate costs.

I refer the hon. Member to my answer of 29 January 2009, *Official Report*, column 725W. For training in years prior to 2008, our management records provide the following details:

> In 2006 the then Minister for Africa, Asia and the UN, attended a National School of Government (NSG) leadership event at a cost of £630.
>
> In 2007 the Minister for Africa, Asia and the UN, attended a NSG workshop at a cost of £200.

Mr. Hurd: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on the practice of holding departmental away days outside the Department's buildings. [268532]

Gillian Merron: The Foreign and Commonwealth Office (FCO) believes that away days are a useful tool in helping FCO teams develop and contribute effectively to delivering the FCO's strategic objectives. Responsibility for arranging away days is devolved to directorates within the FCO and there is no central policy on where away days take place.

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and which organisations provided such training. [268554]

Gillian Merron: I refer the hon. Member to my answer of 2 March 2009, *Official Report*, column 1420-21W. The Foreign and Commonwealth Office has not incurred any other expenditure on media training for Ministers during the last three years.

Diplomatic Service: Recruitment

Chris Ruane: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to the answer of 6 November 2006, *Official Report*, column 843W, on the Diplomatic Service, what progress his Department has made towards its commitment in recruiting a talented and diverse workforce which reflects the society it serves at each pay band level. [244270]

Gillian Merron: The following table shows percentages of staff being paid via the FCO payroll split in terms of gender, ethnicity, disability and pay band.

			Percentage
FCO pay band	*As of 1 April 2006*	*As of 1 April 2007*	*As of 1 April 2008*
Band A			
Female Staff	56.5	55.7	56.4
Minority Ethnic	11.9	18	19.3
Disabled	5.1	7.5	7.2
Band B			
Female Staff	52	50.4	49.9
Minority Ethnic	8.1	10.5	10.4
Disabled	2.9	3.8	3.8
Band C			
Female Staff	33.4	33.3	33
Minority Ethnic	3.1	4.6	5
Disabled	2.4	3.6	3.4
Band D			
Female Staff	30.6	31.3	32.1
Minority Ethnic	2.2	3.2	3
Disabled	2.4	3.1	3.3
SMS			
Female Staff	16.4	17.3	19.4
Minority Ethnic	2	2.9	3.7
Disabled	1.6	2.9	2.4

The Foreign and Commonwealth Office (FCO) has developed a range of initiatives launched at various levels of the organisation in order to recruit a more talented and diverse work force.

For example, since November 2006 we have implemented an undergraduate work experience programme designed to promote ethnic diversity and social inclusion, as well as taking part in Cabinet Office-led internships for students from ethnic minority backgrounds and for students with registered disabilities.

Since September 2007 we have opened up all of our Senior Management Structure jobs to candidates from across Whitehall.

In addition, in 2007 we organised an external recruitment campaign at Band D level, targeted at a diverse range of individuals from backgrounds outside of the FCO with the skills we require.

European Union

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff of EU institutions are posted to EU external representations. [263995]

Caroline Flint: We do not hold this information. The relevant data are owned by each EU Institution.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs what financial contribution the EU made to international organisations in which it has a role as *(a)* a participant and *(b)* an observer in the last 12 months. [263998]

Caroline Flint: The information required to answer this question is not held centrally, and to provide it would incur disproportionate cost.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs who the members of the EU Joint Advisory Committee for Professional Incompetence are. [264002]

Caroline Flint: The Foreign and Commonwealth Office do not hold this information. Under Article 9 of the Staff Regulations of Officials of the European Communities, each EU Institution can set up their own Joint Advisory Committee for Professional Incompetence, which are internal staff management bodies for those institutes. The relevant data are owned by each institution.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* cases and *(b)* subjects were considered by the EU Joint Advisory Committee for Professional Incompetence in 2008. [264003]

Caroline Flint: The Foreign and Commonwealth Office do not hold this information. The relevant data are owned by each EU Institution and they should be approached for this information.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs in which international institutions European Communities bodies are able to claim the alternative exercise of membership rights; and on how many occasions such bodies have exercised such rights in the last 12 months. [264004]

Caroline Flint: In the international bodies to which the European Community is a party—with or without the Member States, the extent to which the European Community exercises rights will be determined in accordance with the rules applicable to participation of a regional body in the international body concerned. It will also depend on any internal arrangements agreed between the European Community and the Member States relating to its participation in an international body.

We do not have information available on how many times the European Community may have exercised its membership right in international bodies within the last 12 months.

Exchange Rates

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs how foreign exchange risk on his Department's foreign currency liabilities is managed; and if he will make a statement. [268081]

Gillian Merron: Two mechanisms are used to manage our foreign exchange risk:

The Overseas Pricing Mechanism (OPM) to support exchange rate pressures. Although HM Treasury withdrew support for the OPM we continue to operate the OPM internally to maintain the purchasing power of our overseas posts' local budgets.

For our significant exposure in US dollars and euros, and to a lesser extent Japanese yen, a forward purchase strategy contracted through the Bank of England. To date we have secured several contracts with the Bank of England. These provide the maximum cover allowed for our forecast US dollar and euro net exposure up to February 2010, and partial cover over the intervening months to January 2011.

Foreign Policy

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to involve UK Muslims in discussions on British foreign policy. [267325]

Bill Rammell: Since March 2008 we have had an active programme of outreach to Muslim communities around the UK by Ministers and senior officials to engage on a range of foreign policy issues. Our outreach work to British Muslim communities is part of the Foreign and Commonwealth Office's wider 'Bringing Foreign Policy Home' initiative—a series of regional visits by Ministers and officials which include broad-ranging discussions with the British public on key foreign policy issues with the aim of raising awareness of the impact of foreign policy on peoples' lives.

Future Firecrest Programme

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs when his Department first assessed the feasibility of the project which became the Future Firecrest programme; and if he will make a statement. [268875]

Caroline Flint: Preliminary work to establish the need and identify a procurement strategy started in early 2002.

The initial business case was considered by the Foreign and Commonwealth Office (FCO) Board in May 2002. Following this and a review, in August 2002, by the Office of Government Commerce, a detailed examination of our requirements and the potential procurement options resulted in the presentation of a fully elaborated set of options in March 2003. On the basis of this, the project board approved the further development of the business case, recommending the procurement of a private sector strategic partnership. This business case was approved by the FCO Board and Ministers in July 2003.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs when the contract with Hewlett-Packard to provide the Future Firecrest programme was signed. [268876]

Gillian Merron: The contract was signed in February 2005.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs when the Future Firecrest programme was initially scheduled for completion; and what the initial estimate of its cost was. [268877]

Gillian Merron: At initiation, the Future Firecrest programme was expected to complete in February 2012, and to cost £401 million.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs when the Future Firecrest programme is scheduled for completion; and what his most recent estimate of the cost of the programme is. [268878]

Gillian Merron: The programme is currently expected to complete in February 2012 at a cost of £401 million.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs how many bidders his Department initially considered to supply its Future Firecrest programme. [268879]

Gillian Merron: From the list of companies registering a potential interest in response to the notice published in the official journal of the EU, five were invited to submit detailed proposals. Following evaluation of these, three bidders were shortlisted.

G20: Greater London

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what arrangements are being made by his Department to accommodate those persons attending the G20 summit; and if he will make a statement. [268582]

Gillian Merron: Participating countries were responsible for their own accommodation arrangements and costs.

G20: Internet

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs how much funding his Department provided to the G20 Voice programme; and for what purposes such funding was used. [269025]

Gillian Merron: No funding has been provided by the Foreign and Commonwealth Office to the G20 Voice programme.

Government Hospitality Advisory Committee for the Purchase of Wine

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost to the public purse of the Government Hospitality Advisory Committee for the Purchase of Wine was in each of the last five years. [269134]

Gillian Merron: The members of the Government Hospitality Advisory Committee for the Purchase of Wine do not charge for their services. The Committee's expenses are met from the Government Hospitality budget, and cost in the region of £10,000 per annum. The Committee's administration is carried out by a full-time civil servant, and accounts for approximately 20 per cent. of his time.

Government Hospitality Fund

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs who the *(a)* chairman and *(b)* members of each Government Hospitality Fund advisory committee are; what each committee's terms of appointment are; how often each Committee meets; what the main functions are of each one; and if he will place in the Library a copy of the minutes of the most recent meeting of each committee. [269135]

Gillian Merron: Government Hospitality has one advisory committee, the Government Hospitality Advisory Committee for the Purchase of Wine (GHACPW). As a registered non-departmental public body, the terms of reference of the Committee are in the public domain.

The Chairman of the Committee is Sir David Wright; the four members of the Committee are Mr. John Avery MW, Mrs. Deirdre Blackstock MW, Mr. Mark Pardoe MW and Mr. Sebastian Payne MW. The chairman and members are each appointed for a five-year term, renewable for a further five years.

The GHACPW meets four times a year. Its main function is to advise the Minister responsible for Government Hospitality on the maintenance of an appropriate standard of wine for use at Government functions.

Edited minutes of the Committee's proceedings are released through the Foreign and Commonwealth Office's Publication Scheme. The Annual Report of the Committee is placed in the Library of the House.

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* full-time employees and *(b)* full-time equivalent staff the Government Hospitality Fund employed in each of the last five years. [269136]

Gillian Merron: Government Hospitality is part of Protocol Directorate within the Foreign and Commonwealth Office. There are 14 established civil servants working in the Government Hospitality team, and this number has not varied significantly over the last five years.

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the Government Hospitality Fund spent on the purchase of *(a)* champagne and *(b)* other wines in each of the last five years. [269137]

Gillian Merron: Government Hospitality in Protocol Directorate, Foreign and Commonwealth Office, recorded the following expenditure on new stock for the Government cellar in the previous five years:

	£
2003-04	93,503
2004-05	60,059
2005-06	95,264
2006-07	108,715
2007-08	137,460

These sums include approximately £33,310 spent on purchasing champagnes over the five year period.

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs what the budget of the Government Hospitality Fund was in each year since 1997. [269138]

Gillian Merron: Government Hospitality recorded the following expenditure in the years since 1997:

	£
1997-98	342,131
1998-99	407,399
1999-2000	406,486

	£
2000-01	489,994
2001-02	552,924
2002-03	623,892
2003-04	705,384
2004-05	869,418
2005-06	809,529
2006-07	992,592
2007-08	525,568

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs what budget has been set for the Government Hospitality Fund for *(a)* 2009-10 and *(b)* 2010-11. [269139]

Gillian Merron: An annual budget of £800,000 has been allocated for Government Hospitality, Protocol Directorate, for each of the next two financial years.

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs to how many official functions the Government Hospitality Fund provided services in each of the last five years. [269140]

Gillian Merron: Government Hospitality in Protocol Directorate, Foreign and Commonwealth Office, assisted in the organisation and execution of the following number of functions between 2004 and 2008:

	Number of functions
2004	283
2005	260
2006	227
2007	189
2008	208

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs what the *(a)* role and *(b)* function of the Government Hospitality Fund is. [269141]

Gillian Merron: Government Hospitality in Protocol Directorate of the Foreign and Commonwealth Office delivers official hospitality for all Government Ministers and Permanent Secretary-level officials. Government Hospitality manages all the logistical preparations for official functions. It also oversees the administration of the Government wine cellar, and the maintenance of stocks of linen, china, silver and glassware.

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs which Departments made use of the Government Hospitality Fund in each of the last five years. [269142]

Gillian Merron: Since 2004 the following Departments have used Government Hospitality's service:

The Office of the Prime Minister;
The Home Office;
The Foreign and Commonwealth Office;
The Ministry of Defence;
The Ministry of Justice;
HM Treasury; the Cabinet Office;
The Department of Health;
The Department for Business, Enterprise and Regulatory Reform;
The Department for Environment Food and Rural Affairs;
The Department for International Development;
The Department for Communities and Local Government;
The Department for Children, Schools and Families;
The Department for Energy and Climate Change;
The Department for Work and Pensions;
The Department for Culture, Media and Sport; and
The Department for Innovation, Universities and Skills.

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* champagnes and *(b)* other wines the Government Hospitality Fund purchased in each of the last five years; and how many bottles of each were purchased. [269143]

Gillian Merron: Since 2004 Government Hospitality has purchased the following wines:

English still and sparkling white and rosé wines;
Red Bordeaux;
White Burgundy;
Red Burgundy;
White Loire;
Sweet white Bordeaux;
Non-vintage and vintage Champagne;
Red Spanish;
Red Italian;
Red and white beverage (reception) wines;
Red Argentinean;
Red Australian;
Red Chilean;
Red New Zealand; and
Red US wines.

To give a detailed breakdown of the numbers of each wine bought would incur disproportionate cost as the information can be obtained only by investigating paper records.

Immigration: Finance

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what the budget of the Returns and Reintegration Fund *(a)* was in 2008-09 and *(b)* is planned to be in 2009-10; what proportion of that total in each case is being provided by (i) his Department, (ii) the Ministry of Justice, (iii) the UK Border Agency and (iv) the Department for International Development; and if he will make a statement. [268856]

Bill Rammell: The allocation for the Returns and Reintegration Fund in 2008-09 was up to £40 million comprising: UK Border Agency (UKBA) £21 million; Foreign and Commonwealth Office (FCO) £4 million and Department for International Development (DFID) £15 million. In 2009-10 it is planned to be up to £37 million comprising: UKBA £21 million; FCO £4 million and DFID £12 million. The Ministry of Justice makes no financial contribution but supports the fund by providing expertise on specific projects.

Iraq: Conflict Prevention

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Written Ministerial Statement of 25 March 2009, *Official Report*, columns 17-19WS, on conflict resources 2009-10, how much of the planned expenditure in the Middle East in 2009-10 has been allocated to stabilisation activities in Iraq. [267733]

David Miliband: Of the £18 million assigned to the Middle East North Africa Programme for 2009-10, £13.1 million will be spent on stabilisation activities in Iraq.

Stabilisation activities there will focus on support for security sector reform by building Iraqi police and judiciary capabilities in forensics and investigations techniques across the country; fostering economic growth, investment and job opportunities in the Basra region; developing the capacity of the Council of Representatives; and reconciliation initiatives.

Iraq: Mujahedin-e Khalq

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of alleged attacks on residents in Ashraf City by members of the Iraqi secret service; and if he will make a statement. [265351]

Bill Rammell *[holding answer 20 March 2009]*: We are aware that such allegations have surfaced in the Iraqi media. We have discussed these allegations with the US, who retain a presence inside Camp Ashraf, and with the Iraqi government. We have seen no evidence to support the allegations.

Iraq: Reconstruction

Martin Horwood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many contracts for reconstruction projects in Iraq have been awarded to UK businesses. [267422]

Bill Rammell: Full information on contracts for reconstruction projects in Iraq is not held centrally and to collate would incur disproportionate cost. It would involve accessing information held by the government of Iraq, coalition partners, a full range of international and commercial partners alongside that held by the Government.

From the Government's perspective, the Department for International Development has issued 117 contracts for our bi-lateral Iraq programme since March 2003. These all relate to our technical assistance projects in Iraq and are mostly small (under £100,000) and often to individual consultants. Some are considerably larger with sixteen over £1 million in value and the highest of £11,700,000. Our main contracts have been won by UK businesses such as Coffey International, Mott MacDonald, and PA Consulting.

Members: Correspondence

Mr. Burns: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to reply to the letter of 2 December 2008 from the hon. Member for West Chelmsford on Ms Margaret Harrison of Chelmsford. [266652]

Caroline Flint: My hon. Friend the Minister responsible for South East Asia replied to the hon. Member for West Chelmsford's (Mr. Burns) letter on 31 March 2009.

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to reply to the letter to him of 19 February 2009 from the right hon. Member for Manchester, Gorton with regards to Mrs Amtar Rashid. [268030]

David Miliband: I replied to the right hon. Member for Manchester, Gorton's letter on 5 April 2009.

Mental Illness

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the recommendations relevant to his Department's policy responsibilities made in the Foresight report on Mental Capacity and Well-Being; and if he will make a statement. [244021]

Gillian Merron: The Foresight report makes no recommendations directly relevant to the policy responsibilities of the Foreign and Commonwealth Office. Nonetheless its findings are consistent with the Department's approach to tackling workplace stress and mental health problems among its own staff.

Middle East: Armed Conflict

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the Israeli government on the recent attack on a convoy in Sudan alleged to have been carrying arms to the Gaza Strip; and if he will make a statement. [268622]

Gillian Merron *[holding answer 2 April 2009]:* My right hon. Friend the Foreign Secretary has not made any representations to the Israeli government on the recent attack on a convoy in Sudan alleged to have been carrying arms to the Gaza Strip.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the US administration on the recent attack on a convoy in Sudan alleged to have been carrying arms to the Gaza Strip; and if he will make a statement. [268623]

Gillian Merron *[holding answer 2 April 2009]:* My right hon. Friend the Foreign Secretary has not made any representations to the US administration on the attack on a convoy in Sudan alleged to have been carrying arms to the Gaza Strip.

Nepal: Human Rights

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the relationship between observance of human rights and long-term development in Nepal. [269656]

Bill Rammell: The UK wants to support Nepal in achieving its vision of a peaceful, prosperous, and just country, where all its people have a say and equal chances for a better life.

A faltering peace process, delays in writing the new constitution and weak law and order are undermining the promotion and protection of human rights and the effective delivery of development programmes. The UK is committed to helping Nepal achieve peace and stability, draft a constitution which will establish an equitable society and protect human rights, and reach its poverty targets. In this way, all Nepalese people will be able to access their rights and benefit from development. The Department for International Development's programme in Nepal therefore has the following priorities: supporting the peace process and helping to improve security, helping the Nepalese Government to deliver more effectively, especially on health and education, and helping poor people, especially women, benefit from economic growth.

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the human rights situation in Nepal. [269658]

Bill Rammell: As I said in my reply to the hon. Member for Buckingham (John Bercow) on 23 March 2009, *Official Report*, columns 32-33W, while there have been improvements in the human rights situation in Nepal since the end of the conflict in 2006, significant challenges remain to the promotion and protection of human rights caused by the absence of the rule of law. Despite the Government of Nepal making repeated commitments to promoting respect for human rights, they have made limited progress. They have however taken steps towards the proportional inclusion of minorities in all organs and at all levels of the state. They have also increased the budget for the national human rights commission, and has discussed the introduction of a bill to establish a truth and reconciliation commission.

The continuing impunity for past and ongoing human rights abuses remains a key concern. It has encouraged a lack of respect for the law which encourages people to turn to violence to resolve disputes. Poor public security, particularly in the Terai (plains), where there is a proliferation of armed groups, is a major obstacle to improving human rights in Nepal. We are also concerned at the increase in intimidation and violence against journalists which is leading to self-censorship by journalists. Political interference in police investigations is commonplace and we continue to receive reports of torture in police custody.

Our embassy in Kathmandu closely monitors the human rights situation. During the past year we have raised our concerns, including at ministerial level, about attacks on the media, freedom of expression and movement, excessive use of force by the security forces, and the need to discharge minors from the Maoist people's liberation army. We will continue to engage with the government of Nepal both bi-laterally and in conjunction with the EU, other international partners, and the Office of the High Commissioner for Human Rights to urge it to meet the commitments it has made to uphold and promote human rights. Our embassy is also supporting the efforts of civil society to combat impunity, through advocacy, training and work on legislative reform.

Nepal: Press Freedom

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on levels of press freedom in Nepal. [269654]

Bill Rammell: There is a diverse and lively press in Nepal expressing different political viewpoints. However, we are concerned about increasing intimidation and violence against journalists. Attacks are from a range of sources, including Government Ministers, major political parties and their sister organisations, armed groups and businesses. Despite commitments by the Government to protect human rights widespread impunity has meant that attacks on freedom of expression go unpunished, leading to cases of self-censorship by journalists.

We repeatedly raise concerns about freedom of expression at all levels with the Government of Nepal, both bilaterally and with the EU. Our embassy in Kathmandu also supports civil society initiatives to promote freedom of expression.

Nepal: Religious Freedom

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of levels of religious freedom in Nepal. [269655]

Bill Rammell: The interim constitution of Nepal provides for freedom of religion, and Nepal was declared a secular state by the interim parliament in 2007. We regularly urge the Government of Nepal at all levels to give priority to the implementation of all rights and freedoms, including religious freedoms, and are encouraging them to ensure that freedom of religion is enshrined in the new constitution currently being drafted.

Pakistan: Human Rights

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Pakistan on allegations of human rights abuses in *(a)* Swat region and *(b)* elsewhere in Pakistan. [267985]

Bill Rammell: We discuss the situation in Swat with a wide range of Government of Pakistan officials. In those discussions we have raised the subjects of internally displaced people and the impact of violence on daily life. We also discuss the situation regularly with the international aid organisations operating in the region. More generally, we encourage human rights reform through our regular dialogue with the Government of Pakistan, both bi-laterally and through the EU.

Pakistan: Taliban

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the effect of continuing Taliban insurgency in Pakistan on the Government's policies on the region. [267673]

Bill Rammell: The Government remain deeply concerned about the grave threat that Taleban militants and violent extremists in Pakistan pose to Pakistan and to the stability of the region.

We are concerned about the spread of the Taleban's influence in Pakistan's North West Frontier Province and by the peace deal in Swat. We need to be confident that any such deal will end violence, not create space for further violence. Previous deals have not provided a sustainable solution to Swats' problems.

We consider that our objectives in Afghanistan cannot be achieved without a secure and stable Pakistan that is focused on tackling the serious problem of Afghan militants operating from Pakistan's frontier areas. A long-term, comprehensive approach is required, bringing together robust, monitored and enforceable security measures on cross-border movement with improvements in development and governance.

Furthermore, we assess that insurgency in Pakistan creates space for the recruitment, training and operation of other violent extremist groups, including Al Qaida, which pose a clear security threat to the UK and the wider world.

Insecurity created by the insurgency is also a fundamental obstacle to shared aims of development, economic growth and the fulfilment of human rights in Pakistan and the wider region.

The UK seeks to help Pakistan to develop the capacity to tackle the threat of militancy and to build a stable, prosperous and democratic country that is equipped to address the grievances which can result in violent extremism.

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the government of Pakistan on the position of the Taliban in Swat region. [267987]

Bill Rammell: Foreign and Commonwealth Office officials based at our High Commission in Islamabad continue to hold frequent discussions about the political and security situation in Pakistan with a wide range of Pakistani ministers, politicians and officials. The security situation in Swat has been a regular theme of discussions, including recently with Pakistani Interior Minister Rehman Malik. My right hon. Friend the Foreign Secretary last discussed the broader political and security situation in Pakistani with President Asif Zardari on Friday 12 March 2009.

RMS St. Helena

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost of maintaining RMS St. Helena has been since it entered service in 1989. [267101]

Mr. Michael Foster: I have been asked to reply.

Annual maintenance costs (including repairs) for the Royal Mail Ship (RMS) St. Helena since 1991-92 when the RMS started service are set out in the following table. These do not include consumables (paint etc.).

£

	Total Cost	Maintenance/ repair cost	Capital Expenditure
1991-92[1]	302,000	—	—
1992-93[1]	394,000	—	—
1993-94[1]	429,000	—	—
1994-95[1]	486,000	—	—
1995-96[1]	794,000	—	—
1996-97[1]	700,000	—	—
1997-98[1]	701,000	—	—
1998-99[1]	827,000	—	—
1999-2000[2]	1,262,000	1,038,000	224,000
2000-01	814,000	420,000	394,000
2001-02	578,000	463,000	115,000
2002-03	656,000	512,000	144,000
2003-04[2]	1,174,000	939,000	235,000
2004-05	831,000	556,000	275,000
2005-06	651,000	540,000	111,000
2006-07[2]	1,281,000	925,000	356,000
2007-08	1,227,000	707,000	520,000
2008-09[3]	1,279,000	1,079,000	200,000

[1] For these, costs cannot be broken down between maintenance/repair costs and capital expenditure.
[2] Includes dry dock
[3] Cost includes breakdown repairs

Security Guards

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the use of private armed security companies in volatile countries. [266895]

Gillian Merron: My right hon. Friend the Foreign Secretary has not made an assessment on the use of private armed security companies in volatile countries.

Shanghai World Expo

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs how much funding has been received for the British pavilion for the Shanghai World Expo 2010. [263509]

Bill Rammell: The information requested is as follows:

£10,241,314 by 31 March 2009. This is made up of £1,351,600 from private sector sponsors; £8,889,714 from public sector sponsors.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the cost to the public purse of the British pavilion at the Shanghai World Expo 2010. [263510]

Bill Rammell: The design and building costs of the pavilion are £13.8 million, including a contingency of £1.8 million. The cost to the public purse of the pavilion will be this sum minus a share of sponsorship from the private sector.

Special Envoy for Conflict Resolution

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs what coaching and training the Government have provided for the Prime Minister's Special Envoy for Conflict Resolution, Jack McConnell; and what the cost was of such training since his appointment. [250383]

Bill Rammell: The right hon. Jack McConnell MSP, the Prime Minister's Special Representative for Conflict Resolution Mechanisms, has been briefed by officials on relevant subjects as necessary. No formal training or coaching has been required and therefore no costs have been incurred.

Sudan: Eritrea

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with President Afewerki of Eritrea on the recent visit to Eritrea of Sudan's President al-Bashir. [269329]

Caroline Flint: My right hon. Friend the Foreign Secretary has not had any discussions with President Afewerki of Eritrea. Our officials have regularly set out to the Eritrean government our views on the situation in Sudan and the need for co-operation with the International Criminal Court.

Sudan: Israel

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli ambassador on the recent Israeli attack on alleged arms carriers in Eastern Sudan. [269322]

Caroline Flint: My right hon. Friend the Foreign Secretary has not made any representations to the Israeli ambassador on the alleged attack on a convoy in Sudan, which was reported to have been carrying arms to the Gaza Strip.

Sudan: Politics and Government

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the Sudanese government on the closure of Sudan Social Development Organisation. [268624]

Gillian Merron *[holding answer 2 April 2009]:* We are gravely concerned about the expulsion of 13 international non-governmental organisations (NGOs) and the closure of local organisations including the Sudan social development organisation. The EU statement issued on 10 March 2009 specifically mentions the local NGOs and calls on the government of Sudan to reconsider their decision.

Our embassy in Khartoum is working closely with other embassies and the UN to ensure the situation of the local NGOs continues to be raised with the government of Sudan. A working group, including the UN Mission in Sudan, the UN African Union Mission in Darfur and the Office for the Co-ordination of Humanitarian Affairs is being set up in Khartoum, to monitor the situation.

To date, there has been no indication that the government of Sudan will reverse its decision and allow the local organisations to continue operating in Sudan.

Tony Blair

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost to the public purse of the protection of Tony Blair when outside the British Isles has been since June 2007, broken down by category of expenditure. [262895]

Mr. Coaker: I have been asked to reply.

I refer the hon. Member to my reply of 5 March 2009, *Official Report*, column 1779W.

USA: Iran

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the US Secretary of State on President Obama's recent video broadcast to the Iranians. [268752]

Bill Rammell: We continue to have regular discussions with the US on the full range of Iran related issues, including during President Obama and Secretary Clinton's visit to the UK. We fully support President Obama's recent message to the Government and people of Iran and welcome his commitment to direct engagement and a relationship based on mutual respect if Iran is willing to do the same. I urge Iran's leaders to respond positively to the opportunity this presents to work constructively with the international community.

Uzbekistan: Human Rights

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what part his Department has played in the EU-Uzbekistan Human Rights Dialogue. [265369]

Caroline Flint: Our ambassador in Tashkent makes a significant contribution to regular human rights reporting by EU Heads of Mission. These reports, supported as necessary by interventions by our representation in Brussels, play a key role in driving the agenda for the EU Human Rights Dialogue with Uzbekistan. We are preparing for the next round of that dialogue, which is due to take place on 10 June 2009 in Tashkent. Our aim is to contribute towards an EU approach that is both critical and constructive.

Written Questions: Government Responses

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to answer question 258643, on arms trade: exports, tabled on 24 February 2009. [268023]

Gillian Merron: This question was answered on 31 March 2009, *Official Report*, column 1114W. The delay in replying was due to an administrative error.

Zimbabwe: Politics and Government

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his African Union counterparts on the political situation in Zimbabwe. [269489]

Gillian Merron: My noble Friend, the Minister for Africa, Asia and the UN, Lord Malloch-Brown, met a number of African leaders, including Presidents Khama, Kikwete and Odinga, at a pre-London G20 Summit meeting on 16 March 2009. Zimbabwe was one of the key topics under discussion. My right hon. Friend the Foreign Secretary has been in regular contact with Dlamini-Zuma, his South African counterpart, about Zimbabwe, which he discussed at a meeting on 6 March 2009. My noble Friend, Lord Malloch-Brown also spoke with African leaders about Zimbabwe at the African Union Summit in Addis Ababa from 1-4 February 2009.

Written Answers to Questions

Tuesday 21 April 2009

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Broadband: Cleveland

Dr. Kumar: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many households in Middlesbrough South and East Cleveland constituency had access to broadband services *(a)* in 2004 and *(b)* at the latest date for which figures are available. [268434]

Mr. McFadden: The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Departmental Absenteeism

Mr. Hands: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many staff of his Department were recorded absent for non-medical reasons on *(a)* 2 February 2009 and *(b)* 3 February 2009; what estimate he has made of the (i) cost to his Department and (ii) number of working hours lost due to such absence; and what guidance his Department issued to staff in respect of absence on these days. [260468]

Mr. McFadden: It is not possible to provide exact numbers as annual leave and arrangements for absence are agreed locally between line managers and their staff. Asking each individual line manager in the Department for details would incur disproportionate cost.

An estimate of the costs and working hours lost has not been completed and it would incur disproportionate cost to do so. However, the Department has assessed the proportion of staff able to work on the 2 and 3 February 2009. All departmental buildings were open on those dates. It is estimated that approximately 25 per cent. of staff attended the office. In addition, approximately 65 per cent. of staff have remote access to the Department's IT system and all London-based staff have remote telephony access and can access the office telephone system from home or elsewhere. It is estimated that approximately 10 per cent. of staff cannot work from home and were unable to work in any way on the days in question.

Staff were issued with advice on travel information and reminded of departmental guidance on adverse weather and travel disruption. Where possible, staff made alternative arrangements with their line managers including

Working flexibly or from home

Different work patterns to ease disruption of public transport e.g. start work later

Using annual leave

Where line managers considered it was unreasonable to require staff to attend the office and it was impossible to work from home, managers had discretion to authorise staff to stay at home without loss of pay.

Departmental ICT

Jenny Willott: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what the initial estimated *(a)* cost and *(b)* delivery date for each ICT project initiated by his Department and its predecessor that cost more than £1 million was in each year since 2003-04; what the (i) outturn cost and (ii) completion date was of each such project subsequently completed; and how much has been paid to each contractor in respect of each project. [265511]

Mr. McFadden: For the last 10 years the vast majority of the Department's, and its predecessors, IT services have been provided through a PFI agreement with Fujitsu services and covers the provision of all desktop services, web infrastructure services, document management and other business applications. Many of these are charged for as part of overall, bundled, service charges. The Department also has in place an alternative IT framework agreement with a number of suppliers to enable competition where this is deemed appropriate. In addition, previously the responsibility for ICT was of a devolved nature and it is not therefore possible to provide all of the information requested without disproportionate cost. However, the information we do have available for ICT Projects costing over £1 million in each year since 2003-04 is as follows:

Project	*Original estimate (£ million)*	*Delivery date*	*Outturn (£ million)*	*Actual delivery*	*Main supplier*	*Notes*
Flexible Computing	9.1	March 2006	9	March 2008	Fujitsu	Project was deferred until 2007
Lynx	2.1	March 2008	1.8	March 2008	Logica/CMG	
HR Online	9.5	May 2008	10.6	March 2009	Cap Gemini	Implementation delayed due to performance issues

Since 2003-04 all other ICT projects have either been delivered as part of the Fujitsu PFI contract or have cost less than £1 million.

Jenny Willott: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269571]

Mr. McFadden: In order to reduce the levels of carbon dioxide emissions the Department has:

Reduced the number of PCs within the Department on a ratio of eight PCs for every 10 staff.

Introduced a printer/employee ratio of 1:20 for monochrome and 1:40 for colour printers.

Reduced the number of desktop printers by over 800 with an associated reduction in consumables.

Reduced the number of Exchange servers from 20 to eight

Introduced improved power saving settings on all PCs and on printers

Introduced automatic night time shut down on all PCs.

Jenny Willott: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what the average server capacity utilisation by each division of his Department and its predecessor was in each of the last five years; and if he will make a statement. [269586]

Mr. McFadden: The provision of IT services in my Department are outsourced to a number of suppliers on an array of IT server equipment. Under these arrangements, service level targets are specified and monitored to ensure high standards of service. The measurement of server capacity utilisation is not a contractual reporting requirement and so the information requested is not available.

Departmental Marketing

Mr. Hurd: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform with reference to the answer to the hon. Member for Fareham of 4 February 2008, *Official Report,* column 894W, on departmental marketing, how much the Insolvency Service has spent on promotional products since February 2008. [252453]

Mr. McFadden: The Insolvency Service spent approximately £11,480 on promotional products since February 2008.

Departmental Press

Mr. Hoban: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how much was spent on subscriptions to *(a)* newspapers and *(b)* magazines for delivery to the (i) constituency homes, (ii) London homes and (iii) other homes of Ministers in his Department in each year since 2005. [266345]

Mr. McFadden: Our records show that since 2005 no BERR funded newspapers or magazines have been delivered to any Minister's home.

Departmental Public Appointments

Harry Cohen: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what information his Department holds on the number of persons appointed to executive positions in bodies for which his Department has responsibility who previously had careers in the banking industry. [261238]

Mr. McFadden: We do not hold information centrally for those members of staff who previously had careers in the banking sector.

Departmental Temporary Employment

Justine Greening: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what his Department's policy is on the renewal of the contracts of *(a)* temporary and *(b)* agency staff. [264316]

Mr. McFadden: Temporary staff are staff that have been recruited on a short-term or fixed term civil service contract.

The Civil Service Commissioners' Recruitment Code dictates that short-term appointments of 12 months made outside of fair and open competition can be extended up to a total of 24 months. Such extensions are considered only on an exceptional basis. Extensions of these types are not encouraged and BERR's policy requires line managers to write a business case to the Head of Recruitment to seek approval of an extension.

Fixed term appointments (FTAs) are made through open competition. The person is employed until a specific date is reached, a specific event occurs or a specific piece of work is completed. FTAs are normally made for a period of one to three years and do not usually exceed a total period of four years. BERR's policy requires line managers to seek authority from the Head of Recruitment to extend or make permanent a fixed term appointment.

Agency staff are new recruits that have joined the Department but are not on a civil service contract and are employed by a third party. The use of agency staff is delegated to line management units. Permission must be sought from an HR Business Partner to use agency staff to fill a post. They can only be used on an occasional basis, where there is a short-term business need and other options for filling a post have been considered. The extension of these contracts is not encouraged.

Departmental Training

Mike Penning: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform whether his Department has provided voice coaching to any of its employees in the last 12 months. [260636]

Mr. McFadden: Training budgets are delegated to line managers. Decisions are made locally on how the money is spent so this information is not held centrally.

Evening Standard

Norman Baker: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform whether the Secretary of State absented himself from the decision on whether to issue an intervention notice under the Enterprise Act 2002 in the case of the proposed sale of the London *Evening Standard* to Alexander Lebedev. [269053]

Mr. Thomas *[holding answer 20 April 2009]:* No. Decisions about issuing an intervention on public interest grounds fall to be taken by my right hon. and noble Friend the Secretary of State as provided for in

Section 42 of the Enterprise Act 2002. I refer the hon. Member to the answer I gave on 29 January 2009, *Official Report*, column reference 762W, to the hon. Member for Croydon, South (Richard Ottaway) which noted that my right hon. and noble Friend the Secretary of State had no plans to issue an intervention notice on public interest grounds in this case.

India: Overseas Trade

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many officials of each grade in his Department visited India on official business *(a)* in 2008 and *(b)* in 2009 to date. [268520]

Mr. McFadden: The number of BERR officials by grade who visited India on official business in 2008 was:

4—Range 6 (Executive Officer)
8—Range 9 (Senior Executive Officer)
21—Range 10 (Grade 7)
11—Range 11 (Grade 6)
12—Senior Civil Servant

For the period January 2009 to March 2009, the number of BERR officials by grade who visited India was:

2—Range 4 (Admin Officer)
8—Range 8 (Higher Executive Officer)
6—Range 9 (Senior Executive Officer)
5—Range 10 (Grade 7)
2—Range 11 (Grade 6)
5—Senior Civil Servant

All travel is undertaken in accordance with the Civil Service Code and Civil Service Management Code. In BERR the criteria for booking travel is value for money based on cost and convenience.

Israel: Overseas Trade

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many officials of each grade in his Department visited Israel *(a)* in 2008 and *(b)* in 2009 to date. [268519]

Mr. McFadden: The number of BERR officials by grade who visited Israel in 2008 was:

2—Range 6 (Executive Officer)
3—Range 9 (Senior Executive Officer)
1—Range 10 (Grade7)
1—Range 11 (Grade 6)
2—Senior Civil Servant

For the period January 2009 to March 2009, the number of BERR officials by grade who visited Israel was:

1—Range 10 (Grade 7)

All travel is undertaken in accordance with the Civil Service Code and Civil Service Management Code. In BERR the criteria for booking travel is value for money based on cost and convenience.

Maternity Leave

Mrs. Maria Miller: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many and what proportion of new mothers went on maternity leave in each year since 1997. [260239]

Mr. McFadden: Information on the take-up of maternity leave in each year is not available.

A new mother must take a minimum of two weeks' leave after the birth of her child. The most recent estimates of take-up of maternity leave are based on the maternity rights and mothers' employment decisions in Britain: Survey of Mothers, conducted in 2007. All the mothers surveyed took some time off following childbirth. The survey found 88 per cent. of new mothers took all their entitlement to paid statutory maternity leave.

The survey is available in the House Libraries and at:

http://www.dwp.gov.uk/asd/asd5/rrs-index.asp

Members: Correspondence

Mr. McLoughlin: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he plans to respond to the letter from the right hon. Member for West Derbyshire of 11 December 2008 on support for small businesses. [268706]

Mr. McFadden *[holding answer 20 April 2009]:* I responded to the right hon. Member on 8 April.

Mr. McLoughlin: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when the Minister for Small Businesses plans to respond to the letter from the right hon. Member for West Derbyshire of 15 January 2009 on the Government's small business loan scheme. [268709]

Mr. McFadden *[holding answer 20 April 2009]:* I responded to the right hon. Member on 6 April.

Mr. Winnick: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he plans to reply to the letter from the hon. Member for Walsall North of 25 February 2009 with regard to a constituent; and what the reason is for the time taken to reply. [269037]

Mr. McFadden *[holding answer 20 April 2009]:* I responded to my hon. Friend on 7 April. I apologise for the delay.

Mental Illness

Jo Swinson: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what assessment he has made of the recommendations relevant to his Department's policy responsibilities made in the Foresight Report on Mental Capacity and Well-Being, with particular regard to those recommendations concerning flexible working; and if he will make a statement. [244011]

Mr. McFadden: The Department was pleased to read the Foresight report and will be considering it with a view to taking up any relevant findings.

Part of that process will involve an assessment of what the report might mean for BERR policy on absence management, well-being and flexible working and the Department will report on this in due course.

Paternity Leave

Mrs. Maria Miller: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many and what proportion of new fathers went on paternity leave in each year since the right to such leave was introduced. [260266]

Mr. McFadden: Information on the take-up of paternity leave in each year is not available.

The most recent estimates of take-up of paternity leave are based on the maternity rights and mothers' employment decisions in Britain: Survey of Mothers, conducted in 2007.

The survey found 94 per cent. of employed fathers surveyed took some time off around the time of the birth. Of the fathers who took time off, 81 per cent. were paid for at least some of the time.

The Government estimate that around 400,000 fathers are eligible for the entitlement.

The survey is available in the House Libraries and at:

http://www.dwp.gov.uk/asd/asd5/rrs-index.asp

Regional Development Agencies: Official Hospitality

Anne Main: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform (1) how much Advantage West Midlands has spent on hospitality and entertainment in each year since it was created; [267660]

(2) how much the East of England Development Agency has spent on hospitality and entertainment in each year since it was created; [267661]

(3) how much the East Midlands Development Agency has spent on hospitality and entertainment in each year since it was created; [267662]

(4) how much the South East England Development Agency has spent on hospitality and entertainment in each year since it was created; [267663]

(5) how much the London Development Agency has spent on hospitality and entertainment in each year since it was created; [267664]

(6) how much the North West Regional Development Agency has spent on hospitality and entertainment in each year since it was created; [267665]

(7) how much One North East has spent on hospitality and entertainment in each year since it was created; [267666]

(8) how much the South West of England Regional Development Agency has spent on hospitality and entertainment in each year since it was created; [illegible]67]

(9) how much Yorkshire Forward has spent on hospitality and entertainment in each year since it was created. [267668]

Mr. McFadden: The following table shows the RDAs expenditure on hospitality and corporate entertainment since their creation to the last full financial year.

RDA	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	£ *2007-08*
AWM	8,500	28,500	[1]163.500	8,600	8,900	8,000	15,816	43,862	10,541
EEDA	[2]—	[2]—	[2]—	5,849	11,608	11,118	12,534	7,153	12,126
EMDA	284	17,870	6,510	38,722	48,344	48,301	48,185	20,077	14,781
LDA	[3]—	209	31,220	16,801	23,133	19,462	27,341	19,202	28,590
NWDA	7,144	16,750	21,556	32,908	38,834	35,639	44,975	45,209	22,485
ONE	6,659	2,849	30,853	50,644	40,360	34,600	40,421	38,324	35,048
SEEDA	24,304	34,689	47,063	36,089	50,858	50,640	35,995	42,061	29,863
SWRDA	8,937	13,045	17,723	25,362	17,065	20,552	21,531	17,785	22,600
YF	3,405	20,095	19,616	44,992	64,428	39,276	29,397	42,460	25,767

Notes:

[1] Exceptional hospitality costs in respect of the 2002 Ryder Cup.

[2] Before 2002-03, EEDA did not separately identify hospitality and corporate entertainment costs in accounts. To separate out this data would incur disproportionate cost.

[3] LDA was set up in 2000.

Royal Mail: Pensions

Geraldine Smith: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how much Royal Mail receives in allowances for pension deficit recovery under its price control agreement with Postcomm. [263667]

Mr. McFadden *[holding answer 13 March 2009]:* Postcomm included an allowance for Royal Mail to recover £288 million per annum from customers by way of price increases, increasing at inflation, for meeting pension deficit payments in the 2006-10 price control period.

Actual deficit funding payments have been lower than were allowed in the price control, being £243 million in 2006-07, and £284 million in 2007-08 for the Royal Mail Group as a whole.

Details of the rationale for the £288 million per annum allowance were given in Postcomm's Final Proposals document, which is available on its website at:

http://www.psc.gov.uk/postcomm/live/policyandconsultations/documentsbydate/2005/Final_proposals_061205.pdf

Telecommunications: Security

Mark Pritchard: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform if he will have discussions with Ministerial colleagues on the resilience of the IT and telecommunications components of critical national infrastructure. [268384]

Mr. McFadden: Regular discussion takes place on IT resilience (including that of critical national infrastructure) between the Departments concerned at ministerial and official level as appropriate. Additionally, Government continue to work closely with the telecommunications sector and the regulator to ensure a high level of resilience—especially of UK critical national infrastructure—including through EC-RRG (the Electronic Communications-Resilience and Response Group—a joint industry Government forum), as well as through the Centre for the Protection of National Infrastructure (CPNI), which provides dedicated advice to reduce the vulnerability of national infrastructure.

Much information regarding resilience is commercially sensitive and inappropriate for public discussion. However, where possible information is published here:

www.cpni.gov.uk

and

www.cabinetoffice.gov.uk/ukresilience.aspx

CHILDREN, SCHOOLS AND FAMILIES

Building Schools for the Future Programme: Sixth Form Colleges

Stephen Williams: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 13 January 2009, *Official Report*, column 636W, on the Building Schools for the Future programme: sixth form colleges, (1) what assessment he has made of the adequacy and condition of the sixth form college estate; [268525]

(2) what funding has been allocated to sixth form colleges under the Building Schools for the Future programme for the period after 2010; [268526]

(3) whether a sixth form college located in a local authority area which has already received Building Schools for the Future funding will be able to receive such funding from 2010 onwards. [268528]

Sarah McCarthy-Fry: Pursuant to my answer of 13 January 2009, *Official Report*, column 636W, I restate that we have made our intention clear to bring sixth form colleges within the scope of the Building Schools for the Future programme. This remains our position. We are considering detailed implications and will make these clear as soon as we are able.

Ofsted: Complaints

Philip Davies: To ask the Secretary of State for Children, Schools and Families how many complaints *(a)* Ofsted and *(b)* his Department received from (i) schools and (ii) other education providers in respect of Ofsted inspections made without notice in the last four years for which figures are available. [266105]

Sarah McCarthy-Fry: Ofsted has recently conducted a small number of pilot no-notice school inspections and has received two complaints related to them. Ofsted also conducts some prison education and work-based education inspections without notice. It has not received any complaints related to them since April 2007, and does not hold earlier data.

The Department has no role in relation to complaints about Ofsted inspections.

Pupils

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils of each age group received *(a)* up to one hour, *(b)* between one and two hours, *(c)* between two and three hours and *(d)* three hours or more one-to-one tuition in (i) all subjects and (ii) mathematics each week in the latest period for which figures are available. [268371]

Sarah McCarthy-Fry: We do not currently collect or hold this level of information about the national implementation of one-to-one tuition.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils in each age group have a personal learning guide or coach. [268446]

Sarah McCarthy-Fry: As part of a package of measures to support personalised learning over the current comprehensive spending review period, the 2007 Budget announced that

> "every pupil should have access to a single member of staff—for example a class teacher, a form tutor, a Director of Studies, or a learning guide—who is able to co-ordinate a package of support that best helps that pupil".

This commitment was reconfirmed in the Children's Plan which said that by 2010 every secondary school pupil should have access to a single member of staff (known as a Personal Tutor) who knows them in the round and coordinates a package of support best suited to their individual needs

Officials are currently working closely with the Training and Development Agency for schools (TDA) to develop a package of support and guidance for schools and local authorities. This will enable schools to organise their existing resources in a way that best suits their individual needs to ensure that every secondary pupil has a Personal Tutor from September 2010.

Schools: Standards

Michael Gove: To ask the Secretary of State for Children, Schools and Families what the contextual value added scores were of each school which achieved fewer than 30 per cent. five A* to C grades including English and mathematics at GCSE in 2008. [259154]

Jim Knight: The information is published in the achievement and attainment tables on the Department's website at the following link:

http://www/dcsf.gov.uk/performancetables/schools_08.shtml

This has also been placed in the House Libraries.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which schools in each local authority are participating in the Gaining Ground initiative; which local authorities have entered schools for the initiative; and if he will make a statement. [268676]

Sarah McCarthy-Fry: The Department does not hold a list of the schools that are participating in the Gaining Ground Initiative. To date LAs have held negotiations with schools on the basis that the details of schools that express an interest in the strategy will be held by National Strategies. It has been left to LAs to determine which schools could benefit from the support on offer, taking into account the criteria and their local knowledge of the schools. It is therefore for the LAs to decide whether or not to publish a list as part of their local accountability mechanism.

Teachers: Resignations

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many teachers left the profession before retirement age in each year since 1997. [268480]

Sarah McCarthy-Fry: The following table provides the total full and part-time headcount of regular teachers leaving service from local authority maintained schools in England before the normal age of retirement, 1997-98 to 2006-07, the latest information available.

Full and part-time headcount number of regular teachers[1] leaving service from the local authority maintained schools in England before the normal age of retirement[2], 1997-98 to 2006-07, coverage: England

	Out of service[2]
1997-98	37,020
1998-99	32,150
1999-2000	33,020
2000-01	35,520
2001-02	35,200
2002-03	40,610
2003-04	38,450
2004-05	38,590
2005-06[3]	39,600
2006-07[3]	36,140

[1] 10-20 per cent. of part-time teachers may not be included in the data.

[2] Teacher is no longer in service in the English maintained schools sector and is not receiving a pension or has left service with premature, actuarially reduced or ill heath retirement benefits.

[3] Provisional.

Database of Teacher Records and Pensioner Statistical System (PEN STATS)

COMMUNITIES AND LOCAL GOVERNMENT

Young People: Local Democracy

10. **Mr. Jim Cunningham:** To ask the Secretary of State for Communities and Local Government what recent steps her Department has taken to encourage young people to participate in local democratic decision-making processes. [269452]

Hazel Blears: My Department is very committed to increasing the participation of young people in the local democratic decision-making processes. I recently announced a £2 million fund to support around 20 new Young Mayor schemes across the country to give more young people aged 11 to 18 a say in their area, as well as experience of voting and decision-making.

Rent Receipts

11. **Simon Hughes:** To ask the Secretary of State for Communities and Local Government if she will make it her policy to permit local authorities to keep all receipts from rent paid by their tenants. [269453]

Mr. Iain Wright: We are currently undertaking a Review of Council Housing Finance that is due to report to Ministers later in the spring. This is considering the current Housing Revenue Account subsidy arrangements, and will include recommendations on the treatment of council rents. We will be consulting all stakeholders on the recommendations of the review. It would be inappropriate to pre-empt this exercise.

Sustainable Homes Code

12. **Derek Twigg:** To ask the Secretary of State for Communities and Local Government how many Code homes have gained credits for security in each year since the Code for Sustainable Homes was introduced. [269454]

Mr. Iain Wright: Since July 2008 we have started collecting data on the credits gained on each Code home. 58 homes have gained credits for security as per the Code.

Regeneration: Yorkshire Forward

14. **Mr. Illsley:** To ask the Secretary of State for Communities and Local Government what recent discussions she has had with Yorkshire Forward on regeneration initiatives. [269456]

Mr. Khan: The Secretary of State has not had any discussions with Yorkshire Forward on regeneration initiatives. However, we are working closely with relevant regional agencies and local partners to monitor the conditions of key regeneration schemes.

Local Authorities: Icelandic Banks

16. **Mr. Tom Harris:** To ask the Secretary of State for Communities and Local Government what recent assessment she has made of the effect on local authorities of the collapse of Icelandic banks. [269459]

John Healey: This money is not lost, but at risk. I have made regulations to enable English authorities to postpone any possible budgetary impact of the capital loss until 2010-11 and to protect the public from potential service cuts or council tax increases this year.

CLG has published a statistical release on local authority Icelandic Bank Investments as at 31 December 2008. This includes a full list of English local authorities affected. Revised figures were published on 6 April 2009 and are available at:

http://www.local.communities.gov.uk/finance/stats/iceland.htm

Regional Spatial Strategies

17. **Martin Horwood:** To ask the Secretary of State for Communities and Local Government when she expects to make a decision on the approval of regional spatial strategies. [269460]

Mr. Iain Wright: The Secretary of State made an announcement recently stating her intention to issue the final versions of the last two outstanding RSSs undergoing a full revision:

South East Regional Spatial Strategy at the end of April 2009; and

South West Regional Spatial Strategy at the end of June 2009.

Local Authorities: Independence

18. **Mr. Allen:** To ask the Secretary of State for Communities and Local Government if she will bring forward legislative proposals to increase the independence from central government of local authorities; and if she will make a statement. [269461]

John Healey: As explained in the answer I gave my hon. Friend on 18 November 2008, *Official Report*, column 371W, the statutory independence of local government is set out in various Local Government Acts. An overall devolutionary approach will continue to underpin any local government legislation we bring forward.

Business Rates

19. **Mr. Amess:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the effect on small businesses of changes in the level of business rates from April 2009. [269462]

21. **Mr. Ellwood:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the effect on small businesses of changes in the level of business rates from April 2009. [269464]

John Healey: Although an Impact Assessment is not required where a predetermined formula, such as the rate of inflation, changes the rate of a tax, the Government have recognised that managing cash flow is a key concern for businesses in the current economic climate. This is why the Chancellor announced on 31 March that businesses will be allowed to pay just 2 per cent. of the RPI-linked 5 per cent. increase in their business rates bills in 2009-10. The remaining 60 per cent. can be deferred until 2010-11 and 2011-12.

Planning Applications: Supermarkets

20. **Ms Barlow:** To ask the Secretary of State for Communities and Local Government if she will take steps to provide members of the public with more powers in respect of planning applications made by supermarkets. [269463]

Mr. Iain Wright: There are statutory periods for public participation in the decision making process for planning applications. All applications must be publicised and there is a 21 day statutory period for comments. Local planning authorities are required to take into account timely relevant representations on applications and make public the reasons for decisions.

Requirements for public participation in decision making on planning applications are the same for all types of applications. It would be inappropriate for planning applications from supermarkets to be dealt with differently.

Existing national planning policy, as set out in Planning Policy Statement 6, also encourages developers, local authorities and local communities to work together to identify appropriate sites for retail development to ensure the viability and vitality of their town centres. This approach will be maintained in our forthcoming new policy statement on planning for economic prosperity, which will be published for consultation shortly.

Audit Commission: Icelandic Banks

22. **Dr. Ladyman:** To ask the Secretary of State for Communities and Local Government what discussions she has had with the Audit Commission on its findings in respect of the management by local authorities of their deposits in Icelandic banks; and if she will make a statement. [269465]

John Healey: I met the chief executive of the Audit Commission to discuss its findings on 25 March. The Commission report says that our investment guidance appears to work well. It is important, however, that the guidance should be as clear as possible, and my officials are working with the Commission, CIPFA and the local authority associations to assess how it might be improved in light of the Audit Commission's findings and the forthcoming report from the CLG Select Committee.

FiReControl Project

23. **Paul Rowen:** To ask the Secretary of State for Communities and Local Government what progress has been made on the implementation of the FiReControl project. [269466]

Mr. Khan: There has been notable progress made in delivering the FiReControl project by all delivery partners at the local, regional and national level. These include:

fire and rescue authorities in each region coming together to establish local authority controlled companies to run the Regional Control Centres;

eight out of nine highly resilient Regional Control Centre buildings built, with London on track for completion in February 2010; and

a full programme to survey all Fire Stations to enable New Station End equipment is under way and to date 558 out of 1,410 have been completed.

Further information on FiReControl is available at:

www.communities.gov.uk/firecontrol

Band D Council Tax

24. **Andrew Selous:** To ask the Secretary of State for Communities and Local Government how much Band D council tax has increased on average in *(a)* England and *(b)* South Bedfordshire in absolute and percentage terms since 1997-98. [269467]

John Healey: The average Band D council tax, including parish precepts, in South Bedfordshire has increased by £843 or 106 per cent. between 1997-98 and 2009-10. In England as a whole, the increases in the same period are £726 and 106 per cent.

Because of the formation of the new Central Bedfordshire authority the figure used for 2009-10 is not strictly comparable with those for previous years.

Community Groups: Assets Transfer

Mr. Jamie Reed: To ask the Secretary of State for Communities and Local Government what progress has been made on her proposals for the transfer of assets to community groups. [269450]

John Healey: Since May 2007 good progress has been made in implementing the Quirk Review proposals on asset transfer. CLG has supported 50 local authority and community partnerships to facilitate asset transfer; and is funding an independent Asset Transfer Unit, to promote and advise on asset transfer across England. Investment of £30 million from the Cabinet Office is facilitating 38 transfers.

Regional Economy: South West

Anne Snelgrove: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effectiveness of the steps the Government Office for the South West has taken to assist the regional economy in the current economic climate. [269455]

John Healey: Government office for the south west plays a key role in assisting the region in the current economic climate. It supports the Regional Minister, Ben Bradshaw, in leading a prompt response to sectoral, regional, and national problems; co-ordinates the South West Regional Economic Task Group (jointly with the south west regional development agency); provides intelligence to assist national and regional interventions; and communicates key national messages on the economy to regional and local audiences.

Home Information Pack Rules

Mr. Holloway: To ask the Secretary of State for Communities and Local Government if she will make an assessment of the effect of the new home information pack rules on the housing market. [269457]

Mr. Iain Wright: The Home Information Pack (Amendment) (No.3) Regulations 2008 were accompanied by a regulatory impact assessment setting out our assessment of the effect of the new rules which came into force on 6 April 2009.

Council Tax

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of unitary authorities which have set their absolute rate of council tax since the establishment of unitary local government arrangements. [268880]

John Healey: All 56 unitary authorities in England have set their absolute rate of council tax in 2009-10. Details of the levels of council tax they set in 2009-10 are given in the statistical release Levels of Council Tax Set by Local Authorities : England 2009-10 that was published on the Communities and Local Government website on Thursday 26 March 2009. It can be found at:

http://www.communities.gov.uk/publications/corporate/statistics/counciltax200910

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much revenue was raised in absolute terms through the fire precept on council tax in each precepting authority in the last year for which figures are available. [268924]

John Healey: Information on the council tax requirement of precepting fire authorities in England in 2007-08 is as shown:

Fire authority	*Council tax requirement in 2007-08 (£000)*
Avon Combined Fire Authority	19,068
Bedfordshire Combined Fire Authority	15,159
Berkshire Combined Fire Authority	16,142
Buckinghamshire Combined Fire Authority	14,924
Cambridgeshire Combined Fire Authority	13,812
Cheshire Combined Fire Authority	22,376
Cleveland Combined Fire Authority	9,377
Derbyshire Combined Fire Authority	19,461
Devon and Somerset Combined Fire Authority	37,856
Dorset Combined Fire Authority	15,413
Durham Combined Fire Authority	14,852
East Sussex Combined Fire Authority	21,864
Essex Combined Fire Authority	37,688
Greater Manchester Fire and CD Authority	37,508
Hampshire Combined Fire Authority	34,567
Hereford and Worcester Combined Fire Authority	17,866
Humberside Combined Fire Authority	19,888
Kent Combined Fire Authority	37,925
Lancashire Combined Fire Authority	26,707
Leicestershire Combined Fire Authority	14,676
Merseyside Fire and CD Authority	24,519
North Yorkshire Combined Fire Authority	16,376
Nottinghamshire Combined Fire Authority	20,601
Shropshire Combined Fire Authority	11,782
South Yorkshire Fire and CD Authority	20,241
Staffordshire Combined Fire Authority	21,227
Tyne and Wear Fire and CD Authority	22,412
West Midlands Fire and CD Authority	34,767
West Yorkshire Fire and CD Authority	31,661
Wiltshire Combined Fire Authority	13,371
Total	664,088

Source:
Communities and Local Government 2007-08 Revenue Outturn Forms.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the average percentage change was in the council tax precepts levied by *(a)* district councils, *(b)* county councils, *(c)* London boroughs, *(d)* unitary authorities, *(e)* metropolitan boroughs and *(f)* police authorities since 1997-98. [268926]

John Healey: I refer the hon. Member to the answer I gave the hon. Member for Castle Point (Bob Spink) on 31 March 2009, *Official Report*, column 1043W.

Councillors: Vetting

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance *(a)* her Department and *(b)* the Standards Board has issued to local authorities on the undertaking of Criminal Records Bureau checks in respect of councillors who (a) have and (b) do not have responsibility for functions relating to children or vulnerable adults. [268923]

John Healey: While neither my Department, nor the Standards Board for England, has issued such guidance to local authorities about criminal record checks, guidance is available from the Criminal Records Bureau.

Fires

Mr. Dismore: To ask the Secretary of State for Communities and Local Government how many people were rescued by the Fire and Rescue Service from *(a)* all fires and *(b)* dwellings fires in each (i) fire authority area and (ii) region in each of the last three years. [266400]

Mr. Khan: Information on the number of people rescued (uninjured) from fires in England, by the Fire and Rescue Service, over the last three years is available in the table.

Rescues from fires in dwellings by FRS personnel[2] by year, England, 2005-07[1]

[2] Data for 2007 are provisional and subject to change

Source:

DCLG Ref: 2009021_PM (2005-2007p).sas on 23 March 2009

Homelessness: Birmingham

Mr. Godsiff: To ask the Secretary of State for Communities and Local Government how many homeless *(a)* children and *(b)* adults are in temporary accommodation in (i) Birmingham Hall Green constituency and (ii) Birmingham City Council area. [270037]

Mr. Iain Wright: Information about English local authorities' actions under the homelessness legislation (Part 7 of the Housing Act 1996) is collected quarterly at local authority level, about households rather than individuals. Information is not collected at constituency level. Therefore, data are provided at the Birmingham city council area, but not for the Hall Green constituency. Data collected include the number of households accepted by local housing authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty (to secure that suitable accommodation is available). If a settled home is not immediately available, the authority must secure temporary accommodation until a settled home becomes available.

Information on the numbers of households housed in temporary accommodation is reported quarterly by local authorities as at the last day of each quarter. The figures include: those households which have been accepted as owed the main homelessness duty; those for which inquiries are pending; those being accommodated for a limited period because they have been found intentionally homeless and in priority need; those being accommodated pending possible referral to another authority, and those being accommodated pending the outcome of a local authority review or county court appeal.

The number of dependent children (or expected children) in these households is also collected, but data on the number of adults are not. There were 452 households in temporary accommodation on the 31 December 2008, reported by Birmingham city council, of which 362 were households with dependent (and expected) children and in total 1,068 children (and expected children) within these households.

Housing: Crime Prevention

Derek Twigg: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 30 March 2009, *Official Report*, columns 973-74W, on housing: crime prevention, for what reasons there are no plans to include measures to make buildings more resistant to crime in the next revision of the Building Regulations. [illegible]

Mr. Iain Wright: In 2007, security measures were included in the Code for Sustainable Homes. We are currently monitoring the effectiveness of the code in driving up security standards in homes and are continuing discussions with other Government Departments and other stakeholders to ensure we identify the most effective way to make new buildings more resistant to crime. Any proposals to change building regulations would need to be considered by the Building Regulations Advisory Committee in due course and would be subject to public consultation once proposals have become sufficiently developed.

Local Government Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether members of local authority independent remuneration panels are required to be resident in the local authority area. [illegible]

John Healey: While there are no specific requirements about residency of remuneration panel members, the statutory guidance issued under the Local Government and Housing Act 1989, to which local authorities must have regard, provides that the members of a council's remuneration panel should be truly independent, well qualified to discharge the functions of the panel and representative of the diversity of the communities in the local authority's area.

Local Government: Equality

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what role her Department had in the drafting of the Equality Standard for Local Government. [illegible]

John Healey: The "Equality Standard for Local Government" was developed by the Improvement and Development Agency (IDeA) together with the three Equality Commissions with input from the Audit Commission. A new "Equality Standard for Local Government" was published recently.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much funding regional improvement and efficiency partnerships have allocated to the development of the Equality Standard for Local Government in the last 12 months. [illegible]

John Healey: The Regional Improvement and Efficiency Partnerships (RIEPs) are devolved partnerships of councils and other local services. Information on funding a loca[illegible] to the development strategy for local government is not held centrally.

Local Government: Pay

Mr. Gordon Prentice: To ask the Secretary of State for Communities and Local Government what information her Department holds on the *(a)* top, *(b)* median and *(c)* average salary of chief executives in (i) county and (ii) district councils in England. [illegible]

John Healey: This information is not collected centrally. The salaries of local authority officials are matters for their individual local authority employer.

Local Government: Standards

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to her Department's National Indicators for Local Authorities and Local Authority Partnerships: Handbook of Definition, what recent discussions Government Offices for the Regions have had with local authorities on meeting National Indicator 14 on reducing avoidable contact. [illegible]

Mr. Khan: Recent discussions between Government offices for the regions and local areas on specific national indicators have focused on those indicators that feature as targets in individual local area agreements (LAA). There are no targets against national indicator 14 in any LAA and therefore it has not been the focus of such discussions. Performance against all national indicators will be reported later this year through the comprehensive area assessment led by the independent inspectorates.

Non-Domestic Rates: Business

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent estimate she has made of the number of firms eligible for transitional rate relief in each year of the 2005 to 2010 business rates rating cycle. [268831]

John Healey: I refer the hon. Member to the answer I gave the hon. Member for Bromley and Chislehurst (Robert Neill) on 25 March 2009, *Official Report*, column 484W.

Regional Assemblies

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government in respect of which Government Office regions *(a)* her Department and *(b)* the relevant Government Office has been notified that the regional assembly is to be replaced by a Leaders' Board; and what the name and address of each such board will be. [268882]

John Healey: CLG and the relevant Government Offices have been notified of new governance working arrangements in the North East, Yorkshire and Humberside, South East and North West.

These new bodies, or committees connected to them, will be recognised as the Regional Planning Body as an interim arrangement until commencement of the Local Democracy, Economic Development and Construction Bill when Local Authority Leaders' Boards following consultation by participating authorities on a scheme will be approved by the Secretary of State.

The names and addresses of these new bodies are as follows:

Association of North East Councils
The Axis Building
Maingate, Kingsway North
Team Valley
Gateshead
NE11 0NQ
Local Government Yorkshire and Humber
18 King Street
Wakefield
West Yorkshire
WF1 2SQ
South East England Leaders Board
Berkeley House
Cross Lanes
Guildford GU1 1UN
4NW
Wigan Investment Centre
Waterside Drive
Wigan
WN3 5BA

Regional Planning and Development: South East

Anne Milton: To ask the Secretary of State for Communities and Local Government what the planned timetable is for the publication of the final version of the South East Plan. [268812]

Mr. Khan: Our intention to publish the regional spatial strategy for the South East remains as stated to the hon. Member, in the answers given on 10 February 2009, *Official Report*, column 1843W, and 23 February 2009, *Official Report*, column 124W, that is publication in the spring.

Social Rented Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 23 March 2009, *Official Report*, column 79W, on the Tenant Services Authority, (1) how many people attended each regional National Conversation event for tenants; [269071]

(2) how many invitations were sent for each National Conversation event for landlords; and how many people attended each event. [269072]

Mr. Iain Wright: The primary objective of the TSA is championing the needs and aspirations of tenants, developing a genuinely tenant focused regulatory regime. From January to March 2009, the TSA used a number of techniques to find out what tenants thought about their landlords and their services.

This was called the National Conversation and consisted of regional events organised by the TSA; 'local conversations' organised by tenants/landlords; a campervan that captured tenants' views by video clip; questionnaires; and online forums.

Invitations were not disseminated by region. Peter Marsh, TSA chief executive, wrote to all landlords (with stock holdings of more than 250 units) inviting them to participate in the regional National Conversation events. The total number of letters sent was 1,144.

With regards to the number of attendees, I refer the hon. Member to the reply by my right hon. Friend the Minister for Housing (Margaret Beckett) to my hon. Friend the Member for Luton, South (Margaret Moran) on 23 March 2009, *Official Report*, column 79W.

Social Rented Housing: Foreigners

Grant Shapps: To ask the Secretary of State for Communities and Local Government when she expects her Department to have completed its collection of data on social lets to foreign nationals; and when she plans to publish the data. [266489]

Mr. Iain Wright: Data on social lets are collected through the Continuous Recording of Lettings (CORE) on behalf of the Tenant Services Authority and Communities and Local Government. Tables giving estimates for 2007-08, adjusted for missing local authority data, will be published shortly. These will include information on social lets to foreign nationals.

CULTURE, MEDIA AND SPORT

Science Museum

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport if he will take steps to increase the operational independence of the Science museum. [269384]

Barbara Follett *[holding answer 20 April 2009]*: In common with other national museums, the Science Museum already has a high level of operational independence from Government, with its own director, management board and board of trustees. The museum has also established a trading company which allows it to operate on a more commercial basis. We have regular dialogue with the museum on a range of issues, including how we can continue to find more flexible ways of working, while maintaining appropriate good practice for a body in receipt of Government funding.

Departmental Information and Communications Technology

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department in each of the last five years; and if he will make a statement. [269539]

Mr. Sutcliffe: DCMS has not carried out a monitoring exercise to establish the effect of our IT procurement on consumption; energy cost and carbon dioxide emissions.

We will be rebaselining our ICT energy consumption as part of our Green ICT strategy to inform future direction.

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269574]

Mr. Sutcliffe: DCMS has adopted the majority of recommendations of the Greening Government ICT Strategy. In particular, we have installed an IT power management solution which turns off inactive PCs.

We use established standards such as Energy Star in our procurement to ensure our hardware is energy efficient.

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269583]

Mr. Sutcliffe: It is not possible to provide this information save at disproportionate cost. As part of the Department's Green ICT Strategy we are setting a baseline expectation for server capacity utilization in line with industry best practice.

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269607]

Mr. Sutcliffe: My Department has 15 printers of which five have a function allowing two-sided printing and 30 multifunctional devices all of which have the function. Two-sided printing is set as a default for the multifunctional devices.

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport what estimate has been made of the proportion of personal computers in each of his Department's offices that are turned off *(a)* overnight, *(b)* at weekends and *(c)* during holiday periods; and if he will make a statement. [269620]

Mr. Sutcliffe: My Department does not record this information. Its policy has been that all PCs are turned off at the end of each working day. My Department has led the cross-government procurement of an automated solution to ensure that all PCs are automatically turned off overnight, at weekends and over holidays.

Jenny Willott: To ask the Secretary of State for Culture, Media and Sport how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269630]

Mr. Sutcliffe: My Department's purchasing strategy is congruent with OGC standards.

Sports: Finance

Mr. Hepburn: To ask the Secretary of State for Culture, Media and Sport (1) how much funding his Department provided to amateur sports clubs in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997; [266047]

(2) how much funding his Department provided for evening sports clubs for young people in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997; [266048]

(3) how much funding his Department *(a)* has provided in each year since 1997 and *(b)* plans to provide in each of the next three years for sport in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) England in each year since 1997. [266049]

Mr. Sutcliffe: My Department has provided the following Exchequer funding to Sport England since 1997-98.

	Grant in aid draw-down (£ million)
1997-98	33.758
1998-99	33.341
1999-2000	37.523
2000-01	38.323
2001-02	43.162
2002-03	80.324
2003-04	44.572
2004-05	74.456
2005-06	78.963
2006-07	102.500
2007-08	113.296
2008-09	133.163
Total	813.381

Sport England are responsible for allocating this funding to benefit community sport. They do not routinely break down their Exchequer funding information beyond a regional level, e.g. beyond the North East, or designate sports clubs into 'amateur' or 'evening' for the purposes of data collection.

With regards to regional data, Sport England advise that information before 2002-03 could be provided only at a disproportionate cost. They advise that the North East has received a total of £6,423,837 of direct Exchequer funding since 2002-03, of which, £1,174,286 was directly awarded to sports clubs. Sport, and sports clubs across the country, including in the North East, will also have benefited from initiatives such as the Community Club Development Programme which are delivered through national governing bodies, applied to directly, but which are not included in these sums.

Information on lottery funding for sport in the Jarrow constituency, South Tyneside, the North East and the UK in each year since 1997 can be found on the national lottery grants database at:

http://www.lottery.culture.gov.uk

From April 2009, sports clubs and other sporting organisations will be able to apply for direct funding from a consolidated number of lottery and Exchequer funding streams, including Sportsmatch. Applications for this funding will be accepted from 1 April 2009 and full information is available on Sport England's website at:

http://www.sportengland.org

In addition, clubs will benefit from the funding that Sport England recently announced for national governing bodies of around £120 million per year, in order to drive their strategic aims in relation to sport of 'grow, sustain, excel'.

For young people specifically, the North East will also benefit from the £783 million the Government will be investing in the national PE and School Sport for Young People strategy from 2008-11, bringing total investment (including lottery funding) to over £2.4 billion between 2003 and 2011.

DEFENCE

Armoured Fighting Vehicles

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence how many of each type of armoured vehicle are available to the armed forces; from which companies each type of vehicle was purchased; and what the average estimated life cycle cost of each type is as a percentage of the purchase price. [269818]

Mr. Quentin Davies: The armoured and partially armoured (protected) vehicles currently available to the armed forces and the companies from which they were purchased are provided in the following table:

Vehicle	*Company*	*Number in service*
AS90	BAE Systems (formerly Vickers Shipbuilding and Engineering Ltd.)	144
Challenger 2	BAE Systems (formerly Alvis Vickers)	383
CRAARV	BAE Systems (formerly Vickers)	81

Vehicle	*Company*	*Number in service*
CVR(T)	BAE Systems (formerly Alvis Vickers)	1,200
Fuchs	Rheinmetall Landsysteme GmbH	11
FV 430 (Mk2 + Bulldog)	BAE Systems (formerly Alvis Vickers)	1,487
Saxon	BAE Systems (formerly Alvis Vickers)	147
Shielder	Alliant Techsystems Incorporated	30
Stormer	BAE Systems (formally Alvis)	115
Titan	BAE Systems (formerly Alvis Vickers)	29
Trojan	BAE Systems (formerly Alvis Vickers)	30
Warrior	BAE Systems (formerly Alvis Vickers)	793
Mastiff	US Department of Defense (then integrated by NP Aerospace)	157
Panther	IVECO & BAE Systems	401
Ridgback	US Department of Defense (then integrated by NP Aerospace)	20
Snatch 2a and Snatch VIXEN	NP Aerospace	645
Vector	BAE Systems	178
Viking	BAE Systems (formally Hagglunds)	116

Information on the average estimated whole life costs as a percentage of the purchase price is not available for many of the older vehicles because much of the data are no longer held. For the newer vehicles procured as Urgent Operational Requirements (UORs), while support costs are considered, predicted whole life costs are generally not calculated as a precursor to the procurement. This is because the speed of delivery of this equipment is the absolute priority in these cases and the capability may be so specific to the threat that we do not expect to retain it beyond the operation. We are able to provide the information requested for the more recent non-UOR projects, Panther, Titan and Trojan, which is provided in the following table:

Vehicle	*Procurement cost (£ million)*	*Estimated whole life cost (WLC) (£ million)*	*WLC as percentage of procurement cost*
Panther	230	70	30
Titan and Trojan	340	100	30

Departmental ICT

Mr. Hoban: To ask the Secretary of State for Defence what major IT programmes *(a)* his Department and *(b)* each of its agencies is undertaking; and what the most recent estimate of (i) the cost and (ii) the completion date of each is. [242180]

Mr. Quentin Davies: Using £100 million as a nominal threshold for determining major programmes, the following table provides information on the major programmes included in the MOD Non Equipment Investment Plan. It should be noted that many front line equipment programmes also have IT elements embedded within them; our agencies have no IT programmes of the relevant magnitude.

Programme	*Current estimated cost*	*Current estimated completion date*
Defence Information Infrastructure (Future)—DII(F)	£4.5 billion is the approved programme cost of the four DII(F) increments on contract at this time; £7.1 billion is the estimated cost of the whole programme over 10 years, including all seven increments; departmental and programme management costs; legacy systems costs and separately funded but essential programmes upon which DII depends.	March 2015
Defence Fixed Telecommunication Service—DFTS	£1.8 billion	1 April 2005 to 31 July 2012
Defence Electronic Commerce System—DECS	£243 million. This is an estimate of the total money that will be paid for the DECS service but excludes services that are provided under separate approvals, but are a part of the DECS architecture.	First services went live in July 2002. Contract expires in July 2012.
Management of the Joint Deployed Inventory—MJDI	£180.2 million up to 31March 2017	Delivery of fully operating software December 2011. Completion of roll-out to all frontline units Q1 2014.
Whole Fleet Management related IT project Joint Asset Management and Engineering Solutions (JAMES)	£120.085 million. The cost provided is the latest estimate for the development and delivery of JAMES 1, ELC (Equipment Loading Capability) and JAMES Land over the 10-year period 2004-05 to 2014-15.	4th quarter 2014-15
Defence Medical Information Capability Programme—DMICP	£99.210 million. The programme is a combination of Business Change and IT, and both activities are included in the cost.	June 2016

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Defence how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [268294]

Mr. Quentin Davies: The number of BlackBerrys and mobile telephones provided in each year since 2005 is shown in the following table. It covers the combined number of devices provided to Ministers, special advisers, civil servants and members of the armed forces.

	Total number of mobile phones	*Total number of BlackBerry devices*
2005	21,891	—
2006	24,994	—
2007	29,943	—
2008	34,684	566

In the last year two BlackBerrys and one mobile telephone were provided to Ministers, and two BlackBerrys and one mobile telephone to special advisers. It has not been possible to separate further the numbers provided to each group.

Pakistan: Al Qaeda

Mr. Lidington: To ask the Secretary of State for Defence when he was first informed of the suspected death of Mr. Rashid Rauf following a US air strike on the village of Ali Khel on 22 November 2008. [245656]

Mr. Hutton: The Ministry of Defence first learned of his suspected death from media reporting coming out of Pakistan.

DUCHY OF LANCASTER

Civil Servants: Conditions of Employment

Dr. Murrison: To ask the Chancellor of the Duchy of Lancaster which *(a)* positions and *(b)* pay bands within the Home Civil Service have terms and conditions of employment which stipulate that post holders must not undertake external paid employment in their own time; what restrictions apply in each case; and for what reasons such restrictions apply. [268971]

Mr. Watson: The rules for civil servants relating to the acceptance of external paid employment are set out in the Civil Service Management Code. Copies are available in the Library.

Departmental Carbon Emissions

Greg Clark: To ask the Chancellor of the Duchy of Lancaster for how long the Cabinet Office has followed the Carbon Trust's Carbon Management programme. [269278]

Mr. Watson: The Cabinet Office has followed the Carbon Trust's Carbon Management Programme since September 2006.

Departmental Computers

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in (i) his Department and (ii) the Prime Minister's Office in each year since 2005; and at what cost. [268270]

Mr. Watson: The number of laptops being used to support the work of the Cabinet Office in each year since 2005 is shown:

	Number
2005	543
2006	739
2007	945
2008	935

Records covering the total cost to the public purse are not held centrally and so the information requested can be provided only at disproportionate cost.

Our records do not differentiate between laptop computers provided to Ministers, special advisers and civil servants.

The Prime Minister's Office is an integral part of the Cabinet Office.

Departmental ICT

Jenny Willott: To ask the Chancellor of the Duchy of Lancaster if he will place in the Library a copy of the Green ICT Scoreboard; and if he will make a statement. [269763]

Mr. Watson: The Green ICT Scorecard is an assessment methodology and database belonging to Gartner Consulting. It was used to help departments develop their action plans to implement the Greening Government ICT strategy. A summary of the action plans will be published later this year together with progress made against the strategy and copies will be placed in the Libraries of the House.

Departmental Mobile Phones

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in (1) his Department and (2) the Prime Minister's Office in each year since 2005. [268253]

Mr. Watson: Records covering the cost of purchase and billing for BlackBerrys and other mobile telephony are not held centrally and so the information requested can be provided only at disproportionate cost.

Our records do not differentiate between mobile devices supplied to Ministers, special advisers and civil servants.

The Prime Minister's Office is an integral part of the Cabinet Office.

Government Departments: Telephone Services

Martin Salter: To ask the Chancellor of the Duchy of Lancaster what information his Department holds on the number of Government departments and agencies which require people to dial a premium rate number to contact them; what plans the Government has to replace such use of 0845 numbers with numbers that charge a local or national rate; and if he will make a statement. [268458]

Mr. Watson: The Cabinet Office, through the Contact Council, is currently conducting a survey of the different number types, such as 0845, 0870 or 0800, used by central Government Departments and agencies. Each Department is currently responsible for their own numbering strategy, and it is their responsibility to ensure that all citizens—whatever their incomes—can afford to make contact. The council intends to use the results of its numbering survey to steer a future cross-government approach to the use of phone numbers. Consideration of the use of 0845 numbers, which are defined by Ofcom as "special service basic rate numbers" will form part of this methodology. As far as the Contact Council is currently aware, no central government department operates a premium rate number—defined by Ofcom as a number beginning either '090' or '091'—and if they do this will be identified during the aforementioned numbering survey.

Non-departmental Public Bodies

Mr. MacNeil: To ask the Chancellor of the Duchy of Lancaster (1) how many non-departmental public bodies there were in *(a)* 1997, *(b)* May 2007 and *(c)* February 2009; [266926]

(2) how many staff of non-departmental public bodies were employed in *(a)* 1997, *(b)* May 2007 and *(c)* February 2009. [266927]

Mr. Watson: In 1997 there were 1,128 non-departmental public bodies sponsored by the UK Government employing approximately 106,400 staff. By 2007 this had fallen to 827 non-departmental public bodies employing around 96,500 staff. Figures for 2009 will be published in due course.

Public Consultation

Andrew Miller: To ask the Chancellor of the Duchy of Lancaster what recent steps his Department has taken to assist members of the public to use interactive digital technology in order to participate in the development of government policy. [267349]

Mr. Watson: The Power of Information Taskforce published their final report containing 25 challenging recommendations on how Government should proceed with Digital Engagement on 2 March 2009. It can be found online at:

http://poit.cabinetoffice.gov.uk

It was initially published in a 'beta' state, where it was open for public comment for two weeks before the taskforce finalised their report.

Copies of the report have been placed in the Libraries of the House.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Feed: Imports

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to ensure that imports of animal feed ingredients are derived from sustainable sources. [269319]

Jane Kennedy: The feed industry is free to source its materials as it sees fit, subject to the materials being safe for their intended uses, in accord with the industry's assurance schemes and codes of practice, and taking into account normal commercial considerations such as the price and availability of materials and the preferences of its customers.

BSE

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps his Department has taken to reduce the incidence of bovine spongiform encephalopathy. [269113]

Jane Kennedy: Bovine spongiform encephalopathy (BSE) is a notifiable disease. The epidemic in Great Britain peaked with 37,056 clinical cases in 1992. In 2008 there were 33 BSE cases detected either as clinical cases or through the testing programme, a 38 per cent. decline compared to 2007. Most cases of BSE have been detected in cattle born before the animal feed controls were reinforced in 1996.

The ban on feeding ruminant meat and bone meal to ruminants is the key animal health control for BSE. In 2008, Animal Health carried out 2,322 feed inspections and collected 9,598 feed samples to enforce the ban in Great Britain. Animal Health continues to implement other BSE controls including the killing and disposal of animals which may have consumed the same feed as a BSE case and of the recent offspring of female BSE cases. The Food Standards Agency is responsible for ensuring the removal of specified risk material from the food chain, which is the key public health control for BSE.

Cattle: Animal Diseases

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps his Department has taken to reduce the incidence of anthrax in cattle. [269115]

Jane Kennedy: The incidence of anthrax in cattle in the United Kingdom is low. There have been six confirmed incidents of anthrax (with seven cattle affected) in the last 10 years. The last confirmed incident in cattle involved two cattle in Wales in April 2006. This needs to be viewed in the context of a UK cattle population of circa 10 million cattle.

During the first three quarters of 2008-09 official veterinarians and veterinary officers undertook 3,862 anthrax investigations (in all species) where anthrax was a possible differential diagnosis (generally unexplained sudden death) with no confirmed cases detected. Forth quarter figures are still being collated. Investigation and control of anthrax disease is one of Animal Health's performance targets on which it reports to DEFRA's Food and Farming Group and during its quarterly liaison meetings with DEFRA.

The number of investigations undertaken suggests that awareness of the need to report possible suspect cases is high among the farming and veterinary professions.

DEFRA's Veterinary Exotic Notifiable Diseases Unit have recently been reviewing their desk instructions relating to anthrax and Animal Health are currently developing a revised comprehensive training package for use in training new and existing official veterinarians and veterinary officers. In parallel with this Animal Health are looking at reviewing their Operations Manual instructions to incorporate some of this material and identify any areas where instructions could be improved/ updated (e.g. in terms of contingency planning for disposal of suspect carcases, such as compiling a register of local authorities with access to portable incineration equipment etc.).

Information about anthrax is available on the DEFRA website.

Dogs

Dr. Murrison: To ask the Secretary of State for Environment, Food and Rural Affairs what contact his Department has had for monitoring purposes with businesses operating dog rental schemes in England in the last 12 months; and if he will make a statement. [268907]

Jane Kennedy: We have had no such contact.

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the hon. Member for Brentwood and Ongar of 2 February 2009, *Official Report*, column 974W, on waste management: South East, what advice the Waste Improvement Network has given to local authorities on the frequency of collection of household waste. [268731]

Jane Kennedy: I refer the hon. Member to the answer I gave to the hon. Member for Peterborough (Mr. Jackson) on 27 March 2009, *Official Report*, column 789W.

Farmers: Markets

Mr. Wallace: To ask the Secretary of State for Environment, Food and Rural Affairs what schemes he supports to promote farmers' markets and local produce in Lancaster and Wyre constituency. [266040]

Jane Kennedy: The Government support local markets of all types including farmers markets.

Funding is available for opening new marketing opportunities for agricultural and forestry products, putting the emphasis on quality under Axis 1 of the Rural Development Programme for England (RDPE). Under Axis 3 of the RDPE, funding is available for the promotion of tourism activities linked to quality regional and local food culture.

Since 2002, the North West Development Agency (NWDA) has supported Made in Lancashire, an organisation specifically designed to promote Lancashire's local and speciality food producers. They work with producers, retailers and food service outlets to bring Lancashire's local food to market, including promoting the county's farmer's markets, such as those held at Poulton-Le-Fylde and Thornton. Made in Lancashire also worked closely with Lancashire and Blackpool Tourist Board in helping to create the "Taste of Lancashire" accreditation scheme.

The NWDA seeks to use funding provided by the European Regional Development Fund to continue the support of this high growth area.

The NWDA also supports Food Northwest; a strategic body representing the Northwest Food and Drink Industry. Food Northwest aims to boost growth of the industry, and help the sector maximise its economic potential through training workshops, 'meet the buyer' events and other activities.

Ben Chapman: To ask the Secretary of State for Environment, Food and Rural Affairs what funding his Department has made available for the promotion of farmers' markets in 2008-09. [268353]

Jane Kennedy: Our support for the sector continues with the award, in January 2008, of funding under the Agriculture Development Scheme to the National Farmers' Retail and Markets Association (FARMA). This funding of £176,000 over three years is for a project to develop a national producer verification scheme for farmers' markets and an assurance scheme for farm shops. As a result of this project, we hope that the combination of producer verification with the farmers' market certification scheme will result in strengthened consumer confidence in farmers' markets.

Funding is also available to support rural retail in Merseyside (under which the businesses involved in farmers' markets would benefit) through the Rural Development Programme for England. The North West Development Agency is responsible for administering this funding programme through which £2 million will be invested over the next five years.

Food Supply

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what contingency plans his Department has to ensure the security of food supply. [269111]

Jane Kennedy: DEFRA works closely with the food industry to deal with disruption to the food supply should the need arise, and meets the sector regularly to promote business continuity management. The sector has robust and resilient business continuity plans to deal with any threat of disruption. These plans have been tested in cross-Government exercises, in which the food industry participated. DEFRA also participates in the cross-Government programme of work to prepare for emergencies. Further detail on this programme can be found on the UK Resilience website.

Foot and Mouth Disease

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps his Department has taken to reduce the incidence of foot and mouth disease. [269112]

Jane Kennedy: Since the 2007 foot and mouth outbreak Government have accepted recommendations from both the Callaghan and Anderson reviews.

Sir Iain Anderson was invited by the Prime Minister and the Secretary of State to conduct an independent review of the 2007 FMD outbreak on the most effective and efficient way to learn the lessons of FMD outbreaks quickly and respond accordingly. The Government have accepted all 26 recommendations. The full response is available on the DEFRA website.

Sir Bill Callaghan was requested by the Government to chair a review of the regulatory framework for animal pathogens, his review was published in December 2007. DEFRA was responsible for implementing phases 1 and 2 of the Callaghan review and responsibility for inspections of labs transferred to the Health and Safety Executive on 1 April 2008.

More details of reviews and measures, and the Government's response and actions, are available on DEFRA's website.

DEFRA also continue to control imports. No livestock imports are permitted from countries with foot and mouth and meat is only permitted from countries where FMD is present under strict guidelines issued by the World Organisation for Animal Health and only from areas of that country that are free of disease. The rules also ensure meat does not come from any animal that may have had contact with FMD before, during or after slaughter.

More generally we continue to encourage, through livestock market road shows, good on-farm biosecurity to help prevent the spread of disease, including foot and mouth.

Lighting: Carbon Emissions

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the effect on the level of UK carbon dioxide emissions of the replacement of traditional light bulbs by energy efficient light bulbs in *(a)* domestic and *(b)* non-domestic properties. [268151]

Jane Kennedy: The Government have a number of measures in place that have increased, and will continue to increase the market penetration of the most energy efficient lamps, particularly compact fluorescent lamps, in replacement of energy-inefficient incandescent lamps.

The Government's Market Transformation Programme (MTP) estimated the resultant savings of these policies in its Policy Analysis and Projections publication of July 2008—available at:

www.mtprog.com/cms/whitepaper/

The combined annual savings resulting from these actions was 4.2 $MtCO_2$ per annum by 2020 for commercial and street lighting, and 4.6 $MtCO_2$ per annum in 2020 for domestic applications.

Through a regulation under the Framework Directive for the Eco-design of Energy-using Products (EuP), to be formally adopted in April 2009, inefficient incandescent lamps for household use will be taken off the market in stages between September 2009 and 2012. Analysis based on MTP modelling indicates that this action will result in savings of over 1 million tonnes of CO_2 per annum by 2020 on top of the measures already in place.

A separate, recently-adopted regulation on tertiary lighting under the EuP Framework which, by removing the least efficient office and street lighting products from the market, will deliver a further 1 million tonnes of CO_2 savings by 2020.

Livestock: Waste Disposal

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to facilitate the use of bio-digestion as a method of disposal of fallen stock. [269320]

Jane Kennedy: Under the EU animal by-products regulation bio-digestion is not a permitted route for disposal of fallen stock. However, the regulation does provide for alternative methods of disposal to be approved following a positive opinion as to their safe use as a disposal route by the European Food Safety Authority (EFSA). Research is currently ongoing on possible use of bioreducer systems and anaerobic digestion as a means of containing and treating fallen stock prior to their final disposal by rendering or incineration. The Government support such research and will help facilitate the submission of well founded cases to EFSA for consideration as approved alternative methods for containment of fallen stock.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to introduce on-farm storage of fallen stock. [269324]

Jane Kennedy: The EU animal by-products regulation requires fallen stock to be disposed of without undue delay. Pending collection for disposal, carcases should be held in such a way that domestic animals (including farmed livestock) and wild animals cannot gain access to them. In practice, it would be reasonable to expect them to be held securely, such as in an enclosed building, or an area away from livestock under a suitable cover, such as a tarpaulin. For the future, the Government support research into bioreducer systems which, if accepted as an alternative method of containment for fallen stock under the above regulation, may make it possible to contain and treat fallen stock on farm safely for a longer period pending its eventual collection for disposal by rendering or incineration.

Members: Correspondence

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to reply to the letter of 22 January 2009 from the hon. Member for Northavon, sent on behalf of Miss D. Moore of Hinton, on buy one get one free schemes. [269019]

Jane Kennedy: I responded to the hon. Member's letter on 20 April and apologise for the delay in doing so.

Packaging: Waste Disposal

Stephen Hesford: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to encourage appropriate biodegradable packaging of products. [268777]

Jane Kennedy: Switching from using oil-based plastics to genuinely biodegradable renewable polymers/bioplastics can deliver environmental benefits, providing they are appropriately handled after disposal. DEFRA works closely with the Department of Energy and Climate Change (DECC) to develop policy in this area. The DECC-sponsored National Non-Food Crops Centre (NNFCC) has established a Thematic Working Group to bring together those involved in the renewable polymer supply chain, to help realise the economic and environmental benefits of renewable polymer technologies and products.

In addition, NNFCC, the DEFRA funded Waste and Resources Action Programme (WRAP) and the Association for Organics Recycling (formerly the Composting Association) have been contributing to a 'Green Alliance' project, under the 'Closing the Loop' umbrella, looking specifically at biodegradable packaging. A guidance note and web based information tool has been developed. These are on the Green Alliance website and can be viewed via:

http://www.green-alliance.org.uk/waste-content.aspx?id=2340

They set out considerations to be taken into account when deciding which packaging applications are most suited to biodegradable compostable materials and highlight some of the disposal issues which need to be overcome to ensure the materials are properly disposed of at end of life.

Reservoirs

Frank Dobson: To ask the Secretary of State for Environment, Food and Rural Affairs what the reservoir capacity in England and Wales was in *(a)* 1989 and *(b)* January 2009. [268944]

Huw Irranca-Davies: The reservoir capacity in 1989 cannot be calculated without incurring disproportionate cost.

The total capacity of water company reservoirs in England and Wales which fall under the Reservoirs Act 1975 (large raised reservoirs with a capacity of 25,000 cu m of water or more above natural ground level) was around 2,316 million cu m in January 2009.

Water: Meters

Frank Dobson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the cost of installing individual water meters in each unmetered domestic property in England. [268945]

Huw Irranca-Davies: My Department has not made such an estimate. Research undertaken by WRc plc in 2007 based on water company data found that installation costs per meter vary from around £50 for the replacement of an existing meter to around £230 or more for a new installation.

ENERGY AND CLIMATE CHANGE

Departmental Records

Mr. Amess: To ask the Secretary of State for Energy and Climate Change with reference to the answer of 23 June 2008, *Official Report*, column 150W, on the Warm Homes and Energy Conservation Act 2000, what the *(a)* prefix and *(b)* title is of each file held by his Department on (i) the Warm Homes and Energy Conservation Act 2000 and (ii) Warm Homes and Energy Conservation Bill of Session 1999-2000; and if he will make a statement. [268500]

Joan Ruddock: The Warm Homes and Energy Conservation Act 2000 is an Act which deals with tackling fuel poverty. Before the formation of the Department of Energy and Climate Change, responsibility for fuel poverty policies, and therefore matters connected to the Warm Homes and Energy Conservation Bill/Act was shared between the Department for Environment, Food and Rural Affairs and the Department for Business, Enterprise and Regulatory Reform and their predecessor Departments. Files relating to the subject matter of this question are located in the filing systems of the predecessor Departments as well as the current Department.

To establish the total number of files relating to the Warm Homes and Energy Conservation Act/Bill would require a trawl of a significant number of files which could only be carried out at disproportionate cost. For this reason it is not considered reasonable to provide a list of all the files on the subject matter of this question.

Housing: Insulation

Chris Ruane: To ask the Secretary of State for Energy and Climate Change how much has been spent by his Department on the development of energy efficient insulation *(a)* technology and *(b)* initiatives to assist households since its establishment. [265445]

Joan Ruddock: Funding to encourage take-up of energy efficiency measures in Great Britain is available primarily through two schemes: the Carbon Emissions Reduction Target (CERT) and Warm Front, but only Warm Front is funded from the public purse. The following table illustrates the investment made by Warm Front in insulation measures to improve the energy efficiency of householders over 60 in (a) Test Valley, (b) the ceremonial county of Hampshire and (c) the city of Southampton in each year since 2005.

CERT is operated and funded by the six major energy suppliers, which are required to meet targets by encouraging households to take-up energy efficiency measures, including insulation and high-efficiency lights and appliances. Ofgem, the scheme administrator, does not collect data on energy supplier spend. However, based on the costs of the measures promoted by suppliers, we estimate that the overall spend by suppliers on delivering their CERT obligations across Great Britain will exceed £3 billion over the period 2008-11.

£

	Over 60	*Under 60*	*Total*
Test Valley			
2004-05	29,910.11	10,886.54	40,796.65
2005-06	25,421.34	11,034.44	36,455.78
2006-07	50,461.79	23,425.01	73,886.80
2007-08	14,337.19	6,059.82	20,397.01
2008-09	14,437.33	7,584.35	22,021.68
Ceremonial county of Hampshire			
2004-05	653,684.31	544,569.40	1,198,253.71
2005-06	378,468.46	297,446.54	675,915.00
2006-07	404,556.32	213,609.24	618,165.56
2007-08	278,360.25	154,906.72	433,266.97
2008-09	295,344.54	174,809.20	470,153.74
Southampton			
2004-05	158,144.74	129,960.42	288,105.16
2005-06	67,293.48	54,848.91	122,142.39
2006-07	25,705.02	20,117.48	45,822.50
2007-08	44,191.51	29,759.13	73,950.64
2008-09	54,065.97	33,657.68	87,723.65

Members: Correspondence

Steve Webb: To ask the Secretary of State for Energy and Climate Change when he plans to respond to the letter from the hon. Member for Northavon of 19 December 2008 on behalf of Mr. and Mrs. Wilson of Old Sodbury. [267263]

Joan Ruddock: I replied to the hon. Member for Northavon on 13 April. I apologise for the delay, which was due to departmental reorganisation.

Nuclear Safety Advisory Committee

Greg Clark: To ask the Secretary of State for Energy and Climate Change if he will place in the Library a copy of the Nuclear Safety Advisory Committee's most recent annual report. [266785]

Jonathan Shaw: I have been asked to reply.

A copy of the Nuclear Safety Advisory Committee's report FOR 2007-08 is published on the HSE's website and a copy has been placed in the Library.

Greg Clark: To ask the Secretary of State for Energy and Climate Change which bodies are undertaking work formerly undertaken by the Nuclear Safety Advisory Committee. [266788]

Jonathan Shaw: I have been asked to reply.

The Committee reached the end of its term of office in October 2008 and the Board of the Health and Safety Executive (HSE) decided to defer any decision on future arrangements for providing independent technical advice on nuclear safety, pending various reviews. Any decision will need to take account of the arrangements, yet to be finalised, to implement the Stone review of nuclear regulation. Experts staff HSE's Nuclear Directorate and it calls on many external sources of advice on nuclear safety when it needs them.

Renewable Energy: Finance

Greg Clark: To ask the Secretary of State for Energy and Climate Change what the budget for the Hydrogen, Fuel Cell and Carbon Abatement Technologies Demonstration Programme is in each year from 2008-09 to 2013-14. [266603]

Joan Ruddock: The Hydrogen, Fuel Cells and Carbon Abatement Technologies Demonstration Programme is now supported under the Government's Environmental Transformation Fund (ETF). The following table outlines financial commitment up to 2014:

ETF Total	*£ million*
Actual Spend 2008-09	1.4
Committed 2009-10	2.8
Committed 2010-11	0.6
Committed 2011-12	0.6
Committed 2012-13	0.1
Committed 2013-14	0.5

A joint call on Carbon Abatement Technologies, worth some £15 million, was announced on 12 February 2009 by the ETF, the Technology Strategy Board (TSB) and the Northern Way.

Warm Front Scheme

Mr. Hancock: To ask the Secretary of State for Energy and Climate Change how much each contractor appointed under the Warm Front scheme has received under the scheme in each of the last three financial years for which figures are available; and if he will make a statement. [267693]

Joan Ruddock: The spreadsheet containing this information contains over 450 lines of data, and I have therefore placed it in the Library of the House.

Warm Front Scheme: Complaints

Greg Clark: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to the hon. Member for Braintree of 10 March 2009, *Official Report*, column 410W, on the Warm Front Scheme: Essex, what mechanisms his Department has put in place to record complaints about the Warm Front scheme. [269204]

Joan Ruddock: The Department, and its predecessor DEFRA, has kept a record of all letters and emails it has received about Warm Front since January 2007 using an online correspondence tracking IT system. The total number of cases received by the Department is approximately 1,750. However not all of these cases will necessarily be complaints. DECC has recently put in place mechanisms for recording and monitoring all complaints received.

Warm Front Scheme: Contracts

John Mann: To ask the Secretary of State for Energy and Climate Change how many Warm Front heating installations have been completed by Matthew Score over the last eight years; how much was received by Matthew Score for that work; and how much Government grant was provided for the work. [266007]

Joan Ruddock *[holding answer 24 March 2009]:* Matthew Score is a sub-contractor to Heating Efficiency Systems Ltd., which is contracted to Eaga, the Warm Front Scheme Manager. Eaga does not keep records of the work carried out by sub-contractors or the monetary value to the sub-contractor of that work. This is a matter for the initial contractor, in this instance Heating Efficiency Systems Ltd.

FOREIGN AND COMMONWEALTH OFFICE

British Overseas Territories: Electricity Generation

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs in which British Overseas Territories micro-generation electricity production schemes are in operation. [269498]

Gillian Merron: The following Overseas Territories have micro-generation electricity production schemes: the Falkland Islands, Cayman Islands, South Georgia and Bermuda.

There is limited private use by companies and individuals of renewable energy resources such as wind turbines and solar panels in other territories (Turks and Caicos Islands, St Helena and Pitcairn).

This answer does not include information on Gibraltar.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs which British Overseas Territories have held trials of power generation from *(a)* wind turbines, *(b)* solar power stations and *(c)* tidal and hydroelectric power. [269499]

Gillian Merron: Overseas Territories have held trials of alternative power generation as follows:

(a) Wind turbines

Tristan da Cunha has tested a wind turbine.

The Turks and Caicos Islands constructed a wind turbine, however this was destroyed in Hurricane Ike.

St. Helena has an operational wind power generation programme.

The Falkland Islands has an operational wind power generation programme.

South Georgia and the South Sandwich Islands have trialled wind power generation.

Bermuda has trialled wind power generation.

(b) Solar power stations

Bermuda has trialled solar power stations.

(c) Tidal and hydroelectric power

The Falklands Islands has trialled a micro hydroelectric scheme.

Bermuda has trialled tidal and hydroelectric power generation.

South Georgia and South Sandwich Islands already have an operational hydroelectric power generation programme.

There has been some limited private use of alternative power generation systems in some of the Overseas Territories.

This answer does not include information on Gibraltar.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how much electricity is generated from renewable resources in each British Overseas Territory. [269782]

Gillian Merron: The following figures were provided by the following Overseas Territories:

The Falkland Islands generates 24 per cent. of total demand for electricity in Stanley, and 0.6 GWh in the rest of the territory from renewable sources.

South Georgia and the South Sandwich Islands have a new hydroelectric scheme supplying 100 per cent. of electricity requirements to all but three of its residents.

St. Helena currently generates approximately 25 MWh per month from wind turbines.

Bermuda generates 2 per cent. of its energy from waste.

The British Virgin Islands, the Turks and Caicos Islands and Montserrat confirmed that they generate no electricity from renewable resources.

There is limited private use of renewable energy resources in Anguilla, the Cayman Islands, Tristan da Cunha and Pitcairn.

This answer does not include information on Gibraltar.

Departmental Buildings

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs what properties his *(a)* Department and *(b)* Department's (i) executive agencies and (ii) non-departmental public bodies have sold in each of the last five years; and how many of these have been sold for housing development. [266496]

Gillian Merron: Details of the properties sold by the Foreign and Commonwealth Office (FCO) have been provided to the Foreign Affairs Committee on a quarterly basis since financial year 2004-05. This information is published in the Committee's annual reports on the FCO's Departmental Report and is available for viewing online on their website at:

http://www.parliament.uk/parliamentary_committees/foreign_affairs_committee/foreignaffairs_committee_reports_and_publications.cfm

The British Council, an Executive non-departmental public body of the FCO, has sold one leasehold property in the UK only in the last five years; the British Council's office in Oxford.

Information on the sale of its overseas properties is not held centrally and can be provided only at disproportionate cost.

None of the FCO's other Executive agencies or non-departmental public bodies have sold property over the last five years.

Information on the subsequent use of properties sold is not held and could be provided only at disproportionate cost.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department in each of the last five years; and if he will make a statement. [269537]

Gillian Merron: Detailed estimates of this nature are not available although we have made estimates of the energy costs associated with our security requirement to keep certain equipment running out of hours.

In 2007, power consumption tests based on the range of personal computers (PC) then in use suggested an average daily usage of 1.92 kW per day. This level of consumption would have been broadly constant during the past five years. With the introduction of the new hardware/software, a typical PC would consume approximately 666 W per day. Identifying a cash value based on these figures would incur disproportionate cost, as different tariffs apply in the countries around the world in which the Foreign and Commonwealth Office is represented.

We have recently commissioned IBM to identify our IT-related carbon footprint which will be delivered in June 2009. This will establish a basis for assessing progress made toward reducing emissions as additional measures are implemented, covering the full life of equipment from procurement, through operation, to disposal.

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269562]

Gillian Merron: The Foreign and Commonwealth Office has carried out a detailed analysis of the actions needed to achieve full alignment with the Greening Government strategy. On the basis of this, we have drawn up and are implementing a three-year plan to put in place the additional measures identified, covering the full life of ICT equipment from procurement, through operation, to disposal.

With the introduction of Future Firecrest, we have implemented a desktop/monitor power policy and are currently working on the printer policy to incorporate the Greening Government ICT strategy recommendations.

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269580]

Gillian Merron: The Foreign and Commonwealth Office has a distributed IT estate covering over 250 posts worldwide. At present server capacity utilisation is not monitored and with the current tools available this information could only be provided at disproportionate cost.

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate has been made of the proportion of personal computers in each of his Department's offices that are turned off *(a)* overnight, *(b)* at weekends and *(c)* during holiday periods; and if he will make a statement. [269598]

Gillian Merron: For security reasons Foreign and Commonwealth Office (FCO) staff are instructed to leave personal computers (PCs) switched on when not in use. There are approximately 12,000 PCs in use in FCO offices around the world. Allowing for exceptions and shared use by shift workers, an estimate of 10,000 machines left on out of office hours is reasonable, but untested.

The Future Firecrest programme is providing new equipment to FCO users worldwide. In addition to being more energy efficient this equipment enables the application of global standby policies which will lead to PC idle power consumption of between 1 per cent. and 3 per cent. of full power. To date approximately 3,500 new machines have been installed in offices in the UK. Under current plans all 12,000 worldwide will have been replaced within the next 12 months.

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269611]

Gillian Merron: Responsibility for the purchase of low value IT equipment is devolved to individual budget holders worldwide. This information is not held centrally and the question could only be answered at disproportionate cost.

However, the Foreign and Commonwealth Office is currently replacing IT equipment both in the UK and around the world. The printers supplied are capable of two-sided printing and will be the default setting when users print material.

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269633]

Gillian Merron: The Foreign and Commonwealth Office is currently replacing its IT infrastructure, and the Future Firecrest programme is delivering a newly designed and procured corporate IT platform. Up until recently the IT products available have not fully met the Buy Sustainable Quick Win standard, for example the complete elimination of PVC's. Current and future product choices should ensure compliance with this important Government standard.

For completeness, it is important to note that in order to maintain costs at a reasonable level, certain small items of unclassified IT equipment can be procured by posts locally. This expenditure is comparatively low and there is no centrally managed asset database to confirm compliancy. Compiling this information could only be carried out at disproportionate cost.

EU Aid

Mr. Kidney: To ask the Secretary of State for Foreign and Commonwealth Affairs how much EU grant-aided funding for non-member states there was in 2007. [268796]

Caroline Flint: Official Development Aid payments from the EC Budget of 2007 constituted 5,219 million euros for non-member states. In addition, 3,274 million euros was given under the European Development Fund to countries in Africa, the Caribbean and the Pacific.

Immigration: Human Rights

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with ministerial colleagues on *(a)* human rights abuses in countries from which people undertake enforced migration to the UK and *(b)* levels of inequality in such countries; and what discussions he has had on measures to reduce levels of enforced migration. [268794]

Bill Rammell: I refer the hon. Member to the Foreign and Commonwealth Office's (FCO) 2008 Human Rights Report which gives details on the FCO's engagement with states on human rights issues including with reference to migration.

The UK works with other states, bilaterally and through the EU, to reduce illegal migration, tackle the root causes of forced migration and manage legal migration into the UK.

The FCO 2008 Human Rights report is available for viewing online at:

http://www.fco.gov.uk/en/fco-in-action/conflict/

Israel

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to meet the new Foreign Minister of Israel to discuss UK-Israel relations. [270254]

Bill Rammell: My right hon. Friend the Foreign Secretary spoke to the Israeli Foreign Minister, Avigdor Lieberman on 3 April 2009. He congratulated Mr. Lieberman on his appointment and emphasised the importance of making swift progress towards a two state solution.

My right hon. Friend the Foreign Secretary is looking forward to working closely with Israel on achieving this goal and, while there is no meeting date yet agreed, expects to meet his Israeli counterpart soon.

Kenya

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs which Ministers have visited Kenya in the last 12 months. [269487]

Gillian Merron: The following Ministers have visited Kenya in the last 12 months:

Rt. hon. Douglas Alexander MP, Secretary of State for International Development, in March 2009;

Rt. hon. Hilary Benn MP, Secretary of State, Department for Environment, Food and Rural Affairs, in February 2009;

Rt. hon. Ed Miliband MP, Secretary of State, Department for Energy and Climate Change, in February 2009;

Rt. hon. Lord Malloch-Brown, Minister for Africa, Asia and the UN, in November 2008;

Gareth Thomas MP, Minister of State at the Department for International Development, in December 2008;

Ivan Lewis MP, Parliamentary Under-Secretary of State at the Department for International Development, in December 2008;

Lord West, Parliamentary Under-Secretary (Security and Counter-terrorism), in December 2008; and

Rt. hon. Bob Ainsworth MP, Minister for the Armed Forces, in November 2008.

Kenya: Piracy

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his Kenyan counterpart on anti-piracy operations off the coast of Kenya. [269488]

Caroline Flint: UK officials are engaged in ongoing discussions and co-operation with their Kenyan counterparts on anti-piracy operations in the region. My right hon. Friend the Prime Minister recently wrote to President Kibaki to thank him for Kenya's co-operation in combating piracy in the Gulf of Aden. Our high commissioner in Nairobi discussed piracy with President Kibaki on 20 February 2009 when the President reiterated the importance of international action on a shared problem. The UK is a member of the International Contact Group taking forward work on this issue, which also includes Kenya.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to reply to the letter dated 14 January 2009 from the right hon. Member for Manchester, Gorton with regard to J. Lovely. [263636]

David Miliband: I replied to my right hon. Friend's letter on 10 April 2009.

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to reply to the letter from the right hon. Member for Manchester, Gorton of 23 February 2009, with regard to Mr and Mrs Z. Ullah. [269340]

David Miliband: I replied to my right hon. Friend's letter on 26 March 2009.

Middle East: Conflict Prevention

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 25 March 2009, *Official Report*, columns 17-19WS, on conflict resources 2009-10, what proportion of the revised budget for the Middle East programme will be spent in *(a)* Iraq, *(b)* Israel-Palestine and *(c)* Lebanon; and if he will make a statement. [267727]

Bill Rammell: Of the £18 million discretionary funding assigned to the Middle East and North Africa Programme for 2009-10; £13.1 million has been allocated to Iraq, £3.15 million to Israel-Palestine, and £1.35 million to Lebanon. The remaining £400,000 has been assigned to Yemen.

This programme will continue our assistance to build Iraqi and Palestinian police and judiciary capabilities and our work with the Lebanese armed forces and internal security forces. It will also allow the UK to foster economic growth, investment and job opportunities in the Basra region, monitor and assist in improving the economic and humanitarian situation in Israeli-Palestine and reinforce Lebanese sovereignty and good governance.

Moscow

Mr. Heathcoat-Amory: To ask the Secretary of State for Foreign and Commonwealth Affairs how many visits were made by Ministers to Moscow in the financial year 2007-08. [269707]

Caroline Flint: There were two visits made by Ministers to Moscow between 1 April 2007 and 31 March 2008.

Nuclear Weapons: EU Action

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications for the Government's policy on non-proliferation of the European Commission Communication on nuclear non-proliferation of 26 March 2009. [269144]

Bill Rammell: I refer the hon. Member to the Explanatory Memorandum which was laid in the House today.

Pakistan: Females

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the government of Pakistan on the provision of education for women in *(a)* Swat region and *(b)* elsewhere in Pakistan. [267980]

Mr. Douglas Alexander: I have been asked to reply.

The Department for International Development's (DFID) has made a £250 million commitment to support education in Pakistan over the next five years. We are engaged in detailed discussions with the federal government and the provincial governments in the North West Frontier Province (NWFP, which includes the Swat region), Balochistan and the Punjab on plans for the use of these resources. Improving the enrolment of girls in school is a key priority area for our discussions.

We have already committed £13.8 million to improve education in the NWFP. £6.8 million of this support is providing monthly stipends, which will benefit over 300,000 girls, who may not otherwise have the opportunity to attend secondary school. In the Swat district of NWFP, conflict has severely affected girls' education. In recent months 190 schools have been destroyed, most of which have been girls' schools. At present, however, the provincial government reports that classes have restarted using tented accommodation. The UK Government are deeply concerned about the threat to girls' education posed by extremism in Swat.

We are also supporting a national £3.5 million gender in education project that is helping the Government to better address gender issues in the formulation of education policy. This includes disaggregating education information by gender, in order to monitor progress in improving girls' educational access.

Pitcairn Islands: Politics and Government

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans there are for a new governance structure for the Pitcairn Islands in April 2009. [269497]

Gillian Merron: At the beginning of April 2009 a new governance structure was established for the Pitcairn Islands. The new structure devolves more local government responsibility to the island council. Systems have been established to improve Government recruitment and introduce performance management. Policies covering child safety and other important areas have been refined. These are essential building-blocks for the future good governance of the island.

Pitcairn Islands: Shipping

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made on ensuring a more regular shipping service for passengers and freight to and from the Pitcairn Islands; and if he will make a statement. [269496]

Gillian Merron: The Pitcairn Islands Government has entered into an agreement with a contractor to provide a new, regular and more frequent shipping service to the Pitcairn Islands for both freight and passengers. The service will make eight calls at Pitcairn each year, including four direct from New Zealand carrying freight. It is expected that the new service will begin in September 2009. The new service will substantially improve access to the Pitcairn Islands.

Uganda

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs which Ministers have visited Uganda in the last 12 months. [269482]

Caroline Flint: My hon. Friend, the Parliamentary Under-Secretary of State for the Department of International Development (Mr. Lewis) visited Uganda in February 2009. Although there have been no other ministerial visits to Uganda in the last 12 months, it may be useful to note the following high-level visits: General Sir Richard Dannatt, Chief of the General Staff in February 2009; and Mr. Jack McConnell MSP, my right hon. Friend the Prime Minister's Special Envoy for Conflict Resolution in March 2009.

Zimbabwe: British Nationality

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British citizens live in Zimbabwe. [269491]

Gillian Merron: We estimate that between 10,000 to 12,000 British citizens live in Zimbabwe. This information is based on information held by our embassy in Harare.

Zimbabwe: Human Rights

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his Zimbabwean counterpart on the human rights situation in Zimbabwe. [269727]

Gillian Merron: My right hon. Friend the Foreign Secretary has not met his Zimbabwean counterpart since the inclusive government was formed on 13 February 2009, and has not directly raised our human rights concerns with him. However, we and our international partners, regularly raise our serious concerns about the human rights situation in Zimbabwe with the Government of Zimbabwe. In his statement of 11 February 2009, my right hon. Friend the Foreign Secretary said the restoration of the rule of law, respect for human rights, the release of political detainees and the repeal of repressive legislation were the foundations of international support.

The statement of 11 February 2009 is available for viewing online at:

http://www.fco.gov.uk/en/newsroom/latest-news/
?view=PressS&id=13462857

Zimbabwe: Politics and Government

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his US counterpart on the political situation in Zimbabwe. [269493]

Gillian Merron: My right hon. Friend the Foreign Secretary met with US Secretary of State Clinton in Washington on 3 February 2009. The power sharing agreement in Zimbabwe was one of the issues discussed.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health what aftercare is provided to women having an abortion at a Marie Stopes International clinic; how many women in each age group died following an abortion at a Marie Stopes International clinic in each of the last 10 years; what the cause of death was in each case; what guidance his Department has issued to Marie Stopes International about aftercare provided at its clinics; and if he will make a statement. [268499]

Dawn Primarolo: All independent sector abortion providers, including Marie Stopes International, must operate according to the requirements of the Care Standards Act 2000, the Abortion Act 1967 and professional guidelines published by the Royal College of Obstetricians and Gynaecologists. The legislation and the guidelines set out the care that should be given to women undergoing abortion, including aftercare.

Abortion, both medical and surgical, is a very safe procedure and complications are uncommon. Deaths following abortion are extremely rare.

Mr. Amess: To ask the Secretary of State for Health if he will bring forward proposals to prevent patients being discharged from an abortion clinic without their prescribed medication; what discussions he has had with abortion clinics on this issue since January 2009; what recent representations he has received on the issue; and if he will make a statement. [268301]

Dawn Primarolo: All abortion providers should follow the best practice outlined in The Care of Women Requesting Induced Abortion, which is the guidance published in 2004 by the Royal College of Obstetricians and Gynaecologists. This provides guidance for professionals on all aspects of aftercare for women who have undergone abortions, including the prescription of medicine.

In addition, abortion clinics operating in the independent sector must comply with the requirements of the Care Standards Act 2000 and the Private and Voluntary Healthcare Regulations 2001. This legislation, together with the associated National Minimum Standards, ensures that high quality care is provided to women who seek abortions. In particular, the National Minimum Standards state patients must receive information about their medication and how to use it and that patients must be made aware of the possible complications arising from abortion, how to care for themselves after the procedure and how to contact the clinic for any necessary follow-up care and advice.

The Department holds regular discussions with abortion providers and these discussions cover a range of issues. The Department has received no representations on medication prescribed at abortion clinics.

Abortion: Death

Mr. Amess: To ask the Secretary of State for Health how many maternal deaths have resulted from legal abortions in each year since 1979; and what the maternal mortality rate was *(a)* for all causes and *(b)* for women undergoing legal abortions; and what estimate he has made of the material mortality rate among women undergoing illegal abortions since 1979. [268523]

Dawn Primarolo: Information relating to England (and Wales) is contained in the following table.

Maternal deaths from legal and illegal abortions 1979 to 2005

	Triennium								
	1979-81	*1982-84*	*1985-87*	*1988-90*	*1991-93*	*1994-96*	*1997-99*	*2000-02*	*2003-05*
Legal abortions	5	7	1	3	5	1	2	3	2
Illegal abortions	1	0	0	0	0	0	0	0	1
Total	6	7	1	3	5	1	2	3	3
Maternal mortality rate per 100,000 maternities									
All direct deaths	9.1	[1]5.9	6.13	6.14	5.53	6.1	4.99	5.31	6.24
Legal abortions	0.26	0.37	0.04	0.13	0.22	0.05	0.09	0.15	0.09
Illegal abortions	0.05	0	0	0	0	0	0	0	0.05

[1] Rate for England and Wales only, no data available for Scotland and Wales

Accident and Emergency Departments: Standards

Mr. Lansley: To ask the Secretary of State for Health what assessment his Department has made of the effect on *(a)* patient care and *(b)* clinical priorities of the four-hour waiting time target for accident and emergency departments. [267088]

Mr. Bradshaw: In 2007-08, 72 per cent. of trusts achieved the four hour standard of 98 per cent. of patients being seen, diagnosed and treated within four hours of their arrival at accident and emergency (A and E). As shown in the latest Healthcare Commission emergency department patient survey (2008), the percentage of respondents rating their overall care as excellent, very good or good was high at 88 per cent. It is important that patients have access to high quality timely care in A and E. However, we recognise that there are still areas for improvement and would encourage all trusts to examine their results and use these as a means to continue to improve patients' experience of A and E services.

Investment and reform is working. Our drive to eliminate long waits in A and E has made local health services work in new and better ways resulting in faster access to treatment for patients.

There are occasions when, for clinical reasons, patients may need to remain in A and E for longer than four hours—but it is for clinicians to make that judgment. That is why the minimum operating figure of 98 per cent. was introduced in 2003, following discussions with clinicians, to allow for the minority of patients that clinically require more than four hours in A and E.

It is a local matter for national health service trusts to ensure that they meet the A and E four hour operational standard while not compromising patient care and clinical priorities. In cases of underperforming trusts it is for the primary care trusts and strategic health authorities (SHAs) to ensure that there are plans in place for improvement so all patients can expect the same high quality service. Where there is sustained underperformance, the Department seeks assurances via the SHA that NHS trusts have robust plans in place for improvement in A and E performance, in providing high quality, timely care to patients.

Air Pollution

Colin Challen: To ask the Secretary of State for Health (1) what recent assessment he has made of the effects of levels of particulate pollution on the mortality rate; [269077]

(2) if he will publish the Committee on the Medical Effects of Air Pollutants' draft paper entitled, Long-term exposure to air pollution: effect on mortality, produced in 2007. [269199]

Dawn Primarolo: The Department's Committee on the Medical Effects of Air Pollutants (COMEAP) advises the UK Health Department on the effects on health of both outdoor and indoor air pollutants.

The most recent assessment of the effects of particulate pollution on mortality was published in 2007 by COMEAP: draft report—"Long-term Exposure to Air Pollution: Effect on Mortality". This report indicated that the collected evidence pointed strongly to an association between long-term exposure to particulate air pollution and effects on mortality. The report suggests that air pollution has a greater effect on mortality in the United Kingdom than previously thought, with a 10 microgramme increase in fine particles being associated with a 6 per cent. increase in risk of death from all causes.

The final version of the report, previously published for technical comment for a period of six weeks, will be published in May 2009.

The Department for the Environment, Food and Rural Affairs (DEFRA) has calculated the estimated loss of life expectancy linked to particulate pollution in its 2007 review of the UK's Air Quality Strategy. This calculation utilised the recommendations made by COMEAP in its 2007 draft report. DEFRA estimated that the level of man-made particulate air pollution experienced in the UK in 2005 would be expected to reduce life expectancy averaged over the whole population of the UK by up to about seven to eight months.

Alcoholic Drinks: Misuse

Ms Keeble: To ask the Secretary of State for Health what estimate he has made of the number of males *(a)* between (i) 10 and 16, (ii) 17 and 21 and (iii) 22 and 26 and *(b)* over 26 years who have been admitted to hospital for alcohol-related conditions in each of the last five years. [269090]

Dawn Primarolo: Data on the number of individual boys and young men hospitalised for alcohol-related conditions and not available, however data on the number of alcohol-related hospital admissions for boys and young men are available and are given in the following table. It is important to note that:

an individual may account for more than one admission;

the data given are for alcohol-related hospital admissions only, as data are not available centrally from which alcohol-related attendances in accident and emergency (A&E) departments can be identified; and

most attendances at A&E will not result in admission to hospital.

Finished alcohol-related admissions of males aged 10 or over, 2003-04 to 2007-08

Age	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
10 to 16	3,792	4,008	4,214	4,340	3,986
17 to 21	11,042	12,270	13,940	14,677	15,026
22 to 26	11,127	12,646	14,375	15,047	15,332
Over 26	325,053	369,709	423,744	464,939	502,942

Notes:

1. Includes activity in English national health service hospitals and English NHS commissioned activity in the independent sector.

2. *Alcohol-related admissions:*

The number of alcohol-related admissions is based on the methodology developed by the North West Public Health Observatory (NWPHO). Following international best practice, the NWPHO methodology includes a wide range of diseases and injuries in which alcohol plays a part and estimates the proportion of cases that are attributable to the consumption of alcohol. Details of the conditions and associated proportions can be found in the report Jones et al. (2008) Alcohol-attributable fractions for England: Alcohol-attributable mortality and hospital admissions.

Figures for under 16s only include admissions where one or more alcohol-specific conditions were listed. This is because the research on which the attributable fractions are based does not cover under 16s. Alcohol-specific conditions are those that are wholly attributed to alcohol—that is, those with an attributable fraction of one. They are:

Alcoholic cardiomyopathy (I42.6)
Alcoholic gastritis (K29.2)
Alcoholic myopathy (G72.1)
Alcoholic polyneuropathy (G62.1)
Alcohol-induced pseudo-Cushing's syndrome (E24.4)
Degeneration of nervous system due to alcohol (G31.2)
Mental and behavioural disorders due to use of alcohol (F10)
Accidental poisoning by and exposure to alcohol (X45)
Ethanol poisoning (T51.0)
Methanol poisoning (T51.1)
Toxic effect of alcohol, unspecified (T51.9)

3. *Number of episodes in which the patient had an alcohol-related primary or secondary diagnosis:*

These figures represent the number of episodes where an alcohol-related diagnosis was recorded in any of the 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) primary and secondary diagnosis fields in a Hospital Episode Statistics (HES) record. Each episode is only counted once in each count, even if an alcohol-related diagnosis is recorded in more than one diagnosis field of the record.

4. *Ungrossed data:*

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

5. *Finished admission episodes:*

A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Finished admission episodes are counted against the year in which the admission episode finishes. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

6. *Primary diagnosis:*

The primary diagnosis is the first of up to 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) diagnosis fields in the HES data set and provides the main reason why the patient was admitted to hospital.

7. *Secondary diagnosis:*

As well as the primary diagnosis, there are up to 19 (13 from 2002-03 to 2007-08 and six prior to 2002-03) secondary diagnosis fields in HES that show other diagnoses relevant to the episode of care.

8. *Data quality:*

HES are compiled from data sent by more than 300 NHS trusts and primary care trusts in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

9. *Assessing growth through time:*

HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.

10. Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity.

11. Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in out-patient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.

12. *Assignment of Episodes to Years:*

Years are assigned by the end of the first period of care in a patient's hospital stay.

Source:

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care

James Brokenshire: To ask the Secretary of State for Health how many finished accident and emergency admission episodes there were in each NHS trust where the primary or secondary diagnosis was alcohol-related and the *(a)* male and *(b)* female patient was aged

(i) under 10, (ii) between 11 and 15, (iii) between 16 and 18, (iv) between 19 and 25, (v) between 26 and 35 and (vi) 36 years and over in each of the last five years. [269773]

Dawn Primarolo: The information requested is not collected centrally in relation to attendances in accident and emergency departments.

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* men and *(b)* women in each age group have been admitted to hospital for stomach pumping procedures as a result of alcohol poisoning in each month of the last three years. [269788]

Ann Keen: There were zero admissions to hospital for stomach pumping procedures in 2005-06, 2006-07 and 2007-08. This is most likely due to the fact that stomach pumping usually takes place in accident and emergency departments, without the need for the patient to be admitted to hospital. Data on stomach pumping procedures in accident and emergency departments are not collected centrally.

Arthritis: Medical Treatments

Andrew George: To ask the Secretary of State for Health (1) how long the National Institute for Health and Clinical Excellence's review of the *(a)* use of and *(b)* segregated use of anti-TNF drugs for the treatment of rheumatoid arthritis has lasted; and when he expects the appraisal of sequential use of anti-TNFs to be completed; [268870]

(2) what assessment he has made of the *(a)* scheduling and *(b)* timescale of the reappraisal process undertaken by the National Institute for Health and Clinical Excellence in respect of the sequential use of anti-TNF drugs for rheumatoid arthritis; and what representations he has received on this matter. [268871]

Dawn Primarolo: The National Institute for Health and Clinical Excellence (NICE) issued its current technology appraisal guidance to the NHS on the initial use of adalimumab, infliximab and etanercept for the treatment of rheumatoid arthritis in October 2007, which is 40 months from the date that Ministers referred adalimumab for the treatment of rheumatoid arthritis to NICE's technology appraisal work programme. The guidance partially updated NICE's existing guidance on etanercept and infliximab for rheumatoid arthritis.

NICE is currently developing separate appraisal guidance on the use of adalimumab, etanercept, infliximab, rituximab and abatacept for the treatment of rheumatoid arthritis after the failure of a tumour necrosis factor (TNF) inhibitor. NICE currently expects to publish updated guidance on this topic in July 2010. Until NICE publishes final guidance for this appraisal, NICE'S existing guidance on the use of etanercept, infliximab, rituximab and abatacept for the treatment of rheumatoid arthritis after the failure of an anti-TNF in technology appraisals TA36, TA126 and TA141 remains in place.

The scheduling of work on specific technology appraisal reviews is a matter for NICE, but we understand that in this case the guidance development process has been particularly complex because of the need to address issues identified at the appeal stage.

Between April and December 2008, the Department of Health has received 135 pieces of correspondence relating to NICE and the use of TNF inhibitors.

Autism

Mrs. Gillan: To ask the Secretary of State for Health what assessment he has made of the cost to local authorities of identifying the number of disabled children and adults with autism in their area. [269145]

Phil Hope: The Department has made no assessment of the costs to local authorities of identifying the number of disabled children with autism in their area.

With regard to adults with autism, Departmental officials are currently estimating possible costs of a survey of prevalence, as well as the likely annual costs of additional staffing input to joint strategic needs assessments to include this group of people.

Burns: Health Services

Graham Stringer: To ask the Secretary of State for Health what plans he has to review the structure of the burns service in the North West; and if he will make a statement. [269511]

Ann Keen: The provision of burns services in the North West is a matter for the Northern Network of the National Burn Care Group (NBCG). The NBCG is a sub-group of the National Specialised Commissioning Group, a body established on 1 April 2007. The Northern Burn Care Network is developing recommendations on the future of burn care services across the North West, North East and Yorkshire and the Humber Strategic Health Authority regions and North Wales.

Cancer: Drugs

Dr. Gibson: To ask the Secretary of State for Health when the National Institute for Health and Clinical Excellence will produce its guidance on the use of *(a)* bevacizumab, *(b)* sorafenib, *(c)* sunitinib (second-line) and *(d)* temsirolimus for the treatment of advanced and metastatic renal cell carcinoma in the NHS. [268705]

Dawn Primarolo: The National Institute for Health and Clinical Excellence currently expects to issue final guidance to the national health service on bevacizumab, sorafenib and temsirolimus for the first line treatment and sorafenib and sunitinib for the second-line treatment of advanced and/or metastatic renal cell carcinoma in June 2009.

Cancer: Nurses

Mr. Lansley: To ask the Secretary of State for Health what proportion of multi-disciplinary cancer teams for each type of cancer do not have clinical nurse specialist cover. [269305]

Ann Keen: This information is not centrally collected.

We recognise the critical role that clinical nurse specialists (CNSs) have in multi-disciplinary teams (MDTs), as set out in the National Institute for Health and Clinical Excellence series of Improving Outcomes guidance. The

National Cancer Review Programme for 2004-07 looked at whether MDTs had full core membership and found that there were significant gaps in some areas, including in CNSs. Another round of peer review is now under way, and this will provide information about what progress has been made in this area.

Contaminated Blood and Blood Products Inquiry

Jenny Willott: To ask the Secretary of State for Health pursuant to the answer of 19 March 2009, *Official Report*, column 1302W, on contaminated blood and blood products, what timetable he has set for responding to the recommendations made by Lord Archer; by what mechanism that response will be made; and if he will make a statement. [269473]

Dawn Primarolo: Ministers have met Lord Archer to discuss his recommendations. These recommendations are receiving very careful consideration, and we will respond in due course.

Drugs: Misuse

Norman Lamb: To ask the Secretary of State for Health how many admissions to hospital there were as a result of drug-related mental health conditions in each of the last five years. [269730]

Dawn Primarolo: The information is shown in the following table.

Count of finished admission episodes with a primary diagnosis of mental and behavioural disorders due to psychoactive substance use for the last five years: Activity in English NHS Hospitals and English NHS commissioned activity in the independent sector: Data years 2003-04 to 2007-08

	Finished admission episodes
2007-08	48,583
2006-07	47,886
2005-06	47,854
2004-05	44,367
2003-04	40,056

Note:
These figures include admissions for alcohol-induced mental health conditions.
Source:
Hospital Episode Statistics (HES), The NHS Information Centre for health and social care.

e-Cigarettes

Mr. Leech: To ask the Secretary of State for Health what guidance his Department has issued on the legality of the use of e-cigarettes in enclosed public spaces. [268697]

Dawn Primarolo: The Department has not issued any guidance on the legality of the use of e-cigarettes in enclosed public spaces.

The Department has commissioned research through the local authorities coordinators of regulatory services (LACORS) to test e-cigarettes to see if they comply with the law. This scientific research has found these contain toxic levels of nicotine and that none of the products tested to date comply with product safety regulations. Local Authority Trading Standards Departments have accordingly been informed.

The four products that have been tested so far did not contain tobacco. However, there are many different e-cigarette products on the UK market, which function in different ways and some products may contain tobacco. Therefore it cannot be assumed that all e-cigarettes can be used legally in smokefree premises.

Local authorities enforce the product safety regulations and the Government are working with them to protect the public from the dangers of e-cigarettes that contain toxic levels of nicotine.

E-cigarettes should not be sold as an aid to quitting smoking without authorisation from the Medicines and Healthcare products Regulatory Agency.

Fertility: Medical Treatments

Mr. Stewart Jackson: To ask the Secretary of State for Health what factors his Department has identified as hindering full implementation on the part of primary care trusts of National Institute of Health and Clinical Excellence guidance on fertility treatment. [269475]

Dawn Primarolo: The pace of implementation of clinical guidelines produced by the National Institute of Health and Clinical Excellence is determined by primary care trusts (PCTs) at local level. Many PCTs are now progressing towards the full implementation of the guideline on the assessment and treatment for people with fertility problems. The expert group on commissioning national health service infertility provision, which we established in 2008 to provide advice to the Department and to PCT commissioners, has identified that increasing awareness of the consequences of infertility, and developing the expertise of commissioners, will contribute to further progress in this area of health provision. The expert group is producing a commissioning guide to address these issues.

Health Professions

Tim Loughton: To ask the Secretary of State for Health what his Department's definition of a *(a)* district nurse, *(b)* community matron and *(c)* health visitor is. [269799]

Ann Keen: The Department does not provide definitions of nursing disciplines, these are determined by education, qualification, role and the needs of patients.

Health Professions: Manpower

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* nurses, *(b)* midwives and *(c)* health visitors returned to work in the National Health Service in each year since 2004. [269335]

Ann Keen: The number of midwives and health visitors that have returned to work in the national health service is not collected centrally. However, between February 1999 and March 2004, over 18,500 former nurses and midwives had returned to work in the NHS as a result of the return to practice initiative.

From 1 April 2004, responsibility for the provision and funding of return to practice programmes was devolved to local NHS organisations.

Health Visitors: Schools

Mrs. Maria Miller: To ask the Secretary of State for Health what estimate he has made of the likely cost of introducing a universal health visitors programme in schools. [269197]

Ann Keen: The Health Visiting service is a universal service. Work continues to strengthen the service and maximise its effectiveness. The universal programme for 0-5 year olds, the Healthy Child Programme (formerly the Child Health Promotion Programme), led by health visitors, was set out in updated guidance issued in March 2008. The associated impact assessment estimated the additional costs of introducing new assessments of all pregnant women and under-fives for obesity risks at £20 million per annum, greatly outweighed by the estimated benefits.

In Healthy Lives, Brighter Futures, the strategy for children and young people's health, the Government set out the intention to ensure that every Sure Start Children's Centre has access to a named health visitor to work as part of the team and oversee the health work of the centre.

The new Action on Health Visiting programme, announced on 12 March, will look further at the key roles of health visitors and the action needed on skills, development and career opportunities to ensure the national health service is able to recruit and retain the right workforce. We anticipate that this will require growth in health visitor numbers. It is for local areas to decide the skill mix of teams according to population needs.

The Impact Assessment: for the Child Health Promotion Programme may be found at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsLegislation/DH_084772

A copy has been placed in the Library.

Hospitals: Infectious Diseases

Bob Spink: To ask the Secretary of State for Health what criteria his Department used in choosing the winners of the Healthcare Associated Infection Technology Innovation programme Awards; and whether each of the products commended in the awards have been reviewed by his Department's Rapid Review panel. [269295]

Ann Keen: The Healthcare Associated Infection (HCAI) Technology Innovation Programme Awards were not part of the Rapid Review Panel (RRP) process but part of a wider programme involving innovation in general and HCAI technology innovation.

The awards categories, winners and whether they have a RRP recommendation are shown as follows.

Category	*Winner*	*RRP recommendation*
Innovative technological concept: originating from industry with the most potential to prevent HCAI	ErgoMedica Ltd. for MedMat	RRP recommendation 2
Team or individual from the NHS or industry that has contributed in the most practical way to promoting the development and/or adoption of HCAI related technology	Blackpool, Fylde and Wyre Hospitals NHS Foundation Trust for the implementation of a new rapid MRSA PCR testing technology	Outside RRP remit
For Actual new and/or novel HCAI related product or technology likely or proven to help reduce infection	TwistDx for applying its novel DNA technology to develop a rapid, portable MRSA test	Not submitted to RRP
Innovative technological concept or new and novel product or technology offering the greatest contribution in controlling *Clostridium difficile*	BIOQUELL plc for its hydrogen peroxide vapour system	RRP recommendation 1
New and/or novel product or technology with the greatest contribution to enhancing the cleanliness of the hospital environment	OSPREY DEEPCLEAN steam cleaning technology.	Not submitted to RRP

All entries were reviewed and short listed by the judging panel. All short listed entries were then invited to present their product to the panel during two interview days. From the presentations and interviews the judges chose their winners.

Bob Spink: To ask the Secretary of State for Health pursuant to the answer of 30 March 2009, *Official Report*, column 1223W, on hospitals: infectious diseases, for what reasons the average of all quarters of the year was not used to calculate the reduction in methicillin-resistant staphylococcus aureus; and if he will make a statement. [269713]

Ann Keen: The October to December 2008 quarter was used because it was the most recent information available. There is a downward trend over the last three quarters, April to June 2008 being a 56 per cent. reduction, July to September 2008 a 62 per cent. reduction and October to December 2008 a 65 per cent. reduction compared to the 2003-04 quarterly average.

Influenza

Mr. Ancram: To ask the Secretary of State for Health how many new cases of influenza were diagnosed in December and January of the year *(a)* 2008-09, *(b)* 2007-08 and *(c)* 2006-07. [268763]

Dawn Primarolo: Information on cases of influenza-like illness (ILI) is collected by the Royal College of General Practitioners (RCGP) on a weekly basis. The information requested is shown in the following table as rates of new cases of ILI per 100,000 general practitioner (GP) population for the four weeks of December and the four weeks of January. The information relates to England and Wales.

Rates of new cases of ILI per 100,000 GP population

	2006-07	*2007-08*	*2008-09*
December	9.9	15.6	27.5
	8.4	14.1	40.6
	8.8	21.8	68.5

Rates of new cases of ILI per 100,000 GP population

	2006-07	2007-08	2008-09
	7.8	20.1	41.3
January	17.2	30.1	49.1
	20.6	30.5	43.9
	16.2	19	30.4
	16.3	15.1	17.5

The Health Protection Agency publishes weekly national influenza reports, incorporating RCGP data, on the website

www.hpa.org.uk

Life Expectancy

Mr. Moss: To ask the Secretary of State for Health which local authorities in the Spearhead Group *(a)* had widened the gap in life expectancy at birth compared with the population as a whole in the latest year for which information is available and *(b)* are not on course to meet the 2010 target of reducing that gap by 10 per cent. [269774]

Ann Keen: This information is contained in "Tackling Health Inequalities: 2005-07 Policy and Data Update for the 2010 National Target", which has been placed in the Library.

Maternal Mortality

Mr. Lansley: To ask the Secretary of State for Health how many women have died *(a)* in childbirth and *(b)* as a result of complications in childbirth in each year since 1997; and how many such women have died in each NHS organisation in the most recent period for which figures are available. [269078]

Ann Keen: We do not collect that information centrally. However, the Confidential Enquiry into Maternal and Child Health publishes a report once every three years, formerly entitled "Why Mothers Die", but now entitled "Saving Mothers' Lives". The most recent, published in December 2007, covered the years 2002-05. This publication gives numbers of deaths in the United Kingdom reported to the inquiry in the three-year periods considered and divides them into deaths directly and indirectly due to pregnancy and childbirth, (it also includes coincidental deaths and late deaths, which are not included in the table). Copies of the latest report have already been placed in the Library.

Three year period	*Direct deaths*	*Indirect deaths*	*Total direct and indirect deaths rate per 100,000 maternities*
1997-99	106	136	11.40
2000-02	106	155	13.07
2003-05	132	163	13.95

Notes:

1. Direct deaths result from obstetric complications of the pregnant state, from interventions, omission, incorrect treatment or from a chain of events resulting from any of these.

2. Indirect deaths result from previous existing disease, or disease that developed during pregnancy and which was not due to direct obstetric causes, but which was aggravated by the physiological effects of pregnancy.

We are unable to break these figures down by NHS organisation.

Medical Equipment: Finance

Dr. Desmond Turner: To ask the Secretary of State for Health how much Government funding will be provided to develop new medical devices for use in the NHS during 2009-10. [268850]

Dawn Primarolo: The National Institute for Health Research invention for innovation programme has a budget for 2009-10 of £13 million. Other investment the Government plan to make in medical technology research in 2009-10 and beyond includes:

> a combined Technology Strategy Board and research council contribution of £13 million over three years toward the cost of the 22 business led projects chosen in the Board's technologies for health competition held in January 2008;
>
> the Engineering and Physical Sciences Research Council's Towards Next Generation Healthcare programme, which includes medical devices research, and on which a total of £4.9 million will be spent in 2009-10; and
>
> the Medical Research Council's (MRC) new developmental pathway funding scheme that, among other things, will support the development of medical devices. The MRC intends to commit over £50 million in the three years of the current spending review period to the scheme.

Dr. Desmond Turner: To ask the Secretary of State for Health (1) how many funding applications for development of medical devices were received in the last three years for which information is available; [268851]

(2) how many medical technology developers received development grants of above £30,000 in the last three years for which information is available; [268853]

(3) which Government funding agency distributed the most funding to medical technology developers in the last three years for which information is available. [268854]

Dawn Primarolo: The information available in respect of the three years from 2006-07 to 2008-09 is shown in the following table.

Medical technology research: 2005-08

Funding body	*Applications received*	*Grants of or exceeding £30,000 awarded*
National Institute for Health Research: Invention for Innovation and Health Technology Devices programmes	172	20
National Institute for Health Research: New and Emerging Applications of Technology programme	n/a	61
Biotechnology and Biomedical Sciences Research Council	n/a	7
Engineering and Physical Sciences Research Council (EPSRC)	369	132
Medical Research Council	n/a	21
Technology Strategy Board	70	30

n/a = not available

Note:

The 132 awards made by the EPSRC have a total value of £81 million.

Dr. Desmond Turner: To ask the Secretary of State for Health how many medical devices that received Government funding for their development were used by the NHS within *(a)* 12 months and *(b)* 24 months of funding being approved in the last three years for which information is available. [268852]

Dawn Primarolo: The information requested is not available.

Mid Staffordshire NHS Foundation Trust

Mr. Lansley: To ask the Secretary of State for Health on what date his Department was first informed of the conclusions of the Healthcare Commission's investigation into patient care at Mid Staffordshire NHS Foundation Trust. [267702]

Mr. Bradshaw: The Healthcare Commission sent the Department a near final version of the report of its investigation into Mid Staffordshire NHS Foundation Trust on 20 February 2009. This included the recommendations and the conclusions of the investigation. Less complete versions of the investigation report were shared earlier at official level in line with protocols intended to ensure that Healthcare Commission reports are checked for factual accuracy.

Miscarriage

Norman Lamb: To ask the Secretary of State for Health how many miscarriages attributed to *(a)* violence against and *(b)* misuse of (i) alcohol and (ii) drugs by the mother were recorded in each of the last five years; and how many such mothers were aged (A) 18 years and under and (B) over 18 years. [269735]

Dawn Primarolo: This information not collected centrally. However, for alcohol related admissions, I refer the hon. Member to the answer I gave him on 25 March 2009, *Official Report*, column 520W.

National Burn Care Group

Derek Twigg: To ask the Secretary of State for Health when the National Burn Care Group's last meeting was before its meeting on 24 February 2009. [269310]

Ann Keen: The last meeting of the National Burn Care Group before its meeting on 24 February was on Tuesday 25 November 2008.

NHS: Death Rate

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 30 March 2009, *Official Report*, column 900W, on NHS: death rate, for what reasons 43 of the alerts in the first year were not followed up. [269060]

Mr. Bradshaw: The Care Quality Commission, which took over from the Healthcare Commission on 1 April 2009, has informed us that the reasons why 43 of the alerts that the Healthcare Commission considered where not followed up with the trusts concerned are set out in table 2 on page 18 of the Healthcare Commission's report "Following up mortality 'outliers'," which is published at:

www.cqc.org.uk/_db/_documents/Following_up_mortality_outliers_200903244704.pdf

NHS: Drugs

Grant Shapps: To ask the Secretary of State for Health (1) how many prescriptions for drugs falling within section 4.3 of the British National Formulary were made out in each of the last five years; [269660]

(2) how many prescription items for anti-depressant drugs there were in each of the last five years. [269708]

Ann Keen: We do not hold information on the number of prescriptions issued, only prescription items dispensed.

The following table shows the number of prescription items for anti-depressant drugs within section 4.3 of the British National Formulary, written in the United Kingdom and dispensed in the community, in England.

Number of prescription items dispensed in the community, in England, 2003-07

	Thousand
2003	27.658.0
2004	28,995.5
2005	29,389.9
2006	31,038.0
2007	33,839.6

Source:
Prescription cost analysis (PCA) system

Norman Lamb: To ask the Secretary of State for Health how many claims relating to adverse reactions to prescription drugs were paid by the NHS Litigation Authority in each of the last five years; and what the total value of those payments was. [269733]

Ann Keen: The NHS Litigation Authority records this type of information within case notes within each individual claim. The answer could therefore be provided only at disproportionate cost.

NHS: Industrial Health and Safety

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* RIDDOR and *(b)* non-RIDDOR incidents were reported in each NHS organisation identified by organisation code in each of the last five years. [265545]

Jonathan Shaw: I have been asked to reply.

It is not possible for the Health and Safety Executive to provide a full reply to the question as non-reportable RIDDOR incidents are inherently not reported to HSE. Additionally HSE does not have the details of NHS organisations identified by organisation code.

However, workplaces coded to SIC 85.1 'Human health activities' excluding subclass 85.11/2, 'Private sector hospital activities' will be a reasonable approximation to the NHS as a whole. The following table shows the numbers of incidents of different types reported to HSE and local authorities from such workplaces under RIDDOR between 2003-04 and 2007-08[1]. The data are not coded to individual organisations and cannot therefore be reliably presented at that level.

[1] Provisional.

	Reportable injuries	*Reportable diseases*	*Reportable dangerous occurrences*	*Reportable gas incidents*
2003-04	12 898	121	318	1

	Reportable injuries	Reportable diseases	Reportable dangerous occurrences	Reportable gas incidents
2004-05	12 792	115	381	1
2005-06	13 236	95	404	—
2006-07	13 268	134	422	4
2007-08[1]	12 700	96	400	2

[1] Provisional.

Notes:

1 NHS organisations are identified by Group 85.1, 'Human health activities' (but exclude Subclass 85.11/2, 'Private sector hospital activities'. These are determined according to Standard Industrial Classification (SIC). This system is used in UK official statistics for classifying businesses by the main type of economic activity they are engaged in, and is the responsibility of the Office for National Statistics (ONS). The latest version is 'SIC 2003'.

2 The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 1995, under which a requirement is placed on the appropriate 'responsible person' to notify the relevant enforcing authority of a reportable event arising from work activity. The 'responsible person' may be the employer of an injured person, a self-employed person, or someone who is control of premises were work is carried on.

3 The annual basis is the planning year from 1 April to 31 March.

4 Information available under regulation 3(1) of RIDDOR includes three categories of severity of injury to employees and self-employed people (workers): fatal injuries, defined major injuries and other injuries leading to more than three days absence (over-three-day). There are two categories of severity for members of the public: fatal injuries and non-fatal injuries that cause a person to be taken from the site of the accident to hospital. The same regulation includes a list of specified dangerous occurrences; these are events which do not necessarily result in a reportable injury, but have the potential to cause significant harm.

5 Regulation 5 of RIDDOR requires the 'responsible person' to report cases of certain diseases which are linked with specified work activities. In most cases this involves written diagnosis from a registered medical practitioner.

6 Regulation 6(1) of RIDDOR places a requirement on distributors, fillers, importers or suppliers of flammable gas to report any incident in connection with its supply and use which results in a fatality, major injury or condition. An incident can cause more than one fatality or injury. Regulation 6(2) of RIDDOR requires registered installers of gas appliances to provide details of any dangerous gas appliances or fittings to the relevant enforcing authority.

NHS: Information and Communications Technology

Mr. Stephen O'Brien: To ask the Secretary of State for Health what sums BT has *(a)* received and *(b)* been promised for taking over elements of Fujitsu's contract under the NHS IT programme. [267883]

Mr. Bradshaw: A payment of £92.8 million, excluding VAT, has been made to BT as working capital to aid with infrastructure, planning and development work in advance of the deployment of systems and services. This is in line with Treasury rules, and in return for a reduction in payments to be earned for future successful delivery. In addition, a further £183,000, excluding VAT, has been paid relating to work previously undertaken by the company with national health service organisations in the south of England as a consequence of termination of the contract with Fujitsu.

Contract Change Notices (CCNs) reflecting the appointment of BT as the preferred supplier to the existing eight live Cerner sites in the South, plus a commitment to additional deployments to four further Cerner acute sites and 25 RiO Mental Health and Community Health sites, have now been signed with the company. Disclosure of the value of the CCNs at this stage would potentially compromise the Department's position in any future procurement for further services in the South, and in consequence prejudice the commercial interests of the Department, and of the taxpayer.

NHS: Manpower

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 25 February 2009, *Official Report*, column 878W, on NHS manpower, what definition his Department uses of *(a)* cases involving NHS staff and *(b)* actions against NHS staff; and if he will make a statement. [267878]

Ann Keen: Some cases involving national health service staff are defended by the Department because they concern the implementation or interpretation of departmental policy in the NHS. However, the Department itself does not instigate legal actions against NHS staff. Where such legal action is instigated it is by the NHS organisation concerned.

NHS: Medical Equipment

Dr. Desmond Turner: To ask the Secretary of State for Health what steps the Government is taking to increase the uptake of new and innovative medical technology devices across the NHS. [268849]

Dawn Primarolo: The NHS next stage review, high quality care for all, CM7432, published in June 2008, included a commitment to ensure that clinically and cost effective innovation in medical technologies is adopted. This will involve simplifying the pathway by which they pass from development into wider use, and developing ways to benchmark and monitor uptake. Work is under way in collaboration with the medical technology industry to deliver this objective.

NHS: Standards

Mrs. Spelman: To ask the Secretary of State for Health if he will undertake a review of the effectiveness of the overview and scrutiny functions of local government in relation to the NHS in light of the findings of the Healthcare Commission's report on Mid Staffordshire NHS Foundation Trust. [268935]

Mr. Bradshaw: There is already in place an existing departmental led review looking at how improvements in health scrutiny may be secured. The review commenced in November 2008 and early feedback from a range of national health service, local government and other stakeholders is currently being reviewed and assessed.

Nurses: Training

Mr. Lansley: To ask the Secretary of State for Health what the basic NHS bursary rate for *(a)* degree nurse students and *(b)* diploma nurse students in real terms has been in each year since 1997. [269302]

Ann Keen: The rates for the basic NHS bursary, at 2008 prices, are set out in the following tables.

At 2008 prices, based on CPI[1] (£)

	Diploma rates	
	Living in London	Living elsewhere
2008 (new students)[2]	7,629.00	6,531.00
2008 (existing students)[2]	7,374.00	6,275.00
2007 (new students)[2]	7,663.80	6,561.03
2007 (existing student)[2]	7,407.41	6,303.61

	At 2008 prices, based on CPI[1] (£) Diploma rates Living in London	Living elsewhere
2006	7,437.84	6,330.10
2005	7,402.49	6,299.51
2004	7,362.57	6,265.66
2003	7,271.62	6,188.95
2002	7,205.70	6,133.09
2001	7,133.65	6,072.53
2000	6,538.23	5,565.32
1999	6,414.08	5,456.86
1998	6,354.31	5,406.01
1997	6,294.72	5,355.93

[1] *Source:* Office for National Statistics. Consumer price index (CPI) taken in April of each year.

[2] In 2007 certain allowances were removed from the scheme to make it compliant with age discrimination legislation. Existing students remained on the previous rules and new rates introduced for new entrants.

		At 2008 prices, based on CPI[1] (£) Degree rates	
	London	Elsewhere	Parental home
2008 (new students)[2]	3,306.00	2,739.00	2,287.00
2008 (existing students)[2]	3,050.00	2,483.00	2,031.00
2007 (new students)[2]	3,320.67	2,751.27	2,297.18
2007 (existing students)[2]	3,064.28	2,493.85	2,068.60
2006	3,076.70	2,504.32	2,076.88
2005	3,061.80	2,491.96	2,038.68
2004	3,045.37	2,478.76	2,027.68
2003	3,007.68	2,447.98	2,002.90
2002	2,980.73	2,425.23	1,984.90
2001	2,950.99	2,401.54	1,965.42
2000	2,704.48	2,200.65	1,801.05
1999	2,655.06	2,160.15	1,764.22
1998	2,630.88	2,140.18	1,749.98

[1] *Source:* Office for National Statistics. Consumer price index (CPI) taken in April of each year.

[2] In 2007 certain allowances were removed from the scheme to make it compliant with age discrimination legislation. Existing students remained on the previous rules and new rates introduced for new entrants.

Occupational Therapy: Manpower

Mr. Greg Knight: To ask the Secretary of State for Health how many occupational therapists qualified in each year since 2000; and what estimate he has made of the number of trained therapists required to fill vacancies in occupational therapy services in each of the next three years. [269767]

Ann Keen: It is not possible to identify centrally how many occupational therapists qualified in each year.

No assessment has been made centrally as to the number of occupational therapists required as local national health service organisations are best placed to assess the healthcare needs of their local populations.

Effective workforce planning is about delivering the best possible patient care by ensuring high quality staff with the right skills are in the right place at the right time.

Our approach to reforming the workforce planning, education and training system mirrors the approach for the NHS itself—a belief that quality is best served by devolving decision making as closely as possible to the frontline in an environment of coherence, transparency and clear accountabilities. Planning must be based on a clear clinical vision built around patient pathways.

Mr. Greg Knight: To ask the Secretary of State for Health how many occupational therapists the NHS employs; and how many of them completed their training *(a)* in the UK and *(b)* abroad. [269768]

Ann Keen: As at 30 September 2008, there were 17,345 qualified occupational therapy staff employed in the national health service.

It is not possible to identify centrally whether these staff completed their training in the United Kingdom or abroad.

Pharmacy

Mr. Lansley: To ask the Secretary of State for Health how many prescriptions were issued by *(a)* nurse independent prescribers, *(b)* community practitioner nurse prescribers and *(c)* doctors in each of the last 12 months for which figures are available. [269304]

Ann Keen: The number of prescription items prescribed by nurse independent prescribers, community practitioner nurse prescribers and doctors in England and dispensed in the community in the United Kingdom is shown in the following table.

	Prescription items prescribed by:		Thousand
	Nurse independent prescribers[1]	Community practitioner nurse prescribers[2]	Doctors
October 2007	656.9	207.6	72,284.5
November 2007	666.0	201.0	68,891.7
December 2007	621.7	171.9	65,506.4
January 2008	714.2	200.6	67,427.9
February 2008	682.4	185.5	63,938.7
March 2008	670.9	176.0	63,551.5
April 2008	764.4	197.4	67,796.6
May 2008	744.1	184.1	67,905.0
June 2008	761.8	181.5	66,401.0
July 2008	797.1	197.9	70,760.7
August 2008	702.2	178.5	64,796.4
September 2008	752.6	181.4	67,830.9

[1] Nurses based in practices and primary care trusts who are qualified to prescribe as nurse independent prescribers or nurse supplementary prescribers.

[2] Nurses based in practices and primary care trusts who are qualified to prescribe from the nurse prescribers' formulary for community practitioners.

Radiotherapy: Waiting Lists

Norman Lamb: To ask the Secretary of State for Health what the average waiting time for radiotherapy treatment was in the latest period for which figures are available; what targets his Department has set for such waiting times; and if he will make a statement. [269671]

Ann Keen: Average waiting times for cancer patients and average waiting times for specific cancer treatment types are not collected centrally. The cancer waiting time standard of a maximum wait of 31 days, from diagnosis to first cancer treatment for all cancers was introduced from 2005. Performance against this standard in the last period for which data are available (Quarter three 2008-09) was 99.5 per cent.

Scarborough Hospital: Negligence

Mr. Greg Knight: To ask the Secretary of State for Health how many successful claims for compensation for medical negligence at Scarborough Hospital were made in *(a)* 2008 and *(b)* 2009; how much compensation was paid in each year; and how many claims remain unresolved. [269351]

Ann Keen: The information is not available in the format requested. However, the following table shows the number of closed clinical negligence claims settled 2007-08 and 2008-09 for the Scarborough and North East Yorkshire NHS Trust.

Settlement year	*Status*	*Number of claims*	*Damages paid*	*Defence costs paid*	*Claimant costs paid*
2007-08	Closed—nil damages	6	0	22,197	0
	Settled—damages paid	17	563,055	97,001	303,473
	Total	23	563,055	119,198	303,473
2008-09	Closed—nil damages	9	0		
	Settled—damages paid	4	346,268	9,231	0
	Total	13	346,268	60,500	220,513
				69,731	220,513
Total		36	909,323	188,929	523,986

Notes:

The above dates show when settlement was reached, they not representative of when the incidents occurred or when settlement was received by the claimant.

The following table shows the number of open clinical negligence claims relating to the Scarborough and North East Yorkshire Healthcare NHS Trust as at 31 March 2009.

Status	*Number of claims*	*Damages reserve*	*Defence costs reserve*	*Claimant costs reserve*
Open	35	4,778,000	790,100	1,732,393

Source:

NHS Litigation Authority

Social Services: Recruitment

Mr. Stephen O'Brien: To ask the Secretary of State for Health how much had been spent on his Department's social care recruitment advertising campaign at the latest date for which figures are available. [269653]

Phil Hope: The advertising spend for the latest social care worker recruitment campaign, which ran from 23 February to 5 April 2009, was £2.1 million.

Strokes

Sir Nicholas Winterton: To ask the Secretary of State for Health what guidance his Department issues to acute care units on the emergency classifications of stroke; and if he will make a statement. [268911]

Ann Keen: Guidance to the national health service on stroke care is contained in the national stroke strategy. In addition, stroke is a priority area for the NHS and there is a Tier 1 Vital Sign covering the time stroke patients spend in a stroke unit and the percentage of higher risk transient ischaemic attack patients who are treated within 24 hours.

This Vital Sign is a new data collection. Following the first two quarters of data and at the request of the NHS, the vital signs guidance was revised to help improve data accuracy. This included aligning the International Classification of Diseases codes with the Sentinel Audit and clearer definitions. This revised Guidance was made available to the NHS on 27 March 2009 and a copy has been placed in the Library.

Sir Nicholas Winterton: To ask the Secretary of State for Health how many specialised stroke units there are in England; and what his plans are for the future numbers of such units. [268912]

Ann Keen: The latest National Sentinel Stroke Audit conducted by the Royal College of Physicians, identifies 186 stroke units in England. The planning of appropriate stroke services is a matter for decision locally.

Sir Nicholas Winterton: To ask the Secretary of State for Health how many stroke patients have been treated in specialised units in each of the last three years for which figures are available. [268913]

Ann Keen: This information is not collected centrally.

Sir Nicholas Winterton: To ask the Secretary of State for Health what steps his Department is taking to increase patient access to *(a)* diagnostic scans and *(b)* thrombolysis for those whose stroke was caused by a blood clot; and if he will make a statement. [268914]

Ann Keen: Stroke is included as a priority for the national health service in the operating framework. The stroke strategy recommends that everyone who can benefit from urgent stroke care should be transferred to an acute stroke centre that provides 24-hour access to scans and specialist stroke care. All hospitals now provide computed axial tomography scanning and most provide magnetic resonance imaging and carotid doppler too. The Department published an imaging guide in 2008, to help ensure that imaging services develop in line with the quality markers in the national stroke strategy. A copy has been placed in the Library. The guide has been welcomed by the profession. The latest National Sentinel Audit of stroke from the Royal College of Physicians shows that the number of stroke units providing thrombolysis is increasing. However, provision of these services out of hours remains a challenge. Local stroke networks have been established to assist in reviewing and organising the delivery of improved stroke services. This includes ensuring access to scanning and the provision of thrombolysis where appropriate.

Sir Nicholas Winterton: To ask the Secretary of State for Health what steps his Department is taking to ensure that patients with suspected stroke or transient ischaemic attack receive *(a)* rapid assessment, *(b)* access to imaging and *(c)* necessary treatment. [268915]

Ann Keen: Stroke is included as a priority for the national health service in the operating framework.

Those with a suspected stroke or transient ischaemic attack (TIA or minor stroke) should immediately be referred for appropriate, urgent, specialist assessment and investigation including access to imaging and necessary treatment. The stroke strategy recommends that local referral protocols should be agreed between primary and secondary care to facilitate the timely assessment of people who have had a suspected TIA. The Department published an imaging guide in 2008, to help ensure that imaging services develop in line with the quality markers in the national stroke strategy. The guide has been welcomed by the profession. A copy has already been placed in the Library.

The strategy also recommends that people with suspected acute stroke should be transferred immediately by ambulance to a receiving hospital that provides hyper-acute stroke services including expert clinical assessment, timely imaging and intravenous thrombolysis over 24-hours. Local stroke networks have been established to assist in the reviewing and organising of the delivery of improved stroke services across the pathway.

This includes assessment, imaging and appropriate follow up treatment.

Sir Nicholas Winterton: To ask the Secretary of State for Health what assessment he has made of patients' ability to obtain stroke services in rural areas; and what steps he is taking to increase access to stroke services for patients in rural areas. [268916]

Ann Keen: Ensuring that people have access to appropriate stroke services is a matter for the national health service locally. In rural areas, this could include the development of tele-radiology and tele-medicine. We have set up the Stroke Improvement programme and local stroke care networks to support the NHS to deliver world class stroke services.

Thrombosis: Screening

John Smith: To ask the Secretary of State for Health with reference to the answer to the hon. Member for Wyre Forest of 4 November 2008, *Official Report*, column 363W, on venous thromboembolism, what his most recent estimate is of the proportion of hospitals complying with the venous thromboembolism risk assessment policy. [269048]

Ann Keen: Currently, at the request of the chief medical officer, Dr. Anita Thomas OBE and her team are visiting throughout the national health service to discuss with senior managers and doctors their strategies for implementing venous thromboembolism (VTE) risk assessment in their hospitals. In monitoring compliance with the Department's VTE risk assessment policy we will take into account the findings from this programme of visits and any information available from other sources, such as the All Party Parliamentary Thrombosis Group.

Transplant Surgery

Andrew Rosindell: To ask the Secretary of State for Health what recent assessment his Department has made of the implications for medical practice of pig-to-primate organ transplant experiments. [269495]

Ann Keen: The Government believe that it is right to explore the potential of xenotransplantation in a cautious stepwise fashion. It could be a potential solution to the ongoing shortage of human organs and tissues for transplantation, but also raises concerns for the safety of the individual and the wider public for the efficacy of the procedures and for the welfare of the animals involved. No xenotransplant procedure involving humans will be allowed to take place unless there is sufficient evidence to justify the particular procedure proposed.

Tuberculosis

Mr. Robathan: To ask the Secretary of State for Health how many cases of tuberculosis have been identified in *(a)* agricultural workers and *(b)* other persons involved in agriculture in the last 12 months. [268983]

Dawn Primarolo: Data on occupation of people with tuberculosis are not routinely collected by the Health Protection Agency Enhanced Tuberculosis Surveillance system, and it is not possible to identify how many people with tuberculosis in the last 12 months were involved in agricultural employment.

HOME DEPARTMENT

Asylum: Kenya

Andrew Rosindell: To ask the Secretary of State for the Home Department how many Kenyan citizens have been granted asylum in the UK in the last 12 months. [269484]

Mr. Woolas: Information on the number of Kenyan citizens who were recognised as a refugee and granted asylum in the United Kingdom in 2008 is published in table B of the supplementary web tables published with the Control of Immigration: Quarterly Statistical Summary—Fourth Quarter 2008. This table shows applications received for asylum in the UK (excluding dependants) and initial decisions broken down by country of nationality.

2008 figures are provisional and may be subject to change. Information on asylum is published annually and quarterly. Statistics for Q1 2009 will be available in May 2009 from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Council for the Registration of Forensic Practitioners

Chris Huhne: To ask the Secretary of State for the Home Department (1) what steps she has taken to ensure an effective transition between the Council for the Registration of Forensic Practitioners and its successor; and if she will make a statement; [269701]

(2) how long she estimates it will take to establish a new regulatory body to oversee forensic practitioners; and if she will make a statement; [269703]

(3) whether she has identified the organisation which is to replace the Council for the Registration of Forensic Practitioners as the body to regulate and register forensic scientists; and if she will make a statement. [269704]

Jacqui Smith: The Independent Forensic Science Regulator was appointed in February 2008 and given responsibility for regulating forensic science quality standards. Since then he has published his Manual of Regulation, his Review of the Options for the Accreditation of Forensic Practitioners, and Quality standards for the Providers of Forensic Sciences to the Criminal Justice System. The regulator proposes to move to a more robust model of standards regulation that moves the focus from just forensic practitioners to include standards for organisations, practitioners and the science methods used. The forensic science laboratories are already accredited to testing international standards, accreditation that now includes assessment by the United Kingdom Accreditation Service (UKAS) of practitioner competence.

Policy decisions regarding forensic science rest with the Home Office and policy decisions regarding the public funding for CRFP are the responsibility of the National Policing Improvement Agency. However, such decisions were agreed with Home Office Ministers. The Home Office Minister wrote to the Secretary of State for Justice and the Lord Chief Justice with advance copies of the regulator's report on the Options for the Accreditation of Forensic Practitioners.

Cybercrime

James Brokenshire: To ask the Secretary of State for the Home Department how many prosecutions have been brought following investigations by the e-crime unit in the Serious Organised Crime Agency since its establishment. [269674]

Mr. Alan Campbell: From April 2006 until March 2008, as stated in response to House of Commons question answered on 11 March 2008, *Official Report*, column 357W, the Serious Organised Crime Agency's e-crime unit was involved in 15 convictions. SOCA's annual report detailing its performance for 2008-09 will be published in May 2009.

The child exploitation and online protection centre (CEOP) was involved over the same period in the investigation of offences of alleged child abuse where technology may have been a factor.

James Brokenshire: To ask the Secretary of State for the Home Department what funds her Department has allocated to tackle internet crime in each year since 2001. [269675]

Mr. Alan Campbell: The Home Office allocated funding of more than £30 million for e-crime from 2001-06 inclusive. Part of these funds were used to establish the National Hi-Tech Crime Unit (NHTCU) in the then National Crime Squad, as well as transitional funding for computer forensic officers in forces.

The Government have allocated £3.5 million to the Police Central e-crime Unit (PCeU) over three years from 2008-09 with the Metropolitan Police Service contributing £3.9 million over the same three year period.

The SOCA E-crime Unit is funded from the SOCA budget and the unit has had a budget of £9.8 million over three years.

The Child Exploitation and Online Protection Centre (CEOP) established in 2006 is funded from the SOCA budget and in 2006-07 CEOP received £5.1 million, £5.726 million for 2007-08 and £6.27 million for 2008-09.

Firearms: Crime

Chris Grayling: To ask the Secretary of State for the Home Department how many firearms offences (including those involving air weapons) were recorded in each police force in England and Wales in each year since 1998-99. [269228]

Jacqui Smith: Available data relate to offences recorded in the period 1998-99 up to and including 2007-08, and are shown in the table. Firearms are taken to be involved in a crime if they are fired, used as a blunt instrument against a person, or used as a threat.

The National Crime Recording Standard was introduced on 1 April 2002. Data for the years up to and including 2001-02 are not directly comparable with those for later years.

Crimes recorded by the police in which firearms (including air weapons) were reported to have been used[1] by police force area: England and Wales, 1998-99 to 2007-08

[1] Firearms are taken to be involved in a crime if they are fired, used as a blunt instrument against a person or used as a threat.

[2] There was a change in the counting rules for recorded crime on 1 April 1998.

[3] Figures for some crime categories may have been inflated by some police forces implementing the principles of the National Crime Recording Standard before 1 April 2002.

[4] The National Crime Recording Standard was introduced on 1 April 2002 which may have resulted in inflated figures for some crime categories Figures before and after this are not directly comparable.

Source:

E and W data totals previously published in table 2.03 of "Homicides, Firearm Offences and Intimate Violence 2007/08" (HOSB 02/09)

G20: Greater London

Mr. Sarwar: To ask the Secretary of State for the Home Department what her latest estimate is of the policing and security costs incurred in respect of the G20 summit. [269476]

Mr. Coaker: As of 7 April 2009, the total estimated policing and security costs incurred by the Metropolitan Police Service in respect of the G20 summit amounted to £7.2 million.

Chris Grayling: To ask the Secretary of State for the Home Department how many police officers from forces other than the Metropolitan police were deployed to police the G20 summit. [269689]

Jacqui Smith *[holding answer 20 April 2009]*: The policing of the G20 Summit was a joint operation between the Metropolitan Police Service (MPS), the City of London Police and the British Transport Police. The MPS inform me that additionally 329 police officers from other forces assisted in the policing of the G20 Summit. In addition firearms recovery dogs and their handlers were brought in for a total of 12 officer days.

Heroin: Afghanistan

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what estimate she has made of the percentage of heroin sold in the UK which originated in Afghanistan in the most recent period for which figures are available. [268819]

Mr. Woolas: We estimate that more than 90 per cent. of the heroin which reaches the UK originates in Afghanistan.

Identity and Passport Service: Consultants

Damian Green: To ask the Secretary of State for the Home Department how much the *(a)* Identity and Passport Service and *(b)* National Identity Scheme spent on external consultants in 2008. [267452]

Mr. Woolas: Since the merger of the Home Office Identity Cards programme and the UK Passport Service to create the Identity and Passport Service on 1 April 2006, projects to deliver passports including facial images and fingerprints, identity cards and other improvements have been necessarily combined. As much of the technology and operational processes needed to implement identity cards is also required for the implementation of these new passports, this is the most cost-effective way to deliver these initiatives.

Much of the work conducted by the Identity and Passport Service cannot be categorised, both financially and operationally, as contributing towards either the introduction of passports facial images and fingerprints or identity cards alone. The work is accounted for as future development projects and the cost of external consultancy only attributed to these projects for the 2008 calendar year was £31,923,000.

The spend for IPS as a whole for external consultants in the 2008 calendar year was £34,958,000.

Immigration: Zimbabwe

Andrew Rosindell: To ask the Secretary of State for the Home Department how many Zimbabwean citizens were granted *(a)* asylum and *(b)* right to remain in the UK in 2008. [269486]

Mr. Woolas: Information on the number of Zimbabwean citizens that were granted *(a)* asylum and *(b)* right to remain in the United Kingdom in 2008 can be found in table B of the supplementary tables published with the Control of Immigration: Quarterly Statistical Summary—Fourth Quarter 2008. This table shows applications received for asylum in the UK (excluding dependants) and initial decisions broken down by country of nationality.

2008 figures are provisional and may be subject to change. These publications are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Immobilisation of Vehicles

Mr. Greg Knight: To ask the Secretary of State for the Home Department pursuant to the answer of 18 March 2009, *Official Report*, column 386W, on the immobilisation of vehicles, when she plans to publish the results of the feasibility study undertaken by the Security Industry Authority on options for the compulsory licensing of vehicle immobilisation companies who work on private land. [269522]

Mr. Alan Campbell: The Home Secretary announced on 3 April her intention to launch a formal consultation in late April on the options for how best to regulate the wheel-clamping industry. The Government's preferred option will be to introduce compulsory licensing by the Security Industry Authority of wheel-clamping companies.

The consultation document includes the results of the feasibility study. It will be published at the end of April, and copies will be placed in the House Libraries.

Mr. Greg Knight: To ask the Secretary of State for the Home Department pursuant to the answer of 18 March 2009, *Official Report*, column 385W, on immobilisation of vehicles, what proposals she is considering in relation to *(a)* signage and *(b)* fines. [269766]

Mr. Woolas: We will launch a formal consultation in late April considering how best to regulate the wheel-clamping industry. The Government's preferred option would introduce compulsory licensing for all wheel-clamping companies, to ensure they uphold standards of conduct, which will be enforced if they are not met.

The details of the scheme will be decided after the public consultation, but are likely to include maximum penalties that can be charged and standards on signage, including size and visibility.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she expects to reply to the letter dated 22 January 2009 from the right hon. Member for Manchester, Gorton on Abdoul Karim Barry. [263654]

Jacqui Smith: I wrote to my right hon. Friend on 25 March 2009.

National DNA Database

Paul Holmes: To ask the Secretary of State for the Home Department (1) how many DNA profiles of subjects aged *(a)* under 10, *(b)* 11 to 18 and *(c)* over 18 years were added to the national DNA database in 2008; and how many in each category have been added in 2009 to date; [265992]

(2) how many children under the age of 10 years had details on the national DNA database on *(a)* 1 December 2008 and *(b)* 1 March 2009; [266637]

(3) how many children under the age of 10 years have had their details added to the national DNA database since December 2008. [266438]

Mr. Alan Campbell: The figures given in Table 1 show the number of profiles added to the national DNA database (NDNAD) by police forces in England and Wales in 2008, broken down by age. The figures given in Table 2 show the number of profiles added to the NDNAD by police forces in England and Wales in 2009 (at 23 March), broken down by age. The age groups represent the age of an individual on the date when their profile was loaded on to the NDNAD. The figures show the number of profiles added to the NDNAD; some of these have since been deleted.

Information on the number of DNA profiles of children under 10 held on the NDNAD on 1 December 2008 and 1 March 2009 is not available and cannot be obtained retrospectively. However, information is available for other dates in December 2008 and March 2009. On 16 December 2008, there were 62 profiles held on the NDNAD by England and Wales forces of children who were aged under 10.

There were also a further 29 profiles of children who were aged under 10 when their profile was loaded on to the NDNAD but who were aged 10 or over on 16 December 2008. On 2 March 2009 there were five profiles held on the NDNAD of children who were aged under 10; and one profile of a child who was aged under 10 when his/her profile was loaded on to the NDNAD but who was aged 10 or over on 2 March.

Table 2 shows that four profiles from children aged under 10 have been loaded to the NDNAD since December 2008. The four samples may have been taken by forces and sent to a forensic laboratory for profiling before 16 December 2008, and then loaded on to the NDNAD by the laboratory at the end of the automated profiling process. These four profiles have since been deleted and at 5 March 2009 all profiles of children who were under 10 when their profile was loaded (regardless of current age) held by England and Wales forces had been deleted from the NDNAD.

Table 1: Profiles added to the NDNAD by England and Wales forces in 2008, broken down by age

	Number
Under 10	65
10-18	126,972
Over 18	387,486
Unknown age on load	58
Total	514,581

Table 2: Profiles added to the NDNAD by England and Wales forces in 2009[1], broken down by age

	Number
Under 10	4
10-18	25,610
Over 18	91,222
Unknown age on load	65
Total	116,901

[1] At 23 March 2009

Offences against Children

Dr. Kumar: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females in each age group were charged with having sex with a minor in (i) the UK, (ii) the North East, (iii) Tees Valley district and (iv) Middlesbrough South and East Cleveland constituency in each of the last 12 years; and what proportion of those charged were convicted. [264408]

Mr. Alan Campbell: The number of persons proceeded against at magistrates courts and found guilty at all courts of sexual offences against children under the age of 18 years in England and Wales, the north-east region, and Cleveland police force area, by gender, and age group, for the years 1996 to 2007 can be viewed in the following tables 1 to 3.

Data provided are for those statutes where the age of the victim is specified.

Charging data are not held by the Ministry of Justice, hence proceeded against data have been provided in lieu.

The Sexual Offences Act 2003 significantly modernised and strengthened the laws on sexual offences in England and Wales to provide extra protection to children from sexual exploitation. Data for the period 2004 onwards cannot therefore be directly compared to earlier years. Many new offences created by the Act will not have a direct equivalent under the old legislation.

Information for Scotland is a matter for the Scottish Executive and that for Northern Ireland for the Northern Ireland Office.

Data held by the Ministry of Justice cannot be further broken down to constituency level (i.e. Tees Valley district, and Middlesbrough South and East Cleveland); hence Cleveland police force area data have been provided in lieu.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in the autumn of 2009.

Table 1: The number of persons proceeded against at magistrates courts and found guilty at all courts of sexual offences against children under the age of 18 years in England and Wales, by gender, and age group 1996 to 2007[1,2,3,4]

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Data included in the table are from sections within the 2003 Sexual Offences Act which identify the victim as a minor.

[4] The Sexual Offences Act 2003 came into force on 1 May 2004, and supersedes previous Acts.

[5] Proportion of those proceeded against who were found guilty.

[6] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

Note:

The found guilty column may exceed those proceeded against, as it may be the case that the proceedings in the magistrates court took place in the proceeding year and they were found guilty at the Crown court in the following year, or the defendants were found guilty for a different offence to the original offence proceeded against.

Parking Offences: Security Guards

Mr. Dunne: To ask the Secretary of State for the Home Department how much has been paid in parking fines by security vehicles carrying cash and valuables in each local authority area in each year since 1997-98. [266254]

Mr. Alan Campbell: The information requested is not collected by central Government.

Passports: Security

Mr. Todd: To ask the Secretary of State for the Home Department what international obligations apply to the implementation by her Department of measures to ensure the security of passports. [269314]

Mr. Woolas: Travel document standards, including those relating to the minimum security features of such documents are set by the International Civil Aviation Organisation (ICAO) in their Document 9303. The United Kingdom passport complies fully with the ICAO standards, both in relation to the travel document specifications and the security features. In relation to the latter, the UK passport surpasses the minimum standard required.

The EU Council Regulation (EC 2252/2004) on standards for security features and biometrics in EU citizens' passports requires Schengen states to issue passports that comply with a minimum level of security features, including biometric identifiers. The UK is excluded from this regulation (as it is a Schengen building measure). Nevertheless the UK complies with the measure in relation to security features and the inclusion of the facial image biometric, and intends to comply with the requirement to include fingerprints in passports.

The UK also complies with the EU Council Common Position on the exchange of certain data with Interpol in relation to reporting lost and stolen passports.

Police

Chris Grayling: To ask the Secretary of State for the Home Department (1) how many of the recommendations of the Flanagan review have been implemented; [254819]

(2) what progress has been made in implementing each of the recommendations of the Flanagan report; [255043]

(3) pursuant to the written ministerial statement of 23 February 2009, *Official Report*, column 7WS, on policing: publication of reports by Sir David Normington and Jan Berry, which of the 19 recommendations made by Sir Ronnie Flanagan have been implemented. [262396]

Jacqui Smith: There has been significant progress in implementing the recommendations from Sir Ronnie Flanagan's Independent Review of Policing in England and Wales. The 59 recommendations made by Sir Ronnie Flanagan (covering both his interim and final reports) required fundamental change to the police service's management and culture. Nevertheless a substantial number of the recommendations have already been implemented and we are working in close partnership with National Policing Improvement Agency (NPIA) and Jan Berry, the new independent Reducing Bureaucracy Advocate to implement all of the recommendations by early 2010.

Police: Bureaucracy

Chris Grayling: To ask the Secretary of State for the Home Department with reference to the answer of 10 December 2007, *Official Report*, column 91W, on police: bureaucracy, how much time *(a)* police officers and *(b)* patrol officers spent on (i) incident-related paperwork, (ii) non-incident-related paperwork, (iii) all paperwork and (iv) patrol in 2007-08. [262365]

Jacqui Smith *[holding answer 10 March 2009]*: Following the review by Sir Ronnie Flanagan, the Government have cut the amount of unnecessary bureaucracy to allow the police to focus on local priorities, including:

- Scrapping the foot-long stop and account form;
- Extending a pilot that reduces crime recording by 80 per cent. for 80 per cent. of crimes; and
- Removing all but one national top-down target, to improve public confidence.

In order to reduce the bureaucracy on officers still further the Government have also abolished the need for police officers to complete the annual police activity analysis form, which asked them to account for their activity for each 15-minute working period of their shifts over a two week period—a step which alone frees up the equivalent of 150 extra officers and staff. Therefore the figures requested will not be produced in the future, as to request them would take police officers away from the front line. The information requested is in the following table.

Table A: All officers 2007-08

Percentage

Year[1]	*Time spent on incident-related paperwork*	*Time spent on non incident-related paperwork*	*Total time spent on paperwork*	*Time spent on patrol*[2]
2007-08[3]	12.4	9.3	21.7	13.8

Table B: Patrol officers 2007-08

Percentage

Year[2]	*Time spent on incident-related paperwork*	*Time spent on non incident-related paperwork*	*Total time spent on paperwork*	*Time spent on patrol*
2007-08[3]	10.7	9.2	19.9	17.8

[1] The information is taken from activity analysis, which is collected by all forces over a two-week period in each year and provides a snapshot of how officers are deployed.
[2] Includes officers on foot/car/beat patrol, CID and traffic officers.
[3] Excluding Staffordshire.

It should be noted that the front-line policing measure offers the fullest picture of police officer activity. It measures time spent by police on core policing duties such as patrol, responding to 999 calls as well as activities of CID and specialist officers. In 2007-08 the front-line policing measure was 64.9 per cent. for police officers and 64.4 per cent. for patrol officers.

This data are normally used for management information only and are not subject to the detailed checks that apply for National Statistics publications. The data are provisional and may be subject to change.

Police: Cameras

Chris Grayling: To ask the Secretary of State for the Home Department how much funding her Department provided for the use of police head-cameras in *(a)* 2007-08 and *(b)* 2008-09. [269234]

Jacqui Smith: Over the financial year 2007-08, the Home Office provided £3 million to police forces for the purchase and use of head-cameras.

Police: Standards

Chris Grayling: To ask the Secretary of State for the Home Department with reference to page 29 of the Policing Green Paper "Policing Our Communities Together", which police forces had met the standards in the Policing Pledge prior to the introduction of the Pledge. [269225]

Jacqui Smith: The Policing Pledge builds on best practice and sets new, consistent standards for the police service for visibility, accessibility, responsiveness and providing information to the public. While many forces previously had their own standards these were not consistent and they have not previously been commonly made public.

Following implementation of the Pledge nationally, the public now know the minimum standard of service they can expect to receive from the police everywhere in England and Wales and have a greater say over the issues that they would like the police to prioritise in their local areas.

The Home Office does not keep central records on delivery of the standards in the Policing Pledge. HMIC will validate the delivery of the Pledge through their inspection process and police authorities will also wish to be satisfied that the Pledge is being delivered for local people.

Sexual Assault Referral Centres

Chris Huhne: To ask the Secretary of State for the Home Department how many sexual assault referral centres were operating in each police force area in each of the last five years; how many were in *(a)* rural and *(b)* urban areas; and how many employed a forensic nurse. [26092[illegible]]

Jacqui Smith: The information requested is contained in the following table.

	SARC	*Police force area*	*Open since*	*Forensic nurse (Y/N)*	*Rural*[1] *(Y/N)*
1	St. Mary's Centre Manchester	Greater Manchester	1986	Y	N

28	The Bridge Bristol	Avon and Somerset	2008	N	N

---

[1] The defining of rural police force areas within England and Wales has been taken in accordance with the ACORN ('A Classification of Residential Neighbourhoods') guidance as published in the Statistical Bulletin 01/02 'Rural Crime England and Wales'. The data covers 13 forces which ACORN defines as either 'most rural' (Dyfed-Powys, Lincolnshire, North Yorkshire and North Wales) or 'Less Rural' (Cambridgeshire, Cumbria, Devon and Cornwall, Durham, Gloucestershire, Norfolk, Suffolk, West Mercia and Wiltshire).

Sexual Assault Referral Centres: Finance

Mrs. May: To ask the Secretary of State for the Home Department what funding the Government have provided to sexual assault referral centres in each year since their introduction. [262710]

Mr. Alan Campbell: Although sexual assault referral centres (SARCs) are primarily resourced at a local level in order to ensure sustainability, the Government have supported the establishment and development of the SARC network through a series of grants since 2003-04.

Based on the best available information, the approximated total of grants awarded to sexual assault referral centres since 2003-04 is set out in the following table.

	Total (£000)
2003-04	300
2004-05	310
2005-06	709
2006-07	620
2007-08	805
2008-09	663

Source:
Home Office SARC funding.

Terrorism: Crime Prevention

Patrick Mercer: To ask the Secretary of State for the Home Department pursuant to the answer of 24 February 2009, *Official Report*, column 695W, on terrorism, (1) what proportion of the £2.5 billion counter-terrorism and intelligence budget is accounted for by the counter-terrorism strategy; [262108]

(2) what estimate she has made of the counter-terrorism and intelligence budget in *(a)* 2009-10 and *(b)* 2010-11, broken down by the proportion to be spent on the counter-terrorism strategy in each year. [262109]

Mr. Coaker: The single security and intelligence budget, which includes Government spending on counter-terrorism and intelligence, was announced as part of the 2007 Comprehensive Spending Review. It is forecast to rise from £2.5 billion in 2008-09 to £3.5 billion in 2010-11. This budget is wider than just expenditure on the Government's counter-terrorism strategy, CONTEST. Breaking down this budget by specific counter-terrorism and intelligence activities, beyond what is published already, would reveal our capabilities and details of the security and intelligence agencies spending. It has been the policy of successive governments not to reveal these details.

Terrorism: Statistics

Chris Grayling: To ask the Secretary of State for the Home Department when the Statistical Bulletin on Terrorism Arrests and Outcomes, 11 September 2001 to 31 March 2008 will be published; and what the reasons are for the time taken. [269227]

Jacqui Smith: The Statistical Bulletin on Terrorism Arrests and Outcomes will be published when ongoing checks to ensure data quality ahead of publication are complete.

Vetting

Mr. Ruffley: To ask the Secretary of State for the Home Department *(a)* how many and *(b)* what percentage of record checks processed by the Criminal Records Bureau were completed (i) within (A) 10, (B) 14, (C) 25, (D) 60 and (ii) in over 60 days in each police force area in 2008-09. [269700]

Mr. Coaker: The Criminal Records Bureau (CRB) operates to a set of published service standards (PSS) which are to issue 90 per cent. of standard disclosures within 10 days and 90 per cent. of enhanced disclosures within 28 days.

The targets mentioned above are not CRB targets for completion of a disclosure but part of an internal service level agreement (SLA) in place between the CRB and the Association of Chief Police Officers (ACPO). This SLA has been agreed by ACPO on behalf of the 43 local police forces in England and Wales and the time taken by each force to complete their part of the enhanced disclosure process is measured against these targets. By meeting these targets the police forces directly affect the CRB's ability to meet the PSS for enhanced disclosures.

The following table illustrates the number of checks completed by each police force in 10 days, 14 days, 25 days, 60 days and over 60 days during 2008-09.

	Checks completed in 10 days or fewer		*Checks completed in 11-14 days*		*Checks completed in 15-25 days*		*Checks completed in 26-60 days*		*Checks completed in 61 or more days*		*Total checks completed*

Wildlife: Crime

Mr. Roger Williams: To ask the Secretary of State for the Home Department how many wild reptiles have been seized as illegal imports at UK airports and ports in the last 12 months. [241474]

Mr. Woolas: The following table provides data sourced from HM Revenue and Customs (HMRC) central records, regarding seizures of live reptiles between 1 April 2007 and 31 March 2008.

These reptiles were seized using customs enforcement powers, in relation to live animals listed as endangered species under Council Regulation (EC) No 338/97, on the protection of species of wild fauna and flora.

The numbers quoted are the most recent published figures available for a complete financial year. Figures for seizures since 1 April 2008 remain provisional and will be subject to end of year quality assurance checks before they are released into the public domain by HMRC in their next annual report.

The total number of seizures of endangered species and related products made by Customs officers in 2007-08, can be found at annex F of HMRC's published departmental report 2008.

Live reptiles

	Number
Seizures	21
Items seized	347

INNOVATION, UNIVERSITIES AND SKILLS

Beer: Measurement

Mr. David Hamilton: To ask the Secretary of State for Innovation, Universities and Skills what recent steps his Department has taken to ensure that full measures of beer are served in pubs. [267749]

Mr. Lammy: Weights and Measures law already applies to beer and it is an offence to serve short measure.

We have considered whether there is a need to strengthen the law in this area to allow for the specific characteristics of beer and have carried out three public consultations on this issue. However, there was no consensus among stakeholders on whether action was necessary or if so what action should be taken.

Currently the law provides that a pint of beer can include a frothy head. Given that industry guidelines provide that consumers can ask for and receive a top up, we are satisfied that drinkers are sufficiently protected. Therefore, on balance, given the scale of the issue and the costs involved, we believe there is no need for further regulation at present.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department in each year since its creation; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269612]

Mr. Simon: Currently the Department supports

(a) 13 HP2015 printers

(b) 25 Lexmark X854 multi-function devices and 18 Lexmark X945 multi-function devices.

These are provided on a per floor basis in our hot-desking environment, so it is not possible to allocate these devices to individuals divisions or business groups. All of these devices support two-sided printing.

Additionally, we support some small printers for occasional home use. These only support single sided printing. There is no central record of the number of these printers in use.

DIUS was created in June 2007. Our records do not show how many printers and multi-function devices were in use each year since that date.

Students: Loans

Grant Shapps: To ask the Secretary of State for Innovation, Universities and Skills (1) how many graduates were paying back a proportion of their student loans in each of the last five years; [269117]

(2) how much the Student Loans Company received in interest on student loans in each of the last five years; [269118]

(3) what the total amount of outstanding student loans was *(a)* in each of the last five years and *(b)* on the latest date for which figures are available; [269122]

(4) how much the Student Loans Company received in student loan repayments in each of the last five years; [269123]

(5) how many student loan debts were outstanding *(a)* in each of the last five years and *(b)* on the latest date for which figures are available; [269125]

(6) how many student loans were repaid in full in each of the last three years. [269127]

Mr. Lammy *[holding answer 20 April 2009]:* The Statistical First Release Student Loans for Higher Education in England, Financial Year 2007-08 (Provisional) includes figures of mortgage-style loan borrowers paying back loans and up to date or ahead with repayments, interest added to all loans and all loans repaid in full. This document is published by the Student Loans Company and available on the SLC website at:

www.slc.co.uk/pdf/slcsfr022008.pdf

Income-contingent borrowers repaying a proportion of their student loan by financial year[1]

England	*2005-06*	*2006-07*	*2007-08 (provisional)*
Above earnings threshold[2]	194,300	253,200	374,700
Below earnings threshold at year end but have made repayments via the tax system during the last year[3]	59,500	111,400	152,100
Total	253,800	364,600	526,800

[1] Borrowers are shown by their known status at the end of the financial year. The SLC are notified of borrowers repayments by HMRC, usually within one year of the end of the tax year they relate to. Therefore in addition to those borrowers shown in the table there may have been other borrowers making repayments that SLC had not yet been informed of at the time the data was captured. Consistent data are not available for earlier years.

[2] Borrowers for whom the latest tax year return indicates they are above the earnings threshold for repayment.

[3] Those whose earnings fluctuated during the year and who have therefore made repayments in some months but have earnings below the threshold at the end of the financial year.

Source:

Student Loans Company.

The value of outstanding loans is shown in the following table:

Student loans balance outstanding at end of financial year

£ million

England[1]	*Income-contingent*	*Mortgage-style*	*Total*
2003-04	9,270.0	1,606.6	10,876.6
2004-05	11,623.5	1,410.0	13,033.4
2005-06	14,101.4	1,226.7	15,328.1
2006-07	17,045.7	1,079.8	18,125.5
2007-08 (provisional)	20,981.9	971.3	21,953.2

[1] English domiciled students studying in the UK and EU students studying in England.

Source:

Student Loans Company.

The value of outstanding income-contingent loans has increased year-on-year because these loans were first introduced in 1998, and tuition fee loans became available for the first time from 2006-07.

The Student Loans Company received the following repayments:

Student loans repayments by financial year

£ million

England[1]	*Income-contingent*	*Mortgage-style*	*Total*
2003-04[2]	—	—	348.0
2004-05[2]	—	—	417.3
2005-06	268.4	213.2	481.6
2006-07	359.2	170.7	529.8
2007-08 (provisional)	494.2	139.3	633.5

[1] English domiciled students studying in the UK and EU students studying in England.

[2] Split of income-contingent and mortgage-style loan repayments not available for 2003-04 and 2004-05.

Source:

Student Loans Company.

The number of student loan debts outstanding are shown in the following table:

Number of student loan borrowers at the end of each financial year[1]

England[2]	*Income-contingent*	*Mortgage-style*	*All loans*[3]
2004-05	1,581,100	526,500	2,081,200
2005-06	1,831,300	459,600	2,263,800
2006-07	2,089,600	394,700	2,458,000
2007-08 (provisional)	2,359,800	341,300	2,676,100

[1] Includes those who are not yet required to make repayments. Consistent data are not available for earlier years.

[2] English domiciled students studying in the UK and EU students studying in England.

[3] Some borrowers have both types of loan, therefore the All loans column is not a sum of the preceding columns.

Source:

Student Loans Company.

Figures on mortgage-style loans throughout the answer exclude the portfolios of loans sold to the private sector in 1998 and 1999.

Vocational Training: Accidents

Kelvin Hopkins: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* fatalities and *(b)* serious injuries there have been on Government-funded training programmes in each year since the inception of the Learning and Skills Council (LSC); what the nature of each incident was; what the age of each individual involved was; whether any recommendations for the conduct of such programmes that arose from inquiries into each incident were made; and whether any compensation payments were made by (i) the LSC and (ii) training providers consequent on each incident. [269779]

Mr. Simon: The Learning and Skills Council works with providers and employers to ensure that the health and safety of learners, including apprentices over the age of 19, is of paramount importance. The information requested is not held by the Department. I have asked Geoff Russell, the LSC's acting chief executive, to write to my hon. Friend with the information he has requested. A copy of his reply will be placed in the House Libraries.

INTERNATIONAL DEVELOPMENT

Departmental Computers

Mr. Hoban: To ask the Secretary of State for International Development how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since 2005; and at what cost. [268277]

Mr. Michael Foster: Since 2005 the Department for International Development has provided the following laptop computers.

Number of Laptops provided

	Ministers	*Special Advisers*	*Civil Servants*	*Cost (£)*
2005	—	—	1,272	636,000
2006	—	—	524	288,200
2007	—	—	259	155,400
2008	—	—	1,366	625,204
2009	—	2	239	110,279

The figures in 2008 and 2009 reflect a programme to replace previously issued laptops.

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for International Development how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005. [268245]

Mr. Michael Foster: The Department for International Development (DFID) purchases its mobile telephones and BlackBerrys from a number of suppliers. No central record is held within DFID of the costs of purchase and usage, and this could not be obtained without disproportionate cost.

Mr. Hoban: To ask the Secretary of State for International Development how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [268288]

Mr. Michael Foster: The Department for International Development (DFID) purchases its mobile telephones and BlackBerrys from a number of suppliers. No central record is held within DFID of the number of BlackBerrys and phones that have been provided, and this could not be obtained without disproportionate cost.

Departmental Public Expenditure

Mr. Moore: To ask the Secretary of State for International Development what funding his Department provided to the *(a)* Home Office and *(b)* Foreign and Commonwealth Office migration funds in each financial year since 2001. [268868]

Mr. Ivan Lewis: The Department for International Development (DFID) transferred £1 million to the Home Office Migration Fund in each of the financial years 2006-07 and 2007-08.

DFID transferred £5 million to the Foreign and Commonwealth Office (FCO) in the last financial year (2008-09) as our contribution to the Returns and Reintegration Fund (a pooled fund comprising DFID, FCO, United Kingdom Borders Agency (UKBA) and Ministry of Justice (MOJ) financial resources and expertise, administered by the FCO).

Departmental Training

Grant Shapps: To ask the Secretary of State for International Development how many *(a)* staff and *(b)* ministerial away days have been organised by his Department in each of the last five years; and what the cost of such events was in each year. [266213]

Mr. Ivan Lewis: I refer the hon. Member to the answer given on 15 January 2009, *Official Report*, column 911W, to the hon. Member for Sutton Coldfield (Mr. Mitchell).

Mr. Hurd: To ask the Secretary of State for International Development what his Department's policy is on holding departmental away days at locations other than departmental premises. [268534]

Mr. Ivan Lewis: Individual departments and overseas offices within DFID plan and manage away days, training events and team building exercises in accordance with their specific needs; and in the context of business planning, professional development and performance improvement. These events are permitted to take place outside DFID premises, but the venues should be located close to a DFID office. The costs of holding such events must be proportionate to the benefits derived, offer value for money and not interfere with the normal conduct of DFID's business.

Iran: Drugs

Tim Loughton: To ask the Secretary of State for International Development what assistance is being provided under his Department's auspices to the Iranian anti-drug enforcement agencies. [267897]

Mr. Michael Foster: The Department for International Development (DFID) is not providing funding to Iranian anti-drug enforcement agencies.

Overseas Aid

Mr. Jim Cunningham: To ask the Secretary of State for International Development (1) what humanitarian assistance the Government have provided to the population of the Democratic Republic of Congo in the last 12 months; [268952]

(2) what humanitarian assistance the Government have provided to the population of Sierra Leone in the last 12 months; [268953]

(3) what humanitarian assistance the Government has provided to the population of Sri Lanka in the last 12 months; [268954]

(4) what humanitarian assistance the Government have provided to the population of Afghanistan in the last 12 months. [268955]

Mr. Michael Foster: Details on the Department for International Development's (DFID) bilateral expenditure are contained in the publication 'Statistics on International Development'. This is available in the Library of the House and online at:

www.dfid.gov.uk

The relevant figures are produced in the following table.

DFID Bilateral humanitarian assistance expenditure 2007-08

Country	*£000*
Congo (Dem Rep)	46,156
Sierra Leone	—
Afghanistan	8,304
Sri Lanka	1,819

Details on DFID's expenditure in 2008-09 are not yet available but will be published in the 2009 annual report in July.

St. Helena: Airports

Ann Winterton: To ask the Secretary of State for International Development whether his Department has incurred expenditure on legal advice in preparation for a possible judicial review of the decision to pause negotiations on a proposed St. Helena airport. [268424]

Mr. Michael Foster: The Department for International Development (DFID) has incurred expenditure for legal advice on a range of matters related to the possible St. Helena airport as part of its consideration on how to proceed.

JUSTICE

Antisocial Behaviour: Fixed Penalties

Chris Grayling: To ask the Secretary of State for Justice how many penalty notices for disorder were issued *(a)* in a police station and *(b)* on the street in 2007. [269261]

Mr. Straw: Information available to the Ministry of Justice on the number of persons aged 16 and over issued with a penalty notice for disorder (PND) in *(a)* a police station and *(b)* on the street, in England and Wales, 2007 can be viewed in the following table.

2008 data will be available in the autumn of 2009.

PNDs were introduced under the Criminal Justice and Police Act 2001, to provide the police with a simple financial punishment to deal with minor disorder offences either at a police station or on the street. Operational guidance to forces issued by the Secretary of State for Justice sets out the criteria which should be considered by officers in deciding where to issue a PND.

Number of persons aged 16 and over issued with a Penalty Notice for Disorder in a police station and on the street in England and Wales, 2007[1]

England and Wales	*Number*
Police station	115,939
Street	91,605

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
OCJR E&A (Office for Criminal Justice Reform, Evidence and Analysis Unit), Ministry of Justice

Council for the Registration of Forensic Practitioners

Mr. Grieve: To ask the Secretary of State for Justice what recent discussions he and officials of his Department have had with representatives of *(a)* the Home Office and *(b)* the Lord Chief Justice on the closure of the Council for the Registration of Forensic Practitioners; and if he will make a statement. [268593]

Mr. Alan Campbell: I have been asked to reply.

The independent forensic science regulator was appointed in February 2008 and given responsibility for regulating forensic science quality standards. Since then he has published his Manual of Regulation, his Review of the Options for the Accreditation of Forensic Practitioners, and Quality standards for the Providers of Forensic Sciences to the Criminal Justice System. The regulator proposes to move to a more robust model of standards regulation that moves the focus from just forensic practitioners to include standards for organisations, practitioners and the science methods used. The forensic science laboratories are already accredited to testing international standards, accreditation that now includes assessment by the United Kingdom Accreditation Service (UKAS) of practitioner competence.

Policy decisions regarding forensic science rest with the Home Office and policy decisions regarding the public funding for CRFP are the responsibility of the National Policing Improvement Agency. However, such decisions were agreed with Home Office Ministers. The Home Office Minister wrote to the Secretary of State for Justice and the Lord Chief Justice with advance copies of the regulator's report on the Options for the Accreditation of Forensic Practitioners.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Justice what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of [illegible]evice in each division of his Department and i[illegible] in each of the last five years; and if he [illegible]ke a statement. [269552]

Maria Eagle: The Ministry of Justice is committed to reducing its carbon emissions in accordance with the campaign initiated by the Department for Environment, Food and Rural Activities. In order to support this commitment MOJ has employed third party expertise to conduct a Green ICT Scorecard exercise. This analysis of the sustainability of IT operations in MOJ has helped to identify where current 'carbon hotspots' are and where MOJ should focus its efforts for improvement.

The overall energy consumption of IT devices used by MOJ is difficult to evaluate as much of MOJ's estate is within buildings shared with other organisations like police and local councils. Within locations which house solely MOJ operations, IT devices are not metered separately from the other electrical equipment so the electricity consumption associated specifically with IT devices has not been determined.

As data centres are solely for housing and running IT equipment it can reasonably be considered that all power supplied to a data centre is for IT devices be it directly or indirectly. Because MOJ's IT is outsourced, all of its major data centres our outside of the MOJ estate and shared with other clients. As such the power consumption of these sites is not a direct cost to MOJ nor is it reported to MOJ. Nevertheless, MOJ has been working closely with its suppliers to include data centres in the Green I[illegible]T Scorecard work and it has already led to increased data centre energy efficiency without negatively affecting the volume or efficiency of data processing.

Jenny Willott: To ask the Secretary of State for Justice what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269559]

Maria Eagle: The Ministry of Justice is committed to reducing its carbon emissions in accordance with the campaign initiated by the Department for Environment, Food and Rural Activities and the Greening Government ICT Strategy. The MOJ recognises that making Green IT work is not just about technology but also about embedding sustainability in our process and behaviour as well.

MOJ has worked to meet the 'Areas for ICT Carbon Reduction' in the Greening Government ICT Strategy improving the sustainability of its printing, the energy efficiency of its desktop PCs and data centres.

MOJ has built sustainable IT principles into its IT policy and consideration of sustainability forms part of process of evaluation of changes to the IT estate. MOJ is working with its suppliers to improve the energy efficiency of IT operations both in its outsourced data centres and at its own sites and has employed third party expertise to analyse the sustainability of IT operations managed by a sample of MOJ's key suppliers and advise on how best to realise improvements.

This work has already led to increased data centre energy efficiency, and work on the centralisation of data processing will further reduce data centre energy consumption without negatively affecting the volume or efficiency of data processing carried out. The convergence of formerly separate networks offers better sharing of IT resources for staff and the reduction of the overall number of devices we need to deliver the same level of service.

MOJ has also used initiatives to realise the positive impact that ICT can have on the overall carbon emissions of its operations. It continues to invest in video-conferencing and teleconferencing technology to reduce emissions. The imminent uplift of desktop PCs will offer not just improved power management to reduce energy consumption but also roaming profiles allowing any users to log to any machine helping support MOJ estates' goal of 80 per cent. desking and a reduction in the overall size of the MOJ HQ estate.

MOJ is also working on staff awareness of green IT issues. Campaigns have been run encouraging the shut down of electrical items outside of office hours, the reduction of printing and paper-consumption and the better use of video-conferencing and teleconferencing to reduce travel.

Jenny Willott: To ask the Secretary of State for Justice what estimate has been made of the proportion of personal computers in each of his Department's offices that are turned off *(a)* overnight, *(b)* at weekends and *(c)* during holiday periods; and if he will make a statement. [269621]

Maria Eagle: The Ministry of Justice is committed to reducing its carbon emissions in accordance with the campaign initiated by the Department for Environment, Food and Rural Activities. Most of the Department's IT equipment is switched off overnight, as a matter of routine. The capability for automated shut down is being added into PCs as a rolling programme of replacement takes place.

There are some PCs that have had to be left on in order to safeguard overnight data processing on some systems. In conjunction with our IT suppliers we are currently piloting a technical solution to remove this need. If successful it will be rolled out to all relevant areas of the Department.

Within National Offender Management Service, including Her Majesty's Prison Service, computers that are logged off but left switched on will automatically shut down out of office hours.

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Wins standard in the latest year for which figures are available; and if he will make a statement. [269623]

Maria Eagle: The Ministry of Justice is committed to reducing its carbon emissions in accordance with the campaign initiated by the Department for Environment, Food and Rural Activities.

The Ministry of Justice out sources its IT function and the selection and purchase of IT equipment is conducted by its suppliers. MOJ's IT contracts include contractual criteria in line with the version of the OGC Buy Sustainable-Quick Wins which were available at the time. Consequentially, IT devices will comply with the Buy Sustainable-Quick Wins criteria for the contract they are purchased under.

As the Buy Sustainable-Quick Wins standards have become more comprehensive than those in the current contractual commitment, precise numbers and proportions of procured IT devices that comply with the updated standard have not been recorded.

The Buy Sustainable-Quick Wins standards are referenced as part of MOJ's Sustainable Procurement Policy and therefore are part of the criteria that MOJ will include in its contract negotiations for ICT equipment and services. MOJ is in discussion with its suppliers regarding a commitment to use the current the Buy Sustainable-Quick Wins standards as the minimum for future purchases.

Firearms: Sentencing

Chris Grayling: To ask the Secretary of State for Justice how many people have received the minimum jail sentence of five years for possession of a firearm in each year since 2004. [269259]

Mr. Straw: The available information is shown in the following table.

Figures for 2008 will be available later this year.

Persons sentenced for firearms offences liable for five years minimum custodial sentence as prescribed by the Criminal Justice Act 2003[1], 2004-07

	Number
2004[2]	81
2005	142
2006	136
2007	141

[1] Offences under Firearms Act 1968 of possessing or distributing prohibited weapons or ammunition, or possessing or distributing firearms disguised as other object

[2] The mandatory is only applicable for offences that occurred on or after 26-01-2004

Many of the persons dealt with in 2004 will have committed their offences prior to the mandatory being introduced. Five years is the Mandatory minimum for persons aged over 18 at time of offence and for offences taking place after 26-01-2004

Notes:

1. The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

2. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Source:

OMS Analytical Services, Ministry of Justice

Homophobia: Incitement

Mr. Gerald Howarth: To ask the Secretary of State for Justice what representations he has received in favour of repeal of the so-called Waddington amendment in respect of incitement to homophobic hatred; and from which organisations he has received such representations. [268849]

Maria Eagle: As of 8 April, the Department has received a total of 89 representations expressing a view on the freedom of speech section. Of these, seven were in favour of repeal. They were from individuals rather than organisations. In its recent report, the Joint Committee on Human Rights repeated its view that the offence, without the so-called Waddington amendment, provides adequate safeguards for freedom of speech. Other organisations have issued separate public statements in favour of repeal, including Stonewall, Unison, and The British Humanist Association.

Land Registry: Standards

Mr. Grieve: To ask the Secretary of State for Justice what percentage of all registrations received by HM Land Registry in each of the last three years were processed within two working days. [268820]

Mr. Straw: The information requested is currently being collated and I will write to the hon. Member as soon as it is available. I will also place a copy of my letter in the Library of the House.

Legal Aid: Housing

Grant Shapps: To ask the Secretary of State for Justice pursuant to the answer of 11 March 2009, *Official Report*, column 453W, on legal aid: housing, when the information sought will be collated. [268573]

Mr. Malik: I wrote to the hon. Member on 20 April with the information sought and I will place a copy of the letter in the Library of the House.

Magistrates Courts

Mr. Grieve: To ask the Secretary of State for Justice how many cases were ~~heard in~~ magistrates courts in each year since 1997. [268866]

Mr. Straw: The number of defendants proceeded against at magistrates courts, heard at magistrates courts and committed for trial at crown court, for all offences in England and Wales, 1997 to 2007 can be viewed in the following table.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in the autumn of 2009.

Number of defendants proceeded against at magistrates courts, heard at magistrates courts and committed for trial at the Crown court, for all offences in England and Wales, 1997 to 2007[1, 2, 3]

		Of which	
	Proceeded against at magistrates courts	*Heard at magistrates courts*	*Committed for trial at crown court*
1997	1,855,335	1,767,656	87,679
1998	1,951,915	1,878,537	73,378
1999	1,881,765	1,809,475	72,290
2000	1,904,677	1,834,437	70,240
2001	1,837,733	1,758,564	79,169
2002	1,924,828	1,842,003	82,825
2003	2,000,822	1,919,227	81,595
2004	2,022,604	1,944,195	78,409
2005	1,895,002	1,814,128	80,874
2006	1,779,307	1,699,839	79,468
2007	1,732,506	1,648,071	84,435

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete.
However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces.
As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] All cases are initially proceeded against (i.e. prosecuted) at magistrates courts, where the majority are then heard. Other more serious cases are committed for trial at the crown court.

[4] Includes proceeding discontinued, discharged, withdrawn, dismissed, and found guilty at the magistrates courts.

Source:
OCJR-E and A: Office for Criminal Justice Reform—Evidence and Analysis' Unit, Ministry of Justice—Our ref: PQ 268866 (Table)

Prison Accommodation

Mr. Grieve: To ask the Secretary of State for Justice how many offenders held in a cell designed for one inmate shared it with one other in each of the last five years. [268826]

Mr. Straw: The table shows the average number of prisoners reported as being doubled in cells certified to hold one person and the percentage of prisoners in "crowded" accommodation for the last five years and provisional data for April 2008 to February 2009.

Since 1997 prison capacity has been increased by 24,000 places. In addition the Government announced an additional 20,000 places as part of the Capacity Programme, of which 4,600 has already been provided. The aim is to increase capacity to 96,000 by 2014.

Prisons can hold a number of prisoners beyond their Certified Normal Accommodation (CNA), subject to a maximum, which is known as the operational capacity. Operational capacity is defined as the total number of prisoners that an establishment can hold without serious risk to good order, security and the proper running of planned regimes. "Crowding" will be within the limit of operational capacity.

Financial year	*Average number of prisoners doubling up in cells designed for one*	*Percentage of prisoners in crowded accommodation*
2003-04	16,344	24.8
2004-05	16,864	24.3
2005-06	16,887	24.0
2006-07	18,196	24.6
2007-08	19,054	25.3
2008-09 (April to February)	19,180	24.8

Prisoners' Discharge Grants

Mr. Grieve: To ask the Secretary of State for Justice how much was spent on discharge grant in each of the last five years. [268823]

Mr. Straw: The amount of expenditure recorded as discharge grant in each year for the last five years is given as follows.

	£000
2007-08	4,007
2006-07	3,900
2005-06	3,737
2004-05	4,154
2003-04	4,270

In 2007-08 End of Custody Licence was introduced and some expenditure on subsistence payments made to prisoners on discharge has been included in the recorded expenditure for discharge grants. It would incur disproportionate costs to separate this amount as we would need to survey all prison establishments.

The purpose of the Discharge Grant is to enable the prisoner to meet their immediate subsistence needs in the first week after release. Whether they are going straight into employment or applying for benefits, they will receive payment in arrears. Without a discharge grant, therefore, there would be an increased risk that prisoners would re-offend in order to meet their immediate financial needs.

Sentenced prisoners are eligible on release for a Discharge Grant of £46 unless certain exclusions apply. These exclusions include, for example: those serving a sentence of 14 days or less; those awaiting deportation or removal from the United Kingdom; those who are known to have in excess of £8,000 in savings (and would therefore be ineligible for income support under the relevant regulations).

Prisoners on Remand: Sentencing

Mr. Grieve: To ask the Secretary of State for Justice how many offenders held on remand were not given a custodial sentence in each of the last five years. [268825]

Mr. Straw: The available information taken from the publication Criminal Statistics, England and Wales for the years 2003-07 inc. (latest available) is shown in the following table.

The estimated numbers[1] of persons remanded in custody and the number of offenders who subsequently received a non-custodial sentence at magistrates' courts or the Crown court[2], England and Wales, 2003-07

Thousands of persons

	2003	2004	2005	2006	2007
Number of persons remanded in custody[3]	100.9	86.7	79.2	74.0	71.5
Of which					
Number of offenders who received a non-custodial sentence[4]	[illegible]	25.9	23.5	21.5	21.3

[1] Includes estimates for those offences omitted from data supplied.
[2] Crown court cases are not necessarily concluded in the same year as the committal therefore the figures presented may include cases where defendants were remanded in custody during earlier years than under which they are presented in this table.
[3] Includes those remanded for part of the time in custody and part on bail.
[4] Final outcome includes: discharged, fine community sentences, fully suspended sentences, supervision orders, community punishment orders, attendance centre orders, community punishment and rehabilitation orders, curfew orders, reparation orders, action plan orders and other disposals which do not involve any element of custodial treatment.
Notes:
1. The figures presented in this table exclude those defendants who failed to surrender to bail.
2 Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
3. For Magistrates' courts cases, the number of remands and more importantly, the number which are in custody, are believed to be under-recorded in total. The extent of under-recording is not known, as only limited checks are available with independently collected data. However, it is clear that the breakdown of remands into bail and custody cases is not accurate for a number of forces. The accuracy of data about Crown court remand decisions has improved as a result of data being returned directly from the Crown court computer system.

OCJR Court proceedings database

Prisoners Release

Jenny Willott: To ask the Secretary of State for Justice how many early releases under the End of Custody Licence release scheme there have been from each prison in each month since the scheme came into effect, broken down by original offence; and if he will make a statement. [269764]

Mr. Straw: Information on the number of prisoners released under the End of Custody Licence (ECL) scheme each month by (a) prison establishment, and separately (b) offence group have been placed in the House Library. To produce a table that showed a combined breakdown of the number of ECL releases each month by offence group in each prison establishment would incur disproportionate cost.

The figures presented in the answer are published monthly and available on the Ministry of Justice website at:

http://www.justice.gov.uk/publications/endofcustodylicence.htm

These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Solitary Confinement

Mr. Gordon Prentice: To ask the Secretary of State for Justice how many prisoners have been held in solitary confinement for over one year; and if he will make a statement. [268610]

Mr. Hanson: Prisoners are never subject to solitary confinement. They are placed in segregation where they are provided with a regime which allows access to education, exercise, and where appropriate association. Information about the numbers of prisoners segregated for more than a year is not held centrally and could only be obtained at disproportionate cost.

The segregation of prisoners is subject to specified safeguards. These include an assessment by medical staff of whether any mental health, other healthcare or self harm issues might advise against segregation. A prisoner at risk of self harm will be segregated only in exceptional circumstances and if possible, will be located in a safer cell. Prisoners in segregation are visited each day by medical staff and regularly by members of the Independent Monitoring Board. Continued segregation for three months or more is subject to regular assessment and monitoring by the Governor and area manager. The aim is always to return the prisoner to normal location as soon as possible.

Prisoners: Zimbabwe

Andrew Rosindell: To ask the Secretary of State for Justice how many Zimbabwean nationals are being held in prison. [269492]

Mr. Hanson: At the end of December 2008, there were 208 Zimbabwean prisoners held in prison establishments in England and Wales. This includes those being held on remand and those serving sentences. This information can be found in the following Ministry of Justice website at:

http://www.justice.gov.uk/publications/populationincustody.htm

where the information on foreign national prisoners is updated quarterly.

These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisons

Mr. Garnier: To ask the Secretary of State for Justice when he plans to publish his response to the consultation on Titan prisons. [268771]

Mr. Hanson: The consultation on the new prisons, formerly known as 'Titans', closed at the end of August 2008.

We are grateful to all those who have contributed to the consultation process and we will publish our response shortly.

Prisons: Mobile Phones

Mr. Garnier: To ask the Secretary of State for Justice which prisons host mobile telephone masts. [illegible]

Mr. Hanson: Telephone/radio masts are sited on prison property at Acklington, Deerbolt, Doncaster (privately operated), Grendon/Springhill, Nottingham, Ranby, Stocken, Wellingborough and Woodhill. Masts at Acklington, Grendon/Springhill and Woodhill are used by the emergency services, mainly the police.

Probation

Mr. Grieve: To ask the Secretary of State for Justice how many probation areas provide unpaid work assignments for offenders in the evening. [illegible]

Mr. Straw: Community Payback (unpaid work) operates seven days a week with weekend projects in all probation areas. Evening Community Payback schemes are not always practical or cost effective given the types of work involved. However, 15 probation areas report that indoor Community Payback work placements are operated in the evenings.

Offenders sentenced to Community Payback forfeit their free time to do tough demanding work which benefits the community. In this way they make reparation to the community for their crimes.

Last year (2007-08) 55,771 people successfully completed Community Payback sentences. This amounts to over 6 million hours of free labour, which was used to benefit the community.

Projects have included removing graffiti, bringing derelict areas and buildings back into public use, clearing church yards, country streams and unused allotments, repairing park benches and playground equipment. A lot of work is undertaken on environmental projects and also with schools, community centres, with faith groups and local authorities. It would not be practical or cost effective to undertake many of these tasks during the evening.

Probation Service: Manpower

Sir Alan Beith: To ask the Secretary of State for Justice how many people in each cohort are in training to enter the probation service; and how many posts in the service he estimates will be available for newly qualified people from each cohort. [illegible]

Mr. Straw: There are two cohorts of trainee probation officers currently in training. Cohort 10 numbers 513 and Cohort 11 numbers 305. The majority of cohort 10 will qualify in September this year. It is too early to predict the numbers who will be offered employment.

Probation training is currently subject to a major review, so that in future trainees will be offered jobs at the start of the training, not at the end.

Reoffenders

Mr. Burstow: To ask the Secretary of State for Justice what the local *(a)* adult and *(b)* juvenile reoffending rate was in each (i) London borough and (ii) upper tier local authority in the latest year for which information is available; and if he will make a statement. [264643]

Mr. Hanson: The published national statistics on adult and juvenile reoffending are not broken down by area.

Published data on local adult reoffending in all upper tier local authorities in England and Wales (including all London boroughs) are available at:

http://www.justice.gov.uk/docs/local-adult-reoffending-oct07-sept08.pdf

These data include all offenders on the probation caseload and cover reoffending over the period 1 October 2007 to 30 September 2008.

Reoffending of juveniles at the local level is measured on a different basis to adults at the local level. The areas used are not coterminous with local authorities.

Sentencing: Foreigners

Chris Grayling: To ask the Secretary of State for Justice how many foreign nationals (1) were *(a)* convicted of and *(b)* sentenced to immediate custody for (i) drug dealing and (ii) firearms offences in 2007; [269255]

(2) are serving custodial sentences for *(a)* drug dealing and *(b)* firearms offences. [269256]

Mr. Hanson: The information requested is not available as court proceedings held by the Ministry of Justice do not record offender's nationality.

It is not possible to separately identify the number serving sentences for drug dealing and firearms offences as the data held centrally is not accurately recorded to this level of detail.

Theft: Convictions

Mr. Grieve: To ask the Secretary of State for Justice how many convictions for *(a)* shoplifting, *(b)* robbery of business property and *(c)* theft by an employee there were in the quarter between July and September in (i) 2003, (ii) 2004, (iii) 2005, (iv) 2006, (v) 2007 and (vi) 2008. [268822]

Mr. Straw: The number of defendants found guilty at all courts for burglary in a building other than a dwelling, robbery, stealing by an employee and stealing from shops and stalls (shoplifting) in the quarter July to September in England and Wales for the years 2003 to 2007 is shown in the table.

Court proceedings data cannot separately identify cases of robbery which relate to robbery of business property and those which relate to other types of property. This level of detail is not held by the Ministry of Justice.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in the autumn of 2009.

Number of defendants found guilty at all courts for offences relating to stealing from shops and stalls (shoplifting), robbery, burglary in a building other than a dwelling and stealing by an employee in the quarter July to September in England and Wales for the years 2003-07[1] [2] [3]

		Found guilty				
		Quarter 3 (July to September)				
Statute	*Offence description*	*2003*	*2004*	*2005*	*2006*	*2007*
Theft Act 1968 Sec 1.	Stealing from shops and stalls(shoplifting)	17,703	16,344	15,432	13,848	15,258
Theft Act 1968 Sec 8.	Robbery	1,858	1,865	1,710	2,070	2,136
Theft Act 1968 Sec 9.	Burglary in a building other than a dwelling with intent to commit or the commission of an offence triable only on indictment	19	29	22	24	37
Theft Act 1968 Sec 9	Other burglary in a building other than a dwelling	2,846	2,546	2,595	2,721	2,702
Theft Act 1968 Sec 1.	Stealing by an employee	643	699	689	630	641
Total		3,069	21,483	20,448	19,293	20,774

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] From data under the Theft Act Section 8 it is not possible to separately identify those robbery offences that were committed against a business.
Source:
Evidence and Analysis Unit—Office for Criminal Justice Reform, Ministry of Justice

Vandalism: Convictions

Mr. Burns: To ask the Secretary of State for Justice how many *(a)* prosecutions and *(b)* convictions there have been for offences relating to acts of vandalism in (i) West Chelmsford constituency, (ii) Essex and (iii) England in each year since 2000. [269097]

Maria Eagle: The number of persons proceeded against at magistrates courts and found guilty at all courts for offences of criminal damage, including acts of vandalism, in the Essex police force area and England from 2000-07 (latest available) is shown in the following table.

Court proceedings data held by the Ministry of Justice do not enable offences involving vandalism to be separately identified from other acts of "criminal damage."

Data are given in the table for Essex police force area. It is not possible to further break down data to constituency level (i.e. West Chelmsford) as this level of detail is not held centrally.

Data for 2008 will be available in the autumn of 2009.

Number of defendants proceeded against at magistrates courts and found guilty at all courts of criminal damage[1], in Essex and England, 2000-07[2] [3]

	Proceeded against	*Found guilty*
2000[4]		
Essex	1,484	938
England	53080	35,322
2001		
Essex	1,530	1,027
England	53,541	34,734
2002		
Essex	1,425	957
England	55,681	36,337
2003		
Essex	1,445	974
England	57,099	37,979
2004		
Essex	1,627	1,136
England	56,347	40,220
2005		
Essex	1,801	1,299
England	53,635	39,933
2006		
Essex	1,671	1,302
England	52,736	40,333
2007		
Essex	1,587	1,311
England	52,790	41,981

[1] The offence of vandalism cannot be separated from other criminal damage offences.
[2] The statistics relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[4] Staffordshire Police Force were only able to submit sample data for persons proceeded against and convicted in the magistrates' courts for the year 2000. These data are included in the figures given for England.
Source:
Office for Criminal Justice Reform - Evidence and Analysis Unit

Vandalism: Wiltshire

Mr. Gray: To ask the Secretary of State for Justice how many *(a)* prosecutions and *(b)* convictions there were for vandalism in (i) North Wiltshire and (ii) Wiltshire in each year since 2000. [269670]

Maria Eagle: The number of persons proceeded against at magistrates courts and found guilty at all courts for offences of criminal damage, including acts of vandalism, in Wiltshire police force area from 2000 to 2007 (latest available) is shown in the table.

Court proceedings data held by the Ministry of Justice do not enable offences involving vandalism to be separately identified from other acts of "criminal damage".

Data are given in the table for Wiltshire police force area. It is not possible to further break down data to constituency level (i.e. North Wiltshire) as this level of detail is not held centrally.

Data for 2008 will be available at the end of November 2009.

Number of defendants proceeded against at magistrates courts and found guilty at all courts of criminal damage[1], in the Wiltshire police force area, 2000-07[2, 3]

	Indictable offences	Summary offences	All offences
2000			
Proceeded against	94	537	631
Found guilty	68	446	514
2001			
Proceeded against	72	505	577
Found guilty	48	409	457
2002			
Proceeded against	100	535	635
Found guilty	50	443	493
2003			
Proceeded against	126	583	709
Found guilty	75	482	557
2004

[1] The offence of vandalism cannot be separated from other criminal damage offences.

[2] The statistics relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Victim Support Schemes

Mr. Jim Cunningham: To ask the Secretary of State for Justice what recent steps his Department has taken to improve support for families of murder victims. [268417]

Maria Eagle: In January 2009 the Government appointed Ms Sara Payne as Victims' Champion to ensure that the views of victims and those bereaved by homicide are heard. The Victims' Champion has been meeting with victims of all crime types to better understand what works well in the system and where there is need for further reform. Ms Payne will feed these views to Ministers throughout the year.

Since October 2007 the CPS has offered bereaved relatives a pre-trial meeting with the CPS prosecutor to answer any questions they may have. They also offer the option of the prosecution advising on and reading out the family impact statement in court, enabling the family to express how the crime has affected them.

The Office of Criminal Justice Reform has recently updated the information pack "information for the bereaved" given by Family Liaison Officers to bereaved family and friends following murder and manslaughter. This pack provides useful information about decisions and arrangements bereaved families and friends may need to make. It also explains how the Criminal Justice System works and the role of the police, the coroner and the courts. It provides contact details of various organisations and support groups to which bereaved families and friends can be signposted. The updated guide is due to be published in May.

The Office for Criminal Justice Reform has been working closely with Support after Murder and Manslaughter (SAMM) to develop the services the charity provides to victims of homicide and improve awareness of victim needs within partner organisations, particularly the police service. SAMM staff and volunteers deliver training to family liaison officers and other statutory agencies who provide direct support to those bereaved through homicide.

SAMM receives a grant of £140,000 a year from the OCJR to deliver services.

Mr. Jim Cunningham: To ask the Secretary of State for Justice what recent steps his Department has taken to improve support for those injured in road traffic accidents where another person or persons has been found criminally liable for their injuries. [268419]

Maria Eagle: Under the Code of Practice for Victims of Crime (2004), victims of road traffic incidents are referred by the police to Victim Support for dedicated one to one support. This includes victims of traffic incidents where someone has been found liable for a criminal offence.

Since 2007 the Government have provided significant additional investment to Victim Support (£12.6 million) to enable the organisation to either deliver services directly to victims or to commission additional, tailored services for victims that it may be unable to provide itself.

In addition each family will be assigned a police family liaison officer who will work with the family throughout the investigation. The FLO—Family Liaison Officer—will assist the family by liaising with any support services they may need.

In all road traffic incidents involving serious injury or death the police will provide a copy of the bereavement guide which is funded by the Government and produced by the charity, Brake. The guide provides useful information that is relevant both to those seriously injured and those who are bereaved.

Since October 2007 the CPS for cases involving homicide and qualifying cases involving road traffic the CPS has offered bereaved relatives a pre-trial meeting with the CPS prosecutor to answer any questions they may have. They also offer the option of the prosecution advising on and reading out the family impact statement in court, enabling the family to express how the crime has affected them.

Young Offenders: Essex

Mr. Burns: To ask the Secretary of State for Justice how many people under the age of 16 years in *(a)* West Chelmsford constituency and *(b)* Essex received a custodial sentence in each of the last 10 years. [269094]

Mr. Hanson: The available information is contained in the following table.

Data held by the Ministry of Justice on court proceedings is available by police force area (PFA) and the table shows the number of persons under the age of 16 years given custodial sentences in Essex PFA including West Chelmsford constituency, in each year from 1997 to 2007. This data is not made available for smaller areas such as constituencies because detailed checks on sentencing records are not carried out at court level.

Figures for 2008 will be available towards the end of 2009.

Number of persons under 16 years of age receiving custodial sentences[1] in Essex police force area, 1997 to 2007

	Immediate custody
1997	98
1998	82
1999	65
2000	86
2001	115
2002	112
2003	105
2004	99
2005	85
2006	106
2007	81

[1] Figures on custodial sentences are in this case equivalent to number of immediate custody given because suspended sentences apply only to persons aged 18 or over.

Notes:

1. The figures are on principal offence basis.
2. These figures have been taken from administrative IT systems which as with any large scale recording system, are subject to possible errors with data entry and processing.

OMS-AS

LEADER OF THE HOUSE

Departmental Training

Grant Shapps: To ask the Leader of the House how much has been spent on media training for each Minister in her Office in each of the last three years; how many sessions have been provided; and which organisations provided such training. [268561]

Chris Bryant: In the Office of the Leader of the House of Commons one Minister has attended a media skills training course during the last three years. This was organised by Sara Jones Associates Ltd. at a cost of £2,937.50.

Members: Allowances

Mr. Gordon Prentice: To ask the Leader of the House if she will make it her policy to provide that a copy of each *(a)* parliamentary report and *(b)* other material funded from the Communications Allowance produced by hon. Members be placed in the Library. [268664]

Chris Bryant: No. Communications expenditure can be used to fund a wide range of material, including websites, direct mail letters and advertisements of Members' advice surgery dates in local papers, which it would be impractical to deposit in the Library and it is not clear that such a move would serve any useful purpose.

Members: ICT

Andrew Miller: To ask the Leader of the House what plans she has to enable hon. Members better to engage with their constituents through the use of interactive digital technology. [269337]

Chris Bryant: I have no such specific plans as it is for hon. Members to decide how best to engage with their constituents and how best to make use of the Communications Allowance.

NORTHERN IRELAND

Departmental Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Northern Ireland how many staff in his Department *(a)* were disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last 12 months. [262228]

Paul Goggins: Since April 2008, 38 staff have been disciplined as a result of poor sickness records and one member of staff had their employment terminated.

SCOTLAND

China

Mr. MacNeil: To ask the Secretary of State for Scotland pursuant to the answer of 27 March 2009, *Official Report*, columns 734-5W, on China, which colleagues he has met in relation to his visit to China; and on what dates. [268929]

Ann McKechin: My right hon. Friend discussed this visit with the Secretary of State for Foreign and Commonwealth Affairs and other ministerial colleagues in the weeks leading up to his visit to China.

Mr. MacNeil: To ask the Secretary of State for Scotland pursuant to the answer of 27 March 2009, *Official Report*, column 735W, on China, on what date he received the invitation from the Scottish Council for Development and Industry; what form it took; and on what date he decided to accept the invitation. [268930]

Ann McKechin: There was correspondence between officials of my Department and SCDI in January followed by a meeting which took place in February where the matter was discussed after which my right hon. Friend confirmed he would lead the SCDI trade delegation.

Departmental Carbon Emissions

Greg Clark: To ask the Secretary of State for Scotland for how long his Department has followed the Carbon Trust's Carbon Management programme. [269288]

Ann McKechin: The Scotland Office, along with some other parts of the Ministry of Justice, have not yet adopted the Carbon Trust Carbon Management programme. The Ministry of Justice has agreed to adopt the programme, or an equivalent, and will be to engaging with the Trust this year with a view to achieving this objective as soon as possible.

Departmental Energy

Greg Clark: To ask the Secretary of State for Scotland what steps have been taken by his Department to improve the thermal efficiency of its buildings in the last 12 months. [266765]

Ann McKechin: A wide range of measures have been undertaken in the last 12 months to improve the thermal efficiency of Scotland Office premises at Dover House, London, and Melville Crescent, Edinburgh. These include:

An energy audit of Dover House, London

Installation of additional roof insulation

Improvements to the draught proofing of windows

Examination of existing thermostatic controls on radiators and installation of new ones

Addition of compensatory controls to the Dover House heating system

Improvement of thermal insulation to pipework

Installation of solar control blinds

Replacement of a boiler with an energy efficient model

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Scotland how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005. [268238]

Ann McKechin: Information is not available in the form requested. Details on the cost of BlackBerrys and mobile phones used by staff, Ministers and special advisers are not recorded separately. The total cost of BlackBerrys and mobile phones, including the cost of equipment, call charges and line rental, are set out in the following table.

£

	2005-06	*2006-07*	*2007-08*
BlackBerrys			
Total cost	0	3,679.12	2,073.78
Mobile phones			
Total cost	5,004.41	3,460.19	3,983.52

Mr. Hoban: To ask the Secretary of State for Scotland how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [268284]

Ann McKechin: Details of the number of BlackBerrys and mobile phones provided to Ministers, special advisers and staff in the Scotland Office are provided in the following table.

	2005-06	*2006-07*	*2007-08*	*2008-09*
Staff mobile phones	19	18	18	16
Staff BlackBerrys	0	3	4	12
Ministerial mobile phones	3	3	2	2
Ministerial BlackBerrys	0	0	0	1
Special adviser mobile phones	1	1	1	1
Special adviser BlackBerrys	0	2	2	2

Departmental Photographs

Mr. MacNeil: To ask the Secretary of State for Scotland pursuant to the answer of 30 March 2009, *Official Report,* column 831W, how much his Department has spent on official portraits of its Ministers since October 2008. [268928]

Ann McKechin: Nothing. The Scotland Office has not commissioned any official portraits of its Ministers since October 2008.

TRANSPORT

Speed Limits: Rural Areas

Sir Alan Beith: To ask the Secretary of State for Transport what organisations he has consulted on proposals to reduce the 60 miles per hour speed limit on rural roads; and if he will make a statement. [268990]

Jim Fitzpatrick: The subject of speeds on rural single carriageways has arisen in developing a new road safety strategy for Great Britain. No decisions have been taken on this. We are consulting on a new strategy, seeking views from the public and a wide range of interest groups.

TREASURY

Banks: Carbon Emissions

Simon Hughes: To ask the Chancellor of the Exchequer if he will direct UK Financial Investments Ltd. to estimate the potential revenue arising from a tax on the carbon dioxide liabilities contained in investments by *(a)* Royal Bank of Scotland, *(b)*

Lloyds TSB/ Halifax Bank of Scotland, *(c)* Northern Rock and *(d)* Bradford and Bingley. [265907]

Ian Pearson: The overarching objective of UK Financial Investments Ltd. (UKFI) is to protect and create value for the taxpayer as shareholder, with due regard to the maintenance of financial stability and promoting competition.

As with all banks, the Royal Bank of Scotland, Lloyds Banking Group, Northern Rock and Bradford and Bingley are bound by statutory duties and tax liabilities.

The estimates requested are not available.

Banks: Finance

Dr. Cable: To ask the Chancellor of the Exchequer what steps his Department has taken to ensure compliance with section 28 of Appendix A to the document on the UK Asset Protection Scheme; and if he will make a statement. [268079]

Ian Pearson: Institutions participating in the Asset Protection Scheme will be required to comply with Asset Management Requirements prescribed by HMT.

More detail on the requirements will be set out in the Accession Agreements with the participating banks, once final contracts have been signed.

Dr. Cable: To ask the Chancellor of the Exchequer how many tax avoidance investigations have been launched as a result of disclosure under the Asset Protection Scheme; and if he will make a statement. [268082]

Ian Pearson: I refer the hon. Member to the statement made by the Chancellor of the Exchequer on 16 March 2009, *Official Report*, column 654.

Dr. Cable: To ask the Chancellor of the Exchequer what recent estimate he has made of the cost of the assignment and transfer of assets into the Asset Protection Scheme by *(a)* Lloyds Banking Group and *(b)* RBS; and if he will make a statement. [268086]

Ian Pearson: The scheme works in such a way that the banks will not need to physically transfer their assets into the scheme, but they will ring-fence these assets, which remain under their ownership.

Dr. Cable: To ask the Chancellor of the Exchequer what the average duration of the assets placed in the Asset Protection Scheme by *(a)* Lloyds Banking Group and *(b)* RBS is; and if he will make a statement. [268089]

Ian Pearson: Further detailed information about the assets in the scheme will be provided after the final contracts are signed.

Dr. Cable: To ask the Chancellor of the Exchequer within what period it was agreed with *(a)* Lloyds Banking Group and *(b)* RBS that they would provide a quarterly statement of all loses and recoveries in respect of the triggered assets; and if he will make a statement. [268090]

Ian Pearson: Further information about the disclosure requirements for banks will be set out at the time final contracts are signed.

Dr. Cable: To ask the Chancellor of the Exchequer whether he has provided *(a)* Lloyds Banking Group and *(b)* RBS with consent to credit hedge in respect of the Residual Amount in the Asset Protection Scheme; and if he will make a statement. [268091]

Ian Pearson: It is expected that banks will need to apply for consent before hedging in respect of the Residual Amount.

Dr. Cable: To ask the Chancellor of the Exchequer if he will publish details of the hedging strategies entered into with *(a)* Lloyds Banking Group and *(b)* RBS to cover non-sterling denominated assets in the Asset Protection Scheme; and if he will make a statement. [268092]

Ian Pearson: Further detailed information about the assets in the scheme will be provided at the time that final contracts are signed.

Banks: Pay

Mr. Dai Davies: To ask the Chancellor of the Exchequer what criteria have been set by each bank in receipt of public money for qualification for senior staff bonuses; whether the Financial Services Authority plays a role in the ratification of such criteria; and whether his Department has provided any guidance to the remuneration committees of such banks on bonus payments. [256985]

Ian Pearson: The Government set strict conditions for executive bonuses at the banks that participated in the recapitalisation scheme in October 2008. The Royal Bank of Scotland and Lloyds Banking Group have also both announced their intention to participate in the asset protection scheme and therefore, in addition to the requirements on remuneration imposed as part of the recapitalisation last October, both banks have committed to implement a policy consistent with the FSA's code of practice on remuneration policies. The FSA is currently consulting on its code and published its consultation paper on 18 March.

UK Financial Investments Ltd. (UKFI), which is wholly owned by the Government and operates on a commercial and arms length basis, oversees the remuneration conditions attached to subscribing to the Government's recapitalisation fund and the Treasury's asset protection scheme. UKFI has worked to ensure that the banks subscribing to these schemes offer incentivisation based on the Government's principles on remuneration, including no rewards for failure, and to protect the interest of the taxpayer as a shareholder.

In line with these principles, the Royal Bank of Scotland (RBS) has announced that there will be no bonuses or pay increases made to staff associated with the major losses suffered in 2008 and that board executive directors will receive no bonus for 2008 performance and no pay increase in 2009. No discretionary cash bonuses will be paid in 2009 for performance in 2008, and only legally binding guaranteed bonuses will be paid. Lloyds Banking Group has committed to restructuring remuneration based on these same principles.

Mr. Meacher: To ask the Chancellor of the Exchequer if he will prohibit the payment of bonuses by banks in receipt of public funds until such monies have been repaid in full. [267120]

Ian Pearson *[holding answer 27 March 2009]:* UK Financial Investments Ltd. (UKFI), which manages the Government's shareholdings in financial institutions on a commercial and arm's-length basis, has been overseeing the remuneration conditions attached to subscribing to the Government's recapitalisation fund and the Treasury's Asset Protection Scheme. UKFI has worked to ensure management incentivisation based on long-term, sustainable performance and no rewards for failure, in order to protect the interest of the taxpayer as a shareholder.

The Royal Bank of Scotland (RBS) has announced that there will be no bonuses or pay increases made to staff associated with the major losses suffered in 2008 and that board executive directors will receive no bonus for 2008 performance and no pay increase in 2009. No discretionary cash bonuses will be paid in 2009 for performance in 2008, and only legally binding guaranteed bonuses will be paid.

Lloyds Banking Group has committed to restructuring remuneration based on these same principles.

Banks: Tax Avoidance

Mr. Meacher: To ask the Chancellor of the Exchequer if he will make it his policy that any bank proposed for receipt of public funds *(a)* should be required to stop using tax havens for tax avoidance purposes and *(b)* should provide a legal statement guaranteeing that it has ceased such practices and has disbanded its departments responsible for establishing such schemes before it receives funds from the public purse. [267121]

Ian Pearson *[holding answer 27 March 2009]:* I refer the hon. Member to the statement made by the Chancellor of the Exchequer on 16 March 2009, *Official Report*, column 654.

Mortgages

Mr. Brady: To ask the Chancellor of the Exchequer (1) what recent assessment he has made of the effect of the levels of activity of specialist lenders in the UK mortgage market on *(a)* the availability of buy-to-let mortgage finance, *(b)* competition in the provision of buy-to-let mortgages and *(c)* the ability of the private rented sector to meet housing need; [265151]

(2) pursuant to the oral Statement of 19 January 2009, *Official Report*, columns 482-86, on financial markets, what plans he has to facilitate an increase in the supply of mortgage finance for investment in the private rented sector through the lending support schemes being developed by his Department. [265198]

Ian Pearson: On 19 January, the Government announced measures designed to reinforce the stability of the financial system, to increase confidence and capacity to lend, and in turn to support the recovery of the economy. These build on measures announced on 8 October last year.

These measures have helped to stabilise the credit market. This is an essential condition for banks to develop greater confidence to lend in the future to creditworthy businesses, home-owners and consumers.

The Government value and support the role of private rented sector in providing flexible accommodation for many households. In 2008 the Government commissioned an independent review of the private rented sector by Julie Rugg and David Rhodes. The Government expect to publish their initial response to their report later in the spring.

The Council of Mortgage Lenders (CML) publishes data on lending, including buy-to-let lending, available at:

http://www.cml.org.uk/cml/statistics

Northern Rock: Nationalisation

Sir Peter Viggers: To ask the Chancellor of the Exchequer what definition of success fee was used by his Department in its discussions with Goldman Sachs on the taking into temporary public ownership of Northern Rock. [267583]

Ian Pearson *[holding answer 30 March 2009]:* The Treasury and Goldman Sachs agreed it would have been inappropriate for a success fee to form part of the final sum paid for the advice given by Goldman Sachs in relation to this matter. No such fee was paid.

Sir Peter Viggers: To ask the Chancellor of the Exchequer what due diligence work was carried out in relation to *(a)* Northern Rock and *(b)* Northern Rock's loan book prior to taking the bank into temporary public ownership. [267584]

Ian Pearson *[holding answer 30 March 2009]:* The decision to take Northern Rock into temporary public ownership was based on a full assessment of the value for money case.

Royal Bank of Scotland: Pensions

Adam Price: To ask the Chancellor of the Exchequer if he will direct UK Financial Investments Ltd. to establish whether the Royal Bank of Scotland pension scheme contains a forfeiture clause under the terms of the Pensions Act 1995. [265502]

Ian Pearson *[holding answer 20 March 2009]:* UK Financial Investments Ltd. (UKFI) manages the Government's shareholdings in financial institutions on a commercial and arm's-length basis.

UKFI has agreed with the banks in which Government have investments that they will assure themselves that all payouts to former directors were no more than legally necessary.

With the agreement of UK Financial Investments Ltd. (UKFI), Sir Philip Hampton, the new chairman of RBS, has appointed a senior independent QC to carry out a full legal investigation of the issues relating to Sir Fred Goodwin's pension. This investigation is ongoing.

WALES

Departmental ICT

Jenny Willott: To ask the Secretary of State for Wales what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department in each of the last five years; and if he will make a statement. [269547]

Mr. Paul Murphy: Wales Office IT services are provided by the Ministry of Justice.

We continually address our need to reduce our carbon footprint as a whole. We are developing our sustainability development action plan which will examine how our IT might consume less energy overall.

Jenny Willott: To ask the Secretary of State for Wales what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269568]

Mr. Paul Murphy: The Wales Office is developing a sustainability development action plan that will incorporate ways of reducing our carbon footprint.

We have adopted a "switch off" policy that all staff should shut down IT appliances at the end of the working day. We are also looking at options including replacing single-sided with two-sided printers.

Jenny Willott: To ask the Secretary of State for Wales how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269616]

Mr. Paul Murphy: The Wales Office has:

(a) 27 printers covering our London and Cardiff offices;

(b) No multi-function devices.

We have one double-sided printer. We will examining the possibility of supplementing it as part of our sustainability development programme and in accordance with the Greening Government ICT programme.

Jenny Willott: To ask the Secretary of State for Wales how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Wins standard in the latest year for which figures are available; and if he will make a statement. [269640]

Mr. Paul Murphy: The Wales Office has all its IT products supplied through the Ministry of Justice IT central contract.

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Wales how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005. [268237]

Mr. Paul Murphy: The Wales Office is provided with its IT and telephone equipment through the Ministry of Justice and does not directly purchase BlackBerrys or mobile telephones.

Billing information is not held in the format requested and can be provided only at disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Wales how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [268283]

Mr. Paul Murphy: The figures for the current year are given in the following table. Figures for previous years are not held in the format requested and can be provided only at disproportionate cost.

	Provided in 2009
(a) BlackBerrys	
Ministers	0
Special advisers	2
Civil servants	12
(b) Mobile telephones	
Ministers	0
Special advisers	0
Civil servants	21

Departmental Rail Travel

Mr. Hurd: To ask the Secretary of State for Wales what guidance his Department issues on whether members of staff may claim for travel in first-class carriages on trains if there are no seats in standard class. [268568]

Mr. Paul Murphy: My Department has no written guidance on this specific point. Train tickets are normally booked in advance and with seat reservations, taking advantage of discounts.

Departmental Training

Grant Shapps: To ask the Secretary of State for Wales how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and who provided such training. [268557]

Mr. Paul Murphy: Nil.

Mr. Hurd: To ask the Secretary of State for Wales what his Department's policy is on the practice of holding departmental away days outside the Department's buildings. [268569]

Mr. Paul Murphy: My Department has not laid down a policy on this. Occasional staff events off site are approved by the Head of Office, when there is a clear benefit to the business to be gained. Government or hotel accommodation is used, chosen to be fit for purpose and economical. Away days are not used as a form of reward.

StartHere

Alun Michael: To ask the Secretary of State for Wales what assessment he has made of the potential of StartHere to deliver the Government's digital inclusion strategy. [268988]

Mr. Paul Murphy: NHS Choices and Directgov have been working with StartHere over the past six months to evaluate its potential to support the delivery of the Government's digital inclusion strategy. The findings from the evaluation are currently under consideration by NHS Choices and Directgov and are due to be published by the end of April 2009. This evaluation will support any formal recommendations for the use of StartHere by Government.

WOMEN AND EQUALITY

Equality and Human Rights Commission: Annual Reports

Mr. Stewart Jackson: To ask the Minister for Women and Equality when she expects the commission for equality and human rights' Annual Report for 2007-08 to be published; and if she will make a statement. [268931]

Maria Eagle: The Equality and Human Rights Commission's April 2006-March 2008 annual report and accounts will be published after they are formally laid in Parliament. They are currently with the National Audit Office for sign off.

Equality and Human Rights Commission: Finance

Mr. Grieve: To ask the Minister for Women and Equality whether the accounts of the Equality and Human Rights Commission for 2007-08 have been approved by *(a)* the Board of the Commission and *(b)* its Audit and Risk Committee. [268807]

Maria Eagle: The Equality and Human Rights Commission's April 2006-March 2008 annual report and accounts are currently being audited by the National Audit Office (NAO). Following NAO sign off, they will be considered by the EHRC Audit and Risk Committee and then recommended to the EHRC board for approval.

Equality and Human Rights Commission: Pay

Mr. Stewart Jackson: To ask the Minister for Women and Equality what salary bands there are for staff of the commission for equality and human rights; how many staff there are in each band; and if she will make a statement. [268932]

Maria Eagle: The Equality and Human Rights Commission's salary bands and the number of staff employed within each as at 31 March 2009 are as follows:

Grade	*Salary band*	*Number*
Level 1	£15,000 to £18,233	40
Level 2	£20,056.30 to £24,378	72
Level 3	£26,815.80 to £32,595	145
Level 4	£34,224.75 to £41,600	90
Level 5	£43,680 to £53,093	69
Director	£55,747.65 to £90,000	18
Group Director	£92,000 to £130,000	3
Total		437

WORK AND PENSIONS

Christmas Bonus

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of recipients of the Christmas bonus will receive their payment *(a)* together with their basic state pension and *(b)* as a separate payment, broken down by date of receipt of bonus; and if he will make a statement. [249151]

Ms Rosie Winterton: The standard £10 Christmas bonus was paid as normal before Christmas to all those who qualified. Payments of the additional Christmas bonus were paid as outlined in the following table:

	Paid with benefit	*Per-centage*	*Paid separately*	*Per-centage*	*Paid from week commencing*
State Pension	4,700,769	43	6,219,568	57	5 January 2009
Pension Credit	—	—	1,418,260	100	23 February 2009
Incapacity Benefit	369,184	28	941,063	72	5 January 2009
Industrial Injuries	0	—	1,320	100	2 March 2009
Disability living allowance and attendance allowance	0	—	1,185,093	100	2 March 2009
Carer's allowance	0	—	498,452	100	2 March 2009
Employment support allowance	0	—	70	100	2 March 2009
Veterans allowance	0	—	8,972	100	2 March 2009
Totals	5,069,953	33	10,272,798	67	—

Notes:

1. State Pension figures include customers in receipt of Widows and Bereavement Benefit.

2. The Pension Credit figures include customers receiving their State Pension and Pension Credit payments combined. Christmas Bonus payments in these cases are paid with Pension Credit.

Special Payment Programme weekly review document 4 March 2009.

Council Tax Benefit

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost to the public purse of raising the income level at which a household no longer receives full council tax benefit *(a)* to £174 for a single person between the ages of 60 and 74 and *(b)* to £177 for a single person aged over 75 years. [266519]

Kitty Ussher *[holding answer 25 March 2009]:* The following table shows estimates of the cost and number of council tax benefit (CTB) beneficiaries; and the saving and number of losers, if the following changes are made to the income level at which a household no longer receives CTB:

Option 1: Income level for single people between 60 and 74 set to £174

Option 2: Income level for single people over 75 set to £177.

Change applicable amounts in CTB for some groups

Change in applicable amount	*Number of beneficiaries*	*Cost in annually managed expenditure (£ million per year)*	*Number of losers*	*Saving in annually managed expenditure (£ million per year)*	*Impact on annually managed expenditure (£ million per year)*
Option 1	190,000	40	10,000	0	40
Option 2	180,000	40	30,000	-10	30

Notes:

1. All figures are for Great Britain.
2. Beneficiaries and losers are rounded to the nearest 10,000. Costs and savings are rounded to the nearest £10 million. These estimates include both customers who gain/lose and those who become or lose entitlement to the benefit.
3. Each beneficiary represents a benefit unit, which can be a single claimant or a couple.
4. The impact is estimated using the Department's Policy Simulation Model for 2008-09, using data from the 2006-07 Family Resources Survey uprated to 2008-09 prices,

benefit rates and earnings levels, and is calibrated to latest published forecasts and policies.

5. Results are subject to sampling and reporting errors and estimation assumptions, and are therefore indicative only. No behavioural changes are assumed.

Crisis Loans

Mr. Donohoe: To ask the Secretary of State for Work and Pensions what proportion of payments from the Social Fund were for crisis loans in the latest period for which information was available; and what other types of payments were made during that period. [268703]

Kitty Ussher: The available information is given in the following table.

Crisis loan gross expenditure as a percentage of total social fund gross expenditure in Great Britain for 2007-08

	Percentage
Including Winter Fuel Payments	4.0
Excluding Winter Fuel Payments	12.8

Note:

Apart from crisis loans, the other types of social fund payments made during 2007-08 were: winter fuel payments, Sure Start maternity grants, cold weather payments, funeral payments, community care grants and budgeting loans.

Source:

Annual report by the Secretary of State for Work and Pensions on the social fund 2007-08 and, for winter fuel payments, the unrounded version corresponding to the table 3 entry at: www.dwp.gov.uk/asd/asd4/medium_term.asp

Crisis Loans: Telephone Services

Greg Clark: To ask the Secretary of State for Work and Pensions (1) what the average waiting time for calls made to the Crisis Loans Direct helpline to be answered was in each of the last 12 months; [266649]

(2) how many telephone calls were *(a)* made to and *(b)* answered by the Crisis Loans Direct helpline in each of the last 12 months. [266650]

Kitty Ussher *[holding answer 26 March 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to respond to your questions on what the average waiting time for calls to the Crisis Loans Direct helpline to be answered was in each of the last 12 months and how many telephone calls were (a) made to and (b) answered by the Crisis Loans Direct helpline in each of the last 12 months. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus does not have a Crisis Loan Direct helpline. Crisis Loans operate from 20 of our Benefit Delivery Centres (BDC's) across the country, each with a dedicated telephone number. Currently these BDC's do not operate on the same telephony platform. The information requested is therefore not available in the format requested, as the data cannot be compared. The roll-out of the Internet Protocol Contact Centre telephony platform into BDC's will provide us with comparable data by the summer.

In the last two years Crisis Loan applications have more than doubled and since July 2008 averaged around 230,000 applications per month. Since January 2009 we have seen further increases in applications to 275,000 for January and 272,000 for February 2009. This increase in demand means customers in some areas may not get through first time. There is, however, no evidence to suggest that people fail to get through ultimately.

Departmental Public Expenditure

Dr. Cable: To ask the Secretary of State for Work and Pensions what his latest estimate is of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268130]

Jonathan Shaw: The Department's Capital Budgets were published by HM Treasury as part of the pre-Budget report in November 2008. Please refer to page 214 of this report for the Department's Capital DEL—Departmental Expenditure Limit—estimated expenditure in *(a)* 2008-09 and planned Capital DEL expenditure in *(b)* 2009-10 and *(c)* 2010-11.

The Government have not set Departments' Capital DEL budgets for years beyond 2010-11. Capital DEL budgets for 2011-12 and beyond are a matter for the next spending review. The Government do, however, publish projections for PSNI (Public Sector Net Investment) over the forecast period at Budgets and pre-Budget reports.

Departmental Rail Travel

Mr. Hurd: To ask the Secretary of State for Work and Pensions what guidance his Department issues on whether members of staff may claim for travel in first class carriages on trains if there are no seats in standard class. [268542]

Jonathan Shaw: I am sending the hon. Member a copy of the section of the Department's Business Travel Policy which covers travel by rail; and placing a copy in the Library.

Disability Living Allowance

Joan Walley: To ask the Secretary of State for Work and Pensions for (1) what reasons attendance allowance has no component equivalent to the lower rate care component of disability living allowance; [268198]

(2) what recent representations he has received on the compatibility of the age limit on the disability living allowance with equalities legislation; and if he will make a statement; [268219]

([illegible]) what recent representations he has received in support of allowing those aged 65 and over and in receipt of disability living allowance to claim a mobility component. [268220]

Jonathan Shaw: Disability living allowance is designed to provide extra help for those disabled relatively early in life who have had limited opportunities to earn and save. Once awarded, disability living allowance may continue in payment after the age of 65 if the entitlement conditions continue to be satisfied.

People who experience the onset of disability after the age of 65 receive help with their disability-related costs through attendance allowance which is based on the need for personal care. It is normal and consistent with domestic equality legislation for pensions and benefits schemes to contain different provisions for people at different stages of their lives. Attendance allowance must be seen in the context of the interlocking nature of the social security scheme and the fact that the cut-off age will tend to coincide with a time when a person becomes entitled to a range of other benefits and services.

We have received a number of representations about the age limit in disability living allowance and will continue to keep it, as with other benefits, under review.

Joan Walley: To ask the Secretary of State for Work and Pensions what information his Department collects on the number of claimants of disability living allowance who use the mobility component to enable them to get to work. [268199]

Jonathan Shaw: We do not collect information about the number of claimants of disability living allowance who use the mobility component to enable them to get to work. Recipients can spend their benefit in the way that best fits their circumstances.

Empty Property

Mr. Pickles: To ask the Secretary of State for Work and Pensions what the estimated cost in empty property business rates for the vacant properties recorded on the e-PIMS database owned by *(a)* the Rent Service and *(b)* the Health and Safety Executive is in 2008-09. [258520]

Jonathan Shaw: With regard to the Rent Service the amount paid in business rates for vacant properties recorded on e-PIMS during 2008-9 is £21,304.64.

The estimated cost in business rates for the vacant properties recorded on the e-PIMS database held on leasehold by the Health and Safety Executive in 2008-09 is £337,803.

Health and Safety Executive: Manpower

Mr. Chaytor: To ask the Secretary of State for Work and Pensions how many staff the Health and Safety Executive has relocated in response to the recommendations made by Sir Michael Lyons in his report on local government; and how many of those staff were *(a)* relocated prior to 31 March 2008 and *(b)* working in the Offshore Safety Division on the latest date for which figures are available. [266464]

Jonathan Shaw *[holding answer 2 April 2009]:* As at 31 March 2009, the Health and Safety Executive (HSE) has relocated a total of 157 posts out of London in response to the recommendations made by Sir Michael Lyons. Within this number, six staff have moved permanently with their posts and a further two are due to follow in the near future.

Of the 157 posts, 31 were relocated prior to 31 March 2008 and 10 were in the Offshore Safety Division (OSD).

Mr. Chaytor: To ask the Secretary of State for Work and Pensions how many staff are employed by the Health and Safety Executive at its *(a)* London and *(b)* Bootle offices; and how many staff were employed at those offices immediately prior to the publication of Sir Michael Lyons' report on local government in March 2007. [266465]

Jonathan Shaw *[holding answer 2 April 2009]:* As at 23 March 2009 the Health and Safety Executive employed 329 staff at its London office and 1,288 at the Bootle office.

The comparable figures for 31 March 2007 are 1,227 staff at the Bootle office and 528 staff at the London office.

Housing Benefit

Grant Shapps: To ask the Secretary of State for Work and Pensions what expenditure his Department has incurred in the provision of housing benefit in each year since 1997 at 2008-09 prices. [266468]

Kitty Ussher: I refer the hon. Member to the written answer I gave him on 24 March 2009, *Official Report*, column 254W.

Housing Benefit: Elderly

Mr. Waterson: To ask the Secretary of State for Work and Pensions (1) what his estimate is of the number of individuals over the age of *(a)* 65 and *(b)* 68 years who will receive housing benefit in (i) 2020, (ii) 2030 and (iii) 2050; [267276]

(2) who will receive council tax benefit in (i) 2020, (ii) 2030 and (iii) 2050. [267277]

Kitty Ussher: The information requested is not available. Such information as is available is in the following table.

Pensioner households in receipt of housing benefit and council tax benefit: thousands

	Households in receipt of housing benefit	*Households in receipt of council tax benefit*
2020	1,200	2,200
2030	1,200	2,100
2050	1,000	1,600

Notes:

1. These projections are of the number of benefit units in receipt of housing benefit or council tax benefit in the UK, with at least one person over State Pension Age. In 2020 State Pension Age will be 65, in 2030 it will be 66 and in 2050 it will be 68.

2. Numbers of households are rounded to the nearest 100,000.

Source:

Pre-Budget report 2008 projections.

Industrial Health and Safety: Schools

Mr. Laws: To ask the Secretary of State for Work and Pensions how many serious injuries to school teachers caused by physical violence in schools in *(a)* each local education authority area and *(b)* England were reported to the Health and Safety Executive in each year from 2000; and if he will make a statement. [266330]

Jonathan Shaw: Reported injuries to school teachers caused by physical violence since 2000 show that on average 189 incidents are reported to HSE by schools in England each year. There is no clear overall trend in the number of reported injuries across the period. A full breakdown of incidents reported in each local authority area and across England has been placed in the Library.

Jobcentre Plus

Mrs. May: To ask the Secretary of State for Work and Pensions how many Jobpoints have been set up outside Jobcentre Plus since their inception; and in what locations they have been set up. [261021]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked the acting chief executive to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many and in what locations Jobpoints have been set up outside Jobcentre Plus since their inception. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Locating Jobpoints with external partners is part of our vision to meet the challenge of helping more customers find jobs and remain in work using modern technology. In particular, we are keen to use this approach to focus more on customers with the greatest disadvantages and those who are not in touch with the labour market.

There are currently 108 Jobpoints located away from Jobcentre Plus offices. The locations of these Jobpoints are in the attached annex.

Mrs. May: To ask the Secretary of State for Work and Pensions what estimate he has made of *(a)* the number of people who have used the Jobcentre Plus rapid response service in the last 12-months and *(b)* the number and proportion of those people who found employment through the service. [262512]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves dated 21 April 2009:

The Secretary of State has asked me to reply to your question asking what estimate he has made of (a) the number of people who have used the Jobcentre Plus rapid response service in the last 12 months and (b) the number and proportion of those people who found employment through the service. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The rapid response service (RRS) was expanded in November 2008. The service is now available whenever an employer is faced with a possible need to make people redundant. We contact each employer who notifies the Insolvency Service of a proposal to make 20 or more people redundant at one establishment. We also offer RRS support to other employers who we know are going to make people redundant whenever we judge that the potential impact on the local labour market of the cumulative effect of recent redundancies justifies using RRS.

Since the service was expanded, over 1,000 employers have accepted offers of RRS support for employees facing redundancy, or the possibility of redundancy. Our administrative records suggest that, all told, more than 150,000 employees were facing possible redundancy in those situations.

We do not record the numbers of people finding jobs during the delivery of RRS support. The RRS is just one part of the overall service we provide to people who lose their jobs and need help to move back into work as quickly as possible.

Justine Greening: To ask the Secretary of State for Work and Pensions how many *(a)* benefit delivery centres, *(b)* customer-facing jobcentres and *(c)* contact centres Jobcentre Plus operated in each (i) region and (ii) Jobcentre Plus District in each year since 2002. [264260]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked the acting chief executive to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many (a) benefit delivery centres, (b) customer-facing jobcentres and (c) contact centres Jobcentre Plus operated in each (i) region and (ii) Jobcentre Plus District in each year since 2002. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus inherited around 1,500 offices from the merger of the Benefits Agency and the Employment Service in 2002. We have modernised our Jobcentre network to improve customer service, rationalising our estate to provide excellent coverage with integrated customer facing offices, at the same time reducing cost to the tax payer. We remain the largest office network in Government with 741 modern Jobcentres. These offices are supported by modern Contact Centres and main Benefit Delivery Centres.

The great majority of our services (in common with most large, modern organisations) are now delivered through the telephone and internet. For example, to give customers more convenient access, we have around half a million vacancies on-line at any time (our website receives close to one million job searches every working day), and new claims to benefit are predominantly taken by telephone with some taken on-line. This has brought our customer facing services together in a more coherent and integrated network and I believe Jobcentre Plus is well-placed to respond to the full range of economic conditions.

Our Contact Centre network was set up in 2006 and there are currently 31 Contact Centres. Our Benefit Delivery Centre network was established in late 2007 with 79 centres and all remain in place. The information you have requested is only available at regional/country level and can be found in the following tables.

Current Jobcentre Plus Customer-Facing Offices as at 30 March 2009 (By Region)

Region/Country	*Benefit Delivery Centres*	*Customer Facing Jobcentres*	*Contact Centres*
East of England	6	57	2
East Midlands	7	53	3

Jobcentre Plus

Jobcentre Plus: Manpower

Justine Greening: To ask the Secretary of State for Work and Pensions how many *(a)* permanent, *(b)* temporary and *(c)* agency staff were employed in (i) benefit delivery centres, (ii) customer-facing jobcentres and (iii) contact centres operated by Jobcentre Plus in each (A) region and (B) Jobcentre Plus district (1) in each year since 2002 and (2) in each of the last 24 months. [264262]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many (a) permanent staff (b) temporary and (c) agency staff were employed in (i) benefit delivery centres, (ii) customer facing jobcentres and (iii) contact centres operated by Jobcentre Plus in each (A) region and (B) Jobcentre Plus district (1) in each year since 2002 and (2) in each of the last 24 months. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The great majority of our services (in common with most large, modern organisations) are now delivered through the telephone and internet. For example, to give customers more convenient access, we have around half a million vacancies on-line at any time (our website receives close to one million job searches every working day), and new claims to benefit are predominantly taken by telephone with some taken on-line. This has brought our customer facing services together in a more coherent and integrated network and I believe Jobcentre Plus is well-placed to respond to the full range of economic conditions.

I have placed the available information in the Library. Unfortunately we are unable to provide information prior to April 2003, and for the period from April 2003 to November 2007 are unable to break this down by region or district. We are also unable to provide information on numbers of agency staff. The tables provide for each month from December 2007 the number of full time equivalents (FTEs) employed in each region and district in benefit delivery centres, customer facing jobcentres and contact centres within Jobcentre Plus.

Mrs. May: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus staff there are in each function. [266129]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many Jobcentre Plus staff there are in each function. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The table in the attached Annex shows the number of people recorded as deployed to standard functional areas in Jobcentre Plus during February 2009. In addition to staff deployed on these activities there are also around 2,500 people in Directorates that support Jobcentre Plus operations. People in these roles undertake a wide variety of activities that are not recorded separately and are not included in the table.

Jobcentre Plus staff by activity—Full-time equivalents

Jobcentre Plus Activities	*February 2009*
Income Support new claim processing	712
Income Support claims maintenance	2,117
Jobseekers Allowance new claims processing	2,446
Jobseekers Allowance claims maintenance	1,604
Incapacity Benefit new claims processing	301
Incapacity Benefit claims maintenance	1,889
Employment and Support Allowance new claims processing	1,126
Employment and Support Allowance claims maintenance	612
Social Fund activities	2,818
Other benefit processing and maintenance activities	7,815
Benefit telephony team	3,708
Debt referrals activities	395
Benefit management	541
Fraud Investigation Service	2,781
Customer Compliance Service	833
Personal Adviser Activities (includes Management and Support)	13,968
Employer vacancy handling	1,393
Job enquiry activity	64
3rd party provision management	240
E-Social Fund	112
Job Search Review activities	5,232
Allowance payment processors	231
Disability services	85
Employment Zones initiatives	31
New Deal for Disabled People	4
Customer Service Manager	1,490
Jobcentre Manager	571
National Sales Team	59
Access to Work (includes Management and Support)	242
Contact Centre agents	5,999
Business support activities	6,346

Activity Based Management Information Portal

Jobcentre Plus: Police

Mrs. May: To ask the Secretary of State for Work and Pensions how many times the police have been called to jobcentres in each year since 1997; and what the reasons were, broken down by category. [267695]

Mr. McNulty: Jobcentre Plus does not routinely capture information on how often and for what reasons the police are called to jobcentres. Where any situation arises that puts, or could put, staff or members of the public in danger, Jobcentre Plus will, as a matter of course, involve the local police force.

Jobcentre Plus: Standards

Justine Greening: To ask the Secretary of State for Work and Pensions what the average processing time was for claims for *(a)* income support, *(b)* jobseekers' allowance and *(c)* incapacity benefit in each (i) region and (ii) Jobcentre Plus district in each (A) year since the launch of the actual clearance times target and (B) of the last 24 months. [264240]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what the average processing time was for claims for (a) income support, (b) jobseeker's allowance and (c) incapacity benefit in each (i) region and (ii) Jobcentre Plus district in (A) each year since the launch of the actual clearance times target and (B) each of the last 24 months. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

I have placed the available information in the Library. Data for 2004/05 and 2005/06 is down to district level. From 2006/07 the data is not available below Benefit Delivery Centre (BDC) level.

Jobcentre Plus has had a target for the Average Actual Clearance Time (AACT) for Income Support (IS), Jobseekers Allowance (JSA) and Incapacity Benefit (IB) since 2004/05.

For each benefit the target for the AACT in days was as follows:

	Income support	*Jobseeker's allowance*	*Incapacity benefit*
2004-05	12	12	22
2005-06	12	12	19
2006-07	11	12	18
2007-08	11	12	18
2008-09	10	11.5	15

The method used to calculate the AACT differs slightly between the three benefits. For IS the AACT is calculated from the date the customer provides all the evidence required to process the claim to the date a decision is made. For JSA the AACT is calculated from the customer's initial date of contact with Jobcentre Plus to the date a decision is made. For IB the AACT is calculated from the date a properly completed claim form is received by Jobcentre Plus to the date a decision is made.

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how his Department measures the performance against objectives of the Jobcentre Plus rapid response service; [266110]

(2) what information his Department collects on the job outcomes achieved by the Jobcentre Plus rapid response service. [266111]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves dated 21 April 2009:

The Secretary of State has asked me to reply to your questions asking how his Department measures the performance against objectives of the Jobcentre Plus rapid response service; and what information his Department collects on the job outcomes of the Jobcentre Plus rapid response service. These fall within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Our objective is to ensure that the support of the rapid response service (RRS) is offered whenever it might be appropriate for the employer and employees concerned. The purpose of the RRS is to provide early and immediate help to employees facing redundancy through advice and support on such issues as benefits, the local labour market and effective job search.

In that context, we contact each employer who notifies the Insolvency Service of a proposal to make 20 or more people redundant, and also offer support to other employers we believe to be making redundancies whenever we judge that the cumulative impact of redundancies on the local labour market justifies using

RRS. In some cases employers contact us, and we will always support employees facing redundancy through RRS when asked to do so.

Since we extended the RRS in November 2008, we have kept an administrative record of the number of employers who take up our offer of support.

We do not attempt systematically to record other information, such as the numbers of employees who are given advice and support through RRS, or the job outcomes achieved for the former employees of particular employers, as to do so would be prohibitively expensive. Accordingly, information on the numbers of job outcomes achieved for people who access support through the RRS is not available.

Jobcentre Plus: Vacancies

Mrs. May: To ask the Secretary of State for Work and Pensions how many vacancies are being advertised by Jobcentre Plus, broken down by the level of qualifications required for applicants for the vacancy. [262399]

Mr. McNulty: The information is not available.

Jobseeker's Allowance

Mr. Clappison: To ask the Secretary of State for Work and Pensions pursuant to the oral answer of 2 February 2009, *Official Report*, column 573, on jobseeker's allowance, what proportion of the increase since 1997 in *(a)* total employment and *(b)* employment of people of working age is accounted for by non-UK citizens. [254882]

Mr. McNulty *[holding answer 9 February 2009]:* For the purposes of counting the number of people in employment, it is the convention to use all those in the population of 16 and over, to recognise the contribution made by older workers. At the time of oral questions, the latest data on that basis showed that between Q3 1997 and Q3 2008 over half of the increase was indeed accounted for by UK citizens.

Steve Webb: To ask the Secretary of State for Work and Pensions (1) if he will estimate the cost to the public purse of increasing jobseeker's allowance by *(a)* 100 per cent. for claimants with an unbroken work record of more than five years and *(b)* 200 per cent. for claimants with an unbroken work record of more than 10 years immediately prior to their claim in each of the next five years; [264648]

(2) how many people claiming contribution-based jobseeker's allowance had an unbroken work record of more than *(a)* five, *(b)* 10 and *(c)* 15 years immediately prior to claiming in each quarter of the last five years. [264649]

Mr. McNulty: DWP do not hold this information centrally and it could be obtained only at disproportionate cost.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Work and Pensions what expenditure his Department incurred on support for mortgage interest benefit in each of the last five years. [266312]

Kitty Ussher *[holding answer 24 March 2009]:* The available information is in the following table.

Total expenditure on support for mortgage interest 2004-09

	£
2004-05	n/a
2005-06	n/a
2006-07	351,317,127
2007-08	394,787,646
2008-09	372,772,841

n/a = Not available

Note:

Information for the last three financial years is held on the Department's financial systems. Information for earlier years could only be obtained at disproportionate cost.

Source:

Bank statements from the Office of Paymaster General that show the amount paid out to third party lenders.

Grant Shapps: To ask the Secretary of State for Work and Pensions how many people received support for mortgage interest benefit in each of the last 20 quarters. [266313]

Kitty Ussher: The available information is in the tables.

Income support claimants receiving support for mortgage interest

	Number
November 2003	118,700
February 2004	116,200
May 2004	113,500
August 2004	110,800
November 2004	107,800
February 2005	105,600

Department for Work and Pensions, Information Directorate, 5 per cent. sample.

Calor Gas: Canvey Island

Bob Spink: To ask the Secretary of State for Work and Pensions if he will extend the public information zones for the Canvey Island *(a)* Calor Gas and *(b)* OIKOS sites; and if he will make a statement. [265735]

Jonathan Shaw *[holding answer 26 March 2009]:* HSE determined the existing public information zones following a detailed assessment of the hazards and risks associated with the Calor Gas Ltd. and OIKOS sites in line with HSE's—Health and Safety Executive—published policy. There are no plans to extend these public information zones.

Bob Spink: To ask the Secretary of State for Work and Pensions what substance was spilled at the Canvey Island Calor Gas site on *(a)* 15 and *(b)* 25 October 2008; what volume of each substance was spilled; and if he will make a statement. [265733]

Jonathan Shaw *[holding answer 23 March 2009]:* HSE was not notified by Calor Gas Ltd. of any spillage at its Canvey Island site on 15 October 2008.

HSE understands that Calor Gas Ltd. reported to Castle Point borough council a release of a stenching agent (ethyl mercaptan) on 10 October 2008 during maintenance work at the plant. This incident was not reportable to HSE.

HSE was not notified by Calor Gas Ltd. of any spillage at its Canvey Island site on 25 October 2008.

Bob Spink: To ask the Secretary of State for Work and Pensions (1) when and to whom Calor Gas reported the spillages which occurred at its Canvey Island site on *(a)* 15 and *(b)* 25 October 2008; [265694]

(2) what the location was of the spillage at the Canvey Island Calor Gas site on *(a)* 15 and *(b)* 25 October 2008; [265695]

(3) what investigations have been conducted by the Health and Safety Executive into the spillages at the Canvey Island Calor Gas site on *(a)* 15 and *(b)* 25 October 2008; and if he will make a statement; [265696]

(4) what assessment has been made of the effectiveness of the operation of the spill and leak detection systems during the spillages at the Canvey Island Calor Gas site on *(a)* 15 and *(b)* 25 October 2008; [265697]

(5) what information was provided to Canvey Island residents in the public information zone surrounding the Calor Gas site about the spillages at the site on *(a)* 15 and *(b)* 25 October 2008; and when it was given. [265699]

Jonathan Shaw: HSE was not notified by Calor Gas Ltd. of any spillage at its Canvey Island site on 15 October 2008.

HSE understands that Calor Gas Ltd. reported to Castle Point borough council a release of a stenching agent (ethyl mercaptan) on 10 October 2008 during maintenance work at the plant. This incident was not reportable to HSE.

HSE was not notified by Calor Gas Ltd. of any spillage at its Canvey Island site on 25 October 2008.

Calor Gas Ltd. has reported to HSE an incident involving the release of approximately 163 tonnes of liquefied propane gas from a bursting disc fitted to pipe work at its Canvey Island site during a routine ship to shore transfer of the liquefied gas from a marine vessel to a storage tank at the site on 27 October 2008. The liquefied gas was released into a catchment area specifically designed to contain spillages of hazardous liquids.

HSE is currently undertaking a detailed investigation of the incident. The investigation includes an assessment of the effectiveness of the spill and leak detection systems at the site.

In March 2003 residents in the public information zone (PIZ) surrounding the Canvey Island site were provided with information about the off-site consequences of possible major accidents. This included information about how people would be warned of an incident with off-site consequences, what action they should take and how they will be kept informed in the event of an emergency at the site.

Calor Gas Ltd. did not warn or provide specific information to residents within the PIZ in relation to the incident on 27 October 2008 as the release was contained within its Canvey Island site.

Bob Spink: To ask the Secretary of State for Work and Pensions if he will meet a delegation including the hon. Member for Castle Point to discuss the safety of the operation of the Canvey Island Calor Gas site. [265698]

Jonathan Shaw: Lord McKenzie of Luton (Parliamentary Under-Secretary of State [Lords] with responsibility for health and safety at work) will be happy to meet a delegation including the hon. Member for Castle Point to discuss the safety of operations of the Calor Gas Ltd. site at Canvey Island.

Bob Spink: To ask the Secretary of State for Work and Pensions what assessment the Health and Safety Executive has made of the risk of a spillage at the Canvey Island Calor Gas site igniting. [265734]

Jonathan Shaw *[holding answer 25 March 2009]:* In 1997 HSE assessed the likelihood of a major accident at the Canvey Island site, including a fire and explosion from an unintended release of liquefied petroleum gas, as part of its role in advising the Hazardous Substances Authority on the site's application for a change to the hazardous substances consent.

In 2005 HSE also assessed Calor Gas Ltd.'s safety report required by the Control of Major Accident Hazards Regulations 1999 to demonstrate that they were taking all measures necessary to prevent major accidents at the Canvey Island site. HSE found no serious deficiencies in the safety report.

Natural Gas: Safety

Mr. Goodwill: To ask the Secretary of State for Work and Pensions what steps he plans to take to inform the public to the change in the scheme for registrations of gas fitters from Corgi to the Gas Safe Register. [267742]

Jonathan Shaw: The Health and Safety Executive and the Gas Safe Register are publicising the change, notably through a range of television, radio, newspaper, sports and other advertising, and through a variety of other initiatives such as road shows in major shopping centres across Great Britain. Full details of the change are also available on the HSE and Gas Safe Register websites.

Nuclear Installations Inspectorate: Finance

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions pursuant to the answer to the right hon. Member for Pontypridd of 23 March 2009, *Official Report*, columns 173-74W, what proportion of the time expended by the Nuclear Installations Inspectorate on the generic design assessment work conducted in the third and fourth quarters of 2008-09 has been recovered from the applicants to date; and what the monetary value of the recovered resource is for each quarter. [267753]

Jonathan Shaw: 99 per cent. of the time expended by the Nuclear Installations Inspectorate on generic design assessment work in quarter 3 has been invoiced to applicants and one-third (£394,454) has been recovered. HSE is awaiting payment of the remaining two-thirds whose value is £802,600, and this is expected shortly. The remaining £13,341 (1 per cent.) will be invoiced at the end of quarter 4. HSE invoices for its recoverable costs at the end of each quarter, hence none of the time expended in quarter 4, the current quarter, has yet been invoiced or recovered.

Pension Credit

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many pensioners in the UK received the full pension credit because they had *(a)* a low contributory state pension and *(b)* no additional savings in 2007-08. [267280]

Ms Rosie Winterton: The guarantee credit element of pension credit, an income related benefit, works by topping the recipient's net income (from all appropriate sources) up to their appropriate guarantee. It would not therefore, be appropriate to attribute entitlement to pension credit, to the absence of a particular element of a person's overall income.

Social Fund

Mr. Donohoe: To ask the Secretary of State for Work and Pensions how much was paid out from the Social Fund in the last five years. [268699]

Kitty Ussher: The information requested is given in the following table.

Social fund gross expenditure in Great Britain

£ million

	Total including winter fuel payments	*Total excluding winter fuel payments*
2003-04	2,773	858
2004-05	2,829	867
2005-06	2,898	917
2006-07	3,012	997
2007-08	3,015	944

Note:
The social fund consists of winter fuel payments, Sure Start maternity grants, cold weather payments, funeral payments, community care grants, budgeting loans and crisis loans.
Source:
Annual report by the Secretary of State for Work and Pensions on the social fund and, for winter fuel payments, the unrounded version corresponding to the table 3 entry at: www.dwp.gov.uk/asd/asd4/medium_term.asp

Social Security Benefits

Mr. Waterson: To ask the Secretary of State for Work and Pensions how much his Department has spent on each benefit delivery centre in each month since April 2006; and what assessment he has made of the efficiency of the centres in operation. [257203]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to respond to your questions asking how much his Department has spent on each benefit delivery centre in each month since April 2006; and what assessment he has made of the efficiency of the centres in operation. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Information on the amount spent on each benefit delivery centre in each month since April 2006 is provided in the tables, copies of which have been placed in the Library.

The key indicators used by Jobcentre Plus to measure the efficiency of the Benefit Delivery Centres are the Average Actual Clearance Times for claims and the number of claims processed per person per day i.e. productivity, both of which show an improvement in the efficiency of the Benefit Delivery network over the period since April 2006.

There has been an increase in the average number of claims processed per person per day on Income Support of 58% from the position in 2006/07 to current performance levels in 2008/09. Similarly there has been an increase of 49% on Jobseekers Allowance over the same timeframe.

Mr. Burstow: To ask the Secretary of State for Work and Pensions what estimate he has made of the *(a)* minimum, *(b)* average and, *(c)* maximum amount of time required to complete each of the (i) previous and (ii) current versions of claims application forms for (A) means-tested and (B) non-means tested benefits; and if he will make a statement. [268186]

Jonathan Shaw: My Department does not undertake research in this area across our range of claim forms, principally because time taken to complete a form is very closely linked to each individual's abilities, their circumstances and which parts of the form need to be completed. Given this, research into this aspect would not necessarily deliver any meaningful outcomes.

Customer testing has been conducted for claim forms introduced recently, such as the new employment and support allowance, and the results were taken into account before the forms were introduced. Major changes to content or new forms to be introduced are also tested with customers.

Most new claims for benefit are now taken over the telephone and our contact centre operators guide claimants through the process. The number of new benefit claimants helped over the telephone by Jobcentre Plus contact centres in the period April 2008—February 2009 was 6,734,620. 80 per cent of pension credit and state pension claims are made by telephone and 20 per cent. by paper form.

Social Security Benefits: Fraud

Justine Greening: To ask the Secretary of State for Work and Pensions what assessment he has made of the level of fraud and error losses in working age income support and jobseeker's allowance in each *(a)* region and *(b)* Jobcentre Plus district (i) in each year since Jobcentre Plus's fraud and error targets were launched and (ii) in each of the last 24 months. [264236]

Mr. McNulty: The level of fraud and error in income support and jobseeker's allowance is estimated using results from a sample survey of benefit claims, which is designed to produce a robust estimate at the national level.

The first Monetary Value of Fraud and Error (MVFE) target for Income Support/Jobseeker's Allowance (IS/JSA) in SR02 ran from a baseline year of 1997-98 through to 2005-06. During this period as well as the national estimates used to evaluate progress against the target, tables were also published that showed estimates of MVFE for Government Office Regions, which were equivalent to JCP regions from 2002.

With the introduction of a new SR04 target in 2005-06 DWP statisticians analysed the historical regional estimates produced during SR02 to assess whether they had been a robust indicator of MVFE at regional level. Analysis showed that for many regions the estimates of fraud and error fluctuated substantially year on year. These fluctuations were judged to be due to the relatively small sample of claims investigated in any one region. Since the sample survey is designed to produce the best estimate at a national level, estimates of fraud and error at a lower geographical level are based on a small sample of claims and have a high risk of not accurately representing the amount of fraud and error for all claims in a region.

Following this analysis DWP have not published regional estimates from 2006-07 onwards as they were judged to be not robust enough to meet the standards required of national statistics and there was a high risk that fluctuations in the estimates would be misinterpreted as indicating real change in fraud and error in the regions.

Social Security Benefits: Lone Parents

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how much he has allocated to fund the childcare costs of lone parents with young children wishing to return to work in 2009-10; [255134]

(2) from what source funding to cover the childcare costs of lone parents with young children wishing to return to work will come. [255135]

Kitty Ussher: As set out in the discussion paper on the next steps in implementing the Gregg Review (28 January 2009) we stated that the costs of childcare for lone parents with young children wishing to return to work are funded from the Department's core DEL—Departmental Expenditure Limited—budget, and from within that the budget allocated to New Deal for Lone Parents. The initial allocation for New Deal for Lone Parents for 2009-10 is anticipated to be £34 million(based on current assumptions and may be subject to change). We do not specifically allocate budgets for the various components of the New Deal for Lone Parents programme. However, in 2008-09 childcare costs have accounted for just over 18 per cent. of the total spend.

State Retirement Pensions

Mr. Austin Mitchell: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost to the Exchequer of raising the state pension by *(a)* 10, *(b)* 25, *(c)* 50 and *(d)* 100 per cent. [260265]

Ms Rosie Winterton: The net additional cost of increasing the basic state pension by 10 per cent. 25 per cent. 50 per cent. or 100 per cent. instead of the current baseline assumption of RPI or 2.5 per cent. whichever is the highest, in the year 2009-10 is given in the following table.

Uprating the basic state pension in 2009-10 by:	*Net additional annual cost in 2009-10 (£ billion, 2008-09 prices)*
10%	2.0
25%	8.1
50%	18.3
100%	39.3

Notes:

Estimates are presented in net terms reflecting that the estimated savings from reduced income related benefit payments (pension credit, housing benefit and council tax benefit) have been deducted from the cost of increasing the basic state pension. The proportions of additional expenditure saved through reduced income related benefit payments have been estimated using the Department's Policy Simulation Model and are assumed to remai[illegible]stant overtime.

In the baseline costing for the financial year 2[illegible]0 Treasury Economic assumptions consistent with the pre-Budget repo[illegible]08 have been used to model basic state pension uprating.

Estimates are in 2008-09 prices and have been rounded to the nearest £100 million.

Source:

DWP modelling

Steve Webb: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost to the public purse of restoring the link between the basic state pension and earnings in each financial year between 2010-11 and 2014-15. [269470]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave on 20 April 2009, *Official Report*, column 134W.

Train to Gain Programme

Paul Rowen: To ask the Secretary of State for Work and Pensions under what budget headings the £350 million spending on Train to Gain announced in the pre-Budget Report beyond spending already announced will be spent; and if he will make a statement. [247620]

Mr. Simon *[holding answer 14 January 2009]:* I have been asked to reply.

Train to Gain is the Government's flagship service to employers to improve the skills for their employees and the productivity of their business.

Small and medium-sized Enterprises (SMEs) will be top priority for Train to Gain funds including the £350 million growth over the next two years which was announced in the re-budget Report. The £350 million is within the overall Train to Gain delivery' budget heading.

The 2009-10 grant letter to the Learning and Skills Council sets out the budget for Train to Gain. Train to Gain is a growing programme and we plan to invest £925 million through Train to Gain in 2009-10 and this will increase to over £1 billion per year by 2010-11. Train to Gain is a demand-led service and as such it is not possible to predict the budget spend for 2009-10 for SMEs.

Vocational Training: Lone Parents

Lynne Jones: To ask the Secretary of State for Work and Pensions pursuant to the answer of 18 March 2009, *Official Report*, column 1210W, on vocational training: lone parents, what steps his Department took in response to the results of the research into non-participation. [268859]

Kitty Ussher: The Department set up a project team to respond to the policy and operational issues raised by the report findings. A number of issues were identified, in particular training, childcare and raising the profile of New Deal for Lone Parents (NDLP) and, as a result, the following steps have been taken to address those issues identified:

> Refresher training and clear desk aids have been provided in the use of the Labour Market System. In addition, clearer guidance concerning the definition of participation in NDLP has been published;
>
> A range of strategies have been developed to help change the attitudes of parents and advisers to focus on the positive outcomes children gain from formal childcare;
>
> Key messages have been provided to Jobcentre Plus staff to emphasise the gains to be made by a parent moving into work and the impact on child poverty;
>
> A lone parent caseload strategy was developed to raise the awareness and understanding of NDLP and encourage advisers to explicitly promote its benefits and invite a greater number of lone parents to participate in the NDLP programme; and
>
> Jobcentre Plus delivered a series of workshops to lone parent advisers which focused on the key interviewing and influencing techniques that advisers need to assist lone parents engage with NDLP.

Written Answers to Questions

Wednesday 22 April 2009

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Asbestos: Imports

John Battle: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what checks are undertaken to prevent the direct or indirect importation of manufactured products containing asbestos. [261866]

Jonathan Shaw: I have been asked to reply.

The Control of Asbestos Regulations 2006 (SI 2006 No. 2739) prohibit the importation of asbestos or any product containing it unless allowed by an exemption. Customs declarations for consignments from non EU countries brought into free circulation are checked by HM Revenue and Customs who select for further scrutiny those declarations using a commodity code indicating that asbestos may be present. Inquiries are undertaken to ascertain if asbestos is, in fact, present and if any such goods qualify for an exemption or must be detained. For indirectly imported goods, such as those already in free circulation inside the EU, the single market means that import control checks were dependent on the first member state which the goods entered.

Corgi: Finance

Mr. Frank Field: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what steps he is taking to monitor the use of unspent public funds allocated to Corgi. [264042]

Jonathan Shaw: I have been asked to reply.

No such steps have been taken because the gas installer registration scheme operated by CORGI Gas Registration was financed through registration fees. However, Ministers have sought a view from the company about how, having now ceased this function, it intends to comply with its Memorandum of Association which requires any funds remaining after winding up costs to be transferred to the CORGI Trust or another charity with similar objectives to the company. As at 31 March 2008, the accounts of CORGI Gas Registration showed that surplus funds from unspent registration fees were held by the company as "retained surplus" in the sum of £3,456,740.

Fossil Fuels: Government Assistance

Gregory Barker: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform which fossil fuel energy projects the Export Credits Guarantee Department is supporting; in which country each project is situated; which UK companies are in receipt of support; what type of plant is being supported in each case; what the *(a)* start and *(b)* completion dates are for each project; and how much is being provided to each. [265316]

Ian Pearson: The following table lists relevant case details where ECGD has a contingent liability arising from the support it is providing. In the majority of instances, this support takes the form of a guarantee given to a bank or syndicate of banks in respect of a loan made to an overseas buyer in order to enable it to finance the purchase of supplies of goods and services from persons carrying on business in the United Kingdom. In the remaining instances, ECGD has provided insurance to a person carrying on business in the UK in respect of loss arising in relation to either a contract for the supply of goods or services to an overseas buyer or an investment in an overseas project. The contractual periods are best estimates based on data held electronically by ECGD. The amounts now at risk are generally lower than the original amounts shown, due to payments having been made under the guaranteed loans or insured contracts.

'Fossil fuel projects' include oil and gas transportation, coal, oil and gas extraction projects' power generation and energy projects which involve the use of fossil fuels but exclude petrochemical projects.

Country	*UK exporter*	*Project*	*Detailed description (where available)*	*Original level of support provided (£)*	*Liability start date (est.)*	*Contract completion date (est.)*	*Product type*

[1] Information withheld to protect the commercial interests of the company and ECGD

Members: Correspondence

Mr. McLoughlin: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he plans to respond to the letter from the right hon. Member for West Derbyshire of 25 November 2008 on the downturn in the construction industry. [268708]

Mr. McFadden *[holding answer 20 April 2009]*: I responded to the hon. Member on 20 April.

CHILDREN, SCHOOLS AND FAMILIES

Care Proceedings

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children have been subject to *(a)* one, *(b)* two, *(c)* three, *(d)* four, *(e)* five, *(f)* six, *(g)* seven, *(h)* eight, *(i)* nine, *(j)* 10 and *(k)* more than 10 care orders. [258650]

Beverley Hughes: The information requested is not collected centrally by the Department.

We collect information on the number of children that are subject to a care order. However we do not collect information on the number of care orders granted for each child.

Children in Care

Mr. Hoyle: To ask the Secretary of State for Children, Schools and Families how much on average it cost for a child under the age of five years to be looked after by *(a)* a local authority and *(b)* foster parents in the latest period for which figures are available. [267653]

Beverley Hughes: The Department of Health's Information Centre published the latest figures on costs per child for looked after children. However information is not broken down by age therefore we cannot provide a complete response.

General costs per child for looked after children can be found in the publication 'Personal Social Services Expenditure (PSSEX1 return) and Unit Costs: England 2007-08', which can be accessed via the link below.

http://www.ic.nhs.uk/statistics-and-data-collections/social-care/adult-social-care-information/personal-social-services-expenditure-and-unit-costs:-england-2007-08

John Battle: To ask the Secretary of State for Children, Schools and Families how many children have been in local authority care homes in *(a)* Leeds West constituency, *(b)* Leeds Metropolitan District and *(c)* England in each year from 1997. [267829]

Beverley Hughes: Information on the number of children who were in local authority care homes in *(a)* Leeds, West constituency and *(b)* Leeds metropolitan district is not collected centrally. The number of children who were placed in children's homes by Leeds local authority and *(c)* by all local authorities in England, in each year since 2000, are shown in the table.

In 2000, a new coding system was introduced. For years 1997 to 1999 it was found that the results of the analysis carried out could not accurately identify the number of children who were looked after exclusively in children's homes.

Children looked after at 31 March who were placed in children's homes[1, 2, 3, 4]. Years ending 31 March 2000 to 2008. Coverage: England and Leeds local authority

		Number
	England	*Leeds*
2000	6,400	160
2001	6,100	140
2002	6,000	140
2003	6,000	125
2004	5,900	140
2005	5,600	130
2006	5,300	125
2007	5,200	115
2008	5,200	125

[1] Source: SSDA903 return on children looked after.

[2] Figures exclude children looked after under an agreed series of short term placements.

[3] Figures account for children's homes only and exclude residential settings not subject to Children's Homes regulations.

[4] Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.

Children: Databases

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which private companies have been contracted to work on the *(a)* development and *(b)* implementation of the ContactPoint database in each year since 2005; and if he will make a statement. [268066]

Beverley Hughes: Since 2005 the Department has contracted with Capgemini UK plc for the design, and subsequently for the build and test, and hosting and support of the ContactPoint database; and with Capita Learning and Development to deliver training and deployment services associated with the implementation of ContactPoint to users.

The Department has also contracted with PA Consulting and WS Atkins as prime contractors to provide client-side consultancy services to support the development and implementation of the ContactPoint project.

Furthermore, the Department has contracted with a number of other suppliers for specialist consultancy and other ancillary services to support the set up and operation of ContactPoint system and project.

Annette Brooke: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of the results of the most recent penetration test of the ContactPoint database; and if he will make a statement. [268422]

Beverley Hughes: It would be inappropriate and against the very stringent security measures we have established to make public the results of penetration tests of ContactPoint.

Annette Brooke: To ask the Secretary of State for Children, Schools and Families whether practitioners will be able to access the ContactPoint database remotely; and if he will make a statement. [268455]

Beverley Hughes: Practitioners will be able to access ContactPoint remotely (i.e. from locations other than local authority, health service or national partner organisations premises) only via secure remote access solutions authorised and provided by those organisations and compliant with the ContactPoint security policy. Technical security measures prevent access from unsecured wireless broadband or public locations such as internet cafes and wireless "hotspots".

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what steps have been taken to ensure that users of ContactPoint will not be able to save information from the database onto a portable storage device or laptop computer; and if he will make a statement. [268696]

Beverley Hughes: ContactPoint has been purposely designed so that users are not able to download information from the database onto removable media such a portable storage device or a laptop computer.

Children: Protection

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families how many serious case reviews have been received by his Department in each year since their introduction, broken down by local authority; and if he will make a statement. [247814]

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what serious case reviews received by his Department had been sent by each local authority since 1 January 2007; and on what date each was received. [258652]

Beverley Hughes: Local Safeguarding Children Boards (LSCBs) are asked to provide an anonymised copy of each full Serious Case Review (SCR) to the Department for Children, Schools and Families as soon as possible after the publication of the executive summary. This is to inform biennial overview reports which analyse the key findings from SCRs taken as a whole and identify the implications for policy and practice. Officials follow up any outstanding SCRs to ensure that biennial overview reports are based on as full a set of SCRs as possible.

The latest published biennial overview report for the period 1 April 2003 to 31 March 2005 notes that 161 Serious Case Reviews were included in that study.

The next biennial overview report, covering the period 1 April 2005 and 31 March 2007 and to be published this spring, will draw on around 190 Serious Case Reviews. A further 118 Serious Case Reviews have been received more recently and will be taken into account in future research as appropriate.

Departmental Carbon Emissions

Greg Clark: To ask the Secretary of State for Children, Schools and Families with reference to the answer to the hon. Member for Hayes and Harlington (John McDonnell) of 22 April 2008, *Official Report*, columns 2030-31W, on departmental carbon emissions, if he will make it his policy for his Department to adopt the Carbon Trust's Carbon Management programme. [269284]

Sarah McCarthy-Fry: The Carbon Trust completed a review of our headquarters estate in 2006 as part of an energy management assessment programme. Their findings have been adopted within our carbon management action plans and we report back to the Carbon Trust annually on progress.

The decision not to adopt the Carbon Trust's carbon management programme has been reconsidered. The Carbon Trust carbon management programme would duplicate systems and programmes already in place within our Sustainable Operations Environmental Management System.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department and its predecessor in each year since 2005; and at what cost. [268272]

Sarah McCarthy-Fry: The information as requested is not held centrally within the Department for Children, Schools and Families (DCSF). To respond fully would involve an information collection exercise which would exceed the recommended disproportionate cost threshold.

Departmental Energy

Greg Clark: To ask the Secretary of State for Children, Schools and Families what steps have been taken by his Department to improve the thermal efficiency of its buildings in the last 12 months. [266751]

Sarah McCarthy-Fry: The Department for Children, Schools and Families commissioned a report from the Carbon Trust to investigate the thermal efficiency of its buildings. This established that, in our current estate, steps to address thermal efficiency were not economically viable and other energy efficiency investments represented far better value for money to the Treasury. We do however re-visit this recommendation annually to reassess its viability and include thermal efficiency in any major estate projects.

Departmental Ministerial Policy Advisers

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the amount his Department paid to Sir Roger Singleton for his services as chief adviser on the safety of children in respect of the financial year 2008-09. [269797]

Beverley Hughes: Sir Roger Singleton's appointment to the role of Chief Adviser on the Safety of Children took effect from 1 April 2009. He received no remuneration for his services as Chief Adviser in the financial year 2008-09.

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005. [268255]

Sarah McCarthy-Fry: The information as requested is not held centrally within the Department for Children, Schools and Families (DCSF). To respond fully would involve an extensive information collection exercise which would exceed the recommended disproportionate cost threshold.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [268297]

Sarah McCarthy-Fry: The information as requested is not held centrally within the Department for Children, Schools and Families (DCSF). To respond fully would involve an extensive information collection exercise which would exceed the recommended disproportionate cost threshold.

Family Nurse Partnership Programme

Mr. Lansley: To ask the Secretary of State for Children, Schools and Families how the £30 million allocated to the future expansion of the Family Nurse Partnership under the Comprehensive Spending Review 2007 will be allocated to each area; whether the evaluation of the Family Nurse Partnership pilots has been completed; in which areas the pilots are being held; and to which other areas he plans to extend the pilot scheme. [269532]

Ann Keen: I have been asked to reply.

The £30 million allocated to the Family Nurse Partnership (FNP) under the comprehensive spending review 2007 will contribute to local costs in up to 70 primary care trust and local authority test sites. It also supports extensive evaluation, the provision of family nurse training, licensed programme materials and implementation advice and guidance. In addition, it is funding a number of development projects to support adaptation of the programme to the English context.

The FNP is currently being tested in 30 areas and a further 20 test sites will start operation in 2009-10, bringing the total to 50[1]. The Child Health Strategy "Healthy lives, brighter futures", published on 12 February 2009, set out plans for further expansion of the FNP, to 70 test sites by 2011, with a view to rolling out this support to the most vulnerable first time young mothers across England over the next decade, if research findings are positive. A copy of the strategy has already been placed in the Library.

An evaluation of the first 10 test sites is being conducted by the university of London, Birkbeck. A first year report was published in July 2008, with promising early findings. A copy has been placed in the Library. We hope to publish a report of the second year by this summer. In addition, a randomised controlled trial is starting this month in 18 sites, to test the impact of FNP compared with usual services.

[1] 10 FNP sites started delivery in 2007-08: Barnsley, Derby City, County Durham and Darlington, Manchester, Berkshire East, Southwark, South East Sussex, Somerset, Tower Hamlets, Walsall. 20 sites started in 2008-09: Blackpool, Calderdale, Hastings and Rother, Islington, Milton Keynes, Nottingham City, Plymouth, Southampton, Stockport, Stoke-on-Trent, Birmingham South, Cornwall and Isles of Scilly, Coventry, Cumbria, Hull, Lambeth, Leeds, Liverpool, Northamptonshire and Sunderland.

20 further sites will start operation in 2009-10: Doncaster, Ealing, Kirklees, Medway, Sandwell, Sheffield, Swindon, Telford and Wrekin, Birmingham East and North, Bradford and Airedale, Cambridgeshire, Gateshead Tyne and Wear, Knowsley, Lewisham, Norfolk, Oxfordshire, Wirral, Dudley, Waltham Forest and Hammersmith and Fulham.

GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) in how many schools less than 30 per cent. of eligible pupils achieved *(a)* five GCSEs at grades A* to C including English and mathematics, *(b)* a GCSE at grades A* to C in (i) mathematics, (ii) English literature, (iii) English language, (iv) physics, (v) chemistry and (vi) French, German and Spanish in the last 12 months, broken down by decile of income deprivation based on school location; [257731]

(2) in how many schools less than 30 per cent. of eligible pupils achieved a grade A* to C in *(a)* mathematics, *(b)* physics, *(c)* English literature, *(d)* French, Spanish and German, *(e)* chemistry and *(f)* English language in the last 12 months, broken down by decile of income deprivation affecting children indices. [257732]

Sarah McCarthy-Fry: The information can be provided only at disproportionate cost.

A wide range of information on the attainment of pupils in schools is published in the achievement and attainment tables which are available in the Libraries.

General Certificate of Secondary Education

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) how many and what percentage of pupils who were *(a)* in care and *(b)* not in care gained five or more GCSEs at A* or A including English and mathematics in the most recent year for which figures are available; [262351]

(2) how many and what percentage of pupils who were *(a)* in care and *(b)* not in care did not gain five or more GCSEs at any grade in the most recent year for which figures are available; [262352]

(3) how many and what percentage of pupils who were *(a)* in care and *(b)* not in care did not gain one or more GCSEs at any grade in the most recent year for which figures are available; [262354]

(4) how many and what percentage of pupils who were *(a)* in care and *(b)* not in care did not gain one or more C grades or above at GCSE in the most recent year for which figures are available; [262355]

(5) how many and what percentage of pupils who were *(a)* in care and *(b)* not in care did not achieve an A* or A in any GCSE in the most recent year for which figures are available. [262356]

Beverley Hughes: The OC2 data collection collects information on a range of outcomes for looked after children from local authorities. This information has been published in the Statistical First Release "Outcome Indicators for Children Looked After, Twelve months to 30 September 2007—England" (SFR 08/2008), which is available on the Department's website via the following link:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000785/index.shtml

Information on attainment in schools at Key Stage 4 for children looked after continuously for 12 months compared to all children can be found in table C. This shows the following:

number of pupils in year 11,

the number and percentage who sat at least one GCSE or GVNQ,

the number and percentage who achieved at least 1 GCSE A*-G,

the number who achieved at least five GCSEs at grades A*-G and

the number who achieved at least five GCSEs at grades A*-C.

As the OC2 is an aggregate data collection, these figures cannot be broken down into any further detail for example by subject, number of GCSEs taken or grade.

General Certificate of Secondary Education: Gifted Children

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils registered as gifted and talented gained five or more GCSEs at grade A or A* in the latest year for which figures are available. [260541]

Sarah McCarthy-Fry: In 2008, 39,754 pupils in maintained schools registered as gifted and talented gained five or more GCSEs at grade A or A* or equivalent at the end of KS4.

Israel: Anniversaries

Mr. Amess: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 24 March 2009, *Official Report*, column 358W, on Israel: anniversaries, if he will place in the Library a copy of the speech he made at the Salute to Israel celebration; who drafted the speech; and if he will make a statement. [268562]

Sarah McCarthy-Fry: A copy of the Secretary of State for Children, Schools and Families' speech to the 'Salute to Israel' celebration is available on the Department's website:

http://www.dcsf.gov.uk/speeches/search_detail.cfm?ID=805

The Secretary of State is responsible for the content of his speeches.

National Curriculum Tests

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what percentage of pupils *(a)* eligible and *(b)* not eligible for free school meals were not entered for Key Stage 1 tests in each of the last three years, broken down by reason for non-entry. [268491]

Sarah McCarthy-Fry: Since 2005, schools have only been required to report teacher assessment results at KS1. The information requested is therefore not available.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of the report of the Qualifications and Curriculum Authority (QCA) inquiry into issues raised by the Sutherland Report, as referred to in the QCA statement of 1 April 2009. [269649]

Sarah McCarthy-Fry: The results of the internal inquiry referred to in the previous answer are reflected in the published statements. The detailed findings of the inquiry are confidential, contain personal data and are subject to legal privilege, and cannot be published.

Performing Arts

John Mason: To ask the Secretary of State for Children, Schools and Families pursuant to the Answer of 18 March 2009, *Official Report*, columns 1248-49W, on performing arts, what the cost was to his Department of engaging actors, musicians and other performers supporting the Department's initiatives and campaigns since June 2007. [267470]

Sarah McCarthy-Fry *[holding answer 31 March 2009]*: Since its inception, in June 2007, the Department has spent a total of £85,205, excluding VAT, paid to actors, musicians and performers for appearance in some of the Department's marketing campaigns.

Pupil Exclusions

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many pupils who were eligible for free school meals and had non-statemented special educational needs were given *(a)* fixed-term and *(b)* permanent exclusions in (i) 2004 and (ii) 2008. [269136]

Sarah McCarthy-Fry: Exclusions data were matched to pupil characteristics for the first time in 2005/06, but for secondary schools only. In 2006/07 this was extended to primary and special schools. Therefore exclusions related to free school meal eligibility are not available for 2004.

Information on exclusions for the 2007/08 school year is expected to be published in the summer.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many pupils who were eligible for free school meals, had statemented special educational needs and were children in care were given *(a)* fixed-term and *(b)* permanent exclusions in (i) 2004 and (ii) 2008. [260917]

Sarah McCarthy-Fry: Currently available sources of data on children in care do not provide sufficiently complete data to answer this question.

Information on children in care is usually sourced from the Looked After Children database but this cannot be used to answer this question.

The OC2 data collection collects information on a range of outcomes for looked after children from local authorities. This information has been published in the Statistical First Release "Outcome Indicators for Children Looked After, Twelve months to 30 September 2007—England" (SFR 08/2008), which is available on the Department's website via the following link:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000785/index.shtml

This includes some information on permanent exclusions. Information on fixed period exclusions is not covered by the OC2 data collection.

Information on both pupils in care and fixed period exclusions are collected via the School Census. However the School Census does not cover all looked after children; information is not collected for pupils in alternative provision, including pupil referral units, FE colleges, voluntary provision and those not in education or training. In addition, the School Census may undercount the number of looked after children in schools.

The Department is working on a project to match the Looked After Children database to the National Pupil Database. If successful this would enable us to produce analysis for looked after children on a range of attainment indicators and characteristics, including information on special educational needs and exclusions.

Pupil Exclusions: Special Educational Needs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils who were eligible for free school meals and had special educational needs were given *(a)* fixed-term and *(b)* permanent exclusions in each year since 1997. [262106]

Sarah McCarthy-Fry: Data on pupil characteristics linked to exclusions were collected in the School Census for the first time in 2005/06, but were collected from secondary schools only. In 2006/07 data were also collected from primary and special schools. The special educational needs status can change between periods of exclusion and the Department is currently working on a methodology for the analysis of this information.

Pupil Referral Units

Tim Loughton: To ask the Secretary of State for Children, Schools and Families which pupil referral units *(a)* opened and *(b)* closed in 2008. [256829]

Sarah McCarthy-Fry: The numbers of Pupil Referral Units (PRUs) opened and closed in 2008 were 32 and 25 respectively.

The following two lists name the relevant PRUs:

Pupil Referral Units opened in 2008

Ashford and Shepway Alternative Curriculum PRU
Canterbury and Swale Alternative Curriculum PRU
Dartford and Gravesham
Maidstone and Malling Alternative Curriculum PRU
Thanet and Dover Alternative Curriculum PRU
Tonbridge, Tunbridge Wells and Sevenoaks Alternative Curriculum PRU
Nexus Centre
The Gateway Centre

Pupils: Disadvantaged

Mr. Waterson: To ask the Secretary of State for Children, Schools and Families how many children in *(a)* Eastbourne and *(b)* East Sussex received free school meals in each of the last 10 years. [267247]

Sarah McCarthy-Fry: The requested information is shown in the table, together with the numbers of children eligible for free school meals.

Maintained nursery and primary schools[1] and state-funded secondary schools[1,2]: pupils taking[3] and known to be eligible for free school meals: As at January each year in East Sussex local authority and Eastbourne parliamentary constituency

East Sussex local authority

[1] Includes middle-schools as deemed.

[2] Includes city technology colleges and academies

[3] Number of pupils who took a free school meal on the day of the January census

[4] Prior to 2003, this includes all full-time and part-time pupils who are solely registered, excluding boarding pupils. Due to underlying changes in data collection , this coverage was extended to also include all pupils with dual (main) registration and boarding pupils, from 2003.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number and proportion of pupils who may be eligible for free school meals but whose parents have not applied for them; and if he will make a statement. [267737]

Sarah McCarthy-Fry: Information on the number of pupils who may be eligible for free school meals but do not submit a claim is not collected by the Department.

The latest information on free school meals is published in Table E38, B9 and B20 of the Statistical First Release 09/2008: Pupil Characteristics and Class Sizes in Maintained Schools in England: January 2008, this can be found at this website;

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000786/index.shtml

Mr. Newmark: To ask the Secretary of State for Children, Schools and Families how many children in *(a)* Braintree, *(b)* Essex and *(c)* England received free school meals in each year since 1997. [268034]

Sarah McCarthy-Fry: The requested information is shown in the table, together with the numbers of children eligible for free school meals. The numbers receiving free school meals on Census day are regarded as fewer representatives than the numbers eligible.

School Census

The information has been taken from Statistical First Release 09/2008: Pupil Characteristics and Class Sizes in Maintained Schools in England: January 2008 which can be found at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000786/index.shtml

No information is collected on the number of pupils who may be eligible for free school meals but do not submit a claim nor of children who may be living in poverty but are not eligible to receive free school meals.

Regional Ministers: Travel

Andrew Mackinlay: To ask the Secretary of State for Children, Schools and Families whether the Permanent Secretary of his Department has authorised expenditure on travel costs for the parliamentary assistant to the Minister for the North West in accordance with the circumstances envisaged in the Cabinet Secretary's letter to Permanent Secretaries of 2 December 2008. [267159]

Beverley Hughes: Since guidance was issued by the Cabinet Secretary on 2 December 2008, the permanent secretary has not authorised any expenditure on travel costs for the parliamentary assistant to the Minister for the North West. Prior to that, the Department paid transport costs for the parliamentary assistant to attend an event in November in the Minister's place when she was unable to attend due to parliamentary business.

Schools: Children In Care

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the Answer of 24 January 2009, *Official Report*, columns 753-54W, on schools: children in care, in which local authority each school is located. [260996]

Beverley Hughes: The requested information has been placed in the Library.

Special Educational Needs: Disadvantaged

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils in each decile of income deprivation affecting children indices had statements of special educational needs in *(a)* Essex, *(b)* Southend, *(c)* Thurrock and *(d)* Castle Point in each of the last five years. [267442]

Sarah McCarthy-Fry: The requested information for the years 2004 and 2008 is given in the following tables.

Information for each of the last five years can be provided only at disproportionate cost.

(a) Essex local authority

Teachers: Crimes of Violence

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the effects of levels of violence and intimidation from pupils towards teachers; and what steps the Government is taking to reduce these levels. [264510]

Sarah McCarthy-Fry: Any violence against school staff is totally unacceptable.

We do not collect data specifically on levels of violence and intimidation from pupils towards teachers, but do regularly collect data on the number of permanent exclusions for physical assault on an adult and verbal abuse/threatening behaviour against an adult.

In 2006/07, there were 8,560 fixed period and 680 permanent exclusions in state funded secondary schools for physical assault on an adult, and 81,770 fixed period and 780 permanent exclusions were for verbal abuse/ threatening behaviour against an adult. This is in a system with about 7 million pupils and about 750,000 staff. These figures suggest that schools are taking a firm line on violence, and that the overwhelming majority of schools are orderly places.

In April, we plan to launch guidance on preventing and tackling the cyberbullying of school staff. We are also promoting development of Safer School Partnerships with the police and other agencies and have made clear that we want these to become the norm rather than the exception in schools.

We are also planning to introduce a new duty on schools in Regulations to record all incidents of physical or verbal abuse towards school staff. This new duty will encourage more widespread and effective reporting, appropriate responses and prevention work. It will also send out a clear message to school staff that the issue will be taken seriously and acted upon. The duty will be included in wider Regulations which, subject to successful passage through Parliament, will require schools to record incidents of bullying among pupils. We are planning to launch a full public consultation on draft Regulations this summer.

Truancy

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the absence rate in *(a)* primary and *(b)* secondary schools in each decile of area deprivation was in 2007-08, broken down by reason for absence; and if he will make a statement. [261604]

Sarah McCarthy-Fry: The information is as follows:

(a) Pupil[1] absence rate[2] in primary schools[3] by reason and IDACI[4] decile of school location, 2007/08

[1] Pupils aged between 5 and 15 at the start of the academic year. Excludes boarders.

[2] Percentage of possible sessions missed based on absence totals as reported by reason.

[3] Includes middle schools as deemed.

[4] Income Deprivation Affecting Children Indices.

[5] Includes absence returned as either authorised or unauthorised totals but not broken down by reason.

[6] Includes maintained secondary schools, city technology colleges and academies.

Source:

School Census (aggregate of 2007/08 Autumn, Spring and Summer terms)

It is widely recognised, as the data demonstrate, that absence rates increase in areas of high deprivation. Our aim is to reduce all forms of absence and through the National Strategies we are providing intensive support and challenge to those local authorities with high persistent absence, ensuring that all of the targeted schools in their authority are implementing agreed actions to reduce their absence rates.

Truancy: Bexley

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families how many days of truancy were recorded in *(a)* primary and *(b)* secondary schools in the London Borough of Bexley in each of the last three years. [251018]

Sarah McCarthy-Fry: Information is collected on unauthorised absence.

Unauthorised absence is absence without leave from a teacher or other authorised representative of the school. This includes all unexplained or unjustified absences, such as lateness, holidays during term time not authorised by the school, absence where reason is not yet established and truancy. Information collected by DCSF on absence is a more comprehensive measure of children's missed schooling.

Information about pupil absence in maintained primary and secondary schools in Bexley local authority has been provided for the years 2006-07 and 2007-08. In 2005-06 the School Census started to collect attendance data at individual pupil level from secondary schools only.

Primary and state-funded secondary schools[1] pupil absence by type of school 2005-06, 2006-07 and 2007-08: Bexley local authority

	Primary schools[1]			*State funded secondary schools[1,2]*		
	Percentages of half days missed[3]			*Percentages of half days missed[3]*

n/a = Not available
[1] Includes middle schools as deemed.
[2] Includes maintained secondary schools, city technology colleges and academies
[3] The number of sessions missed due to authorised/unauthorised/overall absence expressed as a percentage of the total number of possible sessions.

The latest available published information on absence, which includes information for local authorities, is published as SFR 03/2009 'Pupil Absence in Schools in England, including Pupil Characteristics: 2007-08' at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000817/index.shtml.

Truancy: Fines

Sandra Gidley: To ask the Secretary of State for Children, Schools and Families how many parents have been fined as a result of their children not attending school in *(a)* Southampton, *(b)* Test Valley borough and *(c)* the ceremonial county of Hampshire for each of the last five years. [269790]

Sarah McCarthy-Fry: The Ministry of Justice collects data for England and Wales on prosecutions brought against parents under the Education Act 1996 for the offence under s444(1) of failing to secure their child's regular attendance at school; and for prosecutions under s444(1A), the aggravated offence of knowing that their child is failing to attend school regularly. It is possible, because of the way courts record data that some data are collected under the more general heading of various offences under the Education Act 1996.

The information on the number of parents sentenced and given fines as sentence in the Hampshire area, which includes Southampton, is detailed in the following table. The Ministry of Justice only collects information on prosecutions based on police force regions.

The Department also collects and publishes data on penalty notices (fines) issued by local authorities in England to parents for not securing their child's regular attendance at school. The figures for Hampshire and Southampton local authorities for the last four school academic years since the data collection began are detailed in the following table.

Data are only collected on local authority basis.

Adults sentenced for child truanting offences[1] in the Hampshire police force area, 2003-07

		Fined
2003	Parent failing to secure their child's regular attendance at school	35
	Parent knowing that their child is failing to attend school regularly failing without reasonable justification to cause him or her to attend school	0
2004	Parent failing to secure their child's regular attendance at school	47
	Parent knowing that their child is failing to attend school regularly failing without reasonable justification to cause him or her to attend school	1
2005	Parent failing to secure their child's regular attendance at school	17
	Parent knowing that their child is failing to attend school regularly failing without reasonable justification to cause him or her to attend school	0
2006	Parent failing to secure their child's regular attendance at school	17
	Parent knowing that their child is failing to attend school regularly failing without reasonable justification to cause him or her to attend school	0
2007	Parent failing to secure their child's regular attendance at school	5
	Parent knowing that their child is failing to attend school regularly failing without reasonable justification to cause him or her to attend school	1

[1] These data are extracted on the principal offence basis where offender is found guilty and convicted.

Note:

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns the detail collected is subject to the inaccuracies inherent in any large scale recording system.

COMMUNITIES AND LOCAL GOVERNMENT

Departmental Pay

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much was spent on salaries for her Department's staff working on matters relating to housing in each of the last five years. [265003]

Mr. Khan: Details of staff salaries are recorded on the Department's payroll but cannot be disaggregated to identify staff working on matters relating to housing in each of the last five years without incurring a disproportionate cost.

Please note that the following table shows salaries for staff in CLG's housing group. It does not include legal/planning staff who may spend a percentage of their staff or time working on housing related issues, cross-cutting departments who are interlinked with housing and staff who work on other general housing 'related' issues who are not within one of the above directorates.

£

	2004	*2005*	*2006*	*2007*	*2008*
Housing Delivery and Homelessness	3,394,518	3,672,511	4,006,181	3,923,237	4,959,424
Housing Management and Support	1,829,219	2,029,641	2,268,074	1,911,041	2,855,991
New Homes and Sustainable Development	1,327,855	1,443,538	1,603,200	1,924,569	2,805,768
Total	6,551,592	7,145,690	7,877,455	7,758,847	10,621,183

Regional Planning and Development: South East

Anne Milton: To ask the Secretary of State for Communities and Local Government when she expects to publish the South East Plan. [270049]

Mr. Khan: Our intention to publish the Regional Spatial Strategy for the South East remains as previously stated to the hon. Member, that is publication in the spring.

Regional Spatial Strategies

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to paragraph 6.5 of her Department's document entitled Local Democracy, Economic Development and Construction Bill: policy document on regional strategies, if she will place in the Library a copy of the business planning guidance issued to regional assemblies by her Department. [268691]

John Healey: I have done so.

CULTURE, MEDIA AND SPORT

Internet: Marketing

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport when his Department plans to respond to the proposals for a system of self-regulation of all types of online media marketing communications referred to in the Byron Review Action Plan. [268940]

Barbara Follett *[holding answer 20 April 2009]:* The Advertising Association's Digital Media Group has been examining this issue and Professor Byron recommended that progress be reviewed when the conclusions of the assessment of the impact of the commercial world on children's well-being are received. I understand that the Group continues to work on a practicable and effective way forward to address the concerns identified in the Byron Review about those online marketing communications not already covered by the Committee of Advertising Practise (CAP) Code. We look forward to their securing the necessary agreements across industry to resolve any outstanding issues.

DUCHY OF LANCASTER

10 Downing Street: Repairs and Maintenance

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what the *(a)* purpose and *(b)* budget of the works in 10 Downing Street with Westminster City Council planning application reference 09/00619/LBC is. [269905]

Kevin Brennan: I refer the right hon. Member to the answer given by the Secretary, Cabinet Office, my hon. Friend the Member for West Bromwich, West (Mr. Watson) to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 20 March 2008, *Official Report*, column 1303W.

Death: Clostridium

Mr. Evans: To ask the Chancellor of the Duchy of Lancaster how many deaths were caused by clostridium difficile infection in patients aged *(a)* under 65 years and *(b)* 65 years and over in each of the last 10 years; and if he will make a statement. [269146]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 22 April 2009:

As National Statistician I have been asked to reply to your recent question asking how many deaths were caused by Clostridium difficile infection in patients aged (a) under 65 years and (b) 65 years and over in each of the last 10 years. (269146)

The attached table provides the number of deaths where Clostridium difficile was recorded as the underlying cause of death for persons aged (a) under 65 years and (b) 65 years and over, in England and Wales, for 1999 and 2001 to 2007 (the latest year available). Figures for 1998 and 2000 are not available.

Although Clostridium difficile is defined by the Health Protection Agency as a healthcare associated infection, it is not possible to state whether the deceased was a patient at the time of death, or where the infection was acquired.

Table 1. Deaths with an underlying cause of Clostridium difficile[1], England and Wales[2], 1999 and 2001-07[3, 4]

		Deaths (persons)
	Under 65 years	*65 years and over*
1999	18	513
2001	17	676
2002	19	735
2003	29	939
2004	35	1,194
2005	62	2,001
2006	93	3,397
2007	126	3,930

[1] Identified using the methodology described in Office for National Statistics: Report: Deaths involving Clostridium difficile: England and Wales, 2001-2005. Health Statistics Quarterly 33, 71-75.

[2] Figures for England and Wales include deaths of non-residents.

[3] All deaths in England and Wales are coded by the Office for National Statistics according to the International Classification of Diseases (ICD). The Tenth revision (ICD-10) has been used since 2001.
In the Ninth revision of the ICD (ICD-9) there are no specific codes that would allow deaths mentioning Clostridium difficile to be easily identified. Figures for 1998 and 2000 are therefore not available as ICD-9 was used in these years. Deaths registered in 1999 were coded to both ICD-9 and ICD-10 as part of a special study to compare the two ICD revisions, and have therefore been used to give an additional year of data on deaths involving Clostridium difficile.

[4] Figures are for deaths registered in each calendar year.

Departmental ICT

Jenny Willott: To ask the Chancellor of the Duchy of Lancaster what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department in each of the last five years; and if he will make a statement. [269541]

Mr. Watson: In 2007-08 the Cabinet Office used 929,000 kWh of electricity at a cost of £61,000 for its IT services. This equates to carbon dioxide emissions of 401 tonnes. The main category of ICT devices and their energy consumption was:

	kWh	*CO_2 (tonne)*
Desktops	420,000	181
Printing	195,000	84
Data Centre	314,000	135

In June 2007, my Department became part of the public sector flex, a framework for the provision of shared ICT services. Flex provides a number of energy saving measures which are estimated to save the Cabinet Office 84,000 kWh of electricity, equivalent to 36 tonnes of carbon dioxide emissions, during its first year of operation.

The Cabinet Office does not hold separate energy consumption figures of IT services prior to 2007-08.

Jenny Willott: To ask the Chancellor of the Duchy of Lancaster what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269558]

Mr. Watson: The Cabinet Office has already implemented the following steps:

Reducing the number of printers, replacing them with multi-function devices using green printing options.

Increasing average server capacity to over 50 per cent.

Switching monitors to standby after five minutes of inactivity.

Shutting down PCs after office hours and at weekends.

Enabling active power management on desktops.

Ensuring that equipment that is no longer required by the department, can be re-used by other organisations such as charities.

Starting to replace existing servers with storage area networking devices that implement storage virtualisation

The Cabinet Office is implementing public sector flex, a framework offering a shared ICT service open to all public bodies. Under the terms of the contract with the Cabinet Office.

The lifecycle of all end user devices has been extended to five years

The number of PCs and laptops will be reduced to as close to one per person as possible. Internal charging regimes will incentivise the rationalisation.

Thin client technology will be used with low-power consumption CPUs.

Services will be moved to a data centre using server technology that complies with the recommendations in the Greening Government ICT Strategy.

Departmental Lost Property

Paul Holmes: To ask the Chancellor of the Duchy of Lancaster what the cost of replacing property lost or stolen from the Prime Minister's Office was in each year since 1997. [268163]

Kevin Brennan: I refer the hon. Member to the answer I gave to the hon. Member for Glasgow, East (John Mason) on 17 March 2009, *Official Report*, columns 1058-59W.

Departmental Surveys

Grant Shapps: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 3 March 2009, *Official Report*, columns 1447-48W, on departmental staff surveys, if he will place in the Library a copy of the results of the most recent staff survey undertaken by the Cabinet Office. [263641]

Mr. Watson: A copy of the results of the most recent staff survey undertaken by the Cabinet Office is published on the civil service website at the following address:

http://beta.civilservice.gov.uk/Assets/co2007_tcm6-2069.xls

and will be placed in the Libraries of the House.

Energy

Greg Clark: To ask the Chancellor of the Duchy of Lancaster when he next expects a capability review of *(a)* Ofgem and *(b)* the Nuclear Decommissioning Authority to be undertaken. [269277]

Mr. Watson: The Cabinet Office currently has no plans to carry out Capability Reviews of either organisation.

Lobbying

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster when he plans to respond to the first Report of the Public Administration Committee of Session 2008-09 on Lobbying: access and influence in Whitehall. [265780]

Mr. Watson: The Report from the Public Administration Select Committee was published on 5 January. The Government will respond in due course. Before responding, the Government have felt it important to consult a range of interested parties, including different individuals and organisations engaged in lobbying activity and organisations that can offer advice on the experience of other countries, such as the Organisation for Economic Cooperation and Development (OECD).

ELECTORAL COMMISSION COMMITTEE

Billing

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how long on average the Electoral Commission took to make payments to external organisations upon receipt of an invoice in the latest period for which figures are available. [269948]

Sir Peter Viggers: The Electoral Commission informs me that the average time taken to pay invoices during the financial year 2008-09 was 10.2 days.

Electoral Register

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what discussions the Electoral Commission has had with Government Departments following the announcement that individual electoral registration will be introduced in Great Britain. [269911]

Sir Peter Viggers: The Electoral Commission informs me that since 2 March 2009 its staff have attended three meetings with Ministry of Justice officials to discuss the introduction of individual electoral registration (IER) in Great Britain. In addition, the Chair of the Commission, Jenny Watson, has discussed the Government's proposals with the Minister of State for Justice, the right hon. Member for North Swindon (Mr. Wills).

Electoral Register: Northern Ireland

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what assessment the Electoral Commission made of the efficiency of the introduction of individual electoral registration in Northern Ireland. [269945]

Sir Peter Viggers: The Electoral Commission informs me that it has undertaken a number of assessments of the impact and efficiency of individual electoral registration (IER) in Northern Ireland since its introduction in 2002. These include: an assessment of the Electoral Fraud (Northern Ireland) Act 2002 during the first year of its operation; the commissioning of a series of 12 research reports assessing key aspects of IER in Northern Ireland; and, in 2007, research to measure the accuracy and comprehensiveness of the electoral register in Northern Ireland.

The Commission further informs me that it has also undertaken an assessment of IER in the context of its reports on the administration of the 2003 and 2007 Northern Ireland Assembly elections and on the combined 2005 UK Parliamentary and local government elections in Northern Ireland.

All of these reports are available from the Commission's website at:

www.electoralcommission.org.uk.

Political Parties: Finance

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission whether the Electoral Commission plans to place in the Library a copy of the *(a)* Labour party's and *(b)* Liberal Democrat party's submissions to its most recent consultation on the funding of political parties. [269946]

Sir Peter Viggers: The Electoral Commission informs me that its most recent consultation on the funding of political parties took place in 2006 as part of a contribution to Sir Hayden Phillips' review of that subject.

That consultation consisted of a series of round-table meetings with representatives from UK political parties, including the Labour Party and the Liberal Democrats, on issues relating to election expenditure.

The Commission further informs me that it did not invite written submissions as part of the consultation. However, copies of the Commission's notes of the round-table discussions have been placed in the Library.

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission with reference to the answer to the hon. Member for Meriden (Mrs. Spelman) of 6 October 2008, *Official Report*, column 84W, on political parties: finance, what the timetable is for the completion of a final impact assessment. [270168]

Sir Peter Viggers: The Electoral Commission informs me that on 2 April 2009 it announced that, following detailed discussions with parties, it has decided not to introduce mandatory new standard requirements for party statements of accounts in 2010, as originally planned.

The Commission has said that it will continue to develop proposals for mandatory requirements and will liaise with the parties to develop a new timetable for this project. It will issue an impact assessment when it consults on the detail of its proposals. A copy of the Commission's statement has been placed in the Library of the House.

Redundancy Pay

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission pursuant to the answer of 26 February 2009, *Official Report*, columns 935-6W, on redundancy, whether the redundancy payments exceeded the minimum amounts which the Electoral Commission was obliged to pay by statute. [269944]

Sir Peter Viggers: The Electoral Commission informs me that redundancy payments are made in accordance with the Civil Service Compensation Scheme. Payments under the scheme exceed the minimum statutory amounts.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bluetongue Disease: Vaccination

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department has placed an order for supplies of blue tongue vaccine BTV1. [270074]

Jane Kennedy: No orders have been placed for supplies of BTV-1 vaccine. DEFRA continues to closely monitor the disease situation in Europe and is working with experts and vaccine manufacturers to consider possible disease incursion scenarios so we are able to deploy proportionate responses if the threat of a BTV-1 disease incursion increases significantly.

Bovine Tuberculosis: Disease Control

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect on animal health in counties in England on the border with Wales should the Welsh Assembly Government decide to pursue a strategy of culling to reduce the level of bovine tuberculosis. [268698]

Jane Kennedy: The announcement by the Welsh Minister on 24 March of an Intensive Action Pilot Area involving badger culling has no immediate implications for England; however, we will follow its implementation with interest.

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs if he will consider the merits of culling badgers in England to reduce levels of bovine tuberculosis in the English herd; and if he will make a statement. [270012]

Jane Kennedy: My right hon. Friend the Secretary of State has considered the wide range of evidence surrounding the role badger culling could play in the control of bovine TB and he announced the Government's policy on 7 July 2008, *Official Report*, columns 1153-1158.

The policy is that no licences will be issued for culling badgers for the purpose of preventing the spread of bovine tuberculosis (TB) in cattle, although the Government remain open to the possibility of revisiting this policy under exceptional circumstances, or if new scientific evidence were to become available.

Bovine Tuberculosis: Vaccination

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the likely effects of his Department's badger vaccination scheme on the incidence of bovine tuberculosis in cattle. [267815]

Jane Kennedy: Vaccinating badgers will reduce the risk of badgers catching the disease and therefore reduce the risk of transmission from badgers to cattle. However, badgers are not the only transmission route for TB so cattle will still be at risk from TB eg through cattle-to-cattle and other transmission routes.

Departmental Buildings

Dr. Pugh: To ask the Secretary of State for Environment, Food and Rural Affairs what buildings are owned or operated by his Department under a private finance initiative (PFI) arrangement; and which companies are involved with each such PFI arrangement. [267413]

Huw Irranca-Davies: The Department occupies a single office building in Cambridge under a leasing agreement which operates under a private finance initiative structure.

The Department has retained the freehold ownership of the land, granted a long lease to the provider and taken an operating lease of the office building which is shared with other public sector occupiers.

The current operator is Eastbrook Facilities Ltd., a subsidiary of Infrastructure Managers Ltd.

Departmental Carbon Emissions

Greg Clark: To ask the Secretary of State for Environment, Food and Rural Affairs for how long his Department has followed the Carbon Trust's Carbon Management programme. [269286]

Jane Kennedy: DEFRA signed up to The Carbon Trust's Carbon Management Programme in October 2006. Since then, DEFRA has gained accreditation for its entire estate (core and executive agencies) to the Carbon Trust sponsored Energy Efficiency Accreditation Scheme in July 2007 and The Carbon Trust Standard for its office estate in June 2008.

Departmental Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff in his Department *(a)* were disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last 12 months. [262232]

Huw Irranca-Davies: Formal warning and dismissals for poor attendance are conducted in line with DEFRA's "Unsatisfactory Attendance Policy and Procedures" which are available to staff via DEFRA's intranet.

During the past year (April 2008 to March 2009) 74 people have been disciplined and contracts with eight terminated as a result of poor sickness record within core DEFRA and its agencies.

The following table breaks this down for each of the past 12 months.

	Discipline	*Termination*
2008:		
April	5	1
May	7	0
June	6	0
July	9	1
August	4	0
September	6	0
October	7	2
November	6	1
December	3	1
2009:		
January	8	1
February	7	1
March	6	0
Total	74	8

Departmental Manpower

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* permanent, *(b)* agency and *(c)* temporary staff on contracts of (i) up to three months, (ii) between three and six months, (iii) between six and 12 months and (iv) 12 months or more there are in each directorate of his Department. [264288]

Huw Irranca-Davies: The number of permanent and temporary staff (short-term appointments) in DEFRA is shown in the table. All figures are headcount. The number of staff in core DEFRA is broken down by group as the directorates no longer exist in the Department's organisational structure.

Information on the numbers of employment agency staff is not held centrally and cannot be provided without incurring disproportionate cost.

		Temporary staff				
		Contract length				
	Permanent staff	*Up to three months*	*Between three and six months*	*Between six and 12 months*	*12 months or more*	*Total*
DEFRA group						
Environment and Rural	614	2	4	1	1	8
Finance and Commercial	489	6	1	5	2	14
Food and Farming	596	3	0	1	0	4
Legal and Strategic Human Resources	248	1	0	1	0	2

		Temporary staff				
		Contract length				
	Permanent staff	Up to three months	Between three and six months	Between six and 12 months	12 months or more	Total
Strategy and Evidence	443	5	2	4	1	12
DEFRA total	2,390	17	7	12	4	40
Executive agencies						
Animal Health	1,622	26	27	11	0	64
Centre for Environment, Fisheries and Aquaculture Science	548	0	0	0	0	0
Food and Environment Research Agency	840	2	8	15	0	25
Marine and Fisheries Agency	198	0	1	0	1	2
Rural Payments Agency	3,448	0	0	0	0	0
Veterinary Laboratories Agency	1,307	6	2	6	0	14
Veterinary Medicines Agency	149	0	0	0	0	0
DEFRA and agencies total	10,502	51	45	44	5	145

Departmental Official Hospitality

Mr. Rob Wilson: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on *(a)* alcohol and *(b)* food in each of the last five years. [261166]

Huw Irranca-Davies: From information held centrally, the Department's expenditure on food for the last three years is as follows:

	£
2006-07	1,296,450.76
2007-08	1,407,220.50
April 2008 to February 2009	1,270,359.75

These figures are based upon a combined total expenditure on food and beverages, and the ratio of food to beverage is 55 per cent. to 45 per cent. A detailed analysis of the breakdown of the expenditure on food and beverages, and for each of the last five years, could be provided only at disproportionate cost.

The core Department's financial system has no expenditure category for alcohol. The core Department's catering services provider does not hold a license to serve alcohol. As a general rule, expenditure on alcohol for hospitality purposes is not allowed. Were alcohol to be purchased for hospitality purposes it should be acquired through formal purchase order, or through the Government Procurement Card, both of which methods are subject to formal authorisation procedures. All expenditure including that on hospitality has to be incurred in accordance with the principles of managing Public Money and the Treasury handbook on Regularity and Propriety.

Departmental Public Consultation

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what payments for *(a)* polling and *(b)* other services his Department has made to (i) Deborah Mattinson and (ii) Opinion Leader Research Ltd since 31 December 2007; and if he will make a statement. [261057]

Huw Irranca-Davies: The following table shows what payments DEFRA has made for polling and other services to Opinion Leader Research, co-owned by Deborah Mattinson, since December 2007.

	Project title	Total cost £ (ex VAT)
2007-08	Public understanding of sustainable consumption of food	12,735
2008-09	Citizens summit	7,500

Departmental Recruitment

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 26 February 2009, *Official Report*, column 913W, on departmental recruitment, what estimate he has made of the annual salary cost of *(a)* permanent, *(b)* temporary and *(c)* agency staff recruited by his Department in each year since 2005-06. [264285]

Huw Irranca-Davies: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Visits Abroad

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how much expenditure was incurred in respect of overseas visits which *(a)* he, *(b)* other Ministers in his Department and *(c)* his Department's senior officials undertook in 2008. [262182]

Huw Irranca-Davies: From information held centrally, for the period January 2008 to December 2008 inclusive, the information requested is *(a)* £23,313.10 *(b)* £49,534.00 and *(c)* £352,819.41 respectively.

Since 1999, the Government have published a list of all overseas travel by Cabinet Minsters costing over £500. Information for the financial year 2007-08 was published on 22 July 2008, *Official Report*, column 102WS and for the first time, included details of overseas visits undertaken by all Ministers. All travel by Ministers is undertaken in accordance with the Ministerial Code and by officials in accordance with the Civil Service Management Code. Ministers and officials are required to make efficient and cost-effective travel arrangements.

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs how many local authorities charge for the provision of bags for the collection of residual household waste. [269975]

Jane Kennedy: I refer the hon. Member to the answer I gave to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 5 February 2009, *Official Report*, column 1395W.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what the timetable is for the Waste and Resources Action Programme to end home compost bin subsidies. [269984]

Jane Kennedy: The Waste and Resources Action Programme stopped subsidising compost bins at the end of March 2009.

Flood Control: Finance

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on flood prevention in each year since 2000. [269720]

Huw Irranca-Davies *[holding answer 20 April 2009]*: DEFRA has overall policy responsibility for flood and coastal erosion risk management in England and funds most of the Environment Agency's flood related work.

The following tables provide an analysis of Government funding to the Environment Agency for its flood risk management function between 2000-01 and 2007-08. The figures are based upon the annual report and accounts of the Environment Agency.

Until 2004-05 the flood risk management function of the Environment Agency was funded primarily through a combination of grants from DEFRA for specific projects and levies on local authorities.

Table 1 shows the funding provided to the Agency from the levies and capital grant.

Table 1: Local authority levies and capital grants 2000-01 to 2003-04

	£ million
2000-01	235.0
2001-02	248.9
2002-03	285.6
2003-04	309.8

Both forms of funding were largely replaced by Grant in Aid from DEFRA from 2004-05 onwards. Table 2 shows DEFRA Grant in Aid and also the remaining Local Levy Expenditure which is raised by county councils and unitary authorities.

Table 2

£ million

	Local Levy Expenditure 2004-05 to 2007-08	*DEFRA Grant in Aid 2004/5 to 2007-08*
2004-05	13.0	355.6
2005-06	19.7	420.6
2006-07	28.8	419.2
2007-08	20.4	438.9

The Environment Agency decides how best to use Grant in Aid to achieve outcomes agreed with Government.

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how much is planned to be spent on coastal defences in 2009-10. [269721]

Huw Irranca-Davies *[holding answer 20 April 2009]*: The Environment Agency is responsible on behalf of DEFRA for administering capital grants to local authorities which promote and deliver coastal protection schemes.

The grant allocation for 2009-10 for coastal protection schemes is £28 million.

Source:

Environment Agency Flood Defence Grant in Aid allocation process

Food: Exports

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many applications for export refunds have been approved within the last 12 months for *(a)* pigmeat, *(b)* milk and milk products, *(c)* poultry, *(d)* eggs and *(e)* beef and veal; and what quantity of each product was subject to refund. [264783]

Jane Kennedy *[holding answer 23 March 2009]*: The number of export refund applications, the amount paid and quantity of export refund for each livestock sector in the UK over the last 12 months can be found in the table:

Sector	*Refund applications*	*Amount paid (£)*	*Refund quantity*
Eggs	156	152,010.51	24,222,688
Poultry	180	11,512.59	1,590,506
Pigmeat	420	200,346.13	1,105,228.84
Beef and veal	0	0	0
Milk and milk products	60	31,345.43	130,434.13

Note:

The quantity of export refunds for eggs and poultry is recorded as number of refunds, and the quantity for pigmeat and milk and milk products is recorded in kilograms.

Land Use

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs on average how much and what proportion of land in England was designated as farmland in each decade since 1979. [269325]

Jane Kennedy: The following table shows the total area of land on registered agricultural holdings in England in each of the past five years since 1979, along with the proportion of English land covered by these holdings. The agricultural area does not include common grazing land as this is not solely owned by farmers.

	Total agricultural area on holdings (000 ha)	*% area of England on agricultural holdings*
1979	9,560.9	73.3
1984	9,518.1	73.0
1989	9,458.2	72.5
1994	9,442.8	72.4
1999	9,247.6	70.9
2004	9,166.9	70.3
2008	9,339.0	71.6

Notes:

1. The area of England used throughout is 13.04 million hectares, taken from the 2001 Population Census.

2. The introduction of the single payment scheme in 2005 has lead to an increase in the number of registered holdings and hence, area.

3. The total agricultural area on holdings is taken from the annual June Survey of Agriculture.

Marine Environment: Nature Conservation

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what scientific research his Department has evaluated on the percentage of marine habitats that should be protected within a Marine Protected Area network; and if he will make a statement. [269326]

Huw Irranca-Davies: DEFRA and its conservation agencies have commissioned a total of 21 projects to inform the selection process for Marine Conservation Zones (MCZs) and the establishment of a network of Marine Protected Areas (MPAs). An additional 20 projects have also been commissioned by the Countryside Council for Wales, Scottish Executive, and Scottish Natural Heritage. Further work has been commissioned by Natural England and the Joint Nature Conservation Committee (JNCC) to look at issues of representativity and replication, and the usefulness of percentage habitat targets within an MPA network.

A table providing further details on all known research projects relating to MCZ designation has been placed in the Library of the House. This list includes research occurring in Welsh and Scottish territorial waters, as well as collaborative research DEFRA has established with the devolved administrations on areas where there is mutual benefit to do so. In addition to the projects in the table, the JNCC is currently scoping further research.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will include in his Department's Marine Protected Area strategy measures to introduce highly protected marine reserves; and if he will make a statement. [269328]

Huw Irranca-Davies: The Government published a draft Marine Protected Area Strategy ('Delivering Marine Conservation Zones and European Marine Sites') for public consultation on 20 April. This makes clear the fact that we fully expect to designate Marine Conservation Zones (MCZs) that will have a high level of protection for all, or part of, a designated area. The provisions in the Marine and Coastal Access Bill already allow for this.

Ministers will be able to designate a range of MCZs requiring different levels of protection, determined according to the features we wish to protect and the evidence we have available. Sites requiring a high level of protection could include areas with rare or threatened species or habitats that are susceptible to human activities. In those instances where MCZs are designated with a higher level of legal protection, the DEFRA Secretary of State will be required to report to Parliament in 2012, and at least every six years thereafter, on the number of sites designated where licensable and fishing activities are prohibited, or significantly restricted.

Nature Conservation

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if his Department will bring forward plans to introduce an ecologically coherent network; and if he will make a statement. [269327]

Huw Irranca-Davies: On 20 April DEFRA opened a consultation on a draft strategy document that will set out what we need to do to deliver the Government's commitment to build an ecologically coherent network of marine protected areas. This network will consist of Marine Conservation Zones (MCZs) (to be established under the Marine and Coastal Access Bill) and European marine sites designated under the Birds and Habitats Directives.

Design principles for European sites are established by European law but our aim for ecological coherence will be a national judgment based upon guidance being developed for the network. The draft strategy will be followed by a range of draft guidance (from DEFRA and statutory nature conservation bodies) that will provide the framework for identifying, selecting and designating MCZs.

Pollution: Rivers

Mr. Ancram: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in reducing *(a)* pollution in and *(b)* water abstraction from English rivers since 2005. [268736]

Huw Irranca-Davies: The following table indicates the percentage of rivers in England which are of "good or better quality". Figures for 2008 are due to be published later this year.

	2005	*2006*	*2007*
Chemical quality	73.4	74.4	76.2
Biological quality	71.4	72.1	72.4
Phosphate	55.8	58.9	61.1

The total amount of water abstracted from all sources in England and Wales in 2005 was 57,757 megalitres (Ml) per day and 59,752 in 2006. Figures for 2007 will be available in July 2009. The Environment Agency manages abstraction within sustainable limits of the catchment.

Salmonella

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps his Department has taken to reduce the incidence of salmonella entering the food chain. [269114]

Jane Kennedy: DEFRA continues to work with key industry representatives to implement EC Regulation 2160/2003 on the control of Salmonella in primary production. This provides for the establishment of Salmonella National Control Programmes (NCPs) in all sectors of the poultry and pig industry. The overall objective of the NCPs is to protect public health through the detection and control of Salmonella of human health significance at the farm level. Regulation 2160/2003 sets a general framework for the NCPs which integrates:

Minimum sampling requirements to verify the achievement of a reduction target.

Relevant guides for good biosecurity and animal husbandry.

Measures to be taken following the detection of Salmonella of human health significance.

Three of the NCPs have already been implemented in the UK: the NCP for breeding flocks in 2007 and the NCP for laying flocks in 2008. The NCP for broiler flocks began earlier this year. Similar programmes will be introduced for turkeys next year and then fattening and breeding pigs.

DEFRA has been able to report to the EU Commission that the breeding flock sector has met the requirements of the NCP including the reduction target during the first year of implementation. The NCPs for the layer and broiler sectors should also meet their respective targets.

Although DEFRA leads on the NCPs, the advice and agreement of Food Standards Agency (FSA) officials was sought when developing an implementation strategy for the NCPs in primary production with industry representatives. FSA officials will also be closely involved in the implementation of the NCPs for pigs and turkeys. DEFRA has also collaborated with the FSA on the provision of guidance to farmers on hygiene management at farms, measures to prevent infections and biosecurity during the transport of animals.

Sites of Special Scientific Interest

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost to his Department has been of management of sites of special scientific interest (SSSIs) in *(a)* the last 10 years and *(b)* 2009 to date; and what area of land SSSIs covered in each period. [269722]

Huw Irranca-Davies *[holding answer 20 April 2009]*: We have funding information for Sites of Special Scientific Interest (SSSIs) covering the last nine financial years (2000-01 to 2008-09 inclusive). This information is routinely collated and confirmed at the end of each financial year. The costs cover the funding of SSSI management by DEFRA, including its resourcing of Natural England, the Environment Agency and the Forestry Commission. The costs also include Rural Development Programme for England (RDPE) Agri-Environment schemes, but not the EU co-funded element.

From 2000-01 to 2008-09 inclusive, the total cumulative cost of managing SSSIs was £339,895,000. During this period the SSSI area increased from 1,053,796 ha in 2000 to 1,077,086 ha in 2009. The total costs for the 2008-09 year are awaiting confirmation and collation, but we estimate these will be £56,750,000. We do not currently have this aggregated information broken down by quarter to specifically address the January to March 2009 period.

Squirrels

Mr. Ancram: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on controlling the grey squirrel population since 2005. [268737]

Huw Irranca-Davies: "Grey Squirrels and England's Woodlands: Policy and Action" was published in January 2006 and this set out the role of the Forestry Commission and specific actions to be taken. These include researching new methods of control, advice on best practice, grants for woodland owners, supporting partnerships and applying best practice on the public forest estate. Implementation of the actions has resulted, for example, in collaboration on research into the potential use of immuno-contraception as a method for population control of grey squirrels. This is part of a larger DEFRA-led project looking at proving the concept of fertility control methods for a range of species.

Grant schemes administered by the Forestry Commission, specifically for the control of grey squirrels and woodland management activities, in and around the designated red squirrel reserves in north England, totalled £265,384 between 2006-07 and 2008-09. On the public forest estate the Forestry Commission is concentrating its resources on its woodlands within the designated red squirrel reserves and surrounding buffer zones.

Support of partnership and co-operative action has seen support worth £26,000 a year from the Forestry Commission and £15,000 a year from Natural England to the Save our Squirrels project. This is a £1.1 million three year project, started in 2006 to deliver advice to landowners, co-ordinating squirrel control in the red squirrel reserve buffer zones, promote grants, raising public awareness and gaining further funding for squirrel conservation work.

In addition the Red Squirrel Protection Partnership, based in Northumberland was awarded a three year £148,000 grant in June 2006 from the Rural Enterprise Scheme to support the control of grey squirrels in the county to help protect the red squirrel reserves.

Waste Disposal: Fees and Charges

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 12 February 2009, *Official Report*, column 2223W, on waste disposal: fees and charges, what guidance *(a)* his Department and *(b)* the Waste and Resources Action Programme has given to waste collection authorities on the issuing or levying of fines on households which put waste out at times other than those specified by the local authority. [270133]

Jane Kennedy: DEFRA does not advise authorities on how or when to use specific powers but, in line with good practice, it expects authorities to use all the powers available to them proportionately and sensibly, hand in hand with effective communications and support for residents.

HEALTH

Cancer: Health Services

Chris Ruane: To ask the Secretary of State for Health what assessment he has made of the effectiveness of the Cancer Reform Strategy in tackling cancer in its first year of operation. [270011]

Ann Keen: The first annual report of the Cancer Reform Strategy (published in 2007), "Cancer Reform Strategy: Maintaining momentum, building for the future—first annual report", was published on 1 December 2008. The report highlights the considerable progress that has been made on the implementation of the Strategy. A copy of this report has already been placed in the Library.

We will assess the wider impact of the Cancer Reform Strategy by looking at its effect, and that of the NHS Cancer Plan (published in 2000), on mortality rates over an extended period. Mortality rates in people under 75 have fallen by 17 per cent. between 1996 and 2005. This performance means that we are expected to meet our target of a reduction of at least 20 per cent. in cancer death rates in people under 75 by 2010 from the 1995-97 baseline rate.

Care Homes: Closures

Mr. Jamie Reed: To ask the Secretary of State for Health what representations were made by the Anchor Trust to his Department on the closure of its nursing care homes across the North of England in the last 12 months. [267316]

Phil Hope: We are informed that no such representations were made.

Care Homes: Drugs

Mr. Godsiff: To ask the Secretary of State for Health how many *(a)* boys and *(b)* girls are known to have experienced medical complications arising from the administration of behaviour controlling drugs in care homes in the last 30 years; and if he will make a statement. [270039]

Ann Keen: This information is not collected centrally.

Clostridium: Elderly

Mr. Evans: To ask the Secretary of State for Health how many cases of clostridium difficile infection were reported in people aged 65 years and over in each NHS trust area in each of the last 10 years; and if he will make a statement. [269147]

Ann Keen: The information requested is not available as the mandatory surveillance scheme in which acute trusts report all cases of *clostridium difficile* infection in people aged 65 years and over began in January 2004. These data comprise all specimens processed by NHS acute trust laboratories, not just those from in-patients and include infections acquired in hospital and elsewhere.

Data for each trust for the calendar years 2004 to 2007 are published on the Health Protection Agency's website at:

www.hpa.org.uk/web/HPAwebFile/HPAweb_C/1216193834915

The annual totals for England are:

	£
2004	44,563
2005	51,829
2006	55,635
2007	50,461

It should be noted that data are no longer published by calendar year. Data up to financial year 2008-09 will be available in July 2009.

Dental Services

Mike Penning: To ask the Secretary of State for Health how many NHS dentists in England have not met their units of dental activity allocation in each year since the new dental contract was introduced in April 2006. [270030]

Ann Keen: This information is not held centrally.

Departmental Training

Grant Shapps: To ask the Secretary of State for Health how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and which organisations provided such training. [268551]

Mr. Bradshaw: Training is provided to Ministers as necessary in order to carry out their duties effectively under the Ministerial Code.

Information about media training sessions undertaken by previous Ministers is not held centrally. The training organised by the Department that has been undertaken by the current ministerial team during this period is listed as follows:

Two media training sessions have been undertaken by Ann Keen, Parliamentary Under-Secretary of State, at a total spend of £6,600.

Five media training sessions have been undertaken by Lord Ara Darzi, Parliamentary Under-Secretary of State, at a total spend of £9,500.

All of the above training sessions were provided by Millbank Media. The figures given are exclusive of VAT.

Depressive Illnesses

Mr. Jenkins: To ask the Secretary of State for Health how much has been spent on psychological therapies for people with depression in each year since 1997. [270275]

Phil Hope: No information is held centrally about how much the national health service has spent on psychological therapies for people with depression in each year since 1997.

The Government have provided substantial new funding to increase services over the next three years:

£33 million for 2008-09;

a further £70 million to a total of £103 million in 2009-10; and

a further £70 million to a total of £173 million in 2010-11.

On 8 March 2009, my right hon. Friends the Secretary of State for Health and the Secretary of State for Work and Pensions announced an additional £13 million to support a package of measures to help people who are distressed, depressed or anxious as a result of the economic downturn. These measures include a greater provision of talking therapies and a new network of employment support workers.

Health Services: Digital Technology

Alun Michael: To ask the Secretary of State for Health what steps his Department is taking to ensure that the principles of digital inclusion are applied to mainstream health services. [268989]

Mr. Bradshaw: Where digital services are offered to citizens, the Department is working to ensure no citizens are disadvantaged due to access to relevant technology. The Department is participating in the preparation of the cross-government Digital Inclusion Action Plan. The principal channel for tackling digital inclusion is through NHS Choices. In October 2008, NHS Choices launched a new Carers Direct hub on its site aimed at carers of people with disabilities and long-term conditions. NHS Choices is also developing an online training programme aimed at health information intermediaries, who can work with those who lack access to the internet. From April 2009, NHS Choices takes over the NHS Direct digital TV service on Freeview and will be developing this further as an access channel for non-internet users.

Health Services: Hemel Hempstead

Mike Penning: To ask the Secretary of State for Health what recent assessment he has made of the changes in the levels of local demand for *(a)* double-manned ambulances, *(b)* emergency care assistants and *(c)* community first responders following the closure of acute services at Hemel Hempstead hospital. [268886]

Phil Hope: As an operational matter, it is for the local national health service to commission urgent and emergency care services from local service providers with a view to meeting specific local demands. This provision of services can be delivered by a mix of providers, and by staff working in a range of roles. The particular mix of providers and roles can be expected to vary from area to area, but the local NHS is best placed to determine what is most appropriate in each case.

Mike Penning: To ask the Secretary of State for Health what recent assessment he has made of the likely effect on the time taken to transfer patients by ambulance to appropriate acute care facilities of the closure of acute services at Hemel Hempstead hospital. [268887]

Phil Hope: There is no recommended minimum or maximum travelling time, or distance, to healthcare facilities issued by the Department. However, regardless of the reconfiguration of services, there are national standards for the response time of ambulances. 75 per cent. of all ambulance category A (life-threatening) 999 calls should be responded to in eight minutes or less (95 per cent. in 19 minutes) and 95 per cent. of category B (serious) 999 calls should be responded to in 19 minutes or less, ensuring that appropriate, timely care is provided to patients at the scene.

Home Care Services: Standards

Mr. David Anderson: To ask the Secretary of State for Health what recent steps he has taken to ensure that levels of care users of domiciliary care support services receive are consistent with the standard set by his Department; and if he will make a statement. [270349]

Phil Hope: The new integrated regulator of health and adult social care, the Care Quality Commission (CQC), took over from the Commission for Social Care Inspection, the Healthcare Commission and the Mental Health Act Commission on 1 April 2009.

CQC is responsible for registering and inspecting all providers of domiciliary care. It has a wide range of enforcement powers under the Care Standards Act 2000. These include issuing notices requiring improvement within a specified time period, prosecuting providers for failing to provide proper care and even closing down a provider by cancelling its registration.

From 2010, CQC will be introducing a new system of registration under the Health and Social Care Act 2008. This will give it additional powers to fine providers and suspend those which are not providing acceptable levels of care.

Hospitals: Infections

Mr. Evans: To ask the Secretary of State for Health (1) how many patients were screened for healthcare-acquired infections in *(a)* the North West and *(b)* England in each of the last five years; and if he will make a statement; [269148]

(2) how many patients were treated for healthcare-acquired infections in *(a)* the North West and *(b)* England in each of the last five years; and if he will make a statement. [269149]

Ann Keen: Data on screening for health care associated infections are not collected centrally. The information requested on treatment is not collected centrally. The best available data are from the mandatory surveillance system, which covers methicillin-resistant *Staphylococcus aureus* (MRSA) bloodstream infections, *Clostridium difficile* infections, glycopeptide-resistant enterococci bloodstream infections, and orthopaedic surgical site infections operated for the Department by the Health Protection Agency (HPA).

Data for England and North West of England respectively are provided in the following tables. Regional data are not available for surgical site infections.

Since April 2001, all acute national health service trusts in England have been obliged to report all cases of bloodstream infections caused by MRSA. These data comprise all specimens processed by NHS acute trust laboratories, not just those from in-patients and include infections acquired in hospital and elsewhere. These data are only available by financial year.

Number of cases of bloodstream infections caused by MRSA

	Number of cases of bloodstream infections caused by MRSA	
April to March each year	*England*	*North West England*
2003-04	7,700	975
2004-05	7,233	1,016
2005-06	7,096	1,031
2006-07	6,383	936

Number of cases of bloodstream infections caused by MRSA

April to March each year	Number of cases of bloodstream infections caused by MRSA	
	England	North West England
2007-08	4,448	670

All acute NHS trusts in England are obliged to report all cases of *Clostridium difficile* (*C. difficile*) infection in people aged 65 years and over since January 2004. These data comprise all specimens processed by NHS acute trust laboratories, not just those from in-patients and include infections acquired in hospital and elsewhere.

Number of cases of C. difficile infection in people aged 65 years and over

	Number of cases of C. difficile infection in people aged 65 years or over	
	England	North West England
2004	44,563	5,460
2005	51,829	6,513
2006	55,635	7,441
2007	50,461	8,436

Since October 2003, all acute NHS trusts in England are obliged to report all cases of blood stream infections caused by glycopeptide resistant enterococci. These data comprise all specimens processed by NHS acute trust laboratories, not just those from in-patients and include infections acquired in hospital and elsewhere. These data are available from October to September; they are not available by calendar year.

Number of cases of blood stream infections caused by glycopeptide-resistant enterococci

October to September each year	Number of cases of bloodstream infections caused by glycopeptide-resistant enterococci	
	England	North West England
2003-04	628	59
2004-05	757	113
2005-06	903	130
2006-07	910	114

Since April 2004, the following data have been collected from the mandatory surveillance of surgical site infections (SSIs) in orthopaedic categories in English NHS hospitals. Hospitals carrying out orthopaedic surgery have to participate in the surveillance of at least one category for at least one quarter of the year. All of the SSIs reported are identified during the in-patient period.

	2004-05		2005-06		2006-07		2007-08	
Surgical category	No. of operations	No. of SSIs	No. of operations	No. of SSIs	No. of operations	No. of SSIs	No. of operations	No. of SSIs
Hip prosthesis	16,765	211	21,046	190	25,397	181	28,510	145
Knee prosthesis	13,848	103	22,843	128	25,167	96	30,605	87
Open reduction of long bone fracture	3,277	66	2,774	44	3,678	69	3,752	35
Hip hemiarthroplasty	5,396	219	6,328	230	6,709	211	6,333	151

Mr. Evans: To ask the Secretary of State for Health what estimate he has made of the cost of treating cases of *(a)* clostridium difficile and *(b)* other healthcare-acquired infections in each of the last five years; and if he will make a statement. [269150]

Ann Keen: The Department of Health does not routinely collect this information and no single definitive cost figure exists. However, a study by the Public Health Laboratory Service (PHLS) in 1999 estimated that Healthcare Associated Infections (HCAIs) cost the national health service £1 billion a year. This remains the best available estimate of NHS costs.

Mr. Evans: To ask the Secretary of State for Health how many legal actions have been taken against NHS trusts by the families of patients whose deaths were caused by *(a)* clostridium difficile and *(b)* other superbug infections in each of the last five years; and if he will make a statement. [269828]

Ann Keen: The NHS Litigation Authority (NHSLA) cannot run a report on its database to identify claims relating to cause of death. This answer could therefore be obtained only at disproportionate cost.

However, the NHSLA does record on its claims database:

whether the claimant is the a family member;

an injury being a health care associated infection; and

the cause, such as failed infection control policy or hospital hygiene.

The NHSLA have supplied this information in the following table.

Number of claims received 2004-05 to 2008-09 where the claim is made by a family member[1], the injury is a health care associated infection, and the cause is failed infection control policy/hospital hygiene as at 31 March 2009 split between Clostridium difficile and other superbug infections

NHSLA notification year	Claim status	Clostridium difficile	Other superbug
2004-05	Incident	—	—
	Open	—	—
	Closed—nil damages	—	6
	Settled—damages paid		1
	Total	—	7
2005-06	Incident	—	—
	Open	—	—
	Closed—nil damages	—	3
	Settled—damages paid	—	1
	Total	—	4
2006-07	Incident	—	1
	Open	2	3
	Closed—nil damages	4	11
	Settled—damages paid	3	2
	Total	9	17

Number of claims received 2004-05 to 2008-09 where the claim is made by a family member[1], the injury is a health care associated infection, and the cause is failed infection control policy/hospital hygiene as at 31 March 2009 split between Clostridium difficile and other superbug infections

NHSLA notification year	*Claim status*	*Clostridium difficile*	*Other superbug*
2007-08	Incident	1	—

	Open	20	8
	Closed—nil damages	6	1
	Settled—damages paid	2	—
	Total	33	10
Total		69	51

[1] Claims brought by a family member are likely to indicate that the patient died, although some may be on behalf of patients that lack the requisite mental capacity to make a claim.

Mr. Evans: To ask the Secretary of State for Health how many NHS trusts have admitted liability for patient deaths caused by *(a)* clostridium difficile and *(b)* other superbug infections in each of the last five years; and if he will make a statement. [269829]

Ann Keen: The NHS Litigation Authority cannot run a report on its database to identify claims relating to admissions of liability for patient deaths. This answer could therefore be obtained only at disproportionate cost.

Mr. Evans: To ask the Secretary of State for Health what recent assessment he has made of the effectiveness of mandatory screening for *(a)* clostridium difficile and *(b)* other superbug infections. [269830]

Ann Keen: The available evidence does not suggest that screening of patients without symptoms of intestinal infection for Clostridium difficile would be clinically effective, as patients without symptoms are not considered to present an increased risk of infecting others. As set out in current guidance, all those aged 65 years or over in hospital with diarrhoea should be tested for C. difficile and other patients tested as clinically indicated. This will ensure the infection is identified quickly and appropriate measures are taken to treat the patient and minimise infection of other patients.

From 1 April 2009, the national health service has been screening all relevant patients for methicillin-resistant *Staphylococcus aureus* (MRSA) before planned operations. This will help the NHS reduce the chances of patients getting an MRSA infection, or passing MRSA onto another patient but it is too early to assess the efficacy of screening. There are no other national screening programmes for health care associated infections.

NHS

Tim Loughton: To ask the Secretary of State for Health which *(a)* NHS hospitals, *(b)* primary care trusts, *(c)* strategic health authorities and *(d)* general practice surgeries (i) he and (ii) each other Minister in his Department has visited since 27 June 2007. [268148]

Mr. Bradshaw: The information requested has been placed in the Library.

NHS: Manpower

Mike Penning: To ask the Secretary of State for Health how many full-time posts in primary care trusts (PCTs) in England became part-time in the year following the merging of PCTs in 2006. [270278]

Ann Keen: This information is not collected centrally.

Nurses: Disqualification

Mr. Lansley: To ask the Secretary of State for Health what the average age of disqualified nursing staff was in the most recent period for which figures are available; and what estimate his Department had made of such figures in each of the last three years. [269421]

Ann Keen: This information is not held by the Department. The hon. Member may wish to contact the Nursing and Midwifery Council, which is an independent, statutory body.

Nurses: Pensions

Mr. Andrew Turner: To ask the Secretary of State for Health how many and what proportion of retired nurses have had their pension payments *(a)* reduced and *(b)* increased in the last 12 months; and for what reason in each case. [270088]

Ann Keen: The information requested is not available centrally. NHS Pensions holds individual membership records to enable the actual calculation of pension benefits to take place and to support periodical actuarial investigations by the scheme actuary. Pension benefits may change for a variety of reasons such as pensions increase review, re-employment, abatement, or the adjustment of the guaranteed minimum pension (GMP) element. It is not possible to specifically identify subsequent reductions or increases to pension benefits or the reason for each change. With reference to reductions in pension payments for all NHS Pensioners in relation to GMP, I refer the hon. Member to the written answer I gave the hon. Member for Eddisbury (Mr. O'Brien) on 31 March 2009, *Official Report*, column 1107W.

Nurses: Schools

Anne Milton: To ask the Secretary of State for Health (1) how many qualified school nurses there were in England in each of the last five years; [270090]

(2) how many school nurses in England did not have a post-registration qualification in each of the last five years. [270091]

Ann Keen: The number of qualified school nurses in England in each of the years requested is given in the following table. Other qualified nurses working in a school environment are also given.

National health service hospital and community health services: Qualified nursing staff in the school nursing area of work in England as at 30 September each specified year

			Headcount
	Qualified school nursing nurses	*Qualified school nurse*[1]	*Other qualified nurses*
2004	2,409	856	1,553
2005	2,887	943	1,944
2006	2,968	1,129	1,839
2007	3,162	1,227	1,935
2008	3,643	1,447	2,196

[1] Qualified school nurse: Qualified school nurses hold the Nursing and Midwifery Council (NMC) Specialist Practice Qualification with an outcome in school nursing - which is a recordable qualification on the NMC register.

Nurses: Vacancies

Mr. Lansley: To ask the Secretary of State for Health what the three-month vacancy rate was for nurses in each specialist groups in each year since 2004. [269303]

Ann Keen: The following tables give the three-month vacancy rates for each nurse speciality since 2004.

The Information Centre for health and social care Vacancies Survey March each year—NHS three-month vacancies in England for qualified nursing, midwifery and health visiting staff, all areas of work

2004	2.2	40	797	1,188	2.7	693	27,485	39,988

Three month vacancy notes:

1. Vacancy data are from the Vacancies Survey.
2. Three month vacancy information is as at 31 March each specified year.
3. Three month vacancies are vacancies which Trusts are actively trying to fill, which had lasted for three months or more (full time equivalents).
4. Three month Vacancy Rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post.
5. Three month Vacancy Rates are calculated using staff in post from the Non-Medical Workforce Census September each previous year.
6. Percentages are rounded to one decimal place.

General notes:

1. Vacancy and staff in post numbers are rounded to the nearest whole number.
2. Calculating the vacancy rates using the above data may not equal the actual vacancy rates.

Osteoporosis, Dementia and Alzheimer's

Dr. Kumar: To ask the Secretary of State for Health (1) how many people were diagnosed with *(a)* osteoporosis and *(b)* dementia in (i) England, (ii) the North East, (iii) Tees Valley and (iv) Middlesbrough South and East Cleveland constituency in each of the last 10 years; [268359]

(2) how many people have been diagnosed with Alzheimer's disease in *(a)* England, *(b)* North East, *(c)* Tees Valley and *(d)* Middlesbrough South and East Cleveland constituency in each of the last five years. [268431]

Phil Hope: The Department does not collect information on the number of people diagnosed with osteoporosis or dementia in each of the last 10 years. However, the Dementia UK report, published in 2007 by the Alzheimer's Society, estimated that there were 683,597 people in the United Kingdom with dementia.

The Department does not have data for the number of people diagnosed with Alzheimer's disease in the last five years but the Department through the national Quality and Outcomes Framework for England records the number of people recorded on practice disease registers with a diagnosis of dementia covering 2006-07 and 2007-08.

Alzheimer's disease accounts for 50-75 per cent. of cases of dementia so the count of patients with dementia gives an indication of the number with Alzheimer's disease.

The figures are given in the following table and represent the total for patients with dementia.

	Financial year	
	2007-08	*2006-07*
Stockton on Tees Teaching Primary Care Trust (PCT)[1]	745	737
Middlesbrough PCT	487	524
Redcar and Cleveland PCT	629	575
North East Strategic Health Authority	12,420	12,128
England	220,246	212,794

[1] This PCT was formerly known as North Tees.

We are unable to supply information for all the areas requested as some are not health areas. Where this occurs we have supplied information for the health areas that best fit those requested.

Quality Health Ltd.

Mr. Scott: To ask the Secretary of State for Health on what dates meetings took place between Ministers of his Department and representatives of Quality Health Ltd. in the last 12 months; which Ministers attended each meeting; whether minutes were kept of each meeting; and what other communications his Department has had with Quality Health Ltd. during that period. [268658]

Mr. Bradshaw: No meetings between Ministers and Quality Health Ltd. have taken place in the last 12 months.

Quality Health Ltd. has a relationship with the Department acting in its capacity as a sub-contractor to Northgate Information Solutions Ltd., the company awarded in February 2009 a three-year contract to support the implementation of the Department's Patient Reported Outcome Measures programme.

During mobilisation of the Patient Reported Outcome Measures programme, Departmental officials have had a significant volume of communications with Quality Health Ltd. either directly or indirectly, in writing, in person and by telephone over the period in question.

Prior to contract award, communications have taken place as part of the normal procurement process. These communications were no different to those had with all bidders. Communications have included a Quality Health Ltd. representative attending Market Information Day events to which potential bidders were invited, and Quality Health Ltd. representatives also attending formal interviews in their capacity as a member of the short-listed bidder's bid team.

Direct communications have also taken place in relation to implementation of the Patient Reported Outcome Measures programme. Communications began once Northgate Information Solutions Ltd. were notified of their status as preferred bidder and had decided to work towards implementation ahead of contract signature at their own risk.

On 3 March 2009, subsequent to contract signature, a camera crew contracted to Quality Health Ltd. recorded an interview with my noble Friend the Parliamentary Under-Secretary of State (Lord Darzi) to form part of a training video about Patient Reported Outcome Measures.

Sexually Transmitted Diseases: Greater London

Sarah Teather: To ask the Secretary of State for Health how many people were diagnosed with a sexually-transmitted infection in each London health trust area in each of the last five years. [269263]

Dawn Primarolo: Data on the number of diagnoses of sexually transmitted infections (STIs) in genitourinary medicine (GUM) clinics is only available by strategic health authority (SHA). The following table gives the number of diagnoses of STIs in GUM in the London SHA between 2003 and 2007, the latest year for which figures are available.

	2003	*2004*	*2005*	*2006*	*2007*
New STI diagnoses[1]	90,791	92,014	89,823	89,704	96,223
Other STI diagnoses[1]	68,954	73,072	76,386	72,652	79,607
Total STI diagnoses	159,745	165,086	166,209	162,356	175,830

---

[1] Includes diagnoses defined the in notes 5 and 6 to the following table

Notes:

1. The data available from the KC60 statutory returns are for diagnoses made in GUM clinics only. Diagnoses made in other clinical settings, such as General Practice, are not recorded in the KC60 dataset.
2. The data available from the KC60 statutory returns are the number of diagnoses made, not the number of patients diagnosed.
3. The information provided has been adjusted for missing clinic data.
4. Data are unavailable for 2008.
5. New STI diagnoses include: Chlamydial infection (uncomplicated and complicated), Gonorrhoea (uncomplicated and complicated), Infectious syphilis, Genital Herpes, simplex (first attack), Genital warts (first attack), New HIV diagnosis, Non-specific genital infection (uncomplicated and complicated), Chancroid/lymphogranuloma venerum (LGV)/Donovanosis, Molluscum contagiosum, Trichomoniasis, Scabies, Pediculus pubis.
6. Other STI diagnoses include: Early latent, congenital and other acquired syphilis, Recurrent genital Herpes simplex, Recurrent and re-registered genital warts, Subsequent HIV presentations (including AIDS), Ophthalmia neonatorum (chamydial or gonococcal), Epidemiological treatment of suspected STIs (syphilis, Chlamydia, gonorrhoea, non-specific genital infection).

Health Protection Agency, KC60 returns

In addition to STIs diagnosed in GUM clinics, the National Chlamydia Screening Programm[illegible]CSP) provides Chlamydia screening to asymptomat[illegible]ople under the age of 25 years of age in England. The NCSP was launched in 2003, when a phased implementation started. The following table shows the number of diagnoses made of Chlamydia in patients between the ages of 15-24 years between 1 April 2003 and 31 December 2008 London Primary Care Trusts (PCTs).

Area	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*

[1] Cell size of 1 to 4 has been masked to protect deductive disclosure in accordance with Office of National Statistics guidelines.

Notes:

1. The NCSP has been phased in since 2003 with all 152 PCTs reporting data to the programme since March 2008. Therefore note that numbers of diagnoses have risen substantially as an increasing proportion of the target population have been tested.
2. NSCP data are presented by PCT of residence.
3. The data from the NCSP Core Dataset are for Chlamydia screens conducted within the NCSP outside of GUM clinics only.
4. The data available from the NCSP are the number of diagnoses made and not the number of patients diagnosed.
5. Data include Chlamydia tests for males, females, and those with unknown/unspecified sex.
6. Data presented are based on tests with confirmed positive diagnoses only.

National Chlamydia Screening Programme Core Dataset

Social Services

Andrew George: To ask the Secretary of State for Health how much each local authority in England spent on *(a)* handling complaints relating to assessment and delivery of care packages for adult social care at stages 1, 2 and 3 of the complaints procedure and *(b)* handling any such complaints in respect of which applications for review were made to the courts in each of the last five years. [268827]

Phil Hope: Data on personal social services expenditure on complaints procedures are collected and published by the NHS Information Centre for health and social care. The data are not broken down by the cost of each stage of complaint and the cost of handing complaints that are made to courts.

Information on the gross current expenditure on complaints procedures, broken down by local authority, for the years 2003-04 to 2007-08 is provided in the following tables.

Gross current expenditure for complaints procedures by local authority, 2003-04 to 2007-08

Notes:

1. The information provided on expenditure is derived from data collected annually on social services expenditure from Councils with Adult Social Services Responsibilities (CASSRs) on the form PSS EX1. This collection has been the responsibility of the Information Centre since April 2005. Prior to this date data were collected by the Department of Health.
2. In 2005-06 and 2006-07 the expenditure on complaints was split into three categories: monies spent on complaints relating to Adult Services, complaints relating to Children's Services and complaints that were for Generic Services.
3. In 2007-08 the PSS EX1 was changed to split all Personal Social Services Expenditure into expenditure on Children and Families Services and Adult Services, therefore for this year there are two categories; monies spent on complaints relating to Adult Services and complaints relating to Children's Services.
4. The expenditure recorded against complaints includes the relevant costs of the complaints procedure required by the national health service and Community Care Act 1990.

HOME DEPARTMENT

Alcoholic Drinks: Children

Chris Grayling: To ask the Secretary of State for the Home Department how many people received the maximum fine for selling alcohol to under age persons in 2007. [269237]

Jacqui Smith: The number of persons who received the maximum fine for selling alcohol to a person aged under 18 in 2007 is set out in the following table. In 2007 there were also 3,583 persons who received a penalty notice for disorder (PND) for selling alcohol to someone under the age of 18.

Offenders fined maximum amount for selling alcohol to under 18's, 2007

	Maximum fine amount (£)	*Number of persons fined maximum*
Sale of alcohol to person under 18	5,000	0
Allowing sale of alcohol to person under 18	5,000	0
Persistently selling alcohol to children	10,000	0
Selling etc intoxicating liquor to person under 18 for consumption on the premises	500	7
Wholesaler selling intoxicating liquor to person under 18	1,000	0

Note:

1. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.
2. These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest penalty has been imposed, where the same penalty has been imposed for more than one offence the principal offence is the one for which the statutory maximum is most severe.

Source:

OMS Analytical Services, Ministry of Justice

Alcoholic Drinks: Fines

Mr. Ruffley: To ask the Secretary of State for the Home Department how many fines were levied for consuming alcohol in a designated public place in each police force area in each year since 1997; what the average fine in each year was; and what percentage of fines were unpaid. [263498]

Mr. Alan Campbell: The number of fines issued in court and the average fine amount, in all police force areas, from 2002 (earliest available) to 2007 (latest available) are given in the table. The data for unpaid fines are not broken down by offence but the national payment rate for all financial penalties imposed by the courts in 2007-08 was 95per cent.

The data in the table do not include penalty notices for disorder (PNDs). The number of PNDs issued for failure to comply with a requirement by a constable within a Designated Public Place Order are as follows: 485 in 2004, 712 in 2005, 1,061 in 2006 and 1,544 in 2007.

Number of fines issued and average fine amount by police force area (PFA) for drinking in a designated public place[1], 2002-07

n/a = Not applicable

[1] Under the Criminal Justice and Police Act 2001 which came into force on 1 September 2001, there were no offenders sentenced in 2001.

[2] Excludes one fine amount which exceeds the statutory maximum and may be erroneous.

Notes:

1. Where a PFA does not appear in the list there have been no offenders fined in any of the years listed.
2. These data are presented on the principal offence basis.
3. These figures have been drawn from administrative data systems.
4. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Source:

OMS Analytical Services, Ministry of Justice

Buses: Damage

Mr. Leech: To ask the Secretary of State for the Home Department how many incidences of criminal damage to buses have been recorded in each of the last five years. [269996]

Mr. Alan Campbell: The information requested is not available centrally. Offences committed in relation to buses cannot be separately identified in the recorded crime statistics collected by the Home Office.

Departmental Carbon Emissions

Greg Clark: To ask the Secretary of State for the Home Department whether her Department has adopted the Carbon Trust's Carbon Management Programme. [266732]

Mr. Woolas: The Home Office has joined the Carbon Trust's Carbon Management Programme. This is providing us with technical and change management support to help us realise savings in carbon emissions.

Departmental Energy

Greg Clark: To ask the Secretary of State for the Home Department what steps have been taken by *(a)* her Department and *(b)* its agencies to improve the thermal efficiency of their buildings in the last 12 months. [266749]

Mr. Woolas: The Department is committed to the Sustainable Operations on the Government Estate (SOGE) targets which include a requirement to reduce absolute carbon emissions, improve energy efficiency per m^2 and a mandated action to apply the building research establishments environmental assessment method (BREEAM) to all new build and major refurbishment projects.

In the last 12 months a range of activities have been undertaken across the estate as part of refurbishment projects which will improve thermal efficiency of buildings, including installation of double glazing at an Identity and Passport Service office in Liverpool and upgrading of thermostatic controls to improve efficiency in certain buildings on the UK Border Agency (UKBA) estate in Croydon. In addition, our newest office building, Vulcan house, a UKBA property was Sheffield's first BREEAM excellent rated building. It has a range of measures integrated into the design and construction to optimise thermal efficiency including setting the orientation to mitigate the effects of solar gain, building fabric insulation and a thermally efficient envelope including a vegetation roof that acts as a thermal barrier in both winter and summer. We will continue to employ these innovative and effective design methods to maximise thermal efficiency in future construction projects.

The Department has recently signed up to the Carbon Trust Management Programme which will assist us in identifying opportunities to further improve efficiency on our existing estate.

Greg Clark: To ask the Secretary of State for the Home Department what recent progress her Department has made towards the target of increasing its energy efficiency per square metre of its Estate by 15 per cent. by 2010, relative to 1999-2000 levels; and if she will make a statement. [266689]

Mr. Woolas: The Department is committed to the Sustainable Operations on the Government Estate (SOGE) targets which include a requirement to improve energy efficiency per m^2 by 15 per cent. by 2010, and then 30 per cent. by 2020, based on 1999-2000 levels. Energy efficiency performance in 2007-08, the latest year for which data are available, compared to 1999-2000 shows that we are 13 per cent. less efficient than in the baseline year. These figures are given in the annual Sustainable Development in Government Assessment 2008 published by the Sustainable Development Commission (SDC) in December 2008.

Our estate structure and size significantly altered as a result of Machinery of Government changes in the last reporting period, following the transfer of the National Offender Management Service, incorporating the probation and prisons estates, to the Ministry of Justice in May 2007.

We will be applying to re-baseline our data for the next reporting period to reflect these estate changes and some data improvements. This will assist us to report Home Office energy efficiency per square metre for our buildings (including those with shared occupancy), permit fairer comparisons to the baseline year and identify what level of activity may be required to meet the 2010 target. The Department has recently signed up to the Carbon Trust Management Programme which will assist us in identifying opportunities to further improve efficiency.

	kWh/m^2
	Energy per m^2
1999-2000[1]	327
2007-08[1]	371

[1] Includes core Home Office, UK Borders Agency, Identity and Passport Service as well as the National Offender Management Service (NOMS), since transferred to the Ministry of Justice.

Departmental ICT

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of IT products in each category procured for each division of her Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if she will make a statement. [269626]

Mr. Woolas: The Department contracts for the provision of IT services with suppliers and, therefore, does not directly buy IT products. In accordance with the Department's procurement policy the procurement of IT services requires the evaluation of suppliers' environmental policies and practices and the contracts require suppliers to meet the Department's and Government's sustainability standards on an ongoing basis.

Departmental Public Consultation

Mr. Ruffley: To ask the Secretary of State for the Home Department which opinion research companies her Department employed in 2008-09; and what the cost was of employing each. [269691]

Mr. Woolas: During the financial year 2008-09 the Home Office and its agencies have employed the following companies for public opinion polling at these total costs:

1. Central Home Office: Ipsos MORI - £177,775
2. UK Border Agency: Ipsos MORI - £89,050
3. Identity and Passport Service: TNS - £67,800

Departmental Recycling

Mr. Rob Wilson: To ask the Secretary of State for the Home Department how much and what proportion of its waste her Department recycled in *(a)* 2006-07 and *(b)* 2007-08. [266778]

Mr. Woolas: Central Government Departments and their executive agencies are required to report performance data on the proportion of waste recycled on their office estate annually as part of the Sustainable Development in Government (SDiG) reporting process. The latest assessment of Government's performance against these targets was published by the Sustainable Development Commission on 12 December 2008 http://www.sd-commission.org.uk/sdig2008/

We reported 44 per cent. and 25 per cent. of waste was recycled in 2006-07 and 2007-08 respectively. Direct comparisons between these two years cannot be easily drawn as the data were extrapolated across the estate using a very small sample of UK Border Agency buildings plus Home Office headquarters. We are currently seeking a rebaselining of our data to a period with more representative and comprehensive data.

The figures for Home Office Headquarters on its own for 2006-07 and 2007-08 are as follows:

	Waste recycled (tonnes)	*Percentage of total waste recycled*
2006-07	224.40	45
2007-08	224.56	40

Departmental Sick Leave

David Simpson: To ask the Secretary of State for the Home Department how many staff in her Department *(a)* were disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last 12-months. [262235]

Mr. Woolas: Staff with a poor sickness absence record are managed under attendance management policies operated within Home Office Headquarters, the UK Border Agency (UKBA), the Criminal Records Bureau (CRB), and the Identity and Passport Service (IPS).

During the period 1 March 2008-28 February 2009, a total of 357 members of staff within Home Office HQ and UKBA were disciplined short of dismissal under attendance management policies. A breakdown by month is shown in the following table:

Table 1: Number of Home Office HQ and UKBA staff disciplined short of dismissal under attendance management procedures

	Staff disciplined short of dismissal
March 2008	45
April 2008	33
May 2008	33
June 2008	29
July 2008	30
August 2008	29
September 2008	20
October 2008	30
November 2008	38
December 2008	21
January 2009	33
February 2009	16
Total	357

During the same period a total of 37 members of staff within Home Office HQ and UKBA were dismissed under attendance management policies. A further breakdown by month has been withheld from the answer as in most cases there were fewer than five dismissals in each month.

The Identity and Passport Service issued 249 formal disciplinary warnings, and dismissed 25 members of staff under its managing attendance policy during the period 1 March 2008-28 February 2009. The figure for the number of warnings issued is the total number of all disciplinary warnings issued (short of dismissal), rather than the number of people who were disciplined short of dismissal. This information, along with a breakdown of the figures by month, could only be provided at a disproportionate cost by carrying out a detailed manual review of the statistics.

IPS figures also exclude General Register Office (GRO) staff as GRO data have not yet been migrated to the IPS HR system. The information requested could only therefore be obtained using manual methods which would incur disproportionate cost.

Less than five members of CRB staff have been dismissed under Sickness Absence Management policies during the last 12 months; further information on those cases is therefore withheld on confidentiality grounds. Information on the number of CRB staff disciplined short of dismissal is not held centrally.

Departmental Written Questions

Mr. Ruffley: To ask the Secretary of State for the Home Department how many parliamentary questions for written answer her Department took longer than 10 days to answer in 2008-09. [269696]

Mr. Alan Campbell: As of 3 April 2009, the Home Office had received 1,910 written parliamentary questions in session 2008-09. Of the 1,910 written questions, 205, or 10.7 per cent. took longer than 10 sitting days to answer.

Deportation: Sri Lanka

Mr. Dhanda: To ask the Secretary of State for the Home Department if she will impose a moratorium on the deportation to Sri Lanka of failed asylum seekers who are ethnic Tamils. [269316]

Mr. Woolas *[holding answer 20 April 2009]:* All asylum claims, including those from Tamils, are considered on their individual merits in accordance with our international obligations against the background of the latest country information and relevant caselaw. Where an applicant has been identified by the asylum decision making process and the appeals determination process not to be in need of international protection, we would expect the individual concerned to leave the UK voluntarily. If they do not leave voluntarily they may have their return enforced.

Entry Clearances: Overseas Students

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many and what proportion of students entering each higher education institution in the UK had study visas in each year since 2006; and how many such students were granted extensions to their visas after graduation in order to undertake work in the UK. [269162]

Mr. Woolas: The information requested is not available centrally and could be obtained only at disproportionate cost.

Damian Green: To ask the Secretary of State for the Home Department how many foreign students were prosecuted for breach of the work conditions of their visa in 2008. [269746]

Mr. Woolas: The system used by the UK Border Agency to record data relating to prosecutions for immigration offences (including those found working in breach of their conditions) does not categorise individuals by the nature of their stay in the UK. To establish the number of foreign students prosecuted for this offence, therefore, would require the examination of individual records at disproportionate cost.

It should be noted, however, that the UK Border Agency would normally seek to remove an individual under such circumstances, rather than to prosecute them, as the former presents a more cost effective alternative.

Essex Police Authority

Mr. Amess: To ask the Secretary of State for the Home Department with reference to the answer of 26 November 2008, *Official Report*, columns 2254-5W, on Essex Police Authority, when she plans to write to the hon. Member for Southend West; and if she will make a statement. [242693]

Mr. Coaker: I wrote to the hon. Gentleman on 20 April 2009.

Identity Cards: Foreigners

Lynne Jones: To ask the Secretary of State for the Home Department how much her Department has spent to date on readers for identity cards for foreign nationals. [258100]

Mr. Woolas: To date we have not spent anything on card readers. Cards may currently be verified using the card verification phone line and as the volume of cards in circulation increases other forms of verification will be introduced.

Immigration

Mr. Grogan: To ask the Secretary of State for the Home Department how many people have been granted leave to remain on the grounds of at least 14 years' continuous residence in the UK in each year since 2004. [268632]

Mr. Woolas *[holding answer 2 April 2009]:* The following table shows the number of main applicants (excluding dependants) granted indefinite leave to remain on the grounds of a 14-year long residency each year since 2004.

	Main applicants
2005	725
2006	820
2007	815
2008	910
2009	305
Total	4,430

Notes:

1. 2009 figures are for a partial year—1 January to 30 March.

2. The figures quoted are not provided under national statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

3. The individual figures and total have been rounded to the nearest five.

Immigration: Manpower

Damian Green: To ask the Secretary of State for the Home Department pursuant to the answer of 1 April 2009, *Official Report*, column 1264W, on immigration: manpower, how much of the £6.7 million paid by her Department to private companies for the period 2007-08 was allocated to *(a)* staffing and *(b)* other costs. [269748]

Mr. Woolas: Payments made to third party suppliers for goods and services provided are not, with the exception of agency staff costs, recorded in the accounts as staff or pay costs. They are classified as either non-pay or capital expenditure. The £6.7 million paid to French private companies in 2007-08 is recorded as:

(i) Non pay - £6.6 million

(ii) Capital - £0.1 million

Members: Correspondence

Mr. MacShane: To ask the Secretary of State for the Home Department when a reply will be sent to the right hon. Member for Rotherham's letter sent on 22 February 2009, on whether Mr. Ismail Kamal Edirise was deported or removed from the United Kingdom to Germany after his detention in 2007. [264623]

Mr. Woolas *[holding answer 19 March 2009]:* The UK Border Agency wrote to my right hon. Friend on 19 March 2009.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department when she plans to reply to the letter from the hon. Member for Isle of Wight, reference CTS: M1893818, sent on behalf of a constituent; and when she plans to reply to that constituent. [268391]

Mr. Woolas: The letter from the hon. Member for Isle of Wight, reference M1893818, was answered on 18 October 2008. I am sending a copy of this letter to the hon. Member. The full response to the constituent referred to within that letter will be sent this month (April 2009), and a copy will also be sent to the hon. Member.

Offenders: Personal Records

Chris Huhne: To ask the Secretary of State for the Home Department with reference to the statement of 10 January 2007, *Official Report*, column 285, on the criminal records backlog, how many of the paper records of crimes committed by British citizens in other EU member states had been entered on the Police National Computer at the latest date for which figures are available; how many of the subjects of such records were convicted of an offence in the period between the receipt of their record by her Department and its entry on the Police National Computer; and for which offences those individuals were convicted. [257742]

Jacqui Smith *[holding answer 26 February 2009]:* The paper records concerned contained some 22,000 notifications relating to UK citizens who had been convicted abroad. Of these notifications 1,722 offenders had committed offences equivalent to non-recordable offences in the UK and as such their details would only have been entered on the Police National Computer (PNC) where they accompanied a recordable offence. All the other notifications have been input on the PNC where a suitable matching UK offence exists.

We would only be able to obtain information relating to how many of the subjects of such notifications were convicted of an offence between receipt of their notification and the entry of the record onto the PNC, and the offences for which those individuals were convicted, by individually interrogating those subjects' records on the PNC. We are therefore unable to provide this on cost grounds.

Olympic Games 2012: Security

Mr. Don Foster: To ask the Secretary of State for the Home Department by what date she expects to have appointed private security companies to provide security during the London 2012 Olympics. [270041]

Mr. Coaker: Responsibility for the appointment of private security companies for the 2012 games rests with the London 2012 Organising Committee (LOCOG) rather than the Home Office. LOCOG is undertaking a range of venue assessments to clarify its requirements and will look to appoint specific companies in due course as part of the wider preparations for the games. The Home Office and LOCOG are working closely with the private security industry to ensure the provision of sufficient trained security staff for the games overall.

LOCOG will procure all its goods and services through the 'Compete 4' web portal. Any companies that wish to express an interest in LOCOG contracts should be directed to sign up to 'Compete 4'. This can be done via LOCOG's web-page at:

www.london2012.com/business

There are of course several elements to the expected security needs for the games, covering both guarding staff and technical security measures.

Overseas Visitors: Uganda

Andrew Rosindell: To ask the Secretary of State for the Home Department how many Ugandan citizens visited the UK in the last 12 months. [269483]

Mr. Woolas: The latest available statistics on the number of Ugandan nationals given leave to enter the United Kingdom as visitors for 2007 are given in the following table. Data for 2008 are scheduled for publication in August 2009.

The information shown is based on landing card information and may include the same individuals more than once if they visited the United Kingdom on multiple occasions in the period.

Statistics on passengers given leave to enter the United Kingdom by purpose of journey and nationality are published annually in table 2.3 of the Home Office publications 'Control of Immigration: Statistics United Kingdom' which are available in the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/pdfs08/hosb1008.pdf

Table 2.3 gives details of other reasons that Ugandan nationals entered the UK each year

Ugandan nationals given leave to enter the United Kingdom by purpose of journey, 2007[1,2]

Passengers admitted, by purpose of journey	*Number of journeys*
Total admitted	15,600
of which:	
Visitors	6,680
of which:	
Ordinary	4,990
Business	1,680

[1] May understate due to some administrative records on non-EEA nationals being unavailable for statistical analysis.

[2] Provisional.

Note:

Data rounded to 3 significant figures so may not sum to the total.

Right of Abode

Mr. Frank Field: To ask the Secretary of State for the Home Department what provisions in law govern the acquisition of the right of permanent settlement of foreign nationals who have been legally resident in the UK for five years. [269101]

Mr. Woolas *[holding answer 20 April 2009]:* The Immigration Rules can be accessed via the UK Border Agency website at:

http://www.bia.homeoffice.gov.uk/policyandlaw/immigrationlaw/immigrationrules/

Copies of the Immigration Rules are also available in the House Library.

Sexual Offences

Chris Huhne: To ask the Secretary of State for the Home Department what funding has been provided by central government for *(a)* sexual assault referral centres and *(b)* rape crisis centres in each of the last five years, broken down by constituency; and how much funding was provided for such centres located in (i) rural and (ii) urban areas. [260927]
